#### PREFACE

THE Yearbook was first published in 1914. Before its advent the official University Calendars were the only authentic sources of information regarding the personnel, organization, regulations, and recent activities of universities When British universities were few and university men took but little interest in the affairs of any except their own, the Calendars sufficed; but there are now 70, and each takes a growing interest in the others. The Calendars constitute a library of no mean dimensions—some 50,000 pages—and hardly anywhere except at the Universities Bureau are they all accessible. Much of their contents is of strictly local interest. In the Yearbook an attempt is made to extract from each of these bulky volumes such information as is likely to prove of interest to members of other Universities and Colleges, to Government Departments, Clubs, schoolmasters, and the public generally. It would be impossible to present a conspectus of this kind in a volume of manageable dimensions without resorting to the use of abbreviations and other devices for saving space. It is hoped that abbreviation has not been pressed beyond the limits of intelligibility.

In chapters introductory to the sections dealing with the Universities of Great Britain and Ireland, of Canada, of Australia, of South Africa, and of India, is collected such information regarding their history, regulations, and practice as they share in common Each section comprises three parts:

(1) A directory of the officers and members of the staff of the University. Much trouble has been taken in preparing these directories to ascertain the sources of the various degrees held by teachers, since such information gives in a small space the educational history of their holders. If no name of a university follows a degree, it may be assumed that the degree was conferred by the university upon whose staff the teacher is serving.

With the exception of honours conferred by H.M. the King, titles other than degrees are omitted, unless they throw light upon the standing of their holders in the subjects which they profess. It is, for example, of interest to learn that a medical teacher of a university overseas holds diplomas of the Royal Colleges, whereas the addition of the letters M.R.C.S., L.R.C.P., to the name of a teacher in the

United Kingdom who is also M.D cannot be said to convey information of importance

- (2) Under the heading "General Information" an account is given of the equipment in libraries, museums, laboratories, etc., of the university, the degrees, diplomas, and certificates which it confers, its composition fees, scholarships open to graduates, residential accommodation, extra-mural work, publications, etc.
- (3) The accounts of the universities which hold good with modifications from one issue to another are followed by reports of events of outstanding interest which occurred during the past academic year. They include statistics of the numbers of students in attendance and degrees conferred. These annual reports will be of great importance to future historians of the universities.

Appendices may be classified as (a) Summaries of regulations for the diplomas of the Medical Colleges and other Associations and Institutions of the United Kingdom, and the conditions governing admission to various professions and careers for which university studies are a fitting preparation, (b) matriculation examinations, (c) admission of students from abroad into the universities of the United Kingdom, (d) lists of inter-university scholarships and fellowships, and grants for research; (e) lists of professional schools of the universities of the United Kingdom and the distribution of subjects in which these universities, severally, may be said to specialize, (f) list of centres of research outside the universities

To this, as to the two previous editions, an Appendix has been added giving lists of titles of theses accepted for research degrees. Owing, chiefly, to the varying importance of thesis and examination in determining the award of a master's degree, it has been found necessary to restrict these lists to theses for the doctorate

The Universities Bureau acknowledges gratefully the ungrudging help afforded by the official Registrars and other correspondents in the Universities. This help gives the book an authoritative character to which it could not otherwise pretend.

# THE UNIVERSITIES BUREAU OF THE EMPIRE

At the final, Delegates', meeting of the Congress of 1912 it was resolved that steps be taken for the formation in London of a Bureau of Information for the Universities of the Empire. From its inception until November 1919 the Bureau was, by the great courtesy of the Director, allowed the use of a room in the Imperial Institute—In the spring of 1919 the Government offered a non-recurrent grant of £5000 to enable the Committee to secure and furnish premises suitable for the wide activities which the Bureau had developed, on condition that the Universities of the Empire undertook to provide funds adequate to its maintenance—The Committee thereupon purchased the lease of No. 50 Russell Square. Offices in this building have been let to—

THE BRITISH DIVISION OF THE AMERICAN UNIVERSITY UNION Director—Noel T Dowling, AM, LLB Associate Director—R. H. SIMPSON, MA

Office National des Universités et Écoles Françaises (removed to Cromwell Gardens, South Kensington, S W 7).

THE ANGLO-DANISH BUREAU, ESTABLISHED BY THE DANISH STUDENTS' INTERNATIONAL COMMITTEE. *Director*—J. H. Helweg, Cand. Mag.

THE COMMONWEALTH FUND: Committee of Award.

The Committee of the Universities Bureau desire to welcome members of any of the Universities of the King's Dominions overseas who may visit London, and to place the resources of the Bureau at their disposal. By calling at the Bureau or writing to the Secretary, visitors from overseas can obtain information regarding forthcoming lectures, conferences, etc., and by registering their names and addresses (whether by calling or by letter) they will enable the Bureau to offer them opportunities of getting into touch with one another.

#### COMMITTEE

- (Appointed in accordance with a resolution of the Delegates to the Congress of the Universities of the Empire, at a Meeting in London on July 5, 1912)
- Principal Sii J. Alfred Ewing, K.C.B., M.A., D.Sc., LL.D., F.R.S., representing Scotland
- PETER GILES, Litt D, Master of Emmanuel, representing Cambridge (Treasurer)
- Vice-Chancellor Sir W HENRY HADOW, C B E, MA, D Mus, representing Durham, Leeds, Liverpool, Manchester, and Sheffield
- J W JOYNT, M A, representing New Zealand
- Vice-Chancellor T LOVEDAY, M A, representing South Africa
- Right Hon LORD LUGARD, G C M G, C B, D S O, D C.L, LL D, representing Hong-Kong and Malta
- Vice-Chancellor P J MERRIMAN, MA, LLD, President University College, Cork, representing Iteland
- Principal Sit Theodore Morison, K C S I , K C I E , C B E , M A , D.C L , representing India
- Sir HARRY R REICHEL, M.A, LL D, representing Birmingham, Bristol, Reading, and Wales (*Chairman*).
- Prof. Sir Ernfst Rutherford, O.M., M.A., Hon. Sc.D., P.R.S., one of the two representatives of Canada
- T Franklin Sibly, D Sc. (Principal Officei), representing London
- H MARSHALL TORY, M.A., D Sc., LL D., one of the two representatives of Canada
- E M WALKER, M A., Pro-Provost of Queen's, representing Oxford
- Prof. J T WILSON, M A., M B, F R S, representing Australia

Secretary. ALEX HII L, M A, M.D, F.R C S.

#### STANDING COMMITTEE OF VICE-CHAN-CELLORS AND PRINCIPALS

- J. B. BAILLIE, O.B.E., M.A., D.Phil., LL.D.; Leeds.
- W. M. CHILDS, M A.; Reading.
- Sir J. Alfred Ewing, K.C.B., D.Sc., F.R.S., Edinburgh.
- T. C. Fitzpatrick, D.D.; Cambridge
- SIT GREGORY FOSTER, B.A., Ph D.; London.
- E. J. GWYNN, M.A., Litt.D.; Dublin
- SIT W. HENRY HADOW, C.B.E., D.Mus.; Sheffield.
- W. H. HEATON, M.A., Nottingham
- H. J. W. HETHERINGTON, M A, LL D., Liverpool.
- Sir James Colquioun Irvine, C B E., Ph D, D Sc., F R.S., St. Andrews.
- R. W. LIVINGSTONE, M A, D Lit., Belfast.
- T. LOVEDAY, M.A; Bristol.
- Sir Donald MacAlister, Bart., K C.B., M D, D.C.L., D.Sc., F.R.C.P.; Glasgow (Chairman).
- P. J. MERRIMAN, M.A.; National of Ireland.
- W. H. MOBERLY, D.S.O, Litt D.; Manchester.
- JOHN MURRAY, MA, Exeter
- Sir Thomas Oliver, D.L., D.C.L., M.D., D.Sc., F.R.C.P.; Durham.
- F. W. PEMBER, D.C.L; Oxford.
- Sir Charles G. Robertson, C.V.O., LL.D., Birmingham.
- Sir George Adam Smith, D.D., Litt D., F.B.A.; Aberdeen.
- A. H. Trow, D.Sc.; Wales
- K. H. VICKERS, M.A; Southampton.

Secretary. ALEX HILL, M.A., M D., F.R.C.S.

## UNIVERSITIES OF GREAT BRITAIN AND IRELAND

HISTORICAL SUMMARY—ADMISSION AS AN UNDERGRADUATE—ADMISSION OF STUDENTS FROM ABROAD—NUMBER OF FULL-TIME STUDENTS—NATIONAL UNIONS OF STUDENTS—TERMS—FEES—SCHOLARSHIPS—LIBRARIES—UNIVERSITY GRANTS—REPRESENTATIVES IN PARLIAMENT—UNIVERSITY EXTENSION—CONFERENCES—STANDING COMMITTEE OF VICE-CHANCELLORS—INTERNATIONAL CONFERENCES—INTERCHANGE OF TEACHERS AND STUDENTS—CONGRESSES OF THE UNIVERSITIES OF THE EMPIRE—DEGREES.

Universities were the outcome of the great intellectual revival which affected Europe in the twelfth and thirteenth centuries Shortly after the Schools of Bologna and Paris had developed into what we now term Universities, similar seats of learning arose at Oxford and Cambridge. the nucleus of organization being, as at Paris, a corporation of mastersnot, as at Bologna, a corporation of students—and many of the students being boys of fourteen or even younger. Instruction was in the form of lectures by licensed teachers To the Seven Liberal Arts of the mediæval schools (the "trivium"-GRAMMAR, LOGIC, and RHETORIC, and the "quadrivium"—ARITHMETIC, GEOMETRY, MUSIC, and As-TRONOMY) the Universities added the three higher "Faculties" of THEOLOGY, LAW, and MEDICINE in order to provide complete preparation for the learned professions. The Scottish Universities, except Edinburgh, were founded in the fifteenth century, but the country had not been greatly influenced by the Revival of Learning, and although the earliest Reformers were in touch with continental scholars, and some attempts were made to introduce the New Learning into the schools and universities, the mediæval scholastic tradition remained paramount in St Andrews and Glasgow until the seventeenth century. was more receptive to renaissance influences. The University of Edinburgh originated in a College established by the Town Council in 1583. Trinity College, Dublin, was founded by Queen Elizabeth in 1591 on the lines of the Oxford and Cambridge colleges.

After the Reformation a demand arose in England for education of a more secular type, but the Acts of Uniformity (1559 and 1662) and similar measures stereotyped the schools and universities as clerical and theological institutions, and by the latter half of the eighteenth

century the teaching in the Universities had become mainly traditional and formal, and they were rapidly losing their hold on the national life.

Readjustment to modern conditions took place in the course of the nineteenth century. Already in 1779 Protestant Dissenters, and in 1791 Roman Catholics, had been emancipated from the ban against their following the teaching profession. The few Denominational tests retained by the older Universities were abolished in 1871. Oxford in 1800 established a system of written examinations for the bachelorship, and Cambridge in 1824 the classical Tripos. Soon afterwards both Universities instituted non-classical Honour examinations. The University Commissioners of 1850 and 1877 made provision at Oxford and Cambridge for the endowment of the teaching of modern subjects, and the throwing open of scholarships to students of such subjects removed practically all obligations to take orders in the Church of England, and did much to make the Universities accessible to all classes of the community.

Meanwhile the foundation in 1828 on a strictly undenominational basis of what has now become University College, London, provided a teaching institution of University rank free from all restriction of tests. The University of Durham obtained its charter in 1837. its original conception it followed closely the lines of Oxford. It was partly endowed out of the funds of the See and Chapter of Durham. The Colleges in which the other English Universities originated were founded as follows: Owens College, Manchester, 1851; Yorkshire College, Leeds, 1874; University College, Bristol, 1876; Firth College, Sheffield, 1879; Mason College, Birmingham, 1880; University College, Liverpool, 1881, the University Extension College, in conjunction with the Schools of Science and Art, Reading, in 1892. Created to minister to local needs and supported largely by local benefactions. they were naturally closely associated with local industries, and from the first laid stress upon the study of mathematical, scientific, and modern subjects. Reading differs from the others in having been established in a town of comparatively small size (population less than 100,000), in the large share of its resources devoted to work in connexion with the agricultural and associated industries, and in its policy of making residence in college or hostel the rule for its students. The Royal College of Science and the Royal School of Mines originated in a Technical School formed in 1851 in connexion with a Museum of Practical Geology. They, together with the City and Guilds (Engineering) College, founded in 1881, became integral parts of the Imperial College of Science and Technology which was established in 1907 with the declared purpose of giving the highest specialized instruction and providing for research in the various branches of science, especially in its applications to industry

A University of Wales was projected early in the fifteenth century and the project was revived in Cromwell's time, but it did not materialize until 1893. The constituent colleges at Aberystwyth, Cardiff, Bangor, and Swansea were founded in 1872, 1883, 1884, and 1920 respectively. They are thoroughly indigenous to the Principality,

much of the funds having been collected in very small sums from workpeople at the doors of churches and chapels.

The two modern Irish Universities both date from 1909 In 1850 a Royal Charter was granted to the then recently established Queen's Colleges of Belfast, Cork, and Galway, constituting them a Federal University, which was absorbed in 1880 in the Royal University University College, Dublin, representing the Catholic University established by the Irish Bishops in 1854, became with the Cork and Galway Colleges in 1909 constituents of the National University of Ireland, while Queen's College, Belfast, became the Queen's University of Belfast

Women were first admitted to Degrees by the University of London Bedford College had already been founded in 1849: the three other colleges for women in connexion with the University of London were founded, Westfield in 1882, Holloway in 1886, and King's in 1902 Of the Cambridge colleges Girton originated at Hitchin in 1869, and was removed to the near neighbourhood of Cambridge in 1873; Newnham was founded in 1880. The colleges at Oxford were opened, Lady Margaret in 1878, Somerville in 1879. St Hugh's in 1886, and St Hilda's in 1893 Cambridge admitted women informally to Tripos examinations in 1872 and to the titles of degrees in 1923; in 1926 women were declared eligible to university teaching posts and therefore to membership of boards of faculties. Oxford admitted them to examinations in 1884, to degrees and full membership in 1920, and to university teaching posts in 1927 Women have been admitted to the Universities of Scotland since 1892, Durham since 1896, Dublin since 1904, and to all the modern Universities from their foundation.

Unlike those of most other countries, the Univs. of the United Kingdom have been, since their origin, independent of State control. Another distinguishing characteristic of British Univs., as compared with those of the Continent of Europe, has from the earliest days been the provision of halls of residence, or colleges, in which students live as members of a community, with the privileges of social intercourse and subject to the mutual influence which corporate life exerts.

Pursuant to the recommendations made by the Royal Commission of 1919, important constitutional and other changes have been effected at Oxford and Cambridge by the Statutory Commissioners appointed in 1923. See the sections relating to these universities.

Admission as an Undergraduate. Before inserting a student's name in matricula all Univs. exact evidence that the applicant's intellectual equipment fits him to undertake a course of study for This is tested either by a matric. examn. held by the Univ. or group of Univs concerned (Camb "Previous," Oxf. "Responsions," Scot Univs "Prelim."), or by the candidate's performance in an equivalent examn. The subjects in which the candidates are tested in the matric, examn, by the Univs, are English, one or more languages other then Eng (classical or foreign), Maths., and/or Science; and a pass in 5 subjects at one and the same examn. is, as a rule, demanded. The grouping of the several subjects varies in the different Univs. For

details see App. XX. Many of the Oxford and Cambridge Colleges make the passing of Responsions or the Previous or equivalent examns a condition of admission to the College Bristol has discontinued its matrice exame. as superfluous in view of the institution of the School Certificate and Higher Certif. exames (v. infra), and the admission to them of candidates not presented by schools. Durham has followed Bristol's example so far as the Colleges at Newcastle are concerned. Reading holds neither school exames nor, except for candidates of mature years (25 or over), a matriculation exame, accepting, instead, credentials required by London or the Joint Board.

A Matriculation Examination for persons of mature years has been instituted by the above-mentioned Joint Board (v App XX), and by Belfast and Reading Armstrong College has a special examin for candidates proposing to lead for a degree in Applied Science who have been engaged in technical pursuits for 2 years

School Examinations — England and Wales A scheme originated by the Board of Education in consultation with all the Univs of England for co-ordinating Secondary School examins, came into operation in England in 1918 and in Wales in 1920 Under this scheme the following are recognized by the Board as approved—

I. As "First Examinations," suitable for pupils about the age of 16, the standard being such that a Pass with Credit in a certain number of subjects in the three main groups of School subjects (English subjects, Foreign Languages, Mathematics and Science) would entitle a candidate to admission to a Univ —

"School Certificate" examns of the Oxford and Cambridge Schools Examn Board, of the Oxford Delegacy for Local Examns and the Cambridge Local Examns Syndicate (formerly known as "Senior Local" examns), of the Univs of Bristol and Durham, and of the Northern (Birm, Leeds, Liv, Manc, Sheff) Univs. Joint Matricn. Board; "The General School" examn of London, and the School Certificate examn of the Central Welsh Board

In addition to the three groups of subjects above mentioned, First Examinations include a fourth group of optional subjects, such as Music, Drawing, Manual Work, Needlework, Housecraft Excellence in these subjects will not exempt a candidate from the necessity of reaching a minimum standard in each of the other groups

II As "Second Examinations," suitable for pupils about 2 years older, framed on the assumption that the candidate has, after the stage marked by the first examn, followed a more specialized course —The "Higher Certificate" examns. of the Oxford and Cambridge Schools Examns. Board, Bristol, Durham, the Northern Univs Joint Board, London, Oxford (Delegacy for Local Examns), Cambridge (Syndicate for Local Examns.), and the Central Welsh Board.

With a view to securing equality of standard and the acceptance of the certificates by Univs. and Professional Bodies, the Board of Education exercises a co-ordinating authority with the help of a "Secondary School Examinations Council" composed of 23 repre-

sentatives of the Examining Bodies, County Councils Assocn., Assocn. of Municipal Corporations, Assocn. of Education Committees, and Teachers' Registration Council. The Examinations Council keep in close touch with the Examining Bodies and conduct a regular scrutiny of their statistics, regulations, and syllabuses. In addition a detailed investigation of the methods and standards of award is held from time to time. Provision is made for ensuring that teachers in the Schools are brought into touch with the Examining Bodies (supplied in all cases by the Univs), that a School is examined, if it so desires, on its own syllabus, unless the Examining Body considers it inadequate; and that estimates of the merits of their candidates in each of the subjects offered by them if submitted by Head Masters and Head Mistresses are taken into account in the award of certificates.

Schools are not required as a condition of recognition for grants to take these examns, but Schools on the grant list entering pupils for them under conditions approved by the Board receive an additional grant in respect of the examn fees of each pupil so entered. The entrance of pupils attending grant-earning secondary schools for any examination below the stage of a First Examn, is closely restricted.

Among the functions of the Secondary School Examns Council is negotiation with Univs, and Professional Bodies for the acceptance of the examn. certificates as exempting the holders from certain other examns. They are now accepted, subject to various qualifications, by all English Univs and by a number of professional bodies (v. Appendices), as exempting from entrance examns. The "Second Examinations" are also recognized by many Univs. for exemption from Intermediate Exams, and for admission to Honours courses, etc.

Wales. The School Certificate of the Central Welsh Board showing a pass with credit at one and the same examn. in all the required subjects of the matricn examn is accepted by the Univ. for matricn.; so, also, are certifs of the other First Examns (except Durham's), the Scotch Educn. Dept's Leaving Certif. (Higher Grade), the Senior Certif of the Ministry of Educn. for Northern Ireland, and the Leaving Certif. of the Intermediate Education Commissioners of the Irish Free State.

Scotland. On December 31, 1918, there came into operation Ordinance No 70 (General No 3) of the University Courts of the four Scottish Univs. as to Admission for purposes of graduation. This defines the normal test of fitness as "the production of evidence duly attested by a competent authority of the satisfactory completion of a suitable course of secondary education," and sets up an Entrance Board to regulate the application of this principle. This Board, which has superseded the Joint Board of Examiners for the Scottish Univs., has provided by "General Regulations" for the recognition of Group Certifs. of the Scotch Education Dept. and, in the case of Schools in Scotland not regularly presenting candidates for these certifs, other evidence of completion of suitable courses. It has similarly provided for the recognition of Leaving or other certifs., in the case of applicants from outside Scotland. The admission of applicants who, owing to exceptional

circumstances, have not been able to fulfil the normal conditions is provided for by "Special" Regns.

Ireland. The Leaving Certificate of the Dept. of Education of the Irish Free State or the Semor Certificate of the Ministry of Education of Northern Ireland is accepted by the Univ. of Dublin and the National Univ. of Ireland, subject for subject, in lieu of their matrice examns, and (subject to special conditions in respect of Maths) by Belfast. Belfast and the N.U.I. also accept, subject for subject, the Scottish Leaving Certif. (Higher or Hons.), the Higher Certif of the Ox. and Camb. Schools Examn. Board, and (Belfast only) the Bristol School Certif For admission to the Univ. of Dublin the Senior Lecturer is now allowed to recognize examns as "equivalent" to the Entrance examn, and does so recognize the Scottish Leaving Certificate and others.

School Examinations in other Countries. In Appendix XXII are to be found particulars of the recognition accorded by certain Univs in the United Kingdom to School-leaving examns conducted by Ministries of Education in Canada, Australia, South Africa, and Egypt, and Boards of High School and Intermediate Education in India This is done explicitly by Oxford, Cambridge, the Northern (English) Univs. Joint Board, Wales and the Scottish Univs. Entrance Boards

ADMISSION OF STUDENTS FROM THE KING'S DOMINIONS OVERSEAS AND FROM FOREIGN COUNTRIES Certificates which would qualify for admission to Univs outside the United Kingdom are accepted as satisfying, in whole or in part, the matricn requirements of the Univs. of the United Kingdom Intending students should apply for information to the Registrar of the Univ in which they desire to be matriculated. A summary of existing regulations is given in Appendix XXII.

The NUMBER OF FULL-TIME STUDENTS in Universities and University Colleges in receipt of Treasury Grant is given in the Returns published by the University Grants Committee for the year 1926-27 as 42,354, including 12,861 women To these must be added the students of the Irish Universities and of certain schools of the University of London not in receipt of Parliamentary Grant, making a total of, approximately, 48,000 The above statistics do not include the students of the institutions, other than Universities and University Colleges, in which professional education of university grade is given in Theology, Feaching, Agriculture, Mining, etc; nor students reading privately for the external degrees of the University of London, for the Bar, etc. This makes comparison with statistics of other countries difficult, as does also the fact that the work of the higher forms of many of our secondary and "public" schools corresponds with the earlier stages of the work lone in Colleges and collegiate departments of Universities elsewhere, g. in America.

A NATIONAL UNION OF STUDENTS of the Univs. and Univ. Colleges of England and Wales was formed in Feb. 1922 "to represent the students of this country nationally and internationally," and to pronote their educational and social interests in entire independence of

all political or religious propaganda. It is a federation of Unions, Guilds, and Student Representative Councils. It is affiliated to the Confédération Internationale des Étudiants (see Appendix XXIV.), through which it has taken an active part in promoting foreign travel of English students and stimulating intercourse with students abroad. In July 1924 a conference of Dominion student representatives was held at London and Cambridge to discuss ways and means of practical co-operation between students of the Empire, together with general Imperial problems. Two results of this conference have been the formation in England of the Dominion Students' Athletic Union and the visit of a Debating Team representing the Univs. of Great Britain to Canada, New Zealand and Australia. In 1926 the team, consisting of four men, left England in Jan and returned in July, having visited all the Univs. of the three Dominions. Publication—" The University," once a term, 6d. Address—3 Endsleigh Street, London, W.C.I.

THE STUDENTS' REPRESENTATIVE COUNCILS OF SCOTLAND hold an annual inter-univs. conference, and jointly, as a national organisation, count as one member of the International Confederation of Students. They have a joint *International Academic Committee* which appoints "Academic Consuls" in the principal univ centres in countries outside Great Britain They have published a handbook on Foreign Study (Darien Press, Edinburgh, 3rd edition, 1926; 1s).

TERMS. The academic year is divided into three terms, which run from about Oct. I to the middle of Dec; middle of Jan. to end of March; middle of April to end of first week in July.

FEES are charged by all Universities. They vary somewhat in the different Univs., but are, on the average, for Arts £30, for Science £36, for Engineering or for Medicine £30 to £60 per annum in English Univs. In Scottish, Welsh, and Irish Univs. the fees are lower.

Scholarships. Few countries offer a richer variety of facilities of access to the highest forms of education than England and Wales. lead of the "pious founder" has been followed by city companies and professional bodies, and, since the Education Act of 1902 brought higher education within the purview of Local Authorities, by the State. response to the principle which found expression in the words of Mr. Fisher's Education Act of 1918 that "children and young persons should not be debarred by inability to pay fees from receiving the benefits of any form of education by which they are capable of profiting " has been so remarkable that, on March 31, 1928, L.E. As were assisting more students to take courses at Univs. (5735) than they were helping to obtain Secondary education before the Act of 1902 was passed (about 5500). From the grant-aided Secondary Schools of the country alone, with their 385,000 pupils, over 150,000 of whom hold free places, a steady stream of some 3300 students, more than 62 per cent of whom commence their education in Public Elementary Schools, passes each year to the Univs. and University Teachers' Training Departments. The number of scholarships available and their variety, as regards conditions of tenure, put any attempt to give a comprehensive list out of the question. Those in search of assistance should apply for their Local

Education Authority's Scholarship Handbook \* The main agencies in England and Wales by which scholars are assisted to attend Univs may be classified, in the order of the probable number of awards made and the annual expenditure incurred: (1) Local Education Authorities. The majority of awards are given to candidates who have done good work in College Scholarship and the Higher School Certificate Examns., though a number of Authorities hold examinations of their own or grant assistance upon a consideration of school records The expenditure of LEAs, on awards current in the year 1925-26 was £243,597 "Open" Scholarships awarded by the Univs or their individual Colls A brief notice of scholarships open to graduates will be found in the general information regarding each Univ No particulars are readily available to show the total number of entrance scholarships and exhibitions awarded annually About 550 awards are made each year by Oxford and Cambridge (111) State Scholarships About 200 are awarded annually by the Board of Education to boys and girls in fulltime attendance at grant-aided Secondary Schools, on the recommendation of the Bodies that conduct the Higher Certificate Examns. to scholars who may be expected to obtain a Degree in Honours Analyses of these awards and the courses and degrees taken will be found in the statistical information published annually by the Board of The expenditure upon awards current during the year which ended on the 31st March 1928 was £58,878 (1v) Leaving Scholarships and Exhibitions awarded by Endowed Schools penditure upon such awards current in the year 1926-27 from the 458 Endowed Schools on the grant list of the Board was £38,379 must be added 343 Schools recognized as efficient by the Board, but not on the grant list, for which figures are not readily available Charities unattached to Schools, but with power to offer Exhibitions under their Instruments of Government The number of educational charities in the country is extremely large. Information in regard to scholarships available in any particular area can usually be obtained by application to the LEA Some of the larger funds open to the whole country are indicated in Appendix XXIII Further particulars will be ound in the Annual Charities Register and Digest - It should be understood that assistance is often accorded from complementary sources. The holder of a Major Scholarship of a L.E.A may, for instance, also hold a State Scholarship or College award, or possibly (with an upward imit of the total amount of assistance) all three

For Scholarships in Scottish Univs, v Section on Scot Univs In Ireland conditions are similar to those in England and Wales.

LIBRARIES In each of the sections relating to the universities everally will be found a brief note on this subject. A University library Co-operation Inquiry Office has been established by the Associa-

<sup>\*</sup> Some of the Scholarship Handbooks, eg that published by the London county Council (P. S. King & Son, Ltd., 14 Gt. Smith St., Westminster, S.W. 1, price 3d.) include a great deal of information in regard to general sources of ssistance open to the whole country as well as assistance available for persons ctually resident in the particular area.

tion of University Teachers with the help of a grant from the Carnegie United Kingdom Trustees. It will endeavour to discover for research workers in what library, if any, any publication or MS. is available, and whether it can be lent. Address: L. T. Oldaker, Esq., The University, Edmund Street, Birmingham. Any inquiry should be accompanied by a list of the libraries which the inquirer has already tried in vain details of all university and college libraries may be found in The University and College Libraries of Great Britain and Ireland: a Guide to the Material Available for the Research Student, by L. Newcombe, Bumpus, This book gives details of the contents of some 300 university and college libraries, with special reference to those collections which are likely to be of value to the research student. The Association of Special Libraries and Information Bureaux, 26 Bedford Sq., WCI, was established in 1925 with the help of a grant from the Carnegie In 1928 the Association published in conjunction with the Oxford Univ Press The Aslib Directory, a guide to sources of specialized information in Great Britain and Ireland Price £1: is

PARLIAMENTARY GRANTS TO UNIVS AND UNIV. COLLEGES. to 1889 the English Univs and Univ. Colls were dependent for their incomes upon endowments, subscriptions and students' fees. In that year a Treasury Grant of £15,000 p a was made to the English Univ Colls. and the College at Dundee At the same date each of the three Welsh Univ Colls was receiving £4000 pa, and the Scotch Univs a statutable Grant of £42,000, to which was added in 1892 under the Education and Local Taxation Account (Scotland) Act an annual Subsidy of £30,000 Between 1826 and 1895 sums amounting to £380,000 were contributed by Government towards the cost of enlarging the buildings of the Scottish Univs In Ireland the Queen's Colleges of Belfast, Cork, and Galway were established in 1845, the three buildings costing a total of froo,000 Each College received a Government Grant of £7000 p.a The Queen's Univ. was established in 1850, as an examining body. Its annual Subsidy, varying with the estimates, never exceeded £5000. In 1879 the Queen's Univ was replaced by the Royal Univ, also an examining body, but differing from the Queen's Univ in that students other than those of the Queen's Colls. were admitted to its examns. It also gave fellowships, scholarships, and Until 1883, when, in accordance with the Act of Parliament by which it was established, it obtained its income of £20,000 p a out of funds released by the disestablishment of the Church of Ireland, its expenses were met in the same way as in the case of the Oueen's Univ.

In 1896 two Commissioners were appointed by the Treasury to inspect the equipment and report upon the work of the 12 Univ. Colls in England and at Dundee participating in the Grant (£15,000 p.a.) of 1889 and 2 which were claimants for Grants. In recognition of their increased activities and of additional support received from rates and private benefactions the total Grant was increased to £25,000 p a. In their Report on the Univ of Birmingham (into which the Mason College had been transformed in 1900), the 11 other Univ Colls to which Grants had been assigned, and 3 claimants, the two Commis-

sioners appointed in 1901, submitted evidence of growth qualifying for increased financial aid; but owing to the South African War no action, with the exception of the addition of the Univ Colls of Reading and Southampton to the list, each receiving £1000, was taken by the Treasury until 1905, when the total Grant was increased to £100,000. In Jan. 1906 a Permanent Committee was appointed by the Treasury "to advise the Department as to the distribution of the Grant in aid of Colleges furnishing Education of a Univ Standard" The Committee forthwith proceeded to appoint two inspectors to report upon the 14 Univs. and Univ. Colls receiving Grants and 3 claimants By this time, in addition to Birmingham, Leeds, Liverpool, Manchester and Sheffield possessed Univs, to each of which £2000 p a had been granted towards the cost of examns. and the giving of degrees The Univ. of London also received £8000 p a

In 1909-10 the Grant to the English Univs and Univ Colls and to Dundee was raised to £150,000 In 1907 a Treasury Committee was appointed "to inquire and report upon the University of Wales and its constituent Colleges" (The present Secretary to the Bureau was one of the two Commissioners in 1901 and again in 1906 and a member of this Committee.) Following the issue of the Committee's Report in 1909 the Grant to the 3 Welsh Colleges was increased In 1919 the Advisory Committee was dissolved and the to £25,000 Univ Grants Committee appointed "to inquire into the financial needs of Univ. Education in the United Kingdom and to advise the Government as to the application of any Grants that may be made by Parliament towards meeting them " The total Grant was increased Including Emergency Grants to Cambridge, Oxford, to f1,000,000 and Trinity College, Dublin, the sums assigned in 1920-21 were: Annual Grants £909,240 (including Ireland £111,000), Non-recurrent Grants £304,000 (including Ireland £67,000) The total Grant for 1921-22 was £1,500,000, and in addition a sum of £500,000 was provided to assist the Institutions to provide retrospective superannuation benefit for their staffs, the grant for 1922-23 for Great Britain only was (1,160,000, which was also the amount of the grant for 1923-24. grant for 1924-25 was £1,242,570; for each subsequent year £1,550,000.

REPRESENTATIVES IN PARLIAMENT Oxford (2), Cambridge (2), London, Wales, Scottish (3), Dublin, National of Ireland, Belfast—v the sections relating to these Univs

Birmingham, Bristol, Durham, Leeds, Liverpool, Manchester, Sheffield, Reading—Sir Alfred Hopkinson, M.A., B C.L.; Sir Martin Conway, M A.

ADULT EDUCATION. University Extension Courses have been promoted by the Univs of Cambridge, Oxford and London for the last 50 years. At Cambridge they are known as local lectures and were initiated in 1873 Oxford and London took up the work soon afterwards. These courses number several hundreds and vary in length from 6 to 25 lectures; the longest extend over several years.

In 1903 The Workers' Educational Association was founded. In 1907 relations were established with Oxford Univ. Since that date

relations have been established with all the Univs, and Univ. Colleges, and there are joint committees composed of representatives of the Univ. or College and the W.E.A., which promote Preparatory Classes, Three-Year Tutorial Classes, Advanced Classes, Vacation Courses, etc. Preparatory Classes and Tutorial Classes are recognized by the Board of Education for purposes of Grant under Chapter II. of the Adult Education Regulations.

The Adult Education Committee was appointed by the President of the Board of Education, in April 1921, to promote the development of liberal education for adults, and in particular to bring together national organizations concerned with the provision of adult education, so as to secure mutual help and prevent overlapping and waste of effort; to further the establishment of local voluntary organizations for the purpose and of arrangements for co-operation with Local Education Authorities; and to advise the Board of Education upon any matters which the Board may refer to the Committee It was re-appointed by successive Presidents in 1923 and 1925. It includes representatives of all Univs. in England and Wales, and of the principal voluntary organizations engaged in the work of Adult Education; also three representatives of Local Education Authorities Assessors are appointed by the Board of Education, the Army Council and the Air Ministry. Since 1921 the Committee has been engaged on many inquiries, and the following Reports have been published by H.M. Stationery Office, Adastral House, Kingsway, London, W.C.2: Paper No. I—Local Co-operation between Univs., Local Education Authorities and Voluntary Bodies. (Price 4d) No 2-Recruitment, Training and Remuneration of Tutors. (6d) No 3-Development of Adult Education in Rural Areas (6d) No. 4—Development of Adult Education for Women. (6d) No. 5—British Music. (6d.) No. 6— The Drama in Adult Education. (15.) No 7—Full-time Studies (6d) No 8-Natural Science in Adult Education (6d) No 9-Pioneer Work and other Developments in Adult Education

The British Institute of Adult Education, 39 Bedford Square, London, W.C.1, has compiled a Handbook and Directory of Adult Education (Year Book Press, London, 2s. 6d), and issues a half-yearly review, The Journal of Adult Education, 2s. 6d.

Conferences In May 1917 representatives of the Universities and University Colleges met in Conference to devise measures for the further encouragement of Post-graduate Study and Research. It was resolved that it was desirable that a degree should be instituted carrying the title of Doctor, obtainable by graduates of British and foreign Univs. after a course of advanced study and research. The conditions and regulations for such a degree were further considered at adjourned meetings held on May 10, 1918, Jan. 24, 1919, and March 14, 1919. The resulting legislation is summarized on p. 18 Interchange of Teachers and Students, the Tenure of University Offices, Superannuation and Provision of Pensions, and other matters have been considered by Conferences specially convened at various times.

In May 1918 Mr Balfour summoned at the Foreign Office a Con-

ference of representatives of all the Universities for the purpose of putting before them a proposal that on the invitation of the Govt. of the U.S. a Universities' Mission should be sent to America. At this meeting Mr. Balfour took the opportunity of pressing upon the Univs the desirability of establishing a representative body to which matters of interest to the Univs. might be referred by Govt. Departments He urged the necessity of the creation of "an organ of expression" which would voice the desires and aspirations of the British Univs. and represent them in their relations with the Univs of other nations. a subsequent meeting Conference resolved that "it is desirable in the interests of the Univs and of the nation that steps be taken to promote co-operation and mutual consultation among the Univs. of Great Britain and Ireland, and, further, that the Vice-Chancellor or Principal of each Univ. or a deputy appointed by him, together with the Executive Committee of the Universities Bureau, be appointed a Standing COMMITTEE to consider any matters of common interest arising out of the proceedings of this Conference or submitted to it by the Govt, and to report from time to time to the Conference"

The Standing Committee of Vice-Chancellors has dealt with such matters as the presentation of the case for Increased Grants to Univs and Univ Colleges, leading to the Deputation to the Chancellor of the Exchequer which was received in Nov 1918, and to a similar deputation received in 1924; the relations of the Univs and Univ Colleges to national schemes for the Promotion of Research; the question of controlling the number of students in professional and other subjects. the Recognition of the Special Army Education Certif, as qualifying for matriculation; Fees for Courses of Undergraduate and for Postgraduation Study and the possibility of adopting a uniform scale in each of the several Faculties of all Univs of the U.K., the relations of the Univs to Training Colleges for Teachers; qualification for admission to courses leading to the Ph D. degree, recognition of foreign school-leaving certificates as qualifying for matriculation, salaries of members of staff, recognition of records of students from Australia, Canada, S. Africa, and India, specialization in certain subjects of study by certain Universities\*, the mutual recognition of Matriculation examns. and Degree courses of study, Income-tax on funds invested for provision of pensions, Inhabited House Duty on hostels and other legal liabilities of Universities, the replenishing of the libraries of the Univs of Louvain, Nancy, Tokio.

At the Annual Conference of the Universities and Ireland held in Liverpool on May 12, 1928, the subject discussed was The contribution of the Universities to the preparation of teachers for their vocation. (1) What is the essential service which a University can render to the education of the intending teacher? (2) What should be the relation of Universities to the specialized professional training of teachers? A report of the proceedings was printed Copies are obtainable from the Universities Bureau, 50 Russell Square, price 1s.

International Conferences. Following the Mission to America

already referred to, the British Univs. in May 1919 accepted an invitation to appoint a delegation to visit the Univs of France as guests of the French Republic In the autumn of 1919 a similar invitation was accepted from the Belgian Govt. In July 1920, 17 Professors of English, and in July 1921, 32 Professors of History, from many parts of the USA and the British Dominions overseas, met their colleagues of the Universities of the U.K. in conference at the invitation of the University of London to discuss methods of research and teaching and to elaborate plans of co-operation. The Conference of 1921 synchronized with the opening of the University of London Institute of Historical Research. A Conference of British and Swiss Universities was held at Bâle in 1922. By invitation of Columbia University a Conference of British and American teachers of English was held in New York in June 1923 An Anglo-American Conference of Professors of History took place at Washington and Richmond (Virginia), Dec 27-30, 1924, and in London (Institute of Historical Research), July 12-17, 1926.

Interchange of Teachers and Students between the Univs of the King's Dominions overseas and of foreign countries and the Univs. of the U.K. In May 1919 a Committee was established for the purpose of promoting interchange. This Committee was discharged in March 1922 and replaced by another consisting of the Interchange Correspondents of the Bureau in the various Univs. See, in this connexion, Appendices XXI., XXII., and XXIII.

#### Congresses of the Universities of the Empire

The First Congress of the Univs of the Empire was held in London on July 2 to 5, 1912. All the Universities of the Empire were represented. Subjects discussed. "Specialization among Universities," and "Inter-University Arrangements for Post-graduation and Research Students," Chairman, the Earl of Rosebery and Midlothian, Chancellor of the Univs. of London and Glasgow, and Lord Rector of the Univ. of St. Andrews, "The Relation of Universities to Technical and Professional Education and to Education for the Public Services," and "Interchange of University Teachers," Chairman, the Earl Curzon of Kedleston, Chancellor of the Univ. of Oxford, "The Problem of Universities in the East in regard to their Influence on Character and Moral Ideals," and "Residential Facilities," Chairman, Mr A. J. Baltour, Chancellor of the Univ of Edinburgh; "Conditions of Entrance to Universities, Equivalence and Mutual Recognition of Entrance Tests," and "Action of Universities in Relation to the After-careers of their Students," Chairman, Lord Rayleigh, Chancellor of the Univ. of Cambridge, "Courses of Study and Examinations for other than Degree Students, University Extension and Tutorial Class Work," Chairman, Lord Kenyon, Semor Deputy Chancellor of the Univ. of Wales, "The Establishment of a Central Bureau, its Constitution and Functions," "The Position of Women in Universities," and "Representation of Teachers and Giaduates on the Governing Body of a University," Chairman, Lord Strathcona and Mount Royal, Chancellor of the Univs. of Aberdeen and McGill.

The SECOND CONGRESS of the Univs. of the Empire met in Oxford on July 5 to 8, 1921. All members received, and upwards of 300 accepted, offers of hospitality, either from a College or from a resident member of the Univ., for the four days during which Congress was Including members of the Univ. of Oxford, who attended without enrolment, and those who returned to London and other places for the night, the attendance numbered about 550. The 18 Home Univs. and 36 of the Univs. overseas were represented, the visitors from overseas numbering 100. Subjects discussed: "The Universities and the Balance of Studies," Chairman, the Marquess Curzon of Kedleston, Chancellor of the Univ of Oxford; "The Universities and the Teaching of Civics, Politics, and Social Economics," and "The Universities and Secondary Education," Chairman, Mr A. J. Balfour, Chancellor of the Univ. of Cambridge and of the Univ of Edinburgh, "The Universities and Adult Education," Chairman, Viscount Haldane, Chancellor of the University of Bristol, "The Universities and Technological Education." Chairman, the Marquess of Crewe, Chancellor of the Univ. of Sheffield; "The Universities and Training for Commerce, Industry, and Administration," and "The Universities and the Training of School Teachers," Chairman, Dr J C Irvine, Principal, in the place of the late Lord Balfour of Burleigh, Chancellor of the Univ. of St Andrews; "University Finance," Chairman, Sir Robert Stout, Chancellor of the Univ of New Zealand; "The Universities and Research," Chairman, Lord Robert Cecil, Chancellor of the Univ. of Birmingham; "Interchange of Teachers and Students," Chairman, Lord Kenyon, Pro-Chancellor of the Univ of Wales.

The THIRD CONGRESS of the Univs of the Empire was held in Cambridge on July 13 to 16, 1926. Owing to the large number of students in residence in the Colleges the majority of the members received private hospitality. Excluding resident members of the University the attendance numbered about 350. 121 were visitors from overseas. Subjects discussed . "The State and the University." Chairman, the Earl of Balfour, "The Desirability of Establishing in London a School of Advanced Legal Studies," Chairman, the Warden of All Souls, deputy for Viscount Cave; "Co-operation in Research throughout the Empire," Chairman, the Marquess of Londonderry; "Mutual Recognition of Examinations and of Time Spent in Study Elsewhere," Chairman, Sir Matthew Nathan, "The Desirability of making Provision for the Physical Welfare and Training of Students and the Organization of Athletics with a View to securing more General Participation," Chairman, the Vice-Chancellor of Leeds, deputy for the Duke of Devonshire; "The Actual Working of the Ph.D. Scheme," Chairman, Viscount Cecil of Chelwood; "The Desirability of Articulating other Pension Schemes with the Federated Superannuation System of Great Britain and Ireland," Chairman, Viscount Haldane of Cloan. Sectional Meetings on "University Statistics" (Sir Theodore Morison), "Interchange" (Sir Henry A. Miers), "The Classification of Honours Graduates" (Sir Donald MacAlister), "An Imperial Policy in Education " (Sir Frederick D. Lugard).

Reports of the Proceedings of the Congress, 1912, 1921, 1926, G. Bell & Sons, London, price each £1: 1s.

## Degrees conferred by the Universities of Great Britain and Ireland

The older Universities have developed out of the Univs. of the Middle Ages under the compulsion of internal forces, with very little influence from outside. The historical continuity of their evolution and their individual independence account for certain customs and usages in which they differ one from another and from Univs in other lands. Their titles of degrees afford an illustration of this. A Univ. of the Middle Ages was a Guild of learned men. Teaching was the craft of the Guild, whose fellowship carried with it the right to teach. admitted aspirant for fellowship was termed a bachelor The members of the Guild recognized his apprenticeship after submitting him to certain tests or, as we should term them, examns. After gaining some experience in teaching, and successfully maintaining a thesis in public disputation, the bachelor attained to his degree into the Guild, with its jus ubique docendi, he was known indifferently as doctor, master, or professor Still following this ancient usage, the degree in Scotland is the mastership, M.A. In Oxford, Cambridge. and Dublin, where the examn for the bachelorship grew to be the determining test, the mastership, which carries with it all the privileges of membership of the Guild, or Senate, follows without further examn. after an interval of two or three years, but in no case less than six years from matrice For convenience in standardizing the attainments of their alumni, modern Univs have divided the degree into stagesusually described as the "first" and "higher" degrees—Bachelorship, Mastership, and Doctorate The conferment of a first degree now marks the satisfactory completion of a three or four years' Univ course

At Oxford and Cambridge the Faculty of Arts is not subdivided. B A. is the "first degree," whether the course leading to it be literary or scientific. In Trinity College, Dublin, a B Sc. course, including no classical language, was introduced in 1926, but it is expected that most Science students will continue to take the B A which remains the primary degree, and must be obtained before proceeding to any other degree except Mus.B, Mus D, B.Sc. and Ph.D. At Cambridge there is no B.Sc. At Oxford the B.Litt. and B.Sc. are awarded for special study and research, like the M.Litt. and M Sc. of Cambridge. At St. Andrews the B Phil. or the B.Litt. may be taken either conjointly with, or after, the M.A.

At all other Univs. a course in Arts leads to the B.A. (in Scotland, M.A.), in Science to the B.Sc., in Commerce to the B Com., and similarly to other titles in other departments of knowledge.

Each of the Faculties of Theology, Law, Medicine, and Music has its own bachelor's degree.

The signatures of the titles of degrees vary. In the following list the more usual signature is placed first:

Bachelor of Arts: B.A. Bachelor of Science: B.Sc. Bachelor of Science in its various applications: B.Sc. (Engineering), B.Eng. Liv., Sheff., B A I. Dub., B Sc (Metallurgy), B.Met. Sheff.; B.Sc. (Mining), B Sc (Mining Engineering) Glas, B.Sc Tech, B.Sc. (Applied Chemistry); B.Sc. (Naval Architecture); B.Sc. (Veterinary Science), B.V.Sc. Liv.; B.Sc.Agr, B Agr. Bris., Belf., Agr.B. Dub., B.Agr.Sc. N.U.I.; B.Sc. (Forestry), Agr.B. (Forestry) Dub.; B Sc. (Horticulture); B.Sc. (Estate Management), B Sc. (Dairying) Reading; B.Sc (Economics); B Sc. (Public Health), B.Hy. Durh., B.Sc. (Pharmacy) Glas.; B.Sc. (Architecture) Glas.

Bachelor of Commerce B Com. or B Comm., B.Com Sc. Belf.

Bachelor of Architecture: B.Arch.

Bachelor of Dental Science: BDS, BChD. Leeds, BDent.Sc. Dub.

Bachelor of Education: Ed.B. (of the Scottish Univs, two years after a first degree).

In Theology the title of the first degree is B D. In Law it is LL B., B C.L Ox. Durh., B.L or (open only to graduates in Arts) LL B the Scottish Univs In Medicine the signature of the title is M B., B M Ox , in Surgery, Ch B, B Chir Camb., B.Ch. Dub Ox Wales, Belf., B S Durh Lond; in Obstetrics, B A O. Belf. Dub N.U.I In Music, Mus B, B Mus. Birm Durh. Ox. Wales

The Primate's Degrees. Under powers conferred before the Reformation by the Pope, the Piimate has the right to confer degrees. In recent years he has, on an average, conferred annually two doctorates.

#### Honours Degrees

In all Univs of the United Kingdom the first degree in Arts (or Science, if a separate faculty) may be obtained as an ordinary degree, or with Honours.

At Oxford the Honours Schools (B.A.) are in Literæ Humaniores, Mathematics, Natural Science (including Engineering), Jurisprudence, Modern History, Theology, Oriental Studies, English Language and Literature, Modern European Languages, and Philos, Politics and Economics

At Cambridge (Triposes), in Anthropology, Classics, Economics, English, Geography, History, Law (BA and LLB), Mathematics, Mechanical Science, Modern and Mediæval Languages, Oriental Lan-

guages, Moral Science, Natural Science, Theology.

In Scotland: M A Hons. in Celtic, Classics, Econ Science, English (Aberdeen, Geography), History (St. Andrews, History and English), French, German, Italian, Spanish, or Celtic, Mathematics and Natural Philosophy, Mental Philosophy, Modern Languages (St. Andrews, Natural Science, Maths and Physical Science, Philosophy), Sanskrit, Semitic Languages, B Sc. Hons in various branches of Science.

At Dublin (Moderatorships), in Mathematics, Classics, Mental and Moral Philosophy, Experimental Science, Natural Science, History and Political Science, Modern Literature, Legal and Political Science, Engineering Science, Celtic Languages, Oriental Languages.

At London, B.A. Hons. in Classics, Latin, Greek, Mathematics, Anthropology, Archæology, English, French, German, Celtic, Italian, Spanish, Portuguese, Dutch, Scandinavian Langs., Russian, Polish, Czech and Slovak, Serbo-Croat and Slovene, Indo-Aryan, Arabic, Persian, Hebrew and Aramaic (including Syriac), Chinese, Philosophy, Psychology, History, Sociology, Geography; B.Sc. (Special), Mathematics, Astronomy, Physics, Chemistry, Geology, Botany, Zoology, Physiology, Human Anatomy and Morphology, Psychology, Anthropology, Statistics, B.Sc. (General)—three subjects; B.Sc. Hons. (Economics); B.Sc. Hons (Engineering); B.Sc. Hons (Mining); B.Sc. Hons. (Metallurgy); B.D. Hons; LL.B. Hons, M.B., B.S. Hons.; B.D.S. Hons.

In other Univs Honours are obtainable in a variety of subjects.

# Recognition of Study at other Universities

UNDERGRADUATES. The Univs. of Bristol and Leeds accept attendance for 1 yr. at any Univ. requiring residence as a qualification for a degree. At London any person who has passed the external Intermediate examn. before registering as an Internal student may take the Final Examn after a 2 yrs.' course and qualify for a degree in the At Oxford members of certain Affiliated Colleges subsequent year. of the United Kingdom, and of certain approved home, colonial, and Indian Univs, who have attended lectures for at least 2 yrs, and attained a prescribed standard, are allowed to count the first term kept by residence as the fourth. At Cambridge a similar privilege is allowed to certain classes of students. At Dublin students who have spent 2 yrs in Arts studies at certain Univs and have passed the examns belonging to that period are given credit for the first academic year. At Durham a similar concession is made to students of science. In the Scottish and certain other Univs attendance at lectures and examns, passed in other Univs may be recognized by the Board of Studies, or Senate, after consideration of each case. For Belfast regulations consult section

GRADUATES The remission to graduates of any other approved University of 2 yrs of the 4 yrs 'course is made by the Univ. of Dublin, of I yr. of the 3 yrs 'course by Bristol, London, and Sheffield, and the N.U.I. Similar remissions are made by Oxford and Cambridge; see their respective sections At Oxford graduates of a home Univ. and others, who can satisfy the Education Committee that they have received a good general education, are eligible to apply for admission to an approved course of special study and research for the degree of B.Litt, or B.Sc., and, if successful, may supplicate for the degree after completing 2 yrs. of residence. At Cambridge graduates suitably qualified are admitted as Research students and may, after the satisfactory completion of a 2 yrs.' course and the submission of a dissertation, obtain the degree of M.Litt. or M.Sc At Dublin a graduate of any approved Univ. who possesses a degree the equivalent of Moderatorship may, after 1 yr. of advanced study and research, present himself for examn, for the degree of M.Sc. Certain Univs. which have not adopted ordinances

to that intent are prepared to consider applications from graduates of other Univs. who desire to read for higher degrees for remission of standing or exemption from examinations.

## Higher Degrees

M.A. At Cambridge a Bachelor of Arts may, without further examn., proceed to the MA at the close of the 6th yr after the end of his first term, at Oxford in the twenty-first term after matriculation; at Dublin 3 yrs after passing the BA examin At Durham and Sheffield graduates in Honours (Durham-1st or 2nd class) of 3 yrs' and r yr's standing respectively are admitted to the MA without examn; other graduates must pass the MA examn, or (Sheffield) present a thesis Other Univs exact a further period of study from their own graduates, followed by the presentation of a thesis, or an examn, or both, of 1 yr. at Birmingham, Leeds, Belfast, and the N U.I., of 1 yr. from graduates with Honours, and 2 yrs from others, at Bristol, Manchester, and Wales, of 2 years from all graduates at Liverpool, London, and Reading Graduates of approved Univs. can obtain the Mastership after 1 yr of advanced study and research at Birm and the NUI; after 2 yrs at Bris, Leeds, Liv, Lond, Manc, Reading (thesis required), Sheff, Wales At London a thesis is required from Internal students in all branches, except Mathematics, in which it is optional, and an examn At Leeds, Liverpool, and Manchester persons who have not graduated can obtain the MA degree after a course of advanced study and research extending, usually, over 3 years.

This degree is not conferred by Oxford or any of the Scottish Univs. At other Univs. it can be obtained by graduates of the Univ. under conditions similar to those for the MA. At Durham, by graduates, B Sc, of 2 yrs '(Sheffield 1 yr 's) standing who took first or second class Honours, without further test At Leeds, by graduates, B.Sc., with Honours, of I vr's standing (other Bachelors of any Faculty of 2 yrs.' standing), after research (thesis required). At Liverpool, by graduates, B Sc, with Honours, after I yr's higher study (thesis required) At London, by Internal students of 1 yr.'s or 2 yrs', by External students of 1 yr's standing from B Sc with thesis (optional in Mathe-At Manchester, by graduates, B Sc, of 1 yr's matics) and examn standing after thesis and examn (at the discretion of the Faculty) At Cambridge the degree is conferred upon Research students. In other Univs which confer the degree, graduates of approved Univs can obtain the M Sc on terms similar to those for the M A., at Durh or Reading, after 2 yrs' advanced study in the Univ.

Other titles of Mastership conferred by various Univs—M Litt, M Com, LL.M, M Mus, M.A.O. (Midwifery), M Ch, Ch M, M Ch Orth. (Orthopædic Surgery), M.D.S. (Dental Surgery), M V Sc, M H. (Hygiene), M.Eng., M Sc.Tech, M.Met., M Arch., M.Ed.

Ph.D. All the Univs. of the United Kingdom now confer the degree of Philosophiæ Doctor Candidates entering upon a course of advanced study and research for this degree must be at least 21 (Oxford,

Camb, Brist., L'pool., Durh, Wales, Reading, St. Andrews, Dub.—no minimum age), must ordinarily be graduates either of the Univ or of some other approved Univ, must have pursued their studies at a Univ. or Univs for a period of at least 3 yrs (London—2, Reading and Dublin—not specified), must produce evidence of fitness for the proposed course of study and research. The course for the degree extends ordinarily over at least 2 years (Cambridge, Reading, Aberd. Glas., St. And. and N U I —3 years). At its termination the studen must submit a dissertation and may be required to qualify also by examn. The degree is granted in any faculty in which the Univ. Prepared to receive advanced students.

A candidate for the degree of Ph.D., as an External student of the Univ. of London, must have graduated in the Faculty of Theology Arts, Music, Science, Engineering, or Economics in this University

not less than 2 academic yrs. previously.

The Doctorate in Letters or in Science is con Litt.D. and Sc D ferred upon Masters of Arts or Science (Wales and Dublin, Bachelor: or Masters) distinguished by their contributions to the advancemen of learning or science. The claim to the degree must be based either upon a special thesis, as at London, or upon published works certain Univs the Faculty may require the applicant to appear for An applicant for the Doctorate must be of 3 yrs standing from graduation at Dublin, Belf (for DSc), NUI (for D.Sc Pub. Health), 4 yrs 'at Manchester, London (for D Sc and External D Lit); 5 yrs 'at Birmingham, Sheffield, N.U I (for D Litt, D Litt Celt., D Sc), and the Scottish Univs, 6 yrs' at Belfast (for D Lit), Durham (for D Sc.), Leeds, Liverpool (5 yrs from MA or, for D Sc., from M.Sc or Ph D), Bristol, Reading (4 yrs from M A or M Sc, 3 yrs from Ph D), 5 vrs from MA, LLM, MChir, MLitt, MSc. or PhD, or 7 yrs. from M B at Cambridge, 7 yrs' at Oxford, London (for Internal D Lit), 10 yrs', Univ. of Wales (3 yrs from M.A, 2 yis from Ph.D), Durham (for Litt.D)

Graduates of other Univs. who have been admitted to the degree of M A or M Sc (Oxford M A, B Sc, or B Litt.; Dub B A) can proceed to the Litt D. or Sc D. under the prescribed regulations. In Scotland Honours graduates of approved Univs of 5 yrs.' standing who have spent the equivalent (4 terms) of two winter sessions in research at a Scotlish Univ, have submitted a satisfactory thesis or published work, and have, if required, passed an examn., are admitted to the Doctorate At Bristol the degree of D Sc. can be obtained without previous admission to the M Sc. At London a candidate for the Doctorate may be specially exempted from the examn. for M.A or M Sc., at Manchester, from the examn. for M Sc.

D.Hy (Durh) 2 yrs from B Hy.; examn, thesis.

# Degrees in Divinity

 $B\ D$  is conferred after examn in the Scottish Univs and the Univs of Durham, London, Manchester, and Wales; after examn and submission of a thesis at Dublin, after examn and the submission of a

dissertation and published works at Cambridge (examn. may be omitted) and at Oxford. At London the course must extend over 3 yrs., subsequent to matriculation. In Scotland a candidate must be M.A. of a Scottish Univ. who has taken a theological course in a specially recognized institution, or a graduate of an approved Univ. who has taken a complete theological course of at least 2 yrs. in the Univ. conferring the degree; at Dublin, a B A, of 3 vrs 'standing; at Durham, he must be a man who is either a graduate of 2 yrs.' standing or the holder of the Diploma in Theology; in Wales, a graduate who, subsequent to graduation, has studied for 3 yrs. at one of the Associated Theol Colls of the Univ, at Cambridge, a candidate must be MA. or LL.M, and cannot be admitted to the degree until he is seven years from the Master's degree; at Oxford, a candidate must be a M A or must be 26 yrs, of age, have followed a course of study in Christian Theology extending over 6 terms, and resided at the Univ. during 6 terms

D.D. In Scotland the degree is conferred honoris causa tantum At London it is conferred upon B D.'s who took Honours in at least one subject, on presentation of a dissertation, followed by an examn, if the examiners so desire. At other Univs it is conferred in consideration of published works, or a dissertation (and, at Oxford, a viva voce examn, if the judges so desire). The requisite standing is, at Cambridge and London, 5 yrs from B D. (or, for a Cambridge B.D., 12 yrs. from M.A.); Dublin, 8 yrs from B A, Durham, 10 yrs. from B.A.; Manchester, 4 yrs. from B D (or 6 yrs. for B D's of other Univs. who have studied for 2 yrs. at Manchester); Oxford, 14 yrs. from matrice, or, if he was admitted to the degree of B D as a graduate of another Univ., the candidate must have attained the age of 33; Wales, 6 yrs. from B D.

## Degrees in Medicine and Surgery

M.B., Ch B. The regulations for these degrees are practically Preliminary examinations satisfying the requirements of the General Medical Council (see Appendix XI). Registration as a medical student by the G.M.C is recommended. Satisfactory attendance during at least 5 yrs at courses of study and hospital practice Four examns. (in some Univs. grouped as three or two). All examns. must be passed at the Univ granting the degree, with the exception of the first, in Chemistry, Physics, and Biology (and, at St. Andrews. the second in Anatomy and Physiology), from which a candidate may be exempted if he has passed an equivalent examn at the Univ... or elsewhere (Scottish Univs, Birmingham, Bristol, Dublin for S. African students only, Durham, London, Oxford Senior Students. Study in the Univ. for at least 3 yrs, except for the degrees as an External student of the Univ of London, who must study for 1 yr in a Univ. of the United Kingdom, or for 2 yrs, Scottish Univs., Leeds, Liverpool, Manchester; for 1 yr College of Medicine, Newcastle-on-Tyne (Durham) The Univs of Oxford and Cambridge exact 3 yrs' residence, but allow students to do any or all of their

medical work at other recognized medical schools. At Oxford, Dublir Univ. of Wales, candidates must graduate B.A. (or B.Sc., Wales before admission to a medical degree.

- M.D. Candidates must be M.B., Ch.B. of, usually, 2 yrs.' standin (Oxford, 10 yrs from matriculation; Cambridge, M.B. of 3 yrs.', c. M.A. of 4 yrs.' standing; Leeds, Sheff., M.B., 1 yr.'s standing; Belf M.B. 3 yrs., B.A. or B.Sc. with M.B. 2 yrs., Dublin, of M.A. standing A dissertation is compulsory in almost all Univs, followed by an examn, unless the examiners pronounce the dissertation to be of suc ment as to render further examn unnecessary.
  - Ch.M. Regulations similar to those for M D.
- DCh (Durh). Candidate must have devoted, subsequently thaving obtained a registrable qualification, 3 yrs. (including one a least in the Univ. and 6 months at least abroad) to the study of Surger and ancillary subjects.

Degrees in Dentistry, in Pharmacy (London, Manchester, Glasgow) and in Veterinary Science are obtainable under somewhat similar conditions.

#### Degrees in Law

- LL.B. (or B C.L), obtainable with Honours or as an ordinary degree In the Scottish Univs. candidates must have graduated M.A; at Dublin, Durham (BC.L. and LLB), National University of Ireland, BA For BC.L. at Durham candidates must be of 2 yrs. standing from BA., for LLB the course is 3 yrs. for a candidate o Intermediate grade in Arts or Science. In Wales the course extends over 3 yrs for a pass degree and 4 yrs for an Honours degree. At Belfast graduates of this or of some other Univ. are eligible for the degree after a 2 yrs.' course in Law, at Oxford, after a 2 yrs.' course if they obtain Honours in the B.C.L. examination. At Sheffield a graduate of a Univ. of the United Kingdom who has attended for 1 yr. the intermediate course and for 1 yr. the Final course in Law and for 2 yrs studied in a recognized institution, may be a candidate for the degree. In the majority of Univs there are two examns., Intermediate and Final For B.L. v. Scottish Univs.
- LL.M. Cambridge, Leeds, Liverpool, London, Manchester, Sheffield Wales. By standing for graduates in Law with Honours, except at Leeds and Manc, where a dissertation must be presented. For others after examn or (Camb) dissertation, or both (Wales) Liverpoorequires 2 yrs. of approved study.
- LL.D. (or D.C L). By the Scottish Univs, the Doctorate is awarded only honoris causa tantum. Other Univs, unless the degree be awarded honoris causa, require the submission of a thesis, dissertation, or published works, and may require attendance at an examn.; in Dublished works, and may require attendance at an examn.; in Dublished works, and may require attendance at an examn.; in Dublished works, and may require attendance at an examn.; in Dublished works, and may require attendance at an examn.; in Dublished works, and may require attendance is, at London, 2 yrs. from Honours LL.B.; Belf, 3 yrs. from LL.B. if thesis; Dublish, 3 yrs. from B.A. of Dub, Ox., or Camb.; Manchester, 4 yrs. from LL.B.; Nationa

Univ. of Ireland and Sheffield, 5 yrs. from LL.B.; Oxford (D.C.L), 5 yrs. from B.C.L.; Cambridge, 8 yrs. from first degree; Liverpool, 5 yrs. from LL.M., Leeds, 6 yrs from LL.B.; Durham (D.C.L.) and Wales, 10 yrs. from graduation or 3 yrs. from LL.M.

### Degrees in Music

The degrees of Mus B. (or B Mus) and Mus.D. (or D.Mus.) are conferred by the Univs. of Cambridge, Dublin, Durham, Edinburgh, London, Manchester, N.U.I, Oxford, Wales; B Mus. and M.Mus. Birmingham; Mus.M. Cambridge and M.Mus. Wales.

Mus.B. At Birmingham, Cambridge, Dublin, Edinburgh, London, Manc., N U I., and Wales, students must pass the same Entrance examn. (Matriculation, Previous, or Preliminary) as students in Aits, with, at Birmingham, where the degree is an Honours degree, an examn. In theory and in execution. At Durham they are admitted on a testamur as Students of Music At Oxford they must pass Responsions. In Wales a student must attend an intermediate class in Arts or Science in addition to the Music course. Residence is not obligatory at Dublin or Durham. At Edinburgh students must study Music in the Univ for one whole winter session. As a rule, the course extends over 3 yrs with two, or three, examns., including an exercise for the Final examn.

Mus M. Conferred 3 yrs (Wales—2 yrs) after the Mus B for original work and dissertation (Birmingham), after examn and exercise (Cambridge, Wales)

Mus D. Conferred at Cambridge on graduates not less than 30 yrs of age, in recognition of distinction as Composer; in Wales (D Mus) on B Mus of 10 yrs' or M Mus of 3 yrs' standing on consideration of original compositions, at Edinburgh on Mus B's of 3 yrs' standing, after examin, as Composer, Executant, or Theorist or Historian (Dissertation), and also honoris causa tantum, at Dublin on Mus B's after further examin or practical test, at London on Mus B's of 2 yrs' standing, Oxford 3 yrs', Manchester 4 yrs', Durham and N U.I. 5 yrs.', after exercise and examin

10 Clinical lecturers and tutors on the staff of the Dental Hospital.

#### Huxley Lecturer

1928-29—Sir Humphry D. Rolleston, M D, LL D, D Sc, on "The Nature of Disease."

#### University Extension

Tutors: Vacant (Jt.-Secy.) and 12 others

## AFFILIATED INSTITUTIONS

MIDLAND INSTITUTE. Students are admitted to Intermediate Arts examn. as Internal Students. *Principal*—A. Hayes, M.A. Ox, and Birm.

SALTLEY TRAINING COLLEGE. Students taking the 4-yr course are admitted to the Intermediate Arts examn as Internal students. *Principal*—Rev. F. T Cooper, M.A. Camb.

HANDSWORTH AND LICHFIELD THEOLOGICAL COLLEGES. Students can take the 2nd and 3rd yrs. for the B.A. in their own Colls *Principals*—Handsworth: W. F. Lofthouse, D D , Lichfield L A Phillips, M A. Ox

#### GENERAL INFORMATION

The University, formerly the Mason College founded by Sir Josiah Mason in 1880, was incorporated by Royal Charter in 1900. The Charter prescribes instruction in all branches of a liberal education, and such instruction especially as may be of service in the manufactures, commerce, and industrial pursuits of the Midlands — The Faculties of Arts, Medicine, and Law are still housed in the buildings of Mason College in the centre of the city — Other buildings have been erected and equipped at a cost of £850,000 at Bournbrook on a site of 50 acres.

FACULTIES · Science, Arts, Medicine, Commerce, Law. Deans · Prof. Boulton, Prof. Brash (Anatomy), Prof. Smith, Prof. Smalley-Baker

Departments of Education (training for teaching in primary, secondary, and continuation schools); Malting and Brewing and Bio-Chemistry of Fermentation; Social Study; Industrial Certificates. Connected with the Medical Faculty is a School of Dentistry.

LIBRARY, about 150,000 vols. Special Collections: Sargant, rich in French economic literature of about 1830-1860; Collings, some 350 books on agric. and land problems; Bunce, rich in nineteenth-century biography; Corbett, county, especially Shropshire, history. Museums, Anat., Dent., Geol., Zool.

LABORATORIES: Chemical (special organic, phys., electro-chem., analytical, and public health depts.); Engin., Metallurgy, and Mining (exceptionally well equipped and including coal-mining research lab., expl. coal-mine and oil-boring plant, petroleum engineering being a speciality); Brewing; Powerstation supplying whole Univ. with lighting, heat, and power; Cancer Research, Research in Mental Disease. A small Observatory is attached to the dept. of Physics. Hospitals (600 beds) available for clinics—General, Queen's, and many special.

MATRICULATION. See Appendix XX.

DEGREES. B.A., B.Mus., LL.B., M.A., M.Mus., D.Phil., D.Litt.; B.Sc. (in Pure Science, in Engineering—Civ., Elec., Hydro-Elec., Mech., or Oil, in Metallurgy, or in Mining—Coal and Metal), M.Sc., D.Sc.; M.B., Ch.B., B.Sc. (Pub. Health), B.D.S., M.D., Ch.M., M.D.S.; B.Com., M.Com.; Ph.D. (in any Faculty); LL.D. (Honorary).

No degree can be obtained without attendance upon prescribed courses in the Univ. extending over at least 3 academic yrs. after matricial except in the case of graduates of other Univs., who are, under certain conditions, admitted to the 1-yr. courses for the M.A. and M.Sc. and to 2 yrs.' courses for the B.Sc. (courses in technical subjects), B.Com. (one year may in exceptional cases be taken elsewhere), Ph.D. (v. p. 18), M.D., or Ch.M.

B A. Honours schools in Classics, French, German, Engl. Lit., Hist., Social and Polit. Sc., Philos., Maths., Music, Geography, Italian, Spanish, Economics. In the B.Com. courses one-third of the student's time may, if he chooses,

be devoted to work in Applied Science.

The B.Sc. with Honours requires 3 yrs. after the Intermediate standard has been reached. The B.Sc courses in Engineering and Oil Mining cover 4 yrs. Those in Mining involve practical work underground. Graduates of Oxford who have obtained the Ox. Dipl. in Scientific Engin. and Mining are eligible, subject to certain provisos, for the B.Sc in Engin., Mining, or Metall. after 2 yrs.' study in Birmingham.

Special course in Spanish for students of applied science; 2 lecture hours a week for 2 sessions.

Med students may spend their final yr. at any school or schools of Med recognized by the Univ., and the Senate may recognize examns passed therein as exempting from the 1st Med examn. They may obtain the B Sc. as well as their Med. degree by devoting 6 yrs. after the pre-medical year instead of 5 to study in the Univ.

Candidates for the B.Mus. (Honours) must have passed the matricn, or an equivalent examn, and an examn in the Rudiments of Music, and power of performance on some musical instrument.

The M.A., M.Com., and M.Sc. involve at least 1 yr of study after completing the course for the bachelorship.

The M.A. may be taken in Educn. as well as in the ordinary Arts subjects. The D.Phil. or D.Litt., M Mus, or D.Sc. may be taken 3 yrs. after the M.A. B.Mus, or M.Sc.

Advanced Standing. Candidates who pass at entrance certain examns. ordinarily taken after the first year of a degree course may take the final examn, for the B.A. at the end of their second year and the M.A. at the end of their third year. Certain examns, of other approved Univs, and Examining Bodies are accepted as qualifying for such advanced standing.

Diplomas. Art Instructor's (2 yrs.' course), for students of the Municipal School of Art; Brewing (3 yrs.' course), Brewing Special for graduates (1 yr.); Graduates' Commerce (1 yr. course), open to graduates of any Univ. who have passed an adequate test in accounting; Mining; Social Study (2 yrs.' or, Higher Dipl., 3 yrs.' course preparatory for public administration, charity organization, factory welfare, tiade union official work, etc.); Diploma in Education (1 yr. course), for graduates of a Univ of the U.K. or others equally qualified; Dental Surgery (4 yrs. subsequent to passing a recognized Pre-Dental examn.); Public Health (1 yr. course), not less than 2 yrs. after obtaining registrable qualification in Med, Surg., and Midw.

A Joint Coal-mining Diploma of the Univs. of Oxford and Birmingham may be taken by Oxford graduates in Engineering who, after 4 months' practical experience in coal-mining, pursue courses covering one session in this Univ. Tuition fee, £60. A similar Joint Diploma of Camb. and Birm. is given.

Mining students from British Dominions, not under 25 years of age, who have been regularly employed in mines for not less than 4 yrs, may take a special 2-yrs.' course (combined with practical experience) qualifying for the Univ.'s Mining Diploma.

Certificates for Brewers and Maltsters (2 yrs.).

An Industrial Certificate class has been instituted under the control of a joint board of Univ. and Trade Union representatives. This class provides two full days' instruction to members of Trade Unions, nominated by their Unions, in English Literature, Modern History, Economics, and Elementary Science. The class is held in all three terms of the Univ. session, and at the end an Industrial certificate is awarded after examn. The class is a new departure, as it is not based on the principle of evening work but on full-time day work, and the instruction is provided by members of the Univ. Staff Evening classes are not provided by the Univ., this work being left to the Birm. and Midland Inst, Munic Tech. Sch, etc.

RESEARCH A joint standing committee of lay members of council and academic members of senate co-ordinates research work in all faculties, formulates policies of research, obtains funds, and co-operates with Gov agencies and external bodies. Trust Funds (Spencer and Holcroft) amount to £10,000. There are special committees for research in Mental Diseases and in Cancer.

FEES Matricn, £2. Tuition for BA, £75; B.Sc, £75-£96; Engin, £221; Mining, £146-£198, Metall, £129-£175, Med, including Hospl fees, £170; LLB, £29 Examns, Interm and Final, for first degree, £10, except in Med, £20, and Engin, £12 ros. Laboratory research fees average about £20.

SCHOLARSHIPS for advanced students. Walter Myers (Travelling), £150 for 1 yr., renewable, for research in Path. or Clin Med., open to graduates in Med. and Surg. of Birm (who have also obtained the B.Sc.), London, Ox, or Camb.; 10 Scientific Research, tenable for 1 yr. (6 of £96 and 4 of £50 each), are offered annually.

RESIDENCE. For women there is a Hall of Residence—Univ House, Edgbaston Park Rd. (Warden), with grounds of 2½ acres; for 96 men students—Chancellor's Hall (Warden), Augustus Road, Edgbaston, for 30 men students, Queen's College (Warden), Somerset Road, Edgbaston. The cost of board and lodging is from £2:2s. upwards a week.

An Appointments Board (Secy -The Registrar) has been established.

GUILD OF GRADUATES. Six representatives serve on the Univ. Court of Governors, one of whom is also a member of the Univ. Council. A Register of Graduates and a News Letter are circulated annually to all members.

UNIVERSITY EXTENSION work includes Lectures and Tutorial Classes in the city and neighbouring towns.

Publications. Calendar (Oct.), 2s; Sectional Prospectuses (April); Careers in Science; Report of University Research Committee, including list of research reports published during the session (Jan); students' magazine, the University Gazette.

## THE YEAR 1927-28

Benefactions and Gifts (above £500), 1927-28. Estate of F C Clayton (formerly Treasurer), £5770 and two-thirds of the residue of the estate, Estate

of Christopher Collins, £6085; legacy from Miss J. F. Osler, approximately £40,000; Miss K. E. Bunce, £680; R. Fenwick for Scholarships, £6000; Emeritus Prof. Muirhead, £1050 (Post-graduate Scholarship); Francis Fletcher's estate (for Medical Scholarships), approximately £30,000; value of the land given by the Hon. Mrs. Gough-Calthorpe, £20,000; an anonymous Charitable Trust, £11,101 to the permanent endowment of a Readership in Geography (previously guaranteed for five years only). Numerous gifts in cash, apparatus, etc., from individual owners and firms in the Midlands. The Corporation Council of Birmingham has approved the principle of a penny rate for the University (July 1928), to come into operation after April 1, 1929, if financial conditions permit. This will raise the city grant from £15,000 to approximately £23,000.

New Buildings. The New Biological block, opened by the Prime Minister on October 20, 1927, is now in full use, and the reorganization and extension of the staff for the three biological departments has practically been completed. The extension of Chancellor's Hall, also opened by the Prime Minister, will be available for the present session, and the number of resident students (96) is complete. In the course of last session the gift from the Hon Mrs Gough-Lalthorpe of 45 acres on the north side of University Road completed the original gifts, amounting to 65 acres, between 1900 and 1914. With the land icquired by the University from its own resources the whole University site at Edgbaston will occupy 120 acres, and this will provide for all necessary levelopments in the future. The planning of the new site is being actively proceeded with, and the necessary planting and making of a central avenue to meet the new road which is being made by the city to the north) has been approved.

STUDENTS' UNION. The plans for the Students' Union on the site acquired by the University on the south side of University Road have now been completed and the building of the new Union begun. The scheme for a new Hospital Centre on a site adjoining the University site to the west is being ictively proceeded with, and the organization of the buildings which will be equired for the transference of the Faculty of Medicine from Edmund Street is being worked out along with the plans for the creation of a new teaching Iospital of, it is hoped, 750 beds

New Posts Full-time additional Assistants in the Departments of Educaion, History, and Physiology have been approved.

New Develorments The facilities at Edmund Street, both for the Cancer Research Committee and the University and City Joint Research Board for fental Diseases, consequent upon the transfer of the biological departments rom Edmund Street to Edgbaston, have now been completed. Further actilities in the way of rooms and laboratories have also been provided for the rofessor of Gynæcology and for the Professor of Public Hygiene. A new iological laboratory and two new rooms for Aits and Crafts have been assigned the Education Department. The accommodation for the Faculty of Law as been reorganized and concentrated at Edmund Street, together with a pecial Departmental Library for Law Students.

DEPARTMENT OF COAL AND METAL MINING. The Fuel Treatment laboratory hich is part of this Department has been brought into closer connexion both a regards teaching and its place in the curriculum and as regards accommodation and staff. A further extension of the Mining Research Department is also a process of being carried out.

HONORARY DEGREES. LL.D.—The Rt. Hon. Stanley Baldwin, P.C., M.P.;

The Right Hon. the Lord Chancellor (Lord Hailsham); The Right Hon. the Lord Chief Justice (Lord Hewart); The Right Hon. Lord Atkin of Aberdovey; The Hon. Mr. Justice McCardie; W. S. Holdsworth, F.B A., D.C L. (Vinerian Professor of English Law in the University of Oxford); R. A. Pinsent, M.A.

STUDENTS. Full-time: total, 1352, including 147 graduates. Part-time: total, 171, including 38 graduates.

DEGREES. B A., 96; B.Sc., 102; M.B., Ch.B., 23; B.Com., 12; LL.B., 7; M.A., 21; M.Sc, 16; Ph.D., 15; M.D., 7; M.Com, 2; B Mus., 1; B.D.S., 1.

#### GENERAL INFORMATION

University College, Bristol, founded in 1876, was dissolved in 1909 on the incorporation by Royal Charter of the Univ. of Bristol. The main buildings, including a large extension recently opened which cost £500,000, a new building for the accommodation of the Physics department (cost £200,000), and other projected additions, when complete, will cover a site of 16 acres near the centre of the city on high ground adjoining residential districts. The Municipal Museum and Art Gallery adjoin.

The Technical College of the Society of Merchant Venturers provides accommodation for and maintains the Faculty of Engineering of the University. Dean of the Faculty—Prof. Andrew Robertson, D.Sc.

LIBRARIES, 78,000 vols. LABORATORIES. Scientific, Medical, and Engineering, all equipped for purposes of research. Agri-Horticultural station at Long Ashton with Expl. fruit plantations 268 acres devoted to research in fruit-culture, cider-making, plant diseases and their treatment, etc. Fruit and vegetable preservation research station at Campden, Glos., controlled by the Univ. on behalf of the Ministry of Agr., for instruction and experimentation on a semi-commercial scale. Hospitals available for clinical study, 2 General (628 beds), Children and Women (100), Eye (40), in all 768 beds.

FACULTIES. Arts, Science, Medicine, Engineering. Deans · Prof. Crofts (English), Prof. Hassé (Mathematics), Prof. Fawcett (Anatomy), Prof. A Robertson.

Special Departments. Education (places for 180 men and 180 women students); Agriculture and Horticulture; Pathological Laboratory (for investigation of epidemic and other outbreaks, examination of waters and foods.

MATRICULATION. In common with all other English Univs., Bristol holds School and Higher School Certificate Examns., at which candidates may qualify for matriculation. It holds no separate matriculation examn. See also Appendix XX.

Degree Courses. B.A., B Sc., B Sc. in Agriculture, B.Sc. in Engineering—3 yrs., including at least 2 in the Univ.; Honouis in Arts and Pure Science—4 yrs., except for those who enter with Higher School Certif.; B.Sc. in Domestic Science—4 yrs.; by research in case of a graduate of another Univ.—2 yrs; "Sandwich" Scheme of Training for Engineers, including 30 mos. in works—5 yrs.; M.B., Ch.B.—5 yrs, after passing a Prelim. Science examn. in Chem. and Physics; B.D.S—5 yrs., including at least 3 in the Univ.

Instruction given in Theological subjects in the Associated Colleges to undergraduates of the Univ. by the Principal or teachers mentioned above is, for the purpose of the B A. degree, deemed to be given in and by the Univ.

Post-graduation medical studies are under the direction of the Prof. of Pathology, who arranges for weekly afternoon demonstrations and discussions in April and May. Fee for the course, I guinea.

HIGHER DEGREES. M.A., D.Litt.; M.Sc., D.Sc. (in Pure Sc. or Engineering); Ch.M., M.D.; Ph.D. (see p. 18). Graduates of other Univs. are placed practically on the same footing as graduates of Bristol as far as regards facilities for proceeding to all these except the Medical Degrees. Candidates who graduate with Honours in Science may take the M.Sc. one yr. later. Otherwise the Mastership is not granted within 2 yrs. after graduating. The M.D. may be taken 2 yrs. after graduating in Med., the D.Litt. 4 yrs. after the

M.A., and the D.Sc 4 yrs. (3, 1f devoted to original work in the Univ.) after the M.Sc.

DIPLOMAS. Education (post-graduate) 1 yr., L.D.S. 4 yrs., D.P.H (for fully registered medical practitioners of 2 yrs.' standing), 9 months, D.V.S.M. (for M.R.C.V.S. of 1 yr.'s standing), Engineering 3 yrs.

CERTIFICATES. Testamur in Educn, 1 yr.; Continuation School Teachers' Certif., 1 yr.; Testamur in Social Study, 2 or (Higher Testamur) 3 yrs., Testamur in Biology, 1 yr.; Engineering Apprentices, 2 yrs.

FEES. Matrien., 3 gs.; Registration, £1:10s; Tuition, annual, B.A, 24 gs, Theol. Students (1st year only), 20 gs, B Sc, 30 gs; B.Sc in Engin., 40 gs. (Lab. practice alone, 4 gs. per term for one day a week), M.B, Ch.B., entire curriculum, 205 gs.; B.D.S., including mech. lab and hospl practice, 215 gs.; Testamur in Social Study, 2 yrs, 27 gs; Degree examns. (including Graduation), B.A. or B Sc, 9½ gs; M.D., 24 gs; M.D.S., 24 gs; M.A. and M.Sc., 9½ gs.; Ph.D., 13 gs. Univ. Union, £3:3s. per annum.

RESEARCH The Colston Research Society devotes annually about £400 to the promotion of Research in the Univ. It offers, preferably to Bristol graduates, fellowships of £150 each, the money being provided by donors, who are allowed to determine the subject of the research and, subject to the approval of the Board of the Faculty, to nominate the holder. The donor has a right of access to the research work and to receive the result of it 12 months prior to publication

Scholarships for Graduates. £160 for research in Engin., £40 and £31 (women only), £46 (men only), for post-graduate course, £52 for Chemical Metall. research; £7 for study in English Lit., studentship in Mod Langs, £80.

RESIDENCE. Mortimer House and Canynge Hall for men—from £75 and £67: 10s. p.a., Clifton Hill House and 3 other residences for women students—from 60 gs. p a.

APPOINTMENTS BOARD. Secy, T A Leach, M A

For Former Students there is an Association of Alumni.

University Extension. A Joint Board was formed in 1922 consisting of representatives of the Univ of Bristol, the Univ College of the South-west of England, Exeter, and the Univ. College of Southampton Secy—J. H. Nicholson, M.A., Director of Extra-mural Studies, The University, Bristol.

Co-operation with Rural Community Councils The Univ appoints 3 representatives to the R C.C. of Gloucestershire and Somerset respectively. The Director of Extra-mural Studies in the Univ. is Vice-Chairman of the Gloucestershire R.C.C., and Chairman of the Education Committee of each of the two Councils. The Gloucestershire R.C.C. contributes to the salary of a whole-time tutor for Adult Education, appointed by the Univ. for that Countv.

Publications Calendar, Faculty prospectuses issued in June, annual report of Council; Pamphlets on Extension Lectures (with list of lectures on the Bristol, Southampton, and Exeter panels), Public Lectures, Halls of Residence, Regns. for Matrica. and for School Certif. Examns (Examn Papers, 1s. 3d. per set post free); Students' Mag. Nonesuch, 1s.

## THE YEAR 1927-28

Benefactions. From the Chancellor, Viscount Haldane of Cloan, O.M., K.T. (bequest), £2000; Captain Nathaniel Forte (bequest), £50; Sir George Wills (bequest), £2200. Scholarship: An entrance scholarship was provided by Messrs. J S. Fry & Sons in commemoration of the two hundredth anniversary of the firm.

New Buildings and Equipment. The Henry Herbert Wills Physics Laboratory was opened by Sir Ernest Rutherford, O.M., D.Sc., F.R.S, President of the Royal Society, in October 1927. The new Hall of Residence for men, to which Sir George Wills made generous gifts, is nearing completion. A chapel, the gift of Dame Monica Wills, is to be erected in the grounds. The new Hall of Residence for women is in progress. The extension of the laboratories at the Agricultural and Horticultural Research Station, Long Ashton, was opened by the Minister of Agriculture, the Rt. Hon. Walter Guinness, in July.

LEGISLATION. The Privy Council have approved amendments to Statutes providing for the election to Council by the non-professorial staff of two members.

An Annual Lecture in Physics has been established in memory of the late Henry Herbert Wills.

Conferences. The Physical Society of London and the Mind Association and Aristotelian Society held their annual meetings in the University buildings.

Interchange. Lectures were delivered by Prof. J. M. Carré of the University of Lyons, Sir William Bragg, Prof. Langerin, and Prof. Born. J. H. Nicholson, Lecturer on Education, gave a vacation course in the University of Iowa.

RETIREMENTS AND RESIGNATIONS. G. H. Leonard, Professor of Modern History; R. M. Ferrier, Professor of Civil Engineering; E. P. Weller (Agric. Economics), R. M. Nattrass (Mycology), H. Ann Drummond (Education), J. E. G. Carlson (Physical Training), Signorina E. Gualtieri (Italian), J. M. Low (Zoology), C. Hadfield (Pathology), J. D. Symes (Medicine).

DEATHS. Viscount Haldane of Cloan, Chancellor; Sir George A. Willsbart., LL.D., Pro-Chancellor; Alice Gardner, Reader in Byzantine History; A. E. Burn, Recognized Teacher in Theology; J. P. I. Harty, Clin. Lectr. in Laryngology.

University Extension. In rural areas the work is organized by Resident Tutors (44 centres in Gloucestershire, 56 in Somerset); 22 short courses, 114 lectures were given.

Honorary Degrees. *LL.D.*—R. S. Franks; the Rt. Rev. R. E. Ramsay, Bishop of Malmesbury; the Rt Rev. A. C. Headlam, Bishop of Gloucester; Thomas Loveday, Vice-Chancellor. *D.Sc.*—Max Born, Sir W. H. Bragg, A. S. Eddington, A. Fowler, Paul Langevin, Sir Ernest Rutherford, J. W. McBain. *M.A.*—Alderman S. W. Bush.

STUDENTS. Total: full-time, 878, including 16 graduates. Part-time and occasional, 56; Extension, 380; Summer School, 65.

DEGREES. B.A., 64; B.Sc., 26; B.Sc. in Eng, 14; M B., Ch B., 11; B.D.S., 1; M.A., 5; M.Sc., 6; Ph.D., 2; M Sc. in Eng., 2; D Litt., 1; D.Sc., 1.

# UNIVERSITY OF CAMBRIDGE

- CHANCELLOR—Rt. Hon. the Earl of Balfour, K.G., O.M., M.A., Hon. LL D. Trinity
- VICE-CHANCELLOR—T C. FITZPATRICK, D.D., President of Queens' College.

#### THE COLLEGES

Christ's College. Founded 1505.

Hobson, Prof. E. W., M.A., Sc.D., F.R.S.
Rackham, H., M.A.
Haddon, A. C., M.A, Sc.D., F.R.S.
Campbell, S. G., M.A.
Valentine-Richards, A. V., M.A.
Marshall, F. H. A, M A, Sc D., F.R.S
Saunders, J. T., M A., Tutor.
Downs, B. W., M.A., Tutor.
Grose, S. W., M.A., Tutor.

Murray, E. G. D., M.A.
Steen, S. W. P., M.A.
Steel, A. B., M.A.
Peck, A. L., M.A.
Rose, Prof. J. Holland, Litt.D.
Rastall, R. H., M.A., Sc.D.
Hartree, D. R., Ph.D.
Harris, T. M., M.A.

Master-W. L. Mollison, M.A., LL.D.

Master-N. McLean, M.A. Fellows:

Wyatt, T. C., M.A.

CLARE COLLEGE. Founded 1326. Fellows:

Fulford, H. W, M A.
Wardale, J. R., M.A.
Wilson, G H. A., O B E, M.A
Chadwick, Prof. H. M., M.A., F B.A.
Thirkill, H., M C., M.A, Tutor.
Forbes, M. D., M.A.

Harrison, W. J., M B.E., M.A. Landon, J. W., M.B E., M A. Telfer, W., M.C., M.A. Priestley, R E., M.A. Nock, A. D, M A. Godwin, H., M.A., Ph.D.

CORPUS CHRISTI COLLEGE. Founded 1352. Master—William Spens, CBE., M.A. Fellows:

Pollock, C. A. E., M A.
Butler, Sir Geoffrey, K.B E., M.A.,
M.P.
Pickthorn, K. W. M, M.A., Senior
Tutor.
Hoskyns, Sir Edwyn C., Bt., M.A
Morris, G. G., M.A, Bursar.
Clark-Kennedy, A. E., M.A, M.D,
M.R.C.P.
Goodhart, A. L., M.A., LL.M.

Sanders, T. R. B., M.A.
Smyth, C. H. E., M.A.
Butler, R. A., B.A.
MacCurdy, J. T., M.A. (M.D. Johns
Hopkins).
Mynors, H. C. B., B.A., Assistant
Tutor.
Phillips, F. C., Ph.D.
Charvet, P. E., B.A.

DOWNING COLLEGE. Founded 1800. Master—A. C. Seward, Sc D., M.A., F.R.S., Prof. of Botany. J. B. Bradbury, M.D., Downing Prof. of Med.; H. D. Hazeltine, M.A., Litt.D., F.B.A., Downing Prof. of Laws of England. Fellows

Kenny, C. S., LL.D., F.B.A.
Saunders, J. C., M.A.
Harris, D. L., M.A.
Widdicombe, J. H., M.A., Senior
Tutor.
Amos, A., M.A.

Berry, A. J., M A.
Thomas, H. H., M.A., Sc.D.
Smith, F. B., M.A., C.M.G.
Whalley-Tooker, H. C., M.A., LI..M,
Tutor.

EMMANUEL COLLEGE. Founded 1584. Master — Peter Giles, Litt.D, F.B.A., Reader in Comp. Philol. Fellows:

Allcock, W. B., M.A.
Bennett, G. T., M.A., Sc.D., F.R.S.
Greenwood, L. H. G., M.A.
Wood, A, M.A., Tutor.
Wood, P. W., M.A., Senior Tutor.
Whitney, Prof. J P., M.A., D.D.
Hele, T. S., O.B.E, M.A, M.D.,
Tutor.

Jones, Prof. B. M., A.F.C., M.A. Burnaby, H., M.A. Gardner, R., M.C., M A., Bursar.

GONVILLE AND CAIUS COLLEGE. Founded 1348. Master—J. F. Cameron, M.A. Fellows:

Muir, M. M. P., M.A. Gallop, E. G., M.A. Buckland, Prof. W. W., M A, LL.D., F.B A., President. Vesey, W. T., M.A. Hardy, Sir W. B., M.A., F.R.S. Gardiner, Prof. J. S, M.A, F.R S. Punnett, Prof. R. C., M.A., F R.S. Stratton, Prof F. J. M., D.S.O., M A., Senior Tutor. Wood, Prof T.B., C.B.E., M.A, F.R S. Brooke, Z. N., M.A. McNair, A D., C.B.E., M.A., LL D. Bullough, E., M.A. Scott, J. E., M A., M.C. Phear, H. W., M.A.

JESUS COLLEGE. Founded 1496.
Watt, J. C., M A.
Foakes-Jackson, F. J., M.A., D.D.
Abbott, E, M.A., Tutor.
Duckworth, W. L. H., M.A., M.D.,
Sc.D.
Duke, W. H., M.A.
Ellhott, C. A., M.A., Tutor.
Mills, W. H, M.A., F.R.S.

King's College. Founded 1441. Fellows:

Hollingworth, H., M.A.
Phillpotts, S. B., M.A.
Grant-Ives, C. E., M.A.
Tilley, A. A., M.A.
Macaulay, W. H., M.A.
Berry, A., O.B. E., M.A.
Dickinson, G. L., M.A.
Richmond, H. W., M.A., F.R.S.
Wedd, N., M.A.
Heycock, C. T., M.A., F.R.S.

Welbourne, E., M.C., M.A., Tutor.
Wallace, J. C., M.C., M.A.
Line, J., A.F.C., M.A.
Norrish, R. G. W., Ph D.
Head, F. W., M.C., M.A.
Wright, G. J. H., D.S.O., M.A.,
College Secretary.
Grave, W. W., M.A., Ph.D.
Carslaw, H. S., Sc.D.
Stoner, E. C., Ph D.

Prior, Prof. E. S., M.A., A.R.A.
Okey, Prof. T., M.A.
Debenham, F, O.B.E., M A.
Cook, S. A., M.A., Litt.D.
Chadwick, J., Ph.D., F.R.S.
Bennett, E. K., M.A.
Tunnicliffe, H. E., M.A.
Needham, N. J. T. M., M.A., Ph.D.
Oakeshott, M. J., M.A.
Deas, H. T., M.A.
Florey, H. W., B.A., Ph.D.
Roberts, H. A., M A.
Schram, O. K., Ph.D.
Bellerby, J. R.
Heywood, H. C. L., B A.

Master—A. Gray, M.A. Fellows:
Quiller-Couch, Prof SirArthur T., M.A.
Nairne, Prof. A., M A, D.D.
Manning, B L., M.A.
Pars, L. A., M.A.
Barnes, H., M.A., LL.B.
Gardner-Smith, P., M.A.
Sinker, A. P., B A.

Provost-A. E. Brooke, M.A., D.D.

Reddaway, W. F., M.A.
Sills, H. H., M.A.
Barcroft, Prof. J., C.B.E., M.A.,

F., M.A. Southwell, R. V., M.A., F.R.S. Duff, P. W., M.A. Chadwick, J. A, B.A. Evennett, H O., B.A. Kapıtza, P, Ph.D. Burkitt, Prof. F. C., D.D., F.B.A. Higgins, Prof. A. P., C.B.E., LL.D., F.B.A, K.C. Nicholson, Prof. R. A., Litt.D., F.B.A. Rattenbury, R. M., B.A. Thomas, L. H., Ph.D. Trevelyan, Prof. G. M., M.A. Runciman, J. C. S., M.A. Sandbach, F. H, M.A. Cross, A. G. N, B.A. Winnington-Ingram, R. P., B.A. de Bruyne, N. A., B.A. Edge, W. L., B.A.

Rutherford, Prof. Sir E., O.M., M.A.,

Master—H. Bond, LL.D. Fellows:

Rideal, E. K., M.B. E., M.A.

Rendell, W. R., M.A.

Dean, Prof. H. R., M.D.

Crawley, C. W., M.A., Asst. Tutor and Prælector.

Turner, J. W. C., M.A.

Marsh, F. S., M.A., Tutor. Perrett, G. B, M.A., Bursar. Durrant, P. J., M A. Blyth, A. C., M.A. Woodward, F. H., B.A.

Non-Collegiate Students: Fitzwilliam House. Established 1869.

Censor-W. S. Thatcher, M.A.; Asst. Censor, Bursar and Chaplain-W. Harvey, M.A.

Supervisors of Studies. Agriculture: S. W. U. Muncey, M.A. Botany: A. H. K. Petrie. Chemistry: P. J. Durrant, M.A. Classics: B. F. C. Atkinson, M.A., Ph D. Economics: J. L. Cohen, M.A. English: B. Willey, M.A. Geography: C. G. Joseph, M.A. Geology: W. B. R. King, O. B.E., M.A. German: A. H. J. Knight, M.A. History: C. J. B. Gaskoin, M.A. Law: C. H. Ziegler, M.A. Mathematics: J. J. Welch, M.A. Mechanical Sciences: R. S. Ball, M.A. Medical Studies: E. G. Holmes, M.A. Medicaid and Modern Languages: A. J. Wyatt, M.A.; J. W. Barker, Ph.D. Moral Sciences: C. Fox, M.A. Physics: G. Stead, M.A. Theology: H. Burnaby, M.A. Zoology: L. E. S. Eastham, M.A.

## WOMEN'S COLLEGES recognized by the University:

GIRTON COLLEGE. Founded 1869. Mistress—Miss E. H. Major, M.A. Directors of Studies: F. E. Cave-Browne-Cave, M.A. (Mathematics); J. R. Bacon, M.A. (Classics); E. M. M. Whetnall, Ph.D. Lond. (Moral Sc.); M. B. Thomas, M. A. Dub. (Natural Sc.), M. G. Jones, M. A. (Hist. and Law); K. T. Butler, M. A. (Mod. and Med. Languages), M. Tappan, Ph.D. Columbia (Econs.); H. M. R. Murray, M.A. (English and Philology), Vice-Mistress; Resident Lectrs in Maths, Mrs. Veitch, M.A.; in History, H. M. Cam, M.A. Lond.; in French, Mile. Bibas, M.A.; in English, M. G. Lloyd Thomas, M.A. Ox. Supervisor in Zoology. S. M. Manton, M.A. Supervisor in Geography: M. S. Willis, M.A.

Bursar—E. M. Allen, M.A. Secy.—M. Clover, M.A. Junior Bursar—P. K. Leveson, M.A. Librarian and Registrar of the Roll—E. S. Fegan, M.A. Secretary to the Mistress—F. M. Smith, M.A.

NEWNHAM COLLEGE. Founded 1871. Principal—Miss J. P. Strachey, M.A.

Tutors—A. B. Dale, M.A. (Old Hall); Mrs. Palmer, M.A. (Peile Hall); M. Steele Smith, M.A. (Clough Hall), Director of Studies in English; E. M. Chrystal, M.A. (Sidgwick Hall).

Other Lectrs. L. M. Swain, M.A.; M. D. Kennedy, M.A. (Maths.); J. Toynbee, M.A. (Classics); G. L. Elles, D.Sc., T.C.D. (Geol.); G. I. Mackenzie, M.A. Edim. (Physics); H. J. Pybus, M.A. Ox. (Hist.); E. M. Butler, M.A. (Mod. Langs.); E. E. H. Welsford, M.A. (English); M. Tappan, Ph.D. Columbia (Econ.). Bursar—Mrs. Lacy. Registrar of the Roll—E. M. Sharpley.

The legislative and executive authority of the Univ. is vested in the Regent House, which comprises those Univ. Officers, Fellows of Colls., and others, who are concerned with its teaching and administrative work. A meeting of the Regent House is called a Congregation.

There is a right of appeal against a decision of the Regent House, on the

motion of at least one-third of its members, to the Senate, which consists of graduates of at least seven years' standing from their first term of residence, who have taken a degree of Doctor or Master, or the degree of Bachelor of Divinity. In order to be successful an appeal must be sustained by a statutably prescribed majority. The Senate elects the Chancellor and certain other officers, confers degrees, and holds meetings for the discussion of proposals

Changes of statute can be made by the Univ with the approval of the Privy

Council, and Parliament.

Many executive duties, and the duty of sanctioning the submission of resolutions (called *Graces*) to a Congregation, are entrusted to the *Council of the Senate*, which is elected by the Regent House.

The titular presiding officer at a Congregation, and the Chairman of the Council, is the Chancellor, who is by custom a non-resident distinguished in public life. His duties are in fact performed by the Vice-Chancellor, who is a Head of a College, appointed annually, in theory by the Regent House, in practice by the Council. It is customary for the Vice-Chancellorship not to be held for more than two years in succession by one person.

There are numerous Boards and Syndicates for dealing with the various branches of University business—the most important of them are the General Board of the Faculties, whose duty it is to advise the Univ. as to educational policy and to supervise and co-ordinate the work of the Faculties, and the Financial Board, whose duty it is to supervise the finance of all spending departments.

There are twenty Faculties, a Faculty being a body of teachers in a subject or group of subjects. The organization of teaching, research, and examinations in the various subjects is in the hands of the several Faculty Boards, subject to the control of the General Board. A Faculty Board is in part composed of members elected by the Faculty. The large scientific Faculties are divided into Departments, under a Head, generally a Professor, who is responsible to the Faculty Board for the management of his Department

The INCOME of the Univ. is derived from the endowments of specific posts, from general endowment (though to a small extent only), from the fees of students, from the statutable contributions of Colls, and from a Treasury Grant.

DISCIPLINE outside the walls of the Colls. is maintained by the Proctors.

The Univ. Teaching officers are the Professors, Readers, Lecturers, and Demonstrators. They, as well as the administrative officers, are required to join in the Federated Superannuation Scheme for Univs. The retiring age is 65 for men, and 60 for women.

The Colleges are self-governing corporate bodies distinct from the Univ., owning and managing their separate property, the corporators being the Head and Fellows Their powers are, however, limited by their Statutes. which cannot be altered by them without notice to the Univ. and approval by the Privy Council. The functions of the Colls. in regard to students are to provide lodging, corporate life, and personal tuition for them, while the function of the Univ. is to provide public instruction by means of lectures and demonstrations, examinations leading to degrees, and facilities for research. The affairs of the Colls. are, however, closely interwoven with those of the Univ. Most of the Fellows of Colls. are Univ. officers, indeed the Statutes require that a certain proportion of the Fellowships of each Coll, shall be held by Univ. officers And each Coll. is required by Statute to contribute a certain fraction of its income to the funds of the Univ, the scale of contribution being graduated according to the wealth of the College.

The Colls. also maintain Fellowships for the furtherance of research, and a large number of Scholarships. The title of scholar is awarded on purely intellectual grounds, but, as at Oxford, no Coll. emolument other than an allowance for rooms is paid to an undergraduate scholar unless he satisfies the Coll. that his circumstances justify the payment.

Non-Collegiate Students reside in licensed lodgings or in "Houses" recognized by the Non-Collegiate Students' Board. Such students may, by becoming members of Fitzwilliam House, obtain opportunities for taking part in communal life (dining in Hall, belonging to athletic clubs, etc.) similar to those enjoyed by members of Colleges.

Women Students. Subject to the condition that the joint number of women students receiving instruction in the Univ shall not exceed five hundred, the students of the women's Colls (Girton and Newnham) are admitted to instruction and examinations in the Univ. and to the titles of degrees. Women who have received, or are qualified to receive, titles of degrees share with men graduates, under the Representation of the People Acts 1918 to 1928, the privilege of voting for the election of the two Burgesses who represent the Univ. in the House of Commons. Women are eligible for most Univ. offices and for membership of Faculties and Faculty Boards, but cannot become members of the Senate or Regent House. From 1872 women were informally admitted to Tripos examns in the Univ., and from 1881 have been formally admitted to the Previous examn., the Tripos examns., and certain examns. in Med. and Music. They were subsequently admitted to the courses and examns, for the Diplomas in Agric., Horticulture, Forestry, and Geog., and for the Training of Teachers, and were made eligible for Certifs. of Research I mally in Oct. 1921 a Grace admitting them to titular degrees was passed.

Admission. To become an undergraduate member of the Univ. a person must first be admitted either as a member of a College or as a Non-Collegiate Student. No person except Research Students (see p. 61) and certain others may be matriculated who has not passed or been exempted from the "Previous" examn (see Appendix XX).

For admission to a College or as a Non-Collegiate student application should be made to the proper officer—the Tutor for Admissions, Christ's; the Senior Tutor, Gonville and Caius, St John's; the Tutor, Clare, Cath, Corp, Down, Magd, Pet, Trin. H.; one of the Tutors, Trin., the Provost or Tutor, King's; the President, Queens', the Bursar, Selwyn; the Master, Emm., Jesus, Pem, Sid., the Censor, Fitzwilliam House (Non-Coll. students); the Mistress, Girton, the Principal, Newnham. It is advisable to apply some considerable time beforehand, and if the applicant has any special preference in the matter of lodgings, e.g. for cheap rooms, to begin correspondence at least 12 months beforehand.

As regards Colonial and Foreign students, see Appendix XXII.

Admission to Advanced Standing. The following may be admitted as Affiliated Students: (a) approved graduates of Associated Institutions; \* (b) certain adult students recommended by the Board of Extra-mural Studies; (c) certain other students on a grace proposed by the Council of the Senate. An Affiliated Student is entitled to (r) be exempt from the Previous Examn.; (2) reckon the first term kept by residence as the 2nd, 3rd, or 4th term for the purposes of certain provisions respecting the standing of candidates for (a) Tripos examns, or for degrees in Law or Music, and (b) degrees other than the Ordinary B.A. Degree or Degrees of M.Sc., M.Litt., and Ph D.; (3) secure such a degree in certain circumstances on one part or section of a divided Tripos.

Incorporation. Students who before admission as members of this Univ. have kept terms by bona fide residence at Ox. or Dub. (Trinity College) are, subject to certain provisos, allowed terms corresponding to those which they have so kept, a graduate of Ox. or Dub (Trinity College) who took a degree or degrees after having duly qualified himself therefor not only by having passed the examns., etc, required, but by having kept his terms by residence in his own Univ., may be admitted on certain conditions to the same degree or degrees in Camb. Women graduates of Ox. or Dub (Trinity College) may be admitted by incorporation to the title of the same degree or degrees in Camb.

Intercollegiate Indian Students Committee: Secy., R. B. Whitehead, M.A., 22 Fitzwilliam St.

Terms. In order that a term may be counted towards qualifying for a degree, a student must reside in Cambridge (i.e. within a circle of 2½ miles' radius from Gt. St. Mary's Church) during three-fourths of the term Full terms begin: 1928-29—Oct 9, Jan. 14, Apr. 19; 1929-30—Oct. 8, Jan. 14, Apr 22; end: 1928-29—Dec 7, Mar. 14, June 10; 1929-30—Dec. 6, Jan. 14, June 13.

Degrees. B.A., M.A., M.Litt, Litt D, MSc, Sc.D., B.D, DD.; LL.B, LL.M., LL.D.; M.B. and B.Chir, M Chir, MD, Mus.B., Mus.M., Mus.D.; Ph D.

ARTS. The qualifications for the BA. are (i) 9 terms' residence, (ii) passing or being exempted from the *Previous* examn., (iii) passing the examns for the ordinary degree or a Tripos examn. or examns.

Exemption from (1) to the extent of 3 terms can be obtained by students

entitled to the privileges of affiliation (v. supra).

(ii.) The *Previous* examn. includes Latin or Greek, one other language, Maths., and English. Subject to certain provisos, natives of Asia or Africa who are not of European parentage may substitute papers in Arabic, Chinese, Sansk., or Pali for the Latin papers. For details, see Appendix XX.

Exemption from (ii.) can be obtained by students who hold certain certains granted by various Univs. of the U.K., by the Scotch Education Dept., or by the Ministry of Education, Northern Ireland, or by certain Australasian, S. African, American, and European authorities (v. App. XXII); such exemption is also granted to students entitled to the privileges of Affiliation, and to certain adult students recommended by the Board of Extra-mural Studies.

As regards (iii.), the Ordinary B.A. is obtained by qualifying in 6 subjects, of which 3 at least must be "Principal" and 1 at least must be chosen from each of 2 groups. The Principal Subjects are—in Group I. Bible, Church Hist., Engl., Gk., Lat., Fr., Ital., Span, Ger, Rus., Geog, Hist I., Hist. II, Econ. I., Econ II., Psych., Law I., Law II., Music, Mily. Subjects I., History of Art; in Group II.: Maths., Physics, Chem., Applied Chem., Metal., Bot., Zool., Physiol., Geol., Geog., Engin. I., Engin. III., Engin. III., Mily. Subjects II.

Students of Agriculture and allied subjects may proceed to the Ordinary B.A. Degree by means of certain courses dealing with their scientific and

practical sides, and including also prescribed literary training

The Honours B.A. is obtained by passing in one or more of the following Triposes: Archæological and Anthropological, Classical, Economics, English, Geog., Hist., Law, Maths., Mech. Sciences, Mod. and Med. Langs., Mor. Scs., Nat. Scs., Oriental Langs., Theol.

A Bachelor may be admitted Master of Arts at the end of six years from the end of his 1st term, provided that not less than 2 yrs. have elapsed from his admission as B.A.

DIVINITY. A M.A. or LL.M. proceeds to the B.D. on or after the 11th of June in the 7th year from his creation or admission, either (1) by submitting an original dissertation composed by himself in Latin or English on some subject connected with Biblical Criticism, Exegesis, or History, or with the Evidences of Christianity, or with Dogmatic Theology, or with the study of other Religions in relation to the Christian Religion, or with Ecclesiastical History, Literature, or Antiquities, or with the Philosophy of Religion, or (2) by specifying his published works on one or more of these subjects. He is required to satisfy the Degree Committee, either by his Dissertation, etc., or otherwise, that he possesses a competent knowledge of Christian Theology. A B.D. of 5 yrs.' standing proceeds to the D D. by submitting published works or a printed dissertation on the same subjects as those for the B.D.

Law. A student who has kept 9 terms and obtained Honours in both parts of the Law Tripos, or Honours in some other Tripos and subsequently Honours in either part of the Law Tripos, is entitled to proceed to the degree of B.A. To qualify for the LL.B. it is necessary to pass the LL.B. examn. after having kept 9 terms and obtained honours in Pt. I. or Pt. II. of the Law Tripos, or passed in either Part at the honours standard, or taken the degree of B.A. and qualified for practice as a barrister or solicitor in England or Ireland, or as an advocate or law agent in Scotland. A LL B. may, not less than 6 years after the end of his 1st term and not less than two years since his inauguration or admission, ask leave to submit a dissertation on some branch of law or of the history or philosophy of law, and, if such dissertation is approved, he may be admitted to the Degree of LL.M. A LL.M. (as well as holders of certain other degrees) may be admitted LL.D., not less than 8 yrs. after admission to his 1st degree, if he has published one or more original contributions, approved for the purpose, to the advancement of the science or study of Law.

The qualifications for the M.B. and B.Chir. are: (1.) 9 terms' MEDICINE. residence; (11.) passing (or exemption from) the Previous examn (v. supra); (111.) 5 yrs.' Medical study; (1v.) passing in due order 3 examns, and presenting an approved thesis. Admission to the 2nd M.B. examn. is conditional on proof of diligent attendance on prescribed courses of lectures and practical work. Admission to the 3rd M.B. is conditional on proof of 3 yrs. of hospl. practice, 5 yrs.' Medical study, and diligent attendance on prescribed courses of instruction and practical work. A M.B. in the 9th term after inauguration or admission (v. supra) and a M.A. in the 12th after creation or admission may be admitted M D. on submission of a thesis or dissertation, but the M.A. must have attended lectures and hospl. practice and passed examns. as required for the M.B. A candidate for the M.Chir. Degree must pass an examination to which, if Master of Arts, he may be admitted after he has become legally qualified to practise Surgery. A candidate who is not a Master of Arts may be admitted to the examination two years after completing all the requirements for the B Chir. Degree; but three years must have elapsed since he was inaugurated or admitted B Chir. before admission to the M.Chir. Degree. Addenbrooke's Hospl., containing 192 beds and large out-patient depts.. is available for clinics. Overseas examns, exempting from the 1st M.B.: 1st examn, for B.Sc. in Agr. of Univ. of S. Africa (subject for subject); ist examn. for medical degrees in Univ. of Adel., Melb., or Syd., or 1st examn. in Science in Physics, Chem., and Biol. in Univ. of Queensland, W. Aust., or Tasm.

Music. The qualifications for the Mus.B. include (1.) 9 terms' residence; (11.) passing (or exemption from) the *Previous* examn.; (111.) passing an examn. in two parts whereof the first may not be taken before the 2nd term, nor the 2nd before the 8th term. The Mus.M. may be taken after at least 3 yrs. have elapsed since *inauguration* (v. supra) or admission as Mus.B. and after passing the prescribed examn.

Persons not less than thirty years of age who have graduated in some Faculty of the Univ. and given proofs of distinction in musical composition

may be candidates for the Mus.D.

The Sc.D. and Litt.D. Any person may be a candidate for either degree who is a M A, LL M, M Chir, M Sc, M Litt., or Ph D of not less than 5 yrs' standing or a M.B. of not less than 7 These degrees are granted in consideration of original contributions to the advancement of Science or Learning.

DIPLOMAS. In addition to degrees, which are for the most part conferred only on its own members, the Univ grants 5 Diplomas which are open to other persons—in Geog, in Pub Health, in Med. Radiology and Electrology, in Hygiene, in Tropical Med. and Hygiene; and 6 which are almost entirely restricted to members of the Univ —Agric Sc, Anthrop, Class. Archæol, Education, Forestry, and Oriental Languages, the diplomas in Anthrop. and Orient. Langs being open to non-members in certain exceptional circumstances only. Certificates of competent knowledge of certain foreign languages, open to members of the Univ. only, are awarded. A Divinity Testimonium is granted on proof of diligent attendance at 6 courses of lectures.

The Joint Coal-mining Diploma of the Univs of Cambridge and Birmingham enables Cambridge graduates in Engineering to shorten by one year the period of training at Birmingham otherwise required. It is approved by the Board

of Trade.

The Diploma in Anthropology may be obtained after residence for one term only by Officers of any of the Public Services of the Empire, not ordinarily resident in the British Isles, having exceptional qualifications

The Diploma in Hygiene, established in 1921 in response to a communication from the League of Red Cross Societies at Geneva, is intended for foreigners who possess a qualification to practise medicine or surgery which, though not registrable in Great Britain, is recognized by the authorities of their own countries. The full course must extend over 9 months. The requirements are similar to those demanded for the English D P.H except that no detailed knowledge of English public health laws is required.

The Univ. makes provision for training candidates for the Higher Civil Services; Probationary Vice-Consuls; Indian Civil Service selected candidates; candidates for administrative appointments in Tropical Africa and other branches of the Civil Service, and candidates for service under the Govt. of the Sudan. To meet the wants of Civil Service candidates a series of lectures supplementary to the courses for regular Tripos candidates has been arranged by the Board of I.C.S. Studies, and by a Committee of Associated Colls. Detailed information may be obtained from the Director of Civil Service Studies, appointed by this Committee (C. J. B. Gaskoin, M.A., Fitz-william House), and from H. A. Roberts, M.A., Univ. Offices, St. Andrew's St., who is Secy. to the Board of I.C.S. Studies, Foreign Service Students' Committee, and Appointments Board

A system of MILITARY INSTRUCTION has also been organized by the Univ. The Board of Milit. Studies (Secy.—Col. G. J. Hornsby Wright, D.S.O, M A. Emm.) are in direct communication with the War Office and responsible for

the nomination of Camb Univ candidates for Regular commissions in H.M Forces. See Appendix I.

The Training of Teachers is under the management of the Teachers Training Syndicate, established in 1878 (Secy.—F. E. E. Harvey, M.A.; address—Warkworth House).

Examns. for the *Certificate of Proficiency*, held in June and Dec., are open to students of certain colleges, and to teachers who have had at least a year's experience in an approved Secondary School, if their attainments are satisfactory.

Students of the *University Training College* (Principal—C. Fox, M.A. Chr; address—Warkworth House) devote their first 3 yrs. to reading for the B.A. degree, the 4th to professional training. Several scholarships are offered to intending schoolmasters who have been Bursars of Student Teachers—Students who have not previously been attached to the college may also take a post-graduation course of training.

There is also the Cambridge Training College for Women (Post-graduation) Principal—Miss M. H. Wood, M. A. Camb, Litt D. Dub.

Cambridge graduates are trained for Holy Orders at Ridley Hall, founded in 1879 (Principal—Rev. J P. S R Gibson, M A , F.I.A Sid. Suss ) , or at the Clergy Training School, Westcott House, founded in 1881 (Principal—Rev. Canon B K Cunningham, O.B E , M A Tim , Church of England). Other theological colleges recognized by the Univ as Houses of Residence for Students. the Westminster Coll , founded 1844 (Principal—Rev. J Oman, M.A. Qu , D Phil , and D.D. Edin and Ox , Presbyterian); Cheshunt Coll , founded 1768 (President—Rev S Cave, D D Lond , mainly Congregational); St. Edmund's House, founded in 1896 (Principal—Rev J F McNulty, M.A. Chr., Roman Catholic) , and Wesley House, founded 1924 (Principal—Rev H. M. Hughes, M A Jes , D D. Lond ) Cheshunt and Westminster Colleges were moved from Cheshunt and London in 1905 and 1899 respectively

Research Students. Each application for admission must be made to the Secretary, and accompanied by (1) a diploma or other certification at a Univ, (ii) a statement as to the course of research which the applicant desires to pursue, together with evidence of qualification, attainments, and previous study, (iii) a statement of the degree, if any, for which the applicant wishes to be a candidate, (iv.) a certification of the applicant's age at the date of application. In exceptional cases requirement No. (i) may be dispensed with. The application is not granted unless it appears (a) that the course of research can conveniently be pursued within the Univ, and (b) that the applicant has produced adequate evidence that he is qualified to enter upon the proposed course. Before admission he is required to become a member of a College, or a Non-Collegiate student.

Secretary of the Board of Research Studies: R. E. Phiestley, M.A. Clare.

A Research student pursues his course under direction and supervision, prescribed by the Degree Committee of the Faculty concerned. If he should wish to obtain a degree elsewhere he may, after he has pursued his studies in the Univ. for not less than 2 terms with regularity and industry, receive a Certificate to that effect signed by his supervisor and by the V.C. After a course extending over 2 yrs. and residence in the Univ. for at least 6 terms (Cambridge graduates, 3 terms) after admission as research students, the M.Sc. or M.Litt. may be obtained. For the Ph D. (v. p. 18) 3 yrs. are ordinarily required. One year of the 3-years' course may be remitted if the applicant satisfies the Board of Research Studies that he or she has done at least a year's satisfactory research

work before admission to Cambridge Univ. For any degree six terms' residence is essential.

UNIVERSITY SCHOLARSHIPS open to graduates number about 57, and are worth about £5600 p a. In almost every instance they are open only to persons who have graduated in or are members of this Univ., and in some cases only to those who have kept a certain number of terms. For details see Students' Handbook (price 7s. 6d., Univ. Press), which also gives details of Entrance Scholarships.

**Expenses.** As at Oxford (q.v).

APPOINTMENTS. The University Appointments Board is concerned with appointments of all kinds (Secy —H. A. Roberts, M.A., Univ. Offices; Asst. Secs.—O. V. Guy, D.S O., M C, M A.; W N. C. Van Grutten, O B E, M.C., M.A., A.M.I.C.E. (Engineering), Educational Secy.—R. S. Goodchild, M.A.).

The University Library contains about 1,250,000 vols., including many early printed books, and over 10,000 MSS. and 175,000 maps. It is entitled under the Copyright Act to a copy of every book published in the U.K., and a large number of foreign books and periodicals are acquired by purchase. It contains, amongst others, the following remarkable collections: Acton library (mediæval, ecclesiastical, and modern history, 60,000 vols); W. G. Aston's Japanese library; Sir T. Wade's Chinese books, J. W. Clark collection (Cambridge books, pamphlets, papers, etc.). The annual budget is about £18,000.

Each College and Hostel has a library. Some are interesting survivals of mediæval rooms kept in the state in which they were originally arranged. Among special collections in College libraries are. in Christ's College the Robertson Smith collection of Oriental books, many of which are connected with Semitic literature, in Gonville and Caius College 800 MSS collected by Wm. Moore, 1653-59, 60 incunabula, heraldic collections of Dr. John Knight (17th cent), 1300 books and controversial pamphlets of Dr. Wm. Branthwaite (d. 1619), Norfolk and Suffolk topographical and genealogical works; in Girton College small collections of Oriental books, chiefly Sanskrit (Cowell) and Hebrew (Frere—printed catalogue), and Botany books and pamphlets (Ethel Sargant).

In the Arts School in Bene't Street are the Seeley Memorial (works on History and Comparative Politics originally collected by Prof John Symonds, 1771 to 1807, and added to by his successors), the Bendall (Sanskrit, etc.), and Modern and Mediæval Languages and Moral Sciences departmental libraries. A large library of English and other literature is housed in the English School (Downing St.). The Balfour library in Downing Place contains a large collection of books and periodicals on biological subjects. Here also is the Marshall Library of Economics. Other important departmental collections are in the Museum of Classical Archæology, the Squire Law Library, the Selwyn Divinity School, and the schools of the Natural Sciences. There is a collection of music in the rooms of the Cambridge Musical Society (Downing St.). The Library of the Philosophical Society maintains a special relation to all the Scientific Depts., and is very rich in sets of Journals and Scientific Transactions.

Museums of Art and Archæology. The Fitzwilliam (Director and Marlay Curator—S. C. Cockerell, M.A.) contains a large and valuable collection of paintings, drawings, engravings, Egyptian and Greek antiquities, ceramics, coins, illustrated MSS., autographs, early printed books, and music; the Museum of Class. Archæol. (Curator—A. B. Cook, M.A. Qu.) contains a collection of casts illustrating the history of Greek sculpture.

The Museum of Ethnol. and Archæol. (Curator—L. C. G. Clarke, M.A. Trin. H.) has a large and increasing collection, including Saxon urns and ornaments, casts of Central American monuments, Egyptian stone implements, unique Fijian collection, and numerous others resulting from scientific expeditions by Cambridge men.

The "Museums of Science" include museums, laboratories, lecture-rooms, class-rooms, and workshops for Agric., Bio-Chem., Bot., Chem., Engin. (including Engine-room, Elasticity, Elec., and Hydraulic Labs., and drawing office), Exper. Physics, Hum. Anat., Ethnol., Forestry, Medicine, Mineralogy (collection very largely increased in recent years and one of the best in the country), Physiol., Psychol., Zool. and Comp. Anat. The Zool. Lab., in addition to providing for the ordinary work of the Dept. and for research, affords peculiar facilities for the study of diseases of animals and of economic entomology. The Museum of Zool. includes very complete series of vertebrates and invertebrates, a series of invertebrata from Naples, valuable collection of Polyzoa, extensive collection of marine animals from Pacific and Indian Oceans, and an important collection illustrating heredity, protective resemblance, and mimicry [Supt.—C. F. Cooper, M.A. Trin H.; Asst. Supt.—F. R. Pazzington, B A, Sid. Suss ] The Sedgwick Museum of Geol. includes a fine collection of British and foreign building stones lately added to the Economic section.

In addition to the laboratories of the School of Agric. there are Field Labs. covering about 10 acres, provided by means of Govt. grants for an Institute for Research in Animal Nutrition; also a Univ. Farm (Director—A. Amos, M.A. Down) of 430 acres, some of which is allotted for Plant Breeding. The Botanic Garden (Director—H. Gilbert-Carter, M.A. Trin) has excellent facilities for study. The Molteno Institute for research in Parasitology, and a Low Temperature Station for research in Bio-Chemistry and Bio-Physics, were established in 1021.

A Horticultural Research Station was established in 1924 in co-operation with the Ministry of Agriculture.

A Polar Research Institute was founded in 1925 with the help of a grant from the Capt. Scott Memorial Trustees.

A School of Pathology was endowed by the Rockefeller Foundation (£133,000) and Ernest Gates (£33,000) in 1924.

The Observatory (Director—Plumian Prof of Astr.), about a mile from Cambridge, has a meridian circle of  $8\frac{1}{4}$  in. aperture; the Northumberland equatorial 12 in. aperture; the Sheepshanks photographic equatorial 12 $\frac{1}{4}$  in.; a number of smaller instruments, and a good library. The Solar Physics Observatory standing close to the older Obs. has the Newall telescope (25 in.), McClean cœlostat and spectrograph, Huggins telescopes, etc. The Univ. has taken over charge (for the Govt.) of the Solar Physics Obs. formerly at South Kensington, receiving a grant-in-aid.

The CAMBRIDGE LOCAL EXAMINATIONS, instituted in 1858, are conducted at various places throughout the country and overseas. Copies of the Regns. regarding the Junr. Local and School and Higher School Certificate examns. and the examns. for Certifs. of Proficiency in Divinity and in English (the former for teachers and the latter for foreign students), may be obtained from the Secy., Local Examns. Syndicate, Syndicate Buildings.

UNIVERSITY EXTENSION Lectures are delivered and classes in connexion with them held by a staff of about 40 itinerant lecturers in various towns in different parts of England, including places so distant as Southport, Newcastle, Gt. Yarmouth, and Exeter, under a system initiated in Cambridge in 1873.

The characteristic features of the method of teaching adopted are (i.) the Lecture presenting the subject in broad outline, (ii.) the Class, held for about an hour before or after the lecture, at which questions are given out by the lectr., (iii.) the essays written on these questions, and (iv.) the examination. The grades of certificates are 'Terminal, awarded after a course of ordinarily 12 lectures; Terminal Certificate in Honours implying distinction; Sessional, for courses extending over not more than 2 yrs. and including at least 22 lectures; the Vice-Chancellor's, awarded to students who obtain Terminal or Sessional certifs satisfying certain conditions and submit a satisfactory essay. A Travelling Library is provided for each course. The work is under the management of the Board of Extra-mural Studies, on which there are, in addition to members of the Senate, representatives of the Local Centres Union and the Workers' Educational Assocn. Full particulais can be obtained from the Secy, G. F. Hickson, M.A., Stuart House, Cambridge.

THE SUMMER MEETING (University Extension) is held in Cambridge in alternate years. It will be held this year in Oxford At Cambridge there will be a Vacation Course for Foreign Students (English Language, Phonetics, Literature, etc.).

TUTORIAL CLASSES are arranged in connexion with the Workers' Educational Assocn. They are managed by a Committee appointed by the Board of Extramural Studies, including all the members of the Board nominated by the W.E.A. The Tutorial Classes Summer School is held every year for 3 or 4 weeks.

Publications. The Camb. Univ. Reporter, weekly during term, 3d a copy, terminal subs 2s 6d, or by post 4s. 6d., Ordinances, 1927 (fresh editions every 3 or 4 yrs., Supplementary Ordinances, 1926, 2s 6d), 12s 6d; The Students' Handbook, annually in July, 7s 6d, Facilities for Graduate Study and Research, 1926; Compendium of Univ. Regns, 9d; Statutes for the Univ, with some Acts of Parlt, 21s, Statutes made by the Univ of Cambridge Commissioners, 1926, 2s 6d; 1927, 9d; Endowments of the Univ, 1904, 10s. 6d, Alumni Cantabrigienses, Ed. J. and J. A. Venn (to the year 1751, four volumes), £7 10s. each vol; Matriens and Degrees (a list of all those who have entered the Univ., 1544–1659, 45s, 1851–1900, 15s, 1901–1912, 12s. 6d); the Calendar, annually (Nov), 15s, the Historical Register, 20s., Historical Register Supplement, 1911–20, 8s. 6d, Index to Tripos Lists, 1748–1910, 10s, The War List of the Univ. of Cambridge, 1914–18, 20s; University Extension a Survey of Fifty Years, by the Master of the Temple, 3s. 6d., University Ceremonies, by H. P. Stokes, 7s. 6d.

Histories, etc. (a) Annals of Cambridge, by C. H. Cooper (5 vols.); (b) The Univ. of Cambridge, by J. B. Mullinger (3 vols. to the later 17th cent.); (c) College Histories—Robinson's Series, various authors; Dent's Series—King's, St. John's, Trinity, 2s each; (d) Cambridge and its Colleges, A. Hamilton Thompson; (e) Cambridge, T D Atkinson and J W. Clark, (f) Architectural History of Cambridge, R Willis and J. W Clark, 4 vols; (g) The Charm of Cambridge, by S. C Roberts.

Magazines: The Cambridge Review, the Granta, the Gownsman, the New Cambridge, weekly during term

#### RECENT LEGISLATION

The statutes of the Univ and its constituent Colleges have recently been revised. In 1922 a Royal Commission for Oxford and Cambridge (appointed in 1919) published its report (Cmd. 1588), and in 1923 Parliament established a legislative Commission which was to give effect at Cambridge to the recom-

mendations contained in this report. The statutes made by the Commission, under the chairmanship of Viscount Ullswater, having become operative in 1926, the summary given in the opening paragraphs of the above "General Information" of the principal features of the constitution of the Univ. takes their effect into account.

It will be seen that the legislative and executive functions formerly vested in the Senate (the constitution of which has not been greatly altered) are now to be exercised by a "Regent House" the composition of which is somewhat similar to that of the former Electoral Roll, the powers of the Senate being limited to a suspensory veto. The control over teaching appointments previously possessed by Colleges is shared by them with the University, the former retaining the duty of appointing Directors of Studies who will superintend the weekly personal instruction of students, with correction of essays and the like. The fees hutherto paid to the Colleges for lectures will now be payable to the University instead, moreover, in several subjects a composition fee will replace separate fees. Women have been declared eligible to University teaching posts, and therefore to membership of Boards of Faculties, and trusts are being so altered as to enable the Univ to throw scholarships and prizes open to the candidature of women unless the founder has expressly excluded women. The stipends attached to open college entrance scholarships have, as at Oxford, been put on an eleemosynary basis, though the winning of a scholarship will depend, as heretofore, entirely on merit. Admission to a degree is to be by a single act, and the ancient procedure by stages (designation and mauguration, inception and creation) is obsolete.

### THE YEAR 1927-28

Benefactions. Sir A. E. Shipley (bequest), books to Molteno Institute, Balfour and Philosophical Societies Libraries, C. Pendlebury, M.A., £600 for endowment of Pendlebury Collection of Music, Ellen McArthur (bequest), £4000 for prize in Economic History, Mrs. J. A. Fuller-Maitland, £1000 for prize in Musical Research, Rev. Henry Sykes (bequest), for prize in Church History, Lady Walston, £3000 for studentship in Classical Archæology; Sir Archibald Denny, Bart, prize for Theory of Structures, Royal Society and Royal Geographical Society, £207 to Polar Research Institute, Committee for Scientific and Industrial Research, £2500 p.a. for 5 years for Magnetic Research; three anonymous benefactors, £17,000, £7000, £6000 (completing a gift of £100,000) to Fitzwilliam Museum, an anonymous benefactor, £12,000 for endowment of the Chair of Astrophysics

Buildings. The building in Tennis Court Road for Pathology and Animal Pathology is now in occupation, and the extension of the Low Temperature Research Station is in course of building, as are also extensions to the Pitt Press buildings and to the Fitzwilliam Museum, the University has bought from Newnham College the Balfour Laboratory in Downing Place for the housing of the Faculty of Geography.

DEATHS. SIT A. E. Shipley, Master of Christ's, Sept. 22, 1927; H. M. Taylor, Fellow of Trinity, Oct. 16, R. A. Herman, Lecturer in Mathematics, Nov. 29, W. S. Hadley, Master of Pembroke, Dec. 25, H. C. Knott, Fellow of Sclwyn, Mar. 16, 1928; H. F. Gadow, Reader in Morphology, May 16; E. H. Parker, King's, July 17; G. E. Wherry, Hon. Surgeon to Addenbrookes Hospital, Aug. 12; Baron Anatole A. A. von Hugel, Curator of the Anthropological and Ethnological Museum, Aug. 15; Sir Horace Darwin, Sept. 22; Sir Hugh K. Anderson, Master of Gonville and Caius, Nov. 2.

Honorary Degrees. LL.D.—Sir David Y. Cameron; Sir Cecil T. B. Hurst, G.C.M.G., K.C.B.; Rt. Hon. Baron Lugard, P.C., G.C.M.G., C.B., D.S.O.; Rt. Hon. Lord Justice Scrutton; Rt. Hon. Sir J. A. Simon, P.C., M.P. D Litt.—W. A. Craigie, Professor of English, Chicago; F. V. M. Cumont, formerly Professor at Ghent D Sc—Paul Painlevé, Minister of War of the French Republic, Professor of Analytical and Celestial Mechanics, the Sorbonne; General Vacchelli, Emmanuel de Martonne; Sir Charles Close.

APPOINTMENTS BOARD In 1927, 438 appointments were obtained on the introduction of the Board. These included. educational, 137; manufacturing and technical, 87, administrative posts in commerce and industry, 97, Government departments, mainly scientific, 5; colonial administrative, 53, agriculture and forestry, 17; Indian and Colonial Railways, P.W.D and Survey, 13; journalism and publicity, 8, secretaryships, 6; railway traffic, 4; library work, 1, articled clerkships, 5; medical, 2; miscellancous, 3.

Local Examns. were held in December 1927 at 342 centres, including 44 in India, 26 in Ceylon, 22 in Straits Settlements and Malay States, 3 in China, 19 in Africa, 21 in W Indies, and others in Central and S America, Bermuda, Borneo, British Arabia, Fiji, Gibraltar, Iraq, Italy, Mauritius, Seychelles, and Switzerland. The number of candidates was 15,184. In July 1928 the examns. were held in 378 centres, of which 21 were overseas, and the number of candidates was 9767

STUDENTS (excluding 112 men and 32 women not members of the University) whose homes are in the British Isles. men 4403, women 443, not in the British Isles but within the British Empire m 396, w. 18, in foreign countries, m. 214, w 9

RESFARCH STUDENTS, June 1928, 291, of whom 106 were Cambridge graduates. Their distribution among the various fields of research was as follows Aeronautics 1, Agriculture 18, Anglo-Saxon 1, Anthropology 6, Biochemistry 18, Botany 22, Classics 8, Divinity 1, Economics 5, Engineering 11, English 22, Fine Arts 1, Geology 11, History 21, Law 5, Mathematics 26, Metallurgy 1, Mineralogy 1, Modern Languages 7, Moral Science 4, Organic Chemistry 12, Oriental Languages 3, Parasitology 2, Physical Chemistry 24, Physics 39, Physiology 5, Psychology 6, Zoology 10

Board of Extra-mural Studies Local Lectures (Univ. Extension). 50 courses of 12 lectures, 8 courses of 6 lectures. Tutorial Classes 7 first-year, 9 second-year, 6 third-year, 2 fourth-year The 20th Local Lectures Summer Meeting was attended by over 800 persons, the subject was "The Victorian Age" The Tutorial Classes Summer School was held for 3 weeks in July and August, and was attended by 76 students Thirteen extra-mural students were resident in Cambridge for the year (two being no longer under the direction of the Board) New regulations were sanctioned by the University, whereby such adult students under the direction of the Board may, under certain conditions, be gianted exemption from the Previous Examination and, in special circumstances, the privileges of Affiliation. The Cambridge Bulletin of Extramural Studies was published twice, in November and March

Students attending Tutorial Classes: mcn 237, women 245; Local Lecture (Extension Courses), 6847.

STUDENTS. Full-time, 5627.

DEGREES D.D., I, M.D., I5; Sc.D., I; Litt.D., 2; B.D., 3; Ph.D., 47; M.A., 636, LL.M., 4; M.Sc., 6; M.B., 50; B.Chir, 57, LL.B., 31, Mus.B., 3; B.A., 1367 Titles of Degrees conferred on Women during the academical year: Ph.D., 3; M.A., 160; M.Litt., 2, M.B., 3; B.Chir., 3, B.A., 221.

### UNIVERSITY OF DURHAM

VISITOR—THE LORD BISHOP OF DURHAM.

Chancellor-....

Vice-Chancellor—Sir Thomas Oliver, D.L., M.A., M.D., D.C.L., LL D., F.R.C P.

Pro-Vice-Chancellors—P J Heawood, M.A.; Prof. Arthur Robinson, M.A., DCL.; Sir Theodore Morison, KCS.I., KCIE, CBE, MA, DCL

DEANS OF FACULTIES—Theology: Rev. D DAWSON-WALKER, D.D.;

Arts and Letters J L Morison, D Litt, Medicine: S McDonald,
M D, Science H G A Hickling, D Sc.; Applied Science.
W M THORNTON, D Eng, Music J. C Bridge, D Mus; Commerce H M Hallsworth, M Com, Law A Robinson, D.C.L.
PROCTORS—H. J HUTCHENS, D.S O., M A.; E. G. PACE, M.A., D.D.
REGISTRAR—H G THEODOSIUS, M A, B. ès L, 38 North Bailey
LIBRARIAN—E. V. STOCKS, M A.

### AFFILIATED AND ASSOCIATED COLLEGES

A. Colleges in which students may matriculate, keep terms, and pass examins, and so qualify without coming to England for the B.A., M A, B.D., D D, B C L, and D.C.L degrees

Codrington College, Barbados. Trustees (under the will of Christopher Codington, who died in 1710)—The Society for the Propagation of the Gospel; Visitor—The Lord Bishop of Barbados; Principal—J. C. Wippell, M.A., B.D., Prof of Theology— . . ., Prof of Classics—W. W. C. Dunlop, M.A.; Prof. of Medicine—W. B. Clarke, M.B., C.M.; Tutor (Acting)—L. A. Prescod.

FOURAIT BAY COLLEGE, SIERRA LEONE. Founded in 1827 by the Church Missionary Society. In 1918 the Wesleyan Missionary Society became associated with the C M S. in the control of the College. Visitor—The Bishop of Sierra Leone, Deputy Visitors—The Chief Justice, the Colonial Secretary; Principal—J. L. C. Horstead, M.A., Senior Tutor—T. S. Johnson, M.A., B D.; 4 Tutors and 2 Occasional Lecturers.

B The following associated Theological Colleges:

St Aidan's; St. Andrew's (Oyo, Nigeria); St. Augustine's; the Bible Churchmen's Missionary College (Clifton), Burgh, Chichester, Dorchester; Edinburgh, Highbury; Jamaica; St. John's, Armidale, N.S.W.; Lichfield; Lincoln, Moore, Sydney, Queen's (St. John's, Newfoundland); Salisbury; Selwyn (Dunedin), Warminster; Bishop Wilson School (Isle of Man), Theol. Depts of King's Coll, London, and Queen's Coll., Birmingham.

Students may take in these Colleges courses extending over 3 years, which qualify for the Lic. Theol. Nine terms kept in one of these Colleges, after passing the matricin. examn, may be counted in lieu of 6 of the terms required for the B.A. degree in the case of a student who obtains the Lic. Theol

#### GENERAL INFORMATION

The Univ. was established by Act of Parliament in 1832 and reconstituted in two divisions in 1908. The College of Medicine, founded in 1832, became associated with the Univ. first in 1852, and more closely, as "The University

of Durham College of Medicine," in 1870. Armstrong College was founded in 1871 as the Durham College of Physical Science, and assumed its present name in 1904 The Vice-Chancellorship is held in rotation by a representative of the Durham Colleges, College of Medicine, and Armstrong College for 2 years.

The Univ. has no teaching staff apart from those of the Durham Colls, the Coll. of Medicine, and Armstrong Coll. The Council of the Durham Colleges, the Coll. of Medicine, and Armstrong Coll. have respectively full power and authority to regulate teaching and discipline, and to provide for the appointment of all their teachers and other officers.

LIBRARIES. See under the Colleges.

MATRICULATION. See Appendix XX.

ADMISSION OF STUDENTS FROM OVERSEAS. The matrice, examins of Sydney and the S. African Univs. and degrees in Arts of all Univs of the British Empire are accepted. See also Appendix XXII.

DEGREES. B.A., M.A., B.Litt. (obsolete), M Litt., D.Litt.; B.Sc., M Sc., D Sc.; B.D., D.D.; B.C.L., D.C.L., LL.B; M B, B S., M.D., M.S, D.Ch.; B Hy., D Hy.; B D.S., M D.S.; B.Mus., D.Mus.; B.Com., M.Com.; Ph D., M Ed (v. p. 18).

Diplomas in Foreign Langs., Arabic, Theol., Psychiatry, Teaching, Public

Health; L.D.S., Lic.Theol

The BA., B.Sc., or B Com may be obtained by a 3 yrs.' undergraduate course. For the 1st yr. of the B.Sc. course equivalent study in another Univ., and for the 1st yr. of the B Com. course 2 yrs.' attendance as an evening student, may be accepted. For the B.Mus two public examns must be passed

For the MB. and B.S at least 1 of the 5 yrs. of Med. study must be spent in the Coll. at Newcastle The B.Hy. is open to graduates in Med. who have spent 1 yr. in professional study at Newcastle. The B.D.S. course is one of 5 yrs.

The B.C.L. may be taken by examn, by a B A. of 6 terms' standing.

The LL.B. may be taken by a candidate of Intermediate grade in Arts or Science after a  $3\ \mathrm{yrs.}$ ' course.

The course for the Diploma in Teaching covers 3 terms after graduation.

The course for the Diploma in Arabic covers 3 terms

The M.A. is open to a B.A. of 9 terms' standing who obtained 1st or 2nd Class Honours in the Final B.A. examn. or, after passing this examn, has passed the Dipl Theol, B.D., B.C.L., M.B. or B.Sc., degree examn., or who qualifies by passing a special examn.

The M Litt, can be obtained by graduates in Arts or Commerce of Durham after at least 2 years' research under the direction of a member of the University

Staff

The M.Sc. can be obtained by a B.Sc. of 2 yrs.' standing by original work or examn.

The M.D.S. can be obtained by a B.D.S. of 2 yrs.' standing by thesis and practical dental work of high skill.

The M Ed. can be obtained without further residence by graduates of Durham or of an approved University who hold the Diploma in the Theory and Practice of Teaching of Durham; by other graduates after a two years' course of study under direction.

The D.Litt. or D.C.L. may be obtained by a B.A. (or B.Litt.) or B.C.L., respectively, of 10 yrs.' standing by a sufficient contribution to learning; the D.Sc. in the 7th year after admission to B.Sc; the D.Mus. by a B.Mus of 15 terms' standing.

For the M.D. a candidate must have had 2 yrs. of practice in a hospl, or Mily, or Naval service after graduation as M.B.

For the D.Ch. a candidate must have devoted 3 yrs. (including one at least in the Univ. and 6 months at least abroad), subsequently to having obtained a registrable qualification, to the study of surgery and ancillary subjects.

For the D.Hy. 2 yrs.' experience of Pub. Health administration or research

after obtaining the B.Hy. are necessary.

M.D. Degree Examn. for Practitioners. A person who has been registered by the Gen. Med. Council of the U.K. and in the active practice of his profession for 15 yrs. as a qualified practitioner and is not less than 40 yrs. of age may obtain the M D. degree without fulfilling any conditions as to residence on passing an examn. instituted for this purpose by this Univ. and held in June and Dec. Candidates who have not passed previously to their professional examn. an examn. in Arts are required to pass an examn. in Classics and Maths. Natives of India are admissible if they bring evidence of having passed within the preceding year an examn. in Latin.

Degrees, etc., in Theology. The B D. examn is open to candidates who are graduates of a Univ. of the British Empire in Arts (or Letters) of 2 yrs.' standing; if of another Univ. they must have obtained the Dipl. Theol. of Durham. The Board of the Faculty may admit also non-graduates who keep three terms

at Durham and pass the Dipl. examn.

The Lic. in Theol. is open to members of the Church of England only. Nine terms must be kept at one of the Theol. Colls. in list B above.

The Dipl. in Theol is obtainable by graduates of a Univ. of the British Empire who keep 3 terms at Durham and pass the Dipl. examn. Residence for a year at an approved Australian Coll. may be accepted in lieu of keeping 3 terms at Durham.

The D D. is open to a B.D. of Durham who is a Master of Arts of 10 yrs' standing on submission of a sufficient contribution to learning.

FEES Matricn, £2. Examns. and degrees, £2 to £10 (Examns for D.Ch, £20; D.Hy., £20; M.D. for practitioners, 50 gs.; Final for M.B., B.S., £15).

Publications. Univ. Calendar (Oct.), 2s. 6d.; Durh. Univ. Gazette, 4s., 4 times a year, Durh. Univ. Journal (oldest Univ. Mag. in England), once a term, 1s. 6d.

## THE YEAR 1927-28

New Developments. Degree of Master of Education (M Ed) instituted. Degree of Master of Letters (M Litt) thrown open to graduates in Aits and Commerce of Durham after two years' research. Faculty of Applied Science established New Honours School of Philosophy, History, and Economics established. Bible Churchmen's Missionary College (Clifton) associated with the University. Riddell Memorial Lectures founded.

Honorary Degrees. D.D.—B. H. Streeter, W. S. Jones. D.Litt—P. S. Allen, E. A. C. M. Fabricius, J. A. Fuller-Maitland. M.A—J. A. C. Deas, W. T. Jones.

DEGREES. D.D., I; M.D., I3; M.D. (Practs.), 2, D.Sc., 3; D.Mus., 2; Ph.D., 7, M.A., 49, M.S., I; M.Sc., 8; M.Com, I; M.B. and B.S., I7; B.A., I37; B.S., 2, B.Sc., 90, B.Mus., 5; B.Com, 4; B.Hy, 6; L.Th., 2I; L.D.S., 5; Dip.Th., I4; D.Th.P.T., 74, D.P.H., 6; M.A. (by vote of Convocation), I.

TUTORIAL CLASSES (W.E.A.) AND EXTENSION COURSES. During 1927-28 the total number of Tutorial Classes was 45, of Extension Courses 11, of Preparatory Classes 7; the districts served being the counties of Durham, Northumberland, Cumberland and Westmorland, and the County Borough of Middlesborough.

#### GENERAL INFORMATION

University College was formed at the opening of the Univ.; Hatfield College was opened (as Bishop Hatfield's Hall) in 1846, St. Mary's in 1899, St. Chad's in 1904, St. John's in 1909. Bede College, founded in 1839, was brought into connexion with the Univ. in 1919 as a licensed Hall of Residence for Undergraduates. St Hild's (established in 1858 as a C. of E. Training College) and Neville's Cross (established in 1921 by the County Council as a Tiaining College) are licensed as places of residence for women undergraduates.

LIBRARY, 41,000 vols, 157 incunabula; including rare theological and patristic books. Science Library in the Department of Science Observatory with almucantar, etc.

MATRICULATION. See Appendix XX.

FEES Including admission, tuition, examns, board and lodging, subscriptions and gratuities, at Univ. College, £115 pa.; Hatfield, £106; St. Chad's, £111; St. John's, £110; St. Mary's, £111; St. Hild's, £50-£60; Neville's Cross, £45. Non-Coll. students pay £30 p.a., Univ. fees including club subscriptions; average cost of board and lodging per term £14 to £24 Students in Science pay slightly higher fees.

Fellowships 3 Tutorial, £200 to £300, and 1 ordinary, £200, open only to candidates who have kept terms and taken B A. in Durham Division.

# THE YEAR 1927-28

Developments. Grant to Library increased by £200 per annum. New block of Lecture Rooms approaching completion. Additional lecturers in French and Geography appointed. Two additional French "Assistants" appointed. Geography as subject in Arts and Science. Establishment of Geography Department, including Laboratory. A new series of popular lectures delivered during the winter in the University buildings by members of the Staff and others was well attended.

RESIGNATIONS. Dr. A. K. Macbeth (Chemistry), on appointment as Prof at Univ. of Adelaide. Dr. R K. Schofield (Physics), on appointment at Rothamsted Agricultural Station. Dr. Elsie Phillips (Botany).

STUDENTS. Full-time, 430; part-time, 1.

Degrees obtained D.D., 1; D.Mus., 2; M.A. (by vote), 1; M.A., 35; B.A., 76; B.Sc, 11; B Mus, 5; L Th, 21; Dip.Th., 14; D.Th.P.T., 25.

\* Colleges under the Board of Education licensed by the Council of Durham Colleges as places of residence for students reading for degrees in the Durham Division of the University.

### GENERAL INFORMATION

Instruction in Clinical Medicine and Surgery is given in the Royal Victoria Infirmary (560 beds) and other hospitals; in Practical Midwifery and Clinical Gynæcology at the Princess Mary Maternity Hospital. The Pathological Museum provides an exceptional collection of specimens prepared by modern methods. Post-graduation teaching is supervised by a committee representing the College and the hospitals. Research facilities are available in the various departments.

LIBRARIES. An annual contribution is made to the new Library at Armstrong College In the medical section of the Armstrong College Library available for students of the College of Medicine there are over 14,000 volumes. Departmental libraries, 542 volumes

Museums Anat., Hygiene, Mat Med, Path

MATRICULATION See Appendix XX.

Scholarships open to undergraduate students of the College vary from  $\pounds_{20}$  to  $\pounds_{48}$  p a., open to graduates,  $\pounds_{200}$  every second year and  $\pounds_{180}$  every third year.

FEES For tutton. M.B, B.S (5 years' course), £241 7 6, L.D.S (4 years' course), £190 9s; B.D.S. (5 years' course), £202 14s (in each case including all hospital fees and subscriptions to Students' Union). For examinations. Pie-Registration, £3·3s., M.B., B.S., £30, M.D., £5; M.S., £5, D.Ch., £20; B.Hy, £10·10s.; D.P.H., £10·10s; D.Hy, £20, D.Psy, £10·10s.; M.D. (for practitioners), £52:10s, including fee for degree, L.D.S., £15:10s.; B.D.S., £23; M.D.S., £5 For degrees: M.B., £6:6s\*; B.S., £6 6s; M.D., £10; M.S., £6 6s, D.Ch., £10; B.Hy., £6:6s\*, D.P.H., £3; D.Hy., £10; D.Psy., £3; L.D.S., £3; B.D.S., £6 6s.\*; M.D.S., £6:6s., Ph.D., £5\*. (When a degree marked \* is an initial degree at the University the sum of 10s. is added)

## THE YEAR 1927-28

Public subscriptions to College funds amounted to £5

STUDENTS. Full-time. 245; graduates, 11. Part-time, 108, including 104 graduates.

DEGREES AND DIPLOMAS obtained: M.D., 13; M.D. (Pract), 2; M.S., 1; B.Hy., 6; M.B., B.S., 17; B.S., 2; D.P.H., 6; L.D.S., 4.

### GENERAL INFORMATION

LIBRARY, 77,246 vols. Access to Lit. and Philos. Society's 100,000 vols., and to library of N. of England Inst.M.M.E. Scientific periodicals subscribed for in co-operation with City Public Library. Special libraries: English Bibles from 1535; Heslop, English dictionaries (277 vols.); Kepier, fifteenth to eighteenth - century printed books, mostly classics (600 vols.); Merz, philosophical and mathematical (2600 vols.); Spence Watson, early English texts (476 vols.); Indian History since Mogul times (925 vols.); Gilchrist Agricultural (700 vols.); Gertrude Bell, Oriental (1905 vols.). Laboratories with special facilities for research in Engineering and Hydraulics; special branches of Chem., Physics, and Agric.; Marine Biology (Dove Marine Lab., Cullercoats).

The Agric. Dept. controls and uses for teaching and research in Agric., Dairying, and Forestry several County and Crown estates, including Cockle Park (Northumberland) Agric. Exptl. Station.

Admission. See Appendices XX. and XXII. For admission to study for the College Diploma (1) in Agric, Mining, or Commerce, or for the Certificate in Fine Art, no regular entrance examn. is required; (11.) in Engineering or Naval Architecture an entrance examn. must be passed unless the student has passed some equivalent examn. (School Certificate standard in Extra Maths, Mechanics, Physics, and Chemistry); (111) in Fine Art an entrance examn. in English, and either French, or German, or Spanish is prescribed.

Complete Courses for the Arts, Science, Law, and Commerce degrees and the Educn. Diploma of the Univ. The Applied Science courses are in Agriculture, Engineering (Mechanical, Marine, Civil, or Electrical), Naval Architecture, Mining, and Metallurgy. The Teachers' Training Dept. trains for both Elementary and Secondary School Work.

College Diplomas in Architecture (5 yrs.), Engineering (3 yrs.), Naval Architecture (3 yrs.), Mining (2 yrs.), Agric. (3 yrs. of 2 terms each), Fine Art (4 yrs.), Commerce (2 yrs.). College Certificate in Fine Art (4 yrs.). Short courses are provided in Agric. (6 weeks and 6 months).

A *Tutorial System* is established in all Faculties. Each student is assigned on entry to a tutor, who is responsible for advising him on his course and generally looking after his interests.

Fellowships, etc. £300 for one year, open to a graduate in Science or Commerce, £150 for two years, open to a graduate of any Faculty; £150 for one year, open to a graduate in Science, £150 for one year, open to a graduate in Arts, £75 (two) studentships for one year, open to graduates of any Faculty. The total amount available for post-graduate fellowships, etc., is about £1800 p a, including a Senior Research Fellowship established under the Research Fund (see next paragraph) of £400 p.a available for one year.

RESEARCH FUND established in 1923 with endowment of £12,000 Administered by Standing Committees which allocate the interest of the fund as grants in aid of specific investigations by trained workers rather than for training persons in research.

Annual Tuition fee in courses for degree of B.A or B Com., £30; B.Sc., £35 (in Engin., etc., £40), and for Diploma in Agric, £22: 10s.; in Teaching, £35, in Engin, etc., £40, in Fine Arts, £16, in Commerce, £5. 10s per subject (in evening classes, £3 a subject). Examns. for B.A. or B.Sc., £7; Students' Societies (men and women), £2.2s. Registration Annual (Degree students and some others), £2.

UNIVERSITY EXTENSION. Public lectures in the College include the annual Earl Grey Memorial and W. H. Charlton lectures, occasional lectures and short

courses (winter programme issued in Oct.), lectures in French (Alliance Française), and popular Saturday evening lectures. Short courses in various centres in Agriculture and Forestry. Tutorial classes in 23 centres (most of the tutors are regular members of college staff).

Publications. Calendar (Sept.), 2s. 6d.; Annual Report (Oct.); The Northerner (Students'), 5 issues annually.

### THE YEAR 1927-28

BENEFACTIONS. From Sir W. J. Noble, Bart., £2000; Mr Howard Pease (bequest), £1000; Messrs. A. Reyrolle & Co. Ltd, £250, a further instalment from the Shipley Bequest, £272; friends of the late Prof. R. G. Hatton, £613, to be applied in providing a scholarship in Fine Art; friends of the late Prof. D. A Gilchrist, £413, to be applied in providing a prize in Agriculture; Prof. Stroud, £108, to provide a prize in Physics.

RETIREMENTS AND RESIGNATIONS. Prof. C. M. Jessop (Mathematics); Prof. J. J. Welch (Naval Architecture). J. L. Davies (Agriculture), on appointment at Aberystwyth; J. H. Mackay (Forestry); J. K. Leven (Forestry); J. M. W. Reid (Sculpture), on appointment to Staff of West Ham Municipal College; J. Gilmour (First Aid); Major H. R. Gadd (Military Science).

EXTENSION WORK. Public lectures in the College included. a series in French under the auspices of the Alliance Française; the Earl Grey Memorial Lecture on "The Idea of Memory in Biology," by Prof. E. W. MacBride, F.R.S.; the W. H. Charlton Lecture on "The Use of Material in Sculpture," by Mr. Alan Durst, and a series of Popular Saturday Evening Lectures throughout the winter by various members of the Staff

STUDENTS. Full-time, 701. Part-time, 384.

DEGREES OBTAINED MA., 12, BA, 54; D.Sc, 3; Ph.D, 7, M.Sc. (Pure Science), 8; B.Sc. (Pure Science), 79, M.Sc. (Applied Science), 1; B.Sc. (Applied Science), 28; B.Com., 4; M.Com., 1.

# AFFILIATED COLLEGES

COLLEGE OF THE RESURRECTION, MIRFIELD (Warden-G. Rees, M.A.) and RAWDON COLLEGE (Principal—A. C. Underwood, D.D.). Students are exempt from attendance at the Univ. in the first of the 3 yrs. of study for the B.A. degree.

TECHNICAL COLLEGE, HUDDERSFIELD (Prin.-J. F. Hudson, M.A., B.Sc.). Similar exemption for B.A., B.Sc. (including Engin.), and M.B. and Ch.B.

DIOCESAN TRAINING COLLEGE, YORK. Similar exemption for the B.A. and B.Sc.

PRINTING DEPARTMENT OF THE LEEDS CENTRAL TECHNICAL SCHOOL. Affiliation granted with a view to the recognition of classes as part of the course for the degree of B.Com.

### GENERAL INFORMATION

The Leeds School of Medicine, founded 1831, and Yorkshire College, established as a College of Science in 1874, were united in 1884. The College formed part of the Victoria Univ. from 1887 to 1904, when a Univ. was established by Royal Charter in the city of Leeds.

LIBRARY, including that of the Medical School, about 98,000 books, 24,000 pamphlets Besides the General Library, there are separate rooms devoted to Science, English, French, German, Classics, Economics, Philosophy, History, Law and Music Special collections: (a) MSS, about Broad Cloth Act of 1740 and illustrating developments in textile industry about 1800; (b) 500 vols. in French on Great Britain, printed before 1801, (c) 264 vols. contemporary records (Journal Officiel, newspapers of Metz, Stiasbourg, and Nancy, etc.) of political events in France during 1870 and 1871.

Museums Anatomy, Dyeing, Materia Med., Path., Textile, Zool. Laboratories. Agricultural Chemistry, Botany, Chemistry, Colour Chem. and Dyeing, Engin. (Elec, Civ., Mech.), Geol, Leather Industries (including Procter Internat. Research), Maths., Metallurgy, Mining, Path. and Bacteriology, Cancer, Physics, Physiol, Textile (116 looms), Zool Observatory, 184" reflector telescope. Farm, 312 acres, including Dairy School, Research farm, 350 acres, near Scarborough Hospitals available for Clinics. Infilmary (520 beds) and several others; Asylum (2000 inmates).

FACULTIES. Arts (including Economics and Law), Science, Technology [including Agric., Coal Gas and Fuel with Metallurgy, Colour Chemistry and Dyeing, Engineering (Civ., Elec., Mech.), Leather Industries, Mining, Textile Industries], Medicine (including Dentistry). Deans: Profs. Strong (Educn.), Milne (Science), David (Technology), Jamieson (Medicine).

In connexion with each of the technological departments there is an Advisory Committee, which includes representatives of the industry concerned.

MATRICULATION. See Appendices XX. and XXII. An Overseas Students' Committee has been appointed.

Degrees. Obtainable after a 3 yrs.' course starting from matricn.—B.A., B.Sc. (Honours degree usually 4 years), B Com. (which may be taken with an Applied Science as one of the principal subjects 3 yrs for degree, or 4 yrs. including Diploma of Printing Dept. of Leeds Tech Sch.), LL.B., after 5½ to 6 yrs., M.B., Ch.B., B Ch D.

Subject to a minimum attendance in this Univ. of 2 yrs., members of other Univs. requiring residence as a condition of graduation may be permitted to count their studies and examns. (other than the Final examn.) therein towards graduation in Leeds.

Muning students receive practical instruction in mines under arrangements made with local owners, but the courses are not intended to supersede the usual apprenticeship.

Honours students of (1) French and (2) German normally spend the 3rd term of the 2nd year at (1) the Univ. of Caen, (2) a Univ. where the medium of intercourse is German.

Honours in Gas Engineering or Fuel and Metallurgy involve 1 yr. of research or special study after taking the ordinary degree; in Leather Manuf., 4 yrs.' study.

LEEDS 89

Supplementary Textile studies may be combined with a B.A. or B.Com. course. Any of the Tech. subjects may be taken in a B.Sc. course. The Law Dept. prepares students for the Bar and Solicitors' examns, as well as for the Univ. degrees.

HIGHER DEGREES M.A., LL.M., M.Com., M.D., Ch.M., I yr.; M.Ed., M.Sc., 2 yrs. (for holders of Hons. B.Sc., I yr.) after the bachelorship Graduates of approved Univs. (all the chief Univs. of the world, including institutions recognized by the Assocn. of Amer. Univs., v. App. XXIV.) may obtain the M.A., Ph.D. (v. p. 18), or M Sc. by 2 yrs. of research. M.A., Ph.D. or M.Sc. of this Univ may obtain the Litt D. or D.Sc. 6 yrs. after the bachelorship.

Graduates of other Univs. who have been admitted to degrees of equal or similar rank in Leeds may, in proceeding to higher degrees, count their standing as graduates from the date of original graduation.

DIPLOMAS. In Education (grads.) or Ed. Admn., I or 2 yrs. In Social Organization and Public Service, 2 yrs. In Engin., Fuel and Metall, Dyeing, Fextiles, Leather, 3 yrs, reducible under certain conditions to 2. In Gas Engin. or Fuel and Metall, special for graduates, I yr.; for apprentices, part-time, 4 yrs. In Colour Chem. and Dyeing, for apprentices, part-time, 5 yrs. In Public Health, I2 mos. In Psych. Med., 6 mos. In Nursing, involving 4 yrs.' hospital training and 3 mos.' lectures. In Dent. Surg., 4 yrs., including 2 in Univ. In Commerce, I yr (postgrad)

Agric Students are prepared for the National Diploma.

EVENING COURSES for advanced students in Technological subjects are conducted in co-operation with the Leeds and West Riding Education Committees.

FEES. Matricn, £2. Registration, £2 Composition fees for tuition (including Union). Arts, £33 a session; Science, £41; Technology, £45; Agric. (other than degree students, who pay the Technol. fee in the 2nd and 31d yrs), winter course, £20, summer course, £10; Law courses, 11 gs. a session. Course for Dipl in Educn., £42 p a., Dipl. in Social Organization, £26 p a. Medicine: complete course for M.B, including hospl. practice, £215. Dentistry (including hospl. practice and pupilage). Dipl., £234, Degree, £252 (under revision). Research fee, £12 a session. Examins. Arts, Science, etc., £6; Medicine (including graduation), £18, Dentistry, B Ch.D., £16; L.D.S., £16. Giaduation fee, £7.

Scholarships, eic, for Graduates. Fellowships, £200 for one year, renewable, for research in Gas, and £100, renewable, in Col. Chem., £150 for 3 yrs. for Textile Research (preference to graduates in Science or Tech and to natives or residents of Bradford, but not restricted to members of Leeds Univ.); also £150 for 2 yrs for research and advanced study; £150 for 2 yrs. for research in English, or History, or Economics, £70 Scholp. for research in Arts Faculty; £125 for higher Humanistic study, for graduates of Leeds or Sheffield, £45 for advanced study in Greek or Latin; £60, Colour Chem. and Dyeing; £20 (three), in Textile Dept.; £25, Forensic Med and Hygiene.

Residence. One hostel for 120 men and 4 for women. Fees, men £64, women £54 to £63 per session of 32 weeks. A site of 160 acres on the outskirts of the city has been acquired for hostels for men and women students.

An Old Students' Assocn, was formed in 1923.

University Extension. Lecture courses and Tutorial classes are provided in co-operation with the Workers' Educnl. Assocn. and Local Education Authorities, and an Annual Summer School in connexion therewith was instituted in 1919.

Summer Schools are arranged from time to time.

In connexion with the Agric. Dept. a considerable part of the time of lecturers of the Univ. is devoted to work in local centres.

Publications. Calendar (Sept.), 4s.; The Training of Professional Engineers; Annual Reports of the Univ. and of Tech. Depts.; Gryphon, 3s. annually (students' magazine), Union Handbook; General prospectus and prospectuses of various Depts.

#### THE YEAR 1927-28

Benefactions. £3000 a year for four years from Clothworkers' Co. for research in Textile Dept Funds for Mining scholarship of £150 a year given by Messrs Briggs, Son & Co "Richard Reynolds Scholarship" of £100 a year under the will of Alderman F. C. Clayton. Portrait by Richard Jack of Emeritus Prof A G Perkin presented by the Perkin Memorial Committee. £100 from Dr. Charles Rippon for silver medal for dentistry. Valuable machinery to Textile Department and books, etc., to the Library.

New Buildings and Equipment. Foundation stone of new buildings laid on Oct. 2. New building for Mining Dept. and extension of Medical School in progress Oxley Hall now in occupation. Extension of Textile Dept opened in October. New Dental School and Hospital in occupation.

New Posts. Two Lectureships and two Assistants in Textile Dept.; part-time Lecturer in Classics.

CHANGES IN REGULATIONS, ETC. Six new Honours Schools instituted in the Faculty of Arts Diploma in Agriculture instituted. Various amendments of Ordinances and Regulations.

University Extension Courses at 10 centres, 47 Tutorial Classes; Tutorial Class Summer School at Great Ayton, Course of public lectures on "Leading Problems in the History of Jesus," by the Rev. C. J. Cadoux. Six lectures by Prof Gilligan on "Geology—Old and New," and six by Prof. Brodetsky on "Gravitation", 14 separate public lectures on science, music, literature, etc.; 11 midday music recitals, over 600 lectures given in county by Agricultural Department in addition to 10 organized courses in Agriculture, Horticulture, etc., and 35 ten days' courses in butter- and cheesemaking.

OTHER DEVELOPMENTS AND SPECIAL EVENTS. Emeritus Professorship conferred upon ex-Prof. Grant. Experimental farm acquired for Cancer research. Regent Court and four acres of land bought for development of men's hostels British Dental Association met in Leeds, August 1928.

CHANGES IN PROFESSORIAL STAFF. W. M. Edwards appointed Prof. of Greek in succession to Prof. Ormerod (resigned); Dr. Vining appointed Prof in Diseases of Children (new post).

Honorary Degrees. LL.D.—The Hon. J. H. Whitley, M.P., Mrs. Kitson Clark. D Litt —C. T. Onions. Ph.D.—C. Rippon. M.Sc.—W. S. Thorburn, W. Marston.

STUDENTS. Full-time: total, 1296, including 159 graduates. Part-time, 194, including 34 graduates.

DEGREES. B A., 84; M A., 13; B.Com., 7; LL.B., 7; LL.M., 1; B.Sc., 109; M.Sc., 6; M.B., Ch.B., 25; M D, 4; M.Ed., 7; Ph.D., 11.

# ASSOCIATED AND AFFILIATED INSTITUTIONS

Institute of Archæology, Abercromby Square, Liverpool. Associated Teachers additional to the staff of the Faculty—Assyriology, Pinches, T. G., LL.D.; Numismatics, Milne, J. G., M.A.; Central American Arch, Gann, T. W. F., MRCS, L.RC.P.

TIDAL INSTITUTE. Established 1919. Administered by a Joint Committee representing the Mersey Docks and Harbour Board and the Bidston Observatory (administered by the same Committee). Director, Prof. J. Proudman, M.A. D Sc. F.R S

St. AIDAN'S COLLEGE, Birkenhead Principal, Rev. R. T. Howard, M.A. Affild for first year of degree course and, in subjects in which instruction is not provided in the Univ., up to half of the entire course for the B.A.

Recognized Teachers in—Hellenistic Greek, .....; Eccl Hist, Heiser, F. B., M.A.; Hebrew, Keith, K. E., M A.

EDGE HILL TRAINING COLLEGE. Principal, Miss E. M. Smith Recognized Teachers in—Maths, Smith, Miss E. M.; English Lit., Deakin, Miss M. H., M.A.

Mount Pleasant Training College. Principal, Miss C. Holcroft, M.A. Recognized Teachers in—Latin, Sampson, Miss M, MA; English Lit, Healey, Miss M. J, B.A.

TRAINING COLLEGE, Chester. Recognized Teachers. Thomas, R. A., O.B.E, M.A, Principal of the College (in Maths.); Hooper, F. W., B.Sc., A.I.C. (in Chem. and Physics); Sheppard, W. R., B.Sc. (in Maths. and Physics).

THE HARRIS INSTITUTE, Preston. First year of Degree Course (Engineering). School of Tropical Medicine, Pembroke Place, Liverpool. New Laboratories opened 1920. Ward for Tropical Diseases at Royal Infirmary, Liverpool. Departments with research laboratories at Manaos and Sierra Leone. For training in the conduct of original research and organization of prophylactic measures. Has sent out numerous expeditions to tropical countries. Publishes Memoirs and Annals. For staff, v. supra—Trop. Med, Trop. San, Parasit, Entom, Hygiene. Diploma course, 3 months.

PATHOLOGICAL LABORATORY, County Mental Hospital, Rainhill.

#### GENERAL INFORMATION

University College, Liverpool, founded by Royal Charter 1881, was admitted into the Victoria University, Manchester, in 1884. In 1903 the University of Liverpool was established by Royal Charter and the College was absorbed in it.

LIBRARY, MUSEUMS, ETC. The library of the Univ. contains about 107,000 vols., and includes among special collections great series, such as Migne, Pertz, Muratori, and Acta Sanctorum. Among rarer possessions are the Rylands collection of early works on Geography and Astronomy, a collection of works by and about William Blake, sets of the Roxburghe, Bannatyne, and Maitland Clubs, a unique number of Aldines, and over 100 incunabula, among them the

final sheets of the Constitutiones of Clement V. printed at Mainz in 1460. Special bibliographies have been issued. In addition there are twenty-three Class Libraries in the Faculty of Arts and External Departmental Libraries for the Medical and Science Departments.

The following are the principal Museums and Laboratories: Anat., Archaol (including a unique Hittite collection), Archit, Bact, Bio-Chem., Bot., Chem., Physical and Electro-Chem., Electricity (Applied), Embryol, and Genetics, Engin. (including facilities for aerial motor and propeller testing and other wind experiments), Geol., Hygiene, Laryngology, Materia Medica, Expl. Med., Trop. Med. (including museum, animal houses, and specially warmed glass insectarium, and research labs, at Liverpool, Sierra Leone, and Manaos). Obst. and Gynæc., Oceanog, Ophth., Path., Physics, Physiol. and Histol., Surg. Path., Tidal Research, Toxicology, Vet. Anat. and Path., Zool. The Port Erin (Isle of Man) Marine Biol. Lab has been transferred to the Univ. by an Act of Tynwald. Hospls. available for Clinics, 4 general and 5 special, containing 1445 beds, which together constitute the clinical school The trade of the port ensures frequent importations of infection Special wards for Trop. Diseases. Expeditions to Tropical countries organized for investigation or advice. Suitably qualified persons may enter the Laboratories for research work at prescribed fees.

FACULTIES. (1) Arts (with Schools of Archit., Social Sciences and Administration (including Economics, Commerce, Geography, and Social Science), Local History and Records, Russian Studies; Departments of Civic Design and Educn); (2) Science; (3) Medicine (with Schools of Dent. Surg, Hygiene, Trop Med, Vet. Sc.); (4) Law; (5) Engineering Deans (1) Prof A. Bruce Boswell (Russian), (2) Prof Dakin (Zool.), (3) W. J. Dilling (Pharmacology), (4) Prof. Batt (Commercial Law), and (5) Prof Scholes (Mech. Engin). Director of Dental Educn, Prof. Gilmour, of Veterinary Studies, Prof. J. Share-Jones.

MATRICULATION. See Appendices XX. and XXII.

DEGREE COURSES: 3 yrs., B A., B.Com., B.Sc., LL.B.; 3 or 4 yrs., B.Eng. (plus 2 yrs.' appr'ship); 5 yrs., B. Arch., M.B., Ch.B., B.D.S., B.V.Sc.

The B.Com. courses include (1) General Business; (2) Banking, Insurance, Accounting; (3) Transport, Railways, Shipping; (4) Consular Service.

The LL.B. courses prepare for the Bar and solicitors' examns, as well as for the Degree. The B.V.Sc. may be taken concurrently with the M.R.C.V.S.

HIGHER DEGREES: Ph.D., v. p. 18. (1) Graduates of Liverpool in Faculty concerned. Obtainable after Bachelorship: 1 yr., (after Hons. B.Sc.) M.Sc.; 15 mos, M.Ch. Orth.; 2 yrs., M.A., M.Com., (after ord. B.Sc.) M.Sc., M.D., Ch.M., M.H. (Hygiene), M.D.S., M.V.Sc., LL.M., M.Eng. After Mastership: 5 yrs., D Litt, D V Sc., LL.D. After Mastership or Ph.D. 5 yrs after M.Sc., 4 yrs. after Ph.D. (Science), D.Sc., D.Eng; 10 yrs., after B Arch, on distinguished archit. work, M.Arch. (2) Graduates of approved Univs. After Bachelorship and 2 yrs.' higher study or research in Liv. Univ.: M.A. (1 yr. elsewhere), M Com, M Sc, M H., M V.Sc, LL.M., M Eng. The M.A. and M.Com are also open under certain conditions to B.Arch. and grads. in Liv. Univ. of a Faculty other than Arts. (3) Non-Graduates. After 3 yrs.' higher study or research in Liv. Univ.: M.A. (1 yr. elsewhere), M Sc., LL.M., M.Eng.

The M.Ch.Orth. is open to grads., other than Med, of this or approved Univs. who are F.R.C.S. (Eng., Ed, or I.) or Fellows of the American Coll. of Surg.

DIPLOMAS. Archæol., I yr. course; Archit., 5 yrs.; Civic Design, I yr.; Commerce, 3 yrs.; Social Science, I or 2 yrs.; Educn. (for grads.), I yr.; Geography, 2 yrs.; L.D.S., 4 yrs.; D.P.H., I yr.; D.T.M., 3 mos.; D.T.H.,

3 mos. (after taking D.T.M.); D.M.R.E, 2 terms; DV.H, 6 mos.; Engin., 2 vrs. after final examn. for Certif.

CERTIFICATES. Archæology, 2 yrs.' course; separate Arts subjects, 2 yrs., Architectural Design, 1 yr.; Civic Design, 2 terms of 2 sessions; Social Science, 1 or 2 yrs. (qualification for entry lower than for Diploma course); Educn, 1 yr; Engin, 3 yrs.; Univ. extension courses, 3 yrs.

FEES. For Matricn., £2. Guild of Undergrads, £2 10s pa. DEGREE Courses: B.A., or B.Com. (3 yrs.), £90; M.A or M.Com. (sessional), £5, B.Arch. (5 yrs.), £150; B.Sc. (3 yrs.), £105 to £160; M Sc. (sessional), Maths., £5; other subjs., £10; M.B., Ch.B. (5 yrs.), £228; M.D. (sessional), £10; Ch.M. (2 yrs.), £20; M.H. (2 yrs.), £80; M.Ch.Orth. (15 mos.), £41; B.D.S. (5 yrs.' complete course in the University), £250; M.D S. (2 yrs), £27 or £32; B.V.Sc. (5 yrs.), £175; M.V.Sc., 1st yr., £30, 2nd yr, £20; LL.B. (3 yrs.), £50; LL.M. (sessional), £5, B.Eng. (3 or 4 yrs.), £144-£192, M.Eng (Research), £20, Ph.D. (2 yrs.), £27. Apparatus fee per session, £10. DIPLOMA COURSES: Archit. (5 yrs), £150; Civ. Des day, £35, Educ. (1 yr), £20, Com. (3 yrs), f.90; Soc. Science (2 yrs.), £28; Archæol. (1 yr.), £10; Geography (2 yrs.), ist yr., £20, 2nd yr., £10, D.P.H (1 yr.), £45; D.T.M. (3 mos.), £21, D.T.H. (3 mos), £10 · 10s; D M.R.E (2 terms), £24 5s; L.D.S Liv. (complete course in the University) (4 yrs), £198; M.R.C.V.S (4 yrs), £120, D.V.H. (6 mos), £21, Eng, £96. CERTIFICATE COURSES. Archit Des (1 yr.), f35; Civ. Des. (2 terms of two sessions), f10, Soc Science (2 yrs), £28, Archæol. (2 yrs), £30; Educ. (1 yr), £20, Engin (3 yrs.), £96-£144

EXAMN. FEES M.B. and Ch B, B V Sc., B D S, £15; B Arch, £5; other Bachelor degrees, £4; Master's degree (examn. or on application), M.H, 10 gs.; Ch.M., M V.Sc, M.D S, £5; others, £3; Doctor's (on application), £10. Diploma examns, L.D.S, £15; Comm, £4; Archæol, £3; Educn, Soc. Science, £2, Eng, £3, others, £5 or 5 gs. Certifs Examns., Eng, £6, others, £2. Degree Admission Fees, £6 for first degree, subsequent degrees, £5; Dipl. Eng., £3, Certif Eng, £2, others, £1

Scholarships, etc., for Graduates. Research Fellowships and Scholarships of the aggregate value of over £6000 are offered annually in all faculties; Garrett International Fellowship for Research in Bact., Path, or Physiol open to members of Univs. and Med. Schools in the U.S. A. and of other foreign schools, £100 for 1 yr. with possible extension 2 yrs (applications by May 31); Johnston Colonial Fellowship of same value, for research in Bio-Chem. with teaching, open to members of Colonial Univs. and Med. Schools, not excluding Colonial candidates with British qualifications (applications by May 31)

RESIDENCE, Erc. Two hostels for 110 men (fees, £70); one for about 90 women (fees from £65 to £72). Students' Union Club House cost £20,000.

Association of Graduates. Besides the statutory assocn.—"Convocation"—there is an Old Students' Assocn., the functions of which are mainly social.

A University Extension Board is responsible for extra-mural work. There are travelling libraries for local centres.

Publications. Calendar (Oct.), 2s. 6d; Diary (Oct.), free; Prospectuses of Faculties and Schools (July), free; Students' Handbook (Oct.), free; Students' Magazine, The Sphinx, 6d. (4 numbers per session); Inaugural Lectures. Issued in 1920, inter alia, School of Tropical Medicine Historical Record, 1898–1920, 10s. 6d.; A Brief Record of Work and Progress.

#### THE YEAR 1927-28

Benefactions. Miss Holt, £2000 for Univ. Hall Building Fund and £1500 for a Travelling Schol'p. in Architecture; Miss Melly, £250 for Univ. Hall Building Fund; Mr W. Hewitt, £200 for equipment of new Geology Building; Lord Waring, £50 a year for five years for a Travelling Schol'p. in Decoration; Executors of the late Emeritus Prof Shelwall Thomas, £5000 for a Fellowship in Surgical Pathology, Trustees of the Woolton Mechanics Institute, endowment of a Schol'p.

NEW Posts A Lectureship in Veterinary Pathology.

LEGISLATION. M.A. School of Jurisprudence established.

Resignations and Retirements. Dr J Sampson, Librarian, retired, Prof W J Dakin, on appt as Prof in Zoology, Univ Sydney, Prof E. E. Glynn, resigned, Prof. W R Halliday, on appt as Principal, King's College, London, Prof. J. W. W Stephens, resigned, M M Gillies, on appt. as Lect. in Greek, Hull, H King, on appt as Lectr. in Geography, Hull; S Welsh, on appt as Headmaster, School of Architecture, Sheffield, J Williams, on appt as Lecti. in Construction, Manchester, W S. Angus, on appt. to administrative post, Univ London, Dr. A. Hassan, on appt to Research Dept, Govt Egypt

University Extension Lectures at 39 centres Three-year Tutorial Classes, 55—1195 students on Roll—Series of popular afternoon and evening public lectures at the University—Several special public lectures by eminent men—Christinas Holiday lectures for boys and girls.

Honorary Degrees LLD—William Macbride Childs, Vice-Chancellor of Reading, The Right Hon'ble H. A L Fisher, Prof. J W Gregory, Miss Emina G. Holt; Sir Edwin L Lutvens, The Right Hon'ble Sir Archibald T. J Salvidge Litt D—The Right Hon'ble the Earl of Crawford and Balcarres, Emer Prof O Elton; Prof T P Nunn D.Sc—Prof. J. E Littlewood; Prof R. Robinson D.Eng—Emer Prof J A Fleming

Students. Full-time total, 1551, including 147 graduates. Part-time total, 495, including 311 graduates

DEGREES M.A, 20; BA, 118; BArch, 6; BCom., 2; DSc, 3, Ph D. (Sc.), 17; MSc, 13; BSc, 72, MD, 11, ChM, 3; M.Ch.Orth, 1, M.B, ChB, 48, B.DS., 3; BVSc, 1; LLM, 3, LLB., 11; Ph D. (Eng.), 1; MEng, 13, B.Eng, 31.

## UNIVERSITY OF LONDON

VISITOR-H M THE KING IN COUNCIL.

CHANCELLOR—Rt. Hon. the Earl of Rosebery and Midlothian, KG., K.T. DC.L., etc.

VICE-CHANCELLOR-SIT GREGORY FOSTER, BA., Ph D.

CHAIRMAN OF CONVOCATION-S. L LONEY, M A.

PRINCIPAL OFFICER—THOMAS FRANKLIN SIBLY, D Sc.

ACADEMIC REGISTRAR-EDWIN DELLER, LL D

REGISTRAR OF THE COUNCIL FOR EXTERNAL STUDENTS—G. F GOOD-CHILD, M.A., B.Sc.

REGISTRAR OF THE UNIVERSITY EXTENSION BOARD-JOHN LEA, M.A

Financial Officer and Secretary to the Senate—H. Claughton, C.B.E., B.A.

Superintendent of Examinations—F. J Port, LL D.

GOLDSMITHS' LIBRARIAN-R. A. RYE

DEANS OF FACULTIES. See under "General Information"—Faculties.

REPRESENTATIVE IN PARLIAMENT—E. G GRAHAM LITTLE, M.D., B A.

#### GENERAL INFORMATION

[Note. The University authorities desire that it should be clearly understood that they can accept no responsibility for any information concerning examis, or procedure except such as is contained in their own official Regns These can always be obtained on application at the Univ offices.]

Central offices—South Kensington, S W 7. Telegraphic address—University, Southkens, London. Telephone—Kensington 7000

The Univ. was constituted by Royal Charter in 1836 as a body empowered to grant degrees to students of approved institutions after examination, and, until 1900, its work was confined to the examination of students. The system whereby entrance to its examins was restricted to students of certain affiliated Colleges was abolished, except for examins. in Medicine, in 1858. In 1878 its degrees were thrown open to women, London being the first of the Univs of Great Britain to adopt this policy

In 1900 the Univ. was reconstituted so as to strengthen the ties between it and the institutions engaged in Higher Education within a radius of 30 miles. The Senate is empowered to admit as Schools of the University institutions situated within the administrative county of London and not carried on for the private gain or profit of the owners which provide education of Univ standard, and is required to obtain reports at prescribed intervals on the efficiency of such schools. A special form of incognition may be given to an institution within the same area founded for research or the cultivation of any special branch of science or learning, and the Lister Institute of Preventive Medicine, the Maudsley Hospital, the Bethlem Royal Hospital, the School of Pharmacy, and the School of Oriental Studies have been admitted in this category.

The Senate has the power also to recognize as Teachers of the Univ. any members of the teaching staff of public educational institutions within a radius of 30 miles, whether Schools of the Univ or not. Matriculated students of Schools of the Univ or studying under such \*Recognized Teachers\* are eligible under certain conditions for registration as \*Internal Students\*, and are allowed, after pursuing Approved Courses of Study, to enter for the "Internal" examns. of the Univ. \*External Students\* may pursue their studies where and how they please, and are admitted, without any conditions as to attendance at Approved Courses, to examns for degrees in all subjects except Medicine, Mining, and Architecture. The examns for Internal and External students are in some cases separate, in others identical, but the statutes require that "the degrees conferred on both classes of students shall represent as far as possible the same standard of knowledge and attainments."

Since the reconstitution of the Univ., its two original colleges, University Coll. in 1905 and King's Coll. in 1908, have been incorporated in it, the Senate,

which is the supreme Univ. body, taking over the responsibility for their administration.

LIBRARIES The Libraries belonging to and connected with the Univ. contain in the aggregate about half a million volumes, distributed over every branch of knowledge. The Univ. Library in the Central Building, S. Kensington, Contains about 200,000 volumes and pamphlets. It provides well-equipped special collections to promote research work, and also serves as a lending library from which students can borrow expensive works for home study. It includes the Goldsmiths' Library of Economic Literature (60,000 vols), which is restricted to purposes of research and reference. The British Library of Political Science at the London School of Economics has 700,000 items. There are, in addition, large departmental libraries in the several Colleges and various collections of books on special subjects, too numerous for mention. Access can also be obtained to the library of the British Museum (3 million printed books), the Public Record Office (40 million items), the Royal Colonial Institute Library (164,000 vols. and pamphlets relating to the Empire overseas, including India), and other collections described in The Libraries of London (v. infra-Publications).

Museums. Among the many Museums which, in addition to those belonging to the Schools and Institus. of the Univ, are accessible to students in London are the British Museum (Antiq and Nat Hist.); Horniman (Anthrop. and Zool); London; Parkes (Sanitary Science); Practical Geol; Roy. Archit. Soc's; Roy. Coll. of Surgeons'; Science, S. Kensington (Mech., Nav., and Struct. Engin, Phys., Maths, Chem., Physiog, Geol., and Biol); Sir John Soane's (Art and Antiquarian); Victoria and Albert, S. Kensington (Archit. and Sculpture, etc.)

LABORATORIES. The most important are mentioned in the subsections relating to the several colleges. The following are not attached to any college:

The Brown Animal Sanatory Institution, 149 Wandsworth Rd., Vauxhall, S.W.8. Superintendent—F. W. Twort, M.R.C.S., L.R.C.P. Established in 1871 for "investigating, studying, and, without charge beyond immediate expenses, endeavouring to cure maladies, distempers, and injuries, any quadrupeds or birds useful to man may be found subject to." It contains a Hospital, in which the diseases and injuries of animals are treated, and a Laboratory, where the investigation and study of diseases of animals are carried on Both In- and Out-Patients (some 5 or 6 thousand per annum) are treated. Clin. students may be admitted to the Vet. Depts., and Research students are received in the Lab.

The Institute of Historical Research, Malet St, W.C.I, is the University Laboratory of History, devoted exclusively to post-graduate and research work. It is situated close to the British Museum, and consists of a systematically planned series of seminar libraries, provided with the books containing or describing the main sources of mediaval and modern history (especially those whose manuscript originals are in the Record Office and other London Archives). It is open not only to every professor, reader, or other teacher of history in the Univ and his research students, but to historians, archivists, and teachers and research students from other Univs, approved by the Committee. Director, A. F. Pollard, M.A., Litt D., F.B.A., Prof. of Const. Hist.; Secretary and Librarian, C. G. Parsloe, B.A.

FACULTIES. 1. Theology. 2. Arts. 3. Laws. 4. Music. 5. Medicine. 6. Science. 7. Engineering. 8. Economics and Political Science. Deans: 1. Dr. Garvie (Hackney and New Coll.). 2 Prof. Atkins (King's Coll.). 3. Prof. Jenks (Lond. Sch. Economics). 4 Dr. C. H Kitson (R. Coll. of Music). 5. Prof. G. E. Gask (St. Bart.'s Hospl.). 6. Prof. Filon (University Coll.).

 Mr. C. L Fortescue (Imp. Coll., C.G.C.).
 Prof. Gregory (Lond. Sch. of Economics).

Standing Committees of the Senate. The more important are—The Academic Council, the Council for External Students, the Board to Promote the Extension of Univ. Teaching, the Matrica. Board, the Establ. and Genl. Purposes, Finance, Library, and Scholarships Committees. There are 26 other Committees besides the 45 Boards of Studies.

TERMS for Univ. and Inter-collegiate courses, 1928-29: Oct. 4-Dec. 14, Jan. 10-March 20, April 25-June 27.

DEGREES. B.D., D.D.; B.A., M.A., D.Lit.; LL.B., LL.M., LL.D.; B.Mus., D.Mus.; M.B., B.S., M.D., M.S.; B.D.S.; B.Pharm.; B.Sc., M.Sc., D.Sc.; B.Com., M.Com.; Ph.D. (in Faculties of Theol., Arts, Music, Science, Engin., and Econ.).

The B.Sc. and D.Sc. are granted in the Faculties of Science (including Pure Sc., Agric., Hortic., Vet. Sc., and, for External students, Estate Management, and, for Internal students, Household and Social Science—B.Sc. only), Engineering, and Economics; the M Sc in Science (including Agric, Hortic., Vet. Sc., and, for Internal students, Household and Social Science, and, for External students, Estate Management), Engineering and Economics

The Univ. holds 3 times a year in London and twice a year in certain Provincial centres a Matricn, examin, open to all persons of 16 yrs of age and upwards. The examn. can also be held by special arrangement in any of the British Colonies or Dominions. Candidates are required to pass on one and the same occasion in 5 subjects. English, Maths, Latin or Greek or a scientific subject, 2 other subjects of which one must, if neither Latin nor Greek is chosen for 3rd subject, be a language, but any candidate may offer an alternative lower paper in Mathematics or French or Latin and, in compensation, a sixth subject, such a candidate will be required to pass on the one and the same occasion in each of the six subjects selected. The General School examn. (v. p 114), if passed in a combination required for Matricn, is equivalent to the Matricn, examn, and several other examns are also accepted on conditions as exempting from it, namely, those numbered 2, 6, 7, 8(a), 8(b), 9, 10, 12, 19, in Appendix XX, and including the School-leaving examns. of the Univs. of Adelaide, Melb, W Aust., Cape of Good Hope Secondary School Senior Cert, and Transvaal Secondary School Examn.

STUDENTS FROM OTHER UNIVERSITIES. The graduates of any of the Univs. of the United Kingdom and of some overseas Univs.\* can also claim exemption. Other students of 19 yrs. of age and upwards who present certificates of Matricn. in Colonial Univs. or Indian or foreign certifs. from educational authorities indicating an education equivalent in their own country to that required in England for the Matricn. examn., may apply for examination under Statute 116 (in lieu of taking the Matricn. examn.) with special reference to the line of study they propose to follow. It has been the practice to hold this examn. four times a year. Students who do not propose to proceed to a degree are not required to pass any Univ. examn., but must submit evidence that they are sufficiently advanced in their studies.

\* In Canada—Acadia, Alb., Br. Columbia, Dal., King's, Laval, McG., McM. (B.A. only), Manit, Montreal, Queen's, Saskatchewan, Tor., Vict., W. Ontario, Australasia—Adel., Melb, Qld, Syd., Tas., W A. (Arts, Sc., Agr., Eng.), N.Z.; S. Africa—Cape, Cape Town, S Afr, Stell, Witw.; India—Agra, Aligarh, All., Benares, Bom. (L M. and S. also recognized), Calc., Dacca, Delhi, Lucknow, Mad., Mys., Nagpur, Panj., Patna, Rang.; Hong-Kong; certain Univs. in countries outside the British Empire.

Persons over 25 years of age who in virtue of professional qualifications or otherwise are specially qualified to proceed to a Degree course, may apply for examn, under Statute 116. See the preceding paragraph.

EXTERNAL students preparing for the Bachelorship undergo Intermediate and Final examns. at intervals prescribed in the Regns., and approximating (except in Med., Dental Surgery, and Vet. Sc.) to 3 yrs in all. Copies of all Regns. may be obtained gratis and post free from the External Registrar.

Examinations in the Overseas Dominions. Certain of the examns of the Univ. for External students are held not only in London and at Provincial centres within Great Britain, but also in certain of the overseas Dominions of the Empire. In India only the examns in the Faculty of Theol. are held for civilians; but other examns may be held for military personnel. The Matricin examn and the examns in Theol, in Arts, in Laws, and in Economics have been held at 110 overseas centres. The Univ Examns in Science have also been held under special arrangements at 8 overseas centres, including Ceylon, the Government of which colony now awards annually scholarships of a total value of over £4000 per annum upon the results of the Univ. Final examns in Arts and in Science

An Internal student before being allowed to enter as such for any examn. must, unless specially exempted, have attended Instruction courses in all the subjects thereof. For a first degree in any Faculty he must have completed an Approved Course of Study extending over at least 3 yrs. which must, ordinarily, have been continuously pursued, but not necessarily all at one institution. A minimum number of hours of attendance is as a rule prescribed for each course, and a reduction is allowed in the case of an evening student who is certified by an employer to be engaged in his service for not less than 25 hours a week. The Interm. course generally extends over 1 yr. As a general rule, Honours may be taken at the Final examns. A course of study extending over not more than 1 yr. taken in another Univ approved for the purpose subsequently to a student's passing the Interm may be accepted subject to regns, in lieu of a course taken in this Univ.

Any person who has passed the Interin examin as an External student may be allowed to take the Final examin for the first degree after having attended for 2 years as an Internal student an approved course of study for it, but the degree will not be conferred until a further year's course of approved study has been pursued

Arts. In both Interm. and Final (Pass) examns 2 langs, must be taken, including either Latin with Rom. Hist, or Greek with Greek Hist. Natives of Asia or Africa may apply for permission to substitute for Latin or Greek—Classical Arabic, Classical Persian, Sanskrit, Pali, Classical Hebrew, or Classical Chinese. The Honours subjects for the Final examn are Archæol, Chinese, Classics, Hebrew and Aramaic (including Syriac), Hist., Geog., Maths, Philos, Psych., Engl, French, Ger., Ital, Portuguese, Span, Slavonic Studies, Indo-Aryan, Arabic, Persian, Japanese, also Celtic for External students, and, for Internal students, Greek, Latin, Dutch, Scandinavian Langs., Anthropology, Sociology

The B.A course in Archit extends over 5 yrs., but graduates of approved Univs. may be exempted from such part of the earlier years' courses of study and examns. as the Senate may determine.

The M.A is conferred in Archæol, Class., Hist, Maths, Mediæval and Mod. Langs., Oriental Langs, Philos, Educn, Geog., and, for Internal students only, in Comp. Philol., Psychol, Slavonic Studies, and Sociology. Internal students are required (except in Maths.) to submit a thesis. In some cases candidates must have taken Honours at the B.A. examn. External students

may take the M.A. examn. 2 yrs. after graduation in Arts. Candidates may only take 1 branch or section at a time. In most there is a viva-voce examn,

The D.Lit. is open to M A's and Ph D.'s only (except as regards students excused under Statutes 113 and 129—v. p. 111), and is conferred for original work; minimum age—30, or 5 yrs. after passing Ph.D. or M A examn.

Diplomas. Teacher's, I yr. course for graduates and others similarly qualified (also for External students); Fine Art (3 yrs), Dramatic Art (2 yrs); Slavonic studies (2 yrs.), History (4 yrs. part-time or I yr full-time); History of Art (4 yrs. part-time or 2 yrs. more intensive); Anthropology (2 yrs); Journalism (2 yrs); Literature (4 yrs part-time or I yr. full-time); Town Planning and Civic Archit or Civic Engin (2 evenings a week for 2 terms or I day a week for 3 terms), Academic Dip. in Geog. (180 hours); External Dip. in Geog, Sociol, etc. (v infra, Econ); Librarianship (2 yrs for day students, 3-5 yrs for evening students); Academic Diplomas in Psychology, Theology, Anthropology, and Archæology (2 yrs); External Dip in Theology.

Science For the Interm. examn Pure or Applied Maths or Physics must be taken with 3 other subjects. For Final (General) examn. any 3 of the following may be selected Pure Maths, App Maths., Astron, Physics, Chem., Geol., Bot., Zool, Physiol., Psych., Anthrop, Milit. Studies, Geog, Human Anat and Morph, and Logic and Method (Ext students), Statistics (Int. students). For B.Sc. (Special) examn a student selects i principal and (except in case of Human Anatomy and Moiphology or Maths) i subsidiary subject. Honours may be awaided at both B Sc. (General) and B Sc. (Special) examn. Internal students may take the B.Sc. "by Research" (v. p. 111). For the M.Sc for Internal students a thesis is required except in Maths

For the Degree in Agric the Interm examn includes Chemistry, Botany, Zoology, and Physics; the Final-Agric, Bio-Chem, Agric. Bot., and Agric. Engin. In Horticulture the subjects for the Interm are Chem., Bot, Zool, Physics, Geol., and Surveying, for the Final, Practice of Hortic, Bookkeeping, Principles of Hortic, and Entom. For the Degree in Vet Sc. there are 4 examns, to be taken in their proper order Prelim. (Inorganic Chem. and Physics), Interm Pt. I. (Organic Chem, General Biol., and Vet. Anat.), Pt. II. (Vet. Physiol), and Final (Vet. Pathol and Vet Hyg) Doctorate in Agric or in Vet. Sc., Bachelors of Science (Agric. or Vet. Sc.) being held to be eligible for the ordinary D Sc. For the Degree in Household and Social Science there are 3 examns. 1st Interm. (Phys, Inorg. Chem., Biol, and Social and Econ Hist), 2nd (Chem -Org and Phys, Gen and Econ. Biol., Principles of Econ), and Final (App. Chem., Physiol. and Bio-Chem., Hygiene and Bacteriol, and Household Work). For the Degree in Estate Management there are 2 examns., Interm. and Final. Interm.: Pt. I -Surveying, Econ., and Agric or Town Planning, Pt. II.-Accounting and Land Law; (Pts. I. and II. may be taken separately). Final Pt. I.-Land and Buildings Valuation, Taxation and Tithe, Land Law; Pt. II -Building Construction, and either A (Agric., Forestry, Agric. Law) or B (Town Planning, Urban Pub. Sanitation, Munic. and Local Govt. Law). Pts. I. and II. may be taken separately.

Diplomas. Academic Dip. in Bacteriology (1 yr.), Academic Dip. in Biology (1 yr.).

THEOLOGY. The Interm. course is in Bibl. Langs, Greek, Lat, and Psych. and Ethics; the Final in Old Test., New Test., Bibl. and Hist. Theol., Church Hist., Philos. Introdn. to Theol., and a selected subject. The Honours examn. is distinct from the Pass, and may be taken i yr. after graduation in Div.; the subjects are Hebrew and Aramaic, including Syriac, Greek N.T. and

Apocrypha, Church Hist., Bibl. and Hist Theol., Study of Religion. Candidates for the D.D. degree must have taken Honours in Theol in this Univ.

Law. The subjects of the Interm. course are Rom. Law, Engl. Const. Law and its Hist., Jurispr., and Crim. Law and Crim. Procedure, or Indian Penal Code and Crim. Procedure. Candidates for the LL.M. degree are examined in two selected subjects. Candidates for the LL.D. degree must have obtained the LL.M. degree unless specially exempted.

MEDICINE. The course extends normally over  $5\frac{1}{2}$  yrs. In the first yr. courses in Inorg. Chem, Phys., and Genl. Biol. in preparation for the 1st examn. for Med. degrees are taken. The 2nd and 3rd yrs. are devoted to Org. Chem. (the only subject at Pt. I. of the 2nd examn.), Hum. Anat. and Embryol., Physiol., Pharmacol Pt. II. of the 2nd examn. is normally taken 18 mos. after passing the 1st. In the Final course for the M.B., BS. degrees the subjects are divided into 2 groups as follows: Group I.—Med, Path., For. Med. and Hyg., Group II—Surg., and Obstetrics and Gynæcology. The groups may be taken separately or together, but degrees are not conferred until candidates have passed in both groups.

Institutions outside the UK, certificates from which for the complete course of Med. educn, including Clin. Med. and Surg preparatory to the MB., B.S. degrees, are accepted by the Univ of London: Univs. of Dalhousie, McGill, Adel. (with Infirmary), Melb (with Melb. and Alfred Hospls), Syd. (with Infirmary and Prince Alfred Hospl), N.Z (with Dunedin Hospl.); following Indian Med Colleges—Grant (Bombay), Bengal (Calcutta), Lahore, Madras, Med Coll, Colombo; Univ of Malta; Sch. of Med, Cairo.

The M.D. may be taken in any of the following: Med, Path., Psych. Med., Midw. and Dis. of Women, State Med., Trop. Med.

The M S. may be taken in Surg, Dent. Surg, Ophth, or Laryn, Ot, and Rhin.

For the M.D. or M S. a thesis or published work may be submitted

The course for the B.D.S extends normally over 5 years—there are four examns. The subjects of the Final examn are Dental Surgery, Operative D.S. and Orthodontics

B.Pharm. The Intermediate subjects are Botany, Chemistry, Physics, and Zoology, and the Final subjects are Botany, Chemistry, Pharmacognosy, and Pharmacy.

Diplomas Psychological Medicine, Nursing

Music. The subjects for the Interm. examn. are Harmony and Counterpoint, Form and Analysis, and Hist. of Mus. For the B.Mus. the subjects of examn. are Harmony and Composition, Counterpoint, Fugue and Canon, Hist. of Music, Musical Analysis, Musical Exercise Every candidate for the B.Mus. must submit a musical exercise. For the D Mus there is a written examn, and a musical exercise is also required

Engineering. Interm. examn. subjects. Pure Maths. and Applied Maths., Heat, Elec. and Magn., Engin. Drawing, and either Sound and Optics or Chem. or Geol. In the Final examn. in Engin. not less than 5 subjects are taken, a wide choice being allowed, in Mining 6, of which Mining Geol. and Mineral, Mining, Mine Surveying, Mineral Dressing, and Assaying are compulsory; in Metall. 6, of which Metall, Metall. Analysis, Metallography and Pyrometry, Electro-Metall., and Fuel and Refractory Materials, are compulsory. For an Honours degree in Engin., Mining, or Metall. at least 1 extra subject must be taken at the Final examn. and a higher standard reached in all the subjects taken.

ECONOMICS. The Interm. examn. for B.Sc. (Econ.) is in 2 parts, which may

be taken together or on different occasions. Pt. I.—Elements of Econ., Geog., Mathematics or Logic or French or German. Pt. II.—English Econ. Hist., British Constitution. For the Final—Econ., Hist. of the Great Powers, Political Sc., and a selected subject. Passages are set from French and German works for translation and comment.

For the B.Com. the Interm. examn. is in 2 parts, which may be taken together or on different occasions. Pt. I.—Elements of Econ., Geog., an approved Modern Lang. Pt. II.—English Econ. Hist., accounting as applied to Traders and Trading Companies, or a subsidiary Approved Mod. Foreign Lang. The B.Com. examn. is in 2 parts: I.—the Present Organization of Industry, Banking, Trade, and Transport; Econ. Development of the Empire; Elements of Comml. Law, Statistical Method; II.—A selected group of subjects.

Diplomas. Academic Dip. in Sociology and Social Administration (2 yrs.' course, at least 150 hours in each); Dip. in Economics and Social Sc. (4 yrs.' part-time or shorter full-time course).

MILITARY EDUCATION. See Appendix I. Military Studies is one of the optional subjects for the Interm. and Final B.A. (Pass) and B.Sc. (General) examns. The Officers' Training Corps Contingent supplied 4200 officers for the war, of whom 650 are known to have fallen.

POST-GRADUATE STUDY AND RESEARCH In most of the Colleges and Schools of the Univ. special arrangements are made for Research students, and the facilities offered are not restricted to Internal graduates of the Univ. Under Statutes 113, 113a, and 129 External graduates and graduates of, and persons who have passed the degree examns. of, other approved Univs. are allowed, under certain conditions, to enter as Internal students for the degree of Bachelor or Doctor in the several Faculties (but not in Medicine and Surgery), and for the degree of Master of Arts, of Laws, or of Science. Application for registration may be submitted with evidence of graduation, etc., through the authorities of the College, School, or Institution at which the applicant proposes to study, and supported by their certificate of his fitness to undertake a course of study or research with a view to the proposed degree, and that they are willing to supervise his work. An Overseas student may himself submit an application on the prescribed form, and the Univ. will, if so requested, advise as to the selection of the College, School, or Institution at which, and Teacher under whom, he should study. Application for such advice should be addressed to the Academic Registrar. Overseas students should apply for registration before coming to London, and their applications should reach the Univ. by May 1, or, if from Australia or New Zealand, March 1, to enable them, should their applications be successful, to enter upon their course of study in Oct., i.e. at the beginning of the session. Students whose applications are approved are required to pursue a course extending over at least 2 yrs (v. infra-Publications)

An Internal student who is a candidate for the Ph.D. degree must have graduated in the Univ. in the faculty of Theology, Arts, Music, Science, Engineering, or Economics, or have been registered as a candidate for the degree under Statute 113 or 129. An Internal student is further required to pursue a course of study of not less than two years' full-time, or four years' part-time, training in research and research methods. Any graduate of the Univ. may become a candidate for the Ph.D. degree as an External student on receiving the approval of the Council for External Students.

The B.Sc. degree, in the Faculties of Science and Econ, may also be taken "by Research" by Internal students under Statute 112. Candidates must

have attained the age of 19 and must have passed the Interm. examn. The research must extend over at least 2 yrs.

Matrice -2 gs.; Examp. and Graduation-15 gs. (Med., 29 gs.) for first Degree. Other Degree fees, 10 to 20 gs Tuition, see the sections relating to the several colleges.

Studentships are awarded by the STUDENTSHIPS AND SCHOLARSHIPS. Senate in aid of advanced work or research. These include one of £50 p a. for 1 or 2 yrs, open to students of Univ. Coll. in Maths; one of £100 in Archæology; one of £50 in Physiology; £100 and £140 in Arts; £100 in Econ; £200 for the man or woman who, being resident in London and a graduate of the Univ, has done most in the preceding 5 yrs. to advance Medical Art or Science, £200 for a graduate of a British Univ. for the promotion of postgraduate research, 2 Univ. Travelling Scholarships of £275 each, open to Internal and External graduates in all faculties, and 3 Univ. Studentships of £150 each, open to Int. and Ext. graduates in Theol, Arts, Laws, Music, and Engineering, Duveen Travelling Studentship of £450 for research in Oto-Rhino-Laryngology The Gilchrist Trustees provide funds for two Studentships, viz one of 4100 for a woman graduate preparing for a profession; and one in Mod. Langs., £80, open to a B.A. who took Honours in French or German, for a course of study abroad with a view to the profession of teaching Scholarships of £50 each for 1 yr are awarded annually for proficiency in Oriental Langs The Scholarships Pamphlet, obtainable post free on application to the Univ., gives details of many others. See also next para.

THE COMMERCE DEGREE BUREAU exists to help in their studies External (especially extra-London) students proposing to take the Commerce Degree examns, to assist in the employment of Commerce Degree students and graduates at home and abroad, to provide a reference and lending library for students, and generally to promote the value and usefulness of the Commerce Offices were opened in 1922 under a Board of Governors at 46 Russell Square, W.C.1, where the work of the Bureau is associated with the general UNIVERSITY APPOINTMENTS BOARD WORK. There is a Bureau Educational Advisory Staff (Chief Advisor: Prof A J. Sargent, MA). Prospectus and enquiry forms obtainable on application to the Secretary, H. J. Clawford, B A. The Sir Ernest Cassel Travelling Scholarships (4) of £200 to £300 each, open

to British students who pass Part I. of Final Examn. in Commerce, and propose to pursue study of Commerce abroad.

RESIDENCE. Hostels recognized by the Senate: Connaught Hall of Residence, 13-14 Bedford Place, W.C 1; Univ Coll Hall, Ealing, for 52 men students (fees for residence, 30s. to £3 a week); College Hall, Byng Place, Gordon Square, W C, for women students; King's Coll Theological Hostel, Vincent Square; The Platanes, Denmark Hill, SE, for King's Coll and its Med School. Residence is also provided at or in connexion with the SE. Agric. Coll, Wye, Bart's, Guy's and Middlesex Hospl. Med Schools, the Theological Colleges at Hampstead and Highbury, and the Women's Colleges.

A Union Society on the lines of those of Oxford and Cambridge was tounded in March 1921. Address-University Union, Malet St., W.C.I. There is also an Assocn. of London Graduates. A University Country CLUB at Chequers was formed (by a private company) in 1924.

UNIVERSITY EXTENSION DEPARTMENT. The work of the Board to Promote the Extension of Univ. Teaching falls under the following heads: (a) Univ. Extension Lectures and Tutorial Classes for Working-people; (b) Holiday Courses for Foreigners; (c) Inspection and Examn of Schools; (d) Examn

for the Certif. in Religious Knowledge; (e) Examn. for Certificate of Proficiency in English and examns, for the Certifs. in Danish, French, German, Italian, Norwegian, Russian, Spanish, and Swedish; (f) Examns, for Diplomas in History, Literature, Economics and Social Science, History of Art, Literary, Historical and Comparative Study of the Bible, (g) Examn for Diploma in Psychological Medicine; (h) Examn, for Diploma in Dramatic Art; (i) Examn, for Diploma in Nursing.

(a) Univ. Extension Lectures have been carried on by the Board since 1902 (prior to that, since 1876, by the London Society for the Extension of Univ. Teaching). The work is restricted to the area within 30 miles of the Central Offices of the University. Courses are held, at about 60 centres, on Hist., Lit, Econ and Social Sc, Philos., Geography, Music, Painting, Architecture, A class is held in connexion with each lecture, and students are An examn, for certifs. encouraged to do regular written work for the lectr may be held at the end of each Sessional (24 or 25 lectures) or Terminal (10 or A few short courses (5 or 6 lectures) of a proneer or illus-12 lectures) course trative kind are arranged, in connexion with these there is no examn tinuous study over several years is encouraged by the Vice-Chancelloi's Certif. of Continuous Study (awarded to students who obtain 4 Sessional Certifs in subjects chosen from certain groups) and by the Diplomas in the Humanities (Hist, Lit, Econ and Social Science, Hist. of Art, Literary, Historical and Comparative Study of the Bible), awarded, under the Seal of the Univ., to students who carry on an approved co-ordinated course of study covering 4 yrs, and pass the required examns Diplomas in History, Literature, and Economics and Social Science are also awarded on the result of One Year Fulltime study, Diplomas in Economics and Social Science, and History of Art on the result of two years' part-time study

The Tutorial Classes for Working-people are under the immediate direction of a Joint Committee of 7 members nominated by the Board and 7 nominated by the Workers' Educational Association The classes extend over 3 consecutive years, and membership is usually limited to about 24 students, who undertake to attend regularly and to do regular written work for the tutor Certifs, are not awarded.

- (b) A Holiday Course for Foreigners is held annually in London during four weeks from the middle of July. Special stress is laid upon Phonetic teaching. The course is designed to widen the student's knowledge not only of the Engl. Lang., but of English customs, institus., and art, by means of lectures, classes, excursions, etc. The total number of students admitted to the course is limited to about 300, and the number in each class to 8. During the 21 years 1904–1914 and 1919–1928 the course was attended by 5058 students from 45 countries.
- (c) Inspection and Examination of Schools. A close relationship between examination and inspection has been carefully and continuously developed by the Univ. Extension Board. The County Councils of Surrey and Middlesex have placed their Secondary Schools to the number of 66 under the Univ. for regular inspection and for the holding of the School examins., the local authority in each case making a special financial arrangement with the Univ. The Board of Educh, and the Univ. inspect alternately and exchange Reports.

Inspection may include either a general inspection of the whole school or a special inspection of certain subjects or groups of subjects. It may be so combined with the Certificate examins, that these form an integral part of it. It may also include an examin, carried on by the Inspectors and the Staff of the school in co-operation. This system of combined inspection and examin, is

known as Examinational Inspection, and is capable of considerable variation to meet the requirements of any particular school.

The Examinations for School Certificates are held only in Schools inspected by the Univ. or under other approved inspection; the course of study in the school must also be approved. The examns, are of 3 grades: I. Higher, II. General, and III. Junior; for I. the (a) Higher School, (b) Intermediate (Arts or Science or Commerce or Economics) Certificate; II. the (a) School, (b) Matricn., or (c) School Commercial Certif.; and III. the Junior School Certif., respectively Certifs. I. (a), II. (a), and II. (c) are not awarded until the pupil leaves school. The examn. fees are from 1 to 3 gs., or 6 gs. if for Intermediate Cert

The Higher and General School Examinations are recognized by the Board of Education as "Second" and "First" examns (v. p. 4) respectively, and the Certifs. I (a) and II (a) awarded to candidates attending schools recognized by it as efficient Secondary Schools are attested by it. The combination of subjects that may be taken at the General School examn. offers greater variety than is the case in the Matricn. examn, and a pupil who reaches the necessary standard at one and the same examn in a combination required for Matricn is entitled on payment of the registration fee of 17s. 6d. to be registered as a Matriculated student of the Univ, if or when he has attained the prescribed age.

The Junior School Examination is intended for pupils about the age

- In the case of each of the School examns an Inspector visits the school for the purpose of conducting an oral examn, in such Mod. Langs as are taken Practical examns in Science are optional, except in the case of grade I., in which they form an essential part of the examn
- (d) The Examination for the Certificate in Religious Knowledge, instituted in 1909, is held once a year in June. It may be held at certain of the Provincial centres at which the June Matricn, examn, is appointed to be held, as well as in London.
- (e) Examinations for the Certificates in French and in German (instituted in 1913), in Italian, Russian, and Spanish (instituted in 1919), and in Danish, Norwegian, and Swedish (instituted in 1921), are held in July or as may be arranged; in English ((1) for foreigners, (2) for English born; instituted in 1920) in Aug. or as may be arranged. They are intended primarily for teachers who are not specialists in, but who require a Certif. testifying to their practical working knowledge of, the language, both spoken and written.
- (f) The Examinations for the Diplomas in History; Literature—English Lang and Lit. or General Lit.; Economics and Social Science, History of Art; and the Literary, Historical and Comparative Study of the Bible-are held once a year for students who have followed a recognized course of study for 4 yrs. as part-time students, or in some cases for a shorter period
- (g) The Examn. for the Diploma in Psychological Medicine is held twice a year, in March and Apr. and in Oct and Nov, and is open to candidates whose names are in the Medical Register. There are two varieties of this Dip., for those desiring to specialize in Mental Diseases and in Mental Deficiency respectively.
- (h) The Examn. for the Diploma in Dramatic Art is held once a year, in July, and is open to students of not less than 17 years whose general education satisfies the Board and who have studied at least two years at Training Schools or Institutions where courses have been approved.
  - (1) The Examn. for the Diploma in Nursing is held once a year in October

and November, and is open to Registered Nurses (or Nurses eligible to sit for the prescribed examn, for registration) whose general education satisfies the Board, subject to certain specified conditions with regard to Part B of the Examn.

[Further information and copies of the Regns. may be obtained from the University Extension Registrar, University of London, South Kensington, S.W. 7.]

Publications. The following are obtainable from the Univ. of Lond. Press, Ltd., 10-11 Warwick Lane, London, E.C.4:

The Calendar, pubd. in Sept., price 6s. net, postage 9d. Regns and Courses for Internal Students (the "Red Book"), pubd. in Sept., 2s. 6d., postage 9d. The Courses are pubd. separately for the several Faculties. The Regulations for External Students (the "Blue Book"), pubd. in Sept., is. 6d. net, postage 6d.; London Univ. Gazette, pubd. at average intervals of 4 weeks; the Examn Lists are pubd in Supplis.; annual subs., including postage, 5s.; single no., 7d. Matriculation Pamphlet, issued after each Examn., containing the Regns. and Examn Papers, is. 8d. post free. Examn Papers, published as soon as possible after the several Examn; prices vary from is. id. to 3s. iod Libraries of London: a Guide to Students, by R. A. Ryc, Goldsmiths' Librarian, 3rd edition, ios. Historical Record of the Univ., Second Issue, 1836–1926, contains (a) a Hist. of the Univ.; (b) former Fellows, (c) Donations and Trusts; (d) Graduates; (e) persons to whom prizes, etc., have been awarded; 5s. net., postage 6d.

Regulations. The following may be obtained on application to the Univ. Regns. for Matricn.; Regns. for Int. and for Ext Students (pubd separately) for Degrees in Arts, Science, Agric., etc.; for the various Diplomas and Certificates in special subjects; for Ph D. Degree, Scholarships pamphlet. Applications for any of these should be addressed to the Principal.

O.T.C. Handbook obtainable from the Secy, 46 Russell Sq., W C.I.

## THE YEAR 1927-28

Benefactions H.R.H. the Duke of Connaught, Hostel at 13-14 Bedford Place. Paviors' Company, £1500 a year for five years for Maybury Chair of Highway Engineering, tenable at City and Guilds College.

New Posts At University College · Lord Northcliffe Chair of Modern English Literature and Chair of Economic Geography. At Imperial College, City and Guilds College · Maybury Chair of Highway Engineering At Bedford College Readership in Chemistry. At East London College Readership in Chemistry. At London School of Economics · Readership in Renglish Law. At Middlesex Hosp Med Sch Readership in Morbid Anatomy and Histology. At University Coll Hosp. Med Sch : Readership in Bacteriology. At London School of Hygiene and Tiopical Medicine · Chairs of Bio-chemistry and of Chemistry as applied to Hygiene.

OTHER DEVELOPMENTS. External Diploma in Public Administration was instituted Regulations in Music were revised Geoffrey E. Duveen Travelling Studentship instituted. Scheme for Examination of Training Colleges.

King's College of Household and Social Science was admitted as a School of the University.

Commissioners appointed under the Univ. of London Act 1926 drew up new Statutes for the University in accordance with the report of the Departmental Committee on the reorganization of the University.

STUDENTS. Total admissions in the year 1927 were 9894, of whom 2574 were exempted from the ordinary matriculation examination: 426 as graduates

of other Universities, 1898 as holders of approved certificates, and 250 after examination under Statute 116. Of 4094 candidates for first degrees, 2284 were internal and 1810 external. The total number of internal students on the rolls was 9662.

UNIVERSITY EXTENSION. Number of Lecture Courses: Sessional (24 or 25 Lectures), 45; Terminal (10 or 12 Lectures), 38; Short (3, 5, or 6 Lectures), 33. Terminal entries of Students for all Courses, 12,097. Humanities Diploma Students, 487. Number of University Tutorial Classes, 55; Students, 1104.

The Holiday Course for Foreigners was more popular than ever—over 550 applications for admission had to be refused. There were 274 students, representing 25 nationalities.

Visitors who lectured in the Univ · Dr. M Mauss of Paris (Anthropology), E. Champion of Paris (French); Prof. H. Koht of Oslo (Norwegian), Prof. M W. Calkins of Wellesley Coll., Mass (Psychology); Mr N V. Arseniev of Konigsberg (Slavonic Studies); Prof. F. Oppenheimer of Frankfurt (Sociology); Dr. G. E. Coghill of Wistar Inst, Philadelphia (Anatomy); Prof M Bodenstein of Berlin (Chemistry); Dr E. M Kindle of Canadian Geological Survey (Geology); Prof. P. Debye of Leipzig (Physics); Prof. S. D Wicksell of Lund (Statistics); Dr J. A. Bierens de Haan of Amsterdam (Zoology); Prof Halévy of Paris (Economics), Prof L v. Mises of Vienna (Economics); Prof W. Sombart of Berlin (Economics); Prof J M Carré of Lyons (Comparative Literature); Di S K Wei of Nanking (Chinese); Prof A Nagel of Tech. Hochschule, Dresden (Civil and Mechanical Engineering); Piof. E Cassirer of Hamburg (Philosophy); Dr K M G Siegbahn of Upsala (Physics), Dr E A Hauser of Frankfurt (Chemistry).

#### GENERAL INFORMATION

Address—Gower St., W C 1. Telegrams—University College, London. Telephone—8101 Museum.

Founded in 1826 and opened Oct 1, 1828, under the name of "The University of London," the College was incorporated as "University College, London," by Royal Charter in 1836 On Jan. 1, 1907, it was incorporated in the University of London.

LIBRARIES (containing, in all, 286,000 bound volumes and pamphlets): (1) General, including Barlow (Dante), Blackburne (Law), Carnegie (American History and Institus), Field (Fine Art), Graves (Maths.), Leighton (Philos), Morris, Quain (Law), Ricardo (Polit. Econ.), Strong (Oriental), and Whitley Stokes (Celtic) collections, and the Bentham MSS.; (2) Science, including Fownes (Chem.), Graham (Chem.), and Grant (Zool.) collections, and an exceptionally complete collection of scientific journals, (3) Medical Sciences, including Sharpey (Anat. and Physiol) collection; (4) Special Arts Libraries for: Archit., Classical Archæol. (Yates), Classics and Anc. Hist., Egyptol. (Edwards), English, French, German, Geography, Italian, Hist, Jewish Hist. and Antiq. (Mocatta), Librarianship, London Hist, Philos. and Psychol, Phonetics, and Scandinavian

Museums Anat., Archit., Bot, Egypt, Engin., Geol. and Mineral., Vulcanological (Johnston-Lavis Collection), Zool. Two Astron. Observatories.

FACULTIES. Arts, Laws, Science, Engineering, Medical Sciences. Deans: Profs Chambers, de Montmorency, Jeffery, Coker, Lovatt Evans

Courses. Arts, Laws, Science, Engineering, Medical Prelim. and Intermediate, Hygiene. Open to students of both sexes. The Arts Faculty includes Slade School of Fine Art, School of Librarianship, School of Journalism, and Bartlett School of Archit. The Engineering Faculty includes Departments of Civil and Mechanical (with sub-depts. of Graphics, Surveying, and Heating and Ventilating), Electrical and Municipal Engineering. A Diploma in Engin is given after a 3 yrs.' course, and Certificates in Engin. (2 yrs.); a Diploma in Archit. (5 yrs.) and a Certificate in Archit. (3 yrs.).

All departments of the College are available for POST-GRADUATION AND RESEARCH WORK, and the respective Professors are always prepared to advise such students desirous of undertaking research, whether for higher degrees or otherwise.

DEPARTMENT OF APPLIED STATISTICS. The Francis Galton Laboratory for National Eugenics was founded in 1904 for the study of those agencies under social control that may improve or impair the racial qualities of future generations, either physically or mentally. It is open to Research students in Eugenics of both sexes. The Drapers' Company's Biometric Laboratory, founded 1895, for the statistical study of biological problems, possesses a good collection of calculating machines, integrating mechanisms, moment-finders, as well as a large series of statistical models, measuring instruments, etc. Research workers can start any time during the session, but, unless attending the lectures in the Dept., are expected to have a preliminary training either in Biology or Maths.

Courses of Instruction are given on Statistics and cognate subjects, and also short courses of popular lectures. Fees (for Research workers) per term,  $\xi_4:14:6$ . A Fee of 17 gs. per session admits to the Eugenic and

Biometric Labs, on all days and to all lectures, as well as to the use of the Library and of the material in the Archives. Fee for use of calculating machines, 14 gs, per term. For list of publications, v. mira.

The Bartlett School of Architecture was established by the combination of the Archit. Schools of University and King's Colleges. The Certificate (3 yrs.) and Diploma (5 yrs.) courses are recognized by the R.I.B.A. as exempting from the R.I.B.A. Intermediate and Final examns. respectively. The accommodation includes three large Studios, a Museum, a Cast Gallery, a Library, a Lecture Theatre, and a Class Room. Rooms are also provided for the Department of Town Planning instituted in Oct. 1914. The day work is supplemented by evening classes in design. There is an Atcher for graduates and advanced students.

Foreign Students are admitted to the College on the same terms as British. They are expected to produce identification papers. In August a Vacation Course is held in Phonetics and Spoken English (Director: Prof. Daniel Jones). Men attending that Course can reside at University College Hall, Ealing. Special courses in Aspects of British Life and Civilization take place throughout the session. The Secretary will always advise foreign students by correspondence or personal interview as to the cost of residence in London and as to suitable houses. The Ramsay Memorial Fellowships in Chemical Science founded by certain Foreign Governments are tenable at Univ. Coll, London, among other places; four Fellows from overseas are now working there.

Fees. Composition for 3 sessions' course in Arts—98 to 105 gs.; 5 sessions' course in Archit—228 gs.; 3 sessions' course in Science—135 to 140 gs.; Engin—168 gs.; Econ.—21 gs. per session, Med. for 1st examn—35, 2nd—80 gs., Laws—Day 24 gs, Evening 18 gs per session, Fine Art—28 gs. per session, for Higher Civil Service—50 gs (35 gs to those who have taken undergraduate course at the College).

Scholarships, etc. Annual value, about £3200 (including £750, Entrance Scholarships)

RESIDENCE. A Hall for 52 men at Ealing, £2 to £3 a week. One for women in Byng Place, W.C 1.

Publications. Calendar (Oct.), 3s 6d; Annual Report; University College Magazine; the various Faculty and Departmental Prospectuses; Prospectus of post-graduate courses and arrangements for research. Dept. of Applied Statistics: Annals of Eugenics, a Journal for the scientific study of Race Problems, 1.-111.; Eugenics Lab. Memoirs (1-xxiv.) and Lecture Series (1-xxiv., popular exposition of conclusions); Treasury of Human Inheritance (14 parts). Biometrika Journal (1.-xxi.); Drapers' Company Research Memoirs, Biometric Series (1.-xii.), and Studies in Natural Deterioration (1.-xii.); Drapers' Company Technical Series (1.-vii.); Tracts for Computors (1-xv.). Ephemeral papers published in Questions of the Day and the Fray (1.-xii.).

#### THE YEAR 1927-28

Benefactions. Through the Centenary Appeal: Viscount Rothermere and Mr. Cecil Harmsworth, £30,000 for endowment of Lord Northcliffe Chair of Modern English Literature and Lord Northcliffe Lect'ship in Literature, in memory of their brother, the late Lord Northcliffe. Anonymous, for Research in Physical and Inorganic Chemistry, £1000; Carnegie U.K. Trust for Schoo of Librarianship, £400; Drapers' Company for Biometrics, £500; per Italian Ambassador for Italian, £300; Rhodes Trust, towards Chair of Constitutiona

Law, £200; Chadwick Trust for Municipal Engineering, £100; Seton Memorial Lecture Committee, for endowment of annual or biennial lecture connected with St. Francis of Assisi, in memory of Dr. Walter Seton, £228. Incorporated Institute of Decorators, co-operation in institution of lectureship and Certificate Course in Decoration (Bartlett School of Architecture); The Misses Ker, Loving Cup presented to the late Prof. W. P. Ker on his retirement; Walston Prize (£5) for Design, for Students of Architecture Atelier (given by Lady Walston).

New Post Lecturer in Pharmacological Chemistry.

RETIREMENTS. Prof J. N Collie; Prof G. D. Hicks; Prof L W. Lyde, Prof. A. W Porter; Emer. Prof. J A. Fleming; Sidney Mawson (Ornamental Design), Dr. T G. Pinches (Assyriology). Resignations Prof E C Williams; Dr. Violet Anderson, to be Asst. Lectr. in Botany, Univ. Coll, Cardiff; C Daryll Forde (Geography); Dr R. W Lunt (Chemistry), H A Matthews (Geography), to be Lectr in Geography, Birkbeck College

DEATHS. Dr. H. H L Bellot, Dr W C. Bolland, Emer. Prof F. M. Simpson

IMPORTANT EVENTS. In October, First Rickman Godlee Memorial Lecture by Viscount Cecil of Chelwood on "The Co-operation of Nations", November, Portrait of Emeritus Prof. J A Fleming by Sir William Orpen, R.A., presented to the College by the Fleming Portrait Fund Committee, May, Physiological Laboratories and Theatre placed at disposal of Royal College of Physicians in connection with celebrations of Tercentenary of Harvey

Students. Full-time total, 1741, including 205 graduates. Part-time. total, 1313, including 300 graduates.

DEGREES. BA, 106, B.Sc, 94; LLB, 14, BSc (Eng), 26, B.A (Arch), 2; MA, 5; PhD, 32; MSc, 20; D.Sc, 10, LLM., 3, LL.D., 1, M.Sc. (Eng), 1

#### KING'S COLLEGE & KING'S COLLEGE FOR WOMEN 129

#### GENERAL INFORMATION

Address-Strand, W.C.2. Telephone-City 9851.

Founded by Royal Charter in 1829 for "instruction in the various branches of Literature and Science and the doctrines and duties of Christianity," King's College consisted at first of a School and Departments of General Literature. Science, and Medicine, to which were added successively Engineering, Theological, and Oriental Depts. The Hospital was built in 1839, the Evening Classes were started in 1856, and a Women's Dept in 1881. In 1910 the College School became a separate Corporation, the Hospl and Advanced Med School were made independent, the other Depts. (except the Theological) doing work of University standard were incorporated in the Univ. of London, while the Council remained the governing body of the Theol Dept, which became a School of the Univ. In 1915 the Arts and Science Departments of King's College for Women, previously housed in South Kensington, were transferred to the buildings of King's College, and the Household and Social Science Department to new buildings on Campden Hill. In 1925 the School of Slavonic Studies and the Slavonic Library were transferred to rooms in the Institute of Historical Research (Malet Street).

LIBRARY, 75,000 vols, including the Marsden (Philol and Oriental), Skeat and Furnivall (English), Wheatstone (Electricity, etc.), Slavonic, and Byzantine and Modern Greek collections

LABORATORIES AND MUSEUMS Anat (Hughes Collection), Comp. Anat, Biol., Bot., Chem., Engin., Geol. and Mineral, Mat. Med., Metall., Pharmacol., Physics, Physiol. (including Bio-Chem. and Histol.), Psych., Zool.

FACULTIES. Arts, Laws, Natural Science, Medical Science, Engineering. Theology. Deans: Prof. Atkins (German), H. J. H. Mackay, Prof. White (Maths), Prof. R. J. McDowall, Prof. Cook, Rev. W. R. Matthews.

Evening Class Department (classes in connexion with faculties of Theology, Arts, and Law). Dean, Prof. Sir Israel Gollancz.

Degree Courses in Arts, Science, Laws, Engineering. Prelim. and Interm. courses in Medicine, and courses for the First and Second Examns. for Dental Degrees. Day Training College under the Board of Education. Dept. for training secondary Teachers (men and women).

Engineering students receive preliminary workshop training in their first year. Facilities are provided for spending half of each summer vacation in engineering works. Those taking 4-years' course spend part of each year (18 months in all) in practical training.

College Diploma course in Engineering, ordinarily 3 yrs The Associateship, open to men and women who have graduated after a three-years' course and have also attended a prescribed course in Divinity. Certificates in Palæography, Italian, Hebrew, Spanish, Portuguese, Russian, Czecho-Slovak, Serbo-Croat, and Polish.

THE HOUSEHOLD AND SOCIAL SCIENCE DEPARTMENT (Warden—Miss Helene Reynard, M.A.) at Campden Hill Road, W.8, a Department of King's College for Women, though retaining the title, is entirely separate. It provides full degree courses for the B.Sc. in H. and S.Sc. Tuition Fees, 45 gs. per session. Residence from 75 to 93 gs. Number of full time students in 1926, 147.

ADVANCED STUDY. Special facilities in English (including Bibliography), History (especially Mediæval, Colonial, Naval, Eastern Europe, and Ancient).

Slavonic, Spanish, Portuguese, Modern Greek, Education, and several Depts. of Science.

FEES. Tuition per Session, including fees for games, library, and union society: Arts, 30 to 37 gs. (Psychology, Honours course, 34 gs.); Science, 35 to 50 gs.; Med., 35 to 40 gs.; Laws, 18 to 24 gs.; Engin, 48 to 60 gs.

Scholarships for Graduates. In Arts 2, aggregate value £115 p.a.; Science 3, ag. value £290 p.a.

RESIDENCE. Two hostels for men (one Theol. for 65 men and one general for 80 men), and one for (50) women (these Hostels are recognized by the Board of Education); also Q. Mary's Hostel and Annexe in the Household and Social Sc. Dept. buildings at Campden Hill with accommodation for 130.

A REGISTER OF FORMER STUDENTS is maintained, in which changes of address are recorded without charge.

Publications. Separate Syllabus for each Faculty post free. Calendar, 4s. 6d post free; K.C. Review; K.C. Magazine (Students—Household and Social Science Dept).

#### THE YEAR 1927-28

Benefactions Polish Government, grant to provide a Lecturer in Polish Language and Literature Friends of Dr. Hubert Hall, Prize in Palæography to be called by his name

New Buildings A site was acquired over the Aldwych Underground Railway Station for the construction of a five-storey building, which was begun at the end of the session. It is hoped that the new rooms, which will provide accommodation for the Departments of Geology and Geography, Education, History, Classics, and French, will be ready for occupation in June 1929. A lift was constructed in the centre of the College building to connect all floors from the sub-basement to the roof

New Developments — A Lectureship in Polish and a Readership in Geology instituted — A special post-graduation course in Chemical Engineering provided to meet the growing need for dealing with general principles of applied chemistry as a preparation for industrial posts — A scheme inaugurated whereby candidates for the French Honours Degree may spend the whole of the second year of their three years' course at a French University. A certificate in Syriac, to be awarded after one year's study, instituted — Special whole-time intensive courses in preparation for the Primary F R C S. introduced in the Departments of Anatomy and Physiology — Under the new scheme for the closer association of Training Colleges with the University, Furzedown, Whitelands and Stockwell Training Colleges will form a group attached to King's College.

Interchange The Dean of King's College visited the United States in April 1928 to deliver the Nobel Lectures at Harvard University. Prof. Seton-Watson delivered two lectures in Prague, Baron Meyendorff, Reader in Russian Institutions, lectured at a number of Unive in U.S.A. Three Lecturers in the School of Slavonic Studies, Prince Mirsky, Dr. Subotic, and Dr. Vočadlo, were in charge of Summer Courses at Columbia University. Prof. Richardson represented the Physical Society at the International Congress of Physicists at Como in September 1928, and attended the Fresnel Centenary Celebrations in Paris and the Fifth Solvay Physics Conference in Brussels. Prof Appleton represented the College at the International Conference on Radio-Telegraphy, Washington. S. J. Davies gave courses of lectures at the Technische Hochscule, Charlottenburg, at Dusseldorf, at Essen

#### KING'S COLLEGE & KING'S COLLEGE FOR WOMEN 131

and Dresden. Among visitors who lectured in the College were: Dr. S. Ahmad Khan (Allahabad); Dr. Carlo Anti (Padua); M. Paul Valéry (Paris); Prof. Cassirer (Hamburg); M. N. V. Arseniev (Konigsberg); Prof. Dixon Ryan Fox (Columbia); Prof. E. H. Stephenson (Hispanic Society of America), Señor Don F. J. Sanchez Cantón (Madrid), M. l'Abbé Bréuil (Paris); Dr. J. A. Bierens de Haan (Amsterdam); Dr. K. Bělár (Berlin).

RESIGNATIONS. Principal Ernest Barker, on his appointment as Professor of Political Science, Cambridge; Miss A. E. Levett, Tutor to Women Students; B. C. L. James; Dr. F. Bath; L. T. M. Gray; Dr. W. R. Hurtley, H. C. Prew; Miss M. E. Shaw.

STUDENTS. Full-time day students working for a degree or diploma (including Theology): total, 1412, including 177 graduates.

Part-time: total, 4039, including 136 graduates.

DEGREES OBTAINED. B A., 96; B Sc., 61, B.Sc. Engineering, 27; LL.B., 5; Diplomas, 86. Higher Degrees M.A., 14; M.Sc., 9, Ph.D., 15; LL.D., 2; D Sc., 1.

## SCHOOLS OF THE UNIVERSITY

# IMPERIAL COLLEGE OF SCIENCE AND TECHNOLOGY

VISITOR-H.M THE KING.

CHAIRMAN OF THE GOVERNING BODY—Rt. Hon. LORD BUCKMASTER.

RECTOR—Sir Thomas Holland, K.C.S.I., K.C.I.E., D.Sc., LL.D. F.R.S.

SECRETARY-A Gow, M.A, B.Sc

Assistant Secretary, Secretary to the Delegacy, and Registran —G. C. Lowry, M A.

### PROFESSORS, LECTURERS, ETC.

Aeronautics

Bairstow, L., CB.E, ARC.S., F.R.S. Prof. (Aviation).

Walker, Sir Gilbert T, CSI, MA, Sc.D, Ph.D, F.R.S.

Prof (Metcorology).

Hill, F. T, F.R Ae., S.M I Ae E.
Asst Prof (Design)

Lectrs .

Richmond, V. C., O.B.E, B.Sc, A.R.C.S.

Rowe, A P, BSc., A.RCS, DIC

Farren, W. S, M B.E., M A. Camb (Strength of Structs).

Moss, H, D.Sc., A.R CS., D.I.C. (Engine Design).

Stern, W. J., B.Sc., A.R.C.S., DIC. (Engine Design). 2 Demrs.

Astrophysics [Prof Fowler, A, ARCS, DSc, FR.S (Yarrow Research Prof.)

Bio-Chemistry

Schryver, S B, Ph D Leip, D Sc, F.R S Prof.

Biology, v. also Bot., Zool.

Tabor, R. J., B.Sc. Asst. Prof.

Paine, S. G., D.Sc. Asst Prof.

Hewer, H. R., ARC.S., MSc, DIC. Lectr. Howarth, F., B.Sc, A.R.C.S.

Lectr.

Henderson, F. Y, MA, D.Sc. Lectr.

5 Demrs.

Botany

Farmer, Sir John B, M.A, D.Sc. Ox., LL.D. Edin., F R.S. Prof.

Blackman, V. H., M.A., Sc.D. Camb, F.R S.

Prof. (Plant Physiol, and Path).

Groom, P., MBE., MA. Ox and Camb., D.Sc Ox, B.Sc. Birm., F.R.S.

Prof. (Tech of Woods & Fibres)

Brown, W, MA, DSc

Prof (Plant Path).
4 Research Plant Physiologists.

Chemical Technology

Bone, W. A., D.Sc. Manc., Ph.D. Heid., F.R.S. Prof.

Hinchley, J. W., A.R.S.M., F.I.C., M.I.Chem.E.

Prof. (C. Engineering).

Webb, A. H., M.I.M.M.

Address—Imperial Institute Road, S. Kensington, S.W.7. Telegrams—Scientist, Southkens, London. Telephone—4526 Kensington

Lectr.

Asst. Prof (Entomology)

Founded by Royal Charter in 1907 for the purpose of giving the highest specialized instruction and providing the fullest equipment for the most advanced training and research in various branches of Science, especially in its application to Industry, the Imperial College includes as integral parts the following Associated Colleges:

The Royal College of Science.

The Royal School of Mines

The City and Guilds (Engineering) College.

The departments and (in brackets) sub-departments are: Aeronautics (Aerodynamics, Meteorology), Biology (Bio-Chemistry, Plant Physiology and Pathology, Technology of Woods and Fibres), Chemical Technology (Chemical Engineering, and Fuel and Refractory Materials), Chemistry (Inorganic, Organic, and Physical), Engineering—Civil and Surveying, Electrical, Mechanical, and Motive Power, Geology (Economic Mineralogy, Mining Geology, Technology of Oil), Mathematics and Mechanics, Metallurgy, Mining (Mining Geology, Mining Surveying), Technical Optics (Optical Design, Instrument Design), Physics (Astrophysics), Zoology (Entomology).

The total staff exceeds 200. For the purpose of internal degrees of the Univ. the College is a School of the University in Science and Engineering. Students who are registered as candidates for one of the Associateships awarded following a course satisfactorily completed at the College, and who have matriculated at the University of London by examination or exemption, are eligible to proceed to the B Sc. (Special) Degree of the University, in the Faculties of Science or Engineering, on the examinations for the relative Associateship, provided the University's regulations are complied with. Associateship, provided the University's regulations are complied with commencement (1927) The buildings occupy about 8 acres and cost with equipment over £1,000,000.

The courses of study are designed for students of University standard whose occupations in life will be concerned with the scientific aspects of industries.

LIBRARIES, ETC. The Library of the Science Museum is available for the use of Students, and each Dept. is provided with a special Library, RESEARCH LABORATORIES, and full facilities for advanced study.

Admission. The conditions of admission are as under, but the College reserves power to admit in special cases candidates whose qualifications do not in every respect coincide with those prescribed, but whose previous training fits them to take full advantage of the course proposed; the prescribed qualifications give no right to admission, but will be considered with others of which the candidate may give evidence. (i.) R.C.S. and R.S.M. A candidate for admission must be as a rule not less than 17 yrs of age. For admission to 1st yr. Assoc. courses an Entrance examn. in Maths. and Mechanics, Chem. Physics, Engl., French or German or Spanish or Italian, and Geometrical or Freehand Drawing, must be passed, unless equivalent examns have been passed elsewhere. (The Matricn. examn. of the Univ. is considered equivalent provided the student has passed in "More Advanced Maths." and "Elem. Mechanics," and in the other subjects prescribed for the Entrance examn.). Candidates for admission to a 2nd yr. must pass the College Entrance examn. in more advanced Maths, Mechanics, Chem, and Physics, unless equivalent examns. have been passed elsewhere. For admission to a 3rd yr. candidates must have reached a standard correspondingly higher. (ii.) City and Guilds. A candidate desiring to enter for the 1st yr of the Assoc'ship course must be at least 16 yrs. of age and must pass entrance examn. in Maths. and Mechanics, Geom. Drawing, Phys., or Chem., Engl., and French or German or Italian or Spanish, unless he has passed the Matrico, examn, of the Univ., taking certain specified subjects, including More Advanced Maths. For admission to the 2nd yr. course candidates must take the easier and more advanced papers, Geometrical and Machine Drawing, and practical Chem. in the College examm., or they must have passed the Interm. B.Sc. (Eng.) in the Univ. in Maths., Pure and Applied, Heat, Electricity and Magnetism, Engineering, Drawing and Design, and Chemistry. Candidates for admission to advanced or research work in the R.C.S., R.S.M., or C. and G. are admitted on satisfying the Coll. authorities as to their previous training.

DIPLOMA AND OTHER COURSES. Associateship of each of the 3 associated Colls., 3 or 4 yrs.; specially arranged courses in Advanced Science or Technology, I or more yrs, leading to the Diploma of the Imperial Coll.; short courses dealing with special subjects for graduates or persons engaged in scientific industrial pursuits; occasional courses to suit individual needs.

FEES. Entrance, £2; Tuition, per session, for full-time Associateship or Post-Associateship courses of study, £62 10s. (including Union fees); for less than full-time courses, pro rata; for Research Work the fee is £22: 10s. per session (including Union fees), but an additional charge may be made for expensive apparatus or chemicals. Graduates from other Institutions taking the 4th year Associateship course in Botany will be charged fees at the Research rate of £22: 10s.

Scholarships for post-grad. work: Beit Fellowship for Research, v. Appendix XXIII. (iv.); £300 Plimmer Fellowship in Pathology; £100 in Botany; and many others (v. Calendar).

AFFILIATION, ETC. The Univ. of Sheffield is associated with the Coll for Advanced Studies in the Metallurgy of Iron and Steel. Students of Huddersfield Technical Coll may be admitted, subject to certain conditions, without examn

PUBLICATIONS. Calendar; Annual Report, with list of members, pubd. by members of the Coll.

#### THE YEAR 1927-28

RESIGNATIONS. H. Klugh, Assistant Professor in Mechanics and Mathematics; C. J. Stubblefield, Ph.D., Demonstrator in Geology, and Warden of the Imperial College Hostel, W. H. Dearden, Demonstrator in Metallurgy; G. F. J. Temple, Ph.D.

DIPLOMAS GRANTED. A.R.C.S, 65; ARS.M., 26; AC.G.I., 76; D.I.C., 93. Total, 260.

STUDENTS. Full-time, 917, including 221 graduates. Part-time, 90, including 47 graduates.

DEGREES OBTAINED. B.Sc. in Science, 66; in Engineering, 61; higher degrees in Science: Ph D, 34; M.Sc., 17; D.Sc., 8; higher degrees in Engineering Ph D, 6; M.Sc., 13, D.Sc., 1.

#### GENERAL INFORMATION

Ball, A. E., B A. Camb

Address—Bream's Buildings, E.C.4 Telephone—2245 Holborn.

Founded 1823 by Dr. George Birkbeck "for the purpose of giving education to students in the principles of the arts they practise, and in the various branches of Science and useful knowledge." A School of the Univ. in Arts and Science for evening and part-time students for 5 yis from Oct 1925. Library: 20,000 vols., including special Science Departments. Complete courses for degrees in Arts and Science and also in Laws, and for the Academic Diploma in Geog. and for the Inst. of Chem. examns., and matricn. courses. Fees, including subs. to Students' Union: Arts and Laws, £10; Science, £12. Post-grad. work, 3 gs to 5 gs. Playing Fields (18 acres) at Greenford. Publications: Calendar, 1s.; Annual Report, Lodestone 6d. (Students, terminally).

#### THE YEAR 1927-28

Benefactions. The Friends of Birkbeck Society has provided funds for the foundation of a prize of £30 for post-graduation research in Geology. Prizes in Botany and in English have been instituted in memory of William Charles Frank Newton, a former student of the College, by Mrs. Newton and friends.

BUILDINGS. The Senate has decided that in the plans for the development of the Bloomsbury site provision shall be made for the needs of Birkbeck College. The new Sports Pavilion at Greenford, which cost about £9000, was opened in May by Lord Balfour of Burleigh.

STUDENTS. Part-time. total, 1162, including 266 graduates.

DEGREES OBTAINED. B A, 32, M A, 2, Ph.D., 2, B.Sc., 38; M.Sc, 5; Ph.D., 5; D.Sc., 1; LL.B., 4

#### GENERAL INFORMATION

Address—Houghton St, Aldwych, W.C 2.
Telegrams—" Poleconics, Estrand." Telephone 5671 Holborn.

Founded 1895. A School of the Univ recognized in the Faculties of Economics and Political Science (including Commerce and Industry), of Laws, and of Arts (in History, Geography, Sociology, and Anthropology).

Matriculated students are registered as Internal students of the Univ. with a view to the B Sc. Econ, B Com, LL B, and B A (with Honours in Geog, Sociology, Anthrop., or History, or the Pass degree with Geog.), or to Higher degrees. Non-matriculated students can be registered for the Academic Diplomas in Geography, Psychology, Public Administration, Journalism, and Sociology and Social Administration, and for the School Certificates in Social Science and in International and Diplomatic Studies

The lectures and classes at the School are open also to those who have not matriculated and do not wish to pursue a full University course—in particular to those engaged in banking, accounting, railway and other transport, commerce and industry, to civil servants and municipal officials, to teachers, and to those engaged in or qualifying for social work. To all these the School affords, by day or evening, the opportunity of specialized or advanced study on particular topics. The School is open on the same terms to men and to women, and classes and lectures are given both in the day and in the evening.

The School offers special facilities for post-graduate research, under the supervision of professors or otherwise. The British Library of Political and Economic Science, which includes the British Library of Political Science, the Edward Fry Library of International Law, and the Schuster Library of Comparative Legislation, also contains a number of special collections, such as the Acworth collection on Transport, the Hutchison collection of works in all languages for and against Socialism, and other collections on Trade Unionism, Local Government, and Public Administration. The Library is open not only to those who are taking courses at the School, but, by permission of the Director, to any person desiring to utilize it for research or consultation. The Ratan Tata Foundation for research into social conditions is administered by

the School, which maintains in connexion with it a Dept. of Social Science and Administration.

The fee for a complete day course in Economics or Commerce, spread over 3 or 4 years, is 78 guineas, in Law the day fee is 26 guineas a year, and in Arts about £35 a year—In the case of evening students considerable reductions in these fees are made—The fees include privileges of Students' Common Rooms and Athletic Societies. Playing fields at Malden are available for members of the Students' Union.

Research Studentships, £200, in addition to fees, are offered from time to time. Scholarships are awarded on the results of the University Intermediate Examns. There are entrance scholarships, bursaries, and valuable prizes.

Publications: Studies in Econ. and Pol. Sc.; Economica, thrice annually, 2s. 6d.; Bulletin of the British Library of Political and Economic Science, quarterly, 2s. per annum; Clare Market Review (Students, once a term). Bulletin—with supplements—of the London and Cambridge Economic Service of Statistics and Memoranda, bearing on the current economic position, is maintained by the School, in co-operation with the Univ. of Cambridge and Harvard Univ. Subs. £6 p.a. School Calendar, 2s. 6d. or (cloth) 3s. 6d. Summary programmes free.

#### THE YEAR 1927-28

Benefactions Gift of £3000 by Sir William and Sir Gomer Berry towards the purchase of the St Clements Press building; £1000 (anonymous) for new pavilion at Malden; £10,000 from the University Grants Committee, with special reference to Library extension, and a grant of £5000 from the London County Council for equipment of the new buildings. The Rockefeller Memorial Trustees have also renewed for 1928-29 their grant of £20,000 for furthering the research of members of staff of the School Funds raised for a Prof. Lilian Knowles scholarship.

New Buildings The two additional storeys upon the roof of the 1920 block and the wing along Houghton Street were opened in June 1928 in the presence of H.R H. the Prince of Wales. The St Clements Press building and the house adjacent to it have been purchased by the School from the Press.

New Posts A full-time Chair of International Law, assistants appointed in Anthropology, Economics, and Statistics.

RESIGNATIONS. Rt Hon. Sidney Webb resigned title of Professor of Public Administration; Mrs. E. M. Burns (Economics), on appointment to Columbia University; J. S. Fulton, on appointment to a Fellowship and Tutorship in Philosophy at Balliol College, Oxford.

STUDENTS. Total regular students, 1014, including 159 graduates; occasional, 1358; intercollegiate, 431.

DEGREES OBTAINED. B.A. (Internal), 1; B.Sc (Econ) (Internal), 57, (External), 5; B Com. (Internal), 46, (External), 12; LL.B. (Internal), 5, (External), 1; M.A., 2; M.Sc. (Econ), 6; LL.M., 1; Ph.D., 18; D.Sc. (Econ.), 1; LL.D., 2.

#### GENERAL INFORMATION

ROYAL ARMY MEDICAL COLLEGE, Grosvenor Rd., SW1. Commandant—Col. H. E. M. Douglas, V.C., C.M.G., DS.O.

Opened 1902; under Army Med Advisory Board; open only to fully qualified medical men commissioned in or probationers for the R.A M.C. or I M.S. Profs of Path. and Bact, Hygiene, Trop. Med., and Military Surgery. Special teaching in Physical Training and at Mily. Hospl. (81 beds), Syphilology. Qu Alexandra Mily. Hospl. (234 beds) forms part of the Coll. Students (average about 70) are probationers and Captains, R.A M C, taking 5 mos.' course for promotion Residential accommodation for 70.

ST. BARTHOLOMEW'S HOSPITAL, Medical College, West Smithfield, E.C.I. Dean—T. W. Shore, O.B.E., M.D., B.Sc. Sub-Dean—J. B. Hume, M.S., F.R.C.S.

Founded 1662 Appointed and Recognized Teachers—43 (v supra); Library: the largest of the kind in London. Museum. 10,000 specimens, 2000 casts and drawings. Laboratories, with facilities for research in Path., Pharmacol., etc. 757 beds. Fees: 220 gs. for whole curriculum; from 1st M.B., 190 gs. Scholarships: total annual value over £1200; two for

Research in Path. (£145) and Surg. (£150) open to graduates of any Univ. educated at Bart.'s. Fellowship £600, open to graduates of any Univ. for research in Lymphadenoma Residential College within Hospl grounds for 26 students (Warden, R. M. Vick, O.B.E., M.Ch., F.R.C.S.). Large Athletic Grounds. Students' Union, including Athletic Clubs and Abernethian Soc. Publications. Hospital Reports, annually, and Journal (Students'), monthly. Women students are not eligible for admission.

BETHLEM ROYAL HOSPITAL, Lambeth Rd, S.E.I. Physician Super-intendent—J. G. Porter Phillips, M.D., B.S., F.R C.P.

Founded 1247. A centre for the teaching and practice of *Psychological Medicine*. Two courses of lectures and practical instruction for Dip. Psy. are held annually. Daily clinical instruction classes. Pathological Laboratory. X-ray apparatus. Convalescent Home at Witley, Surrey.

CHARING CROSS HOSPITAL, Medical School, Charing Cross, W.C.2. Dean—F. H Young, M D Secy.—F. Noakes. Founded 1821. Appointed and Recognized Teachers (v. supra)—14 Fees entrance, 10 gs., annual, 38 gs. Several scholarships, etc.

ROYAL DENTAL HOSPITAL AND LONDON SCHOOL OF DENTAL SURGERY, 32 Leicester Sq, W.C 2. Dean—H. Stobie, L R C.P, M.R C.S., L.D S. Secy.—W J. Wadham

Founded 1858. Open to both sexes Recognized Teachers—3 (v. supra); others—30. Library, Museum, and Laboratories. X-ray Dept Fees £70 for 2 yrs.' Hospl practice and Lectures, or, including 2 yrs.' Dent. Mechanics, £210.

GUY'S HOSPITAL, Medical School, St. Thomas's St., Borough, S.E.I. Dean—Prof. T. B. Johnston, M.B, Ch.B. Secretary—J. H. E. Winston, F.I.S.A.

Founded in connexion with St. Thomas's, 1769; as a separate School, 1825. Appointed and Recognized Teachers—50 (v. supra). Library, 10,000 vols. Museum, 5000 specimens and 2000 drawings. 626 beds. Fully equipped Dental Dept with Lab. Fees: entrance, £28, annual, £49. Foundations in aid of Research: Lect'ship in Path, approx. £1300 pa, in Clin. Chem, £250; Trav. Studentship, £150; Studentship in Mat. Med, £40; in Path., £250; Dem'rship in Clin. Chem, £150; in Path, £320; Med. Research Fellowship, etc Numerous prizes and entrance scholps. Resident appointments—58 annually. Residential accommodation for 35 students Furnished rooms, 193. to 36s. Students' Publication: G.H. Gazette. Women students are not eligible for admission.

HYGIENE AND TROPICAL MEDICINE, LONDON SCHOOL OF. Director—Dr. Andrew Balfour, C.B., C.M.G., D.P.H. Secy.—R. W. Harris. 25 Gordon St., W.C.I.

This School, constituted by Royal Charter on April 1, 1924, took over on Aug. 1, 1924, the London School of Tropical Medicine, formerly under the control of the Seamen's Hospital Society. The Charter provides that, subject to compliance with the Statutes of the University, it will be recognized in the Faculty of Science and in the Faculty of Medicine in so far as the branches of Public Health, Hygiene, State Medicine, and Tropical Medicine are concerned. The school is being built and equipped with a sum of \$2,000,000 provided by the Rockefeller Foundation, who made the gift on the understanding that the British Government would make adequate grants for staffing and maintaining

the School when the new building is completed. It will include the following departments: (r) Public Health; (2) Bio-Chemistry and Chemistry; (3) Bacteriology and Immunology; (4) Medical Zoology; (5) Epidemiology and Vital Statistics; (6) Tropical Medicine (and Hygiene). It will provide for the training and equipment of public health officers, and for research in the various branches of preventive medicine.

Tropical Medicine and Hygiene. The work of the Tropical Division of the School is carried on at present at Endsleigh Gardens, Euston Road, W.C.I. Appointed and Recognized Teachers—16 (v. supra). Library, Museum and up-to-date Laboratories with accommodation for 100. In the various Hospls. of the Scamen's Hospital Society are always numerous cases of Trop Diseases available for teaching purposes. The funds available for encouraging research include the Lord Milner Research Funds, the Wandsworth Bequest, and the E. J. Stanley Memorial. Research expeditions are equipped and maintained by the School and Field Stations established. Students must ordinarily be qualified Med. practitioners There are 2 sessions of 20 weeks each An examn. is held at end of each term. Trop. Med. courses suitable for candidates for the M.D. in Trop. Med, Camb. diploma in Trop Med and Hyg., and the D.T.M and H. of the Conjoint Board Certificates granted. Fees: 30 gs. for 20 weeks. Number of Students about 70 per session

KING'S COLLEGE HOSPITAL Medical School, Denmark Hill, S.E 5. Dean—H. Willoughby Lyle, M D, B S, F R C S Vice-Dean—J A. Drake, M.D., F.R.C.P., D P.H. Secy—S C. Ranner, M.A.

Appointed and Recognized Teachers—36 (v supra); others—18. Fees: entrance, 10 gs.; complete courses for Med. Degree and Diploma examns., 200 gs; final course only, 93 gs. Scholarships Scholarships of a total value of £1095 are offered annually (particulars on application) Hostel with accommodation for 80 men students Students' Publication K.C.H. Gazette.

LONDON HOSPITAL, Medical College, Turner St., Mile End, E.r. Dean—Prof. W. Wright, M.B., D.Sc, F.R.C.S. Secy.—E. J. Burdon. Women students are not eligible for admission.

Founded 1781. Appointed and Recognized Teachers—39 (v. supra); others—65. Library includes Thompson Yates Research Library containing chief foreign periodicals for Anat., Physiol., and Path. Laboratories include those of Path. Inst. for Advanced Research. 950 beds. Fees: entrance, 20 gs.; annual, 40 gs 34 scholps. and prizes. Hostel for 25 students. 150 appointments available for students. Students' Publication: L.H. Gazette.

LISTER INSTITUTE OF PREVENTIVE MEDICINE, Chelsea Bridge Rd., S.W.r. Director—Prof. Sir Charles J. Martin, G.M.G., M.B., D.Sc., F.R.S. Secy.—A. L. White.

Founded 1891 for Research into causation, prevention, and treatment of diseases of men and animals. Open to approved Research students of both sexes, usually without fee. Appointed and Recognized Teachers—8 (v. supra); 10 other members of scientific staff.

LONDON (ROYAL FREE HOSPITAL) SCHOOL OF MEDICINE FOR WOMEN, 8 Hunter St., Brunswick Sq., W.C.I. Dean—Lady Barrett, C B.E., M.D., M.S. Warden and Secy.—Miss Brooks.

Founded 1874. Appointed and Recognized Teachers—26 (v. supra); others—32. 268 bcds. Special arrangements with several other Hospis. for Clin. study and dresserships, etc. Research Laboratories: Anat., Biol.,

Chem., Obst. and Gyn., Path., Pharmacol., Physics, Physiol. Courses for B.Sc. Hons. in Anat. and Physiol, as well as for Med. degrees and diplomas. Arrangements for Dental students. Fees: Composition, for full Med. course, £240, in annual instalments, £35, £60, £60, £50, £35. Students' chambers provided for 72 students. Students' Publication: L.S. M. Gazette.

MAUDSLEY HOSPITAL, Denmark Hill, S.E.5. Medical Superintendent --E. Mapother, M.D., F.R.C.S. Director of Pathological Department-F. L. Golla, M.B., F.R.C.P.

Founded by the London County Council for research in Psychological Medicine, the teaching of this subject, and the treatment, on a voluntary basis, of those suffering from neuroses and from recoverable forms of mental disorder. The Hospital, which is similar in general character to the Neurological and Psychiatric Clinics of the Continent and America, and the associated Pathological Department, which serves all the London County Mental Hospitals (containing 20,000 patients), were admitted as a School of the University for research in Psychological Medicine on May 7, 1924. The Hospil has 157 beds and an out-patient department. The Path. Dept. includes a Library and Laboratories for anatomical, bio-chemical, bacteriological, and experimental investigations. Diploma and other courses for undergraduate and graduate students. Facilities for research and for gaining experience. Ordinarily no charge is made for research work, and special grants-in-aid may be made.

MIDDLESEX HOSPITAL, Medical School, Mortimer St., Wr. Dean— E. L. Pearce Gould, M.D., F.R.C.S. School Sccy.—R. A. Foley.

Founded 1835. Appointed and Recognized Teachers—38 (v. supra); others—13 Over 450 beds, including Cancer wing (90); Bland-Sutton Institute of Path with Museum and Labs; Cancer Research Labs.; The S.A. Courtauld Institute of Bio-Chemistry Scholarships, etc., worth £1000 p.a., include 2 of £150 for Cancer Research. Fees: Entrance, £25; 5 annual, £45. No accommodation for women students.

NAVAL MEDICAL SCHOOL OF THE ROYAL NAVAL COLLEGE, Greenwich, S.E.io. Director of Med. Studies—Surg.-Captain T.B. Shaw, M.B, Ch.B, Edin., R.N.

Opened 1912 Courses (twice a year) in General and Naval Hygiene, Clin. Path., Micro-Biology, for acting Surg-Lieuts (2 mos, followed by 4 mos at Haslar Hospl); Surg-Lieuts. (5 mos) for promotion, for Senior Med Officers (3 mos). Number of officers under instruction (average)—80 a year.

SCHOOL OF PHARMACY of Pharmaceutical Society of Great Britain, 17 Bloomsbury Sq, W.C.1. Dean—Prof. H. G. Greenish, D. ès Sc. Paris, F.I.C., F.L.S.

Founded 1842. Admitted as a School of the Univ. (in Pharmacy only) on Jan. 1, 1925. Recognized Teachers—3 (v. supra), others—7 Fees: Course for the Chemist and Druggist Qualifying Examn, £31 · 10s.; for the Pharmaceutical Chemist Qualifying Examn. and for the B Pharm. degree (2 years), £44: 2s. (each year). Open to students of both sexes.

ST. GEORGE'S HOSPITAL, Medical School, Hyde Park Corner, S.W.1. Dean—A. Feiling, M.D., F.R C.P.

Founded 1752. Appointed and Recognized Teachers—19 (v. supra); others—19. 440 beds. Fees entrance for Clinical course, 10 gs. Annual composition, 40 gs. Scholarships, etc., worth £180 p.a. for encouragement

of research. St G.'s Gazette is issued 3 times a year. Women students are not eligible for admission.

ST. MARY'S HOSPITAL, Medical School, Paddington, W.2. Dean—C. M. Wilson, M.D., F.R.C.P. Secy.—B. E. Matthews, B.A. Students' Publication: St. M. H. Gazette.

Founded 1852. Appointed and Recognized Teachers—34 (v. supra); others—20. Fees Course for 1st M B., 3 terms, 20 gs; entire curriculum, £200. Scholarships £210 (2), £200 (2), £25. Clinical Units in Med. and Surg. established in 1920–21.

ST. THOMAS'S HOSPITAL, Medical School, Albert Embankment, S.E.I. Dean—Prof. L. S. Dudgeon, C.M.G., C.B.E. Medical Secretary—R. J. C. Thompson, M.D., M.R.C.P.

Founded in 16th century. Recognized Teachers—37 (v. supra); others—36 Path Dept includes Museum with 3000 specimens. Large Laboratories for teaching and research. Hospl. beds, 602. Fees. Tuition per annum, £50. Hostel accommodation for 15. Women students are not eligible for admission.

TROPICAL MEDICINE, LONDON SCHOOL OF, v. supra-Hygiene.

UNIVERSITY COLLEGE HOSPITAL, Medical School, University Street, W C I Dean—A M H Gray, C B E, M D, F R C P, F.R C S Vice-Dean—Gwynne Williams, M S, F R C S Sub-Dean for Medical Students—C C Choyce, C M G, C B E., F.R C S. Secy—R Sloley. Open to both sexes.

The Med. School was separated from the Univ Coll Med. Faculty in 1905 Recognized Teachers—27 (v. supra); others 84. Library, 20,500 vols. The Charles Graham Laboratories, under the direction of Prof A. E. Boycott, were established in 1902 for research in Path. A limited number of qualified students are admitted as Lab workers, to whom grants may be made. Fees course for Final M.B., B.S., or 3rd examn of Conjoint Board—112 gs. Scholarships, etc.: annual value, £1250 Residence for Maternity students. Publications: Prospectus, Transactions of Research Dept., Magazine (Students').

The NATIONAL DENTAL HOSPITAL, founded in 1861, became the Dental Department of Univ College Hospl. in 1914. Address 187-191 Gt. Portland St and 59 Devonshire St, W 1.

WESTMINSTER HOSPITAL, Medical School, 12 Caxton St., Westminster, S.W.I. Dean—A. S. Woodwark, C.M.G., C.B.E., M.D., F.R.C.P. Secy.—Major J. Burke, D.S.O.

Founded 1834. Recognized Teachers—29 (v. supra); others—14. Fees: f40 p.a. and 10 gs. entrance.

- 23. NATIONAL INSTITUTE FOR MEDICAL RESEARCH, Hampstead, N.W.3. Departments for Experimental Pathology and Bacteriology, Biochemistry and Pharmacology, Applied Physiology and Hygiene, and Medical Statistics, each under a separate Director. All communications should be addressed to the Secy., Medical Research Council, 38 Old Queen St., S.W.r.
- 24. BROMPTON HOSPITAL FOR CONSUMPTION AND DISEASES OF THE CHEST, Fulham Rd., S.W.3. Dean—Maurice Davidson, M.A., M.D., F.R.C.P. Sub-Dean—E. E. Atkin, B.A., M.B (b) Med, Oto-Rhino-Laryngology, Pathology. Instruction is given to post-graduation students all the year

round; instruction is also available to undergraduate students about to enter for their final examination in Medicine (Conjoint Board or University, M.B., etc.) Fees for attending the practice of the hospital: I guinea for one month, 2 guineas for 3 months, payable to the Dean, Brompton Hospital, to whom all inquiries should be addressed.

# Extra-Mural Department

Director of Extra-Mural Studies— H P. Turner, MA., LL.M.

# ASSOCIATED COLLEGES

THE COLLEGE OF TECHNOLOGY originated in the Mechanics' Institution, founded in 1824, and developed between 1879 and 1912 under the direction of J. H. Reynolds as the Technical School (1883) and Municipal School of Technology (1901). In 1903 were completed, with the help of benefactions from the estate of Sir Joseph Whitworth, buildings covering 7300 sq. yards in the centre of the city and worth with their equipment £400,000. It became connected with the Univ. of Manchester in 1905 through the constitution of a Faculty of Technology, the greater part of the work of which

is conducted in the College, whose Principal is Dean of the Faculty. The work of the College includes advanced study and research in the subjects specified in the above list of Professors and Lecturers and hydraulic experimental work, motor-car engineering, and india-rubber technology.

# Colleges recognized for External Lectures in Theology:

BAPTIST COLLEGE, EGERTON HALL, HARTLEY PRIMITIVE METHODIST COLLEGE, MORAVIAN COLLEGE, Fairfield, Unitarian College, and United Methodist College at Manchester; Lancashire Independent College, Whalley Range; Wesleyan College, Didsbury.

Recognized for instruction in Maths, Physics, Chem., and Biol. up to Interm. standard for B.Sc. and B.Sc. Tech.: the HARRIS INSTITUTE, Preston.

For third year of B.Sc.Tech course in Mining: the Camborne School of Metalliferous Mining.

#### GENERAL INFORMATION

Owens College, named after a Manchester merchant who bequeathed £96,000 for its foundation, was opened in 1851. The Manchester School of Medicine was united with it in 1872. The Charter of 1880 by which the Victoria Univ. was founded established a federal constitution and made Owens a constituent Coll. of the Univ. Subsequently Univ. Coll., Liverpool, and Yorkshire Coll., Leeds, were admitted as constituent Colls. A new Charter was issued on July 15, 1903, reconstituting the Univ. under the name of the Vict Univ. of Manchester and freeing it from liability to admit or remain in association with any Coll. other than Owens, and on June 24, 1904, the Act for the incorporation of Owens Coll. with the Univ. was passed. The Univ. Press was established in 1902.

In 1905, on the establishment of the Faculty of Technology, the work of Univ. standard at the Municipal School (now College) of Tech. was included in the Univ.

Most of the buildings, arranged in two quadrangles, and erected from time to time during the past 50 years, are situated in the city. The Department of Bacteriology and Preventive Medicine is ½ mile distant, adjoining principal hospitals. The athletic ground (30 acres) is at Fallowfield, about 1½ miles distant.

LIBRARIES. The main (Christie) library (over 220,000) includes the private collections of Profs. Freeman and Stanley Jevons and Dr. Christie. Scientific periodicals are taken in by the Univ. in co-operation with the Manchester Literary and Philosophical Society, so that between them all the most important are available for both. The Medical Society's and the Radford Library (55,000) are housed in the Medical School, and are available for students. The John Rylands (310,000) includes the Althorp Library and the Crawford collection of MSS. It contains one of the most important collections of early printed books in existence. The ancient Chetham Library (100,000) has valuable mediæval MSS. and printed books of seventeenth and eighteenth centuries and a collection of volumes dealing with local history. The Municipal Reference Library (200,000) is valuable for more recent books and periodicals, and in connexion with it a Technical and Science Library (40,000) has recently been formed.

LABORATORIES, ETC. Ample equipment for advanced study and research

in all departments; special provision for Electro-Technics, Economic Zoology (including Agric. Entom.) and Botany, Radio-activity, Ionization of Gases, Colloids, and Cancer. The Manchester Museum, forming part of the Univ. buildings, and containing among other special depts. the Flinders Petrie Egyptol. Collection, is utilized for Univ. teaching in Zool, Bot., and Geol.; it is also used for systematic instruction of Elem school children Available for clinical instruction are 4 general Hospitals, in Dental and 7 other special hospis, including the Christic Cancer Pavilion. The Howard Estate Observatory in the Peak District is for investigation of the Upper Atmosphere.

Faculties. (1) Arts [including School of Architecture]; (2) Science; (3) Law; (4) Medicine [including Departments of Dental Science, Pharmaceutics, and Bacteriology and Preventive Medicine and Pub. Health]; (5) Music; (6) Commerce and Administration [including Social Study]; (7) Theology, (8) Technology (provided by the Municipal College of Technology); (9) Education Itraining for work in Secondary, Elementary, and Day Continuation Schools, in Schools for the Deaf, and with Young Children] Deans of Faculties (1) Prof. Stocks (Philosophy); (2) Prof. Thompson (Metalluigy); (3) Prof. Eastwood, (4) Prof. Raper, (5) Dr. Keighley; (6) Prof. Daniels; (7) Rev. H. Townsend; (8) Principal Mouat-Jones, (9) Prof. Bompas Smith.

MATRICULATION. See Appendix XX.

INDIAN STUDENTS. Adviser, J. K. Wood, D.Sc. Applications from Indian students for registration should be received, with references as to character and educational qualifications, as soon as possible after May 1 and not later than July 20.

Degree Courses. 3 yrs (graduates of other approved Univs., 2 yrs.)—B.A., B.Sc., LLB, Mus B, B.A. (Com), B.A. (Admin), B.D. (after Interm. courses in Arts), B.Sc. Tech; 5 yrs.—B.A. (Hons in Archit), B.D.S.; 6 yrs.—M.B., Ch.B. The B.Com course can be completed by attendance on evening lectures

Honours students of modern foreign languages may be permitted to count attendance on approved courses during one term at a foreign Univ. as equivalent to attendance at Manc

Minimum attendance in the Univ. for graduation—3 yrs. Minimum attendance for Bachelorship in 2 Faculties—5 yrs.

HIGHER DEGREES. Open to Bachelors of r yr. standing—M.A, M Sc. (2 yrs if graduates of other Faculties), Ch.M, MD, MDS, MA (Com), M.A. (Admin), M Sc.Tech; 2 yrs—LL M, M Ed.; 4 yrs—D Sc., LL D., Mus.D., DD Open to Masters or Doctors of Philosophy of the Univ. only: Litt.D.

Open to graduates of other approved Univs. through research in Mane. during 2 (non-graduates 3) yrs—MA., MSc., LL.M., M.A. (Com), M.A. (Admin), MSc Tech, M.Ed (open only to graduates). Graduates of other approved Univs of 4 yrs' (DD. 6 yrs.') standing who have obtained the degree of Master or one substantially equivalent thereto and spent 2 yrs. in study or research in Mane may qualify for the D.Sc., LLD., DD.

The Ph.D. differs from the Litt.D. and D Sc. in requiring a definite course of study, and is of a lower standard, though higher than the M.A., M.Sc., and M.Sc Tech (v. p. 18).

DIPLOMAS. Geog (grads), I yI. course; D V.S.M., open to M R C.V.S. only, I2 mos.; Psych. Med. I yI., including 2 terms at the Univ.; D.P.H. I yI.; Teacher's (grads.), I yI.; L D.S., 4 yIS.; Dp. Bact. (I yI. post-grad.); Social Study (2 yIS.; approved grads. and holders of Certif. in Pub. Admin., I yI.).

Certificates. Engin., 3 yrs.' course; Applied Chem., 3 yrs.; Archit., 3 yrs.; Mining; Factory or School Hygiene (subsequent to obtaining D P.H); Higher Commercial, 2 yrs. (grads. r yr.); Public Administration, 2 yrs., Theol., 3 yrs; Biblical Knowledge, r yr.; Tech (Assoc. Coll. Tech.), 3 yrs.; Tech. (Distinction), 1 yr. after Cert. in Tech; Photog. Tech., 2 yrs. Candidates for certificates are required, before entering on the course, to pass or obtain exemption from an entrance examn.

Certif. in Mining and the B.Sc Tech. in Mining are accepted by Govt. in

lieu of 2 out of 5 yrs.' practical experience for Mine Manager's Certif.

Special Courses on Tuberculosis for Med and Vet. practrs.

Scholarships, etc., for Graduates. A considerable number are offered every year by the Univ., most of them reserved for its own graduates, but some—in Anatomy, £150; Chemistry, £100, Economics, £100 and £90; Engineering, two of £200 each; Diseases of Children, £100, History, £50; Physics, £175; Physiology, £90; Prev Med, £300; Mech. and San. Engin. or Bact and Preventive Medicine, £150—are open to foreign students; others—in Cotton Industry, £80; History, £50—are open to British subjects who have graduated at other Univs. Honorary Research Fellowships and Research Studentships, entitling the holders to the use of facilities for research either free or at greatly reduced fees, are also awarded.

FEES. Matricn., £2. Tuition, per session, including Students' Union and Athletic Union fees. for B.A. course, 30 gs (Hons. in Archit., first 3 yrs. 41 gs. per session, 4th and 5th yrs. 28 gs. per session); B.Sc., 30 to 45 gs.; M.B., Ch.B. (5 sessions), 150 gs., plus Hospl. fees, 77 gs; LL.B. (3 sessions), 40 gs.; B.D., about 15 gs (plus Registration fee of 3 gs. per session); B.A. (Com.), B.A. (Admin.), 20 gs. to 24 gs.; Mus B., about 20 gs; B.D.S., 94½ gs., plus Hospl. fees, 175 gs; L.D.S., 84½ gs., plus Hospl fees, 135 gs.; B.Sc. Tech., £40-£60; Teacher's Dipl., £35. Examn fees Med., 32 gs., others (Interm. and Final) for first degrees about 6 gs. (B.Sc., 4 to 5 gs.). Graduation fees, 8 gs. (Doctorate 5 gs., except M.D., 9 gs., Mus D., 8 gs., Ph.D., £5).

Research fees, 7 to 10 gs. per session in Arts, Commerce, and Law; Educn.,

4 gs; higher fees for other science students.

Hostels. For men: Hulme Hall (Warden), £60 to £100 (for 25 weeks); Dalton Hall (Principal), £108 (for 31 weeks); St. Anselm's Hall (Warden), £72 (for 30 weeks), Lancashire Independent College (Principal), £81 (full Univ. terms); Unitarian College (Principal), £90 (full Univ. terms). For women (122) Ashburne Hall (Warden), 64 to 70 gs; Lees Hall (Warden) (both under Ashburne Hall Delegacy), Langdale Hall (Warden), chiefly for women training students, whose fees are £36, private students £70, Ellis Llwyd Jones Hall (Warden), special hostel for students in training as teachers of the deaf, £70, St. Gabriel's Hall (Warden) (for Catholic women students), £55 to £65.

All PAST AND PRESENT MEMBERS of the Univ. are eligible for membership of the "Old Owensian Assocn.," which publishes periodically a register of members with occupations and addresses and a *Journal* (quarterly).

ADULT EDUCATION. The Committee for the organization of the Extramural work of the Univ. and the Joint Committee for Tutorial Classes are responsible for the provision of facilities for Adult Education at the Univ. itself, and at other Centres. Public Lectures, Univ. Extension Courses, Tutorial Classes for Workpeople, and other Classes for adult students are arranged, and Tutors and Lecturers are appointed.

Publications. (1) Periodical: Calendar (Sept.), 3s.; Prospectus of Advanced Studies; Examn. Papers, 9d. to is. 6d. a set, by Faculties. The French Quarterly, 3s.; Bulletin of John Rylands Library; Technology (pub. at Coll. of Tech.); Journal of Manc. Egyptian and Orient. Soc.; Pubns. of Chetham Society, Manchester, Pubns. of Brit. Soc. of Franciscan Studies. Students' Pubns.: The Serpent (magazine), The Circle (Literary), Science Fed. Journal, Medical School Gazette. Departmental Prospectuses (April-May). (2) The Victoria University of Manchester; a short historical and descriptive account. The Univ. Press, 1926.

Histories. "The Owens College 1ts Foundation and Growth, and Connexion with the Victoria Univ.," by Joseph Thompson. Manchester, J. E. Cornish, 1886. "The Owens College," by P. J. Cornish. Manchester, J. E. Cornish, 1900.

# THE YEAR 1927-28

Grants. Lancashire C C. increased to £5600; Stockport increased to £400. New Grants: Burnley, £250; Rochdale, £150; Warrington, £100.

BENEFACTIONS. Endowment of Lectureship in Prac. Banking and of Fellowship in Econs and Commerce by Sir D Drummond Fraser Bequest of £6000 for Ziminern Travelling Fellowships Other bequests, £1965 and £1000 for scholarships, and gifts, £250, £200, and £100 for prizes.

DEVELOPMENTS Extension of Museum (Archæol. and Ethnol) opened by Mrs Jesse Haworth, widow of donor. Extension of Public Health Laboratory to accommodate Dept of Pathology New Course (Maths, Phys, and Biology) approved for Hons Sch. of General Science.

DEATHS. Prof. Sir F. du Pre Oldfield; S. R. Wilson; W. C. Popplewell; G. G. Hepburn

RESIGNATIONS. Prof R Robinson, on appt. to Chair of Organic Chem. in Univ. Coll, London; Dr H L. Roth, on appt. as Prof. of Philosophy in Univ. of Jerusalem, R. A. Wardle, on appt as Prof of Zoology in Univ of Manitoba; Dr. L. S. Palmer, on appt as Prof. of Physics in Univ. Coll, Hull.

RETIREMENTS. Assoc. Prof E. Sandeman (Engineering); A G. Little (Palæography), S Chaffers (Bursar).

Interchange of Teachers, etc. M. E. Halevy (from France) and Prof. D. R. Fox (from USA.) delivered public lectures; former also lectured in Arts Dept Prof Calder absent in Summer Term on survey of anc. monuments in Asia Minor. Prof. Bragg lectured at Massachusetts Institute of Technology. Prof. Conway lectured in Univs. of Australia and New Zealand.

HONORARY DEGREES. LL.D.—Rt. Hon. Sir Alfred M. Mond, Baron Melchett of Landford. Ltt.D.—R. D. Hicks, Prof. J. G. Robertson. D.Sc.—R. Willstatter, Dr. C. T. R. Wilson.

STUDENTS. Full-time, 2090; part-time, 391. These numbers include 502 graduates

DEGREES. Litt.D., 1; D.Sc, 3; Mus D., 1; M.D., 5; Ph.D, 11; M.A., 13; M.Sc., 33; LL.M., 1; M.A. (Com), 4, M.Ed., 3; M.Sc.Tech., 16; B.A., 142; B.Sc., 125; LL.B., 11, B.A. (Com), 37; B.A. (Admin.), 4; B.D., 7; M.B., Ch.B., 35; B.D.S., 2; B.Sc.Tech., 48.

Masterman, J. C., M.A., Tutor.

Barrington-Ward, J. G., M.A., Tutor; Librarian.

Thomson, A., M.A., Prof. of Anatomy. Russell, A. S., M.A., Tutor, Reader in Chem.

Heaton, T. B., D.M., Tutor, Reader in Anat.

Lindemann, F. A., M.A., F.R.S., Prof. of Exp. Philos. Taylor, F. A., M.A., Tutor. Harrod, H. R. F., M.A., Tutor. Jacob, E. F., M.A., D Phil . Tutor. Ryle, G., M.A., Tutor. King, E. B, M.A, Tutor. Morison, C. G. T, M.A., Tutor. Myres, J. N. L., B A. Buzzard, Sir E. F , D M , Regius Prof of Medicine.

CORPUS CHRISTI COLLEGE. Founded 1517. President-P. S. Allen, M.A., D.Litt.

Fellows:

Philos

Schiller, F. C. S., M.A., D.Sc. Grundy, G. B., M A., D.Litt., Tutor, Vice-President. Phelps, W., M A., Tutor, Dean. Clark, A. C., M A, Prof. of Latin. Pidduck, F. B, M.A., D Sc, Tutor Hardie, W. F. R., M.A., Tutor Prichard, H A, MA, Prof. of Moral

EXETER COLLEGE Founded 1314

Fellows Atkinson, C T, MA, Lectr. (Mod. Hist.)

Henderson, B. W., MA., D Litt., Tutor.

Cheshire, G. C, D C.L., M.A., Lectr. (Law).

Barber, E. A., M.A., Senior Tutor,

Dean, Lectr (Classics)
Coghill, N. H. K. A, M.A., Tutor,

Lectr. (Engl), Librarian. Dawkins, R MacG., MA., Prof. of Byzantine and Modern Greek.

Soddy, F, MA, F.RS, Prof. of Chem.

de Madariaga, Don S., Prof. of Spanish.

Balsdon, J. P. V. D., M.A., Sub-Rector, Tutor.

HERTFORD COLLEGE. Founded 1874. Riddell, Bart., M.A.

Fellows:

Cecil, Rt. Hon. Lord Hugh, M.A., Hon. D.C L.

Haselfoot, C. E., M.A. Cruttwell, C. R. M. F, M.A., Tutor, Lectr. (Mod. Hist.).

Murphy, N. R., M.A., Sr. Tutor, Lectr. (Philos.).

Percival, Lt.-Col. Sir H. F. P., M.A., Steward

Reader in Physics: Bosanguet, C. H., M A.

Lecturers:

Webster, T B. L, BA Grant-Bailey, S N., M.A. Longden, R. P., B.A.

Thornton-Duesbery, J. P., M A., Divinity Lecturer, Chaplain, Librarian. Geary, F. C., M.A., Tutor.

Other Lecturers ·

Hammick, D L., M A. (Nat. Sc.) Lawson, F. H, M.A. (Jurispr.). Henderson, C. G., M.A. (Modern History).

Rector-R. R Marett, M A, D Sc. Eccles, J. C, B.A., Research Fellow Wolfenden, J. H., M.A., Tutor, Lectr. (Phys. Sci.).

Non-Stipendiary Fellow: Balfour, H, M.A.

Other Tutors and Lecturers: Locwe, H. M. J., M A. (Hebrew). Stampa, L, MA. Mag (Mod. Hist.). Hunt, H J, MA. (French). Bosanquet, L S., B A. Ball (Maths.). Struth, M. le V, MA. (French). Blunt, A. W. F, B.D., M.A.

Catechist:

Bezzant, J., M.A. (Chaplain and Lectr in Theol).

Principal-Sir Walter R. Buchanan-

Denniston, J. D., M.A., Tutor, Lectr. (Classics), Librarian.

Boase, T. S. R., M.A., Lectr. (Mod. Hist).

Hignett, C., M.A., Lectr. Hist.).

Fifoot, C. H. S, M.A., Lectr. (Jurispr.).

Ferrar, W. L., M. A., Lectr. (Maths.). Hollis, A. M., M.A., Lectr. (Theol), Chaplain.

Lecturer: Brett-Smith, H. F. B., M.A. (Engl. Lit.).

JESUS COLLEGE. Founded 1571. Principal—A. E. W. Hazel, B.C.L., M.A. Fellows: de Winton, Ven. F. H, M.A Poulton, Prof E.B , M A., D Sc , F.R.S. Chapman, D. L, MA, F.R.S, Vice-Principal, Tutor Dodd, P. W., M.A., Senior Tutor. Edwards, J. G., M.A , Tutor. Fraser, Prof. J., M.A.

Constitution. The Congregation of the University consists mainly of the teaching and administrative elements in the Univ. and Colleges. It is the principal legislative body in the Univ. and, subject to the postponing power of Convocation explained below, can adopt, reject, or amend legislative proposals submitted by the Hebdomadal Council. Convocation, a larger body consisting of all Masters of Arts and Doctors of the Faculties of Divinity, Civil Law, and Medicine, who have their names on the Univ. books, has the power of postponing, but not of rejecting or amending, Statutes or Decrees which have been passed by the vote of less than two-thirds of the members of Congregation present and voting. It also confers honorary degrees and degrees granted by Decree or Diploma. It sanctions petitions to Parliament, and authorises the affixing of the Univ. seal when necessary. The Hebdomadal Council consists of the Chancellor, Vice-Chancellor, immediate ex-Vice-Chancellor (for a certain period after the expiry of his term of office), the Proctors, and 18 members elected by Congregation. It takes the initiative in all legislation of the Univ. and forms the central administrative body. Other important bodies, endowed with considerable powers and responsibilities, are the General Board of the Faculties and the Curators of the University Chest.

The Chancellor, elected for life by Convocation, is a non-resident Officer. The executive power is chiefly in the hands of his Deputy, the Vice-Chancellor, who is annually nominated by him from among the Heads of Colleges, and the Proctors annually elected by the Colleges and Halls in rotation

The Colleges are corporate bodies distinct from the Univ. They manage their own property, and elect their own officers; and the Proctors have no power within their walls. Their Statutes, however, render them subject to certain Univ. Statutes which deal, among other things, with reservation of a proportion of Fellowships for Univ. teachers and officers, the assignment of Fellowships to University Professorships, the admission of undergraduates, contributions for Univ. purposes, the presentation and audit of accounts, and the special examination of catering accounts. The relation between the Univ. and the Colleges is intimate. The great majority of the members of the Univ. belong to the Colleges, and all who belong to the various Colleges are at the same time members of the Univ. Teaching is given partly by Univ. Profs., Readers, Lecturers, and Demonstrators, partly by the more numerous body of College Tutors and Lectrs.

FACULTIES. Theology, Law, Medicine, Literæ Humaniores, Modern History, English Language and Literature, Mediæval and Modern Languages, Oriental Languages, Physical Sciences (including Mathematics), Biological Sciences. For Music and for Philosophy, Politics, and Economics, there are Boards of Studies.

Admission to the Univ. ("Matriculation") is without respect of sex, birth, age, nationality, or creed, and follows upon admission to a College or Hall or to the Society of Non-Coll. Students, or Society of Home-Students. No one can become a member of the Univ. unless he first becomes a member of one of these Societies. An application for admission must therefore be addressed, not to any officer of the Univ., but to the proper officer of the Society to which admission is desired; it should be made, if possible, a year or more before residence is contemplated, especially if rooms within the College walls are desired. Except for certain classes of persons the passing of an entrance examn. Is a condition of admission to matriculation.

The Colleges and Halls and the Society of Non-Coll. Students require certain qualifications of character and intellectual attainment in which the passing of *Responsions* or some equivalent examn. is necessarily included.

Students from abroad (v. also Appendix XXII) The Adviser of Overseas Students (H S Williamson, M A, Indian Institute) will advise applicants from the Dominions and Colonies and foreign countries (other than Rhodes Scholars)

The Secretary to the Delegacy for Oriental Students (H S Williamson, M.A, Indian Institute) will advise Indian and other Oriental Students, who should apply for admission through him, but they are recommended to consult the Secy of the Advisory Committee of their own Province in the first instance

Permission to attend lectures given by Professors and University Readers, and University Lecturers in English Language and Literature, can be obtained by persons who are not members of the Univ on payment of a fee of £3 a term at the office of the University Chest, Clarendon Building, Broad Street.

Lectures and classes in Modern Foreign Languages may be attended by external students on payment of fees varying from 15s to 10s. for one hour a week. Application should be made to the Clerk to the Curators, Taylor Institution.

Incorporation Members of the Univs of Cambridge and Dublin can be, under certain conditions, "incorporated" into this Univ, i.e. admitted to the same status and degree which they hold in their own Univ. Notice of intention to incorporate as an undergraduate must be sent to the Registrar through the Head of a College or the Censor of Non-Coll Students. The privileges of incorporation as a graduate are limited to B.A., M.A., Litt D., B.D., D.D., and D.Sc. of those Univs Any applicant for incorporation must have kept by residence at his Univ. before taking his degree the same number of terms that he would have been required to keep at Oxford for the corresponding degree. While an undergraduate is allowed to incorporate as a matter of course, a graduate must first satisfy the Hebdomadal Council that there are adequate reasons

In 1910 a Delegacy for Women Students was constituted, and provision made for recognition by the Univ. of Societies for their reception for academical study, students on the books of such Recognized Societies being accorded a privileged status. Under the provisions of a Statute approved by Convocation

• Balliol—The Tutor for Admissions; Qu.—The Pro-Provost; Non.-Coll.—The Censor, Non-Collegiate Buildings; in other cases—The head of the Society (v. supra).

on May 11, 1920, which came into force on Oct. 7, 1920, women may be matriculated and admitted to degrees in the Univ. Previous to matrice, a woman must have been admitted as a member of one of the 5 Societies of Women Students. A woman may be admitted to Responsions before matrice, provided her name is sent in to the Asst. Registrar by the Head or a Tutor of a Soc. to which she bona fide desires admission. Women members of the Univ. are admitted to all degrees (except B.D. and D.D.) under the same conditions as those prescribed for men as regards standing, examns, course of study, exercises, and fees, and under analogous conditions as regards residence. A Women Students' Property Committee administers all property vested in the Univ. for the benefit of women members of the Univ. generally, and in particular the Nettleship Library and Bertha Johnson Loan Fund. The Delegacy for Women Students has been abolished.

The number of resident undergraduate members of the Society of Home-Students (who keep statutable residence in houses approved by the Delegates for Lodgings) is limited at present to 220, exclusive of "Advanced students," and of an additional number not exceeding 5 in any term as may for exceptional reasons be given permission to reside. Preference is given to those applicants for admission to the Society whose homes are in Oxford.

Admission to Privileged Standing of Students from other Institutions: "Junior" and "Senior" Students. I Universities other than Indian.—(a) Any student who shall have pursued at his Univ. a prescribed course extending over 2 years may be admitted as a "Junior Student" provided that his course and the standard attained by him in any examins proper to it shall have been approved. No course will be approved which does not include the study of 2 languages other than English, of which languages one must be either Latin or Greek (b) Any person who has obtained a degree at his Univ., Degree and Univ. having been approved, may be admitted as a "Senior Student," provided that he shall have pursued at that Univ, or, if approved, at more than one Univ., a course extending over 3 years.

II. Indian Universities.—(a) Any student who shall have pursued at his Univ. a prescribed course extending over 2 years, and obtained the Degree of B.A. or B.Sc., may be admitted as a "Junior Student," provided that Degree and Univ. have been approved. No Degree will be approved which does not include the study of English and in addition of 2 of the following languages, Latin, Greek, French, German, Sanskrit, Arabic, Persian, Pali, Classical Chinese, of which 2 either Latin or Greek or French or German must be one. (b) Any student who shall have pursued at his Univ. or, should the Hebdomadal Council in his case approve, at more than one Univ. a prescribed course extending over 3 years and obtained a Degree with 1st or 2nd Class Honours, may be admitted as a "Senior Student," provided that Degree and Univ. have been approved.

III. A Junior Student. (a) may reckon his 1st term as his 4th; (b) is not required to pass Responsions; (c) is entitled to supplicate for Degree of B.A. after having resided 6 terms and passed the 1st Public Examn. and either (1) obtained a place in the Class List of an Honour School of the 2nd Public Examn. or been allowed "ægrotat", or (2) satisfied the Examiners in the 2nd Public Examn. in the Final Honour School of Nat. Sc. in Chem, Pt. I., or in the Final School of Agric. or of Forestry; or (3) obtained Honours in the 1st Public Examn., and subsequently passed the 2nd Public Examn., or (4) if disqualified by standing from obtaining such Honours, shown such merit as would otherwise have entitled him to a place on the Class List.

A Senior Student: (a) may reckon his 1st term as his 4th; (b) is not required to pass Responsions or any part of the 1st Public Frame or any

Preliminary or Previous Examn. of the 2nd Public Examn.; (c) is entitled to supplicate for the Degree of B.A. after having kept statutable residence for 6 terms, and having either (i.)—as above—(c) (i); or (ii.)—as above—(c) (4); or (iii.) satisfied the Examiners in the Final Honour School of Chemistry, Part I., or (iv.) passed the Prel. Examn. in Agriculture or Forestry and also the Final Examn. in Agriculture or Forestry.

No Junior or Senior Student will be entitled to supplicate for the Degree of B.A. except as above.

Members of the following Affiliated Colleges may claim the status of Affiliated Junior Student if they have pursued a 2 yrs.' course of study at their Coll. and taken Honours in an examn. thereon: St. David's Coll., Lampeter (3 yrs.' course with Honours may give admission to status of Senr. student); Univ. Colls., Nottingham, Southampton, Exeter; Exeter Diocesan Training Coll. The privileges of an Affiliated Junior Student are similar to but not identically the same as those of a "Junior Student."

Terms. The Academical year, which begins in Oct and ends in June, consists of 3 terms, Michaelmas, Hilary, and Trinity, beginning, respectively, on Oct 1, Jan 10, and the Wednesday after Easter Day, and ending Dec. 17, the day before Palm Sunday, and (usually) the Saturday after the first Tuesday in July Residence within the walls of a College or Hall, or in licensed lodgings,\* during a certain number of terms, usually 9, and never less than 6, is a condition of admission to any degree. Full terms begin Oct. 14, 1928, Jan. 20 and April 28, 1929, and end Dec. 8, 1928, March 16 and June 22, 1929.

DEGREES. BA, M.A., B.Litt., D Litt, BSc, DSc.; D Phil.; BD, D.D.; B.C.L, D.C L.; BM., BCh, MCh, DM.; BMus, DMus,

The degrees which are open to graduate students of other Univs. who are qualified for matrice at Oxford are those of B.A., B.Litt, B.Sc., D.Phil, B.C.L., and B.D.

ARTS. Examns in Arts, more usually called "Schools," are sharply divided into Pass and Honour examns.; in the former there is but one standard, in the latter successful candidates are distributed into 3 or 4 classes. No one is admitted to a place in the Class Lists who has exceeded a certain number of terms reckoned from Matrica. No conditions of residence are attached by the Univ. to either Pass or Honour examns; it is simply for the attainment of the degree of B A. that residence is obligatory. Every Coll. and Hall, however, as well as the Delegacy of Non-Coll. Students, has its own rules with regard to both residence and the entry for examns. A candidate for the degree of B.A. must (1) reside at the Univ. as a matriculated member during 9 terms, unless he is privileged as a member of another Univ. or as a "Service" Student; (2) pass or obtain Honours in the following examns., namely:

- (a) Responsions. This is the Entrance Examination to the University. It must be passed, or some examn, accepted as equivalent to it, before matriculation. Names of candidates must be entered through an officer of the Society to which they intend to belong. The examn includes 3 groups: I. (a) Latin, (b) Greek; II. (a) English, (b) French, (c) German, (d) Italian, (e) Spanish; III. (a) Maths, (b) Nat. Sc. To have passed Responsions it is necessary to have passed either in both subjects of Group I. and in the 2 subjects in Group III., or else in one subject at least in each group, and in 4 subjects in all, including two languages other than English. See also Appendix XX.
- \* In special circumstances leave to reside in a house which has not been licensed may sometimes be obtained.

(b) The 1st Public Examn. This consists of (1) Examn. in Holy Scripture, (2) Honour Classical Moderations, (3) Hon. Math. Modns., (4) Pass Modns., (5) Prelim. Jurisprudence, (6) Prelim. Mod. Hist., (7) Prelim. N.Sc., (8) Prelim. Agr., and (9) Prelim. Forestry. In order to pass the Examn. a candidate must pass in (1) and in one of the other subjects.

(c) The 2nd Public Examn. This consists of (a) a Pass School and (b) an Honour School. (a) contains a large variety of subjects, and candidates taking it are required to pass in 3 of these, of which one must be a language-subject other than English. There is also a homogeneous course in either Agriculture or Forestry. (b) includes the following, a class in any one of which is sufficient. Literæ Humaniores (Philos. and Ancient Hist.); Maths.; Nat. Science (Phys., Chem., Physiol., Zool., Bot., Geol., Astron, or Engin.); Jurispr.; Mod. Hist.; Theol.; Oriental Studies (Sanskrit, Arabic, Hebrew, Persian, or Egyptian); Engl. Lang and Lit; Mod. Langs. (French, Ger., Ital., Span., Russ., or Mediæval and Mod. Greek); Philos., Politics, and Economics.

Under certain conditions members of other Univs. and officers not under 21 years of age who have held for not less than 3 years a Commission in H.M. Regular Forces, and been seconded or specially relieved from active duty by the Admiralty, War Office, Air Ministry, or India Office for the purpose of attending an academic course of not less than 2 yrs., may be admitted to the status of "Service Student," and obtain exemption from Responsions and, under further conditions, from the 1st Public examn., as well as a remission of 3 terms of the necessary residence (v. supra, p. 211). Analogous concessions are made in favour of Probationers for Forest Services in the British Empire who have obtained an approved degree at an approved Univ and been admitted to the status of "Imperial Forest Service Student." Natives of Asia, Egypt, or the Sudan, born of non-European parents, can apply for permission to offer a substitute for Latin or Greek in Responsions and the 1st Public examn.

ADVANCED STUDY AND RESEARCH. The DEGREES B.LITT. AND B.Sc., instituted in 1805 in order to encourage special study and research, are granted upon the satisfactory completion of an approved course of special study or research pursued under supervision and for the most part at Oxford. Application to enter upon such a course may be made by any person who produces sufficient evidence of his ability and (1) is a member of the Univ. who has passed the examns. for the degree of B.A., or (2) has taken an approved degree at an approved Univ, or (for the B.Litt), not being a member of the Univ. of Oxford, (3) has obtained an Oxford diploma with distinction, or is held by the Board of the Faculty to be fully qualified to engage in research. Applications must in all cases be made to the Secy, of Faculties through an officer of the Society to which the candidate belongs or desires to belong. Residence as a member of the Univ. for 6 terms is a necessary condition for either degree. A candidate for the B.Litt. must first undergo a course of training in research methods and then do a special piece of research work and write a thesis, and may be required to pass a written examn. For the B.Sc., which is confined to the faculties of science and medicine, no probationary period is prescribed.

Of a similar nature but of a much higher standard is the degree of Doctor OF Philosophy instituted in 1918 (v. p. 18).

To a student who, having carried out his research for a period of not less than 3 terms, has completed a course of study or research for the B.Litt. or B.Sc. and embodied the results in a dissertation, or has pursued during such residence a course of study or research under the direction of the Committee for Advanced Studies, a Certificate may be granted by the Board of the Faculty or Board of Studies concerned or by the Committee for Advanced Studies, as the case may be.

The higher degrees, D.Litt. and D Sc, instituted in 1900, are awarded for published work of sufficient merit.

Theology. The B.D. degree is open to candidates of over 26 yrs. of age who have passed a Qualifying examin. in Christian Theology, pursued a course of study theien extending over 6 terms, resided for 6 terms, and submitted a thesis of sufficient merit in some branch of the subject. No candidate may present a thesis until he has passed the Qualifying examin., which is open to Oxford M.A.'s, to persons who have, not less than 5 terms previously, passed all examins, for the Oxford B.A., and, under certain conditions, graduates of other univs. First-class hons, in School of Theol. exempts from this examin.

The degree of D D, is open to those who have been admitted to the degree of B.D. subject to certain conditions of standing, provided they have submitted a thesis, or published work, of sufficient merit in some branch of Christian Theology.

Law. The examn for the B.C.L. degree is open either (1) to B A.'s of the Univ. or (2) under certain conditions (including residence for 6 terms) to graduates in Arts, Philos, Science, or Law of other Univs. The subjects are Jurispr., Roman, Engl., Roman-Dutch, and Internat. Law.

MEDICINE. The B.M degree is open only to B.A 's of the Univ who have passed certain examins, in Med and Nat Science. The total period of study for the degree (including the scientific subjects studied in the Arts course) is generally about 7 or 8 years, of which two or three are usually spent in London in preparation for the more strictly professional subjects of the 2nd B M examin. The M.Ch degree is open to candidates who have passed all the examins for the B M and B Ch., and either are members of the Surgical staff of a recognized hospital or have acted in such a hospital as Dresser or House Surgeon for 6 mos. A candidate for the D M must be a B M, and have entered on the 30th term from matricial and had his name on the books of some Coll or Hall or on the Register of Non-Coll Students for 20 terms.

Affiliated Colonial or Indian Senior Students may be exempted from the preliminary examn, in Physics, Chemistry, Zoology, and Botany, in consideration of equivalent examns, passed at their previous Universities

Music The degree of B.Mus. is open to candidates who either (a) have been admitted to the degree of B.A. or (b) have (r) passed Responsions or an equivalent Examn, (2) pursued at the Univ. a course of musical study extending over at least 2 years. All candidates must also pass 2 examns in Music (the subject of one of which is the composition of a Musical Exercise) under conditions laid down by Statute. Residence for 6 terms is required, and the examn, may be completed in 6 terms as in the case of the Degrees of B Litt. and B.Sc. A B Mus. may qualify for the degree of D Mus. by submitting a musical composition for approval and passing a further examn, in Music, but cannot submit a composition until the 7th term after his admission to the Baccalaureate.

DIPLOMAS. Most of these are open to persons who are not members of the Univ. Minimum courses and addresses of Secretaries from whom particulars can be obtained

Geography, 1 yr., The Director, School of Geog., Mansfield Rd.

Education, 1 yr. (or Vacation course, v. infra), Director of Training, 15 Norham Gardens.

Economics and Political Science, Dr. A. J. Carlyle, 29 Holywell St.

Anthropology, 1 yr., The Secy., Committee for A., 40 Broad St.

Forestry, r year, The Professor of F., School of F. Open to graduates of Oxford or other Univs.

Rural Economy, 1 yr., The Professor of R.E., School of R.E.

Classical Archæology, I yr., Secy. to Committee on C.A., Ashmolean Museum.

Theology, 1 yr., Secy. of Faculties.

Open to Registered Medical Practitioners. Public Health and (also open to Registered Practitioners and to approved Bachelors and Doctors of Med. of Univs. outside the U.K.) Ophthalmology, Dean of the Medical School, University Museum.

Certificates: Surveying or General and Regional Geog., 2 terms, Director, School of Geog.; Physical or Cultural Anthropology, 3 months, The Secy., Committee for A., 40 Broad St.; French or German; Training for Social Work, The Secy., Social Training Committee, Barnett House.

The following have been approved as Societies for higher study at Oxford, the members of which may have their names entered in the Univ. Register of Diploma students although they are not members of the Univ.: Ruskin College, Catholic Workers' College.

COMMISSIONS IN H M FORCES, v. Appendix I. Candidates must have resided for 3 yrs. at the Univ., be over 21 and under 24, be unmarried, and be in possession of a degree. Office of the Secy. to the Delegacy for Military Instruction—20 St. Michael's St.

Indian Civil Service. Studies of selected candidates are superintended by a Delegacy.

The Department for the Training of Teachers (address—15 Norham Gardens), established in 1919, is under the general direction of a Delegacy. For staff, see under Education. For the Univ Dipl in Educing there is a 1 yr. post-grad. course, theoretical and practical Undergraduates are admissible on certain conditions. One or, under certain conditions, two terms may be spent in practical work at a secondary school or, by special permission, abroad at an approved European Univ. Students are also accepted for a 4 yrs.' course (v. Appendix XIX).

A vacation course of 4 weeks (fee £7:10s.) is held biennially in August. It will be held in 1930, and is open without restriction to men and women. Students of this course who are graduates and who are teachers with 7 yrs.' experience may obtain the Univ. Diploma without further residence

SCHOLARSHIPS. College Entrance scholarships are very numerous and valuable. The Univ. scholarships are usually open only to members of specified standing. Of those open to graduates, 16, of the aggregate value of £1130 p.a., are for Engl., Greek, and Latin, 1 (£100) is for Ment. and Mor. Philos.; 2 (£80) for Maths.; 8 (£1340) for Med and Nat. Science; 4 (£440) for Law; 3 (£300) for Theol; 13 (£760) for Oriental Studies. There are several College Research Fellowships tenable by persons distinguished in Science or Lit. (who may be elected without examn.) on condition of prosecuting some definite work.

The General Board of Faculties has power to award studentships for advanced study and research; and there are certain funds, such as the Craven and Ireland, from which grants for the furtherance of particular studies may be made.

The Rhodes Scholarships were founded in 1902 under the will of the late Cecil John Rhodes. The value of each is £400 a year, tenable at Oxford for 3 years, subject to approval from year to year by his College of the Scholar's progress and conduct. The conditions of the competition in each country or community are fixed from time to time by the Trustees.

In his will, Mr. Rhodes expressed the wish that "in the election of a student

to a Scholarship, regard shall be had to (1) his literary and scholastic attainments; (2) his fondness for and success in manly outdoor sports, such as cricket, football, and the like; (3) his qualities of manhood, truth, courage, devotion to duty, sympathy for and protection of the weak, kindliness, unselfishness, and fellowship; and (4) his exhibition during school-days of moral force of character, and of instincts to lead and to take an interest in his schoolmates."

The Dominions and Colonies. An annual Scholarship is assigned to each Province\* of the Dominion of Canada; to each State of the Australian Commonwealth; to the Dominion of New Zealand (2), in South Africa to the Province of Natal, the Transvaal, the Orange Free State, the Cape Province, the S.A. College School in Cape Town, the Diocesan College School of Rondebosch, the Boys' High School, Stellenbosch, and the St. Andrew's College School at Grahamstown, in alternate years to the towns of Kimberley and Port Elizabeth, and not more than three annually to Rhodesia. The Colonies of Jamaica, Newfoundland, and Bermuda have each an annual Scholarship. A single Scholarship was for the first time allotted to the Island of Malta in 1921, and is awarded once in 3 years.

In founding these Scholarships, Mr. Rhodes stated that he did so because he believed that the education of young Colonists at one of our residential universities will "broaden their view," "instruct them in life and manners," and "instil into their minds the advantage to the Colonies as well as to the United Kingdom of the retention of the unity of the Empire."

United States of America. Two Scholarships are assigned under the will to each State. As the Scholarship is tenable for 3 years, there must be for each State I year out of every 3 in which there is no election. Of the 48 States, 32 elect each year, the remaining 16 holding no election. The reason given by Mr. Rhodes for founding the American Scholarships is his "desire to encourage and foster an appreciation of the advantages which I implicitly believe will result from the union of the English-speaking people throughout the world, and to encourage in the students from the U.S. . . an attachment to the country from which they have sprung, but without I hope withdrawing them or their sympathies from the land of their adoption and birth." The American Oxonian, the official magazine of the Alumni Assocn. of American Rhodes Scholars, is published quarterly by E. D. Keith, 310 Prospect Street, New Haven, Connecticut.

Number actually in residence, 1927-28 (whole or part), 187—Studying Law, 55; Nat. Sc. and Med, 43; History, 17; Econs (Dipl, etc.), 7; Lit Hum., 11; Engl, 21; Theol., 2; Maths., 7; Phil Pol and Econs, 15; other subjects, 9.

Professions followed by Rhodes Scholars since leaving Oxford. Education, 481; Law, 290; Business Industry and Mining, 133; Govt. Service., 61; Medicine, 88; Ministry and Social Work, 44; Farming, 19; Journalism and Publ., 32; Engineering, 19; Army, Navy, or Air Service, 6; Miscellaneous, 26.

General. Provision is now made under the Trust for the continuous residence at Oxford of between 190 and 200 scholars. Candidates must be between 19 and 25 years of age and unmarried. They must be citizens of the country from which they come—usually with 5 years' domicile; and must have at least 2 years' standing at a regular degree-granting College or Univ., except in a few small communities which have no such institution. Detailed information for each country may be obtained from the offices of the Trust, Seymour House, Waterloo Place, London, S.W.1.

<sup>\*</sup> Two each to Quebec and Ontario.

The most useful book dealing with the subject is Oxford of To-day, a manual for prospective Rhodes Scholars, Oxford Univ. Press, 1922; 2nd edition, 1927.

Secretary to the Rhodes Trustees—Philip Henry Kerr, C.H., Seymour House, Waterloo Place, London, S.W.I. Local Secretaries: Oxford—F. J. Wylie, Esq., 9 South Parks Road, Oxford; U.S.A.—President Frank Aydelotte, Swarthmore College, Swarthmore, Pa.; Canada—J. M. Macdonnell, Esq., 153 St. James St., Montreal; Australia—J. C. V. Behan, Esq., Warden's Lodge, Trinity College, Parkville, Victoria; S. Africa—P. T. Lewis, Esq., Court Chambers, Keerom St., Cape Town.

The Rhodes Travelling Fellowships, founded in 1926, are to enable resident Fellows, Tutors, or Lecturers of either sex at Oxford to travel, study, or undertake research in the British Commonwealth and the United States, and especially in those territories from which Rhodes Scholars are derived. A candidate must have spent at least 5 years as a resident Fellow in Oxford, and will be expected to return to Oxford when his Fellowship expires and resume his teaching there. The value of the Fellowship is £100 a month for from 6 to 12 months.

The Appointments Committee, together with its Consultative Committee, contains representatives of every College. It deals with appointments of all kinds. Address The Secretary, Acland House, 40 Broad St. Telegraphic address—Appointments, Oxford; Telephone, 3225 Oxford.

LIBRARIES AND MUSEUMS. The Bodlesan Library, founded by Sir Thomas Bodley in 1602, which is also the general library of the Univ., contains over 1,250,000 vols (representing more than 2,500,000 separate literary pieces) and 40,000 MSS. Persons, other than graduates of the Univ, are admitted on presenting a recommendation from some one in a responsible position. The Manual for Readers (obtainable from the Librarian) contains full information about the contents and catalogues of the Library. The chief books relating to it are: Macray, W. D., Annals (Clar. Press, 1890, 25s.), Clark, A., Guide for Visitors (Clar. Press, 1906, 1s. 6d.); Gibson, S., Some Oxford Libraries (Clar. Press, 1914, 2s. 6d.); Madan, F., The Bodlesan Library, London, 1921, 2s. 6d.; The Bodlesan Quarterly Record (1s. quarterly, obtainable from the Libn.).

The Taylorian Library of Modern Languages and Literature, 100,000 vols., comprises the chief philological, literary, and historical works of the principal European languages and nearly all respective Reviews, Literary periodicals, etc., of Continental Societies of importance. The Radcliffe Science Library, 100,000 vols, which consists largely of books on Mathematics, Natural Science, and Medicine, and the Tylor Anthropological collection, is a Bodleian departmental library.

Two other departmental libraries are housed in the Examination Schools: one of Law, the other of Social and Legal History (Maitland Library).

The Codrington Library (All Souls College) is especially rich in works bearing upon Modern History and Law. The Brand Library, also at All Souls, is a collection of books on Political Economy and Science. There are also the following: the Beit Library (Colonial History) and the Library of the English School at the Examination Schools; a Geographical Library (5000 vols.) and Maps (13,000 sheets) in Mansfield Rd.; and a Library of Economics and Politics at Barnett House.

The library at the *Indian Institute* is now a departmental branch of the Bodleian Library. It contains about 60,000 volumes, etc. There is also in the Indian Institute a Museum illustrating Indian antiquities and Indian life.

The College Libraries include many important collections, such as the

Russian and other Slavonic books, 5000 vols, of Queen's; History and Literature MSS of 17th Century, of Worcester; Music and Early Scandinavian collections of Christ Church; the Hastings Rashdall collection of books and pamphlets dealing with the history of universities. The MSS. in the College Libraries are described in Coxe's Catalogue, published at the Clarendon Press.

Art and Archæology. The Ashmolean, the earliest English Museum, formed 1600-1650, contains, in addition to a Library of Art and Archæology, the Parian and other marbles, Egyptian and Oriental, Classical, Prehistoric, Anglo-Saxon and local antiquities, 60,000 coins and medals (published catalogue of Mohammedan coins), and a special collection of Drawings and Engravings by Ruskin.

The Pitt-Rivers Museum has an Anthropological collection illustrating evolutionary history of material arts.

Zoology, Geology, Mineralogy (17,000 spec), Entomology (Lepidoptera Collection illustrating mimicry, etc.), are all represented in the Univ. Museum.

LABORATORIES: Electrical; Clarendon (chiefly for study and research in Heat, Optics, and Acoustics), Chemistry, Organic and Inorganic (several Colleges have labs. of their own, eg, Ch. Ch., Magd.—Analyt. Chem; Ball and Trin—Phys. Chem, Jes—Inorganic, Queen's), Physiology; Biochemistry; Zoology, Entomology, with extensive Collections and Library, Botany (Garden with Collections and Library); Geology (special equipment for study of fossils by serial sections); Mineralogy (special facilities for research in Crystallography), Engineering, Forestry (expl plantations and forest garden), Human Anatomy; Pathology and Bacteriology; two (ibservatories)

An Imperial Forestry Institute was established in 1924. It is controlled by a Board of Governors representing the Univ. and the Government departments (Colonial Office, Forestry Commission, etc.) concerned. It provides post-graduation and specialized training, as well as revision courses for forest officers already serving, and forms a centre for research in regard to forest production. Practical instruction is provided in various forest centres on the Continent.

The School of Rural Economy is the Department of the University responsible for teaching in Agriculture. There is an Institute for Research in Agricultural Economics and an Institute for Research in Agricultural Engineering. There is also an agricultural Advisory Institute responsible for advice and research on local problems in Oxfordshire and Northamptonshire. There is a farm in connexion with the School and the Institutes for demonstration and experimental purposes. The School and the Institutes are mainly financed by grants made by the Ministry of Agriculture to the University for this purpose.

The Oxford and Cambridge Schools Examn. Board, established 1873, examines or inspects and reports on the work of schools which provide education of the highest grade. It also holds yearly examns and awards certificates—Higher, School, and Lower. The two former exempt the holder, under certain conditions, from Responsions and the Previous Examination, the Matrica. examns. of London and other Northern and other English Univs., and the Preliminary examns of various professional bodies, etc. The Regulations of the Board are published by the Ox. and Camb. Univ. Presses (post free is. 3d.). Secretaries at Oxford—C. H. Wilkinson, M.A., 40 Broad St.; at Cambridge—T. G. Bedford, M.A., 61A St. Andrew's St.

LOCAL EXAMINATIONS are held in March, July, and Dec. at Oxford and elsewhere. Candidates successful in the School Certificate or Higher Local examns., or in the Higher School Certificate examn, are on certain conditions

exempted from Responsions The regns. may be obtained from the Secy. of Local Examns., Merton St. All the examns. are open to persons of both sexes.

Extra-mural Studies. There is a Department for the non-vocational education of adult persons beyond the limits of the Univ. The Delegacy for Extra-mural studies may recommend the admission of adult students to the Univ. without the necessity of passing Responsions. The Delegacy controlling the Dept has three Committees, one for Univ Extension Lectures, one for Univ. Tutorial Classes, and one for promoting adult education in Oxon, Berks, and Bucks.

Univ. Extension Lectures. The system begun in Camb. was adopted by Ox. in 1878. Up to the end of the session 1926-27 the number of persons attending courses was over 675,000, and the number of students examined 30,552; 23 summer meetings had been held Reading University partly owes its origin to extension work. The following certifs, are issued under the sanction of the Delegacy: Terminal, on courses of 10 or 12 lectures; Sessional, on 24, Sessional in Honours, implying distinction and a special essay; affiliation or Higher Certif. of Systematic Study, on a sequence of courses comprising 96 lectures plus a general examn, Vice-Chancellor's on same conditions as athliation blus examn, in Elem Maths and 2 languages. The majority of the lectures are on historical, scientific, or literary subjects. Further information can be obtained from the Secy. to the Delegates for Extra-mural Studies, Rewley House, Wellington Squarc, Oxford (Rev F. E. Hutchinson, M A.)

Tutorial Classes are held in working-class districts under the supervision of the above-mentioned Committee. Students pledge themselves to a 3 yrs.' course. The classes meet once a week for 2 hrs. from Sept. to April, and each student writes an essay about once a fortnight. The Organizing Secy. is E. S. Cartwright, M.A., Rowley House, Wellington Square, Oxford.

The Oxford Summer Meeting is held biennially, and will take place in August 1929. An experimental course on more advanced lines (in Mediæval History) for English and American students of history was held in 1924.

Oxford University Review (during term), 6d. Among other sources of information regarding the University the following may be cited: Wood (A.), Hist. of the Univ. of Oxford, 3 vols., 1792-96; Wood (A.), Athenæ Oxon. (with Fasti), ed. by P. Bliss, 4 vols., 1813-20, Maxwell-Lyte (H. C.), Hist of the Univ. of Oxford to 1530, 1886; Foster (J.), Alumni Oxon., 1500-1886, 8 vols., 1887-92; The Colleges of Oxford, ed. by A. Clark, 1891, Rashdall (H.), Mediæval Universities, 3 vols., 1895, College Histories, published by F. E. Robinson & Co.; Wells (J.), Oxford Degree Ceremony, 1906 (2s. 6d. net), Headlam (C.), The Story of Oxford, 1907 (7s. 6d. net); Mallet (Sir C.), Hist. of the Univ. of Oxford, 2 vols., 1924 (£2:2s. net).

EXPENSES. "It is not possible to make any general estimate of the cost of a University course, which varies at different colleges, and depends upon the student's own means and tastes. It must suffice here to enumerate certain items common to all undergraduates, and to recommend persons anxious for further details to consult the authorities of the Society which they wish to join. . . . The total cost of living in college might perhaps be estimated at about £60 a term for a man who exercises reasonable care in his At Keble College there is a fixed annual charge (at present £150), covering tuition, the rent of furnished rooms, board, and service. The necessary expenses of a non-collegiate student have been estimated at from £90-£100 per annum, inclusive of board, lodging, fees, and subscription. At the residential Societies for Women Students an inclusive terminal fee is charged. This is about £50 a term, but varies slightly at the different Societies."— Extract from General Information pamphlet mentioned in preceding paragraph. The items specified are:—(1) Annual Univ. dues, £4: 10s.; College tuition fee, £24 to £31 10s.; room rent, £15 to £18; hire of furniture, £6; College clubs, £6, rates and taxes on the rooms occupied, College dues and establishment charges and servants' wages, kitchen and buttery bills, fuel, laundry, lighting, etc. (amounts not separately estimated). (2) Initial. matricn., £4, College admission fee (usually £5); College caution-money, £10 to £30 (returned when name is removed from the books, and often in part on taking a degree). (3) Occasional examn. fees, about fo for B.A. (exclusive of Responsions, £3); degree fees (B.A., B Litt., or B Sc., £7 · 10s.).

What has been stated above regarding the difficulty of estimating expenses at Oxford applies equally to Cambridge. The Student's Handbook to Cambridge, 1924-25 (Cambridge University Press, 7s. 6d), deals with the subject of expenses very fully, and concludes with the following remarks: "The total annual expenditure of a student, exclusive of initial, occasional, and additional expenses, may be fairly estimated at about £235, although on the one hand it is possible by great care to live upon less, and on the other hand a larger expenditure will often enable the student to obtain greater advantages from a University career. . . . It is of the utmost importance that the foregoing estimates should not be taken for more than they are worth. . . . The only safe guide to a student's expenditure is information supplied by the college itself at which he decides to enter." The detailed statements on which the above estimate of annual expenditure is based include "guesses" as to personal expenses which the Oxford estimate leaves out of account. The items are .—Univ. fees (capitation tax), £5:5s.; College fees, £54 (tuition, £24 to £30; establishment charge, £18 to £21; College dues, £4 to £10); board and lodging, £110 (rooms and service, £21 to £50; food expenses, £38 to £87; fuel, £5 to £7; laundry, £4: ros. to £9); personal expenses, £67 (books, travelling, tradesmen-including tailor, etc., clubs, and societies). The excluded initial expenses are caution-money, College admission fee (f2 to £5), matricn. £5, furniture, linen, china, etc., and (£2 to £4 · ros.) cap, gown, and surplice. The "occasional" fees are for examns. £8 (medical, £16  $\cdot$ 8s.), and degree fees, £5. The "additional" expenses (which may be heavy, especially if much private tuition has to be allowed for) are additional lecture and laboratory fees, long vacation expenses, and private tuition.

#### RECENT CHANGES IN STATUTES

Under the Universities of Oxford and Cambridge Act 1923, which set up a Statutory Commission for Oxford, new Statutes were made for the University and for the Colleges. These Statutes were laid before Parliament and received the approval of the King in Council. For the following summary of the most noteworthy changes embodied in them the Editor is indebted to Sir Henry Sharp, K.C.I.E., the Secretary to the Commission.

I. The University.—Governing Bodies. The composition of some of the governing bodies of the University has been modified. Residence alone no longer qualifies a member of Convocation for membership of Congregation. The eighteen elected members of the Hebdomadal Council are now chosen without any limitation of classes (i.e. Heads of Colleges and Professors). Representatives of the Council are now included in the General Board of the Faculties; and the representatives of the Faculties thereon are elected no longer by individual Faculties, but by the collective votes of two groups of Faculties (Literary and Scientific). Changes in the composition of the body of Curators of the Chest likewise secure greater influence to the Hebdomadal Council.

Legislation The legislative power of Convocation has been reduced to one of postponement. The adoption of a proposal by not less than two-thirds of the members of Congregation present and voting is sufficient to confirm the proposal as a Statute or a Decree. If adopted only by a smaller majority, the proposal is laid before Convocation, and if then rejected, may after an interval be brought again before Congregation and is then made operative by a bare majority. (Decrees of minor importance, even if passed by a bare majority in Congregation, are not brought before Convocation.)

The power of initiative vested in the Hebdomadal Council has been strengthened by depriving the General Board of the Faculties of the right to introduce proposals in Congregation; but provision is made for reference to a joint Committee in cases where the Council refuses to put forward proposals recommended by the General Board.

Organization of Teaching and Research The composition of the Boards of Faculties has been modified and their functions defined. The position of Inter-Collegiate Lecturers is further recognized by the creation for them of a number of University Lectureships carrying stipends. The definitions of the duties of Professors have been made more elastic.

Entrance Examination. No candidate may now be admitted to matriculation unless he has passed a qualifying examination or has obtained special exemption.

Pensions. All teachers and officers of the University are brought within the Federated Superannuation System for Universities, and ages of retirement have been fixed.

Other Points The development of Extra-Mural teaching is encouraged by grants and a more suitable organization. Additional grants are also made for the Non-Collegiate Body.

II. THE COLLEGES. Fellowships Categories of Fellowships (according

to duties, etc.) have been laid down. A certain proportion of Official Fellowships is reserved for teachers or officers engaged in University work; University Professorships are attached to College Fellowships, and distributed among Colleges in a ratio which is generally dependent on the total number of their fellowships. Age-limits are fixed for Heads of Colleges and Fellows, the scales of stipends have been revised.

Scholarships and Cost of Living. The stipends attached to open Scholarships have been placed upon an electmosynary basis. An advisory Committee has been established for the furtherance of this principle; and, in conjunction with the Board of Education, a scheme has been formulated for the co-ordination of assistance for needy students drawn from various sources. A single age-limit for the winning of Scholarships has been laid down. Arrangements have been made for the examination of catering accounts and for economy in living-expenses. The system of general accounts has been overhauled

Pensions. The provision of pensions is made universal, and almost all Colleges have been brought within the Federated Superannuation System for Universities.

Contributions. The Statute governing the large contributions made by Colleges for University purposes has been altered so as to produce a more equitable incidence of taxation and slightly to increase the amount so contributed.

Women's Colleges. In view of the grant now made to Women's Colleges, certain alterations have been necessitated in the University Statutes, and (though this did not form one of the Royal Commission's recommendations) Royal Charters have been granted to them.

III. General Result. These changes tend to place a larger measure of authority in the hands of the Hebdomadal Council and to produce closer co-ordination among the governing bodies of the University, to organize the teaching arrangements on a more satisfactory basis, to facilitate the admission of poor students; and, without infringing the autonomy of Colleges, to place them in closer touch with the Professoriate, regularize admissions of undergraduates, utilize Scholarship funds where they are needed, and economize the resources of the Colleges and of undergraduates.

## THE YEAR 1927-28

Benefactions Dr. J E. Crombie, £500 towards the cost of the Seismological Room in the University Observatory The Committee of the Walter Raleigh Memorial Fund, £100 and the interest on £400 for the acquisition of books for the Library of the English School. Various gifts to the Ashmolean and Pitt-Rivers Museums, and to the Lewis-Evans Collection

Legislation The King in Council approved of Statutes providing (1) that women shall be eligible to any Professorship, Readership, or any other University Teachership, on the same conditions as men; (2) that (a) ordinary instruction given by Professors shall be open to all members of the University without payment of any fee, and (b) that any fees received for other than ordinary lectures or instruction given by a Professor shall be applied towards the expenses of the Department of which he is in charge; (3) that certain Professors shall receive £200 a year by way of special allowances in respect of their duties as Heads of Departments. Approval also given to the Statute limiting the number of women undergraduate students in residence to 150 each at Somerville College and St. Hilda's College, and 160 each at Lady Margaret Hall, St. Hugh's College, and any other Women's Society which may hereafter be established by vote of Convocation; no new Women's Society to be established

unless the average number of women undergraduates in residence during the previous three years shall have been less by 160 than one-fourth the average number of men. Diploma in Comparative Philology The date on which Hilary Term begins was changed from Jan. 14 to Jan. 10.

EXTRA-MURAL STUDIES. Convocation approved Regulations enabling the Delegacy for Extra-mural Studies to recommend the admission of Adult Students to the Univ. without the necessity of passing Responsions. A grant of £500 for three years was made to the Delegates to provide schol'ps. for Adult Students.

Nine Adult Students were in residence in the University under the Delegacy's Adult Scholarship Scheme, five in their first year and four in their second. One student obtained his B.Sc. at the end of his second year, and two obtained the Diploma in Economics and Political Science (with Distinction)

Honorary Degrees D.C.L.—H.R.H. the Duke of York, H.M. King Amanulla, King of Afghanistan; Viscount Grey of Fallodon; Lord Blanesburgh of Alloa; Admiral of the Fleet Sir Chailes E. Madden, Bart; Field-Marshal Sir George F. Milne; Elizabeth Wordsworth, Hon. Fellow of Lady Margaret Hall. D.Sc.—Baron Melchett of Landfold; E. B. Knobel. D.Litt.—M. L'Abbé Henri Bremond, Sir Cecil H. Smith, R. S. Conway, Hulme Professor of Latin, Manchester, Sir William A. Craigie, Professor of English, Chicago, C. T. Onions, Reader in English Philology, H. S. Miltord, Publisher to the University, R. W. Chapman, Secretary to the University Press, John Johnson, Printer to the University. D.D.—The Ven Robert H. Charles, Archdeacon of Westminster, Rev. Alan H. McNeile, Regius Professor of Divinity, Dublin, Rev. J. W. Oman, Principal of Westminster College M.A.—Mrs. Florence J. Weldon, H. Gow, Vice-Principal of Manchester College; W. W. McIntosh, formerly Vice-President of the American Branch of the University Press, A. T. Maling, Assistant on the Staff of the Oxford English Dictionary, Major A. V. Spencer, Bursar of Corpus Christi College

Special Annual Lectures The Romanes Lecture was delivered by Prof D M S Watson, F R S. (subject "Paleontology and the Oligin of Man"), the Halley Lecture by Dr Harlow Shapley, Director of the Harvard College Observatory (subject "A Search for the Centre of the Milky Way"), the Herbert Spencer Lecture by Prof A. M. Carr-Saunders (subject. "Professions Their Olganization and Place in Society"); the Taylorian Lecture by the Rt. Hon H. A L Fisher, M A (subject "A French Poet of To-day"); the Zaharoff Lecture by M Fernand Baldensperger, Professor in the University of Paris (subject "L'Appel de la fiction orientale chez Honoré Balzac"). For the first time for many years a lecture in Ancient Greck was given by A B Poynton, Public Orator (subject "Isocrates")

GENERAL The School of Bio-Chemistry was opened by the Chancellor in October 1927 The Rockefeller Trustees gave £55,000 to meet the cost of the building and its equipment Rewley House was opened by the Chancellor in December 1927 as the headquarters of extra-mural work.

INTERCHANGE. Leave of absence was granted to the Professor of Chinese (Prof. Soothill) to enable him to deliver a course of lectures at Columbia University; and to the Savilian Professor of Geometry (Prof. Hardy) to enable him to exchange work with Prof. Veblen of Princeton University.

DEATHS. D. G. Hogarth, Keeper of the Ashmolean Museum, Nov. 6, 1927; M. H. Green, Fellow of Trinity, Nov. 10, 1927; H. H. Gibbon, Fellow and Chaplain of Balliol, Jan. 28, 1928; E. M. Wrong, Official Fellow as Tutor in Modern History, Balliol, Feb. 15, Rt. Hon. George, Viscount Cave, Chancellor

of the University, Mar. 29; Winifred H. Moberly, Principal of St. Hilda's, April 6; A J Jenkinson, Fellow and Tutor, Brasenose, April 19; H. W. C. Davis, Regius Prof. of Modern History, June 28.

STUDENTS Full-time, 4489; research students, 189; preparing for first degree, 4084; other full-time students, 216 Matriculations, 1523.

Extra-mural tutorial classes, 31; preparatory, 4. Average attendance, 633. University Extension lectures, 626, distributed in 85 courses at 67 centres, regularly attended by nearly 8000 persons. Of these courses 12 were in History, 42 in Literature, 5 in Economics, 11 in Art and Archæology, 7 in Natural Science, 6 in Music, 1 in Psychology, and 1 in the Literature of the Bible.

DEGREES BA, 1085; MA., 473; BLitt, 35; B.Sc., 28; BC.L, 14 D.C.L., 1; BM, 23; D.M., 8; B.Mus., 5; B.D., 3; D.Phil., 19.

British Dairy Institute (occupying a building on the University site and controlled by a committee representing the British Dairy Farmers' Assocn. and the University). Manager and Chief Instructor—A Todd. 2 Asst. Instis

The National Institute for Research in Dairving, Shinfield, near Reading, established by the Ministry of Agric and Fisheries in 1912, forms part of the University. It is governed by a Board consisting of representatives of the Ministries of Agric and Health, RAS of England, British Dairy Farmers' Assocn., Nat. Farmers' Union, etc. It has four Depts.—Dairy Bacteriology, Dairy Chemistry, Dairy Husbandry, and Dairying.

### GENERAL INFORMATION

Based upon the local Oxford University Extension Centre and the local Schools of Science and Art, and deriving its first impetus largely from Christ Church, Oxford, a University Extension College was opened at Reading in 1892. In 1902 it established a claim to a State grant as a University College—In 1904 and 1905 it received endowments of land and money (£50,000) from the Palmer family. In 1908 Lady Wantage endowed Wantage Hall as a residence for 78 men students, thus giving an important impetus to the already declared policy of the Council to make residence in a Hall the rule and not the exception. In 1911 an Endowment Fund of £200,000 was subscribed by the aforesaid benefactors. Considerable additions to the endowments of the University (especially in connexion with the Library and with the National Institute for Research in Dairying at Shinfield) have been made in iccent years. The University dates from March 17, 1926, when a Royal Charter was granted.

Library, 46,000 vols, including Overstone collection (7500 vols) of books on Polit Econ. (pubd. before 1850), English and French thought during eighteenth century, and topography (especially Northamptonshire); 12,000 pamphlets 170 periodicals are received. Museums: Zool. and Hist. and Archæol Laboratories Bacteriol, Bot, Chem, Geol, Mech, Physics, Psych, Zool Fine Art Studios School of Music Agricultural Machinery Hall Two farms (350 and 141 acres) and Horticultural Station.

FACULIIES (1) Letters, (2) Science, (3) Agric and Horticulture (associated with which are the National Inst. for Research in Dairying and British Dairy Inst).

DEANS. (1) Prof de Burgh (Philos.); (2) Prof Bassett (Chem.); (3) Prof. Neville (Ag Chem ).

DEPARTMENTS: Fine Arts, Music, Domestic subjects

Admission. Candidates for Degree courses must matriculate before admission (see Appendix XX). Entrance examn for Diploma courses in Commerce, Agric, Dairying, Hoitic, Domestic subjects.

Degrees B.A, M.A., D.Litt.; B.Sc, MSc, DSc; BSc. (Agric.), BSc (Dairying), B.Sc (Hortic); Ph.D. The M.Sc and D.Sc are obtainable in the Faculty of Agriculture and Horticulture as well as in the Faculty of Science. The Senate may decline to admit to a degree course a person whose place of residence during term is at too great a distance from Reading, and the degree of Bachelor may not be granted to a candidate whose record as a student of the University is not deemed satisfactory.

The Charter provides that degrees representing proficiency in technical subjects shall not be conferred without proper security for testing the scientific or general knowledge underlying technical attainments.

An oral examination forms part of the Final examn. for a B.A. degree with honours, except in Mathematics, and, at the discretion of the Examiners, may form part of the Intermediate or of the Final Examn. for a Pass B A. degree, or of the Intermediate or Final Examn for the B Sc. In the Final Examn for the B.Sc. candidates are examined upon either a General Course of study (3 subjects) or a special course; honours can be obtained in either case. The Final Examn. (Special) is ordinarily taken after passing the Final Examn. (General). The course for the degree with honours extends over 4 years in Agriculture and in certain cases in Arts and in Science.

UNIVERSITY DIPLOMA COURSES are as follows: 2 yrs.—Agric., Commerce, Dairying, Domestic subjects, Hortic.; 3 yrs.—Fine Art, Music, Distinction in Agric., Dairying, Domestic subjects, or Hortic. Univ. Diploma Course (postgraduation) in Education (1 yr.).

OTHER COURSES for Univ. Certifs in Agric, Dairying (6 mos), Commerce, Domestic subjects, Geography, Horticulture, Secretarial subjects (1 yr.), Metal Work, Wood Carving, Embroidery, Leather Work, Weaving, Writing and Illuminating (2 yrs.), Dairy Factory Management, Poultry-keeping (10 weeks); for the Pre-Medical examn. of the R.C.P. and R.C.S. (1 yr.), British Dairy Farmers' Assocn. examns. (6 mos), L.R.A.M., A.R.C.M., etc.; Special course in Illustration.

TUTORIAL SUPERVISION. Every student following one of the organized day courses or a specially arranged day course involving frequent attendance at the Univ. for at least 2 terms is placed under the supervision of a tutor

A RESEARCH BOARD promotes research and original work in the Univ (apart from the National Institute for Research in Dairying). It administers funds entrusted to it for the purpose, and issues an annual record and report.

TERMS. 3, each of 10 weeks, the first beginning on the first Friday after Oct. 3. Vacations of 4 weeks at Christmas and 5 weeks at Easter.

RESIDENCE. All students following full courses of day study, unless residing with parents or guardians, are ordinarily required to reside in a University Hall of Residence. There are two Halls (Wantage and St. Patrick's) for men, and four (St Andrew's, Wessex, St George's, and Ashdown) for women students. Full-time day students living in recognized houses, or at home in or near Reading, are associated in St David's Hall, a non-residential club.

Scholarships open to Graduates. Offered annually by the Univ —£100, "Ernest Ridley"—£40 plus tuition fees, for one year, renewable for a second year.

FEES. For Tuition: Ph.D course—£5 or £7 p a.; M A course—£5 p.a., M Sc course—£7 p a , Bachelor's Degree course—Arts, £30 p a., Sc. or Agric or Darying or Hortic ,£35 p a ; Diploma course—Commerce,£25 p a , Agric. or Hortic or Domestic subjects,£30 p a , Darying,£35 for 1st,£41 for 2nd year, Fine Arts,£18; Certif course—£18 to £30 Tuition fees are in most cases reduced by 25 per cent. to students from neighbouring counties, under certain conditions

Expenses Total average necessary yearly expenses (excluding travelling, clothing, and personal laundry) about £120 p.a., namely: (1) Registration, matriculation, cap and gown, tuition, examination, and graduation, average £38 p a for a degree student, for diploma or certificate student somewhat less (11.) Maintenance, including board and lodging in Halls or lodgings and sanatorium fee, maximum for 30 weeks about £77 for a man and £69 for a woman student. (11.) Personal, including subscription to Union (3 gs. p.a), and cost of books and stationery, widely variable, say £6 p a.

Courses of lectures open to the public are ordinarily charged for at 15s. per term (30s per session) for each subject (one hour per week).

STUDENT ORGANIZATIONS: Students' Union and Representative Council. An Old Students' Association meets annually at the Univ. at Whitsuntide.

UNIVERSITY EXTENSION, ETC. Agriculturists are helped by correspondence, visits, local lectures, examination of diseased plants, etc. Evening classes are

held in Machine and Building Constn., Builders' Quantities, and most of the subjects in which Day courses are provided. Tutorial classes are held in connexion with the WEA

Publications. Calendar; General Prospectus (including illustrations and plans), Departmental Prospectuses (Degree courses, Training of Teachers, Commerce and Secretarial, Agriculture, etc., Fine Arts and Handicrafts, Music, Domestic subjects); Scholarships and Exhibitions, Guide to Evening Classes, 2d., The New University of Reading. some Ideas for which it Stands, by Principal W. M. Childs, 1926.

## THE YEAR 1927-28

Benefactions. A piece of land on the north bank of the Thames as a site for a University Boat-house from Mr. Eustace Palmer, fioo to the Prince's Meadow Appeal Fund from Mr. S R. Whitley; books from Sir Charles Firth; fioo from Mr R. H. Mardon for the Univ Library, and fi50 for Univ. purposes from the newly-established association known as the Friends of the University of Reading

New Buildings An enlargement of St Patrick's Hall (one of the Halls of Residence for men students) has been completed, the cost of the work being partly met by a special grant of £8500 from the Treasury New quarters for resident members of the Academic Staff and rooms for thirty-two additional students have been provided. The dining-hall has been enlarged New common-rooms for members of the Staff and for students and a library have been built.

The University Council have appointed a Committee to deal with schemes for new and enlarged buildings on the main University site. Plans and estimates are being prepared, and an appeal for the necessary funds will shortly be issued.

OTHER DEVELOPMENTS The large east room on the ground floor of the University Library has been equipped for books and readers. The School of Music has been reorganized, and a Lecturer in charge of the School has been appointed.

STUDENTS. Full-time total, 610, including 14 graduates Part-time. total, 942, including 6 graduates.

DEGREES. B A., 49, B.Sc., 21; B.Sc. (Agric), 2; B.Sc. (Hortic.), 4; M.A., 1, Ph D., 1

Barnsley Technical School, Scunthorpe Central School and Evening Technical School, Lincoln Municipal Technical School, and Chesterfield Technical College Students proceeding from "Affiliated Institutions" to the Univ to take courses for an Honours degree or Associateship in Engineering or Metallurgy may receive certain concessions.

#### GENERAL INFORMATION

University College, Sheffield, incorporated by Royal Charter in 1897, was in 1905 merged in the University of Sheffield constituted by Royal Charter in that year. The city being an important centre of steel, electro-plate, glass, and other manufacturing industries, and in the heart of an extensive coalmining area, students of Engineering, Metallurgy, Mining, Fuel Technology, and Glass Technology have exceptional opportunities

LIBRARY, 87,000 vols. and pamphlets, including collections of books on alchemy and early history of chemistry (J. Spear Parker's), facsimiles of Greek papyri (J. H. Moulton's), literature relating to Polychæte worms (A. T. Watson's), and seventeenth-century tracts, plays, etc. (Sir Chas. Firth's); 352 current periodicals. Also Special Applied Science and Glass Technology departmental collections.

RESEARCH DEPARTMENT LABORATORIES include Engineering (mech., elec., civ., and mining), with power-plant, air-compressors, hydraulic appliances,

testing machines, special apparatus for high temperature and repeated stress testing, the testing of cement and concrete and for measuring earth pressures, high-speed steel tool-testing lathe, etc., the machine-tool branch being a special feature; Jonas laboratory specially equipped for researches in connexion with materials; Edgar Allen laboratory specially equipped for electrical and magnetic research work, laboratories equipped with alternating current and direct current motors and generators, apparatus for magnetic, photometric, and meter testing; high-frequency oscillographs; wireless laboratory; Electrotech. (lighting, traction, power transmission, mining, electro-chem.), all provided with continuous and alternating currents, provision being made for 12 different combinations for parallel-running, Flame-proof testing laboratory in Mining Department for testing electrical apparatus, Metallurgical, with plant for experimental melting of steel, including 2-ton Siemens open hearth furnace; \frac{1}{4}-ton electric arc furnace, cupola, Kjellin induction furnace, and Ajax-Northrup high-frequency induction furnace, crucible steel-melting house, and equipment for thermal, micrographic, X-ray, and other physical investigations: specially equipped laboratory for electro-deposition of metals, Non-Ferrous, equipped for the lighter Sheffield trades, Glass Technology, large-scale furnaces and equipment for melting and working glass and laboratories specially fitted up for systematic research on it, Fuel Technology, including an experimental gas-producer, run in connexion with the steel-melting furnace of the metallurgical department, coke-testing apparatus, and specially equipped laboratories for research on coal, coke, and gaseous explosions.

Observatory with  $6\frac{1}{4}''$  equatorial telescope. Hospitals available for clinics include 2 general (820 beds), 3 special (917), and Mental Hospital (1860 beds)

FACULTIES. (1) Arts, (2) Pure Science, (3) Medicine (including the Dental Department), (4) Law, (5) Engineering (Depts. of Mech., Elec, Civ., and Mining E., Fuel Tech., Glass Tech.), and (6) Metallurgy (Ferrous and Non-Ferrous. Deans: (1) Prof Black (Modern History), (2) Prof Wynne (Chemistry), (3) Prof. Douglas (Pathology), (4) Prof Trotter (Law), (5) Prof F C Lea (Mech. Engineering), (6) Prof. Desch (Metallurgy). There is a University Training College Department for Teachers for elementary, secondary, and continuation schools. Department of Glass Technology. The Department is unique in being the only specialized department devoted to glass in any Univ. in the Empire or U.S.A. Opportunities of research into the theory of the vitreous state and into problems of glass technology are well provided for in a series of special laboratories and in a large glass-melting department capable of producing experimental glasses in quantities from a few grams to 120 lb. Faculty of Metallurgy: The courses in Metallurgy include, in addition to the ordinary subjects of a metallurgical training, special instruction in the magnetic properties of steel. Post-graduate courses are arranged for graduates in Pure Science or in Metallurgy.

# MATRICULATION. See Appendix XX.

Degree Courses 3 yrs —B A (with Honours in Archit —5 yrs, including 2 in an Architect's office), B Sc, LL.B, B Met. (3 yrs.' evening courses may be taken by students of 20 yrs. of age in lieu of the 2nd and 3rd yrs.' day courses), B.Eng. ("Sandwich" course 4 yrs.), B Sc.Tech. ("Sandwich" course 4 yrs.); B.Eng. Honours and B Sc.Tech Honours, 3 yrs. after passing Intermed Examn.; 5 yrs. (including 3 in the Univ.)—M.B., Ch.B.; 5½ years—B D.S. Graduates of a Univ. of the U.K. who wish to qualify for B.A. or B.Sc. with Honours, or LL.B., need, under certain conditions, only attend courses for 2 yrs., if they have pursued a course for 2 yrs. at some approved institution.

Graduates of a Univ. of the British Empire who wish to qualify for B.Met., B Eng., or B.Sc. Tech with Honours need, under certain conditions, only attend courses for 2 years (for B.Eng., B.Sc. Tech. or B.Met. pass degree, one year) if they have pursued a course for 2 years at some approved institution.

Attendance on approved courses at a Univ. or Coll. recognized for the purpose may be accepted as equivalent to such courses in the Univ. The Univs. of Paris, Caen, Besançon, Grenoble, Leipsic, Freiburg, Gottingen, Tubingen, and Giessen have been recognized in the Faculty of Arts, and the Univ contributes towards expenses of undergraduates spending a term there.

A Secondary Schools Council, including, in addition to members of the Univ. staff, representatives of local education authorities and school staffs, keeps the Univ. in touch with secondary educing

HIGHER DEGREES. Obtainable by Bachelors of 1 yr's standing—M.A., M Sc., LL.M., M Eng., M Sc Tech, M.Met., M.D., Ch.M., M.D.S.; 5 yrs.—Litt.D, D.Sc., LL.D., D Eng., D Sc.Tech, D.Met.; open to graduates in Arts of any Univ. of the U K after 2 yrs., to graduates of Faculties other than Arts after 3 yrs., of advanced study or research in Sheffield—M.A.; open to graduates in Science of any Univ. of the U.K. after 2 yrs. of advanced study or research in Sheffield—M.Sc.; Ph D, v p. 18.

DIPLOMAS. Archit., 5 yrs. (including time spent in an Architect's office); Modern Lang. Teaching (graduates in Arts or others of similar attainments in the Lang.), I yr. course, Educn. (after graduation), I yr. (special facilities for Pedagogical research); Domestic Science, 2 yrs., L.D.S., 4 yrs.; Glass Technology, 3 yrs. (for those with 2 yrs' practical experience, 2 yrs.); Associateship in Engin., 3 yrs. (Works Pupils and Evening students, 4 yrs.), Associateship in Iron and Steel or Non-Ferrous Metallurgy, 3 yrs (evening students, 4 yrs.), Mining, 3 yrs' full-time course or 4 yrs.' "Sandwich" course (1st year, full-time at the University, October to June inclusive; other years 6 mos in Colliery and 6 in Univ., exemption from first yr. obtainable through examn. The Dipl. enables a student to sit for the examn. for a colliery manager's certif. after 5 yrs' total training, including the time spent in the Univ.), Fuel, 4 yrs. (for those with 1 yr.'s experience in a Works Fuel Dept., 3 yrs); exemption from first yr. in special cases.

Certificates in Architecture (3 yrs.); Works Pupils in Engineering (3 yrs.); Electricity applied to Mining (2 yrs. Saturday afternoons); Glass Technology (3 yrs.).

FEES. Matrice £2. Registn. 21S. or 25S. Tuition for degree courses (approximate). B A, £23. 15S. p.a; B Sc., £30 p.a., LL.B., about 11 gs. p.a., B.Eng, B.Met, B.Sc Tech. (Glass or Fuel), 37½ gs. p.a.; "Sandwich" course for B.Eng, 4 yrs., £29. 10S. p.a.; M.B., Ch.B., £190 for 5 yrs.' course, including hospl fees, B D S, £225 for 5 yrs.' course including Mech. Dent Examns., Interm, £2, Fmal, Pass Degree, £2; Honours, £3 (M.B., Ch.B. or B D.S examns, £6 each of 3). Degree Fee, £5.

Scholarships, etc., for Graduates. Sorby Research Fellowship (administered by Royal Society) for research in Sheffield Labs., about £500 p.a. for 5 yrs., renewable; Alfred Tongue Scholp, £100 for 1 yr. for research in Engin., Met., or Chem., George Senior Fellowships, £125 p a., 2 offered annually for research, one in Engin. and one in Met.; 4 Styring Research Scholps., £100 p.a. for research in ferrous and non-ferrous metals; Cutlers' Company Scholp., £100 p.a. for 2 yrs; 2 Glass Research Fellowships, £175 and £200; Mechanics Institute Scholp., £50 p.a. for 1 yr., together with fees for courses taken by the holder, for research in one of the Departments of the Univ.; Frederick Clifford Scholp., £50 p.a. for 2 yrs., for research in one of the Departments of the Univ.;

Ezra Hounsfield Linley Post-graduate Scholp., £75 to £100 p.a. for 1 yr., for research in Engineering or Metallurgy; Town Trustces Fellowship, £75 p.a. for 1 yr., for research in one of the Departments of the Univ.

Herbert Hughes Travelling Scholarships in Spanish, £25 each, are for one month of Study in Spain during the long vacation.

RESIDENCE, ETC. Stephenson Hall, for men, fees per session, £90. Univ Halls for women, Oakholme, Tapton Cliffe, and Endcliffe House, £55 to £76 per session. A list of supervised Lodgings is maintained; board and lodging cost from 30s. to 50s. per week. Athletics ground, 15½ acres. The Union Rep. Council takes a leading part in the Social life of the Univ. Separate Students' Unions for men and women.

There is an OLD STUDENTS' assocn, which publishes periodically lists giving addresses, occupations, honours, etc.

University Extension work includes Tutorial classes, Free Extension Lectures, Collaboration (for Adult Educn Lectures) with the Sheff. Educn. Committee.

Evening Classes are conducted under the direction of the Senior Lecturer in Mechanical Engineering, in General Science, Engineering, Metallurgy, Mining, Fuel, and Glass Technology, Building and Manual Training, during the 6 months Oct. to April 24 additional lecturers and teachers are employed on this work besides the regular staff. For notes on the extent to which these classes are recognized as qualifying for degrees, etc., v. supra—Degrees, Diplomas.

Evening Classes are also provided in French, Russian, Spanish, Philosophy, Economics, Secretarial Practice, Acctev., Law, Music, and Archit.

Publications. Calendar (Oct), 5s; Floreamus, a Chronicle pubd. at end of each term, annual subs, 2s (the 12 completed vols. give a full history of the Coll and Univ, with portraits, etc); Annual Report in Nov; Faculty and Training College Prospectuses; Scholarships pamphlet.

# THE YEAR 1927-28

Benefactions Miss Lilian Hovey, bequest of £200 for a scholarship for a woman medical student; £100 from Dr. W. S Kay for a medal in Mental Discases; Dr. W. M. Hicks, F.R S, £300 4 per cent Victory Bonds for the purpose of supplementing the endowment of the Basil Hicks Lectureship Fund founded by him.

New Buildings. The Gymnasium was opened on May 16, 1928, and the Pavilion on the University Athletics Ground on May 18, 1928.

Affiliation Chesterfield Technical College has been affiliated to the Univ. to provide facilities whereby students proceeding from that Institution to the Faculty of Engineering or the Faculty of Metallurgy of the Univ may under certain conditions receive concessions in respect of courses successfully completed by them at the College. Accrington Grammar School was approved for the Intermed. Examn in Mathematics, Physics, and Chemistry, at entrance.

RESIGNATIONS G. E. Linfoot; H St. John Harrison; H. N. Fieldhouse, appointed Asst Professor of Hist. at the Univ. of Manitoba; F G. Tryhorn, appointed to the Chair of Chemistry at Univ. Coll., Hull, Dr. S. J. Cowell, appointed to the Chair of Dietetics, Univ of London; Dr. H. H. Emmerson; F. O. Hunt; A. Cousen.

Foreign Study. Scholps, were awarded to 3 students to enable them to spend part of the summer vacation in Spain; leave was granted to students

to attend lectures during the Easter Term at Paris (1), at Caen (4), at Gottingen (2).

Honorary Degrees. D.Sc.—H. H. Dale, C.B.E.; A. J. Hall; Sir Frederick G. Hopkins; Sir Thomas Lewis.

STUDENTS. Full-time: total, 681, including 110 graduates. Part-time: total, 1617, including 20 graduates.

DFGREES. M.A., 39; B.A., 58; M Sc, 20; B.Sc., 46; M.D, 1; M.B., Ch B., 12; M.Eng., 5; B.Eng, 14; M.Met., 1; B.Met., 4; LL.D., 1; LL.M, 1; LL.B, 1, Ph.D., 5.

# UNIVERSITY OF WALES, CARDIFF

VISITOR AND PROTECTOR-H.M. THE KING.

CHANCELLOR-H R H. THE PRINCE OF WALES.

PRO-CHANCELLOR-The Hon W N BRUCE, CB, LL.D

Vice-Chancellor—for bienmium ending Aug 31, 1929, Principal A H. Trow, D Sc., University College of South Wales and Monmouthshire, Cardiff.

#### GENERAL INFORMATION

The Univ. was founded by Charter, 1893. The teaching for initial degrees is undertaken by the constituent and associated Colleges, and matriculation in the Univ. is open only to students of those Colleges: in the case of an associated Theological College, only to students who are graduates of an approved University. The Univ prescribes conditions under which it awards initial degrees to students of the Colleges and conducts the final examns. An Academic Advisory Committee deals with the conditions on which School Leaving certificates are accepted by the Univ. for matriculation, and as relieving a student from repeating in College work done in Secondary Schools, and with other matters lying in the borderland between School and Univ.

As the result of an inquiry held by a Royal Commission in 1916-1918, a Supplemental Charter was granted to the Univ. in 1920, which introduced many important changes, including reconstruction of the Univ. Court, a deliberative and legislative body, with 263 members, of whom a little over a half are representatives of Local Education Authorities; institution of a Univ Council, as the executive and administrative body of the Univ., controlling the finance and distributing all the funds provided for Univ. education; provision of such funds from a penny rate levied throughout Wales and Monmouthshire, supplemented by an equivalent grant from the Treasury; larger freedom for the constituent Colleges (increased to four by the inclusion of Swansea) in the control of the Courses of Study and in the conduct of their own examns, for initial degrees, Univ. Examiners now taking part only at the final stages; development of a National School of Medicine in connexion with Cardiff College; new Boards for special studies, such as the Board of Celtic Studies and the Council of Music; Univ. Press Board; Univ. Extension Board providing an enlarged scheme for extra-mural instruction; Appointments Board.

DEGREES BA., M.A., DLitt, BSc, MSc., DSc.; B.Tech.; BMus., M.Mus., D.Mus.; LL.B., LL.M., LL.D., MB., B.Ch., M.D., MCh.; B.D., D.D.; PhD.

For a first degree 3 yrs. of study are required; in Technology 1 yr. 1s in an approved technological institution. The degree in Med. 1s only open to a graduate in Arts or Science of some British or approved colonial or foreign Univ.; the period of qualification for it is 6 yrs, of which the last 3 may be spent in an approved School of Med in the U.K or in one of the Univs. of Paris, Berlin, Vienna, or the Johns Hopkins Univ. The degree of B.D. (3 yrs.' course) is post-graduate; the scheme of study is pursued in one of the Associated Theol. Colls. (v. supra) or at the School of Theology of the University College of N. Wales, Bangor. The scheme of study for an Honours degree in Arts, Science, or Law ordinarily covers 4 years. The M.A., M.Sc., and LL.M. may be awarded to graduates of other Univs. approved for this purpose who pursue a scheme of research for at least 2 yrs. in one of the constituent Colls. As regards Ph.D., see p. 18.

 ${\it Diplomas}$  in Educn. (post-grad. Diploma), Public Health (D.P.H.); Tuberculous Diseases (T.D.D.)

FEES. Matricn., £2; examns. qualifying for Bachelor degree, from £6: 15s; Master, £8; Ph.D., £12; higher Doctorates, £20.

Scholarships, etc., for Graduates. The Univ. has funds amounting to over £4000 p.a for the encouragement of research. In addition to 5 Fellowships (annual value £200 each) tenable for two years, it awards 12 studentships on the nomination of the Colls. to students who after graduation engage in work preparatory to research for 2 yrs. Grants to assist research into Welsh language, institutions, etc., are made, preferably to members of the Univ., from T. Ellis Memorial Fund (capital £1563). Grants, prizes, or exhibitions to encourage advanced study are made, for research in Law from the Sir Samuel Evans Memorial Fund (capital £1060), for research in tuberculosis from the Cecil Prosser Research Scholarship Fund (capital £2000), and for research in problems connected with inidwifery from the Ewen Maclean Scholarship Fund (capital £3000).

Publications: Calendar (Oct), 4s.; Diary, 2s. Courses in Div. and in Mus., and Matricn and Degree Regns, free Matricn. Examn. Papers, 6d. B D Questions, 6d. Degree Papers, Arts 6s, Science 5s Bulletin of Board of Celtic Studies, 5s. Publins of the Council of Music The best account of the early history of the Univ is in The University of Wales, by W. Cadwaladr Davies and W Lewis Jones (F E Robinson & Co) The introduction to the Report of the Royal Commission on Univ. Education in Wales, 1918, 1s., contains a valuable summary of the history of the University up to 1918.

# THE YEAR 1927-28

Grants and Benefactions Non-recurrent grants of £4250 and £4000 were made by H M Treasury to the Univ. Coll of Wales, Aberystwyth, and to the Univ. Coll of Swansea respectively £500 from Prof. Beatrice Edgell to provide a Brough Prize in Logic or Philosophy

New Developments. A scheme of interchange of teachers of the constituent Colleges was instituted. Trefecca College, Talgarth, Brecknockshire, was iccognized as an Adult School. A Millenary celebration of Hywel Dda was held at Caimarthen, and a commemoration fund was started to aid studies in Welsh law and history. New regulations were adopted for the Tuberculous Diseases Diploma and for the Diploma in Education (to take the place of the Certificate in Education).

RESIGNATION. Plof A J S Pippard, Prof of Engin. at the Univ. Coll. of South Wales and Monmouthshire, on appt. to the chair of Mech. Engin at Bristol

Honorary Degrees. D.D.—The Rev. E. Morgan LL.D.—H. G. Lewis, T. Jones, Sir Harry R. Reichel, H. Brackenbury, Sir Thomas Lewis, Sir Robert Philip, W. W. Chipman, Sir George Syme, F. H. Martin. Litt D.—Prof. E. Jenks, Provost E. J. Gwynn. M.A.—D. T. Davies, H. H. Hughes.

STUDENTS. Full-time: total, 2721; graduates, 99; preparing for first degree, 2035. Other full-time students, 587, part-time, 210.

DEGREES. B.A., 301; B Sc., 169, B.Mus., 2; LL B., 4; M B., B.Ch., 7; B.D., 2; M.A., 26; M.Sc., 26; Ph D., 12; D.Sc., 4.

#### University Extension

Morgan, Herbert, M.A. Ox., B.A. Director of Extra-mural Studies. 16 Tutors.

#### GENERAL INFORMATION

Founded in 1872, the College was incorporated by Royal Charter in 1889, and is a constituent College of the Univ. of Wales. Its main building and Students' Hostels are on the sea front, facing Cardigan Bay.

LIBRARIES. College, 50,000 vols., including the collection of Sir John Rhys. Access to the National Library of Wales, founded in 1907, 420,000 vols., rich in Welsh and other Celtic books and MSS Museums Archæol., Bot., Chem., Ethnog., Geog., Geol., Zool., Gallery of Crafts. The Chemistry Laboratories, erected in 1907, are the most complete in Wales. Agric. Expl. and Plant-breeding Stations and Training Farm.

FACULTIES. Arts, Science, Law, Music. *Departments*: Agriculture, Teaching (Elem. and Secondary), Art and Handicraft, Extra-mural, Phonetics. A special feature is the ample provision for instruction and research in Agriculture. A Chair of International Politics was founded in 1919.

DEGREE courses in Arts, Science, Law, Music.

College Diploma courses: Assoc in Agric., 3 yrs.; Dairying, 2 yrs.; Music, 2 yrs.; Geography, 1 yr.; Animal and Human Biology, 1 yr.; Art, 1 yr.; Handicraft, 1 yr.; Social Hygiene, 1 yr.

Courses in Science meet the requirements of the first year of Medical study and the examps, of the Pharmaceutical Society

Post-graduation courses (1 yr.) for Teachers (Elem. and Secondary), and in Agric.

RESEARCH work is systematically carried on in Agric Botany and Agric.

Chem. (whole-time Research Botanist, Chemist, Entomologist, Mycologist, and Dairy Bacteriologist), Chem., Geol., Geog., Physics, Zool., English, Welsh, Philos., Maths., Economics, History.

FEES for tuition in Arts, £15 per session; Science, £20; Registration, £1; Research students, 6 to 10 gs.

SCHOLARSHIPS FOR GRADUATES 4 for Research, value £27 to £150, open to Colonial and Foreign students as well as to students of the College. See also under Univ. Travelling Scholarships for visiting Continental institutions, average, £20 to £30; total, £500. Research Studentship, £200 in Dept of International Politics. Sir John Williams Research Studentship for Welsh Studies.

RESIDENCE. Board and lodging at Women Hostels: 50 to 62 gs. per session. Accommodation in Hostels for 300 women.

MEDICAL ATTENTION is provided for by a capitation fee, about 5s., payable by all men students each session.

UNIVERSITY EXTENSION. Local lectures and short courses in Agric. subjects; Travelling Dairy School; Tutorial Classes in Econ, Lit., Hist, Welsh Psychology, etc.; Summer School annually in Aug.

Affiliation. The Coll is recognized by Ox. and Camb , and by Edin. and N.U.I., by the R C P. and S Eng and the R.C S.I., the F.P. & S. Glas., the R.C.P.I. and the R C S I , the Inst. Chem , and the Surveyors' Instn.

Publications: Reports (Jan), is. 6d.; Aberystwyth Studies; Students' Magazine, The Dragon; Inaugural Lectures.

# THE YEAR 1927-28

Benefactions. The late Sir John Williams, Bt., Welsh Studies, £45,287 15:1, Sir Laurence Philipps, Bt, Plant Breeding Station, £1000; Messis. Nitram, Ltd, Plant Breeding Station, £300; Anonymous, Plant Breeding Station, £250, Major J. C. Harford, Plant Breeding Station, £200; Hon. Samuel Vestey, Zoology Department, £150, E. and J Davies Bryan, Music Scholarship, £50, other gifts, £110.

Scries of Public Lectures were delivered by Prof F Soddy; Harley Granville Barker, Prof. O. T. Jones, F.R.S.; Prof. C. K. Webster, and others,

About 50 awards amounting to upwards of £500 were made out of the Travelling Scholarship Fund to students and Meinbers of Staff to enable them to visit Continental countries during the Easter and Summer Vacations.

RESIGNATIONS. S. G. Jones, D.Sc.; C. W. Davies, M Sc.; Miss A Woodward, M.A.; Miss J. Evans, B.A., O. G. Sutton, B.Sc.; J. Cherry, B.A.; N. Tunstall, B Sc.; R. Herzog; Miss M. Ellis.

STUDENTS. Full-time, 693; graduates, 26; preparing for first degree, 515; other full-time, 152. Part-time and occasional, 14. Pre-matriculation, 43. Extra-mural, 532.

Degrees obtained. B A., 79; B Sc., 43; LL.B., 5, M A., 7, M.Sc, 8; Ph D, 7.

# Davies, E. T., FRCO. Director. GENERAL INFORMATION

This College, constituted by Royal Charter in 1885, was made a constituent College of the University in 1893. Until 1911 the Arts and the Science Departments were all housed in an old roomy hotel, but in 1911 the Arts Departments and the Library were moved to new buildings on a site in the heart of the city of over ten acres given by the City Corporation. The Science Departments remained in the old buildings until 1926, when they were moved to the new Memorial Buildings.

LIBRARIES. General, 80,000 vols. (Theology a strong feature). Welsh, 15,000, including the largest and best-equipped collection of Welsh periodicals in existence. Museums include special collections of fish, shell-fish, and fishing gear, Welsh antiquities, and Roman finds from Segontium (Roman fort at Carnarvon). Farm, 675 acres, chiefly sheep pasturage. Dairy.

Special facilities are offered for research in Welsh Language and Literature, Political, Social, Economic, and Religious History of Wales, and allied subjects.

Courses. B A degree courses include among others a "special scheme of study based on the idea of citizenship." There are courses in Theology for B D degree, and full courses for the B.Sc. in Agric. and Rural Economy, Forestry, Applied Electricity, and Hydro-Electrics, as well as in Pure Sc College Diploma courses in Agric and in Estate Management (3 yrs), and in Forestry and Elec. Engineering (2 years). The Agric. course is recognized by the Surveyors' Instin as qualifying for Students' Proficiency examn. Courses for College Certificates (2) in Music Other courses 'First year of Med. study; I yr. post-graduate course for Teachers (Elem. and Secondary); for Kindergarten Certif —Elem. I yr., Higher 2 yrs and I term.

FEES. Registration, I g per session. Tuition, per session: Arts, £15; Science, £20; Medicine, 1st year (including lab.), £22; Post-graduate courses, non-lab., 6 gs.; with lab., 10 gs.; Agiic, etc., diploma course, winter session, £15:15s. (2 terms); Farm Practical Instruction, £5 (or 2 gs. a term). College societies (compulsory), £1.8s

Scholarships, etc., for Graduates. Several College awards ranging in value from  $f_{22}$  to  $f_{100}$ , open to students of the College. Loan fund ( $f_{150}$ ) for helping poor students to complete courses; also University Studentships of  $f_{100}$  and Fellowships of  $f_{250}$ . See under Univ.

RESIDENCE. Hostels for 35 men (£47 p a.) and 180 women (£49-£61). Total cost of living in lodgings and tuition in Bangor, from £70 to £80 per session.

University Extension, etc. Local lectures in Literature, Econ, and Agric; small lending libraries, Tutorial and Preparatory Classes in six counties. The Advisers in Agriculture conduct experiments and give expert advice to farmers and others.

Publications. Calendur (Sept.), 2s. 6d; Students' Handbook, is., College Magazine, one issue per term, is; Prospectus free.

# THE YEAR 1927-28

BENEFACTIONS. Several valuable gifts to the Library, including many MSS. and books from Sir Harry R. Reichel and the late Dr. Owen Pritchard. Donations to meet deficit on the Memorial Buildings (new Science laboratories) reached a total of £11,709.

New Buildings A new Gymnasium has been erected at a cost of £1000, mainly for the use of students in the Training Department and the O.T.C. The women's hostels have been augmented by the completion of the block known as Caederwen, which will accommodate 40 women.

RESIGNATION. H. J. Curnow, Junior Asst. in Mathematics.

STUDENTS. Full-time: total, 555, including 82 graduates. Part-time: total, 32, including 2 graduates.

DEGREES. B.A., 68; M.A., 3; B.Sc., 35, M.Sc., 5; Ph.D., 2; D.Sc., 1.

UNIVERSITY EXTENSION. Tutorial Classes, 20, with 395 students, chiefly in Economics, Welsh literature, and industrial history, Extension courses, 3, with 82 students; preparatory classes, 11, with 226 students (Economics and Welsh). Many single lectures were given by members of the staff. The Ballard Mathews lectures were delivered by Dr. J W. Mackail. The College and its hostels were used for summer schools and conferences of the W.E.A. and Trade Union Council, Welsh Language Society, and the vacation school in Theology.

#### GENERAL INFORMATION

Opened in 1883 and incorporated by Royal Charter in 1884, this is now one of the constituent Colleges of the Univ. The Medical School was opened in 1894, the Engineering School in 1896. New College Buildings, containing the Arts and Administrative Blocks and the Drapers' Company's Library, were opened in Cathays Park (wherein the Univ Offices are also located) in 1909, the Viriamu Jones Memorial Physical Research Laboratory in 1912 Physiological Dept. Buildings were completed and occupied in 1919, and formally opened in June 1921 by the Prince of Wales, who at the same time laid the foundation-stone of the buildings of the Dept. of Public Health and School of Preventive Medicine The buildings of the Dept of Public Health and School of Preventive Medicine were completed and occupied in January 1927. In Oct. 1921 the development of the Medical School into the "Welsh National School of Medicine" enabled provision to be made for complete courses for a Degree or other qualification to practise Medicine.

LIBRARY Drapers' Company's, 65,000 vols Museums: Anat., Mat. Med., Path., Zool. The National Museum of Wales (Art, Archæol., Zool., Geol., Bot.) is located in an adjoining building LABORATORIES Physical Research, with liquid-air plant, etc.; Engineering (including 100-ton testing machine); and usual Science and Medical teaching and Research labs. The Cardiff Royal Infirmary (between 400 and 500 beds), in which the final studies of the Welsh National School of Medicine take place, is within five minutes' walk of the College Clinical facilities are available also in other local hospitals.

FACULTIES Arts, Science, Medicine (Welsh National School of Medicine)

Departments Music, Applied Science and Technology, Teaching (Elem. and Secondary); Advisory and Research Dept. in Agric.

College Diplomas Engineering, Metalliferous Mining, Metallurgy; Welsh Lang and Lit; Economics and allied subjects; Music, Social Study and Training. In the Applied Science subjects the qualifying scheme of study covers 3 years, in the other subjects, 2 yrs. A Diploma in Biology is awarded after a one-year's course. A Joint Diploma in Coal Mining is granted by the Coll. and the S.W. and Monmouthshire School of Mines, 4 yrs.' residence being required. After a 4 yrs.' course students who desire to specialize in certain subjects can take a post-diploma course. A Joint Diploma in Mech. Engin, Marine Engin., or Industr. Chem. is granted by this Coll and the Cardiff Tech. Coll. after a 3 yrs.' course.

MEDICAL DIPLOMAS Post-graduation courses are provided leading to the D.P.H (1 year) and T.D.D (Tuberculous Diseases) (3 to 6 months). Short courses are provided in Sanitary Science (leading to a Testamur given jointly by the Colleges and the Cardiff Technical College) (1 year), and in Midwifery for Midwives

Scholarships (Prospectus obtainable from the Registrar). One of £60 is offered for research by a woman in any faculty, one of £50 (which may be increased by a bonus) for Science research. See also under Univ.

FEES. Annual Composition for tuition—Arts, £15; Science, £20; Music, £15; Applied Science, £20 (Non-associated Counties, £30); Medical, £25 to £35; Hospital practice, Perpetual Hospital ticket, £12.12s.; Teacher Training, £15 to £20; Research, 6 to 10 gs.; Registration, 1 g. p.a.

RESIDENCE. 2 Hostels for women. Sessional Fees, £65 to £75. Board and lodging in the City can be obtained at about £2 per week.

Physical Welfare of Students. An Asst. Lectr. in Physical Training has been appointed, who also acts as College Adviser in Physical Training and Games.

Publications. Calendar (Feb), 2s.; Students' Handbook; Cap and Gown. Information regarding Courses and Careers open to Students of Science.

# THE YEAR 1927-28

Benefactions. £2845 for Appeal Fund, which has now reached £132,878. £510 for Scholarship and Prizes, £90 for General Purposes.

New Buildings. Physics and Chemistry Buildings nearly completed. South façade of College Buildings to be completed and used temporarily for Advisory and Research Department in Agriculture. New Buildings for the Medical Unit at the Cardiff Royal Infirmary completed and occupied.

RESIGNATIONS. Prof. A. J. Sutton Pippard, appointed Prof of Civil Engineering at the University of Bristol; R. T. Evans; James Buchanan, appointed Director of Physical Training for the Province of Bengal; Miss E. G. Flight; J. F. Bakei, M.A., on appointment in the Department of Scientific and Industrial Research; Dr. W. B. Crow, appointed Head of the Department of Biology in the Huddersfield Technical College, Dr. Herbert T. Evans.

DEATH. Dr. A M. Jones.

STUDENTS. Full-time: total, 1058, including 178 graduates. Part-time: total, 121, including 18 graduates

Degrees obtained. B A, 115; B.Sc., 73; M.A., 13; B.D., 1; M.Sc., 4; Ph.D., 2, M.B, B.Ch., 10; Mus.Bac., 2.

Incorporated by Royal Charter, dated Jan 21, 1920, the College was made a constituent College of the Univ. of Wales under the terms of a Supplemental Charter granted to the Univ. on Aug. 13, 1920. The administrative offices, assembly hall, common rooms, and refectory, in addition to some of the Science departments, are accommodated in a mansion in Singleton Park, presented, together with 19 acres of land surrounding it and 15 acres for playing-fields, by the Corporation of Swansea, which also gave £50,000 towards the cost of Science buildings. Extensive laboratories have been erected in the Park,

on a site adjacent to the main College building, for the departments of Metallurgy, Engineering, Chemistry, and Physics, and a building has been erected in the Park to accommodate the Arts Departments and Library.

Situated in the heart of a district possessing a long and interesting metallurgical history and presenting an unrivalled variety of present-day metallurgical practice, the College offers exceptional advantages for preparation for professional careers in the metallurgical industry. The manufacturers of the district, who contribute largely to the support of the College, give the staff and students ample opportunities of keeping in close practical touch with manufacturing processes in the works. To ensure the closest possible cooperation with the local industries, Advisory Committees in Metallurgy and Engineering have been set up. All of the College laboratories (Physics, Chem., Geol., Biol., Metall., Engin.) are new and well-equipped. They include exceptionally fine experimental plant for instruction and research in combustion engineering.

FACULTIES. Science and Arts. Departments: Metallurgy and Engineering, and Training of Teachers (men and women) for Elem and Sec. Schools.

Courses for Degrees, etc. Courses (3 years) for the degrees of the Univ. in Pure and Applied Science and Arts, also for the College diplomas in Metallurgy, in Engineering, and in Biology, and for the College Certificate in Geography, and complete Prelim. Science Course for medical students and classes in Law for articled clerks. Engineering students are expected, and, where necessary, helped, to obtain practical experience in works during the greater part of the summer vacation. Afternoon visits to works are arranged frequently throughout the session. Occasional lectures are given by experts on the business, administration and managerial side of industrial undertakings.

FEES. For tuition in Pure or Applied Science, £20; Arts, £15; Registration, £1:1s. p.a; for Research, from 6 to 10 gs.

Residence. Hostel for women students. A list of Registered Lodgings is kept by the Registrar.

# THE YEAR 1927-28

BENEFACTIONS. Donations from £50 to £500 for research, etc. Annual Subscriptions, £5125.8:6.

New Posts. Assistant Professor of Metallurgy. Lectureships in French and Welsh. Assistant Lectureships in Welsh, Philosophy, and Education.

RESIGNATIONS. G. M. A. Grube (Classics), on appointment as Professor of Classics, Trimity College, Toronto, Canada; T. H. Rowlands (Education).

University Extension Work. 23 Univ. Tutorial Classes and 8 Prep. Classes, with 689 students. Four courses of 3 lectures each and many single lectures were given by members of the College staff in Swansea and elsewhere. The Coal Owners' Univ. Trust Fund provided for 12 short courses of lectures and a Tutorial Class.

Students. Full-time: total, 415, including 76 graduates. Part-time: total, 45, including 6 graduates.

DEGREES OBTAINED. Ph.D., I M.Sc., 9; B.Sc., 32; B.A., 51.

#### University Extension

Chairman of Committee for External Studies and Joint Hon. Sec. for Tutorial Classes. E. J. Patterson, M.A.

#### GENERAL INFORMATION

Founded 1865. Organized as University College, 1901. Incorporated 1922.

Classes in Arts, Science, Econ, Com., Law, Music, Agr., Hort, Pharm, prepare for London Univ. degrees—Courses are provided for Elementary and Secondary teachers, for entrance into Civil Service, and for the first year of Medical study. The Training Department is recognized as a Training College for Elem. and Secondary teachers. The Royal Albert Memorial Library (60,000 vols) and Museum are closely associated with the College, and the important collections of books and scientific material are freely available for advanced students of the College. A Dept. of Music was opened in Oct. 1924. A Dept. of Commerce was inaugurated at the Plymouth Technical School in Oct. 1926.

Affiliation. The College is affiliated to the Univs. of Ox. and Camb. It is recognized by the Camb. Special Board for Med. and the Conjoint Med. Board as a place of instruction in Chem., Physics, and Biol., and by the Institute of Chemistry for instruction in preparation for the Associateship Examn.

Tutorial Boards in Arts and Science and a Committee for Economics supervise students.

FEES. Sessional: Intermediate course, 16 to 20 gs.; final course in Arts,

21 gs.; Science, £25; Law, 8 to 13 gs; Music (term), 6 gs.; for foreign students (term), 6 gs.; Research, 8 to 10 gs.; Teachers' Training Dept. (Elem. and Sec.), £10; Registration, £1.

RESIDENTIAL FACILITIES. For women—(a) Hope Hall (50); (b) Bradninch Hall (60), sessional fee, £55-£60; (c) Sandford Hall (30). For men—(a) Reed Hall (70), sessional fee, £66-£70; (b) Grendon House (40), £60. All students not living at home must reside in one of the Halls of Residence.

SCHOLARSHIPS for graduates: one or two in Science awarded annually from Andrew Simons Scholarship Fund.

Publications. Prospectus, issued (free) in July; the Ram, College Magazine (terminally); the College Field Club Proceedings; Guild of Undergraduates' Handbook.

#### THE YEAR 1927-28

Benefactions. The Appeal Fund originated in 1925 now amounts approx. to £190,000. Recent benefactions include: £25,000 by Mr. Washington Singer for endowment of Dept. of Chem.; £41,000 by Mr. A. C. Ballard of Plymouth for Schol'ps; £8000 by Mrs. Ida Sebag-Montefiore for a Readership in Geography; £6000 by the Devon Patriotic Assocn. for Schol'ps and Prizes.

Developments An extension to Hope Hall of Residence (Women), providing accommodation for thirty addtl. students at a cost of £9000, opened by H.R.H. the Duchess of York, Nov. 1927 Under a scheme of co-operation with Seale-Hayne Agricultural College to promote agric. teaching and research, a Lectr in Zool. has been appointed for work at both Colleges Plans for the erection of a building on the existing foundations at Streatham to house the Depts. of Chem and Physics and provide an Examn. Hall and Gymnasium have been provisionally approved, and building will commence as early as possible. A special course has been instituted for foreign students studying English during the normal session. A Summer School for Foreign Students was held in Aug. 1928, attended by 99 students, and promises to become an annual feature.

New Departments and Posts. Professorship of Classics; Dept. of Biol. divided between Botany and Zoology; tempy. Head of Dept of Biol apptd. as permt Head of Dept of Botany, with creation of new Lect'ship for Zoology; tempy. Head of Dept. of Econ and Commerce appointed permt Head; Ida Sebag-Montefiore Readership (vacant); Lecturer in Physical Geol, Hon. Lectr. in the Chem of Dyestuffs; Lectr. in Cultural Evolution; Coll. Proxenos.

University Extension. Eight courses of Extension Lectures were given during 1927-28, attended by 377 students. Tutorial Class students, 185.

STUDENTS. Full-time, 359, including II graduates; preparing for first degree, 244; other full-time students, 104. Part-time and occasional, 122.

DEGREES OBTAINED. M.A, 2; B.A., 19; B Sc., 15, B.Sc. (Econ.), 3.

ASSOCIATED COLLEGE: MIDLAND AGRICULTURAL AND DAIRY COLLEGE, Sutton Bonington. Subjects for the Final Examn. for the London B.Sc in Agric. are taken at this College, those for the Intermediate only being taken at Univ. College, Nottingham.

#### GENERAL INFORMATION

The College was opened in 1881 The Faculties of Arts, Economics and Commerce, and Pure Science have now been transferred to the New Buildings at University Park. The Faculty of Applied Science remains at the Shake-speare Street Building The Free Public Library occupies the last wing of the latter building.

Courses · For London degrees in Arts, Econ., Com , Div., Pure Science, Law, Med , Agric., Engin., and Mining; Diploma of the College in Comm., Geog , Adult Education, Engin., Mining, Mine Surveying, Hosiery, Dyeing and Bleaching, Petroleum Technology (each 3 yrs.); Social Study Diploma (1 yr.); Bd. of Educn. Elem. Teachers' Certifs. and Cambridge Secondary Teachers' Diploma; L.D S.; Assoc'ships of the Insts. of Chem. and Physics; Colliery Manager's Certif.; Nat. Diploma of Inst. of Mech. Engineers; Law Society's Examns.; Civil Service Appointments; D.P.H.; Pharmacy Diplomas; L.R.A.M. and L.R.C.M.; Post-grad. and Research courses in Arts and Pure Science. Special English course for Foreigners.

Evening Classes, including some held on Thursday aftn. and Sat. morning and aftn, for London B.Sc., B Sc. Econ, B Sc. Engin and Interm. Arts; St. And. L L.A.; Comml., Dispensing and Pharmacy; Sanitary Science; Engin. and Technology; Mining; Textiles, including Yarn Testing, Hosiery, Dyeing.

The session for Day Classes is Sept.-July; Evening, Sept.-April.

FEES. Tuition composition, per annum: Interm. or Degree courses in Arts, Div, or Econ—24 gs.; in other Faculties, or Diploma courses in Commerce, Engin., Mining, Mine Surveying, or for A.I.C. or A.I.P.—30 gs.; Diploma course in Geography—24 gs.; Social Study Diploma (complete course)—£10; L.D.S.—18 gs.; Colliery Manager's Certif.—12 gs.; D.P.H. (complete course)—30 gs.; Pharmacy (complete course)—£30; Law—12 gs.; English course for Foreigners—£13·10s.; Registration fee, £1 p.a.; Union fee, £1: 5s. p.a.

Evening Classes, £1 per session.

RESEARCH SCHOLARSHIPS in Arts and Science of from £30 to £50 are awarded annually in Dec. Special facilities for research in all subjects.

Residence. Mapperley Hall (men), primarily for students in the Training Department. The Hostel, University Park (women). Registered lodgings, 30s. to 40s Students are, when possible, placed with private families.

UNIVERSITY EXTENSION. Extra-mural adult education is organized as a department of the Faculty of Arts. The Head of the Dept., a whole-time professor, is assisted by 7 staff tutors, 2 organizing lecturers, and many part-time tutors and lecturers

Publications. Calendar (Oct.), is.; Day and Evening Prospectuses, 2d; The Gong, 3 times a year; Diary (Oct.), is.

#### THE YEAR 1927-28

The New Buildings in University Park were opened on July 10 by H.M. the The Great Hall, given by Sir Jesse Boot, was completed for the opening Sir Jesse has also borne the cost of the furnishing and equipment ceremony of the Library. The Nottingham Corporation founded a Chair at a cost of Sir Jesse is giving the equipment of the Science Laboratories at an The new Women's Hostel, University Park, approximate cost of £8000 erected by Lady Boot at approximate cost of £40,000, and furnished by Sir Jesse Boot, will be open for students in the first week of November 1928. Further gifts of books, including the Meteorological Library of the late Lt.-Col. H. Mellish, who was a Vice-President of the College During the summer of 1928 an appeal for an Endowment Fund was made in Nottingham and district. £133,500 has already been subscribed This sum includes £10,000 each from two members of the College Council, Mr. H F. Lancashire (since deceased) and Mr George Spencer. Messrs J B Lewis & Sons, Ltd, frooo to found a schol'p to perpetuate the memory of the late Mr Lancashire

The Delegacy for the Examination of Teachers in Training has been extended by the inclusion of the Hockerill Training College and the Norwich Training College. The Delegacy now consists of University College, Nottingham, Training Department, Derby and Lichfield Diocesan Training College; Lincoln Training College; Hockerill Training College, Bishop's Stortford, and Norwich Training College.

RESIGNATIONS. Miss A. E Chesters, Lecturer in Botany; H T. Gaitskell, Staff Tutor in Economics, appointed Lecturer in Economics, University College, University of London, J A. Buyers, Staff Tutor in Economics, appointed Lecturer in Economics, Glasgow University

STUDENTS. Full-time, 492; graduates, 56; preparing for a first degree, 246, other full-time students, 190. Part-time and occasional, 287. Evening students, 2125; graduates, 28. Extra-mural: preparatory classes, 231; tutorial, 1052; extension, 353; one-year, 572, vacation courses, 80.

#### GENERAL INFORMATION

Founded 1850; opened as the Hartley Institution, 1862. Incorporated as the Hartley University College in accordance with a scheme of the Board of Education, 1902.

The Library, 42,000 vols., includes the Cope collection of Hampshire books,

pamphlets, and broadsheets.

Classes in Arts, Science, Commerce, Engineering (Civ., Mech., and Elec.), Music, and Law prepare for the degrees of the Univ. of London It provides courses for Elementary and Secondary Teachers, for entrance into the Civil Service, the first year of Med Study, Pharmacy, Surveying, etc. It is recognized as a Training College for Elementary and Secondary Teachers Through its Evening Classes (attended by upwards of 400 students) it performs the function of a Technical Institute. A Dept. of Law, instituted in 1923, is recognized as a Law School under the Solrs.' Act. The Associateship (Assoc. U.C.S.) implies, unless honorary, attendance at day or evening classes during at least one full session. Diplomas are awarded in Commerce, Engineering, Engin. Research, Geography, Advanced Geog, Law, and Music. Special Diploma in English for foreign students.

Admission. The minimum age for both Day and Evening students is 16. Each full-time student is placed under the supervision of a member of the Staff, who acts as his Tutor.

FEES. The sessional fee is £25 for Courses in Arts, Commerce, and Music; £32 for Courses in Science and Engineering; and £30 for the Teachers' Diploma Course. Students whose parents are ratepayers within County Borough, Southampton—£18:15s,£22:10s, and £24 respectively.

Scholarships for Graduates. One of £60 for Research. One of instruction fees in Educn. Loan fund for senior students.

RESIDENTIAL FACILITIES. South Stoneham Hall of Residence for men; Warden—Prof. A. A Cock, B.A. Highfield Hall, a Hall of Residence for women; Warden—Miss E. R Aubrey, M.A. South Hill, Hall of Residence for women; Warden—Mrs. Ashdown.

Publications. Calendar (Sept.), free; Halls of Residence Prospectus, free; Students' Magazine, 6d.; Wessex Magazine (June), 2s. 6d. annually.

# THE YEAR 1927-28

Benefactions. Gifts to the Appeal Fund during the session amounted approximately to £5000.

Public Lectures. Ten Public Lectures were delivered at the College during the session by distinguished scholars.

DEPARTMENT OF EXTRA-MURAL STUDIES. A new Department of Extramural Studies has been established and a full-time Secretary (K. M. Lindsay, B.A.) appointed

FOUNDATION LECTURESHIPS. A Scheme of Foundation Lectureships has been initiated during the session, and three courses of lectures arranged for session 1928-29 Lectrs for 1928-29—In Arts. Prof D. Saurat, D. ès L., Paris; in Sc. . A Egerton, M A, F R S., F.I C, and Prof C. K Ingold, D.Sc., F R.S.

"Wessex" Magazine. The first edition of Wessex, an annual College Magazine, was published in June 1928

VISITATION. On June 14 the College was honoured by a visit from its Visitor, HRH the Duke of Connaught, when he officially opened the George Moore Botanical Laboratories

RESIGNATION. V. T Harlow, History Lecti , appointed Keeper of the Rhodes House Library, Oxford

STUDENTS. Full-time. Total, 291, including 23 graduates. Part-time: total, 317, including 3 graduates.

DEGREES OBTAINED. B.A, 25; B.Sc, 20, B.Sc.Econ., 1; B.Sc.Eng, 2; B.Com, 1.

# ST. DAVID'S COLLEGE, LAMPETER

The College was founded in 1827 for the purpose of affording to persons intended for the Ministry of the Church, especially in Wales, a sound and liberal education on the lines of that offered by the older Universities — Incorporated by Royal Charter, it is empowered to confer degrees in Arts and Theology — Residence for nine full terms and the passing of three examns conducted by examiners appointed by Oxford and Cambridge are requisite for BA, ten terms for BD

Visitor—The Bishop of St Davids; Principal, and Prof of Theol. and Greek, Rev Canon Maurice Jones, D.D. Profs—Science, J. C. Evans, M.A., Latin, G. W. Wade, D.D., Engl. and Phil., H. Walker, M.A., LLD, Welsh, Rev. R. H. Richards, M.A.; Hebrew, Rev. A. E. Morris, B.A., 7 Lectrs

Students, 139, including 22 graduates.

DEGREES. BA, 36, BD, 3.

## THE SCOTTISH UNIVERSITIES

St. Andrews Glasgow ABERDEEN EDINBURGH

### REPRESENTATIVES IN PARLIAMENT

Sir George A. Berry, M.B., LL.D.; Dugald M'Coig Cowan, M.A.; John Buchan, LL.D.

In Constitution these 4 Universities have, under the operation of the Univs (Scotland) Acts 1858 and 1889, been to a great extent assimilated By the former Act 2 new bodies, called the Univ. Court and General Council, were instituted, by the latter a Committee of H.M.'s Privy Council was constituted, and an Executive Commission was created with extensive powers, which it continued to exercise till the end of 1897. These Commissioners issued ordinances, inter alia, for degrees, for the instruction and graduation of women, for special study and research, and for the constitution of a Students' Representative Council with power to petition the Senatus Academicus and the Univ. Court

The Chancellor is elected (for life) by the General Council, of which he is President. He is empowered to nominate a Vice-Chancellor, who may confer degrees in his absence, but cannot discharge any other of his duties. The Vice-Chancellorship is at the present time held in each Univ. on the Chancellor's nomination by the Principal, who is appointed by the Crown (except in Edinburgh) and is President of the Senatus Academicus, and, in the absence of the Rector, of the Univ. Court. The Rector is elected every 3 years by the matriculated students. He is the official President of the Univ. Court.

The University Court consists of the Rector, Principal, the Lord Provost of the City (in St And. the Provost of St. Andrews and Lord Provost of Dundee), and Assessors appointed by the Rector, Chancellor. Senatus, General Council, and (except in St Andrews) Town Council. In St Andrews the Principals of St. Mary's Coll. and Univ Coll., Dundee. are also included in it. There is provision for the representation of other affiliated Colleges. The Court, a body corporate with full power to administer the property belonging to the Univ., is a Court of Appeal from the Senatus and has power, since the expiration of the powers of the Commrs. under the Act of 1889, to found new chairs with the approval of the Univs. Committee and make other ordinances with the approval of H.M. in Council. It has, inter alia, powers to appoint professors whose chairs are in the patronage of the Univ, examiners and lecturers, to define the nature and limits of a professor's duties under his commission, and to recognize for graduation purposes the teathing of any College or individual teacher, under the regns. providing for such recognition.

The Senatus Academicus, consisting of the Principal, the whole of the Profs., and certain Readers and Lecturers, is entrusted with the regulation and superintendence of the teaching and discipline of the Univ. The administration of the Libraries and Museums is entrusted to Joint Committees elected two-thirds by the Senatus and one-third by the Court.

The General Council consists of the Chancellor, the members of the Univ. Court, the Profs., such Lecturers and Readers as have held office for a year, and the Graduates of the Univ. It meets twice a year and may hold special meetings at the instance of the Chancellor. Proposed improvements in the arrangements of the Univ. must be submitted to the Council for their consideration

The General Councils of the tour Universities elect three Members of Parliament.

FACULTIES. In all the Univs —Arts, Science, Divinity, Medicine. In all except St Andrews—Law. In Edin. only—Music. In Glas and Aberd —Engineering (Edin and St And. have departments and offer degrees in Engineering, although not a separate Faculty).

TERMS. The academic year is divided into three terms—Oct. to Christmas, Jan to latter part of March, April to end of June or early July.

Admission (Appendix XX) The Regulations for admission to a graduating course in a Univ prescribe a Group Leaving Certificate of the Scottish Education Department showing passes in four subjects, one of these being Mathematics or Dynamics or Physical Science and another a language other than English. Two, at least, must be on the higher standard; and three on the higher standard will be required unless one of the passes is in Mathematics or Latin on the higher standard, or unless both Mathematics and Latin have been passed (either higher or lower standard). Candidates who have not obtained a Leaving Certificate may be admitted on passing a Preliminary Examn. in four subjects under similar restrictions and conditions.

Exemption (pro tanto) is granted in consideration of having passed approved equivalent examns. Candidates from abroad, whose native language is other than English, must pass a Special examn. in English (held in March, Sept, and Oct; in set works and an oral examn). Candidates from the British Empire overseas, whose native language is English and who have passed examns which would admit them to Univs, or Tech Colleges affiliated to Univs in their own country, will be exempted. Indian students must have obtained a first-class in the Interm. examn in Arts or Science of an Indian Univ., and must at some stage of their course have passed in Maths. or Science and English. Similarly the Baccalauréat ès Lettres or ès Sciences will exempt from the Prelim. examn., Certificates of Maturity or Grades similar to the French Baccalauréat which would entitle the holder to enter upon a regular course of study in the Univs. of his own country will similarly exempt other students from the continent of Europe; and students of the U.S.A holding certificates which would admit to a regular graduating course in any of the Univs. or Colleges approved by the Assocn. of American Univs. (v. Appendix XXIV.) will be exempt.

N.B. A Certificate submitted as proof of title to admission to Univs. abroad should be accompanied by an authenticated declaration by a Government Official or Official of an Agency-General, Embassy, Legation, or Consulate of the country to which the applicant belongs, testifying that it has the alleged value If in a foreign language, certificates should be accompanied by certified English translations.

Argentine Certificates giving admission to the Univ. of Buenos Ayres, the B.A. degree of St. John's, Shanghai, the first-class certificates of the Anglo-Chinese College, Amoy; and, if including Arabic, English, and Maths., the Egyptian Secondary Education Certificate, have been recognized as exempting from the Prelim. examn.

The holder of a Degree obtained otherwise than honoris causa tantum in any British or foreign Univ. is exempt from all Prelim. examn.

Applications for exemption on the ground of having passed any of the above-mentioned examns., or on other grounds, should be addressed to the Secretary of the Entrance Board, 81 North Street, St. Andrews.

DEGREES and courses leading thereto (v also p. 15). The M.A. (ordinary) course (there is no BA) extends over 3 yrs and includes (for ordinary degree) subjects from 3 of the 4 departments of the Faculty, namely Lang and Lit., Ment. Philos., Science, Hist. and Law. are further restrictions at St. Andrews and Edinburgh) A candidate for the degree must not only have regularly attended, but also have duly performed the work of the classes in the qualifying courses first 2 yrs may be taken in any of the Scottish Univs. The Senatus may accept attendance given and examns passed at other Univs. specially recognized for the purpose, if qualifying courses for at least 2 yrs. (St. And., 1 yr) are attended and the Degree examns, are passed in the Univ. granting the degree. For the purpose of reckoning duration of study an academic yr is constituted by attendance on at least I course (Glas and St And., 2 courses) of study in each of the 3 terms The degree is never conferred honoris causa For MA (Hons) 4 yrs.' study is generally required

The B Phil. and B Litt are conferred only by St And. A candidate for either of these degrees must take the M.A either before or along with it. The standard of the Final examn is that of the M.A. Honours.

The B Com. conferred by St And., Aberd., and Edin may be taken, under conditions as to place of study similar to those for the M.A., after courses covering at least 9 terms.

The Ed.B. involves a 2 yrs 'course subsequent to the first 3 yrs of study for a previous degree, in addition to Professional training or experience as a teacher.

The practical part of the training of students preparing for the *Teaching Profession* is provided by the several Provincial Committees, which likewise recognize attendance at Univ. classes as qualifying for their certificates.

The B.Sc. in Pure Science. The course for the ordinary degree covers 3 yrs (Edinburgh 4 yrs) and includes from 6 to 9 courses, of

which 4 or 5 (St. And., 2) must be taken in the Umv. which is to grant the degree. The other courses may be taken in other Umvs. or Institus. approved, or under teachers recognized for this purpose, by the Umv. Court. The degree with Honours requires 4 yrs, and is of a standard

not less high than that required for M A. (Hons).

The B.Sc. in Applied Science can be obtained as follows Engineering (St. And, ord and hons, 3 yrs; Edin, ordinary and honours, both 3 yrs.; Glas, 4 yrs, the branches in which honours are obtainable being Civ., Mech, Elec, Mining, and Chemical E, and Naval Archit.; Aberd, ordinance in preparation). Mining Engineering (Edin., ordinary, 4 yrs.). Applied Chemistry (Glas., honours, 4 yrs.). Technical Chemistry (Edin., ordinary, 4 yrs.). Architecture (Glas., honours, 4 yrs.). Agric. (Aberd., Edin., and Glas., ordinary, 3 yrs., honours, 4 yrs.). Forestry (Aberd., ordinary, 3 yrs.; Edin., ordinary, 3 yrs.; honours, 4 yrs.). Pharmacy (Glas., ordinary, 3 yrs.). Public Health (Glas., 18 months after graduation in Med.). Vet. Sc. (Edin., 4 yrs.).

Higher Degrees in Arts and Science. The D.Sc. in Pure Science, in Engin. (Edin, Glas, St And), Pub Health (Glas), Mining (Edin), Agric. (Edin), Forestry (Edin), and Vet Sc (Edin), and the D Litt are open to graduates of 5 yrs 'standing. A thesis is required and, except in the case of a graduate of a Scot Univ with an Honours degree (St And, an Honours graduate of the Univ. granting the degree), research under supervision extending over 2 yrs. in the Univ. which is to grant the

degree. These degrees are never granted honoris causa.

Divinity. The B D. examn of any of the Univs. is open to a graduate in Arts of a Scottish or other approved Univ. or the holder of any Univ. Degree or Diploma recognized as an equivalent by the Univ. Court who has completed his Theol course (3 yrs), of which not less than 2 yrs. has been in the Univ. in which he proposes to take the B.D. All the examns, must be passed at the Univ. granting the Degree. The D.D. is honorary The Gifford Lectures in Natural Theology are open to the general public.

Law. The B.L. course (3 yrs.) is open to students who have passed the Prelim or its equivalent. Candidates for the degree must produce evidence of a sufficient knowledge of Latin before entering the Class of Civil Law. The LL.B. (3 yrs) is open to graduates in Arts of a Univ.

of the U.K. or any other specially recognized.

Of the B L course I yr and of the LL B. 2 yrs. may be spent in any specially recognized Univ. or School of Law.

St And. does not at present provide full courses for or grant these degrees.

The LL D. is honorary.

Medicine. Three of the requisite 5 yrs of medical study for the M.B. and Ch B may be spent in any Univ. of the U K. or other Institn. specially recognized for the purpose or under a teacher recognized by the Univ. A candidate who has at any such Univ. completed a course and passed an examn. in Chem., Physics, or Biology qualifying for a degree in Science, Arts, or Med. may be exempted by the Senatus from the corresponding part of the M.B., Ch.B. examns. Aberd., Edin., and St. And. extend this concession to courses and examns. in Anatomy and

Physiology qualifying for a degree in Science (St. And.—or Arts or Med; Edin.—or Med).

A graduate in Medicine of at least 24 yrs. of age who has, subsequent to graduation, been engaged for at least 1 yr. in attending the Med. (or Surg) wards of a hospl., or in scientific work bearing directly on his profession, or in the Naval, Milit, Colonial (Aberd, Edin, Glas), or, for the M.D. (St. And—M.D. or Ch.M.), Pub. Health Med. Services, or 2 yrs. in practice not restricted to Surg (or Med), and passed the prescribed examn, and submitted a satisfactory thesis, may be admitted M.D. or Ch.M. as the case may be.

Ph.D. See p. 18.

FEES The Matriculation, 2 gs. per annum; inclusive Tuition fees per annum in Arts are 15 gs, in Science, 25 to 35 gs.; examn. fees for M.A.,  $7\frac{1}{2}$  gs.; B.Sc., 9 gs; Divinity,  $7\frac{1}{2}$  gs; Law, 9 gs.; M.B., Ch B., 33 gs., graduation, £1. Further information is given in the several Univ. sections.

RESEARCH OR SPECIAL STUDY may be prosecuted in a Univ. under supervision by persons suitably qualified, whether graduates or not, admitted by the Senatus Access to and the use of the Univ. laboratories, etc., may be obtained on such conditions as to payment and otherwise as the Univ. Court may determine. The title of Research Fellow may be conferred with or without a stipend on specially distinguished research students

Appointments Committees have been constituted in all the Univs to help students to find employment.

Scholarships. Provision for affording Univ instruction and maintenance to students of small means is probably nowhere more ample than in Scotland Besides the Carnegie Trust benefactions (v. infra) and the numerous bursaries, etc., awarded by the Universities and the Trustees of unattached educational endowments, all Scottish Education Authorities make provision in their Bursary Schemes for assisting duly qualified persons resident in their areas, and needing such assistance, to attend a University, Training College, Central Institution, etc. The sum so spent by Education Authorities in the financial year 1926–27

was £134,000

Scholarships, etc., for Graduates The following are open to graduates of all the Scot. Univs.: (1) Carnegie Scholarships (£150) and Fellowships (£250) and grants in aid of Research Application forms supplied by the Carnegie Trust, 22 Hanover St., Edinburgh. (2) Ferguson—six of £80 each for 2 yrs for graduates in Arts. Ferguson Bequest Fund, 94 Bath St., Glasgow. (3) M'Cunn—four of £200 for 1 yr., for medical research. M'Cunn's Trustees, 160 West George St., Glasgow. (4) Shaw Philosophical—£200 for 5 yrs. for graduates in Arts (in the Patronage of Edinburgh Univ.). (5) Black—in Greek, £196 for 1 yr. for graduates in Arts distinguished in the B.D. examns. (6) Hume Brown—in Scottish History, £65 for 1 yr. for graduates in Arts; managed by the Univ. of Edin. (7) Maclean (Semitic Languages), £175 for 1 yr. for graduates in Arts preparing to enter the Ministry of the Church of Scotland; managed by the Univ. of Glasgow. (8)

Crombie (Biblical Criticism), £50 for 1 or 2 yrs. for graduates in Arts with First Class Hons. in Classics; managed by St. Andrews. (9) Shaw Macfie Lang (Science), Income of £3000 for Hons. Graduates in Arts or Science; managed by Edinburgh.

CARNEGIE TRUST FOR THE UNIVERSITIES OF SCOTLAND. Offices at Merchants' Hall, 22 Hanover Street, Edinburgh. Secretary, Jas. Robb, LL.B.; Treasurer, Jas. Davidson.

The annual income of the Trust is about £125,000, one half of which is devoted to (A) the improvement and expansion of the Universities of Scotland in the faculties of Science, Medicine, History, and Mod. Langs., and extending opportunities for scientific study and research, and Technical or Commercial Univ. education; the other half to (B) assisting Scottish students in the payment of Univ. class fees. Any surplus not required for (B) in any year is to be devoted to (A). Institutions in Scotland recognized by the Executive Committee of the Trustees as preparing students for graduation or as providing technical or commercial education of University level are entitled to participate as regards (A) and their students as regards (B). Any surplus not required for (A) or (B) may be devoted to Univ. Extension work.

The Regulations for Assistance in the payment of Class fees provide, inter alia, that applicants should hold the Leaving Certif of the Scottish Educn. Dept. bearing evidence of such preliminary education as is required by the Univs for their respective graduating curricula. Where for satisfactory reasons such Leaving Certif has not been obtained, the Exec. Committee may accept instead what they deem equivalent evidence of attainments, provided that no applicant will be eligible who has to pass any further prelim examn before completing his graduating curriculum. Class Fees paid for 1926-27: St. Andrews—£4446 for 346 beneficiaries; Glasgow—£28,221 for 2348; Aberdeen—£9110 for 793, Edinburgh—£16,886 for 1404.

The annual report of the Executive Committee contains reports of experts on the work of beneficiaries under the Research Scheme and lists of papers published by them. Research Fellowships, Scholarships, and Grants awarded for 1927-28: St. Andrews—32, value £6192, Glasgow—26, value £3874, Aberdeen—9, value £1584; Edinburgh—18, value £2586. Total—85, £14,236

Under a Fifth Quinquennial Scheme of Distribution for the period from Oct. 1, 1925, to Sept. 30, 1930, there has been allocated a sum of £231,225, distributed thus: St. Andrews centre—£38,000; Glasgow—

£73,600; Aberdeen—£46,250, Edinburgh—£73,375.

The Scottish Students' Inter-Universities Conference At this Conference, which is held annually, and meets in rotation at St. Andrews, Aberdeen, Glasgow, and Edinburgh, the students of the 4 Univs. discuss matters of general interest to them all The Students' Representative Council of each Univ. sends 4 delegates, one of whom must be a woman. The convener of the International Academic Committee (v. p. 7) also attends, and each Univ.'s Union and Students' magazine are represented. The President and Secretary of the Con-

ference are the President and Secretary of the Students' Representative Council of the Univ. at which the Conference is held. A record of the work of each Conference is printed and distributed to each of the Univs. concerned. The 33rd Conference was held at Glasgow in 1927. The Inter-Universities International Academic Committee of the S R.C.'s appoints "Academic Consuls" in the principal university centres overseas. The committee is glad to help students from overseas visiting Scotland. Information as to lodgings, etc., can be obtained from the International Academic Secretary, S R.C. Office, University of Edinburgh.

## UNIVERSITY OF ABERDEEN

CHANCELLOR—The Right Hon. Baron Meston of Agra and Dunnottar, KCSI, VD, LLD.

VICE-CHANCELLOR AND PRINCIPAL—Very Rev. Sir George Adam Smith, M.A., D.D., LL D., Litt D., F.B A.

Rector—Right Honourable The Earl of Birkenhead, PC, MA, DC.L (elected 1927)

DEANS OF FACULTIES. See under "General Information"-Faculties.

SECRETARY TO THE UNIVERSITY—H | BUTCHART, DSO, BL.

### ASSOCIATED COLLEGES

NORTH OF SCOTLAND COLLEGE OF AGRICULTURE. ROBERT GORDON TECHNICAL COLLEGES.

### GENERAL INFORMATION

The "University and King's College of Aberdeen," founded under a Papal Bull in 1494, and the "Marischal College," founded in 1593 by George Keith, Earl Marischal, were reconstituted in 1860 as "The University of Aberdeen." Certain of the original buildings remain, notably the Chapel (A.D. 1500).

The LIBRARY, founded in 1500, has 250,000 vols. and 200 Incunabula, some unique. It is especially nich in Celtic literature, and books bearing on the history, topography, and antiquities of the Scottish Highlands, and Classical Archæology. Annual budget about £3500. Museums: Anthropological (iliust. cat. is), Surgical (2500 specimens and 600 instruments), etc. Besides the usual Laboratories there is the Rowett Institute of Research in Animal Nutrition near Bankhead, with departments of Physiology, BioChemistry, Bacteriology and Pathology, and attached Animal Husbandry section for practical experiments in feeding, etc. It is under the management of a joint committee of the Univ. and the N. of Scotland College of Agric. Hospitals available for clinics: Infirmary, 230 beds; Children's, 85; Fever, 100; Mental Hospital, 700.

FACULTIES. Arts, Science, Divinity, Law, Medicine. Deans: Profs. Souter, Findlay, Baird, Stuart, Low.

Departments: Commerce, Education.

DEGREES, RTC. For Diploma course in Forestry (2 yrs.) there is a Preliminary examn. in English and Maths. The papers in the Final examn. in Forestry are the same as those set for the B Sc.For Diplomas are also conferred in Public Health (D.P.H.) and in Fine Art (History and Theory). A Optificate in Fine Art is also given.

The following Univs. have been recognized by the Univ. Court pro tanto as institutions in which 3 of the requisite 5 yrs. of medical study may be taken, provided that the prescribed conditions with reference to such study are fulfilled: Bom., Calc., Mad., Adel., Melb., Syd., N.Z., S. Africa, Dal., Queen's (Kingston), Tor., McGill, Chic., Corn., J.H.U., Harv., Stanf., Mich., Penn., Yale. Individual teachers in other Univs. may be recognized upon satisfying the Univ. Court with respect to their courses. The following have been recognized in respect of courses and examns. in Bot., Zool., Biol., Physics, and Chem. qualifying for a degree in Science or in Arts or in Med.: Bom., Calc., Mad., All., Panj., Rangoon, Melb., Syd., Adel., Queen's (Kingston), McGill, Tor., Manit., S. Africa. The courses and examn. in Anat. and Physiol. for the Science degree of the Univ. of Cape Town have been recognized.

FEES (v. Carnegne Trust). Inclusive fees for tuntion: B.D., 40 gs.; LL.B., 40 gs. (28 gs. for a M.A. of the Univ); B.L., 30 gs.; M.A. and B.Sc. taken

together, 112½ gs.; M.A. and B.Com., 75 gs.; B.Sc. and B.Com., 112½ gs; M.B., Ch.B., 126 gs.; M.A., M.B., Ch.B., 156 gs.; B.Sc., M.B., and Ch.B., 168 gs.; M.A., B.Sc., M.B., and Ch.B., 202 gs.; M.A. (Hons.), 60 gs.; B.Com, 45 gs.; B.Sc. (Pure Science, Agriculture, Forestry, and Engineering), 90 gs.; B.Sc. (Hons.), 100 gs.; M.A. (Hons.) and B.Sc., 127½ gs. The total cost of the whole medical curriculum, including hospital fees, classes, matricn., and degree fees, is usually about £236. The degree fees for the Doctorates are from 10 to 20 gs. The class and examn. fees for the D.P. H. amount to 36 gs.; for the Diploma in History and Theory of Fine Art, and for the Certificate in Fine Art, to 8 gs. and 15 gs. respectively.

Scholarships, etc., for graduates, about 25; aggregate annual value about £1600. Travelling Scholarships: Anderson, for medical graduates, about £200 p.a.; Kilgour, £250 for graduates in Natural Science or Natural History; Robbie, £100 p.a. in Maths., Nat. Philos., and Chem

RESIDENCE. No Univ Hostel. List of lodgings kept by Students' Repve. Council.

PHYSICAL WELFARE OF STUDENTS. There is a Director of Physical Training (who is an officer of the Army), with a woman assistant for women students.

Publications. Calendar (Sept.), 4s. 6d; Univ. Review, 7s. 6d. pa. (3 issues); Students' Handbook (Nov.), 1s.; Alma Mater (organ of S.R.C.); Univ. Libr. Bulletin, 2s. 6d p.a. (2 issues).

## THE YEAR 1927-28

Benefactions Major-General Pope, C.B, £450:19:6 (legacy). The late Prof. Henry Stephen, £1446.17s. (Stephen Bursary). Thomas Wemyss Fulton, £235, and Mrs. Fulton, £235, for a prize in Neurology in memory of their only son, the late E. G. A. W. Fulton, M.B., Ch.B. The relatives of the late B. R. Gordon Russell, M.B., Ch.B., £200 for a medal in Pathology in his memory. The late Miss Agnes M'Lennan, £2000. Mrs. Patrick Ness, £100 for upkeep of African trophies. Carnegie Trust: £1000 for purchase of books; £13,550 towards cost of new Examination Hall at King's College, Old Aberdeen; £113:1:6 towards cost of new Playing Fields.

HONORARY DEGREES. D.D.—J. E. Adams, J. T. Cox, W. A. L. Elmslie, W. D. Niven LL.D.—J. G. C. Anderson, Sir James Donald, Sir William B. Hardy, W. Murison, The Right Hon. Viscount Cecil of Chelwood, A. Lewis, J. A. MacWilliam, R. S. Wallace.

NEW Post. Foundation of Lectureship in Mercantile Law.

New Buildings. New Examination Hall and class-rooms in course of erection.

BUILDINGS. Progress is being made with the erection of the new Examination Hall and additional Class-rooms at King's College. In connexion with the Joint Hospital Scheme the site has been acquired at Foresterhill, Aberdeen, for the erection of buildings to accommodate certain Medical Departments. The laying out of three new pitches has been completed for the Women's Hockey Club, Men's Hockey Club, and Association Football Club.

STUDENTS. Full-time: total, 1393.

DEGREES. D.Sc., 2; Ph.D., 3; M.D., 16; M.A., 183; Ed.B., 1; B.Sc., 21; B.Sc. (Agr.), 9; B.Sc. (Eng.), 6; B.Com., 6; LL.B., 4; B.L., 3; B.D., 3; M.B. and Ch.B., 53; D.P.H., 12; Dip. in Agr., 3.

## UNIVERSITY OF EDINBURGH

Chancellor—Rt. Hon. The Earl of Balfour, K.G., O.M., D.C.L.

Vice-Chancellor and Principal—Sir J. Alfred Ewing, K C B., M.A., D.Sc., LL.D., F.R.S

RECTOR—Rt. Hon Sir John Gilmour, Bart., D.S O., LL.D. M.P. (elected 1926).

Deans of Faculties. See under "General Information"—Faculties Secretary to the University—W. A. Fleming, M.A., LL.B., Advocate.

### University Extension

20 Tutors, including 3 Univ. Profs. and 11 Univ. Lectrs.

## ASSOCIATED COLLEGES, in which Univ. courses are provided at Edinburgh.

Edinburgh and East of Scotland College of Agriculture. Principal, Ernest Sheaier, M A., B Sc.

HERIOT-WATT COLLEGE. Principal, .....

New (United Free Church) College. Principal, Alex. Martin, D.D.

ROYAL (DICK) VETERINARY COLLEGE. Principal, O. C. Bradley, M.D., D.Sc.

### GENERAL INFORMATION

Originally the "Town's College," founded in 1583 by the Town Council under general powers granted by Royal Charter, April 14, 1582. The Old College on the site of "Kirk o' Field," the scene of the murder of Lord Darnley, was designed by Robert Adam, and completed in 1838. Newer buildings include the Medical Buildings and the M'Ewan Hall (1888–97), which holds 2600 and has a great electric organ; and "The King's Buildings" (1920–24) for Chemistry and other Science Departments. The Medical School of this Univ. has been famous for many generations; specially ample provision exists also for instruction and research in Theology (post-graduation school instituted 1919), Agric., Forestry, Engin, Mining, and Vet. Sc. Edinburgh is the seat of the Scottish Supreme Courts of Law.

LIBRARY, founded in 1580, 350,000 vols., 8000 MSS., includes special collections - Shakespearean, Sanskrit, Celtic, Persian, and Arabic MSS., Economics (Hodgson), Math. tables by E. Sang, transactions of Engin. Societies in Great Britain and America, the Laing Charters (A.D. 854-1837), the Laing manuscripts, the Abercromby collection of 2500 vols. on archæology, ethnology, etc.; the Blackie collection of modern Greek books, the Bruce collection of books on oceanographical subjects, the Cameron collection of Celtic literature Museums Nat. Philos., Fine Art, Geol., Nat. Hist, Chem., Forestry, Agric., Entom. and Forest Zool. (Waterhouse collection of Coleoptera), Anat. (founded with the Monro collection in 1800; numerous specimens of Cetacea and human crania), Physiol, Mat. Med. (notable collections of medicinal and food substances, including those of Duncan and Christison), Forensic Med., Practice of Physic, Surg., Obst. (Simpson collection), Music and Musical Instruments. The Prof. of Botany is Regius Keeper of the Royal Botanic Garden, the Prof. of Astronomy is Astronomer Royal for Scotland and gives practical courses at the Royal Observatory. The LABORA-TORIES are especially well equipped for research in Anatomy, Anthropology, Bacteriology, Chemistry (the new Laboratories at King's Buildings, which were completed in 1924, have accommodation for about 400 students), Engin. (notably Hydraulics, Strength of Materials, Elec. Engin.), Mat. Med., Path., Physics, Physiol, Psych., Pub. Health (Institute built 1902, costing £21,000). The Univ has a table at the Millport Marine Station. Hospitals: the Royal Infirmary adjoining the Univ. provides over 900 beds for clinical teaching, in addition to the Children's, Maternity, and Fever Hospls., and Lunatic Asylums. Over 50 resident posts in these are given annually to Med. graduates.

FACULTIES. (1) Arts, (2) Science (including Engineering, Mining and Metallurgy, Technical Chemistry, Public Health, Agriculture, Forestry, and Veterinary Science, as well as Pure Science), (3) Divinity, (4) Law, (5) Medicine, (6) Music. Deans (1) Prof H J. C. Grierson (English), (2) Prof. Sir T. Hudson Beare (Engin.), (3) Prof. Paterson, (4) Prof. Mackintosh, (5) Prof. Lorrain Smith (Path.), (6) Prof. Tovey.

Degrees and Diplomas (v. Scottish Univs). A diploma in Education is granted on completion of Univ. courses (1 yr.) and passing examins. in Psych., Theory and Hist. of E., and modern E. Systems and Problems. Candidates must have attended a course of Professional training or have had at least 3 yrs.' experience as a teacher, and must have completed a graduation course in Arts Diplomas are also granted in Actuarial Mathematics (2 yrs.), Forestry (2 yrs., open only to ex-Service men and Indian students selected as Forest probationers who have taken an Honours degree in Science at an Indian Univ.), Geography (open to graduates or students about to graduate in Arts or Science), Technical Chemistry (open to graduates who have taken a degree in Science with Honours in Chemistry), and a Diploma and a Certif. in Social Study.

A candidate for the B.Sc. in *Vet. Sc.* must (1.) have passed the Prelim. examn. for degrees in Sc, (11.) have been engaged in Vet. study for 4 yrs., (111.) have a registrable qualification, (1v.) have attended certain specified courses, including i yr. of study in this Univ. The Royal (Dick) Vet. Coll., Edin., provides certain of the qualifying courses.

Diplomas in Pub. Health (1 yr. course), in Tropical Med. and Hygiene (3 mos.), in Psychiatry (1 yr.) and in Radiology (1 yr.), are open to graduates of the Univ. and registered Med. practitioners.

Candidates for the Mus B. must have passed the Preliminary Examination, or its equivalent, and attended a course in this Univ. during a whole winter session. A Mus.B. of 3 yrs.' standing may offer himself for the Mus.D.

(which may also be conferred honoris causa) as Composer, as Executant, or as Theorist or Historian.

RECOGNITION OF INSTITUTIONS AND TEACHERS outside the United Kingdom:
(a) For exemption from one (not the final) year of the course for M.A. or for B.Com. and from attendance on classes in and examn. in two subjects for the Ordinary Degree. the following Univs—Alb., Dal., McG., Manit., Queen's (Kingston), Tor., Adel., Melb., Syd., N.Z., S. Africa, All., Bom., Calc., Mad., Panj., Paris, Tokyo, Osaka, Sendai, and such other Univs. as the Univ. Court may from time to time approve; graduates of the American institutions listed in Appendix XXIV

(b) For some of the courses for the B.Sc.: Madras Coll. of Agric., Colls. affiliated up to B.A. and B Sc., and Engin. Colls affiliated to the Indian Univs., Univs. and Polytech. Sch. supported and regulated or recognized by Govts.

ın Europe.

(c) For admission as graduate in Arts to the LL.B. examn.: the Univs. of

All, Calc, Mad V. also (f).

(d) For 2 of the 3 yrs. study for LL B.: McGill Univ., Madras Law Coll., Law Coll., Trevandrum, Ripon Coll., Calc.

(e) For 3 of the 5 yrs of Med study recognized teachers in Singapore (in

Physiol and Practice of Med ) and Wellington, S. Africa (in Chem.)

(f) For admission of graduates from these institus, to study for the Ph D degree (General Recognition is also granted to them in terms of the various Graduation Ordinances): the following Univs—Dal, King's Coll. (N.S.), Laval, McG., Manit, Queen's (Ont.), Tor., Adel., Melb., Queensland, Syd., W Aust., N.Z., Cape Town, S Africa; all Colleges affiliated to these Univs., Univs and Colls. approved by the Assocn of American Univs.

Post-graduate Courses in Medicine are held during the Summer and Autumn Terms and the Summer Vacation. Particulars obtainable from the Hon. Sec, P.-G. Courses in Med., Univ. New Buildings, Edinburgh. The Post-graduate School of Theology issues a detailed list of courses Graduates contemplating research should apply to the Deans.

Scholarships Total annual value over £24,000; for graduates only, £6000. Most are open to colonial and foreign students. The Earl of Moray's

Endowment provides about fizoo p a. for research.

Traveling for study or research is encouraged by Dickson Fund (f90 p a.), Dundas Latin Studies Fund (f45 p a.), Drummond Mathematical Scholarship (f135 p a for 3 yrs), Maclaren Mathematical Scholarship (f170 for 3 yrs), Scott Scholarship for Graduates in Arts (f70), M'Cosh Bursaries for Graduates in Medicine (f300).

Fees (v Carnegic Trust) Inclusive tuition fees for LL B., 42 gs; B L, 30 gs, B Sc Engin, 90 gs, Agr, Oid, 90 gs., Hons, 120 gs, Mining, 105 gs.; Forestry, 105 gs.; Technical Chemistry, 120 gs.; Pure Sc., 100 gs.; B D., 33 gs; M B., Ch B., including Hospl. Fees, 205 gs. Combined M.A. and B.Sc. in Pure Sc., 130 gs.; M A. and B.Sc. in Agr. or Engin., M.A. and B.Com. or LL B, 70 gs; M.A. and B.L., 65 gs.; B.Sc. in Agr. and in For, 135 gs. Graduation examins.: M A., 7½ gs.; B.D., 7½ gs.; LL.B., 9 gs.; B.L., 7½ gs.; Mus B., 15 gs.; Mus.D., 15 gs.; Ph.D., 10 gs.; B.Sc., 9 gs.; D.Sc., 15 gs.; M.B., 33 gs.; M.D., 20 gs; Ch.M., 20 gs.

HALLS OF RESIDENCE, ETC. For men: University Hall on a self-governing basis (information from Messrs. Whitson and Methuen, 21 Rutland Street). Board and lodging about £2:12:6 a week. For women: East Suffolk Rd., Craigmillar Park (Warden), £50 for the three terms; Masson Hall, 31 and 32

George Square (Warden); and Muir Hall, 12 George Square (Warden), 33s. 6d. to 47s. 6d. Six months' notice generally necessary.

There is a Franco-Scottish Society for advising and assisting French students in Scotland and Scottish students in France. It has local centres at Glas., Aberd., and Dundee.

Indian Students' Adviser: Maj. J. E. Mackenzie, D.Sc.

UNIV. EXTENSION, ETC. The Univ. is now represented on the Advisory Committees for the management of the Tutorial Classes for adults instituted by the Edin. Educational Authority, in co-operation with the Edinburgh W E A. Summer Classes (4 weeks) for Teachers are held during vacation, the lecturers being drawn mainly from the Univ. staff. Certificates gained at the courses qualify for endorsement on teachers' certificates.

Official Publications. The Calendar (Aug.), 5s.; the Prehm. and Degree Examn. Pprs. (May and July), 5d. to 2s. a set (James Thin, 55 South Bridge). The Students' Handbook issued by the Students' Representative Council. Facilities for advanced Study and Research free on application.

HISTORIES OF THE UNIV. Bower, Alexr, chiefly compiled from original papers and records, never before published, 3 vols, Edin., 1817-30; Dalzel, Andrew (ed by D. Laing), with a Memoir of the Author (by C. Innes), 2 vols, Edin, 1862, Grant, Sir Alexr., The Story of the Univ. during its first 300 years, 2 vols, London, 1884.

### THE YEAR 1927-28

Benefactions. Mr. James Sanderson of Galashiels, bequest of £35,000 for the development of Engineering and Chemistry. A capital grant of £3000 and an annual grant of £1000 for five years from the Empire Marketing Board to the Animal Breeding Research Department for wool research £2000 from Lord Forteviot for the Animal Breeding Research Department. £200 from students and others to found the "Wallace Prize" in Agriculture. Lady Lyell of Kinnordy, valuable books and collections of minerals, rocks, and fossils Books for the Political Economy Library from Mrs A. G. Morrison of Dunblane. Four topographical relief models and other apparatus to the Department of Geography from the Director of the Science Museum, Kensington. Prof. Littlejohn, bequest of the Museum and collection of books on Forensic Medicine formed by himself and his father. £500 (bequest) from Mr William Forrester for the further endowment of the Chair of Therapeutics. £500 from Mr. and Mrs R D. Macgregor, Lamington, to the Department of Zoology. [420 from William Manson, Wick, to the Department of Mathematics to found the "William Manson Memorial Prize."

RECENT DEVELOPMENTS. The University Court has assumed control of the Animal Breeding Research Department. Plans for new buildings for the Department have been passed, and the work has commenced. An Ordinance founding the Buchanan Chair of Animal Genetics has been approved by the King in Council. As a tentative arrangement for two years it was agreed that a course of dental instruction be given to students of the fourth year in nedicine while attending the class of diseases of the ear, nose, and throat. The Edinburgh School of Social Study and Training, started in the year 1918 is an independent body granting its own Diploma, has been incorporated in the University. The Diploma in Tropical Medicine and Hygiene has been ecognized by the Sec. of State for the Colonies as a qualification for appointment as Junior Public Health Officer in the Colonial Medical Service.

DEATH. Sir Henry Cook, Factor and Law Agent to the University since 1890.

Honorary Degrees. D.D.—J. Baikie, W. S. Crockett, Lord Sands, Rev. W. G. Dixon. LL.D.—Sir John R. Bradford, Lord Constable, F. G. Donnan, J. C. Ewart, J. H. Ferguson, R. A. Fleming, Sir John Gilmour, M.P., G. L. Gulland, J. A. Hood, W. C. Johnston, Sir Robert S. Lorimer, André Maurois, W. A. Neilson, Dame Mary D. Scharlieb, H. S. Wellcome, Niels Bohr, M. Huber. Mus.D.—Mrs. M. K. Fraser.

STUDENTS. Full-time. total, 3625, including 503 graduates. Part-time; total, 634, including 178 graduates

Degrees. D.Litt., 3, DSc, 6, MD., 31; Ch M., 1; Mus.Doc., 1; Ph.D. Divinity, 12, Ph.D. Medicine, 7, Ph.D. Arts, 7; Ph D. Science, 13, B.D., 5, B.Ed., 11, LL.B, 11; BL, 9, M.B., Ch B., 145; M.A. Hons., 105; M.A. Ord, 292; B Com, 39, B Sc. Pure Sc. Hons 36, Ord 6; B Sc. Engin. Hons. 18, Ord. 16; B Sc. Mining, 4, B Sc. Tech. Chem, 1; B Sc. Agiic. Hons. 2, Ord. 6, B.Sc. Forestry, 12, B.Sc. Veterinary Science, 3, Mus B, 4. Diplomas: Education, 52, Geography, 3, Social Study, 8, Ccit. do, 8, Actuarial Maths., 3, Forestry, 1; Public Health, 10, Trop. Med. and Hygiene, 6; Psychiatry, 2; Radiology, 5.

## UNIVERSITY OF GLASGOW

CHANCELLOR-THE EARL OF ROSEBERY AND MIDLOTHIAN, K.G, K.T.

Vice-Chancellor and Principal—Sir Donald MacAlister, Bt., K.C.B., M.A., M.D., D C.L., LL.D., D Sc., F.R.C.P.

RECTOR-The Right Hon. STANLEY BALDWIN, M.P (elected 1928).

ASSOCIATED COLLEGES, in which University courses are provided at Glasgow.

ROYAL TECHNICAL COLLEGE.
WEST OF SCOTLAND AGRICULTURAL COLLEGE.

### GENERAL INFORMATION

Founded by a Papal Bull in 1451, after the model of Bologna, the Univ. was reconstituted by a Charter of King James VI of Scotland in 1577. In 1864-70 the old college buildings and site were sold and new buildings were erected in a more suitable position on the crest of a hill (Gilmorehill) to the west of the city. Funds for this were obtained partly from the proceeds of the sale, partly from public subscription, and partly from a Parliamentary grant of £120,000. Queen Margaret College was acquired by gift in 1893 for the use of women students. The Carnegie Trust contributed £60,000 towards the cost of additional buildings which were completed in 1907, and a neighbouring estate was presented by the MacLellan family in 1917.

The Library, founded in the 15th century, contains 255,000 vols, including 300 books printed before A d. 1500. Among its important collections are the Ewing, distinguished for the value and variety of its Bibles; the Hamilton, rich in philosophical works; and the Ferguson, containing rare books on the history of chemistry. The Hunterian Museum, founded in 1783, contains most valuable MSS, and early printed books and pictures and important collections of coins, anatomical preparations, zoological and mineral specimens, etc. Large new departments with spacious Laboratories have been erected for Engin, Bot., Nat. Philos., Chem, Physiol., Anat, Path, Mat. Med., Forensic Med, Pub Health, and Zoology. There are Botanical Gardens and an Observatory As Glasgow stands at the centre of the shipbuilding, engineering, mining, and industrial area of Scotland, it offers unique opportunities for technical training. Three large general Hospls. are available for clinics, besides special institutions (including Consumption Sanatoria).

FACULTIES. (1) Arts, (2) Science, (3) Medicine, (4) Law, (5) Divinity, (6) Engineering. Depts. of Applied Science—Engineering (Civ., Elec., Mech. Mining, Naval Archit, Chem), Applied Chem., Agric., Architecture, Public Health, Pharmacy. Deans: (1) Profs. Bowman (Mor. Phil), (2) Drummond (Bot), (3) Currie (Public Health), (4) Glaister (Forensic Med), (5) Main (Eccl. Hist), (6) Cormack (Civ. Eng and Mech.).

Degrees. Applications by Overseas students for remission of part of the class attendance for B Sc. in branches other than Engineering will be considered sympathetically Diploma in Education, I yr. course, for graduates (the first yr. of the Ed.B. course); D.P.H. (I yr. course) for legally qualified med. practitioners. Certificates of Proficiency in Engineering Science and in Mining Engin., 3 yrs.' courses, of which first yr. may be taken in Roy. Tech. Coll.; no prelim. examn.

M.A. with special reference to Citizenship. The curriculum recommended for this is—ist yr., English and another language; 2nd yr., a Science and History; 3rd yr., Ethics, Individual and Social Life, and Political Economy.

The list of extra-academical teachers whose courses in certain subjects are recognized as qualifying pro tanto for graduation includes several resident outside the United Kingdom, namely in Cape Town (in Nat. Philos., Chem., Bot., Zool.), Grahamstown (Physics, Chem., Bot., Zool.), Johannesburg (Zool. and Chem.), and Stellenbosch (Bot., Chem., Physics).

For detailed information regarding POST-GRADUATION study and research in any Faculty application should be made to the Dean; v. also p. 274. A Post-graduate *Medical* Assocn. organizes demonstrations for Med. Practitioners; fee for series, Nov. to May, 3 gs.; programme obtainable from the Secy., P.-G. Med. Assocn., Dr. James Carslaw, 9 Woodside Terrace, Glasgow, C.3.

CLASS FEES (v. Carnegie Trust) M.A. (Hons), 60 gs.; LL B, 40 gs.; B.L., 30 gs.; M.B., Ch.B., about £250 for 5 yrs. Combined M.A. and B Sc., 112 gs.

Scholarships for Graduates · about 76 of from £30 to £280 p.a., most of them open only to graduates of Glas. (For undergraduates there are 480, varying in value from £10 to £50 or more p a., chiefly in the Faculty of Arts, in addition to Bursaries of from £5 to £25, awarded by the Provincial Committee for the training of teachers) V. also p. 274

Travelling for study or research is encouraged by Biyee Mathematical Fellowship (£280 p.a. for 4 yrs.), Faulds Fellowship (£200), J. R. K. Law Scholarship (£100 p.a. for 2 yrs.) for Applied Science tenable at an approved Overseas University or other scientific institution in Canada, U.S. A., or France.

RESIDENCE. Two Halls of Residence for men—the Maclay Hall and the MacBrayne Hall, and two for women—Queen Margaret Hall and the Robertson Hall. Lodgings or board with private families with use of 2 rooms, generally obtainable in neighbourhood of the Univ., for from 35s to 50s. per week. A few students' hostels or settlements, of limited accommodation, where the charges are lower, are run by private committees or bodies of students and graduates.

A STUDENT WELFARE COMMITTEE has been formed for the purpose of raising funds for the provision of Hostels, increased Union accommodation, and the completion of the Athletic Ground. Grants have been received from the Univ. Grants Committee and the Carnegie Trust, and many donations have been received from private benefactors and other sources. In all the sum of about £85,000 has been raised.

UNIVERSITY EXTENSION. An Extra-mural Education Committee, equally representative of the Univ. and working-class organizations, is prepared to supply classes, short courses, and single lectures to groups of students in Glasgow and the West of Scotland, so far as its resources will permit, a compendium of classes and lectures for the session is obtainable from the Organizing Secretary, W.E A, 177 Hill Street, Garnethill, Glasgow, C 3 Fortnightly and occasional free public lectures by professors and others are delivered during the winter session.

Publications. Calendar (July); Glasgow Univ. Magazine, weekly during winter session; Examn. Papers, Prelim. and Degree, 6d. per set; Annual Handbook for matriculated students. Handbook for Overseas students and graduates; History of the University of Glasgow (Coutts); Roll of Graduates (1726-1896) (Addison); Matriculation Albums (Addison)

## THE YEAR 1927-28

BENEFACTIONS. Dr. W. E. Lee, £100 for prize in Church History; Mr. George A. Mitchell, £600 further endowment for Lectures in Statistics; G.U. Club, London, £100 for the Chancellor's stall in the War Memorial Chapel; Mr. William C. Teacher, £10,000 for a Lectureship in Bacteriology at the Royal Infirmary; Mr. W. G. Gardiner and Sir F. C. Gardiner, K.B.E., endowment for a Lectureship on the Pathology of Diseases of Infancy and Childhood at the Royal Hospital for Sick Children; Dr. George S. Middleton, one-sixth of the

residue of his estate; The Singer Manufac. Co., Ltd., a bursary of £25 per annum; Mr. J. J. F.-X. King, his valuable collection of insects (about half a million specimens); the Committee formed for the purpose of recognizing Em.-Prof Gibson's services to the Univ. and Royal Technical Coll.; £300 for the periodic delivery of lectures on the History of Mathematics

Honorary Degrees. D.D.—H. R. L. Sheppard; R. S. Calderwood, D. Cameron; G. Macaulay; N. Macnicol, C. N. Moody, A. B. Scott; F. T. Woods, Bishop of Winchester. LL.D.—H. J. W. Hetherington; Em.-Prof. W. S. M'Kechnie; A. M. Bannatyne; W. Brodie; E. Cammaerts; G. W. Crile; Em.-Prof. G. A. Gibson, Principal W. R. Halliday; The Rt. Hon. the Earl of Home; C. Ker; Sir David Murray; Prof. R. A. Sampson

Deaths. Dr. George S. Middleton, Member of University Court; Dr. David Murray, Member of University Court; Em - Prof. H. M. B. Reid; Prof. D Noel Paton; Rev. Dr. T H. Weir, Lectr. in Arabic; Dr. W. S. Syme, Lectr. in Diseases of the Ear, Throat, and Nose; Dr J. Wylie Nicol, Lectr. in Diseases of the Skin

RESIGNATIONS Prof. D. Noel Paton, Regius Prof. of Physiology; Dr. R. Christie Smith, Carnegie Teaching Fellow in Physical Chemistry, M. Marius J. J. Cordier, Lectr. in French, to be Prof. in the Lycée Rollin, Paris; Dr. Claude W. Wardlaw, Lectr. in Botany; Dr. Albert A. Gray, Lectr. in Diseases of the Ear; Mr. J. R. Learmonth, Asst. in Surgery; Dr. James Sword, Asst. in Chemistry.

STUDENTS. Full-time · total, 4894, including 299 graduates. Part-time : total, 400, including 92 graduates.

DEGREES M.A., 586, B Sc., 216, M.B., Ch B., 156; B.L., 16; LL.B., 19; Ed.B., 3; B.D., 8; Ph.D., 12, D.Litt., 1; M.D., 18; Ch.M., 1; D.Sc., 5.

### GENERAL INFORMATION

Anderson's College, founded in 1796, the College of Science and Arts (1823, the first "Mechanics' Institution"), and the Atkinson Institution (1861) were amalgamated in 1886 under the title of the Glasgow and West of Scotland Technical College, which was changed in Feb 1912 to the Royal Technical College. The College was affiliated to the Univ. of Glasgow in March 1913

The College building, comprising over 7 acres of floor space, cost, with equipment, £400,000 Qualifying courses are provided in the subjects named above for Degrees of the Univ in Applied Science and for the Diploma of the College. Courses in the following qualify for the Diploma only: Building, Naval Architecture, Textile Manufacture There are also Departments of Navign and Bakery, as well as numerous evening classes in other subjects, mainly technological. The courses for the Diploma cover 3 (in Chem. and Metall, 4) yrs.; for the Associateship in any of the Diploma subjects, attendance during 4 yrs. is required The evening lecturers are not included in the above lists; some of their work is, however, of university and even post-graduate standard. Much research work, for the prosecution of which a development fund of over £70,000 has been raised, is carried on at the College. The library includes the Euing musical collection and the James Young collection of early alchemical, metallurgical, and chemical books.

The Glasgow School of Architecture is maintained by the College and the Glasgow School of Art working in co-operation through a Joint Committee under whose authority its Diplomas (5 yrs.' course) are issued.

The College has an athletic ground, and within the College buildings a well-equipped gymnasium.

FEES for tuition: diploma, 25 gs p.a.; degree, 90 gs. for course.

Publications. Calendar; Annual Report; Research Journal; Metallurgical Club Journal.

## THE YEAR 1927-28

BENEFACTIONS. The Bellahouston Trustees have renewed for a further period of three years their annual grant of £1000. In 1905 Mr. James Donald made a bequest to the College, subject to a life-rent which has now fallen in.

The income from £13,000 will now become available to provide "a sound education in Practical Chemistry and also in Practical Mechanics." Dr. G. S. Middleton bequeathed to the College one-sixth of the residue of his estate. An anonymous donor, £4000 for the maintenance of a Research Schol'p Mr. C. C. Lindsay, bequest of £3000 for a Schol'p in Mechanical Engineering. Mr. Robert Barr. £5000.

RESIGNATIONS. D. McKerracher, appointed Head of the Physics Department, Huddersfield Technical Coll; W. H. Millar, appointed Asst. Lectr. in Pharmacy, Birmingham Central Technical Coll.

RESEARCH JOURNAL. The fourth number was issued, containing thirteen papers in Natural Philosophy, Chemistry, Metallurgy, Mechanical Engineering, Electrical Engineering, and Mining Engineering.

University Extension. 2247 part-time students of 21 years of age or over were in organized classes. 483 tickets were issued for the courses in Astronomy.

STUDENTS Full-time preparing for a first Degree or Diploma (excluding 43 attending major portion of time at Glasgow University), 340; undertaking advanced work, 24. Part-time. preparing for a first Degree or Diploma, 530; undertaking advanced work, 25; occasional students, 1867; taking courses not of a University standard, 1340

Degrees obtained. Ph.D , 4 , B.Sc. in Applied Science, 39; B.Sc. Lond , 5.

## UNIVERSITY OF ST. ANDREWS

CHANCELLOR AND PRESIDENT OF THE GENERAL COUNCIL-.....

Vice-Chancellor and Principal of the University and of the United College—Sir James Colquhoun Irvine, C B.E., Ph D., D Sc, LL D. Glas., Sc.D., F.R S

RECTOR AND PRESIDENT OF THE UNIVERSITY COURT—SIT WILFRED GRENFELL, C.M G , M D Ox.

DEANS OF FACULTIES. See under "General Information"—Faculties.

SECRETARY AND REGISTRAR—ANDREW BENNETT

LIBRARIAN-GEORGE H BUSHNELL.

Principal of St. Mary's College—Very Rev. G Galloway, M.A., D.Phil., D.D.

Principal of University College, Dundee—J. Y. Mackay, M.D., LL D

Advisers of Students at St. Andrews: in Arts—Prof Webster; in Science—Prof Herring; in Medicine—Prof Waterston.

AT DUNDEE: IN ARTS AND SCIENCE—Prof STEGGALL; IN MEDICINE—Prof CHARTERIS.

#### UNIVERSITY COURT

PRESIDENT—THE RECTOR

THE PRINCIPAL, ex officio

THE PRINCIPALS OF ST MARY'S COLLEGE and UNIVERSITY COLLEGE, DUNDEE, ex officio

\* At Dundee.

#### GENERAL INFORMATION

The University was founded in 1411. In 1747 St. Salvator's (1450) and St. Leonard's (1512) Colleges were united under the name "United College of St. Salvator and St. Leonard." St. Mary's College (1537) has, since 1579, been restricted to the teaching of Theology. University College, Dundee (1880), was affiliated to and made to form part of the University in 1897.

LIBRARY. 250,000 piinted vols (some of 15th and 16th centuries). MSS include fine Persian specimens and large folio Antiphonarium. College Library at Dundee. Museums at St. Andrews—Anat., Anthrop, Ethnol, Geol, Mineral, Nat. Hist.; at Dundee—Geol, Med., Nat. Hist LABORATORIES at St. Andrews—in all above depts. except Med., also Chem. (with special Research lab), Marine, Physics, Physiol., Bot. Garden. At Dundee—Anat., Bact., Chem., Embryol, Engin (Elec., Hydraulic, Mech), Mat Med., Maths., Nat Hist, Physics, Physiol

FACULTIES. Divinity, Arts, Science, Medicine. Deans: Principal Galloway, Prof. Blyth Webster (English), Prof. Herring (Physiology), Prof. Charteris (Materia Med.).

Degrees, etc. Courses for graduation in Arts and Science are given both in the United Coll., St. And., and in Univ. Coll., Dundee, some being given in both places, some—Greek, Hebrew, Hist., Moral Philos., Pol. Econ.—only in St. And, some—Engineering—only in Dundee; Mcdical, after the first two yrs., and Dental solely, in Dundee, where facilities for chnical instruction are available. Here also are provided courses in Scots Law and Conveyancing. Associated with the Univ. is the Dundee School of Social Study and Training.

The MA. Course includes a General and a Special examn. The former, which must be completed before proceeding to the Special, embraces at least 5 subjects, of which Latin or Greek must be one, another must be either Maths or Philos, at least two must be Linguistic, and at least one Scientific. Foreign students may take Arabic or Hebrew in lieu of Latin or Greek. In the Special examn, two cognate subjects must be taken, the whole examn, being passed at one time.

The B Sc. Oldmary degree in Pure Science involves a 3 yrs.' course, embracing at least 4 subjects with a 1st examn. (4 subjects) and a 2nd (2 subjects); the Honours degree involves a 4 yrs.' course (the last year being devoted exclusively to advanced study in the Hons. subject) with 2 examns.—a 1st in 4 subjects and an Honours in one.

Diplomas: Education, for graduates who complete the first year of the EdB course, D.P.H., 12 months, LDS., 4 yrs; LLA. (for women), attendance on courses not required, standard about the same as that of the ordinary M.A.; Social Study, 2 yrs after obtaining M.A. or BSc. Certificate in Social Study for non-graduates over 21 with good general educn., 2 yrs.

FFES for Tutton. M.A, £47.5s, Hons MA, £63, B.Sc, £80, B Sc. (Engineering), 90 gs.; B.Sc. Hons, 90 gs.; MB, ChB, £182. Combined Courses: M.A. and B Sc, 112½ gs, MA and MB, Ch.B., £208; MA., B.Sc. and MB, Ch.B., £236, B Sc and MB, Ch B, £220. The above do not include fees for hospl. ticket or cases of labour, or laboratory fees for use of apparatus, etc. Maximum fee for Research students, 5 gs. a term. Degree fees for M.D or Ch M, 20 gs.; D.Litt. or D.Sc, 15 gs; Ph.D., L.D.S., or D.P.H., 10 gs; B Phil. or B.Litt., 6 gs. Dipl. or Certif in Social Study, 4 gs. Dipl. in Educ. £4, 14, 6.

RESIDENCE. University Hall for Women (Warden) at St. Andrews, £66 and upwards p.a, exclusive of turtion fees. Hostel for women students, Dundee (Warden), £62:10s. p.a. Chattan House for men (Warden) at St. Andrews, £56 p.a. and upwards, exclusive of turtion fees.

Scholarships for Graduates 14, annual value about £1711, v also p 274 Scholarships tenable in other countries. Guthrie £135 p.a. for 4 yrs.), tenable at Oxford or Cambridge or (with special permission) at a foreign Univ.; Rainsay (£150 p.a. for 2 yrs.), Bruce (£150 p.a. for 2 yrs.), and Berry (£160 p.a. for 2 yrs.) may, with permission of United College, be tenable in another Univ. or Institution.

An Alumnus Association was founded in 1926.

Publications. Calendar (Sept.), 3s. 6d.; U. Coll., Dundee, Calendar, 6d.; Students' Repve. Council's College Echoes (St. And.) and The College (Dundee).

#### THE YEAR 1927-28

Benefactions. Tullis, Russell & Co, a Russell Residential Entrance Schol'p of £100 p.a, tenable for 4 yrs, an anonymous donor, £2000 for a Patrick Hamilton Residential Entrance Schol'p, tenable for 4 yrs.; an anony-

mous donor, £300 for a David Marshall Prize in the Dept. of Humanity; an anonymous donor, £300 for a James Forrester Prize for Greek; Students' Welfare Committee, £2300 for Students' Welfare; Dr. G. Forbes, the Library of his father, the late J. D. Forbes.

#### RECOGNIZED COLLEGES AND TEACHERS

MUNICIPAL COLLEGE OF TECHNOLOGY, BELFAST, v. supra—Commerce and Tech. The complete course for the B.Sc. in Engineering or in Textile Technology may be taken at this college.

#### GENERAL INFORMATION

Queen's College, incorporated in 1849, was dissolved in 1909 on the constitution of the Queen's University of Belfast.

LIBRARY, 101,000 vols. Museums: Class. Archæol., Nat. Hist., Medical, Materia Medica. Laboratories: Chemistry ("Donald Currie"), Engineering ("Harland"), Physiology ("Jaffé"), Pathology and Bacteriology ("Musgrave"), Bio-Chemistry and Bacteriology ("White"), Physics, Anat., Bot., Geol., Pharm., Zool., Agric. Hospitals available for Clinics.

3 general, 10 special (Fever, Maternity, Women, Children, Ophth., Eye, Ear and Throat, Consumption, Lunacy, Skm).

FACULTIES. (1) Arts (including Music), (2) Science (including Civil Engin.), (3) Law, (4) Medicine, (5) Commerce, (6) Applied Science and Technology, (7) Agriculture, (8) Theology. Dept. of Dental Science. Deans of Faculties: Profs. (1) M'Elderry (Arts), (2) Charlesworth (Science), (3) Baxter (Law), (4) Symmers (Med.), (5) Meredith (Commerce), (6) Hummel (App. Science), (7) Robertson (Agric), (8) M'Elderry (Theol).

DEGREE COURSES. 3 yrs.—B.A., B Sc, B Sc, in Engin. or Textile Tech., LL B., B Com.Sc.; 4 yrs.—B. Agr., B.D.S.; 5 yrs. (of which 2 may be in other approved Univs or Med. Schools)—M B, B Ch., B A O.; 2 yrs.—LL B course and B.D course for graduates of this or another Univ.

The courses in Elec. and Mech. Engin. are taken in the Municipal College of Tech. 3 yrs.' day or 5 yrs.' evening classes in the M.C.T. qualify for B.Sc. in Tech. 3 yrs.' day or 5 yrs.' evening classes in the M.C.T. qualify for the B.Com.Sc. Evening classes in a subject do not qualify for the B.Sc. unless the candidate has concurrent day-time employment in some technical or commercial branch of the same subject.

Diplomas. Educn. (1 or 2 yrs.); Higher Dipl. in Educn. (for graduates)

HIGHER DEGREES. The M A may be taken by a B A. I yr. after graduation (examn. or thesis or independent research). The (1) D Lit and (2) LL D. are conferred on grads, of this Univ distinguished in (1) letters, or in literary, philos., or hist. research, or (2) Law, or in legal or historical research; they may be obtained by thesis also. The MSc. is open to a B.Sc. of the Univ. and grads, of other Univs, holding a degree of similar rank after the lapse of not less than I yr. from graduation (thesis or independent research). The D Sc is open to grads, of this Univ. 3 yrs. after graduation in any faculty. It is conferred for research or scientific work in relation to Science pure or applied, or for distinction in Science, Engin., or other practical application of Science. The M.D., M.Ch., and M.A O. are open to graduates in Medicine of 3 yrs.' (if also graduates in Arts or Science, 2 yrs.') standing by examn. or thesis. The M.Agr. may be conferred on a B.Agr. of the Univ. or a graduate admitted ad eundem after 2 yrs, for a thesis or independent research. The D.D. is open to grads in Divinity of this or other approved Universities of at least 6 yrs.' standing. As regards Ph D see p. 18.

FEES. Enrolment (annual), 3 gs. Class fees, annual (inclusive)—Arts, 11 gs.; Engineering, 21 gs.; B Com.Sc, 11 gs.; Dipl Educn (2 yrs.), 12 gs.; MB, B.Ch, 25 gs.; B.Sc. or B.Agric, 22 gs.

Scholarships, etc., for Graduates of the Univ. Studentships of £50: 5 in Arts, which may be raised by £25 and continued for a 2nd yr.; 417 Science. Special grants to Med. graduates for original research or clin study. Mackay Wilson Travelling Med. Schol'p, £100. Musgrave Studentships in Path., Physiol., Physics, Biol., and Chem., of £200 p.a. for research. Four other Studentships of the aggregate annual value of £330.

RESIDENCE. Women's Hostel. Board and residence per annum, about £52. Board and lodging obtainable in the town from about 30s. a week upwards.

There is a Queen's University Club which meets in London. Secy., Dr. J. P. Martin, 9 Harley St., London.

RECOGNITION OF OTHER UNIVS. Students from other approved Univs. may apply for exemption from a year's attendance for first degree, attendance

and examn. in some of the subjects for first degrees in Arts and Science, in consideration of equivalent courses and examns. elsewhere.

UNIVERSITY EXTENSION lectures by members of the Univ. Staff are given in Belfast and other towns.

Publications. Calendar (Oct.), 2s.; Students' mag., The Northman.

#### THE YEAR 1927-28

NEW BUILDINGS. New Building for Faculty of Agriculture opened.

New Posts. Professorship in Pharmacology and Therapeutics. Lectureships in Materia Medica and Therapeutics, Geography, Agricultural Chemistry, Agricultural Botany, and a Lectureship and Directorship of Extra-mural studies. Assistantships in German, Logic, and Psychology, Agricultural Chemistry, Agricultural Botany. Research Secretary appointed in the Dept. of Economics.

Honorary Degrees  $\;\;LL\;D$  —His Grace the Duke of Abercorn, Governor of Northein Ireland

Students. Full-time. total, 1011, including 30 graduates Part-time: total, 209, including 25 graduates

Degrees. D D, 1; M.D, 9; Ph.D, 2, M A, 11, M Sc, 11, B A, 77; B.Sc., 40; LL B, 5, M B, 65, B Cont Sc, 8, B Agr, 3, B.D S, 1, D P H, 15; L.D.S, 6; Dip. in Ed, 44.

#### ASSOCIATED COLLEGES

MAGEE COLLEGE, LONDONDERRY, for first three years of B.A. course.

CHURCH OF IRELAND TRAINING COLLEGE, KILDARE PLACE, DUBLIN. The two-years' course of training for teaching in elementary schools is conducted partly at Trinity College, Dublin, and counts towards the Dublin B.A. subject to the candidate qualifying in Latin and a modern foreign language before proceeding as "Sophister" (3rd year).

#### GENERAL INFORMATION

Trinity College was founded and incorporated by Royal Charter in 1592 as "Mater Universitatis," but no other College has been founded, so that "Dublin Univ." and "Trinity College" are practically interchangeable terms. The Corporation of the College was put on its present basis by Letters Patent of 1911 transferred the powers of making statutes from the Crown to the Corporation. The general government of the Univ. is in the hands of the Board of Trinity College, which consists of the Provost, Senior Pellows, 2 representatives of Junior Fellows, and 2 representatives of the non-Fellow Profs. The Univ. Council, formed by representatives from the various Faculties and Schools, has the right of appointment to most Professorships, and in conjunction with the Board can make changes in the curriculum, but otherwise has only advisory functions. The power of making new statutes was reserved to the Crown until 1911, when by Letters Patent this power was given to the Board subject to the consent of a majority of the Fellows and the approval of the Visitors.

The College occupies a large site in the middle of the city, with ample grounds for the athletic clubs.

The Library of Trinity College has enjoyed since 1801 the privilege of receiving a copy of every book published in the United Kingdom. It contains over 390,000 printed books, amongst which there is in the Fagel Library a group of early pamphlets relating to the Dutch and English East and West India Companies The MSS. are over 2000 in number, and include an important collection in Irish. A General Catalogue of the MSS. was published in 1900, and a Revised Catalogue of the Irish MSS. in 1921. A Catalogue of Printed Books in the library in 1872 was published in 1887 and distributed to the world. There is a Lending Library, which includes 6000 vols. bequeathed by the late W. E. H. Lecky; and smaller libraries in the Schools of Mod. Langs., Med., Maths., and Nat Scs.

MUSEUMS. The scientific museums include Zool and Comp Anat., Geol. and Mineral., Surg. and Med., Path., Mat. Med., Anthropom., Engin. Models, Nat. Philos. The Zoological are among the best collections in the country. The series of vertebrate osteology is extensive. Attached Laboratories offer all facilities for research work. The collection of Geological and Mineralogical specimens is also extensive.

LABORATORIES. Anthrop., Bio-Chem., Bot., Chem., Geol., Histology, Mat. Med., Mech. Engin., Pathology, Physical (Iveagh), Physiol., Zool.

HERBARIUM (rich in plants of N. America, India, S. Africa, and Australia). Botanic Gardens, 8 acres.

The Astronomical Observatory of Trinity College is at Dunsink, 5 miles from the College. It is the official residence of the Royal Astronomer of Ireland

Ample facilities for clinical studies and many appointments for graduates

are available in numerous Hospitals, including the well-known Rotunda. The Irish High Court is situated within a short distance of the College.

PROFESSIONAL SCHOOLS. Divinity, Law, Physic, Engineering, Indian and Home Civil Service, Agriculture, Forestry, Music, Education, Commerce.

MATRICULATION. See Appendices XX. and XXII.

Degrees. Every student must take the B A. before proceeding to any other degree, except those in music and B.Sc., M.Sc., Ph.D. The course lasts 4 yrs., but it is only necessary to keep 2 out of the 3 terms in each, or 8 in all. It is also possible to complete the course within 3 yrs. from entrance by taking the final examn, of the 1st yr at the time of entering and keeping all 3 terms of the 2nd yr. However, all students not in a professional school or taking the B.Sc. course are required to attend Arts lectures in every term, unless specially exempted (e.g., those earning their living by teaching). If exempted they are permitted to keep all of their 8 terms by examn, instead of by attendance.

For the first 2 yrs (Junr and Senr. Freshman) all subjects are compulsory: Algebra, Geom, Trig., Mech, Logic, Engl. Essay, Latin, Greek or French or Irish or German. After the examn. ("Little-Go") at the end of the 2nd yr. wide freedom of choice is allowed of subjects for the remaining (Junior and Senr. Sophister) yrs., and exemption from one subject is granted to Law, Engin., Comm., and Div students For Med. students there is a specially reduced Arts course throughout.

Pass Arts teaching, mainly given by the Tutor Fellows, is partly of a catechetical nature. Every student must choose one of the Tutor Fellows (see list above) as his Tutor and should apply to him for all information before and after entrance.

The Honour B A—known as a Moderatorship—can be taken in 11 different groups (viz 1 Math, 2 Class., 3 Ment and Mor Philos, 4 Exp Sc, 5 Nat Sc., 6 Hist. and Pol Sc., 7 Mod. Lit., 8 Leg. and Pol. Sc., 9 Eng. Sc., 10 Celtic, 11 Oriental Lang), and undergraduate honours in the same subjects (except Nos. 9 and 11) can be obtained in each academic year and in most subjects in each term. The course lasts four years in the case of Nos 1, 2, 4, 5, 6, 7, three years in Nos. 3 and 10, and two years in No. 8. Instruction in these Honour courses is given partly by the Profs. and partly by the Tutorial staff.

A B.A. of three years' standing may be admitted M A. There is no examn for this, nor is a thesis required.

The B.Sc. is obtained by a four-year course consisting of 12 terms of lectures and 4 examns. In the first two years English, Fiench, German, Mathematics, Physics, and Chemistry are compulsory. In the last two years the student studies 3 subjects chosen from Physics, Chem., Bot., Zool., Physiology, Anat.

A B.Sc. with hons, is obtained by passing an examn, identical with Moderatorships (see above) in Experimental or Nat. Science.

The B D. is obtained by an examn open to all grads in Arts, and the D.D. is open to any B.D., eight years after taking B.A., and is awarded on a thesis or published Theol work

The LL.B. course covers 2 yrs.; the M.B., B.Ch., and B.A.O., 5 yrs.; B Dent Sc., 4 yrs.; B A I., 3 yrs (optional 4th yr. in Elec and Mech. Engin.), Agr.B. or Agr. (Forest) B, 4 yrs., of which 3rd and 4th are taken in Univ. Coll (N.U.I.); B.Comm., 3 yrs The M.Sc and Ph D. (v. p. 18) involve postgraduate study and research for 1 yr. and 2 yrs. respectively.

A candidate for the Sc D. or Litt D. must have at least 3 yrs.' standing as B.A., and submit important original work; for LL.D. must be of M.A. standing—a thesis or examn. is required; for M.D. must have taken the M.B.

degree and be of M.A. standing; for M.Ch. must be a B.Ch. of 3 yrs.' standing; for M.A.O., a B.A.O. of 2 yrs.' standing; a thesis or examn. is required for M.D., an examn. for the M.Ch. or M.A.O. A candidate for M.Dent.Sc. must be a B.Dent.Sc. of 1 yr.'s standing, and pass an examn.; for M.A.I. must have practised his profession for 3 yrs. after graduating as B.A I. The Mus.D. is granted after an exercise or practical test.

DIPLOMAS IN Agric, Educn. (Primary and Higher), Econ. and Comml Knowledge, Elec. Engin, Gynac. and Obst. (1 yr. course), D.P.H., Religious Knowledge (women).

License in Engineering (first two years of Arts course and complete course in Engineering). License in Med., Surg., and Obst. Science.

Certificate in Engineering (complete course in Engineering, but without Aits course).

Testimonium in Divinity (2 yrs 'course).

RECOGNITION OF OTHER UNIVS., ETC. Credit is allowed for terms kept at Oxford or Cambridge, but no student or graduate of any other Univ can take the B.A unless he has kept at least 2 yrs. at Trinity College No student can take any medical degree unless he has attended at least 3 yrs in Trinity College.

A B.A., B Sc., or M A. of any of the undermentioned Univs may be allowed credit *pro tanto* for the first 2 yrs. and the examn held at their expiration Aberd., Belf., Birm, Brist., Edin., Glas., Leeds, Liver., Lond, Manch, St And, Sheff, Wales, and Nat Univ. of Ireland.

A student who has passed two years in Arts studies at any of the undermentioned Univs and passed the examns belonging to that period is given credit pro tanto for the first academic year: Adel., All., Bom., Cal., Dacca, Dalh., McGill, Madr., Mel., N. Brun., N. Zea., Panj., Patna, Syd., Tas., Tor., King's Coll. (Windsor, N.S.).

A student who has passed the Matricn examn of any Univ in S Aftica, including Latin, Maths, and either French, German, Dutch, or Greek, is admitted without further examn, and, if a Med. student, is excused the Prelim. Med. examn. Medical students are given credit for lectures and examns. in Zool, Bot., Chem., and Physics of any S. African Univ, and also for lectures and practical work in Anat and Physiol, but not for the examns. in these last two subjects. Courses in Path. and Bact. at Cape Town and Witwatersrand are also recognized.

A student who has passed the Interm examn, of any Univ in S. Africa is permitted to present himself at the Final Freshman  $\epsilon$ xamn, with exemption from those subjects in which he has already passed at the Interm. examn

A student who has passed the B.A. examn of any Univ. in S. Africa is allowed credit for the 1st two collegiate yrs and for the Final Freshman examn.

To students admitted to advanced standing the entrance fee is remitted and in most cases some of the half-yearly Arts fees

In keeping terms students from S. Africa are allowed to substitute Dutch for French or German, when 2 languages are required.

Students from S. Africa should write to the Senior Lecturer for fuller information.

Students in Medicine at any "Grade A" Univ, USA., or at any Dominion or Colonial Univ, may make application to the Dean of the School of Physic for recognition of work done by them. They will be treated according to the general lines adopted in the case of S. African students.

No recognition gianted under this scheme will exempt a student wishing to take the Dublin degree from spending at least three full years of Med. study in Trin. Coll

FEES. Entrance, £15; Composition for all Arts and Science Lectures, 20 gs pa.; Medical course total (including Hospitals and Degree fees), about £150; Dental Science total, about £200; Engineering, (3 yrs.) £50 (minimum), in addition to Arts Tuition fees; Divinity free for students in Arts, 20 gs. p.a. for others; Commerce, £47 (if Arts Course is taken), £80 (for external students).

Among Scholarships, Prizes, etc., open to Graduates are: Two studentships of £100 offered at the B.A. degree examn.; prizes from £50 upwards to selected honour graduates with conditions of study and research attached. Madden Prize Fund £424 p.a. awarded to unsuccessful candidates at Fellowships examn. or for research work or as a Travelling Scholarship. Travelling Prize, £100 in Medicine or Surgery (3 mos. to be spent in Berlin, Paris, or Vienna). A number of other prizes, etc. (including the National Hist., nearly £400), are open to graduates under M A, standing

Residence. The College has accommodation for 320 students. Rent £9 to £20 p.a. for single sets, £14 to £32 for double sets of rooms; dinner in Hall, 14s a week. Trinity Hall accommodates 40 women, board and residence, £23 10s. to £28 10s. per term of 10 weeks. There is also a hostel for Divinity students of the Church of Iteland

Publications Calendar (Oct.), 4s, includes information as to courses, results of examns, degrees conferred, etc; special Suppt. (occasional), lists of past honours, benefactors, etc Examn. Papers of the several Honour schools; of the several Professional schools; of Entrance examns. and prizes; and of Pass Arts, are published in pamphlet form at is, per set. The final War List has been published, plice 2s. 6d Book of T C.D., 1591-1891, 21s (Hodges, Figgis & Co, Dublin). Hermathena (occasional), original papers in Aits subjects. T C.D. (Students'), 3d weekly.

### THE YEAR 1927-28

Benefactions From beneficiaries of the late G L. Cathcart, £4000 for the College Botanical Gardens Bequest of H. W Mackintosh, late Prof. of Zoology, £3381 7 6. Rockefeller Trustees, £2000 to Adrian Stokes Memorial Fund, in addition to £789 subscribed by his friends. Sir Thomas R Lyle, F.R S, £1000 for general purposes Friends of Miss Isabella Mulvany, LL D, £800 to found a Scholarship in her honour.

Legislation Chair of Applied Chemistry suppressed Professorship of Sanskrit and Comparative Philology changed to a Lectureship Right to compete for Fellowship extended to graduates of any University approved by the Board of Trinity College.

New Developments. Trinity College (Dublin) Association founded. Lectureships in Bio-Chemistry, Bio-Physics, Sanitary Construction and Planning, and Education Rockefeller Foundation Fellowship in Public Health (R. A. Q. O'Meara).

RESIGNATIONS. L. C. Purser, Litt.D., resigned his Senior Fellowship. Prof. S. Young retired.

DONNELLAN LECTURER. Canon B. H. Streeter, D.D.

Honorary Degrees. Ltt.D.—E. MacNeill, P. J. A. Meillet, J. G. Robertson. Sc D.—G. L. Streeter. M.Ch.—Sir John Bland-Sutton. M.A.—G. Fletcher, Margaret Huxley.

STUDENTS. June 1928: Arts, total 1011, including 96 graduates. In addition, 135 medical students not at the time on the books in Arts, and 92 primary teachers in training.

DEGREES. D.D., 3; LL.D., 2, M.D., 8; Litt.D., 2; Sc.D., 4; Ph.D., 4; B.D., 2; M.A., 69; M.Ch., 1, M.Sc., 4; B.Sc., 2; LL.B., 15; M.B., 45; M.A.I., 1; B.A.I., 13; B.Dent.Sc., 2; B.A., 185; Mus.D., 1; Licentiate in Medicine. 1.

#### GENERAL INFORMATION

Queen's University in Ireland, founded in 1850, was replaced in 1880 by the Royal University of Ireland, which was dissolved along with Queen's College, Belfast, on Oct. 31, 1909. On this date the National University of Ireland, Univ. College, Dublin, and Queen's University of Belfast came into being, and the Colleges previously known as Queen's at Cork and Galway became with the new College at Dublin constituents of the N.U.I.

FACULTIES. (1) Arts, (2) Philosophy and Sociology, (3) Celtic Studies, (4) Science, (5) Law, (6) Medicine, (7) Engineering and Architecture, (8) Commerce. Music is included in Arts and Celtic Studies. Classes are held in all Faculties at each of the constituent Colleges, and in 1, 2, 3, and 4 at Maynooth

DEGREES B.A., M.A., D.Litt., B.Mus., D.Mus., D.Litt.Celt.; B.Sc., B.Agr.Sc., M.Sc., M.Agr.Sc., D.Sc.; LL.B., LL.D.; M.B., B.Ch., B.A.O., M.Ch., M.A.O., M.D., B.Sc. and D.Sc. in Pub. Health, B.D.S., M.D.S.; B.E., B.Arch., M.E., M.Arch.; B.Comm, M.Comm; Ph.D.

Course for a First degree in any faculty—9 terms in one of the Constituent Colls. or St. Patrick's

The M.Sc., M Agr Sc., D.Sc, B Sc, Pub. Health, M.E., M.Arch., Ph. D. may be conferred on graduates or other students for research under prescribed conditions in the Univ or in a Constituent Coll during at least 3 terms for a Master's degree or 6 terms for the Doctorate. The duration prescribed for the course of study and research for the Ph.D. is 9 terms (reducible to 6). See p. 18.

Diplomas are offered in the subjects of Faculties 1, 3, 8, and in several others; certificates in Commercial subjects. A Higher Diploma in Educa, may be obtained by a graduate of any Univ of the U K. or other approved Univ. after a course in one of the Constituent Colls.

FEES. Matricn., £3. Combined examn. and degree, £9 to £21. Diplomas £2 to £5.

STUDENTSHIPS, ETC., FOR GRADUATES. Five of £200 each, tenable for 2 yrs. outside Ireland (to which a prize for a further year of Irish Historical Research may be added), open to graduates of the Univ. of not more than 4 yrs.' (one in Medicine, 2 yrs.') standing; one of £150 in Mental and Nervous Diseases; one of about £40; prize of £100 for Irish Historical Research.

Publication Calendar (July), 25.

### THE YEAR 1927-28

College of Science for Ireland, Dublin: Transference to University College, Dublin—By the provisions of the University Education (Agriculture and Dairy Science) Act 1926 of the Irish Free State the functions of the College of Science have been transferred to University College, Dublin, and special provisions have also been made by the Act for the establishment of new Faculties of General Agriculture and Dairy Science in the University Colleges, Dublin and Cork respectively, with endowment for each of those Faculties. In connexion with the transference the buildings of the College of Science have been leased to University College for a period of minety-nine years, subject to certain reservations for the accommodation of Government Departments. By the Act equivalent appointments in University College were required to be offered to existing officers of the College of Science.

The same Act also transferred the Albert Agricultural College and farms to University College, Dublin, on lease for the purposes of the new Faculty of General Agriculture, and existing officers similarly received equivalent appointments therein. New Statutes provide for the organization of the new Faculty, which by its special endowment will provide for a wider development of higher instruction in Agriculture and research related to it than formerly. The Faculty of General Agriculture is placed in University College, Dublin. Apart from the

Faculty of General Agriculture in the Dublin College, the main effect of the transference of the College of Science is a limitation in duplication of buildings and equipment in overlapping subjects

The Laboratories are fitted throughout with all modern appliances Facilities for technical research in all branches of Chemistry, e.g. extraction of metals, production of metallic alloys, glazes, enamel, glass, pigments, paints, coal-tar derivatives, peat products, synthetic drugs. Engineering Pattern Shop, Foundry, Smithy, Machine Shop, examples of types of engines aggregating 700 H.P. Hydraulics and Hydraulic Machinery Labs. Testing Machines recording up to 100 tons. Elec Engin Labs. with D.C. and A.C. machines. Extensive Physics, Agric, and Nat. Sc. equipment.

LIBRARY with 59,000 Scientific and Tech. books, 10,000 pamphlets, numerous maps, etc

#### GENERAL INFORMATION

Queen's College, Cork, founded in 1845, became a constituent College of the N.U I. in 1908.

LIBRARY: 100,000 vols., including the d'Aibois de Jubainville collection of Celtic works, the Shaiman Crawford Library, the Wilson Historical Library, the Sexton Anglo-Indian Library. Museums: Archæol., Ethnol., Geol., Mineral, Nat Hist, Med

LABORATORIES. Agr, Biol., Chem., Engin (Testing, 200,000-lb. machine, and Hydraulics), Geol, Physics, Medical School. Botanical Gardens. Observatory with 8" equatorial and 11" photo. telescopes, seismograph, and 4" siderostat.

Complete Courses provided for all degrees and diplomas of the Univ, except 2 years in the B.Sc Agric course. Students are also prepared for the examns of the Univ. of London. The College Certificate in Dairying (2 years' course) must be obtained by all those who wish to become creamery managers in Ireland.

Commerce students can do 6 mos 'practical work in railway or accountants' offices, etc

FEES for tuition, including College fee: Arts, £45; Science, £76; Engin., £73; Med, £165, including Hospl fees, Dentistry, £185, including Hospl. fees; Music, £39.

RESIDENCE. Hostel for men and hostel for women (charitable trust, R.C only); students are supervised by Officers of Residence.

Publications. Calendar (Easter), 6d , Sessional Lists (June), 6d.

### THE YEAR 1927-28

NEW DEVFLOPMENTS A new Entrance Bridge was begun President Cosgrave laid the foundation stone of the new Institute of Dairy Science Two new Lectureships (Dairy Accountancy and Economics, Municipal Engineering) were created Three new 100ms for the Irish Department were built. About 5000 additions were made to the Library. The Geology Museum was transferred in order to provide for a special History Library.

STUDENTS. Full-time, 428, including 65 graduates Part-time, 21.

DEGREES OBTAINED. B.A., 49, MA, 4; BSc, 8; MSc., 7, B.Comm, 8; MB, ChB., BA.O, 36, MD., 1, M.Ch, 3, MAO, 1, BDS., 1; B.E., 12; Ph.D., 2.

#### GENERAL INFORMATION

Queen's College, Galway, opened in 1849, became a constituent College of the N.U I. in 1908.

LIBRARY. 50,000 vols. LABORATORIES Physics, Chem., Biol, Physiol, Path, Geol., Engin. Museums Nat Hist, Mat. Med, Gynæc., Anat. Dept.

Degree Courses in Arts, Celtic, Science, Law, Med, Engin., Commerce. Courses for Diplomas in Educn., Irish Studies, Commerce, and Public Health.

Med. degree students are required to spend 1 yr at a Metropolitan Hospl. after a 4 yrs.' course in the College and 2 yrs. in the Galway Hospitals.

Fees. College, £2 (women, £1) Degree courses (approximately): Arts, £26; Science, £30 to £45; Law, £12; Medicine (including 2 years General Hospital fees), £78; Engineering, £46; Commerce, £32 Post-graduation or research course, £5.

Scholarships open to students of the Coll on graduation: 4 of £30.

RESIDENCE The cost of board and lodging for a student varies from 26s. to 30s. a week. Every student is required to register under a Dean of Residence, who exercises supervision over the general conduct of students outside the precincts, and every woman student under a Lady Supt., who exercises supervision over their conduct within the precincts of the College.

Publications. List of licensed lodging-houses, free; College Calendar (1s 4d.), Regns. for Degrees and Courses (8d.), Regns. for Scholps. and Diploma in Educn. (2½d); Gaeltacht Scholarships (1½d), from O'Gorman and Co., Galway; Univ. Examin Papers (post free, 1s. 8d), from Supervisor of Examins., Univ. Coll.

## THE YEAR 1927-28

STUDENTS. Full-time, 227, including 27 graduates. Part-time, 80. Degrees obtained. D.Litt., 1, B.A, 17, BSc, 3, LL.B., 1; M.B., 16;

## CANADIAN UNIVERSITIES

In Nova Scota: Acadia, Dalhousie, King's College, St Francis Xavier. In New Brunswick New Brunswick, Mount Allison. In Quebec: Bishop's College, Laval, McGill, Montreal In Ontario: McMaster, Ottawa, Queen's, Toronto, Trinity College, Victoria, Western Ontario. Western Provincial Univs: Manitoba, Saskatchewan, Alberta, British Columbia.

#### GENERAL DESCRIPTION

[Contributed by A Stanley Mackenzie, Ph D., D.C L, President of Dalhousie Univ, President for 1920 of the Conference of Canadian Univs. An account by President Walter C. Murray, of the Univ. of Saskatchewan, of "University Development in Canada" is to be found in the Transactions of the Royal Society of Canada, Third Series, 1922, vol. xvi.]

It is probably not true to say that Canada has evolved a distinctive type of Univ, and yet Canadian higher institutions of learning differ in many ways from the corresponding institutions in the British Isles and in the United States One might divide Canadian Univs into groups, determined by the prototype after which each was consciously or unconsciously modelled In the first group are those which followed closely the Oxford tradition - King's, New Brunswick, Bishop's, Toronto, and some of its federated colleges (University, Trinity, Wycliffe) The Univs in the second group are those which modelled themselves on Edinburgh, viz Dalhousie, McGill, Queen's Laval in Quebec, Laval in Montreal (which has lately changed its name to that of the Univ of Montreal), and Ottawa have followed closely the forms and tradition of France The four western provincial Univs of Manitoba, Saskatchewan, Alberta, and British Columbia, and especially the three last, bear a close resemblance to the State Univs of the United States The Univs which have not been named are perhaps more free from direct imitation of older types

As the years have gone by, all these institutions, while maintaining individuality and evidences of their original form, have tended to uniformity in many important regards. Thus, they all require four years for the Bachelor (Pass) degree in Arts or in Science. Again, they have a common standard of preliminary education for admission to the course leading to these degrees. This standard is that attained by a satisfactory completion of three years of a High School course superimposed on eight years in the common schools. This standard is called Junior matriculation. If a pupil has successfully completed the fourth year of the High School course in the proper subjects, or passes the equivalent Senior matriculation examination, he can enter the second year and complete the course for the degree in three years. This practically amounts to saying that High Schools or Collegiate Institutes which have a fourth year course give in that year about the same work

as is done in the first year of the Univ. course for the Pass degree. In Ontario the High School Course leading to Junior Matriculation standard covers four years instead of three.

JUNIOR MATRICULATION. Students can satisfy the Entrance requirements of the Univs. either by examination or on certificate from a standard High School or accredited Preparatory School or Collegiate Institute or School, provided such certificate shows a Pass in the Required Subjects of matriculation. These required subjects differ somewhat from one Univ. to another. Practically all Univs require for candidates for the B.A. degree the following six subjects. (1) English, (2) History, (3) Algebra (through quadratics), (4) Geometry (at least four books), (5) Latin, (6) a second foreign language. There is in nearly every Univ. a seventh subject, it is usually a science (in some cases specified, in others elective), but in many cases a third foreign language is accepted instead.

Where a course in Pure Science is given leading to the degree of B Sc the requirements are as above, except that the two foreign languages are French and German

There is much more variation in the requirements for entrance to the courses in Applied Science or Engineering, but the best schools of Applied Science require in addition to the requirements (1) to (4) of Arts, Advanced Algebra, Advanced Geometry, Trigonometry, Physics, Chemistry, and at least one foreign language.

The curriculum for students of Medicine has been undergoing a change in all the Canadian Schools At least a year has been added to the length of the course at each Univ In general the course of study requires 6 years. In Toronto Univ. these must be taken in the Medical School. In some of the other Univs the 1st year may be taken in any recognized Arts College, in others the first 2 years (which are largely pure science) may be so taken. The grade of scholarship required as preliminary to this 6-year course at all the Schools is that of Senioi Matricn, except at Queen's, where it is Jumor Matricn, and at Montreal Univ, where it is the B-ès-A Manitoba requires 2 years of premedical Arts and Science preparatory to a five-year course in Medicine.

There has been a similar advancement going on in the standard of preliminary education required of students seeking admission to the study of Law At all the Schools the Law course proper extends over 3 years. Dalhousie, McGill, and Manitoba require 2 years of Arts before admission to this course, the other Law Schools require, in general, the equivalent of one year of Arts.

A year has been added to the standard of preliminary education required of students entering upon the study of Dentistry. It is now the equivalent of the first year of an Arts course. McGill has increased it to 2 years, and this standard may soon become general. The Univ. of Toronto requires only Pass Matriculation for admission to Dentistry, but prescribes a five-year course for the degree.

ARTS COURSE. Speaking very generally, one can say that about onehalf of the course for the degree of BA. is prescribed and the other half elective, but these elective subjects are commonly to be distributed among certain broad groups of allied subjects in a specified way, varying with the individual Univs The prescribed work includes English, History, two foreign languages, one of which is usually Latin (British Columbia and Manitoba require only one), Philosophy, Mathematics, and Science. In the case of the B Sc. degree in Pure Science the two foreign languages required are French and German.

A feature of Canadian Univs which distinguishes them from the typical Univs. of the United States is the provision made for the ambitious student and the student who wishes to specialize during his course for the BA degree This is accomplished by the provision of the system of Honour courses In this system a student who shows the necessary aptitude is permitted to take special classes, which in some instances are in extension of the regular classes, and in other cases are restricted to Honour students In some Univs the Honour classes are confined to the third and fourth years of the course, in others, as in the case of Toronto, they are given in all four years, and there is also a special Honour matriculation In general, also, the number of prescribed classes is reduced, so that the student not only goes more deeply into each subject, but specializes to a greater extent than the Pass man is allowed to do On the completion of an Honour course the student receives a degree with Honours No small measure of the academic success of Canadian students in post-graduation work in home and foreign Univs 15 to be attributed to this system

By a proper combination of studies a student can complete a combined course for the degree in Arts or Science and that in a professional faculty in a year (in some cases, two years) less than the sum of the years required for each.

LENGTH OF SESSION The Canadian Univs open about October 1, and close in May or early in June The average length of the session is 32½ weeks for all faculties, except those of Medicine and Dentistry, which are 4 weeks longer. Of the 32½ weeks, 26 are given up to actual lecturing, and the remainder to vacations, examinations, and closing exercises.

CONSOLIDATION OF THE COLLEGES IN THE MARITIME PROVINCES. During the last few years a great deal of attention and consideration has been given to this question, which in one form or another is a century-old problem (see article by Murray referred to above) come prominently to the fore now because of the impossibility of so many small institutions (mostly sectarian) in a region containing only a million people being able to keep pace with the financial demands of modern education The Carnegie Foundation for the Advancement of Teaching was invited to send experts to make a survey of the situation. They did so, and made a report, in which they advised that all these institutions should move to Halifax and join with Dalhousic, already there, in forming a strong central University. Each constituent was to maintain its name, identity, individuality, organization, and funds. but give up its examining and degree-granting powers (except in Divinity) to the Univ. The Colleges should not teach the scientific subjects nor those subjects for which there would be a small demand.

which should be given by the Univ. In general, the Colleges should restrict themselves to the Humanities. The Univ. would conduct all professional schools. The Colleges were to be residential. It will be seen that the scheme was something between that of Oxford and that of Toronto. It was a fair inference to be drawn from the report that. if the various institutions in question would get together, and the governments concerned make a grant-in-aid to the central Univ, the Carnegie Corporation of New York would give the scheme very generous Representatives of the educational institutions and interests held many conferences and agreed upon a scheme of consolidation, and the Carnegie Corporation promised a gift of \$3,000,000. At this stage the scheme was halted, for the time being at least, by the refusal in succession of the Univ. of New Brunswick (non-sectarian), St. Francis Xavier's College (Roman Catholic), and Acadia College (Baptist) to enter it the meantime, King's College (Anglican) has moved from Windsor to Halifax, and entered into a close association with Dalhousie Univ The students of both institutions are taught as one (non-sectarian) body by the combined staffs, except in certain freshman classes (and in Divinity) King's holds in abevance her degree-granting powers (except in Divinity), and the Univ. conducts all examns and grants degrees. On the understanding that King's would raise the sum of \$400,000 for the erection of the necessary residential buildings, the Carnegie Trustees undertook to provide \$600,000 to be used as an endowment for the payment of an instructional staff for the combined students. Mount Allison College (Methodist) will not come to a decision until the recently united Methodist, Presbyterian, and Congregational bodies in Canada have had time to give the matter the fullest consideration. The Roman Catholic dioceses outside of that of Antigonish, in which is St. Francis Xavier's College, have the matter under consideration. There is no degree-granting educational institution in the adjoining colony of Newfoundland, but the various interests there are very favourable toward the general scheme of a confederation of the educational forces of Eastern Canada. They have recently organized a Junior College at St. John's for the first two years of the work for the Arts degree. The Carnegie Corporation has promised a grant-in-aid for a period of five years.

The Eleventh National Conference of Canadian Universities was held at London, Western Ontario, May 30, 31, June 1 and 2, 1927 The subjects discussed were. "Is Canadian Education fulfilling its Purpose? (Principal Sir Arthur W Currie's Presidential Address), The Challenge of Modern Education, The Work of the National Research Council, Training of Teachers for Secondary Schools, Use of Tests and Measurements in College Work, Degree Courses in Agriculture, The Place of Music in a University Curriculum, Dental Education, Weakness in English, Decline in the Study of Classics, The Present Standard of Mathematics, Student Health Education, Student Insurance, Modern Languages, The Master's Degree" Report can be obtained from the Secretary, Dean G H Ling, Saskatchewan

President for 1928—President L. S. Klinck.

# DEGREES IN DIVINITY FOR STUDENTS BELONGING TO THE ANGLICAN CHURCH IN CANADA

The Church Universities and Theological Colleges in Canada having entered into an agreement to adopt a uniform standard for degrees in Divinity, all such degrees are now only conferred in accordance with Canon X of the General Synod of Canada, and only on examn by a Joint Board, including the Archbishop of Rupert's Land (Chairman), and representatives of the Univs. of King's, Bishop's, and Trinity Colleges, Montreal Diocesan, Wycliffe (Toronto), Huron (London, Ont.), St. John's (Winnipeg), Emmanuel (Saskatoon), St Chad's (Regina), Anglican Theol. Coll of B.C.

#### NOVA SCOTIA TECHNICAL COLLEGE, HALIFAX

This institution represents the principal effort of the province in education of It is supported entirely from provincial revenues University grade a co-operative agreement, a uniform matriculation and a uniform engineering course covering the general work of the freshman and sophomore years is carried out entirely in the Univs. of Acadia, Dalhousie, King's, Mount Allison, St. Francis Xavier, and St. Mary's College. On successful completion of this course, the student proceeds to the Technical College without examn, for the professional work of the last 2 of the 4 yrs.' course. Here the studies are differentiated and the student elects either Civ., Elec., Mech., or Mining Engineering. The degree given is that of B.Sc. The Technical Coll. confines its attention entirely to the work of the junr. and senr. yrs. It is equipped principally for teaching the engineering courses and commercial testing of industrial materials and natural resources, and incidentally for scientific Tuition fees \$75 p.a Twenty county scholarships of \$75 p.a. are available for Nova Scotians. The buildings and equipment represent a provincial investment of about \$600,000. [Contributed by the Department of Educn., N.S.]

#### MARINE BIOLOGICAL STATIONS

Under the control of the Minister of Marine and Fisheries through the Biological Board of Canada, two Atlantic Stations at St. Andrews, N.B., and Halifax, N.S., and two Pacific Stations at Nanaimo and Prince Rupert, B.C., are open to duly qualified and recommended university graduates from June to Sept. The Halifax Station, established in 1925 for educational and experimental work in connexion with fisheries, co-operates with Dalhousie Univ. and the Technical College. The more fundamental research is carried on at St. Andrews and at Nanaimo. Publications: Annual Prospectus and series of Reports, Bulletins, studies and popular leaflets. Directors: Prof. A. G. Huntsman of Toronto (Atlantic) and Dr. W. A. Clemens (Pacific).

#### THE CARNEGIE FOUNDATION FOR THE ADVANCEMENT OF TEACHING

The object of the Foundation, which was established in 1906 with resources which now amount to 30 million dollars, is to provide retiring allowances and pensions, and, "in general, to do and perform all things necessary to encourage, uphold, and dignify the profession of the teacher and the cause of higher education." It operates both in the U.S.A. and in Canada. The following classes of persons are eligible for retiring allowances: (i) A person in an institution on the associated list who (a) is 65 years of age and has served not less than 15 years as professor, or not less than 25 years as instructor or as prof. and instr., or (b) has served 25 years as prof. or 30 years as

instr. or as prof. and instr., and who is shown by medical examn. to be entirely unfitted by disability for continuing the work of teacher; (2) a widow who has for 10 years been the wife of any teacher of class (a) or (b). The direction of the Foundation is entrusted to a board of 25 trustees, mostly university and college presidents. The offices of the Foundation are at 522 Fifth Avenue, New York City.

The list of associated institutions includes Alberta, British Columbia, Dalhousie, McGill, Queen's, and Toronto. Up to June 1927, 1403 allowances had been granted, including 74 in Canada and 5 in Newfoundland.

In addition to its work in connexion with the payment of pensions the Board of Trustees has undertaken the issue of various publications and their free distribution. Among these are bulletins on Medical Education in Europe, Education in the Maritime Provinces of Canada, Games and Sports in British Schools and Universities, and the Quality of the Educational Process in the United States and Europe.

#### NATIONAL COUNCIL OF EDUCATION

The National Council of Education, Canada, was organized at a Conference on Education in relation to Citizenship held in Winnipeg in 1919. With the co-operation of Universities and Departments of Education the Council is developing a Bureau of Education, and has organized a system of National Lectureships whereby eminent lecturers are brought from Great Britain to Canada. The Bureau facilitates exchange of information between the provincial departments of Education, the diffusion in Canada of ideas and information from outside the Dominion and vice versa. Triennial Conferences on Education are held, the next of which will be in Vancouver in 1931. The Executive Secretary's address is Boyd Building, Winnipeg

Canadian Students in the Universities of the United Kingdom, v. Appendix XXI.

SCIENTIFIC AND INDUSTRIAL RESEARCH, v Appendix XXIII

STATISTICAL TABLES relating to Canadian Universities and Colleges are published by the Dominion Bureau of Statistics, Ottawa, in its Annual Survey of Education in Canada, price 50 c.

#### GENERAL INFORMATION

Founded in 1838 by the N.S. Baptist Educational Society, Acadia College was incorporated in 1840 by Act of the N.S. Legislature, with the powers of a University. In 1896 an endowment of \$100,000 for the Theol. Dept. was received under the will of G. P. Payzant. The Board of Governors is appointed by the Baptist Convention of the Maritime Provinces, but the students are subject to no religious tests

LIBRARY. 65,000 vols. Museums Biol, Ethnol, Geol., Hist. LABORATORIES Biol, Chem, Geol, Physics, Engineering Observatory Meteor. and Astron

DEPARTMENTS. Arts and Sciences, Theology, Applied Science, Household Economics, Music.

Degree Courses. 4 yrs.—B.A., B.A. (Theol.), B.Sc, B.Sc. (Hd.Ec.); 3 yrs.—B.Mus.; 1 yr. (graduate study)—M.A., B.D., The B.Sc. Engineering courses enable graduates to enter the 3rd year classes of McGill Univ. and N.S. Tech Coll. Some of the B.A. and B Sc. courses enable graduates to enter the 2nd yr. of the Dalhousie Law School, Halifax, and the Med. Dept. of McGill Univ., respectively.

FEES for tuition: in Arts and Sc. or Theol., \$112 (board provided at \$7 to \$7.50 per week, including room), in Appl. Sc. (2 yrs.), \$220. Lab. fees extra, about \$30.

RESIDENCE. College hostels provide accommodation for 70 men and 128 women.

Publications. Bulletin, 25 cents pa.; Calendar, number issued in July.

## THE YEAR 1927-28

BENEFACTIONS. \$239,000.

NEW BUILDINGS. New Science Hall for Biology and Geology.

EXTRA-MURAL WORK. Correspondence-study Department w.th 30 students.

HONORARY DEGREES. D.D.—W. E. Boggs. D.Litt.—J. C. Carlile, N. M. MacTavish. D.C.L—C. A. Eaton, A. A. Shaw, H. P. Whidden.

STUDENTS. Full-time · total, 510, including 24 graduates.

DEGREES. B.A., 43; B.Sc., II; B.Sc.H.Ec., IO; B.D., I; B.A. (Th.), 7; B.A. (Mus.), I; M.A., 7.

St. Aidan's College and Hostel (Anglican)—affiliated 1919. Warden—Rt Rev. H. A. Gray, D.D., LL.D., Bishop of Edmonton.

St. Joseph's Catholic College (Arts). Rector—Rev. Brother Rogatian, F.S.C. Affiliated to the Univ. in May 1926 as an Arts Coll. working under the authority of the Senate; occupies a site on the Univ. Campus on which a combined residential and teaching building has been erected.

THE PROVINCIAL INSTITUTE OF TECHNOLOGY AND ART, Calgary, is under the authority of the Department of Education. Affiliated May 13, 1926. Principal—W. G. Carpenter, B.A, LL.D

#### GENERAL INFORMATION

Telegraphic address-VERA (A.B.C. Code).

The University, created by Act of the Provincial Legislature, 1906, originally consisted of a Chancellor, Vice-Chancellor, Senate, and Convocation. By amendment the office of President was created 1907, and a Board of Governors 1910, the latter being given financial and administrative control, while the Senate was restricted to educational supervision. Student residences, Athabaska, Assiniboia, and Pembina Halls, were opened in 1911, 1912, and 1914 respectively, while the main teaching and administrative building was com-In 1912 extension work, conpleted in 1915. Classes began September 1908 ducted from the beginning, was departmentalized under a Secretary. In the same year a Faculty of Law was created. Subsequent expansion involved the establishment of Faculties of Applied Science and of Medicine, 1913, Faculty of Agriculture, 1915; courses in Pharmacy and in Dentistry, 1914 and 1917 respectively; in Household Economics, 1918; in Commerce and in Public Health Nursing, 1921. In 1919-20 the extraordinary increase in the number of medical students necessitated the construction of a new Medical In the same session the creation of the office of Director of the School of Pharmacy completed the evolution of the School from a Department under the Faculty of Medicine to an independent unit The Provincial Legislature has established a close relationship between the Univ and the Professions, and the Senate now has jurisdiction over the educational standards of Architects, Chartered Accountants, Dentists, Engineers, Land Surveyors, Lawyers, Pharmacists, Physicians and Surgeons, Registered Nurses, Optometrists, and Veterinary Surgeons

The University grounds, 637 acres, beautifully situated on the wooded south bank of the Saskatchewan, include provision for the accommodation of affiliated colleges and afford ample room for expansion. Edmonton is a city of about 67,000 inhabitants, the capital of the Province of Alberta.

LIBRARY, 30,000 vols. LABORATORIES for all scientific courses; museum; herbarium; farm; agricultural experimental plots

FUEL TESTING LABORATORY For the detailed study of the chemical and physical properties of Alberta coals; also for investigating industrial problems such as coking, carbonizing, briquetting, combustion, storage and purification of coal.

Research Laboratories of Department of Field Crops. These laboratories have been developed during the past six years for the investigation of special problems underlying crop production in Western Canada. Progress has been greatly facilitated by grants-in-aid of special researches received from the National Research Council—The programme of investigation covers such important problems as the nature of resistance to frost, drought, and disease, methods of eliminating false wild oats, and factors affecting the milling and baking qualities of wheat.

FACULTIES Arts and Sciences (including Household Economics, Pharmacy and Commerce); Applied Science (Civil, Mining, Chemical, and Electrical Engineering and Architecture); Medicine (including Dentistry and Nursing); Law; Agriculture

MATRICULATION examns are conducted in April and Sept., under control of High School and Univ. Matricn. Examns. Board of the Province Equivalent examns by recognized authorities in the British Dominions are accepted pro tanto for admission.

Degree Courses. 4 yrs.—B.A., B.Sc. in Arts, B.Com, B.Sc. in Household Ec, in Engin (Civ., Elec., Chem, or Mining), in Archit, or in Pharmacy, 3 yrs (after qualifying in a Provincial Sch. of Agr.)—B.H Ec (in Household Econ), B.Sc in Agric; 6 yrs.—M D, 5 yrs.—B Sc. in Nursing, LL B., D.D S. Combined B.A. and B.Sc. in Agric—6 yrs.; B.A. and B.Sc. in Applied Sc.—6 yrs.; B.A. and M D.—8 yrs; B.A. and LL B—6 yrs. The Agric. course is preceded by preliminary training at one of the Provincial Agric. Schools

A Bachelor may obtain the M.A. or M Sc by  $\tau$  yr. of advanced study or investigation or the B Ed by 2 yrs. of advanced study. The D Sc is conferred for distinction in original research in the field of science. The B D is open to B A. students of affiliated Colls. on completion of approved courses. The LL.D. is honorary.

OTHER COURSES For Licence in Pharmacy; Correspondence Courses for Teachers (Senr. Matricn. subjects); Summer Session in co-operation with the Summer School for Teachers conducted by the Provincial Dept. of Educn., 3 mos' course in P H. Nursing for Registered nurses; Provincial Dairy School short courses; 3 yrs' course for qualification of Regd. Nurse.

A system of Exchange Lectures is carried on in co-operation with Manit , Sask , and British Columbia Universities.

Fees, tuition per session Arts (including 4 yrs.' degree courses in Pharmacy and Household Economics and 1st yr Commerce), \$75 to \$85, subsequent years B Com, \$90 to \$100, Appl Sc, \$75 to \$125, Law, \$100 to \$110; Med, \$130 to \$190, Dent, \$130 to \$210, Agric (including 3 yrs' course Household Economics), \$50 to \$60. Licentiate Pharmacy, \$90 to \$120 Students' Union, \$10, Med Service, \$5, Library, \$5.

RESIDENCE, ETC 4 Halls of residence (including 1 belonging to an affiliated Coll.), with accommodation for 525. Fees for room and board for the session, \$259; board only, \$25 per month Social life is under supervision of Provost, a Univ officer All undergraduates are members of Students' Union.

UNIVERSITY EXTENSION work includes lectures at local centres, publication of material for debating and public discussion, travelling and packet libraries, and lantern slide and cinema services.

Publications Calendar (June), Press Bulletin, weekly, by Dept. of Extension, The Trail, quarterly, by Alumni Assocn; The Gateway, weekly, The Evergreen and Gold, annually, by students.

## THE YEAR 1927-28

Benefactions Bursary of 11,000 f., gift of the French Govt. for study in France.

New Buildings Extension to University Hospital for accommodation of orthopædic patients.

EXTENSION WORK Lantern slides sent out, 1774 sets; films, 474 sets; ectures, 309; travelling libraries, 228, radio lectures, 268, University Week or Farm Young People.

VISITS OF TEACHERS TO AND FROM OTHER UNIVS. Prof. G. S. Sedgewick, Head of the Dept of English, Univ of British Columbia, Prof. F Allan, Head of the Dept of Physics, Univ. of Manitoba; Prof. J. A. MacDonald, Head of

the French Dept., Univ. of Saskatchewan; Dean E. A. Howes of the Faculty of Agriculture to the Univs. of Saskatchewan and Manitoba.

DEATH. Hon. Nicholas Dubois Dominic Beck, Justice of the Supreme Court of Alberta, Chancellor of the University (1926-27).

Honorary Degrees. *LL.D.*—The Hon'ble J. E. Brownlee, Premier of Alberta; H. M. Tory, retiring President of the Univ. of Alberta, President of the National Research Council.

Students. Full-time: total, 1234, including 106 graduates. Part-time: total, 302.

Degrees. B.A., 60; B.Sc. in Arts, 13; B.Com., 6; B.Sc. in Pharmacy, 1; B.Sc. in Household Economics, 8; B.Sc. in Civil Engineering, 2; B.Sc. in Electrical Engineering, 10; B.Sc. in Mining Engineering, 4; B.Sc. in Chemical Engineering, 3; B.S.A., 3; B.Sc. in Agriculture, 9; LL.B., 14; M.D., 17; D.D.S., 7; B.Sc. in Nursing, 1; M.A., 13; M.Sc., 15; B.Educ., 2; B.D., 1.

#### GENERAL INFORMATION

The College, founded in 1843, was in 1853 by Royal Charter constituted a University with power to confer degrees. It is administered by a Corporation consisting of the Anglican Bishops of the Province and Trustees and Council appointed by them jointly The Bishops of Montreal and Quebec are President and Vice-President respectively of the Corporation and Visitors of the College.

The College provides ordinary and Honours courses for the B.A. degree, covering 3 yrs, and a 2 yrs.' course for the L.S.T. Divinity is a compulsory subject in each of the years of the ordinary course. Terms kept in other Univs. may be counted up to 2 yrs. Clergymen of the Dioceses of Quebec and Montreal may proceed to the B.A. by examns. without residence if of 6 yrs.' standing, and on a reduced period (1 or 2 yrs.) if of 4 or 2 yrs.' standing.

Examns, are conducted for degrees in Music.

FEES. For tuition, \$125 p.a. for an Arts student; \$75 p.a. for a Divinity student; board and furnished lodging with heating and lighting, \$325 p.a. Publication: Calendar (Oct.).

THE YEAR 1927-28 Honorary degrees. D.C.L.—Prof. E. E. Boothroyd, Hon. T. Chapais, Hon. R. Lemieux, Rt. Rev. D. T. Owen. Number of Students. Full-time, total, 156. Degrees: B.A., 36; M.A., 2; L.S.T., 7; B.D., 1; D.D., 1.

Prof. of *Engl.* and *Philos*, H. Ruth Humphrey, B.A. Mt All, B.A. Ox., Instr. in *English*; Mme. E. Sanderson-Mongin, Asst. Prof. of *French*, J. A. Cunningham, B.A. (Qu.), Asst. Prof. in *Biol*; W. H. Gage, M.A. B. Col, Instr. in *Maths*.

Union College of British Columbia, Vancouver (United Church of Canada)—Registrar, J. Carruthers, M.A., D.D., Principal, J. G. Brown, M.A., D.D.; and The Anglican Theological College of British Columbia, Vancouver—W. H. Vance, M.A., D.D., both affiliated in 1922.

#### GENERAL INFORMATION

Telegraphic Address-UBRICO.

An Act of the Provincial Legislature was passed in 1890 establishing a University of British Columbia, but it lapsed in 1891. Vancouver High School was affiliated to McGill for the first year in Arts under the name of Vancouver College in 1899. In 1902 Victoria High School was similarly affiliated as Victoria College. In 1906 the Royal Institution for the Advancement of Learning of BC was incorporated, and established the McGill Univ. Coll. of B.C., taking over, by agreement, the Arts work of Vancouver College (extended in 1908 to include the 3rd yr. in Arts), and adding 2 yrs of Applied Science In 1907 Victoria College was incorporated in the Univ Coll The connexion with McGill was brought to a close in 1915, when the University of British Columbia, incorporated by an Act of 1908, and endowed with 2,000,000 acres of land, was opened, with provision for a complete course in Arts and 3 vrs in Applied Science. In 1920 all lands in the Province which had been set aside for higher education reverted to the Provincial Government, but it was arranged that the net proceeds from the sale of lots or lands in an area of 3000 acres at Point Grey should be paid into a "University Endowment Account." The University site consists of 548 acres on the headland of Point Grev. 300 feet above the sea. Here a group of buildings constructed at a cost of nearly \$2,000,000 was opened in Oct. 1925.

The Board of Governors consists of the Chancillor, elected by Convocation, President, and 9 nominees of the Lieut.-Govr in Council. The Senate consists of the Minister of Educin, Chancellor, President (as Chairman), Deans, and 2 Profs. of each Faculty, 3 nominees of the Lieut.-Govr. in Council, Supt. of Educin, principals of normal schools, one member elected by high school principals and assist, one by Provl Teachers' Inst, one by each affiliated Coll or School in the Province, 15 by Convocation

The Univ. is an integral part of the public educational system of the Province, and its function is to complete the work begun in the public and high schools. It is the policy of the Univ. to promote education in general and, in particular, to serve its constituency through three channels—teaching, research, and extension work. As regards teaching it furnishes instruction in the various branches of a liberal education, and in those technical departments which are most directly related to the life and industries of the Province. The people of the Province are informed of the results of special work by the staff of the Univ. through extension lectures. Lecturers are sent to various parts of the Province during the examination weeks in Dec. and April. In places which can be visited without prejudice to the duties of the lecturer at the Univ., lectures are arranged to take place during term.

The LIBRARY has nearly 65,000 vols. and over 10,000 pamphlets, and regularly receives 500 periodicals. LABORATORIES available for all courses.

A Forest Products Lab. (with two Olsen Universal Testing Machines of 200,000 and 30,000 lb. capacity respectively and one Hatt-Turner Impact Testing Machine) was established in 1918 by the Forestry branch of the Dept. of the Interior as a permanent branch of the FP Labs. of Canada. Herbarium, 16,000 sheets native flora, 200 water colours B C Fungi. BOTANICAL GARDENS, Arboretum and economic section, 5 acres.

FACULTIES. Arts and Science, Applied Science (Civil, Elec., Mech., Forest, Geological, Metallurgical, Mining, and Chemical Engineering, Chemistry, Nursing and Health), Agriculture (including Dairying and Horticulture).

Pension Scheme. In 1924 a contributory plan of retiring allowances for members of the teaching staff was adopted, contracts being placed with the Teachers' Insurance and Annuity Assocn. of America The same year the Univ. was associated with the Carnegie Foundation for the Advancement of Teaching, v. p. 342

MATRICULATION examns., Junior and Senior, are arranged by the High School and Univ. Matrice Board of the Province, consisting of members appointed by the Dept. of Education and by the Univ. Every student is submitted to a physical examn. on entrance to the University.

Degree Courses BA, 4 yrs (3 from Senior Matricn) B.A Sc. in Applied Science, 5 yrs (4 from 1st yr in Arts or Senr matricn). BS.A., 4 yrs. from Juni matricn Double course, BA and BA.Sc., 6 yrs Courses for the MA, MASC., and MSA Short courses in Agric at the Univ. and elsewhere 1 yr course in Public Health for graduate nurses Occupational course of 1 yr in Agriculture Evening Courses, with summer excursions, in Botany.

SUMMER SESSION. In 1922 the summer school for teachers became the summer session. Teachers and others with full Matrich standing may pursue Univ. courses and receive credit therefor towards the B.A. degree

FLES, inclusive, \$100-\$150 per session. Graduation, \$20

Scholarships for Graduates \$200 awardable to graduate for further studies, three of \$100, one being for Applied Science and one for Canadian History, \$1200 p a. for 3 yrs. for study in France, one of 10,000 francs for study in France.

RESIDENCE. Board and lodging in vicinity of the College from \$40 to \$50 pm

University Extension. Numerous lectures have been given under Univauspices in different centres in the province, but adult education has not yet been given the status of a Department. The selection of speakers and of subjects is made by a Standing Committee on Univ. Extension, which provides series of connected lectures throughout the winter. Short courses of 4 days' duration have been conducted for a number of years with marked success. Present indications are that 3-yr. tutorial classes will not be organized in the Univ. for some time. The Vancouver Institute co-ordinates efforts of various organizations in the field of adult education.

Publications Calendar (April), Agricultural Bulletins.

## THE YEAR 1927-28

STUDENTS. Full-time: total, 1741, including 113 graduates. Short Courses: Summer Session, 1927, 487. Agric, 116; Occup Course (Agr.), 13; Public Health Nursing, 5; Botany, 37.

DEGREES. M.A., 16; B.A, 172; M.A.Sc., 1, B.A Sc., 27; M.S A, 1; B.S.A., 7.

CONVENT OF THE SACRED HEART (Mother Superior, Madame Naud) AND MOUNT ST. VINCENT ACADEMY (Mother Superior, Mother Berchmans). Recognized for Advanced Standing in 1st and 2nd years in Arts.

#### GENERAL INFORMATION

Dalhousie College, founded in 1818 by the Earl of Dalhousie, was in 1841 granted Univ. powers, but was closed in 1845 for want of sufficient funds. In 1863 it was reorganized and opened with a staff of 6 Professors. In 1877 the Faculty of Science was organized, and from 1879 development proceeded rapidly with the help of the benefactions of George Munro of New York (\$350,000), Alexr. McLeod of Halifax (\$65,000), and Sir Wm. Young (\$88,000). The Faculty of Law was established in 1883, the School of Mines in 1902. In 1911 the Halifax Mcdical College, into which the Faculty of Medicine (organized in 1868) had been merged, was acquired by the Univ., and the College of Pharinacy was established with its co-operation. In 1912 the work of the Maritime Dental College was taken over by the Univ. In this year \$400,000 was collected for a new site (40 acres) and buildings, etc., towards which Andrew Carnegie gave \$40,000 Further benefactions amounting to \$200,000 were received in 1915–18. In connexion with centenary celebrations in 1919 subscriptions amounting to \$2,250,000 were obtained.

Appointments to the Board of Governors are made by the Govr -in-Council on the nomination of the Board or on the nomination, with the approval of the Board, of individuals or bodies supporting chairs.

LIBRARIES 55,000 vols. and 10,000 pamphlets Access also to Science Library—61,000 vols and pamphlets; Legislative—24,000 vols, Theol.—11,000; Law—18,000. Museums Ornith, Geol, Indian antiquities Access to Provincial Museum of Geol, Mineral, Zool. Laboratories Chem., Physical, Geol., Engin., Biol., Bio-Chem, Physiol., Histol., Pharm, Psychol.

FACULTIES Arts and Science (including Commerce, Music, Pharmacy, Fisheries, and Engineering), Law, Medicine, Dentistry

MATRICULATION requirements are articulated to the High School system of the Province which covers the 4 last years of the Public School 12-year course. The compulsory subjects for admission to the BA and LL.B courses are (1) English, (2) Maths, (3) Latin or Greek, (4) another foreign language, (5) History (British or Ancient), Physics, or Chem; B.Sc. and B.Com.—(1), (2), (5), two foreign languages; B Mus.—(1), (2), (5), French, German; M.D., C.M.—(1), (2), (4), Latin, Brit. Hist, Phys., Chem.; D.D.S.—(1), (2), Phys., Chem., Latin, Brit. Hist.

Degree Courses. 4 yrs.—B.A, B.Sc., B.Com.; 3 yrs.—LL.B., Mus.B.; 4 yrs.—D.D.S.; 5 yrs.—M.D., C.M. (taken together); 4 yrs. (following 4 yrs. practical experience)—B.Sc. (Phm), the first 2 yrs. of the Engin. course (v. p. 342). The M.D., C.M., and D.D.S. can be reached by concurrent courses in 8 yrs. The M.A. or M.Sc. is given on successful completion of an approved interpretable in a proved in the course may be pursued by graduates of Dalhousie wholly or in part by private reading, attendance at the Univ. being optional for them.

DIPLOMA course for the Lic Mus.—2 yrs. Music and Pharmacy courses are taken in the Affiliated Institutions, v. supra. A 6 mos.' course of training for Pub. Health work for trained nurses is provided.

FEES. For tuition, for each class (ex. lab. or draughting-room), \$22.50; lab or draughting-room class, \$30 Composition for tuition in Law, \$175 p.a.; Med, \$225 p.a., Dent, \$200 p a

SCHOLARSHIPS FOR GRADUATES. \$250 in Polit. Sc. for study in another Univ. Loan Funds for students have been instituted.

RESIDENCE. Hostel for 100 women students, erected at a cost of \$400,000. Dormitories are provided also for men students.

Publications. Calendar (July); Annual Report (Sept.); Gazette, \$1; Dalhousie Review, quarterly For description and photogravures of buildings, see Jour. Royal Arch. Inst of Can, Jan-Feb. 1926.

### THE YEAR 1927-28

New Development. In 1928 the University, with the co-operation of the Biological Board of Canada, established a course leading to the degree of B Sc. (Fisheries) for the training of scientific men for the advancement of the fishing industry. The general cultural classes and the purely scientific subjects will be given by the staff of the faculties of Arts and Science and Medicine. The classes in the technical operations of the fisheries will be given by the staff of the Biological Board at the Atlantic Experimental Fisheries Station on the harbour front. The Dominion Government is providing a special clean seawater station at the mouth of the harbour for class and research work in Marine Biology.

HONORARY DEGREE LL.D -Allan C. Johnson.

STUDENTS Full-time total, 823, graduates, 18.

#### GENERAL INFORMATION

Postal Address-King's College, Halifax, N.S.

Opened in 1789 at Windsor, N.S., the College was established with full University powers by Royal Charter in 1802. In Sept. 1923, following the recommendation of experts commissioned by the Carnegie Foundation for the Advancement of Teaching, who advocated the policy of bringing together the colleges of the Maritime Provinces in one central Univ. at Halifax, the Univ. removed to Halifax and became associated with Dalhousie Univ.—the first step towards a federation of the maritime colleges The staffs in Arts of the two Univs are combined in one faculty. The first year courses are given independently to the students of Dalhousie and of King's; but with this exception students of both institutions follow on equal terms the same courses leading to the same degrees. King's holds in abevance her degree conferring power in Arts and Science, but retains complete control of her Divinity School as well as of her present endowments, administration of residences, etc. Under the terms of the agreement between Dalhousie and King's, the Carnegie Foundation has set aside \$600,000, which will be handed over to King's when a sum sufficient to establish the College in Halifax has been raised. The School of Law which was established in connexion with the College, in St. John, N.B., in 1892, was transferred to the Univ. of New Brunswick in Sept. 1923, when King's College removed to Halifax. The Univ. is governed by a Board consisting of the Bishops of the dioceses of Nova Scotia and Fredericton and the President of the Univ. ex officio, together with 10 members elected by the Alumni Assocn, and 8 elected by each of the diocesan Synods.

Students from the JAMAICA CHURCH THEOLOGICAL COLLEGE who, after a residence of six terms there, pass the required examns. in the subjects of the Divinity course at King's, may receive the diploma of L.S.T.

# INSTITUTIONS ANNEXED OR AFFILIATED TO THE UNIVERSITY

["Annexion" implies absolute control by the Univ. of the programmes of study and of the nomination of the staff. "Affiliation" or—in the case of an institution outside the province of Quebec—"agrégation" involves control by the Univ. of examinations.]

ÉCOLE D'ARPENTAGE ET DE GÉNIE FORESTIER (Surveying and Forestry). Founded by Govt. and affiliated to the Faculty of Arts. Director, Avila Bédard, Prof. of Forestry 11 other Profs.

ÉCOLE AGRICOLE DE STE. ANNE DE LA POCATIÈRE, affiliated. Director, Prof. N. Pelletier. 12 other Profs.

École Supérieure de Chimie. Affiliated to the Faculty of Arts. Director, A. Vachon. 7 other Profs.

ÉCOLE NORMALE SUPÉRIEURE. Affiliated to the Faculty of Arts. Director, Prof. F. Pelletier 10 other Profs.

ÉCOLE DE MUSIQUE Affiliated to the Faculty of Arts. Director, J. A. Gilbert. 6 other Profs

ÉCOLE DE PHARMACIE Affiliated to the Faculty of Arts. Director, R. Guay. 4 other Piofs.

ÉCOLES DE GARDE-MALADES.

ÉCOLE SUPÉRIEURE DE PHILOSOPHIE. Director, Mgr. L. A. Paquet, D.D Rom, and 4 other Profs.

Grands Séminaires. (Pupils obtain the B en Th. by passing a certain number of quarterly examis, in the Seminary.) Québec (comprising Theol. students under its jurisdiction or following its courses); Ste. Anne de la Pocatière (Coll. de Stc. Anne); Rimouski; Chicoutimi; Nicolet; Trois Rivières.

Enseignement Secondaire Moderne et Classique. Numerous institutions are affiliated to the Univ under conditions providing for complete preparation for Inscription and the Baccalauréat.

#### GENERAL INFORMATION

The Univ. was founded by the Seminary of Quebec in 1852 under a Royal Charter. A general supervision of teaching and discipline is exercised by the Archbishop of Quebec as Visitor and Chancellor Apostolic and President of the Conseil Supérieur of Archbishops and Bishops of the Province. The Profs. of the Faculty of Theology are nominated by the Visitor, those of other leachlites by the Conseil de l'Université, composed of the Directors of the Seminary of Quebec and 3 Senior Profs. of each Faculty.

LIBRARIES, 173,016 vols MUSEUMS Mineral., Geol, Bot., Zool., Ethnol., Relig., Paintings, Coins. Laboratories: Chem, Phys., Bact., Biol., Physiol.

FACULTIES. Arts (with Schools of Surveying and Forestry, Chemistry and Training for Teachers annexed), Theology, Law, Medicine.

Degree was, and still is, reached in the Univ. of Paris. The Baccalauréat (B. ès A., etc.) is not the equivalent of any of the English Degrees, but is an official certificate (recognized by the Govt) that the student has successfully completed his literary and scientific studies, and is entitled to begin his professional studies in law, medicine or applied science. It is obtained before he leaves the affiliated Institute, Seminary or College at which he has studied. Students who reach a certain standard in both Letters and Sciences obtain the B ès A.; those who reach this standard in either and a certain lower standard in the other obtain the B. ès L. or B. ès Sc. The course for the Licence covers 2 yrs. in Philos. (L. en Ph) or Letters (L ès L.); 3 yrs. in Theol or Law (L. en Th. or Dr). To obtain the D. en Ph. or D. en Dr. it is necessary to support successfully in public a thesis and propositions as in other French Univs. The D en Th. and D. en M. or M.D. are granted after examn.

The complete medical course formerly lasted only 4 yrs., but since Jan. 1909 has, in accordance with the regns. of the Provincial Coll. of Phys. and Surgns., been framed so as to cover 5 yrs. The Baccalauréat, however, may be taken on the completion of 2 yrs. The Doctorat gives admission to the examn. for the Diploma of M.R.C.S. Lond. Inscription in Arts is recognized as corresponding to the Prelim. examn. of the R.C.S. Lond. The examns.

for the Dipl. of Hygiéniste expert may be taken by a D. en M. after a 6 mos.' course.

The Diploma in Forestry and in Surveying implies 4 yrs.' study in the Sch. of Surveying and Forestry.

The new Ecole de Chimie provides a 4 yrs.' course leading to a Licence and to a Doctorate in Chemistry.

RECOGNITION of the B. ès A. of Laval is accorded by the Univs. of Rome, of France and of Louvain, and by Canadian Univs, and some of those of the U.S.A.

FEES for tuition, \$100 to \$185 p.a.

SCHOLARSHIP OPEN TO GRADUATES. \$400 p.a. for 2 years.

Publications Annuaire (July), Canada Français, Literary Review, Enseignement secondaire, Pedagogic Review, Bulletin médical

#### THE YEAR 1927-28

NEW AFFILIATION Académie Commerciale.

INTERCHANGE OF TEACHERS Lectures by Doctors from Paris and Lille were given. Ten graduates went abroad for study.

DEATHS. Dr G. Ahern, Dr. J. Gosselin, Dr. F. E. Francœur, Prof. H. Simard.

HONORARY DEGREES LL D—E Lapointe, Lucien Cannon, Justice Prud'homme, Justice Prendergast. D.S.A.—L P Roy, H. Barton, H. Howes Students. Full-time, 2456. Part-time, 525.

Degrees B ès A., 175; B ès Sc, 35, B. ès L., 10; M.B., 29; M.D., 45; LL.B., 4; Lic Phil, 7; Lic.Dr, 21, Lic Theol, 6; B.Th, 6, D.Th., 4; Diplomas in Chem, 6; Nursing, 17, Music, 101, Agric., 9.

#### AFFILIATED INSTITUTIONS

ACADIA, ALBERTA, MT. ALLISON, AND St. FRANCIS XAVIER UNIVS. Students who have completed the 2-yr. course in Engin. of these Univs. are admitted directly to the 3rd yr. in McGill Engin. courses.

GRADUATES OF THE ROYAL MILITARY COLLEGE, Kingston, are admitted to the 3rd yr. in McGill Engin. courses. Graduates and students of the Mechanical Science course of Cambridge are admitted to advanced standing in the Faculty of Appl. Sc. Particulars obtainable from the Dean of the Faculty.

Truro Agricultural College. Students who have completed the 2-yr. course of study are admitted to the 3rd yr. in the Faculty of Agriculture at Macdonald College.

#### THEOLOGICAL COLLEGES

DIOCESAN COLLEGE OF MONTREAL. Principal, G. Abbott-Smith, M.A, D.D., D.C.L

PRESBYTERIAN COLLEGE, MONTREAL. Principal, D. J. Fraser, M.A., LL.D. UNITED THEOLOGICAL COLLEGE, MONTREAL. Principal, J Smyth, B.A., D.D., LL D

Students enter after graduation or pursue courses concurrently in Arts at the Univ., in Theol. at the Coll.—6 yrs. in all.

#### GENERAL INFORMATION

The Hon. James McGill, of Montreal, who died in 1813, bequeathed 46 acres of land, with some buildings and £10,000, to found a college, and in 1821 the Royal Institution for the Advancement of Learning, the trustees for the purposes of the bequest, obtained a Royal Charter (amended in 1852) under which the work of teaching was begun in the Faculties of Arts and Med. in 1829. The Governors are the members of the Royal Institution above mentioned. Their number is limited to 25, and vacancies are filled by nomination of the remaining members, with the approval of the Visitor. The Govrs., Principal, and 50 Fellows (representing faculties and depts., grads., affild colls., and other bodies) constitute the Corporation, the highest academical body, which frames regulations. The Peter Redpath Museum was opened in 1882, the Redpath Library in 1893, Royal Victoria Coll. in 1899, the Conservatorium in 1904. Macdonald College was opened in 1907, and in 1911 Sir Wm Macdonald purchased for the use of the Univ., at a cost of \$1,117,640, 25 acres of land, destined for students' residences and athletic grounds. The same year \$1,550,000 was raised for the Univ. chiefly from Montreal citizens. Sir Wm. Macdonald bequeathed nearly \$2,000,000, of which \$500,000 was for the Medical Faculty and \$300,000 for the Conservatorium. In 1918 the Carnegie Corporation, New York, gave \$1,000,000 in recognition of McGill's service and sacrifice in the Great War. In 1920 the sum of \$1,000,000 was given by the Rockefeller Foundation for the Faculty of Medicine; \$1,000,000 by the Provincial Govt. for general purposes; and \$4,400,000 was raised from the graduates and the citizens of Montreal as a general endowment. Income from Investments, about \$1,100,000.

SPECIAL FEATURES. The provision for instruction and research in Applied Science is exceptionally ample, especially in Engin. in all its branches. The Med School also is exceptionally strong. The new Biological Building was opened in 1922, the Pathological Institute in 1924, and the reconstructed McGill College (Arts Building) in 1926

LIBRARIES, 300,000 vols. (Medical, 38,000; large Ophth. Dept.) and 35,000 pamphlets; Peter Redpath collection of 10,000 political and religious tracts dating from a.d. 1600; E S. Wood Library of Ornithology; Blackader Library of Archit; Blacker Library of Zool.; Travelling Library; Gest Chinese Research Library. Laboratories: Chemistry, Physics, Zool., Bot, Physiol., Psych. Research, Agric. Research. Farm, Live Stock and Grain, 786 acres. Astron. Observatory. Medical Museum (Strathcona), said to be the finest in America; rich collection of disturbances of heart and vascular

system and aneurisms. Hospls. available for clinics, general—800 beds, several special.

FACULTIES. Arts, Law, Medicine (including Pharmacy), Applied Science (Archit., and 6 branches of Engin.—Chem., Civil, Elec., Mech., Metall., Mining), Agric., Dentistry, Music. The Univ. has also Schools of Commerce, Physical Educn, Graduate Nurses, Social Service, a Graduate School, and (in Macdonald Coll.) Household Science and a School for Teachers.

Admission. For candidates in Great Britain an examn. is held in London in June. particulars obtainable from W. A. Bulkeley Evans, M.A., 5 Paper Buildings, Temple, London, E.C.4.

DEGREE COURSES. 3 yrs.—B.C.L., Mus.Bac.; 4 yrs.—B.Com., B.A., B.Sc., B S.A., B.H.S. (Household Science), D.D S.; 5 yrs.—B Arch., M.D., C.M.

B.A. or B.Sc. (Arts) course combined with B.Com., 5 yrs., with Appl. Sc., Dent., or Theol., 6; Med., 8.

Med students of 4 yrs. standing of an approved institution may be admitted to the final examn, after one full session in McG. Recent grads, of approved Univs. may qualify for examns, by advanced courses or special research.

HIGHER DEGREES. Obtainable by 1 yr of resident graduate study at McGill, thesis and examn —M A., M Sc., M.S.A.; by 3 yrs. of graduate study —Ph.D.; by valuable contribution to legal science—D.C.L.; by a composition and examn. not less than 3 yrs after taking the Mus.Bac.—Mus.Doc; on recommendation of Board of Grad. studies—D.Sc., D.Litt

DIPLOMAS. Lic. Mus, DPH., Teachers', Pharmacy, Graduate Nurses', Physical Education, Social Science, Library Science.

WINTER COURSE IN AGRICULTURE. The Winter Course in the Faculty of Agriculture has been extended from one year to two years. This course is intended to provide a general education for boys who intend to farm, and equip them with such a technical knowledge of agriculture as will enable them to deal with the problems arising in connexion with their work. The work is so arranged that students may choose subjects that definitely relate to the type of farming in which they are most interested.

Closely connected with this extension is the "old country boy" project, under which boys from the British Islands are encouraged to take up this diploma course at Macdonald College so as to fit them for the work of farming, and every effort is made, not only to give them the theoretical education that is needed, but also the practical. Since this plan was put into effect a year or two ago forty-three boys, representing thirty English public and secondary schools, have been placed on selected farms.

ATTENDANCE at lectures at the Univ or Macdonald or Affiliated Coll. is indispensable.

Fees. Per annual session, Arts, \$125; Appl. Sc., \$205, Med., \$250; Dent., \$210; Law, \$155; Music, \$180, Commerce, \$150; Agriculture, residents of Canada, \$50, others, \$100; M.A. or Ph D. course, \$60. Graduation fee for M.A. or M Sc., \$20; Ph.D., \$30; D.Sc. or D.Litt., \$80.

Scholarships for Graduates. In Econ. and Polit. Sc., Allen Oliver, \$650; Canadian Manufrs. Assocn. and the Graduate Working Fellowship, \$800 each; Chem., Sterry Hunt, \$1000, Geol., Le Roy, \$700, Mining Research and Teaching Fellowships, 3 of \$500 each; Med. Research, especially Obstetrics and Gynæc., A. A. Browne Endowment, \$10,000 open to grads. of any recognized Med. school; Path. Research, J. Douglas Endowment, \$25,000; any subject, "Delta Upsilon," \$750; The Moyse Travelling Scholarships, 2 of

\$1500 each; Law, Macdonald Endowment, \$20,000; The New Jersey Zinc Company, \$1200; Hugh McLennan, \$1000.

RESIDENCE. Women, Roy. Vict. Coll.; men, Strathcona Hall (Y.M.C.A.), accommodation for 60. Physical Training is compulsory, and students are subjected to physical examn. on entering the Univ. Board and residence in Roy. Vict. Coll., \$500 per session; in private houses, \$60 p.m. and upwards; rooms only, \$15 to \$20 p.m.

McGill Union dining-room, accommodating 120 students at a time, provides inexpensive meals.

Publications. Calendar (June); Coll. Announcements (May to July); Annual Report (Dec.); McGill News, quarterly, by Graduates' Soc.; McGill Daily, by students, Lectures and Addresses; Catalogue of Scientific Periodicals in Canadian Libraries, 1924, \$5; McGill and its Story, 1821–1921, by Cyrus Macmillan (London, John Lane, New York, John Lane & Co.; Toronto, Oxford Univ. Press, \$3), A Historical Sketch of the Medical Faculty and of the Origin of McGill University, by Di Maude Abbott

#### THE YEAR 1927-28

Interchange of Student Teachers. A. J M Smith, M.A., holds the Teachers' Studentship as arranged by an interchange with the National Committee for the Training of Teachers, Scotland.

RESIGNATIONS DI R F. Ruttan, Director, Department of Chemistry. Dr. A. B. Macallum, Chairman, Department of Bio-Chemistry. Hon Mr. Justice Thibadeau Rinfret, Prof. of Comparative Law. Prof H. A Smith, Prof. of Constitutional and Federal Law, on his appointment to the Chair of International Law in the Univ of London.

Honorary Degrees LL D.—Sir Herbeit S Holt, Sir Vincent Meicdith, Bart., J A Thomson, M A, LL D., W. R Blair, D.V S, Canon H. J. Cody, D.D.; Sir Wilfred T Grenfell, C.M G, Georges Iles, Dr. J. C. Smith.

STUDENTS Full-tune total, 2818, including 179 graduates. Part-time: total, 99

DEGREES. B.A., 152, B Sc., 29, B Sc in Med, 3, B.Sc, 54, B Arch., 5; B G.L, 17; B S A, 13; D D S., 8, B.H.S., 5; Mus Bac, 1, M D, C M, 91; M A, 33, M Sc., 27; M S A, 1, Ph D, 8; B Com, 31 Diplomas. #### GENERAL INFORMATION

In 1887 Toronto Baptist College and Woodstock College, Woodstock, were united under the name of McMaster University, and their already existing endowments were increased by \$900,000, received under the will of the Hon. Wm. McMaster. The Board of Governors (16) are elected by the Baptist Convention of Ontario and Quebec. There is no religious test for entrance, but the Profs. and Lectrs must be members of some evangelical church. Moulton Ladies' Coll, Toronto (founded in 1888), is represented on the Senate.

LIBRARY, 28,000 vols. LABORATORIES: Phys., Biol, Chem., Mineral. Science Hall has 24 lecture rooms and labs.

DEGREE COURSES. 4 or 5 yrs., B.A.; 3 yrs. (after completing 2 vrs. of Arts course), B.Th.; 6 yrs., combined B.A. and B.Th. The first 2 yrs. in Arts do not necessarily involve attendance at lectures. Brandon Coll. provides instruction in Swedish for immigrants from that country.

The B.A. degree is recognized by the Univ. of London.

HIGHER DEGREES. Open to B.A after 1-yr. course (attendance at lectures not required)—M.A.; to B.Th. who are also B.A. and have taken 3 yrs. in Hebrew, involving 1 yr. of study after graduating as B.Th.—B.D.

DIPLOMA. English Theol., 3 yrs.' course.

CERTIFICATE. Missionary Training for women.

ADULT EDUCATION. For adults who have not the necessary foundation for admission to the English Theol. or Women's Missionary course, a year of literary and biblical work qualifying for such admission is provided.

FEES. Annually, for tuition, examn., library—Arts, \$75, Theol., \$20. For student organizations, athletics, etc., men, \$8 50, women, \$9 50.

RESIDENCE. Board and room per session, men, in McMaster Hall, \$240; women, in Wallingford Hall, \$280.

Publications. Calendar (June); McMaster Monthly (students' magazine); McMaster Graduate (pub. by Alumni Assn.), three times a year.

#### THE YEAR 1927-28

New Development A financial campaign for the raising of \$1,500,000 is just being completed, this amount being supplemented by \$500,000 raised by the citizens of Hamilton, Ont., the purpose of the total amount being for the relocation of the University in Hamilton. It is anticipated that the institution will be moved in 1930.

DEATH. Prof. Farmer.

Honorary Degrees D.D.—A D. Brown, H. E. Stillwell Also the following members of the Baptist World Congress (June 1928) T. C. Bau, F. W. Boreham, J. E. Ennals, J. A. Francis, H. C. Maunder, J. J. North, T. Phillips, F. W. Simoleit, G. W. Truett LLD.—J. J. Nicol, A. A. Shaw, J. T. Forbes, J. Hope

Students Full-time total, 323, including 20 graduates. Part-time total, 69, including 23 graduates

DEGREES. B.A., 62; at Brandon College, 23; M.A., 8; B Th., 6; English Course, 5.

AFFILIATED COLLEGES represented on the Council, the first four having power to confer degrees in Divinity:

St. Boniface College, St. Boniface (R.C.). Rector—Rev. J. P. Desjardins, S.J. (Building destroyed by fire, Nov. 25, 1922.)

St. John's College, Winnipeg (C. of E.). Warden—Rev. G. A. Wells, C.M.G., M.A.; Registrar—W. Burman, B.A.

MANITOBA COLLEGE, Winnipeg (United Ch. in Canada). Principal—John MacKay, M.A., D D.; Registrar—Prof. J. Dick Fleming, Ph.D.

Wesley College, Winnipeg (United Ch. in Canada). President—J. H. Riddell, D.D., LL.D.; Registrar—A. Stewart Cummings, B.A.

Manitoba Law School, Winnipeg. Chairman of Trustees—Hon. H. A. Robson, K.C., LL.D.; Acting Dean—Hon. H. A. Robson, K.C., LL.D.; Recorder—R. J. Russell.

#### GENERAL INFORMATION

Established in 1877 mainly as an examining and degree-conferring body, the Univ. was in 1900 empowered to give instruction. In 1917 a Board of Governors, appointed by the Lieut-Govr, was constituted, and the functions of the Univ. Council, until then the governing body and composed largely of representatives of the affiliated Colleges, were limited to general chaige of the academic work. The Univ. has the sole power of conferring degrees in Arts, Science, Law, Med, Engin., Pharinacy, Agric, and Archit in the province. It received in 1898 from the Dominion Govt a land grant of 150,000 acres

Winnipeg, the capital of Manitoba, with its environs, including the neighbouring city of St. Boniface, has a population of over 290,000. Most of the university buildings at present occupy a site in the heart of the city. The Agricultural College is at Fort Garry, 7 miles distant.

LIBRARY, 44,000 vols., 450 periodicals received. In the Medical building is housed the library, 2000 vols. of the Manitoba C.P.S. The Agric. College has a library of 6700 volumes, and receives 142 periodicals. Laboratories Anat, Bact, Bot, Chem., Engin. (Material testing—200,000 lbs, Cement, Elec.), Geol and Mineral., Path., Physios., Physiol., Zool Museums Anat, Embry., Bot., Geol, Path. Hospitals available for clinics 2 general (1000 beds) and several special, including tuberculosis. Farm on Agric. College estate (676 acres).

FACULTIES. (1) An Arts and Science Faculty providing instruction in all subjects of undergraduate courses in Arts (except 5 options), Science, and Phm (2) Medicine. (3) Engineering and Archit. (4) Agriculture and Home Economics. Other subjects of Arts course are taught in the affiliated Colls Law is taught in the Manitoba Law School, which is under the direction of trustees jointly appointed by the Univ. and the Law Society of Manitoba

Matriculation examn is conducted in June by the Provincial Educ. Dept., also a limited Matricu in Sept Matricu subjects for Arts or Science courses English, Hist, Maths, Latin or Greek or French or German, a second language or 2 of the following—Physics, Chem, Genl. Science I, Genl. Science II,; a third language or 2 sciences not already taken, or 1 science not already taken with Home Econ or Indust Arts or Music or Agric or Comml work. Exemption from examination is allowed in the subjects of Grades IX and X. Matricu to pupils of the Collegiate Institutes of the province, or of the Preparatory schools in connexion with the affiliated Colleges, who are recommended for such exemption by their school principals. Entrance requirements for Medicine are clear standing of two pre-medical years in Arts and Science, for Law of 2nd year in Arts, with Latin to the end, at least, of the 1st yr.; for Engineering standing of one pre-engineering year in Arts and Science and for Engineering standing of the 1st yr. and Science and for Engineering standing of one pre-engineering year in Arts and Science Members of any British or approved Univ may be admitted ad eundem statum or gradum without Entrance examn

Degree Courses. 4 yrs.—B.A, B Sc., B Sc. (C.E. or E.E.), B.Sc. (Phar.), B Arch, LL B., B S A, B Sc (H Ec.), 5 yrs., following 2 pre-medical yrs.—M D, 5 yrs.—B.A. (Hons), B Sc (Hons) Graduates in Med of at least 2 yrs' standing with certain prescribed training and experience may obtain C.M. on passing written, oral, and practical examn, and presenting a satisfactory thesis.

ATTENDANCE at lectures is obligatory for all except extra-mural students. Extra-mural students are accepted, usually for a limited programme, subject to the approval of the Bd. of Studies, but may not take courses in Med., Sc., Arch., or Engin., or any course in Arts involving oral, practical, or lab work. Extra-mural registration in Arts is limited to students resident in Manitoba,

and a minimum of r yr.'s attendance at this or another approved Univ. is exacted before the B.A. is conferred.

A UNIT SYSTEM has been adopted in the Arts and Science Faculty, the unit being "a body of work to which is assigned for instructional purposes one hour of lecture or other class-room exercise per week or one continuous laboratory period of 2 or 3 hours per week, throughout an entire session, or the equivalent." 40 units of credit in the "Junior Division" (work normally done in first two sessions) and 32 in the Senior Pass Division (for Honours, 48 in the Senior Honours Division) are required for the degree. For the B.A.—English (2 yrs), a foreign language (2 yrs), Maths. (1 yr), and History (1 yr) are compulsory

The MA. may be obtained by candidates possessing the Honours B.A. of Manitoba, or an equivalent degree, by an extra year of full-time study under the direction of a committee of instructors. Candidates for the M.A. possessing the pass BA. of Man., or an equivalent degree, must first obtain 16 units of credit in Honours Courses. A thesis is required as well as examn.

The M.Sc. requirements are at least one yr's grad, work in one or more of the Sc. depts of the Univ. (incl. Maths.) or in the dept. of Civil Engin, or that of Elect. Engin, an examn, and a thesis. Candidates for the M.Sc. possessing the pass B Sc. of Man, or an equivalent degree, must first obtain 16 units of credit in Honours Courses. While taking the LLB, course a student may simultaneously obtain the Law Society's qualification for practice. An extra-mural course in Law may be taken by students residing in Manitoba elsewhere than in Winnipeg or environs, and by graduates in Arts of an approved Univ residing elsewhere. The LLD is honorary

In the B.Sc. Engineering courses summer work and thesis relating thereto are required.

2 yrs' service in an Architect's office following graduation (B Arch) will qualify for licence to practise

DIPLOMAS Pharmaceutical Chemistry (2 yrs 'course); Agriculture (3 yrs); Home Economics (2 yrs) In *Dentistry* the Univ is the sole examining body in the province The Univ conducts examins for admission to the Man Assoc of Graduate *Nurses*, to the practice of *Accountancy* and membership of the Inst C.A of Manitoba, to the practice of *Architecture* and membership of the Man. Association of Archts, also qualifying examins for the Man Civil Service

Fees. Tuition and examn. in Arts and Sc, \$80 p.a.; Engin and Arch., \$110, Phin Dipl. course, \$90; Degree course (4 yrs.), \$80, \$90, \$90, \$90; Med, 1st, 2nd, 3rd, and 4th yrs., \$185, 5th yr, \$60; Law, \$108 Licence to practise Med., \$100 Agr Dipl course, \$28, Degree course, \$40 (1st and 2nd vis.) and \$65 (3rd and 4th yrs.), Home Economics, Degree course, \$40, \$40, \$65, \$65

Scholarships for graduates · 2 Travelling Fellowships, each \$400, offered each yr : one to a graduate in Arts, and, in alternate years, one in Science and one in Engineering, tenable at some other seat of learning; Research Fellowship, \$1500 annually in Sc.

Residence. Hostels at all affiliated Arts Colls and Agr. Coll.

INTERCHANGE of teachers for a few days and conference annually with Univs of N. Dakota, Sask., and Alberta.

University Extension. (1) Winter Evening Business courses in Acctcy., Comml. Law, English, Pol Econ., etc., given partly by members of regular Univ. staff. (2) Popular lectures in numerous centres. (3) Radio popular

lectures, weekly. (4) Summer School. (5) A number of short courses at Man. Agric. Coll in Agric. Eng., Live Stock, Hort, Beekeeping, Dairying, etc.

Publications. Calendars (July), Matrica., and the several faculties, free; Manitoban (students' paper), weekly; Annual Report; Historical Notes (1877-1917); Inaugural and Convocation Addresses; List of Faculty Publications; The History and Present Position of the University Site Question (by Isaac Pitblado).

#### THE YEAR 1927-28

BEQUEST. \$7000 from the estates of the late Dr. and Mrs. J. W. Spencer to establish a Scholarship in Geology

Resignations. D. C. Harvey, Prof. of Hist, D. H. Verder (Engl.); W. Southworth, Prof. of Field Husb., F. B. Hutt (Poultry Husb.); T. Jones, Asst. Prof. of Anat; W. G. Mackersie, Asst. Prof. of Physiol.; Miss A. Marie Haynaud (French).

IMPORTANT CHANGES Degree Courses in Agriculture and H. Econ. changed to four yrs instead of five as formerly and annual session lengthened A Pre-architecture year in Arts and Science inaugurated

IMPORTANT EVENT. Celebration of the 50th Anniversary of the founding of the University.

Honorary Degrees LLD—The Right Rev. J G. Anderson; H Bourque, J G Gardiner, Premier of Sask; D A. Macdonald, Chief Justice; J McKay, Judge, Court of Appeal, Sask, S P Matheson, Archbishop of Rupert's Land and Chancellor of the University, E W Montgomery, Minister of Public Health, Manitoba, D A Stewart, A. Edgar, E Loftus; J. A. Machray

STUDENTS Full-time. total, 2437, graduates, 6, preparing for first degree in Arts or Pure Science, 1549, Med 270; Law, 49; Engin and Archit., 221, Pharm. (dipl), 42; Agric and Home Economics, 194. Resident in hostels, 457. Part-time total, 310, including grad students, 84 Summer School, 774, Extension Courses, 660, extra-mural students in Arts and Science, 308; in Law, 2.

#### AFFILIATED INSTITUTIONS

AGRICULTURAL INSTITUTE at Oka, about 30 miles from Montreal, founded 1893 by the Trappist Fathers of Oka. Director, R. P. Leopold. 16 other Prots. of Ag. Botany; Animal Biology and Hygiene; An. Industry; An. Pathology and Bacteriology; Apsculture. Arboriculture; Aviculture; Buildings and Accounts, Chem., Geol. and Mineral; Fruit and Flower Gardening; Kitchen Gardening; Large-scale Farming and Machinery, Maths.; Physics and Drawing; Soils, Zoology and Rural Economy. 8 other Supts of Practical Work.

APPLIED SCIENCE, including Engineering and Aichitecture. The École Polytechnique, which was founded in 1874, is subsidized by the Govt. of the Province of Quebec and the principal Railways of the Dominion. Principal, A. Boyer Director, A Filgon 21 Profs of Architecture, Chemistry, Drawing, Electricity, Electro-technics, Electrochem., Electro-met., Engineering—Civil, Elec, Mech. and Sanit., Geodesy, Geology, Geometry, Heating, Hydraulics, Industrial Chem., Industrial Legislin., Indust. Technology, Maths., Metallurgy, Mineralogy, Mining, Physics, Railways, Surveying, Thermodynamics, Ventilation. 14 Hony. Profs.

COMMERCE. École des Hautes Études Commerciales. Created by the Provincial Govt in 1907. Director, Prof. H. Laureys 20 other Profs. of Accountancy, Banking, Chemistry, Customs Legislation, Economics, English, French, Geography, History, Insurance, Italian, Law, Maths., Math. Physics, Publicity. 3 Hony. Profs.

CONSERVATOIRE NATIONAL DE MUSIQUE.

COLLEGE OF OPTOMETRY.

RADIUM INSTITUTE, affiliated with L'Institut Pasteur (Paris).

ENSEIGNEMENT SECONDAIRE OU CLASSIQUE. Twelve Colleges for boys are affiliated to the Univ. under conditions providing for a 4 vrs.' High School

course followed by a 4 yrs.' College or Arts course, on the completion of which a student may qualify by examn. for a diploma admitting him to professional studies in the Univ. The École d'enseignement secondaire pour les Jeunes Filles provides similar College courses for girls organized in French, English, and Special (Arts d'Agrément, Commerce, Pol. and Soc. Econ., Domestic Science) sections.

#### GENERAL INFORMATION

Established, as a branch of Laval, Quebec, in 1878, with Faculties of Theology and Law, to which were added Medicine in 1879 and Arts in 1887. Since 1889 this Institution has been practically independent of, though receiving its degrees from, Quebec, and on Feb. 14, 1920, it was incorporated under its present name by an Act of the Provl. Legislature. In 1920 Faculties of Pure Science and of Letters and a School of Social, Economical, and Political Sciences were formed; in 1921 the School of Dental Surgery was made a separate Faculty, and the Conservatory of Music was affiliated; in 1922 the Faculty of Philosophy was created. A Radium Institute was created in 1923. The general administration is conducted by a Senate, Commissions of Admin. and Studies, Univ. Council and Exec. Committee Endowments: \$4,000,000 from a national subscription (1920), \$1,000,000 from the Provl Govt., and \$1,000,000 from the Seminary of St. Sulpice.

LIBRARY, 125,000 vols. Each Faculty and School has the necessary teaching collections and laboratories.

FACULTIES. Theol. (constituted by the Grand Seminary of St Sulpice), Philosophy; Law; Med.; Letters; Sciences; Dental Science. Incorporated in the Univ. are Schools of Vet. Med., Pharmacy, and Social, Econ. and Polit. Science.

Degrees and Diplomas. Courses in the incorporated and affild institus include—a 4 yrs.' course in the Éc. Polyt. for the B. ès Sc. App.; 3 yrs. in the Éc. de Méd. Comp. for the D. en Méd. Vét.; 4 yrs. in the Éc. de Ch. Dent. for the D. en Ch.D.; 4 yrs. in the Éc. de Phm. for the B. en Ph. and D. en Ph.; 4 yrs. in Inst. Agric. d'Oka for the B. en Agr. and D. en Sc.Agr.; 3 yrs. in the Éc. des H.E. Comm for a Diploma.

Publications. Annuaire Général, La Revue Trimestrielle Canadienne.

#### THE YEAR 1927-28

Interchange of Teachers. Prof Montpetit gave a course on Canada at Bruxelles from Feb to May. Lectures by . E. Gibson, Prof. at La Sorbonne; Dr E. Sergent, Prof. at Faculté de Médecine de Paris; Dr. G Ribaud, at l'Univ. de Strasbourg, Dr. M. Javilhers at l'Institut Pasteur; L. Brillon, Prof. at Wisconsin Univ.

DEATHS Dr A Bernier, Prof. of Bact.; Dr. J. Demers, Path.; Dr. J. Gendreau, Dental Faculty; Joseph Haynes, Prof at Polytechnic School.

HONORARY DEGREE. LL D -E, Dorval,

STUDENTS. Full-time, preparing in colleges for baccalaureate, 6264.

DEGREES. BL, 27; BS, 6; B.A., 198; LTh., 7; B.Th., 6, B.D. Can., 9; LL.L., 13; LLB., 28; MD., 36; L. ès S, 10, B.C.P., 9; D.C.D., 21; D.M.V., 3; B.S.Ap., 10, B.S.A., 9; L.S.Com., 19; B.Sc.C., 3; B.Chm., 198; B.Opt., 3.

#### GENERAL INFORMATION

The Union Church of Canada now controls the administration, which is, however, conducted on strictly non-sectarian principles; a considerable number of the students belong to other religious denominations. The Univ. is named after C. F. Allison, founder (in 1843) of "Mt. Allison Wesleyan Academy," the Trustees of which were, by an Act of the Legislature of N.B. in 1858, authorized to establish as a degree-conferring institution, "Mt. Allison Wesleyan College." This name was changed in 1886 to "Univ of Mt. Allison Coll." and in 1913 to "Mt. Allison Univ." In 1903 the McClelan School of Applied Science was opened in the Univ.

LIBRARY, 30,000 vols. Engineering Workshops with gasoline engine, etc.

FACULTIES. Arts, Science, School of Applied Science, Dept. of Household Science.

DEGREE COURSES. 3 yrs., B.Mus.; 4 yrs. (from "Junior" Matricn.), B.A., B.Sc. "Senior Matricn." Certifs. (e.g. N.S. Provl. Educn. Dept., grade A) admit to 2nd yr. of B.A. or B Sc. course; Prince of Wales Coll. High Honour Diploma to 3rd yr V alsop 341

HIGHER DEGREES. Open to B.A. of I yr.'s standing, M.A., to B Sc. of I yr.'s standing, M.Sc; Honorary, D.D., LL.D, D.C.L.

CERTIFICATES. Applied Science, 3 yrs.' course (may be taken as part of 3rd and 4th yrs. of B A course); Finance and Com., 2 yrs.

FEES, tuition and registration, annual: Arts, \$90; Engin., \$120.

RESIDENCE. Accommodation in the Univ. for 140 men and 60 women students. Board and lodging, \$240 p.a.

Publications. Calendar (July); Argosy (students'), and Mt. Allison Record, monthly.

#### THE YEAR 1927-28

Honorary Degrees. LL D .- J Trueman, S P. Whiteway.

STUDENTS. Full-time, 317, including 5 grads. Extra-inural and Summer School, 176.

DEGREES. B A., 34; B.Sc., 12; M.A., 1.

#### GENERAL INFORMATION

The "College of New Brunswick" was incorporated in 1800 by Provincial Charter, re-incorporated in 1828 by Royal Charter as "King's College," and merged in 1859 in the Univ. of N.B. established in that year. A Faculty of Law was established in 1923 in St. John, taking over, with some changes, the work of the former King's College Law School. The Provincial Govt. appoints the Chancellor and a majority of the governing body, called the Senate, of which the Chief Supt. of Education for the Province is ex officeo President. The annual grant from Provincial revenues is \$25,000.

LIBRARY: 14,000 vols. Museums: Natural History (tich in birds). LABORATORIES: Bot., Chem., Engin., Geol. Phys., Psych. Observatory: Telescope with 6" clear aperture.

DEPARTMENTS. Arts, Applied Science (Engineering and Forestry), Law.

Degree Courses. 4 yrs. (from "Junior" Matrica.), B.A., B.Sc. (in Pure Science, Engin. or Forestry). 3 yrs., B.C.L. The "Senior" Matrica. (or equivalent) Certif. admits to the 2nd year. The first 2 yrs. in Engin. are arranged to suit candidates for licences as Land Surveyors.

HIGHER DEGREES. Open to B.A. of 2 yrs.' standing, M.A.; to B.Sc. in Pure Science of 2 yrs.', in Engin. or For. of 3 yrs.' standing, M.Sc.; to B.A. of 6 yrs.' standing, B.C.L.; to B.C.L. of 5 yrs.' standing, D.C.L.; D.Litt., D.Sc., LL.D. (Hon.).

FEES, tuition, annual · Arts, \$86, Engin. or Forestry, \$120.

Publication. Calendar (January).

#### THE YEAR 1927-28

Benefactions Beaverbrook Memorial Residence given by Rt Hon. Lord Beaverbrook and the late Lady Gladys Beaverbrook, also \$200,000 from Provincial Government to provide accommodation for Department of Geology and Forestry and the Library, \$15,000 supplementary grant from Govt

#### GENERAL INFORMATION (v. Canadian Univs.)

The "College of Bytown," incorporated in 1849, changed its name in 1861 to "College of Ottawa," and became in 1866 the Univ. of Ottawa with power to grant degrees. By a papal brief dated Feb. 5, 1889, it was accorded the status of a Catholic University The Univ. is conducted by the Oblate Fathers of Mary Immaculate.

Affiliated Institutions 4 Convents, a Seminary and 2 Academies at Ottawa; St Joseph and Sacred Heart Academies at Hawkesbury, Ont; College of Sacred Heart, Gravelbourg, Sask; College Mathieu, Gravelbourg, Sask

LIBRARY, 25,000 vols. The Parliament Library, to which students have access, has 300,000 vols. Museums In the Univ.—Geol.; access also to Geol. Survey Dept. Museum. The Dominion Observatory and Canadian Fisheries Museum are located in Ottawa. Laboratories. Chem., Phys., Mineral.

Degrees, e.g. B.A, M.A., B.L. (Lit), B.Phil., B.Th., D.Th., LL.D. (Hon.), Lic. Phil., D.Phil, Lic. Th. The Arts course leading to the B.A. or B.L. covers 4 yrs., the work of the Fourth to the Seventh "Forms," that of the first 4 Forms being preparatory to matrice. Extra-mural students may appear for examn. without attending classes in the Univ. for more than 1 yr. The B.A. exempts law and medical students from Prelim. Examns. and entitles the former to a reduction of 2 yrs. of the ordinary 5 yrs.' course. The B.Th. and the L.Th. involve respectively 2 and 3 yrs.' study of Theology after the completion of a classical course; the B.Ph. and the L.Ph. respectively 3 and 4 yrs.' study after matrice. Marks assigned for the exercises of students are read in public once a month, and monthly reports are sent to parents.

FEES. For Tuition and Board Residence per half-year, \$300. Degrees from \$5 to \$75.

RESIDENCE. Students whose homes are not in Ottawa are required to live in the Univ. building, where they are subject to strict discipline—e.g. no book or newspaper may be introduced without having been previously examined and approved of by the Prefect of Discipline.

#### THE YEAR 1927-28

Number of Students. Faculty of Theology, 87; Philos., 99; Arts, preparatory course, 1048.

DEGREES. B.A., 37, M.A., 3; B.L. (Lit), 3; D Lit., 3; B.Ph., 24; L.Ph, 18; Ph D, 4, B.Th., 4, L.Th, 3, D.Th., 2; LL.D., 2.

#### AFFILIATED COLLEGE

QUEEN'S THEOLOGICAL COLLEGE. Principal and Prof. of Old Test. Criticism and Exegesis, H. A. Kent, M.A., D.D. 5 other Profs.

#### GENERAL INFORMATION

On the initiative of the Presbyterian Church a Royal Charter was granted in 1841 for the establishment of Queen's College, Kingston, funds being provided by grants from the Church and from the Govt. and by private benefactions. To the original Faculties of Arts and Theology were added, in 1854 Medicine, in 1907 Education, and in 1916, by amalgamation with the Univ. of the School of Mining founded in 1893, Applied Science. In 1912 the Faculty of Theology was separately incorporated as "Queen's Theological College" in affiliation with the Univ. but controlled entirely by the Presbyterian Church. In 1920 the Faculty of Educn. was discontinued, the students being transferred to the Teachers' Training College, Toronto. Endowments amount to \$1,800,000.

The administration is vested in a Board of Trustees, composed of Chancellor, Principal and Rector, and representatives of the College, the Faculties, Graduates and Benefactors.

LIBRARY, 150,000 vols. (valuable Canadian Historical Section). The Douglas Library 72,000 volumes and pamphlets arranged for quick reference, and including many scarce books and early editions of valuable historical works. The Reading-room has over 4000 volumes on open shelves, and 750 periodicals are taken. The Lorne Pierce collection of Canadiana is among the best, and the Shortt-Doughty collection of pictures and portraits of Canadian interest is the best in existence. Museums Herbaruum (35,000 spec.), Geol., Mineral., Ethnol. (rich N. American stone age collection). Laboratories, including important School of Mines buildings. Biol. (accommodating 220 students), Chem., Geol., Physics, Engineering, Mining, Metall., Mineral. Observatory with 6" telescope. Hospies, available for clinics, 2 general, 1 for insanc. Easy access to important locomotive shops, dry docks, canal locks, water-power stations, mines, metallurgical works. Exceptional natural facilities for Geol. study.

FACULTIES. Arts, Applied Science, Medicine. The Senate includes representatives of the Iheol College also.

Degree Courses. Four years, B.A, B.Com., B.Sc. (in Engin.—Civ., Mech., Elec., Mining and Metall., Chem. and Metall.—Analyt. and Applied Chem., Mineral. and Geol., or Physics), 6 yrs., M.D., C.M.

Combined courses . 6 yis., B.A and B.Sc., B A. and B.D.

For teachers in schools and others unable to pursue the full degree courses in Arts at the Univ. extra mural instruction is provided by correspondence conducted by a staff of tutors. All students proceeding to the degree must take in residence 9 of the 19 courses required for the Pass degree. Some of these may be covered at the Summer School of 7 weeks during July and Aug., but the examinations written are the regular Sept. examns as set for all students.

Banking Courses leading to diplomas of Associate or Fellow of the Canadian Banking Associ. Tuition given by correspondence to members of Canadian Banks

By agreement with the Can Institute of Chartered Accountants, Toronto, the tuition of their course, leading to the C.A. certif., is given by the Univ.

HIGHER DEGREES. M.A. (1 yr. graduate course); M.Sc. (1 yr. course and 2 yrs.' professional practice); Ph.D. (3 yrs.); D.Sc. (2 or 3 yrs.); D.P.H. (Doctor of Pub. Health); B.D. (3 yrs.' course or its equivalent); Honorary LL.D., D.D.

DIPLOMAS. Testamur in Theology (3 yrs.' course).

FEES (Class and Examn.) in Arts, \$70 p.a.; Science, \$130.

Fellowships. Two of \$500 and two of \$250 open to Honour B A. at Queen's and holders of equivalent degree elsewhere, for research in Faculty of Arts. One (\$500) may be awarded as a *Travelling Fellowship* Milton Hersey Fellowship in Chemistry (\$500) open to graduates of all univs. and technical colleges.

RESIDENCE with rooms for 100 women and refectory accommodation for 150. Board and lodging, \$8 to \$10 a week.

UNIVERSITY EXTENSION. See above—Degree courses. A course of weekly lectures is open to the public, and lectures are given by members of the staff at various centres in Ontario.

Publications. Calendars (by Faculties); Queen's Quarierly; Queen's Univ. Journal.

#### THE YEAR 1927-28

Benefactions Campaign for endowment has brought in nearly \$1,000,000 to date.

New Buildings. Large building, formerly used as Orphans' Home, bought for Students' Union, and alterations nearly completed

EXTRA-MURAL WORK. Banking Courses as formerly, and also Courses given for Institute of Chartered Accountants. In the Faculty of Arts part of a degree course may be covered by correspondence.

Honorary Degrees. LLD—J. B Reynolds, Agric. Coll.; Dr J. G. Dwyer; C. F. Martin; Senator Dandurand; Hon W. Phillips, United States Minister to Canada, Justice R. M. Dennistoun, Winnipeg, L A. Pierce; J. B. Walker, K.C. D.D.—T. E Holling, J. R. Fraser.

STUDENTS. Full-time, 1461. Summer School, extension, and extra-mural, 2061. School of Navigation, 18.

DEGREES. D.Paed, I; MA, II; B.A. (Hon.), 76, BA (Pass), 86, B.Com., 24; M.Sc, I; B.Sc. (Hon.), II, B.Sc., 39; M.D, C.M, 58.

#### GENERAL INFORMATION

The Univ. was authorized in 1866 to grant degrees, and was endowed with full Univ. powers in 1882. A new Charter was granted in 1909. The

University is under the direction of the Catholic Church, but there are no religious tests for entrance or for degrees. The recent Neil McNeil bequest for endowment is valued at \$600,000. A further \$200,000 will become due on the death of beneficiaries now receiving interest.

LIBRARY, 40,000 vols. LABORATORIES. Biol., Chem., Geol., Phys.

Courses. 4 yrs., B.A., B Sc.; 2 yrs., Engineering (gives admission to leading technical Colls of Canada and U.S.A.); graduate 1 yr. course for M.A.

EXPENSES. Board and dormitory, \$6 per week; private 100m, \$2 per week, tuition for session, \$85, laboratory, \$5 to \$7\frac{1}{2}, degree, \$5 to \$10.

A "People's School," open Jan. to March (8 weeks), provides courses in various Arts, Pure Science, and Agric. subjects. No educational test for entrance

Publications. Calendar (July); Xaverian, monthly.

THE YEAR 1926-27 (return for 1927-28 not received)

STUDENTS. Full-time total, 177. Part-time, 7 (graduates).

Degrees BA, 21; BSc, 3, MA, 5

St. Chad's, Regina (Church of England).

St. Andrews College, Saskatoon. Principal, E. H. Ohver, M.A., Ph.D. Lutheran Seminary, Saskatoon. Principal, Rev. H. W. Harms.

JUNIOR COLLEGES—Regina College; Campion Coll., Regina; Luther Coll., Regina, St. Peter's Coll, Munster, Sacred Heart Academy.

COLLEGE OF PHYSICIANS AND SURGEONS; LAW SOCIETY; DENTAL LOUNCIL; PHARMACEUTICAL ASSOCN.; ASSOCN. OF REGISTERED NURSES; VETERINARY ASSOCN; ASSOCN. OF ARCHITECTS, INST OF CHARTERED ACCOUNTANTS; OPTOMETRISTS: LAND SURVEYORS.

#### GENERAL INFORMATION

Established by Act of the Provincial Legislature in 1907, the Univ. opened classes in Arts and Science in 1909 and took over the educational work of the Provincial Department of Agriculture in 1910. Schools of Agriculture, Engineering, Law, Pharmacy, Accounting, Medicine, and Education were pened in 1910, 1912, 1913, 1914, 1917, 1925, and 1927 respectively. The summer School was organized in 1917. The site includes 1340 acres devoted o Agric. Education and Research, and a campus of 300 acres with a half-mile iver frontage. The land, buildings, and equipment cost about \$3,800,000.

Of the Board of Governors 5 members are elected by the Senate and 3 ppointed by Govt.; the President is a member. The Senate (19 members lected by graduates, who also elect the Chancellor, and 13 ex officio, including he Minister of Education) regulates educational matters, the administration f which is controlled for the Univ. as a whole by an Academic Council and rithin each College by the Faculty. The President is a member of each of hese bodies, and no appointment or dismissal is made without his recomnendation. The maintenance of the Univ. is partially provided for by ssignments of revenue and legislative grants. The annual budget exceeds 1600,000.

The University conducts the Licence Examinations for the following professions —Medicine, Law, Dentistry, Accounting, Architecture, Nursing, Veterinary, Optometry, Pharmacy, Land Surveyors, Drugless Practitioners.

There are laboratories for the investigation of (1) animal diseases, (2) cereal chemistry, while special provision is made for research work in connexion with cement and concrete

LIBRARY, 43,000 vols. LABORATORIES Chem., Phys., Biol, Bact., Engin, Agric. Engin., Farm (830 a.), Agric. Exper. Fields (450 a.).

FACULTIES. Arts and Science, Agric., Law, Engineering, Pharmacy School of Accounting, Medical Sciences, Education

Degree Courses 4 vrs., B A, B Sc., B.Acc., B.S.P. (Pharmacy), B.S.A (Agric), B E (Engin), 4 yrs, B S Ed, LL B (3 yrs), combined B A and B S.A, 6 yrs This Univ has the sole right to confer degrees (other than Theol) in the Province

HIGHER DEGREES. Examn. open to Bachelors of 1 yr. standing—M.A., M.Sc., M.S.A., M.Ed.

DIPLOMAS AND CERTIFICATES. A 3-yr. course in Agric. leads to the "Associateship in Agric" A 2-yr certif course is given in Pharmacy, a 1-yr. certif. course in Education for graduates in Arts or Science

OTHER COURSES. Summer School in co-operation with Provincial Department of Education. Short Courses on Agricultural and allied subjects.

INTERCHANGE OF PROFESSORS with Alberta and Manitoba takes place regularly.

FEES Tuition for degree course in Agric, \$60, Engin., \$60; Acc, \$60; Educ., \$60, Pharm., \$60, Med., \$80, Arts and Sc, \$6 each class.

Scholarships for Graduates One in Arts or Sc, \$100 p.a.; one in Engin, \$50, one in Law, \$50; one in Agric., \$800.

RESIDENCE. Hostels for 120 men and 83 women. Board and room fees, \$8 or \$9 a week.

Univ. Extension. In Farming and Home Economics short courses by itinerant lecturers at local centres. Annual convention (one week) in winter; 6 weeks' course in summer for teachers and others, at the Univ., eg. in Economics, Life Insurance. Bulletins, fairs and shows.

A 3-yr. course is given in the Pre-Medical School, including Anatomy and Physiology.

Publications. Calendar (April); Agric Bulletins, Sheaf

## COLLEGES OF THE UNIVERSITY

University College  $\;$  Principal—M W. Wallace, B A , Ph.D. , Registrar —W. J. McAndrew, M.A.

VICTORIA COLLEGE. The Faculty of Arts of Victoria Univ., v. infra.

TRINITY COLLEGE. The Faculty of Arts of the Univ. of Trinity College, v infra.

St. Michael's College. Superior—Rev E J. McCorkell, M A.; Registrar—Rev. B. Sullivan, M A. Other Teachers: the Profs., etc., marked (M.) in above list.

#### FEDERATED COLLEGES

ST MICHAEL'S, v. supra.

KNOX COLLEGE, WYCLIFFE COLLEGE, and EMMANUEL COLLEGE. Teachers giving instruction in Univ. courses (Religious Knowledge): (1) Knox—J. D. Cunningham, M.A., D.D. (2) Wycliffe—W. R. R. Armitage, M.A.; B. W. Horan, M.A., B.D.; T. W. Isherwood, M.A.; T. R. O'Meara, D.D., LL.D.; C. V. Pilcher, M.A., D.D.; W. E. Taylor, M.A., Ph.D. (3) Emmanuel—R. Davidson, M.A., Ph.D.; J. Dow, M.A., D.D.; A. Gandier, M.A., D.D., LL.D.; A. J. Johnston, B.A., D.D.; J. F. McLaughlin, B.A., D.D., J. H. Michael, M.A.; W. A. Potter, M.A., B.D.; D. M. Ramsay, M.A., D.D.

#### AFFILIATED COLLEGES

Ontario Agricultural College, Guelph President—G I Christie, B.S.A. 17 Profs, 10 Assoc Profs, and 16 Lectrs. 20 Demrs. and Instrs.

Ontario College of Pharmacy, Toronto. Registrar-Treasurer—J. F. Roberts. Faculty—4 Teachers.

ONTARIO VETERINARY COLLEGE, GUELPH Principal—C. D. McGilvray, D.V.S.

Albert College, Belleville; Alma College, St. Thomas, Ontario Ladies' College, Whitby; Sr Hilda's College, Toronto (the Women's Residence for Trin. Coll).

ONTARIO COLLEGE OF ART.—Principal—G. A. Reid.

ROYAL COLLEGE OF DENTAL SURGEONS OF ONTARIO.

#### GENERAL INFORMATION

An appropriation of 500,000 acres of land for the support of 4 grammar schools and a Univ. in Upper Canada was made in 1798, and a Royal Charter was granted in 1827 for a "King's College" with the privileges of a Univ., but it was not until 1843 that the College was inaugurated. In 1849 its title was changed to The University of Toronto. It was reorganized in 1853 as an examining and degree-conferring body on the model of the Univ. of London. In 1887 it again became a teaching body, the Faculties of Medicine and Law which had been abolished prior to the reorganization of 1853 were revived, the Arts work was divided between the Univ. and Univ. College, and provision was made for the admission of other institutions as Federated Colleges. Victoria, Trinity, and St. Michael's Colleges became integral parts of the Univ. in 1892, 1904, and 1907 respectively.

LIBRARY, 220,349 vols. and 76,876 pamphlets. Annual Grant for books, \$34,500; 2000 periodicals and serials received. The (Science) Library of the Roy. Can. Inst. is housed in the same building. Museums: The Royal Ontario Museums—Archæology, Geology, Mineralogy, Palæontology, and Zoology, departmental museums; Trinity has a Nat. Hist. and Archæol. Museum of its own; the Agric and Vet. Colleges, Knox, and the Faculty of Dentistry have each one.

LABORATORIES: in all depts. of Applied Science and Engineering as well as Anat., Bio-chem., Biol, Bot., Chem., Geol., Household Sc., Hygiene, Mineralogy, Path., Physics, Psychol., Physiol.; described in *Bulletin* for Graduate Students. Botanical Garden. Observatory. Hospitals available for Chinics: General, 750 beds; Children's, 262; St. Michael's, 383; Western, 120.

FACULTIES. Arts, Medicine, Applied Science and Engineering (Depts .-

Archit., Civil E., Mining E., Mech. E., Chem. E., Elec. E., Metall. E.), Household Sc., Education, Forestry, Music, School of Graduate Studies, Dentistry. Departments. Social Service, Public Health Nursing, University Extension.

University Matriculation Board. As a result of a conference of representatives of the Univs. of Toronto, Queen's, McMaster, and Univ. of Western Ont. held in Dec. 1908, the Senates of these Univs. created a Board to conduct and control their annual Matricn. examns. The Dept. of Educn. of Ontario agreed to provide the same machinery for holding these examns. as it employs for the Departmental examns, and the Registrar of the Dept. is Secy. of the Board. In connexion with the Matricn. examns. a report signed by all members of the staff of the school concerned as to the standing of their candidates is taken into account in determining the results.

The subjects of Pass Matricn. are (1) Latin, (2) English, (3) History, (4) Maths., (5) Greek, (6) French, (7) German, (8) Spanish or Italian, (9) Physics and Chemistry, or (10) Agric For Matricn in Arts it is necessary to pass in (1) to (4) and any two of (5) to (10) for admission to the Pass Course, and with honour standing in at least 5 specified subjects for admission to an Honour Course. In certain cases foreign students may substitute their native language for Greek or French or German. Music is accepted as an option for Ancient History (the subject of one of the two History papers, the other being Canadian History)

For Matrica. in the Univ. of Toronto in Med. the requirements are (1) to (4), (9), and any one of (5) to (8), with honour standing in (2), (4), and one of (1) and (5) to (7); in Applied Sc. or Forestry—(2), (3), (4), and any three of (1) and (5) to (10), with honour standing in (2), (4), and one of (1), (5) to (8); in Household Science—(2), (3), (4), (9), and two of (5) to (8) for admission to the Pass Course, with honour standing in at least 4 specified subjects for admission to the Honour Course; in Music—the same as for admission to the Pass Course in Arts, in Dentistry—(1), (2), (3), (4), (9), and one of (5) to (8), with honour standing in (2), (4), and one of (1), (5) to (8)

Minimum age for admission to the Faculty of Arts, 16; Law, 21; Med, 17; Appl Sc., 17; House Sc, 16; Educn, 19; Forestry, 17; Dentistry, 16

Degree Courses. 4 yrs—B.A, B.Com., B.A Sc., B.Sc. (Med.), B.Sc (Dent.), B.H.Sc, B.Sc.F, B.S.A. and B.V.Sc (at Guelph), Phm. B.; 3 yrs.—Mus. B.; 5 yrs—B.Arch, D.D.S.; 6 yrs.—M.D. Combined courses. B.A. and M.D.—7 yrs.

Students from the British Isles will be admitted to Medicine and Applied Sc. on submitting certificates of registration with the General Medical Council of Great Britain and the Institution of Civil Engineers.

Honour courses for the B.A. and B.H.Sc. are provided in Household Science. The first 2 yrs. of the Law course may be taken in Arts in the Univ., the 3 remaining yrs. being taken at Osgoode Hall.

The B Sc. (Med) may be obtained by Med. students who, after the 4th or subsequent year of Med study, having maintained therein a prescribed standard of proficiency, spend a year in an approved course of study, and show facility in reading one modern language besides English.

A student who has already graduated in the Faculty of Arts, Med., or Science of a Canadian or other recognized Univ. may complete the course in Dentistry in 4 yrs. instead of 5, provided he has covered certain prescribed subjects during his undergraduate course; and persons holding the L.D.S. of one of the Med. authorities of Great Britain or the B D.S. degree of approved Australian Univs. may be admitted in the Faculty of Dentistry without further examn., and to the final D.D.S. examns. on completing one full session at the Faculty of Dentistry.

Higher Degrees. M.A., obtainable by approved course of graduate study extending over 2 yrs. or, in the case of a B.A. in an Honours course, 1 yr.; Ph D., open to a graduate in Arts (or, on special conditions, another Faculty) of this or another recognized Univ. by pursuing in the Univ. of Toronto an advanced course of study for 3 yrs., exemption from 1 of which may be given in consideration of the candidate having already pursued such a course for 1 yr. A thesis embodying the result of an original investigation is required.

Ch.M. obtainable after 3 yr. course open only to graduates in Med. of a recognized Univ. The D.P.H. course (for Med. graduates) covers 11 months—1 winter and 1 summer session.

The M.A Sc may be obtained by a B.A Sc. of this Univ. who pursues a course of advanced study in the Faculty for 1 yr, presents a satisfactory thesis, and passes such examns as may be prescribed

The professional degrees, C É, M E (Mining or Mech), E E, Chem.E. are open to candidates who, after obtaining the B A.Sc or diploma of the Faculty, spend 3 yrs in the actual practice of one of these branches of engineering, present a satisfactory thesis, and pass examns. The F.E. may similarly be obtained by a B.Sc F.

The B Pæd. and D Pæd are open to graduates in Arts or Science of any British Univ. who hold a 1st class or High School Asst.'s certif. of Ontario or its equivalent, and pass, after 2 yrs.' (D Pæd —3 yrs.) successful experience in teaching, prescribed examns. For the D.Pæd, a thesis is also required, and the candidate must have attended a summer course (or its equivalent) in each subject of examn.

The M.Sc. (Dent) is open to graduates of the Faculty of Dentistry of Toronto or those with equivalent standing. It involves at least two years' work.

The Mus D. is open to a Mus B of this or another Univ of 3 yrs' standing.

The Univ. publishes annually an announcement of Graduate Courses All communications on the subject must be addressed to the School of Graduate Studies.

Training of Teachers. Courses are provided for Teachers' certificates of several grades, including the Household Science and the Physical Culture Teachers'. The Educa Dept of Ontario grants certifs on the results of Univ. examns, entitling the holders to teach in the High Schools. All teachers for High Schools and Collegiate Institutes must spend at least 1 yr. in the College of Education.

FEES. Students proceeding to the B A. and enrolled in one of the Colleges of the Univ. attend lectures of Univ. Profs and Lectrs. in the Faculty of Arts without payment of fees except for laboratory supplies. The College Fees, which entitle students to attend lectures in their respective Colleges, amount to \$75 p a. Medical students pay for tuition, laboratory supply, hospital and annual examn., \$200 (\$150 for first year only) p a. Certificate courses in the College of Education cost \$25 p.a.; Forestry, \$125 p.a.; Applied Science and Engineering, \$200 p.a.; Household Science, \$100 p.a.; D.P.H., \$200 p.a.; Dentistry, \$200 p.a.

SCHOLARSHIPS, etc., open to graduates include \$120 for 2 yrs. for Divinity course in Trinity Coll; Fellowship in Philos, \$300, \$1000 Prize for Scientific research or invention, open to all Canadians; \$1500 Scholarship in Medicine; \$500 Fellowship in Anatomy, \$750 Fellowships (one or more, each tenable for 3 yrs) for research in Medicine; and others. War Memorial Scholarships in all faculties.

Two Mickle Fellowships (each endowment \$25,000) awarded (1) to a member of medical profession as reward for advancement of practical knowledge in med art or science, (2) to an undergraduate of fifth year in Medicine who

obtains honours at that examn, with highest marks. Nine Fellowships, each \$500 with free tuition for M.A. or Ph.D.; preference to graduates of Canadian Univs. outside Ontario. Eight of \$500 (tutorial Fellowships) open to graduates of any Univ

RESIDENCE. University Houses accommodate 150 men, rent, \$4 per week; Queen's Hall, residence and board for 98 women at \$9.50 per week; Univ Coll. Houses, residence and board for women (65), about \$9 50 per week; Victoria Coll. Halls for 132 men, about \$9 per week, and 144 women, \$200 to \$300 p.a.; Trinity Coll. provides for 80 men and 70 women; St. Michael's (R.C.) has also residences for men and women.

Publications. President's Annual Report; Board of Governors' Report; Calendars, April-May, Graduate Studies Bulletin, Bulletins of the Dept. of University Extension; Medical Bulletin, Univ Monthly, Can. Historical Review; Univ. Studies; Students' Mags—'Varsity, Torontonensis.

#### THE YEAR 1927-28

BENEFACTIONS. Rockefeller Foundation Endowment (School of Hygiene), \$250,000; Eaton Endowment, annual payment, \$25,000, Alexander Lect'ship Commee, for Lect'ship, English Lit, \$14,368; Mrs Jessie M Stewart for Research in Pernicious Anæina, \$10,000, Laura Spelman Rockefeller Memorial for Child Research, \$10,000; Canadian National Clay Products for Ceramics Lect'ship, \$3000, George H Armstrong, Scholarship in History, \$2250, Sir Joseph Flavelle and E. R Peacock, for Flavelle-Peacock Lect'ship, each \$1250; Banting Research Foundation Subscriptions, \$11,102,72, Canadian Pacific Ry. \$1500 for Grad Fellps.

#### GENERAL INFORMATION

The Upper Canada Academy was established by Royal Charter in 1836 in connexion with the Methodist Church in Canada. Its name was changed in 1841, when power was obtained to grant degrees in Arts, Theol., Med., and Law, to "Victoria College," and in 1884 to "Victoria University." In 1890 it was federated with Univ. of Toronto, and its Arts Faculty became a College thereof, but it still confers degrees in Theology.

In 1928, by Act of the Legislature of the Province of Ontario, Victoria University received an amended charter by which it continues in federation with the University of Toronto and in connexion with the United Church of Canada (formed in 1925 by the union of the Congregational, Methodist, and Presbyterian Churches in Canada), and includes within itself, under one Board of Regents and one Senate, two Colleges, Victoria College in Arts and Emmanuel College in Theology, the latter formed by the union of the Victoria University Faculty of Theology with Union Theological College (continuing Knox College in the United Church)

LIBRARY. Special features—Canadian verse and Tennysoniana (C. C. James's collections), Methodism in Canada, Education in Ontario.

COURSES. 4 yrs. in Languages, Anc. Hist. and Ethics for B.A., both Pass and Hons.; 3 yrs. for B.D., subsequent to graduation in Arts; 4 yrs.' conference course for probationers for the Ministry following a 2 yrs.' course taken on circuit; 3 yrs.' conference course for graduates.

Hostels for 210 men and 206 women students.

Publications. Theological Calendar (May); Bulletin (July); Acta Vict., a students' monthly.

Founded in 1904 by the English Baptist and American Presbyterian Missions of Shantung in unison, the Shantung Christian University comprised at first schools of Arts and Science in Weihsien, of Theology at Tsingchowfu, and of Medicine at Tsinan. The two first mentioned were transferred to Tsinan in 1917. A grant of \$200,000 from the Rockefeller China Medical Board enabled the University largely to extend the buildings and staff of the medical school, with which were amalgamated the medical department of the University of Nanking, the Hankow Union Medical College, the North China Union Medical College for Women, Peking, and part of the Peking Union Medical College. In 1924 an Act was passed by the Dominion Parliament of Canada conferring authority to grant such credentials and degrees as are in accordance with the laws of China.

The main purpose of the University is "The advancement of the Kingdom of God through higher education of a distinctly Christian character, with a view to developing a capable and consecrated leadership for the Christian church and community in China." Thirteen missionary societies from Great Britain, the United States, and Canada share in its maintenance. There are two joint boards of administration, the British and the North American, with offices in London and New York respectively, and, deriving authority from them, a "Field Board of Managers in China." The head office of the Univer-

sity is at Toronto.

DEPARTMENTS. (1) School of Arts and Science, providing a 4-years' course for intending teachers and pre-medical and pre-theological instruction. (2) School of Theology, providing a 3-years' course following one year in the School of Arts and Science; also a 3-years' course for graduates in Arts. (3) School of Medicine, providing a 5-years' course following a pre-medical course of at least 2 years. (4) University Hospital with attached training school for men and women nurses. (5) Extension Department for cultivating social and religious contact with the people of the city and district by public lectures, evangelistic addresses, models, graphic charts, etc.

THE MEDIUM OF INSTRUCTION is mainly Chinese (Mandarin); but English is a required subject at the entrance examination and throughout the whole curriculum, and the use of English text-books and reference books is encouraged.

Admission is ordinarily by certification from an approved middle school or by a general matriculation examn. in (1) Chinese Language and Literature, (2) English Language, (3) General Mathematics, and two selected subjects. An intelligence test of common sense and general fitness for University work is applied to all candidates for admission, and a physical examn. must also be passed.

RESIDENCE, ETC. All students are required to reside within the University walls. Dormitories provide accommodation for all. Physical exercise is compulsory.

FEES for tuition. Arts and Science, \$25, Theology, \$10, Medicine, \$30 per semester. Other student expenses \$100 to \$300 per annum.

DEGREES. B A. and B.Sc., 4-years' course, B.Th.—4 years; M B.—7 years; B.D.—1 year after B.Th. or 4 years after B A.

# THE YEAR 1927-28

STUDENTS. Full-time total, 287, including 37 graduates

Degrees. Arts B.A, 4; BSc, 3; diploma, 3 Medicine MB, 24, Diploma, 1.

# NEWFOUNDLAND MEMORIAL COLLEGE AND NORMAL SCHOOL

This College, built by the Government as a War Memorial, was opened in 1924.

To students who have completed the work for the first and second years in the college third-year status is granted by the following Universities.

- (1) All the Univs of the maritime Provs.
- (2) Toronto, in Arts.
- (3) Columbia, Harvard.

McGill recognizes the first year's course of the College as qualifying for admission to second-year courses, and is prepared to consider on its merits the case of any student who has completed his second year at the college who may apply for admission to third-year status.

PRESIDENT. J. L. Paton, M A Camb.

PROFESSORS. Hatcher, A. G., M.A. McG. (Maths.); Hunter, A. C., M.A. Ox., B A. Lond., D. ès L. Paris (Engl. and French); Mennie, J. H., M.A. Brit. Col., B.Sc., Ox., Ph.D. McG. (Chem.); Sleggs, G. F., M.Sc. Liv. (Biol.).

Lecturers. Fraser, A. M, MA Edin (Hist. and Econ), Baker, H. A, DSc Lond (Geol); Stephenson, R J, BSc. Lond (Phys), Hunter, Mrs. A. C, M.A. Denver (Spanish and French); Bevan, R. T., L.R A M., A R CO. (Music).

PRINCIPAL OF THE NORMAL SCHOOL. S P. Whiteway, B Sc Columbia, LL.D. Mt Allison

The curriculum covers the first two years of the Univ Courses in Arts, Purc Sci., Engin , and Medicine.

Admission. Junior Matrica. of the Newfd. Council of Higher Educa, conducted by Coll. of Preceptors, London, or equivt

FEES. For full course, \$40 p.a.

Extra-mural Courses are provided in most Arts and Science subjects, also in Navigation, Law, and Nursing

A SUMMER SCHOOL, specially designed for teachers, is held in July.

The Library, 6000 vols, including gift from Rev Dr G. J. Bond of books of late Sir Robert Bond, sometime Premier of Newfd

Scholarships A Leaving Schol'p of \$300 has been specially endowed. Acadia offers annually one schol'p of \$125, and Mt. Allison one of \$125 and one of \$62 50. These schol'ps are tenable for 2 yrs.

Students of the College are eligible for Rhodes Scholarships.

# THE YEAR 1927-28

STUDENTS. Full-time, 76; Normal School, 96; Extra-mural, 464.

#### GENERAL INFORMATION

Incorporated in Sept. 1921 as the outcome of recommendations made by the Tropical Agricultural College Committee (appointed by Viscount Milner in 1919) in their Report (Cd. 562), the College aims at promoting the study of and conducting research in Tropical Agriculture in suitable surroundings and creating a body of British expert agriculturists well versed in the knowledge of the cultivation of land in the tropics, of chemists, and of scientific advisers possessing an intimate knowledge of the means of combating pests and diseases. The College buildings are at St. Augustine, near St. Joseph, Trinidad, on land granted by the Govt. of Trinidad and Tobago. The funds of the College are derived from contributions from Colonies and industries participating in the movement and an Imperial grant. The Imperial Department of Agriculture,

which was founded in 1808 and was amalgamated with the College on April 1. 1922, is administered by the Commissioner of Agriculture. The post of Commissioner of Agriculture was separated from that of Principal of the College as from April 1, 1927, and is now held by the Professor of Entomology, who now combines the two posts. He serves as a Liaison Officer between the College and the several island governments. He supervises the botanic and experiment stations located at St. Vincent, St. Lucia, Dominica, Montserrat, Antigua, St. Kitts-Nevis, and the Virgin Islands, and advises the Government of Jamaica, British Guiana, Trinidad, British Honduras, the Bahamas, and Bermuda in agricultural matters, including the teaching of agriculture in schools. Up to March 1922 the Department issued the Agricultural News, a popular fortnightly review circulating widely in the tropics of the old and new worlds, and the West Indian Bulletin, a scientific quarterly dealing specially with tropical research and experiment. Numerous pamphlets dealing with special subjects and annual progress reports on sugar-cane experiments and the work of botanic stations were also issued. The College publishes monthly Tropical Agriculture. On the transfer of the headquarters of the Department to Trinidad in Sept. 1922 the services of all the officers were retained in the staff of the college, and remain available for duty in connexion with the work of the Department.

The Foundation Stone of New Buildings and Laboratories was laid by Sir Samuel Wilson, Governor of Trinidad and Tobago, on January 14, 1924.

An Instructional sugar factory, towards which British sugar machinery manufacturers are contributing plant worth £20,000, was opened in 1925.

A Low Temperature Research Station for work on bananas and other tropical fruits has just been started. It is financed by the Empire Marketing Board.

The College was re-incorporated by Royal Charter, dated Nov. 23, 1926.

The academic year extends from October 1 to June 30.

Courses. (1) Three-years' Diploma Course for giving a thorough training in the science and practice of T.A. to students intending to become tropical planters, investigators, or experts in different branches of Agr. Science or Technology; (2) one-year course in elementary Agr. Science for students unable to afford (1), with some practical acquaintance with the scientific side of tropical planting and the more up-to-date and efficient methods of production and management; (3) courses for Agr. officers selected for Colonial service in T.A. departments.

POST-GRADUATE RESEARCH. Facilities are provided for work in connexion with problems arising in T A., and more especially those connected with plant pathology, agronomy, physiological botany, and sugar technology.

TUITION FEES: £50 p a., but a limited number of students from contributing Colonies and industries are admitted, on the nomination of the respective local Govts. and industries, without the payment of tuition fees; other students from contributing Colonies, £25 p.a.; Foreign Students, £100 p.a.

The income of the College is derived from contributions by the principal West Indian colonies, Nigeria, the Gold Coast, Sierra Leone, the Empire Marketing Board, the Empire Cotton Corporation, and the British Cotton Growing Association.

Further particulars are obtainable from either the Secy. at 14 Trinity Sq., London, E.C.3, or the Registrar, St. Augustine, Trinidad, B.W.I.

## THE YEAR 1927-28

STUDENTS. Full-time, 43; graduates, 23; preparing for diploma, 15; special course, 3. Foreign students: Ecuador, 1. Diplomas obtained, 3.

# THE UNIVERSITIES OF AUSTRALIA

Adelaide Melbourne Queensland, Brisbane
Sydney Tasmania, Hobart Western Australia. Perth

#### GENERAL DESCRIPTION

[Summary, corrected to June 1928, of information issued in June 1919 by an Administrative Committee of the Australian Universities through the Education Service of the Australian Imperial Force of which the Committee was a part ]

THE Universities of Australia are dotted all round the Commonwealth and are at great distances from one another and in diverse climates The mean annual temperatures range between about 70° at Brisbane and 54° at Hobart Western Australia's nearest neighbour is Adelaide. which is about 1600 miles away by the shortest route naturally, not much moving about of students from one to another. but in the three younger some of the principal professional courses are not yet provided, and it frequently happens that a student after working in one of them for a year or two transfers to one of the older and more central Univs where he is granted status in his professional course. As the Univs are not all uniformly developed, they cannot be quite uniform even in their requirements for entrance exercise all possible reciprocity in the interchange of students also give students who come from British Univs the same status as at Home. Typical of their attitude in this regard is the By-law of Sydney. Undergraduates of other Univs may, at the discretion of the Professorial Board, be admitted ad eundem statum in this Univ without examn, provided always that they shall give sufficient evidence of their alleged status and of good conduct

THE COLLEGE SYSTEM When the Univs. of Sydney and Melbourne were founded provision was made for the establishment of "Colleges of Residence in connexion with different religious denominations" So there came into existence at Sydney, and on the Univ grounds, "St Paul's" (Church of England), "St John's" (RC), "St Andrew's" (Presb), "Wesley" (Meth), and, in 1925, as an extension of St. John's. a Hall for women; the Women's College (1890) is undenominational. Similarly at Melbourne, "Trinity" College (C. of E) was opened in 1872, and was followed by "Ormond" (Presb), "Queen's" (Meth), and "Newman" (RC) Associated with Trinity and Newman respectively are Janet Clarke Hall and St. Mary's Hall, for women students. Queensland has "Emmanuel" (Presb), "St John's" (C. of E.), "King's" (Meth), and an "undenominational" Women s Coll, as well as St Leo's (RC) Adelaide has made a beginning with St. Mark's College (C of E), opened in 1925, and St. Andrew's College (Presbyterian), opened in 1928 There are no other Univ. Colls. in Australia. All these are self-governing and receive no financial aid from the Univ. They accommodate and teach only a small proportion of the whole number of Australian students, but their importance and influence on Univ. life are not to be gauged by this circumstance.

Constitutions. The outstanding feature of the Australian Univ constitutions is the definite and considerable part taken by the State in appointing members of their governing bodies. This is due to the large contributions made to them out of public funds. The newest Univs have admitted divers other persons, such as representatives of commercial, industrial, scientific, and educational societies, or benefactors, to participate with their graduates in the election of senators or councillors. The constitution of Sydney is the simplest; that of Queensland is outwardly the most comprehensive in its legal conception of the Univ. as "a body corporate consisting of Senate, Council, and graduate and undergraduate members " In Melbourne by a recent revision of the constitution undergraduates elect 2 members of the governing body (Council). In Western Australia undergraduates are enrolled by Act of Parliament in a "Guild" which is given a representative on Convocation, the electing body that may also disallow or propose amendments in any legislation of the Senate. The nomen-The governing body may be called in one clature is not consistent place "Senate," in another "Council"; and the assembly of graduates may be called "Senate"—a term never applied to the professorial body. Sydney and Western Australia have whole-time administrative heads.

ADMISSION. Attempts have been made to devise a common matricu., but have been given up. The reason lies in difference of policy as to the part to be taken by entrance examination as a qualifying test, and as to requisite subjects. Generally speaking, matriculation requirements include passing a recognized examin. (school-leaving, matricul., etc.) in English, another approved language (at Sydney, eg, Latin, Greek, French, German, Italian, or Japanese), Mathematics, and one or more other subjects. Special facilities are offered for matriculation in some Univs. and in some faculties to persons who have attained the age of 25 yrs., provided (Sydney) they give evidence of distinct educational merit and are recommended by a three-fourths majority of the Faculty of Arts and approved by the Senate.

THE UNIVERSITY AND THE PROFESSIONS The Univ has always at least one professional school Thus Queensland's School of Engineering has a high repute. Western Australia is making a specialty of Agriculture and Surveying. Tasmania has schools of Law, Engineering, and Commerce. Sydney, Melbourne, and Adelaide have each a wide range of schools.

The Engineering schools give a thorough practical training. Rather high entrance requirements are called for in each of the Univs. The curricula extend over 4 yrs. (W. Australia, 5 yrs.), and are arranged with the definite view of giving a sound knowledge of the properties of materials, and the principles of Maths., Phys, Chem., and Mechanics underlying all engineering work, before specialized professional subjects

are taken Owing to several large bequests the Russell School of E. in Sydney is the most fully equipped. It maintains separate departments for Civil, for Mechanical, and for Electrical Engineering, for Mining and Metallurgy. The corresponding Schools in Queensland and Melbourne are also well equipped, and those of Adelaide, Tasmania, and W. Australia, although less comprehensive, are efficient. Systematic arrangements are made for students to obtain practical experience in workshops or in the field during vacations. The University training is widely recognized as a necessary qualification for professional positions. As a rule graduates in Civil E, enter the State or Federal Public Works Depts., which carry out practically all the large national engineering works, very little in the way of Public Services being left to private enterprise. The experience thus to be gained is very good, although it must be admitted that the emoluments are relatively low. Many graduates in Mining E. have been absorbed in the mining industries of Australia, but a great number—probably the majority-find their way to the larger mining centres of the world, where the financial rewards are usually greater. There is a good deal of industrial and commercial engineering in Australia, and men wishing to have the freer scope which this offers usually take the courses in Mech and Elec. E In Archit, especially the domestic kind, there is a promising outlook in practically all parts of the Commonwealth. The Sydney School of Architecture is the only fully developed one with a Professor and a degree Melbourne has had a diploma course for 20 years, and has for 10 years had an "Atelier" for advanced design work.

The Medical Schools of Sydney, Melbourne, and Adelaide are among the best in the Empire. They comply with the requirements of the General Medical Council, and there is full reciprocity, in respect of registration of degrees as qualifications to practise, between the U K. and Australia. The greater part of the Australian medical profession is now trained in these 3 Univs, and distinguished teachers and research workers are continually being brought in to supplement their staffs. High positions are also held by their graduates outside Australia is generally felt by Australian medical men who have had experience in Europe among men trained in the Schools of the U K, that their own training has been even more practical. It is thoroughly British in scope and method, but, in the proportion of hospital facilities to the number of students, it has had some advantages over the training received by the average British student Whether this impression is or is not correct, it remains true that Australian medical education has reached a high standard, and the equipment of the Faculty is always good and often excellent Sydney has the advantage of an immense public hospital, on its own grounds, with several others but a short distance away. In Melbourne general hospitals containing 500 beds, and women's and children's hospitals, are close to the Univ. The Genl. Hospl at Adelaide is within half a mile of the Univ, and after the 2nd yr. the greater part of students' time is spent in it. The work done may also be supplemented by study, after graduation, in the "Australian Institute of Tropical Medicine" at Townsville in Queensland; and a Diploma in Trop. Med. is attainable. The Hall Research Institute in connexion with the Melbourne Hospl. provides facilities for post-graduate work.

In all the Univs. the Faculty of Arts is becoming, with due help from the Faculty of Science, a professional school for teachers. Sydney, Melbourne, and Western Australia have Profs. of Education who are also heads of the State Training Colleges. Adelaide has the State Director of Education on its Ed. Committee and Council, and gives a Diploma to graduates in Arts and Science who take a prescribed course of prof. study and have proper experience of teaching. There is a course in Ed at Queensland, and every facility is given to teachers to graduate in Arts. An excellent professional equipment for teaching can now be obtained in Australia, and the material rewards of teaching are likely to increase

The less anciently established professions become associated with the Univs. on obtaining a higher status or a legal organization. Thus Vet Science, the practice of which is as yet legally controlled in only three States, is now regularly entered in one of these (Victoria) through a Univ. course of study. In N.S.W. its legal constitution recently followed the institution of a Faculty of Vet. Science at the Univ. of Sydney. In N.S.W. and Western Australia, whose Univ. also has a Dept. of Vet. Science, the law requires such qualifications for vet. practice that a Univ. training will become the natural approach to the profession in that State.

Periods of Study. The Univ. requires 3 yrs' study for a B.A. or B.Sc.—4 yrs, if the B Sc. is taken with Honours. The curriculum for the first degree in Med, formerly 5 yrs., has been lengthened in Melbourne to 5\frac{2}{3}, in Sydney and Adelaide to 6. The time needed to graduate in law may vary, thus Melbourne course takes 4 yrs., but Sydney and West Aust. allow Arts graduates to do their professional studies in 2 yrs. To graduate in Engin. requires 4 yrs.; in Vet. Science, in Agric, in Economics, and in Dentistry also 4 yrs. (Adelaide, 5 yrs), subject to certain minor variations; in Architecture, 5 years.

ACADEMIC TERMS In Australia qualifications are reckoned in "Years" and "Courses" But each "Year" is divided into "Terms." The number of Terms in the Year is usually 3. The Year begins in March and ends in Nov. or Dec The "Long Vacation" comprises Dec., Jan., and Feb., which are the warmest months. Melbourne has 4 terms, the First of 12 weeks; the Second of 10, the Third of 10; and the Fourth, or Examn Term, of 4. Tasmania also has 4 terms. Queensland has 3 terms and 2 Examn. Periods. Arrangements have been made to secure the coincidence of the 1st-2nd and 2nd-3rd interterm vacations of the Australian Univs.

FEES AND COST OF LIVING. The cost of living varies a good deal in different parts of Australia. A student will probably not notice much difference between Sydney and Melbourne in this respect. But anywhere he will find that £225 a year gives him quite sufficient means, for the climate is benign and good food is plentiful. The style of living everywhere is unostentatious. Decent board and lodging should not cost more than 355. a week. Meals at the cost of 6d. to 28. 6d. can

generally be obtained at the University by members of "Unions" and others. Sydney University Union has a Refectory seating 450, and one half of it is open to all members of the University and their guests, and Adelaide University has a Refectory seating 400 A developed Union at an Australian University also provides all the comforts of a non-iesidential Club for about £1 a year Exercise in rowing, football, cricket, and other games may be had in the Sports Clubs on corre-

spondingly easy terms

Residence at a College is optional. College fees for residence and tuition range from 80 to 100 gs. per annum. Thus Wesley College, Sydney (Methodist), charges 28 gs. a term for resident students; Ormond, Melbourne (Presb), from 95 to 110 gs a year for residence during terms, according to the course being taken. St. John's, Queensland (Anglican), has fees of £21 per term. The fees at St. Andrew's and at St. Mark's College, Adelaide, range from 110 to 125 gs. per annum Special arrangements can always be made for residence during vacations, for an example, Ormond then charges 2 gs a week. Many men live in College on a total income of not more than £150 a year, it is doubtful if any will spend double that amount. There are few rich students and no tradition of expensive living among College men, no charming but costly ancient customs. The assistance from Scholarships and Bursaries is generous.

A list of Univ Fees payable at Melbourne and Sydney is given below. Queensland has composition fees for complete degree courses, which are from 12 to 18 gs. a year in Arts, 20 gs in Science, and 21 gs. in Engineering. The corresponding fees at Tasmania are £15 to £20 in Arts, £20 in Science, £22, 10s. in Engineering. W. Australia charges fees for examins, laboratory materials, degrees, and certifs., but tuition

fees only to overseas students.

Adelaide. Matriculation, £1.1s, Ad Eundem Statum, £2.2s., Admission to Degrees. Arts, Science, Master Engineering, Master of Laws, £5.5s., LLD., MD, MS, DDSc., Mus.Doc, DSc, D.Litt., £10.10s.; LLB, £7.7s.; BE, £3.3s, Mus.Bac, £4.4s, Diplomas in Educ, Econ, Commerce, Music, £2.2s. Degree Courses in Arts about £65, Science about £125, Engineering, £135, Law about £90, Medical, 6 years, £240 (excluding Hospital, £56.14s, and Midwifery Clinics, £5.5s); Dental, 5 years, £250; Music, £53.11s; Tuition Conservatorium, £14.14s minimum

Melbourne. Matricn, 1 g, Degree, 10 gs, Degree Courses in Arts, 3 yrs., about 72 gs., Science, £30 each yr., Agric., 4 yrs., 81 gs.; Laws, 4 yrs., about 102 gs, Med, 5% yrs., £258 (including Hospl. Fees); Engin, 4 yrs, £120, Vet Sc, 4 yrs, £100, Music, 3 yrs., at conserva-

torium, 32 gs. p.a.

Sydney. Matricn., £3; Degree in Arts, Econ., Sc., Agric., or Vet. Sc., £3; M.D. and M.S., £20; other Degrees, £10; Degree Courses in Arts, 3 yrs, £75, Econ., 4 yrs, £96, Law, £90 (Arts subjects additional); Med., £234 (excluding Hospl. Attendance, 21 gs, and practical Midwifery, 5 gs.), Dent, 4 yrs, £150 (including Dent. Hospl. £10 p.a); Science, 3 yrs., £99, Engin, 4 yrs, £154 (Min. and Met, £168); Agric., 4 yrs, £118: 10s.; Vet Sc., 4 yrs, £114, Archit., 5 yrs, £171.

FREE PASSAGES TO EUROPE. The following free first-class passages are granted annually to Australian and New Zealand Univs. for graduates proceeding to Europe to continue their studies: Adelaide, 3; Melb., 4, Queensland, 3, Syd., 4; Tasm., 2; W. Aust., 3; N.Z., 3; available by any of the following Lines: Aberdeen, Blue Funnel, Orient, P. & O., and, for N Z. graduates only, N.Z. Shipping and Shaw, Savill & Albion.

#### CONFERENCE

After a conference held at Sydney in May 1920 the Australian Univs established a Standing Advisory Committee to deal with matters of common interest. The temporary headquarters of the Committee are in Melbourne. The Chancellor of Melbourne Univ acts for the time being as Convener of the Committee, and the Registrar as Honorary Secretary.

A conference of representatives of the Univs. has been held annually since 1921. Among the topics discussed are. Synchronizing the short vacations of autumn and spring; uniformity in standards and titles of Australian degrees; a common first year for degree courses in all faculties; entrance requirements; a London buying agent; public service in mandated territories; cheap railway fares for delegates attending conferences, customs duties, income-tax on gifts to universities, a Federal Examining University, establishment of a Ph D. degree, a Central School of Forestry, a sabbatical year; "general science" in public examns, a catalogue of periodicals, paid Vice-Chancellors as Permanent Heads, pension schemes; surgical degrees; students' Loan Fund

Australian Students in the Home Universities, v. Appendix XXI.

University Extension Lectures were instituted at Sydney Univ. in 1886 and at Melbourne in 1891. In 1913 Workers' Educational Associations were formed in all the States to give effect to a movement for bringing the Univs into closer relationship with the masses of the people. The movement was fostered by State grants and grew rapidly. Each Univ. co-operates with the W.E A. in the formation of a joint committee, which appoints tutors and supervises the work with the help of a Univ. officer—the Director of Tutorial classes A federal W E.A for Australia has its central office in the Education Department. Melbourne. The total number of students throughout Australia is about 5000, the greater number taking three-years' courses. In addition to these courses a great many preparatory classes, study circles and summer schools are organized by the Assocn, numerous courses of public lectures are delivered, educational conferences promoted, and an extensive book service is carried on. A correspondence study department has been inaugurated in connexion with the Univs. of Oueensland and WA In Western Australia provision has been made for extension lectures in Perth and suburbs and in country centres.

STATISTICS of University teachers, students, and finance are published annually by the Commonwealth Bureau of Census and Statistics in the official Year Book.

#### **Tutorial Classes**

Mackay, A. L. G, M.A., M.Ec. Syd., Dip. Ed, Director, assisted by 15 tutors.

#### ASSOCIATED OR AFFILIATED INSTITUTIONS

RESIDENTIAL: St. Mark's College, under management of Church of England, but open to men of all denominations Opened for students in March 1925 Master: A. Grenfell Price, M. A. Ox, Dip. in Ed.

St Andrew's College, in connexion with the Presbyterian Church in South Australia, but prescribing no religious test, was opened for students in March 1928

S. Australian School of Mines and Industries. President, Hon. Sir L. Bonython. Unites with the Univ. in providing courses and examns. in Mining, Metall., and Engin. The Chancellor is Chairman of the Joint Board.

ROSEWORTHY AGRICULTURAL COLLEGE. Affiliated for parts of the B.Sc. course for Agric. students.

TEACHING HOSPITALS ASSOCIATED WITH MEDICAL SCHOOL Adelaide General Hospital, 480 beds, Queen's Home (Maternity), 160 beds; Adelaide Children's Hospital, 120 beds.

#### GENERAL INFORMATION

The Univ. was established by Act of the Provincial Legislature in 1874 with endowments of £40,000 from Sir W. W. Hughes and Sir Γ. Elder, and a land grant of 50,000 acres (subsequently repurchased by Govt. for £40,000) as well as a site of 5 acres in the city and a recurrent money grant. Sir T. Elder died in 1897, leaving £65,000 to the Univ. In 1911 the State Parliament sanctioned an additional annual grant and took power to appoint 5 additional members of the Council which, until then, consisted of 20 elected by the Senate. In 1914–19 Mr. Peter Waite presented to the Univ. approximately £55,000 and extensive estates, including a mansion, and in 1920 Sir J. L. Bonython gave £40,000 for a Great Hall and in 1926 £20,000 to endow the Chair of Law. The annual Govt. grant raised in 1919 by £20,000 is now about £42,700. The value of the endowments is £530,554.

LIBRARY, OVER 70,000 volumes. LABORATORIES, Biol., Bio-Chem., Bot., Chem., Engineering, Path., Physics, Physiology, Pharmacology. The Univ. assists in the management of a Public Library, Museum and Art Gallery, and controls the Elder Conservatorium (annual fee, 14 gs).

Special Laboratories and Equipment. Waite Institute for agricultural research, comprising facilities for research in Agric. Chemistry, Plant Pathology (especially with regard to filtrable virus diseases), and the conducting of field agric. experiments and animal metabolism experiments. Field laboratory at Koonamore for investigation of plant regeneration in arid areas. The Animal Nutrition Institute of the Council for Scientific and Industrial Research is within the Univ. grounds, and offers special facilities for investigations in animal nutrition. Director, Prof. T. Brailsford Robertson.

COLLECTIONS OF INTEREST TO SPECIALIST SCHOLARS. Collection of Aus-

tralian endoparasites. Prof. J. B. Cleland's collection of the higher Australian fungi (Basidiomycetes), by far the largest of its kind, is available for study by mycologists and forest pathologists. Collection of representative specimens from all the Australian opal fields.

SPECIAL RESEARCH DEPARTMENTS. The Sheridan Medical Research Foundation for the support of medical research. In 1922 Mrs. A. M. Simpson and Miss A. F. Keith Sheridan bequeathed property to the estimated value of £20,000 for the establishment of this foundation. The Animal Products Research Foundation, which conducts investigations in regard to the problems of animal nutrition. The Board of Anthropological Research engaged in Anthropological investigations concerning the aboriginals of South Australia.

FACULTIES. Arts, Science, Law, Medicine, Dentistry, Music, Applied Science (including Staff of S. Aus. School of Mines and Industries).

DEGREES. Obtainable after 3 yrs.' course, B.A, B Sc., Mus.Bac.; 4 yrs.', LL.B., B.E.: 5 yrs.', B.D S.; 6 yrs.', M.B, B.S.

HIGHER DEGREES. Open to bachelors of 2 yrs' standing, M.A., M Sc., M.E., LL M.; 3 yrs', M D., M S, D.D.Sc., Mus Doc.; 4 yrs.', D.Sc., LL.D., M Sc., D Litt.

DIPLOMAS. Applied Science (Mining, Metall., or Engin.—Civ., Elec., Mech., or Archit.), 4 yrs.' course, Commerce (A.C.U.A.) evening courses; Education (post-graduate); Music (A.M.U.A.), 3 yrs.'; Economics and Polit. Sc., 3 yrs.'

A "Final Certificate in Law" for admission as a practitioner in the Supreme Court is obtainable by articled clerks on a curriculum less extensive than that for the LL.B.

The Univ. conducts Public Examns. of various grades, irrespective of those for its own degrees, etc., namely, in General Education—Intermediate, Leaving, and Leaving Honours; in Commercial Education—Intermediate and Leaving; and Music.

SCHOLARSHIPS, etc., for graduates. Angus Engineering, £200 p.a. for 2 yrs, not open to graduates of other Univs.; several smaller.

RESIDENCE. St. Mark's Residential College was incorporated in the Univ. in 1925, and St. Andrew's College in 1927

ADULT EDUCATION. Tutorial classes were established in 1917. The subjects taught are Engl. Lit., Hist, Economics, Psychology, Philos., Public Speaking, Music, Singing, and General Science. At the Univ. the courses extend over 3 yrs. Four classes are held in country centres. Public lectures given occasionally

CALENDAR public. in Feb. Price 25 6d. Australian Journal of Experimental Biology and Medical Science, issued quarterly, £1:15 per annum.

GRADUATES' ASSOCN. Hon. Sec.—M. R C. Kriewaldt, B A., LL.B., Box 180, G P.O.

MEDICAL SCIENCES CLUB. Hon. Sec.—Prof C. S. Hicks, University.

# THE YEAR 1927-28

New Buildings. The Lady Symon Building, the Students' Refectory, the Animal Nutrition Research Laboratory for Council for Scientific and Industrial Research, and the Melrose Agricultural Chemical Research Laboratory at the Waite Research Institute, are nearing completion.

New Posts. Assistant Lectureship in Physiology; Entomologist at Waite Research Institute.

OTHER DEVELOPMENTS. Night lectures supported by Government Grant. A course of night lectures in Arts and Science subjects has been arranged, special lecturers being appointed.

The Council for Scientific and Industrial Research, and through it the Empire Marketing Board, are co-operating with the Waite Agricultural Research Institute in investigations into various problems connected with agriculture, plant diseases, and animal nutrition; they have contributed £6000 towards a Laboratory building, and the Waite Institute will contribute £3000. In addition to these sums the University has received gifts for the same purpose from Mr. John Melrose of £10,000 and from Mr. J. T. Mortlock of £2000.

The investigations during the next five years are to be supported by the Council for Scientific and Industrial Research and the Empire Marketing Board to the extent of  $f_{2783}$  p.a

Changes in Regulations Regulations were made providing for the extension of the course for the B.D.S. degree from four to five years, granting the degree of D.D.Sc. without further examination on the presentation of a satisfactory thesis; and eliminating optional subjects in the course for the Diploma in Commerce, and providing advanced courses in continuation of certain compulsory subjects.

Interchange of Teachers Prof. A. E. V. Richardson, Director of Waite Agr. Research Instit., represented Commonwealth Government at the Empire Agricultural Conference held in London (Prof. Sir Douglas Mawson, 6 months' visit in England and Europe)

RESIGNATIONS T. G. B. Osborn, Prof of Botany, appointed Prof. of Botany, University of Sydney; Wm. Fuller, Lect. in Histology, resigned after 47 years' service.

EXTENSION LECTURES. Two courses (6 lectures in all) by two members of the staff. Attendance, 500. Sir John Russell, Director of Rothamsted Experimental Station, England, delivered two lectures dealing with Science and Modern Farming.

STUDENTS. Total full-time, 851, preparing for a first degree in Arts and Purc Science 443, Medicine 116, Law 71, Engineering 102, Dentistry 19, Music 4, Economics 3, Commerce 12, graduate students—in Arts and Science 69, Medicine 3, Law 3, Engineering 2, Dentistry 3, Music 1. Part-time total, 1478, graduates, Education and Economics 13, Commerce 2; non-graduating students, Arts and Science 342, Law 3, Engineering 18, Dental 1, Economics 10, Commerce 367, occasional Science 111, Massage 6, Music 55; occasional Music 550. Resident in Colleges, 30. Tutorial class students, 1250.

DEGREES. M.A., 3; BA., 24; M.Sc., 3; LL B., 9; M.D., 1; M B., 27; B.D S, 4, B Sc, 15, M E, 1, B.E., 12, Mus.Bac., 1, Diploma in Applied Sc., 12, Diploma in Com., 25; Diploma in Music, 4; Final Certif. in Law, 7.

#### GENERAL INFORMATION

The Univ. was founded in 1853 by Act of the Victorian Legislature. In 1923 a new University Act was passed, increasing the annual endowment for general purposes to £45,000, providing an additional grant of £8500 for Univ. Extension, a Department of Commerce, and Research, and making constitutional changes. The Council is now composed of 31 members—10 elected by graduates; representatives of the teaching staff (5), of affiliated colleges (2), under-graduates (2); 8 appointed by the Govt. (3 penig members of Parliament, the others representing business interests and technical schools); 2 ex officio; and 2 co-opted members. The legislative functions of the old Senate were transferred to a Standing Committee which, in addition, may submit any matter it pleases for the consideration of the Council. Recognition was accorded in the Act to the Professorial Board and the Faculties. The grounds, 104 acres, include four 10-acre College sites surrounding a recreation ground of 16 acres.

LIBRARY, including the Med. and Chem. Departs., 63,000 vols. Museums and Labs., Anat., Biol., Engin., Geol, Path. (18,000 specimens), Vet. Laboratories, Agric., Bact. (investigations undertaken for Govt. Hospitals and Med. practrs.), Chem., Dent., Metall. and Mining (with 3 head stamp battery), Physics, Physiol. Vet. Research Institute Werribee Research Farm. Hall Research Institute in connexion with Melbourne Hospl.

FACULTIES. Arts, Sc., Law, Med., Dent., Vet. Sc., Engin. (including Archit, Metall., Mining), Agric., Educn., Commerce

Degree Courses: 3 yrs.—B.A. (ordy. and with Honrs), B.Sc, B Com.; 4 vrs.—B.Sc. (Honrs.), LL B., Mus.Bac., B.D.Sc, Lic.V.Sc., B.V Sc, B C E, B M.E., B.Met E, B E E, B Mech.E., B.Agric Sc; 5\frac{3}{2} yrs.—M.B, B S

The first 2 years for the LL.B. may be those of the Arts course. The 2nd year of the B.Agr.Sc. course is passed at Werribee Research Farm.

HIGHER DEGREES. Open to Bachelors of 1 yr.'s standing—LL.M., M.V.Sc.; 2 yrs.'—M.A., M.Sc., M.D., M.S., D.D.Sc., M.C.E., etc.; 3 yrs'—Mus.D., D.V.Sc.; 4 yrs'—D.Sc., LL.D.; 5 yrs'—D Eng; 7 yrs'—D.Litt Courses of medical post-graduation study arranged by special Committee on which Univ. is represented.

DIPLOMAS (which except Dip.Ed. and Archit. can be taken without Matricn.) Educn., 3 yrs.' course, which may include 2 yrs. of the course for any degree in the Univ.; Analyt. Chem., 9 mos. following Final Hons. in Chem.; D.P.H., open to Med. grads. of Melb. of 1 yr.'s standing and persons who have for 1 yr. been qualified for registration as Med. practr. in U.K., 9 mos.; D.T.M., open to Aus. Med. practrs. of 1 yr.'s standing, 3 mos.; Archit., 4 yrs.; Agric., 4 yrs.; Commerce, 3 yrs.

SCHOLARSHIPS, ETC. Aggregate annual value about £14,000. Among the more important are Research Fellowships of £500 each, Research Scholarships up to £200, and combined Research and Teaching foundations.

The Act of 1923 provided for the admission of the following free students: 15 certificated teachers of the Education Dept. per annum; 5 other Govt. officers per annum; 50 other persons per annum. All other certificated teachers and students of Training Colleges are admitted at half fees.

A Students' Loan Fund has assets exceeding £35,000.

RESIDENCE. The Affiliated Colls. (v. supra) accommodate over 400 resident students.

 ${f A}_{f DULT}$  Education. Tutorial classes are conducted in the city and suburbs and 6 country centres.

Public Examinations. School Intermediate and School Leaving are held by the Univ. annually in Dec.; the Intermediate qualifies for entry into the State Public Service, the School Leaving certif. qualifies for matricn. The Univ. also arranges for the Inspection of Secondary Schools.

Publications. Calendar, 3s. net, includes list of publicns. by members of staff; Examn. Papers, is., Students' Handbook, is; Handbook of Pub. Examns, 2s. 6d; Conservatorium Prospectus, Manual of Pub. Examns. in Music. Students' journals Melb. Univ. Magazine; Farrago (weekly), Speculum (Medical), The Margin (Commerce).

The University Press, founded in 1921, has published several important books by members of the Univ., embodying results of research in subjects peculiar to Australia. Messrs. Macmillan & Co. act as distributing agents. It conducts an exchange business in text-books, and caters for students' requirements in stationery and apparatus.

### THE YEAR 1927-28

Benefactions. D. E. Lewis, £2000, Engineering Extension; Estate, Miss E. C. Hickman, £592, Scholarships; Subscribers, £500, Liet Memorial Prizes, Mac Robertson, £500, Bacteriology Dept, A. N. T, £500, General purposes.

Interchange of Teachers Sir John Russell, of Rothamsted, visited Australia from May to July and lectured in the Universities. Prof R. S. Conway of Manchester did so in September Dr. J. E. Russell, Prof of Education of Teachers' College, Columbia Univ, New York, visited the Universities as Visiting Carnegic Professor.

STUDENTS (1927). Total, 2992; not attending lectures but receiving tuition by correspondence, 209.

Univ. Extension. Tutorial class students, 1192; extension lectures, 90; wireless "lecturettes," 52.

DEGREES BA., 105; M.A., 39; B.Sc., 31; M Sc, 13; D.Sc, 3; LL B, 44; LL.M, 2; LL.D, 2; BCE, 17; MCE, 2; BE.E., 10; M.E.E, 1; B.M AE, 2; B Mech.E, 5; M.Mech E, 1, Mus.Bac., 5; B.D Sc, 15; B.V.Sc., 1; B Ag.Sc, 5, M.Ag.Sc., 2, M.B, BS, 45, MD., 9; M.S., 4; B.Com., 18.

# GENERAL INFORMATION

The Univ. was established by an Act of the local legislature in 1909. The entire management and control are in the hands of a Senate of 20 members. of whom so were appointed by the Government and so were elected by the Council (consisting of all members and past members of the Senate, graduates of the Univ. of 3 yrs.' standing, persons appointed by the Govt. as representatives of Commercial, Industrial, Scientific, etc., Assocns, benefactors, etc). The annual grant from Govt was £10,000 until 1917, when it was raised to £15,000. In 1922 it was raised to £20,000. Under the will of the late Sir Samuel McCaughey the Univ. receives an annual income of about £8500.

The grounds, facing the Brisbane River and adjoining the Botanical Gardens, include, in addition to the main building and recreation grounds, 6 departmental buildings and the Central Technical College

LIBRARY, 30,000 vols. LABORATORIES: Biol, Chem, Applied Chem., Engin, Geol, Metall, and Assaying, Physics.

FACULTIES Arts, Science, Engineering, Agriculture, Commercial Studies, Law, Medicine. Only the first five have been organized for imparting instruction

DEGREE COURSES. 3 yrs.—B.A., B.Sc.; 4 yrs.—B.Sc. Honours, B.Sc. Agr., B.Sc. (Applied) in Industrial Chem., B.E. in Civ., Mech. and Elec., Chem., or Mining Engin, LL.B.

A Diploma Course in Mech and Elec. Engin (may be followed in any approved Coll or Instn), 4 yis.; a Diploma course of at least 2 yrs. for persons who have had 3 yrs' practical experience of Journalism; a Diploma of Commerce, and a Commercial Certificate are offered.

HIGHER DEGREES. M.A. and M.Sc., open to B.A. and B Sc. of 2 yrs.' standing, through examn. (M.A., examn and thesis). M.E., open to B.E of 3 yrs.' standing, 25 yrs. of age, engaged in professional work. D.Sc. open to M Sc. of 5 yrs.' standing by examn. and thesis.

EVENING LECTURES AND EXTERNAL STUDENTS. Evening students may extend their course over 5 yrs. in Arts and Sc No evening work in Engin subjects is done, but by 5 yrs. of evening work elsewhere exemption from the first 2 yrs. of the B E. course may be obtained

Persons who having matriculated are unable to attend lectures at or in connexion with the Univ. may pursue certain courses under the guidance of the Director of Correspondence studies. They may thereby, provided they pass the prescribed examns. (which may be held at local centres), qualify for a B A, degree.

Adult Matriculation. Candidates who have attained the age of 25 yrs. may be admitted to matrice, in the Faculties of Arts, Science, and Engineering upon passing a special examn.

Scholarships, etc., for Graduates 2 gold medals offered by Govt for distinction at graduation; froe for 2 yrs. for Chem. Research; f200 for 1 yr for Engin. work; f250 for study outside Australasia; f300 for 3 yrs. (W. and E. Hall Foundation), of which 2 to be spent abroad in Engin. Research; f500 for 2 yrs. in Econ. Biol.

RESIDENCE. Undergraduates are required to reside with their parents or approved friends or a tutor or in a recognized Residential Coll or boarding-house licensed by the Senate Fees in the Colleges, including residence, commons, and tuition, 20 gs a term (Women's £20, St Leo's £20)

Public Examinations are held by the Univ. annually in Nov. and Dec.: Junior, Junior Commercial, and Senior. For matriculation the corresponding public examns, of the Univs of Adelaide, Melbourne, and Sydney are treated as equivalent to these.

Publications Calendar, 25 6d, Manual of Pub. Examns, 1s

# THE YEAR 1926 (return for 1927 not received)

New Faculty A Faculty of Agriculture was created and a professor and a part-time lecturer appointed.

New Posts. A second lectureship in Geology and Mineralogy and a second full-time lectureship in Maths (in place of the part-time evening lectureship).

DEATH. W. M. Nelson, part-time lectr. in Engineering.

Students. Matriculated, 114. Evening students, 105 External, 178. Grand total, 481.

DEGREES. B.A, 27; M.A., 1, B.Sc., 13; M Sc., 2, B E., 10; M.E., 1; D.Sc., 1.

#### GENERAL INFORMATION

Founded by Act of the N.S.W. Legislature in 1850, the Univ. was granted a Royal Charter in 1858. Its development has been largely due to private benefactions, notably those of J. H. Challs—£250,000—in 1880, T. Fisher—£30,000 for Library—in 1885, P. N. Russell—£100,000 for School of Engineering, etc.—in 1896 and 1904, and W. O. Watt, £72,182, 1925-1928. Under the will of Sir S. McCaughey it receives an annual income which amounted in 1927 to £21,880. In 1912 the Statutory endowment was raised from £10,000 to £20,000, with provision for further automatic increases, and at the same time the constitution of the governing body, called the Senate, was altered so as to include 6 nominees of the Govr. and Parliament (one-fourth of the whole number). In 1917-18 the Statutory endowment was further increased to £32,000, including £2000 for the new School of Archit. In 1919 the State provided £50,000 a year for 6 years for additional buildings. The Faculties were in that year increased from 4 to 10. The grounds, which include the sites of the Colleges grouped round an oval, cover 140 acres.

Provision was made by Act of Parliament soon after the foundation of the Univ. for endowing such Colleges as might be established within it, to the extent of £20,000 in aid of building and £500 p.a. towards the Principal's salary.

The Library, 150,000 vols, receives about 1800 serial publications. Museums: Nicholson collection of Egyp., Greek, Roman, and Medieval Antiq. (4000 specimens), Macleay Nat Hist, Anat, Geol., and Zool; Obstetric, Materia Medica Laboratories Schools of Med, Engin, and Archit. (atelier), Bot, Chem (including Metall and Research), Geol (with rock analysis Research), Phys, Zool. The Royal Prince Alfred Hospl, erected on the Univ. grounds as a general hospl and school, has 518 beds. Gladesville mental hospl. iecognized by Camb. for clinical work for Dip. Psych. Med.

FACULTIES Arts, Law, Med., Science, Engin., Dent, Vet. Sc., Agric., Econ., Archit

Degree Courses: 3 yrs—B.A., B Sc; 4 yrs.—Honours B Sc., B.Sc. in Agric. (3 after Agric Coll course), B.Ec, LL B. (after completing 1st yr. in Arts or passing Law Entrance Examn), B D S, B V Sc, B.E. (in Civil Engineering, Mechanical and Electrical Engineering, Mining and Metallurgy, or Engineering Technology), 5 yrs—B Arch, 6 yrs—M B, B S; 2 yrs.' advanced study or research (after full 3 vrs' course at another Univ)—B.A. or B Sc. The LL.B. qualifies conditionally for admission to the bar—Law students usually take the B A. first, selecting Law subjects in 3rd yr, and complete combined course in 6 yrs., thereby gaining concessions in regard to periods of studentship and service as articled clerk—Higher Degrees. Obtainable by bachelors of 2 yrs.' standing—M.A, M Ec., LL.D., M D., M.S., M Sc, 3 yrs—D Sc, M E, 5 yis—D Sc Eng, D Dent Sc, D V Sc, D Sc.Agr. Diplomas—Educn. (for graduates in Arts or Sc), i yr's course; Com., 3 yrs; D.P H; D T M, Psychiatry, Anthropology, Journalism. Candidates for the Diploma of the Pharmacy Board have to attend courses in the Univ.

RECOGNITION OF STUDIES ELSEWHERE. A considerable portion (in Med. 3 yrs) of the curriculum for a Degree must be taken in Sydney. Holders of the Diploma of the Hawkesbury Agricultural College or any college of similar standing who have passed the Intermediate Certificate Examn. in matriculation subjects may be admitted as matriculated students in Vet. Sc. or Agriculture

SCHOLARSHIPS, ETC., FOR GRADUATES. Junior Demrs. are appointed annually in each Scientific Dept. with the obligation to carry out research under the direction of the Prof.; 6 post-grad. Scholarships of £200 each and 2 of £300 are awarded annually for scientific study and research in the Univ.; 4 Macleay Fellowships of £400 p.a. each are tenable by B.Sc.'s; 4 others of £300 p.a., and 2 Scholps. of £250 p.a., tenable for 2 yrs., are awarded annually for further study and research at Syd. or abroad.

RESIDENCE. The four denominational Colls. (v. supra) provide accommodation for about 260 students; the Women's Coll for about 70, and Sancta Sophia Hall for about 35 R C. women students.

University Extension Lectures are given in courses of from 3 upwards in Sydney and numerous local centres. Tutorial Classes are provided, as prescribed by the Act of 1912, under the superintendence of a Joint Committee of the Univ. and Workers' Educl. Assocn. of N.S.W. In 1927 the Govt. grant for this purpose was £6370; 57 classes were at work, including 1459 effective students.

Adult Matriculation. Persons of distinct educational merit who have attained the age of 25 yrs. may be admitted as matriculated students in the Faculties of Arts, Science, and Econ.

Publications. Calendar publ. in June, 3s. 6d., with annual report and list of publicns. of Univ. Staff; Reprints of Scientific Papers by members of the Staff; Hermes, an undergrads.' mag., 5s. p.a. (3 issues); The Union Recorder (weekly during Term).

### THE YEAR 1927-28

BENEFACTIONS. Estate of late W. O Watt (additional), £8351; Miss Joan Norton, £10,000 for general purposes; Dr. Gordon Craig, £10,000 for Dept. of Urology; Mrs Eva Kolling, £16,000 for Mechanical Engineering; Proprietors of the Sydney Morning Herald, £10,000 for general purposes; G. H. Bosch, £27,000 for establishment of Chair of Histology.

New Posts. Director of Cancer Research; Director of Cancer Treatment; Chair of Histology and Embryology

OTHER DEVELOPMENTS. Sums amounting to £84,000 have been received in response to the University Appeal launched in July 1927.

RETIREMENTS C. E. Bellingham, Dr. C. E. Corlette, Dr. R. I. Furber, J. K. Hawthorne, J. R. Hooton, M. L. MacCallum, K. W Street, Lucy M Wood. Death. Prof L. Harrison.

STUDENTS. Matriculated students, 1909, Post-graduation students, 125; Non-matriculated students, 348.

DEGREES. MA, 13; B.A, 146; I.L D, 1; LL B., 50; M.D, 2; M.B., 58; BS., 48, Ch.M, 12; M.Sc, 1; BSc, 51; BE (Civ, Min. and Met., Mech. and El), 17; B.D.S, 9; BV.Sc., 1; BSc.Agi., 5; M.Ec, 2; B.Ec., 19.

### GENERAL INFORMATION

Founded in 1890 under an Act of the Tasmanian Legislature, the Univ. was, in 1915, granted a Royal Charter. To the original Faculties—Arts, Science, and Law—Commerce was added in 1919 and Engineering in 1922. The annual Govt. grant is £11,740.

Admission of Persons of Mature Age. Persons not below 25 yrs. of age who satisfy Board of Studies that they possess sufficient qualifications for the courses they propose to pursue may be exempted from the ordinary requirements for matrice.

LIBRARY, 20,000 vols. LABORATORIES: Chem., Phys., Biol.; Testing plant in Engin. Dept. Facilities for investigation in Elec. Engin. Observatory, 8" reflector telescope.

DEGREE COURSES: 3 yrs., B.A., B.Sc., LL.B. (after 1 yr. of Arts course); 4 yrs., B.Com., B.Eng. Higher Degrees. Open to Bachelors of 2 yrs.' standing, M.A., M Sc., LL.M., M.Com.; 3 yrs., D Sc.; to Masters of 3 yrs.' standing, LL.D. DIPLOMAS of the Affiliated Schools: Metal Mining; Metall., Chem, and Assaying. Certificate of Commerce, 2 yrs.' course.

University Extension. Tutorial classes, annual grant, £1780.

Public Examinations. Intermediate and Leaving; Music (held in conjunction with other Australian Univs).

Publications. Calendar (Aug.), 2s.; Pub. Examn. Manuals, 2s.; Degree Examn. Papers, 1s. Univ. news appears in Hobart Mercury. Students' Magazine, Platypus.

# THE YEAR 1927-28

EXTRA-MURAL WORK W.E.A. and Tutorial Classes

VISITS. Their Royal Highnesses the Duke and Duchess of York. The Australasian Association for the Advancement of Science held its annual meeting at the University.

F. P. Bowden was awarded an 1851 Exhibition.

Students. Full-time: total, 291, including 2 graduates. Part-time: total, 75.

DEGREES. B.A., II; B.Sc., 4; M.Sc, I; B.E., 3; B.Com., 3; LL.B., 5; LL.M., I.

#### AFFILIATED SCHOOLS

PERTH TECHNICAL SCHOOL, and SCHOOL OF MINES, KALGOORLIE.

#### GENERAL INFORMATION

Established by Act of the State Legislature in 1911, the Univ. opened its first session in 1913. It has a large endowment of land granted by Govt., including a site of 165 acres for buildings, and receives an annual grant of £29,000. The administration is vested in a Senate of 18 persons, of whom 6 are nominated by Govt.

LABORATORIES. Agric., Biol., Chem., Geol., Engin., Phys , Psych., Vet. Sc. Faculties Arts, Sc. (including Agric.), Engin. (including Surveying), Law.

Degree Courses: 3 yrs.—B A., B.Sc; 4 yrs.—B.A. (Hons), LL.B. and B Sc. (Hons); 5 yrs.—B E. (a sandwich system during last 3 yrs.) and B.Surv. (including 2 yrs.' field work). First year Med. course in Fac. of Sc.

EVENING CLASSES are held in the Arts Faculty only, but certain Science classes may be taken in the evenings at affiliated Colleges.

HIGHER DEGREES. M.A., LL.M., LL.D., M.Sc., M.E., D.Litt., D.Sc.

DIPLOMAS. Agric., Journalism.

Public Examinations. School Certifs. (Junr. and Leaving), Art Certif., Music, and Elocution.

Adult Matriculation. Persons who have attained the age of 25 yrs. may be admitted without examn as matriculated students if the Faculty is satisfied that they possess sufficient educational qualifications.

Publications. Calendar (Dec.), 25 6d., Examination Papers; Public Examn. Manuals; Black Swan (Students' Magazine).

### THE YEAR 1927-28

Benefactions. In addition to the annual Government Grant of £29,000, a special grant of £10,500 was made for scientific and engineering apparatus. Mr R J Gledden, a pioneer surveyor of Western Australia, died in November 1927, and left his entire estate to the University for the encouragement of Applied Science. The value of the estate is about £65,000.

Buildings The erection is in progress of St. George's College, a residential college for University students, at a cost of about £100,000. Work has been commenced in connexion with the main Hackett block of buildings for the University (to cost about £200,000) and the Physics building (cost about £32,000) The Government has decided to mark the centenary of the foundation of Western Australia in 1929 by erecting such buildings as will enable the whole University to be transferred to the permanent site.

New Developments Considerable additions have been made to the University Library through funds provided from the Hackett bequest. The Faculty of Law has been established, and the first classes met in 1928. This year a commencement has been made with a course leading to a diploma in Journalism. Botany has been made a separate department from Biology.

University Extension An extensive series of lectures has been given in Perth and in many country towns, while weekly lectures have been broadcasted from Perth Lectures have been given in Perth by Sir John Russell, Lord Clinton, and Professor R S. Conway. The Carnegie Foundation of New York has given 5000 dollars for the promotion of extension work by the University in adult education

RETIREMENTS Assoc. Prof G. Irving and Mrs Forsaith Mr. A A. Orton was appointed to a lectureship in the University of New Zealand.

STUDENTS. Undergraduates · Arts, 186, Law, 49; Pure Science, 67, Agriculture, 16; Medicine, 9; Engineering, 61; Journalism, 21. Postgraduate: Arts, 32, Science, 4; Special courses, 95. Total, 540.

DEGREES B.A., 41; M.A., 1; B.Sc., 9; B.Sc. (Agric.), 7; M.Sc., 2, B.E., 9, M E, 1; LL.M., 2.

#### CONSTITUENT COLLEGES

University of Otago, Dunedin; Canterbury College, Christchurch, Auckland University College; Victoria Univ. College, Wellington.

This University, an examining body, was founded in 1870. Its constitution, defined by the N Z Univ Act 1908 as amended in 1912, 1914, and 1915, vests the Government of the Univ. in a Council of 23 members, assisted, as regards schemes of study, etc., by an Academic Board representing the College Professorial Boards and a University Entrance Board, of which the Vice-Chancellor is the President, and on which there are representatives of the Academic Board, the Department of Education, and the Secondary Schools. The Council consists of 4 members nominated by the Governor, 8 appointed by the College Governing Bodies, 5 by General Court of Convocation, 3 by the Academic Board, I by the Council itself, and the Director of Education. The Chancellor and Vice-Chancellor are elected by the Council; the former (or, in his absence, the latter) presides at meetings of the Council. There are no University buildings. the offices are at Wellington. An annual grant of \$\xi\_000 0 18 \text{ received from Govt.}

MARRICULATION Candidates must pass in 5 subjects, including English, Maths, and one language. A candidate who does not pass in Latin or Greek must pass in Physics or Chemistry or Home Science, or Botany or Agriculture. Not more than two of these sciences can be taken; in the syllabus prominence is given to their practical aspect. The examn, is held in Dec. Special provision is made for exemption of persons not under 25 years of age and students from other Univs.

Terms. A student presenting himself for a Univ. examn. for which the keeping of terms is required must have passed the College examn. in the subjects he offers at the corresponding stage. The terms are: Autumn (March-May), Winter (June-Aug.), and Spring (Sept.-Oct. or Nov.). The subjects in which terms must be kept are: all those of the B.A., B.Sc., B.Sc. in H.Sc., M.B., Ch.B., B.D.S., B.Agr.Sc., B.For.Sc., B.Arc., and LL.B. degree courses; of the 1st and 2nd Divisions of the B.Com. course; of the Engineering Entrance examn.

Any student who is on the books of a constituent College, and who has passed its annual examn., is deemed to have kept the terms of the year if he has attended the prescribed courses, or, being resident more than so miles from

College or engaged in acquiring a profession or trade or earning a livelihood, has been thereby prevented from attending, or objects on grounds of religious scruples to such attendance.

Degree Courses: 3 yrs.—B.A., B.Sc., B.Mus., B.Agr.Sc. (including practical work on farm), B.For Sc; 4 yrs.—B.Sc. in Home Science, B Arch. (including 18 mos.' practical work), LL.B., B.E. (Mech., Elec., Civ., Mining, Metall., including from 9 to 18 mos. in shops, mines, or surveying), B.Com., B.Vet.Sc.; 5 yrs.—B.D.S., 6 yrs.—M.B., Ch.B., B.Med.Sc.

HIGHER DEGREES. M.A., M Sc., LL.M., M Com, M.S.; Litt.D., D.Sc, LL.D., M.D., D.D.S., D.Mus. For the Mastership examn. and thesis are required. The Doctorate may be taken by a Bachelor of 5 yrs.' (in Med 3 yrs.') standing who offers suitable original work and, if in Arts, Sc., or Law, has already obtained the Mastership or equivalent degree, or, if in Med. or Music, passes a prescribed examn.

DIPLOMAS DPH. (9 mos' course), Journalism, Education, Social Science, Banking, Insurance, Fine Arts. Certificate of Proficiency in Dental Surgery, Shipping Officers' Certificate.

Professional and Technical Schools. Law and Commerce at all the constituent Colls.; Medical and Dental and Home Science at Otago; Engineering (Civil, Electrical, and Mech) at Canterbury and Auckland; Mining and Metallurgical Engineering at Otago, Music mainly at Auckland and Canterbury, Agric. at Auckland and Wellington and a recognized (but not affiliated) Coll at Lincoln, Forestry at Auckland and Canterbury, Architecture at Auckland.

"AD EUNDEM" RECOGNITION. Courses completed, or partially completed, at any British chartered or other approved Univ. are accepted ad eundem

Scholarships for Graduates In almost every subject of the BA or B.Sc. syllabus and in Law, Medicine, Dentistry, and Engineering—£70; Travelling Scholps. in Arts, Science, French, Law—£200 (2 yrs) each, in Engin and Med—£150 each Four National Research Scholarships (£180) are offered annually to graduates of the NZ. University or other approved persons.

Two first-class return passages between Australia and England are offered yearly by the Orient Co and P. & O. Co for grads of the Univ proceeding to Europe to continue their studies. The Union S S. Co. supplements this by a similar concession between N Z and Australia One passage between N.Z. and England is offered by the N.Z. Shipping Co., one by the Shaw, Savill & Albion Co., and one by the Commonwealth and Dominion Line

ADULT EDUCATION. Classes are conducted under the control of the Council of each College through an Executive Committee on which the Council and the W.E.A. are represented. The Government granted £4520, of which £300 was allotted to each College for W.E.A. and extension classes.

Publications. Calendar (Oct.), 28 6d, Minutes of Prodgs. of Senate, free; Examn. Papers, 6d. or is. a set; Reports of Examrs. (in England and NZ), free.

# THE YEAR 1927-28

Amendment of the University Act 1926 is contemplated during the session of 1928. The opening of the Massey Agricultural College in the North Island with an encouraging number of students enrolled has given effect to one of the most important recommendations of the Royal Commission. The Council

has sought power to confer honorary degrees (LL.D., D.Sc., Litt.D., Mus.D.) subject to the approval of the Academic Board. The new LL.B. degree and the new regulations of the Supreme Court Judges have distinctly raised the standard for entrance to the legal profession. The Council has moved in the matter of establishing degrees in Theology by taking evidence from representatives of the Churches. After 1928 the nine-unit B A. degree will be in operation for all candidates; for students matriculated since 1926 the B.Sc. degree is one of eight units; each of these must include either two third-year courses or one third-year and one second-year course; the B.A. must include a foreign language unit, but Maori is not accepted as such.

STUDENTS. Full-time: total, 1274, including 65 graduates. Part-time: 2749, graduates, 207.

DEGREES. B A., 228; M.A, 73; B.Sc., 54; M.Sc., 17; LL.B, 35; LL.M., 7; B.Com, 15; M Com., 2; B.D.S., 13; B Med Sc., 1; M.D, 1; D.D.S., 1; B.E., 16; B.H.Sc., 4; B Agr., 2; Ph.D., 3; M H Sc., 1.

### THE ROYAL COMMISSION, 1925

The Royal Commission which has made investigations into the question of University education in New Zealand in its Report recommends drastic changes, including the establishment of a reformed Federal system with greater autonomy for constituent colleges. The Commission states that the New Zealand University offers unrivalled facilities for the taking of degrees, but that it is less successful in the provision of a University education. The Report condemns the dominant place given to examinations, and urges the encouragement of whole-time study. Other recommendations include:

- (1) The substitution of a School Leaving Certificate Examination for the Matriculation Examination.
- (2) A definite policy for the establishment of special schools and for preventing duplication; and in particular the establishment in the North Island of a strong University School of Agriculture.
  - (3) Provision for the training of Secondary teachers within the University.
  - (4) A higher standard of entrance for the legal profession.
- (5) Bursaries for selected students undertaking professional courses at distant University centres.
  - (6) The encouragement of Research.
- (7) Promotion of corporate life among the students by means of a Students' Representative Council and of College Hostels.
  - (8) Development of extra-mural work
  - (9) Establishment of Degrees in Theology.

The Minister of Education has approved the main recommendations.

The Royal Commission, which was appointed early in the year, had two members. Sir Harry Reichel, Principal of the University College of North Wales, and Mr. Frank Tate, Director of Education in the State of Victoria.

11 Lecturers to W.E.A. Classes. Secy.—G McCracken

# GENERAL INFORMATION

Founded by Ordinance of the Provincial Council in 1869 with power to grant degrees in Art, Medicine, and Law, the Univ. was opened in 1871. The Law School originated in 1873, the Medical in 1874, the School of Mines in 1878, the Dental School in 1907, the Accountancy Lectures and the Home Science Dept. in 1911. Between 1869 and 1877 the Univ. received grants of land exceeding 220,000 acres. It is entirely unconnected with any religious denomination except that the right of nomination to certain Chairs endowed by the Presbyterian Church rests with the Board of Church Property, subject to the approval of the Synod. It receives annual Government grants of approximately £10,000.

By an agreement effected in 1874 the Univ. agreed to hold in abeyance its power of granting degrees, and to become affihated to the Univ. of N.Z.

CLASS FLES. In separate subjects—in Arts generally, £5:5s. for complete course; Science, £8:8s.; Law from £1:15s. to £5:5s.; Commerce, £1:10s. to £5; Medicine, all subjects aggregate (6 years), about £218, exclusive of Univ. fees, £45:3s.; Dentistry (4 years), £149, exclusive of Univ. fees, £24; Mining (4 years), £134; Home Science (4 years), £125:4s.

LIBRARY, 21,000 vols.; also the Hocken collection of pamphlets and MSS. bearing on the History of N.Z. Museums: Biol., Ethnog., Geol., Anat, Path. LABORATORIES: Phys., Chem., Physiol., Bact., Path.

FACULTIES. Arts and Science, Medicine, Dentistry, Mining, Law, Commerce, and Home Science.

OTAGO 479

COURSES for degrees in all the Faculties, D.P.H.; Certif. in Dent. Surg.; Associateship of Otago School of Mines (A.O.S M.), 4 yrs.; Diploma of Mining, Metallurgy, Geology, or Land and Mine Surveyor, 2 yrs.; Associateship in Home Science, 4 or 3 yrs.

RESEARCH SCHOLARSHIPS, ETC. Edmond Industrial (Chemical) Research, £210, tenable 2 yrs.; Smeaton Research in Experimental Science, £60 for first year and £210 for second. The first is open to any person domiciled in N.Z., the second to graduates of Otago. Ross (Knox College), £150, 2 yrs.; Sir R. Stout (Economics), £50; and Anna P. Stout (Economics and History and Home Science—women); all open to graduates of Otago. Other Research Funds: Roberts, Deans, and Barnett endowments, £2000 each for research in med. and surg.

HOSTELS. Presbyterian for men and women, Anglican for men; Home Science Students'. Cost of board and lodging, 30s. to £2 a week.

Univ. Extension. Since 1916 classes in connexion with the W.E.A. in Dunedin and Invercargill have met with very great success.

# THE YEAR 1927-28

Benefactions Dunedin Savings Bank, £2000, Dunedin City Council, £1250; Bank of N Z, £500 (all for extension of Museum); the Crow family, £1000 for Medical and Dental Research, Sir Louis Burnett, £1000 for playing fields.

STUDENTS. Full-time 1190, including 79 graduates.

### GENERAL INFORMATION

Created by Piovincial Ordinance, 1873, and affiliated to the Univ. of N.Z., 1874 Present value of Govt. endowments—£559,005, including £265,057 for the High Schools, School of Art, Museum, and Public Library controlled by the Board of Govrs Annual Govt. subsidies and grants (1926), £46,983, including £6524 for Engineering (the National School of Engin in N.Z.) and £5008 for College The Rector is the academic head of the College and the permanent Chairman of the Professorial Board Laboratories Biol., Chem., Engin, Phys., Educational Psychology, Forestry.

Degree Courses in Arts, Science, Mus., Com., and Engin., and Certif. or Diploma courses in Engin. (3 yrs.), Com. (2 yrs.), Journalism, Education, Forestry, and Social Science. Evening courses in Mech. and Elec. Engin. and Com.

CLASS FEES. Per session in each subject in Arts or Science, 5 gs.; Laboratory Research, 8 gs., Law and Commerce subjects, 1½ to 3 gs.

RESIDENCE. Hostels for men (80) and women (35) students.

Scholarships include one of £50 for research in Science, open to graduates, renewable up to 3 yrs.; one of £150 p.a. for 2 yrs. plus £38 for travelling, tenable at Royal Holloway Coll., England; one of £150 in Engineering, open to B.E., tenable outside N Z; one (Hartley) for women graduates, offered every third year, £300 p a. for 3 yrs. tenable ordinarily at Oxford, Cambridge, or London. There is a Students' Loan Fund of £700.

Publications. Calendar in March. Annual Statement of the Chairman in June. College Review, 2 issues a year, subscription 4s. Annual Report (Trans.)

of Coll. Engineering Soc., 25. 6d.

THE YEAR 1927

Students. Full-time: total, 386, including 57 graduates. Part-time: 862, including 23 graduates. Total, 1248.

#### University Extension

Of 16 Tutors assisting the Director appointed by the W.E.A. (Richmond, N M, BA), 4 are members of the College staff. Asst. Tutor Organizer: Stephens, F. B., B.Com.

#### GENERAL INFORMATION

Established by Act of the N.Z. Legislature in 1882, the College was affiliated to the Univ. of N.Z. in 1883. It received in 1885 an endowment of 30,000 acres of land, of which one-third was sold in 1915 for £10,246. It receives an annual grant of £11,500.

Of the 14 members of the College Council 3 are appointed by the Governor, 2 by the Prof Board, 1 by local bodies, 4 are elected by the graduates, and 3 by the Auckland members of the General Assembly. Legislation was passed in 1923 permitting of the appointment of a Principal to the College.

COURSES are provided for the degrees of the Univ. in Arts, Science (including B Sc in Archit. and in Forestry), Law, Music, Commerce, and for the Associateship of the College in Commerce (2 yrs.' course) and in Engineering (3 yrs.').

CLASS FEES. Arts subjects, usually £3 to £5. Science, £5 to £8. Law, £1: 10s. to £3 per subject.

Publication. Calendar (Feb.).

# THE YEAR 1927-28

#### GENERAL INFORMATION

Established by Act of the N.Z. Legislature, 1897, and affiliated to the Univ. of N.Z., 1899. Endowed by Govt. with 4000 acres. College buildings, towards which Govt. gave £31,000, were opened in 1906; additional wings for Library, etc., and for Physics erected 1921-22 at a cost of £50,000. Annual grants about £14,000.

Full Degree Courses are provided in Arts, Science, Law, and Commerce, and the earlier stages in other Faculties.

CLASS FEES range between 3 and 5 guineas per annum for each subject.

RESEARCH SCHOLARSHIPS. J. Joseph, £60 for original work; Mrs. S. A Rhodes' Fellowship (£400) or Scholarship (£125-£250) for women students of Home Science, tenable for 2 years. Farmers' Union Scholarships (£100) for research bearing on Agriculture

Hostel for 41 women students conducted (on definitely Christian lines) by W.S. Hostel Society.

Publications. Calendar (Feb.); Students' Magazine published towards end of each term.

# THE YEAR 1927

# UNIVERSITIES OF THE UNION OF SOUTH AFRICA

University of Cape Town (formerly South African College, Cape Town).

UNIVERSITY OF SOUTH AFRICA, PRETORIA (formerly the Univ. of the Cape of Good Hope), with 6 Constituent Colleges.

University of Stellenbosch (formerly Victoria College, Stellenbosch).

University of the Witwatersrand, Johannesburg (formerly S. African School of Mines and Technology, and, later, University College, Johannesburg).

HISTORICAL SUMMARY (for which the Bureau is indebted to Professor Ritchie of Cape Town) The history of higher education in S Africa covers but a comparatively short period of time. It may be said to have had its beginnings when, in 1829, the S. African College (now incorporated in the Univ. of Cape Town) was founded, as a proprietary institution, by a number of progressive citizens of Cape Town, assisted by subscribers from various parts of the country. This institution was, at its inception and for a long time afterwards, not much more than a higher-class school, but it had within it the possibilities of growth and started with very high aims. It had a very chequered history for some time, and was on more than one occasion in danger of extinction, but it gradually acquired a stronger position on ceasing to be a proprietary institution and receiving support from the public funds. 20 years it remained the only educational establishment in S. Africa which aspired to anything beyond the range of elementary education. but in 1849 a rival College (the Diocesan) was started under the ægis of the Episcopalian Church at Rondebosch, a suburb of Cape Town. A few years later, in 1855, a somewhat similar College, St. Andrew's, was founded in Grahamstown, in the eastern part of the Cape Colony. Under the Governorship of Sir George Grey there was founded, in 1855. the Grey College at Bloemfontein in the Orange Free State, the first attempt at higher education beyond the borders of the then Cape Colony. None of these Colleges was well equipped, and most of the work done by them was school work rather than Univ. work, but they gradually acquired a growing influence and formed centres at which development was only a question of time. A very strong impetus in the direction of higher education was given in 1858 by the establishment of a Board of Examiners in Literature and Science. This Board had in view in the first instance the testing by means of examination of the competency of candidates for the Civil Service and public offices, but it soon extended its scope and started examinations on more distinctively Univ. lines, corresponding roughly to Matrice, B.A., and M.A. The competition between the existing Colleges caused by these examns, had undoubtedly a strong influence on the growth of these Colleges and the greater attention paid to subjects beyond the mere school range. This Board continued to exist until 1873, when a successful attempt was made to institute a Univ. for S. Africa. The Univ. of the Cape of Good Hope, which was then founded, continued to exist until the beginning of 1918, when it was transformed into the Univ. of S. Africa. with its administrative seat at Pretoria. This Univ. was modelled on the lines of the London Univ., as then existing, as a purely examining body. It was governed by a Council, half of whose members were nominated by the Government, half elected by the members of Convocation. It had no constitutional connexion with the Colleges which prepared students for its examns, but the members of the Council who were elected by Convocation tended gradually to be almost entirely members of the teaching staffs of the various Colleges In this indirect fashion the Colleges had a considerable influence on the development of the Univ. and the extension of the range and scope of its examns. Almost at the same time as the founding of the Univ. of the Cape of Good Hope there was passed by the Cape Parliament a Higher Education Act, which gave definite salary grants to the professors at recognized This Act, together with the new impulse given to higher education by the new Univ, had a very marked influence on the development of the Colleges, which now began to increase in staff and numbers of students. The new College of Stellenbosch (afterwards the Victoria College and now the Univ. of Stellenbosch) was founded in 1874, and grew very rapidly, until it was a formidable rival of the older College at Cape Town. Other Colleges were founded also at Somerset East (Gill College) and Port Elizabeth (Grey Institute), but these had only a very short term of life. At a considerably later period, as S. Africa grew in population and wealth, other Colleges sprang into existence. A College for women (the Huguenot College) was founded at Wellington in 1898. In 1904 St. Andrew's College at Grahamstown separated its College department from its school, and the former became incorporated as the Rhodes College. In the same year a School of Mines which had been founded in 1896 at Kimberley was transferred to Johannesburg and afterwards developed into a College for higher education generally, which is now The University of the Witwatersrand. In 1908 a Univ. College was founded at Pretoria, and in 1909 a similar College was instituted at Pietermantzburg, Natal.

In 1904 there began a movement for the institution of a teaching, in place of the examining, Univ., and the controversy regarding the rival claims of a federal and a single-college Univ. continued for a number of years. An Inter-Colomal Conference on Univ. Education in 1908 reported in favour of a federal scheme, but nothing came of its decision. A new factor in favour of a teaching Univ. was introduced by the munificent gifts for this purpose of Mr. Alfred Beit, his brother, Mr. (now Sir) Otto Beit, and Sir Julius Wernher. In consequence of these gifts, various attempts were made by the Government to solve

the knotty question of reconciling claims of the existing Colleges with the institution of one or more teaching Univs. A parliamentary committee deliberated on the subject in 1913, and a Commission was appointed in the same year and, after taking evidence, issued its report in 1914. This Commission proposed two Univs., one consisting of a federation of the S. African College and the Victoria College, the other of a federation of the remaining Colleges (Rhodes College being allowed the choice of joining whichever federation it pleased), but the proposal led to no practical result, chiefly owing to the objection on the part of the two oldest and strongest colleges, at Cape Town and Stellenbosch, to the loss of their independence—The problem was at length solved in 1916 by giving charters to both the S. African College and the Victoria College, and by the reincorporation of the old Univ. of the Cape of Good Hope as a federal Univ. embracing all the other Colleges under the name of the Univ. of S. Africa

The three Acts passed by the Union of S  $\,$  Africa in 1916 were to the following effect .

I. The Univ of the Cape of Good Hope became the Univ of South Africa, with its administrative seat at Pretoria

II. The South African College became the Univ of Cape Town, with which is incorporated the S. African College Its seat is to be upon the Groote Schuur estate on the eastern slopes of Table Mountain

III. The Victoria College, Stellenbosch, became the Univ of Stellenbosch, with its seat in the division of Stellenbosch in the Province of the

Cape of Good Hope

The Faculties of the Univ. of Stellenbosch are specified as—Arts, Science, Education, Agric., Law, Theology, Commerce; of the Univ. of Cape Town as—Arts, Science, Medicine, Law, Engineering, Education, of the Univ of South Africa the Faculties are not defined, but permission is given to each of the constituent Colleges to establish such faculties or depts. as it may deem fit, provided that it shall not, without the consent of the Govr-General, apply towards the maintenance of a faculty or dept. not established at the commencement of this Act any money granted to the College from public funds—The three University Acts referred to above also made provision for the establishment of a Joint Matriculation Board and a Joint Committee for Professional Examinations, the functions of which are indicated below

In 1921 Parliament passed a further Act, which has the effect of incorporating, with effect from March 1, 1922, as "The University of the Witwatersrand, Johannesburg," the University College, Johannesburg (formerly the S African School of Mines and Technology, and one of the constituent colleges of the University of S. Africa). Its Faculties are defined as Arts, Science, Medicine, Law, Engineering, Commerce.

Each of the four Univs is governed by Council, Senate, and Convocation. The Senate of the Univ. of South Africa consists of the Professors and Lecturers of the constituent Colleges who are heads of such departments as are recognized by the University Council; the Senates of the Univs. of Stellenbosch, the Witwatersrand, and Cape Town consist in each case of the Principal, the Vice-Chancellor, two

additional members of the Council appointed for a prescribed period, and the Professors.

Conference. The Vice-Chancellors of the Univs. acting as a Joint Committee (known as The Vice-Chancellors' Committee) have, in the exercise of powers conferred by the above-mentioned Acts, made joint statutes and regulations relating to the Joint Matricn. Board, the Joint Committee for Professional Examns, the administration of the Joint Scholarship Funds of the four Univs, the admission of registered students of any one of the Univs. to any of the others, and a minimum period of attendance and minimum fees for the Degree of Bachelor. They have power to formulate regulations dealing with any other matters of common interest. The address of the Secretary (who is also Registrar, Univ. of Cape Town) is P.O Box 594, Cape Town.

Representatives of the Univs and Univ. Colleges in South Africa met for the first time in conference in Cape Town in Dec. 1925 to discuss matters of common interest and to promote co-operation and mutual consultation. Similar meetings have since been held from time to time.

The Joint Matriculation Board consists of representatives of the four Univs, the Provincial and Union Departments of Education and the Secondary Schools (public and private) of the four Provinces function is to control and conduct the Matricn Examn of the four Univs, and to deal with all applications for exemption therefrom There are two alternative sets of regulations—the interim and the new Under the interim rules a candidate must take (1) English or Dutch. (2) Latin or Greek or French or German, (3) Maths, (4) Greek (if not already taken) or Hist or Geog, (5) Physics or Chem or Phys Sci or Bot or Zool or Geol or Biol. or Hygiene or Agric Sci. (6) Engl or Dutch or French or Ger or Latin or Greek or Hist. or Portuguese or Hebrew or Native lang The new grouping of subjects is: (1) English, Dutch, (2) Maths; (3) Latin, Greek, French, German; (4) Physics and Chem, Physics, Chem, Biol, Bot, Zool, Geol, Hygiene, Agric. Sci A , (5) Hist , Geog , English, Dutch, Hebrew, addl subject from 3 or 4, (6) Agric Sci B, Practical Maths, Mechanics, Bookkeeping and Comml Arith, Shorthand and Typewriting, Drawing, Art, Geom Drawing, Domestic Sc, Music, addl lang, addl subject from 5. the new regns, if 6 subjects are taken, I must be selected from each group; if only 5 subjects are taken, 3 must be on the higher grade. I of which must be the subject from group (1), I a subject from group (2) or (3), and 1 from any other except (6) The 5 subjects must be selected from the groups I to 5 (inclusive) in such a way that not more than one of these groups is omitted. School-leaving certificates are also issued by the Board under both sets of regns, the syllabuses and examn. papers being the same as for the matricn. examn with a wider choice of subjects.

Examinations exempting (i) wholly, or (11.) subject for subject, from the matriculation examination of the South African Univs.: (i.) Final degree examns, of univs. recognized by the Joint Board, St. Andrews' L.L.A., Teachers' 1st Class Certificate (S. Africa), Technische Hoogeschool of

Delft Diploma examn., including Latin, French, or German, and, subject to certain conditions, Transvaal Secondary School Certificate (in or after 1921), Cape Province Senior Certificate (in or after 1923).

(ii.) Provided that candidates have passed, with at least 4 subjects chosen in accordance with the regulations for a matricial certificate of the Board, an entrance examn, of any unive recognized by the Board, senior certificate of the Unive of the Cape of Good Hope or School-leaving certificate of the Board, Second Class Teachers' certificate (Transvaal and Natal Province), Eindexamen in Holland of Gymnasium or Hogere Burgerschool, Diploma in Switzerland of "École Supérieure de Jeunes Filles," Abiturienten-examen or Maturitats-Prufung in Germany or Switzerland at a gymnasium, Hoofdakte-examen in Holland, any British Higher School Certificate, or School Certificate with credit. Dynamics of the Scottish Universities preliminary examn, and Mechanics of the Senior or School-leaving Certificate (S. Africa) are accepted in lieu of a matricial science subject.

Candidates over the age of 25 who desire to proceed to a degree course or to some professional qualification and are not eligible for exemption under the ordinary regulations may, under certain conditions, be specially exempted from Matrica, on the recommendation of the Univ. or other authority concerned.

The address of the Secretary (who is also Registrar of the Univ. of SA) is PO Box 392, Pretoria

The Joint Committee for Professional Examns. (Address—P.O. Box 392, Pretoria), consisting of 2 representatives of each of the 4 Univs. (one for Law and one for Survey) and 5 persons appointed by the Govr.-General (of whom at least 2 must be for Law and 2 for Survey), controls and conducts: (1) Law Certificate Examn., (2) Civil Service (Lower and Higher) Law Examns., (3) Examns. in Theory of Land Surveying, and (4) Final Examn for Patent Agents. It also conducts in certain cases on behalf of the Supreme Court the Advocates' Admission Examn. in Roman-Dutch Law and the Statute Law of the Union.

A NATIONAL UNION OF SOUTH AFRICAN STUDENTS was formed in 1924. President, L. Marquard, Grey College School, Bloemfontein; Secy., C. J. O'Kennedy, Secondary School, Riebeek West, C.P.

TERMS The academic year is usually divided into 4 terms, beginning in Feb or March and ending Nov or Dec At Stellenbosch there are two Semesters, beginning end of Feb and end of July.

#### GENERAL INFORMATION

The University of Cape Town, with which is incorporated the South African College, created by Act 14 of 1916, came into legal existence on April 2, 1918, when the Council took over a bequest by Sir Julius Wernher of £250,000 and a donation of equal amount from Mr. (now Sir) Otto Beit, who added £50,000 to a lapsed bequest by Mr. Alfred Beit. The S. African College, out of which the University grew, opened in 1829 as a private venture, became a public institution in 1837. In 1895 classes were opened in mining engineering. In 1900 the matriculation classes were transferred to the College school and the College confined itself to University teaching. In 1902 £40,000 was collected from past students and others, and courses for medical students and civil, mechanical, and electrical engineers were begun. Provision was made in 1910 for postgraduate courses for the training of teachers, in 1917 for the third year of medical study, and in 1918 for a complete medical course. In 1921 Schools of Commerce and of Music were established. Early in 1921 a special appeal for funds was concluded; the amount obtained was about £280,000, including a sum of £50,000 for the Jameson Memorial Hall.

A site for the University has been provided by Government at Groote Schuur, a suburb of Cape Town. Pending the erection of buildings there, those formerly occupied by the Univ. of the Cape of Good Hope have been rented.

LIBRARY, 30,000 vols. Access to S.A. Public Library, 100,000 vols., specially well equipped in Bot and Zool. Depts. Also Bolus Bot. Library and (for students of Teaching) the Library of the Educn. Dept. The Bolus Herbarium includes Guthrie Collection of Cape Flora. The S.A. Museum of Nat Science adjoins the Univ. grounds. Marine Biol. Laboratory at St. James'.

FACULTIES. Arts, Commerce, Science, Engineering, Law, Medicine, Education, and Music.

DEGREE COURSES. B.A., 3 yrs.; B.Sc. (in Pure Sc.), 3 yrs.; B.Com., 3 yrs.; LL.B., 5 yrs; B.Sc. (in Applied Sc.), 4 yrs.; B.Mus., 4 yrs.; M.B., Ch.B., 6 yrs. Higher degrees: M.A., 1 yr.; M.Sc., 1 yr.; M.Com., 1 yr.; B.Ed., 2 yrs after B.A. The M.A., M Sc., and M.Com. courses are open to graduates of any approved Univ.; so also are courses for the Ph.D. (open to bachelors of at least 3 yrs.' standing), and D.Litt., D.Sc. (open to bachelors of at least 4 yrs' standing), for which attendance for 2 yrs. may be required. The M.Com. is open to B.Com. of 3 yrs.' standing. The LL.M. is open to LL.B. after 2 yrs.' attendance; the LL.D. is open to LL.B. or LL M.

OTHER COURSES. For Teachers' Certificate —Secondary Higher, Secondary Lower, Primary Higher; Univ. Diploma in Commerce, in Architecture, in Music, in Fine Art, in Speech Training (elocution); Univ. post-graduate diploma in public health, Law Certif., Land Surveying, Civil Service Law examn., Dentistry (picliminary subjects), and foi students of Agric. and Theol. proposing to graduate in those subjects elsewhere

RECOGNITION OF AND BY OTHER INSTITUTIONS. Attendance in Stellenbosch and the constituent Colls of the Univ of S. Africa is accepted under certain conditions as part of the attendance qualifying for degrees. Attendance on classes in Physics, Chem., Bot., and Zool is accepted by Aberd, Bris, Durh, Edin, Glas., Liv, Manc, Dub., R.C.P. Lond, R.C.S. Eng; so also are examns. in the Faculty of Arts on the special courses in these subjects (except by Dub.). Attendance on courses in Anat. and Physiol is accepted by Aberd, Durh, Edin, and Glas., R.C.P. Lond, and R.C.S. Eng, examns. in the Faculty of Arts in these subjects are accepted by Aberd. The Dentistry course is recognized by the R.C.S. Eng, R.C.P.S. Edin., and Edin Dental School; the Hygiene course by the Conjoint Boards of Eng, Ire, Edin, and Glas.

Fees. For tuition, including registration, excluding laboratory fees, annually: Arts or Sc., from £23 to £31; Engin., £31 to £35; Med., £38 (average); Law (LL.B.), £23 to £29, Law Certif., £11; Teaching, £15 to £27; Surv., £27; Commerce (B Com.), £23, Architecture, £35; Fine Ait, £32, Music, £25 to £40. Examn and graduation fees, minimum: B.Ed., £10; B A. or B.Sc. or B.Com., £11; B Sc. Engin, £20; LL.B., £30; M.B., Ch.B, £30; Master's degree, £6; Doctor's, £13.

Scholarships open to Graduates of the Univ. Jamison, Croll, Porter, George Grey, Donald Currie, Willem Hiddingh, and several others, of £150 and £200 p.a., tenable generally for 3 yrs., and awarded from time to time after the M.A or M.Sc. examns.; £150 p.a. for 2 yrs., awarded annually after the B.Sc. (Engin) examn.; £150 for 1 yr., awarded annually after the final professional examn. for M.B., Ch.B. H. B. Webb Gift Research Scholp. of £200 p.a., tenable for three years, is available for award every three years to graduates of the University.

Travelling concessions to students are granted by the Union-Castle S.S. Coy. and (except to law students and married persons) by the Union Railways.

RESIDENCE. Hostels for 270 men and 200 women. Board and residence, £60 p.a.

Publications. Calendar (Dec.); Students' Repve. Council's University Quarterly; Annals of the Bolus Herbarium; The History of South African College, 1829-1918, by Prof. W. Ritchie (2 vols., Maskew Miller, Cape Town)

# THE YEAR 1927

Benefactions. Michael Hiddingh, bequest of £5000 for founding a scholarship to enable young persons to pursue a course of professional study. Miss M. J. Philip, bequest of £884, interest on which will be applied to purchase of books and periodicals for the library.

New Buildings Residences for men and women students and new block for anatomy, physiology, and bio-chemistry completed. Satisfactory progress was made on the blocks for (a) mathematics and physics; (b) arts and education, (c) botany and zoology. Work on the preparation of the new cricket ground and the hockey ground was begun during the year, and four additional tennis courts were opened for play

New Post. Senior Lectureship in Commerce.

Death. Dr. E. S. Edie (Professor of Bio-Chemistry). Resignations. Lecturers Miss D de Marillac (Speech Training); F. A. Donnolly (Pathology), Miss M. Freund (Speech Training); R. R. R. B. Howes (Law) (honorary), Miss N. McCullough (Bacteriology).

HONORARY DEGREES LL D-Rt. Hon Sir James Rose-Innes, Sir John G. Kotze.

STUDENTS. 1912.

DEGREES. Arts, 112; Sc., 18; Engm., 12; Law, 17, Med., 25; Educn., 6, Comm, 4.

# UNIVERSITY OF SOUTH AFRICA

(By Act 12 of 1916 of the Legislature of the Union of South Africa the UNIVERSITY OF THE CAPE OF GOOD HOPE, incorporated by Act of the Cape Legislature in 1873, became and was incorporated in the UNIVERSITY OF SOUTH AFRICA with administrative seat at Pretoria.

TRANSVAAL UNIVERSITY COLLEGE, Pretoria (1903).

### GENERAL INFORMATION

FACULTIFS: Arts (including Fine Arts, Divinity, and Music), Education, Science, Engineering, Agriculture, Law, Commerce and Public Administration, Veterinary Science

DEGREES. B.A., M.A., M.Ed., D.Litt., D.Phil.; B.D., D.D.; B.Mus., D.Mus, B.Com., M.Com.; B.Econ., M.Econ; B.Sc, M.Sc, D.Sc., B., M., and D.Sc. in Engin.; B., M., and D.Sc. in Agric.; LL.B., LL.M., LL.D.; B.V.Sc., D.V.Sc.

Courses for B.A., B.Com., B.Econ., B.Sc.—3 yrs.; B.Mus., B.A. (Fine Arts), B.Sc. Eng., B Sc. Agr.—4 yrs.; B.V.Sc.—5 yrs.; L.L.B.—3 yrs., after graduating in some faculty other than Law. *Internal* candidates for these degrees must have attended as registered matriculated students at a Constituent Coll. for the prescribed periods, provided that the Senate will accept as qualifying attendance on recognized courses at any of the other South African Univs. and may accept attendance and examns. at other recognized Univs., or at other institutions specially recognized by the Senate for the purpose. But the minimum attendance at approved courses at the Univ. of S.A. for the Bachelor's degree in Applied Science is the final 2 yrs., and for other Bachelor's degrees at least one-half of the courses prescribed. *External* students must have their curricula approved by the Senate and must pass the examns. prescribed for them from year to year by the Senate in order to qualify for degrees.

497 2 K

The M.A., M.Sc., M.Com., M.Econ., and M.Sc. (Agric.) courses each cover 1 yr. after the Bachelor's degree; the M.Ed. 2 yrs. The M.Sc. (Engin.) may be conferred on a B.Sc. (Engin.) who has had, since graduating, 2 yrs.' practice of his profession. A thesis is required for the LL.M., M.Sc. (Agric.) or M.Sc. (Engin.). Doctorates are granted for approved theses to bachelors of at least 5 yrs.' or masters of at least 4 yrs.' standing (reducible to 4 and 3 respectively in consideration of attendance for one year as a research student at an approved institution). The Master's and Doctor's degree may also be conferred honoris causa.

Research (Bachelor) Degrees. On proof of special qualifications in any direction a person may be exempted from the matrical example, and admitted to courses of special study and research with a view to graduation, the conditions being determined by Boards of Faculty, subject to approval of Senate.

Diplomas in Domestic Science and Education (Lower) open to matriculated students—3 yrs.' course; in Education (Higher)—1 yr. course after graduation; (as a temporary measure) in Commerce and Public Admn.—non-matriculated students who fulfil examn. requirements for B.Com. or B.Econ.; in Bantu Studies (Lower and Higher), to Music Teachers.

Scholarships: 2 or 3 of £150 to £200 p a for 3 yrs. awarded annually on results of M.A. and M.Sc. examns; Webb Research Scholarship, £200, open to holders of M.A. or M.Sc. of not more than 2 yrs.' standing, undertaking approved course of research work, renewable from year to year up to 3 yrs.; I Music Scholarship of £200 p a. for 3 yrs, tenable at Royal Coll. of Music, London

Univ. Fellowship. £250 per annum for two years to enable any Professor or Lecturer of the Univ. to carry out a special branch of research work.

School and Music Examns. The Univ. controls and conducts a *Junior Certificate* examn. of standard 2 yrs. below matricn., and examns. for Music Certifs. and Licentiate Diplomas (for Teachers of Music and Solo Performers). The examiners in the practical music examns. are nominated by the Assoc. Board of R.A.M. and R.C M, London.

Publication. Calendar (March), 2s. 6d

#### GENERAL INFORMATION

Established by an Act of 1909, the College was opened in 1910 in the Town Hall and moved in 1912 to its own buildings (which, with equipment, cost £60,000) in the suburb of Scottsville. A new Science block and a women's hostel were added in 1921. Students have access to Maritzburg Botanical Gardens and Govt. Museum.

Courses leading to the B.A., B A (Fine Arts), B.Com., B.Sc., M.A., M Sc., etc., 1st examn. for B.Sc. in Agric. (including 1st yr.'s course for Med. students), LL.B., Natal Law Certif. and Natal Advocates' Law examn., Survey examn. (theory only). Recently Faculties of Engineering and Commerce have been instituted in Durban in co-operation with the Natal Technical College, five of the staff of which have become members of the Senate of the Natal Univ. College—four professors and one lecturer. One of the former is the Professor of Fine Arts; and a 4 yrs.' course for the B.A. (Fine Arts) is provided in Durban.

HOSTEL for women students.

HOSTEL for men students in course of erection.

Publication: Calendar (March).

#### GENERAL INFORMATION

In 1902 a movement was started for the institution of university education in the Eastern Province, and in 1904 the Rhodes Trustees established for the purpose an endowment of £50,000, which, together with a donation of £5000 from the De Beers Company and local subscriptions amounting to £10,000, was applied to the development of St. Andrew's College (founded 1855). The College Department (opened in 1878) was separated from its school, and incorporated as Rhodes Univ. Coll. in 1904. In 1906 it received £25,000 under the will of Alfied Beit. In 1926 the Art School was amalgamated with the Coll.

Rhodes Univ. Coll possesses the only school specially built for the teaching of Fine Art in S A.

LIBRARY, 18,600 vols.

LABORATORIES Applied Maths., Bot, Chem, Geog, Geol, Metall., Mineral., Phys, Phys Chem, Zool.

COURSES. B.A., B Sc, B Com., B.Econ, M A., M Sc, LL.B., Surveying, Law Certif (Attorneys), Civil Service Law, Dipl. in Com, Higher and Lower Dipl. in Educ, Art Courses, 1st yr. Course in Med, Dent, Eng, Agric, Vet. Sc, Mining, and Music

Tuition Fee for full degree course, £24.

College Scholps. open to graduates 2 of £40, 1 of £50.

Hostels for 200 men ("College," "Botha," "Milner," and "Graham" Houses), 130 women ("Oriel" and "Jameson" Houses), with dining halls, etc Board and Residence, £60 p a inclusive

Publications. Calendar (November), The Rhodian (twice a year).

# THE YEAR 1927

### GENERAL INFORMATION

In 1908 University Classes in Arts, Science, and Law were established at Pretoria by the Transvaal Govt., and were placed under the control of the Council of the Transvaal Univ. College at Johannesburg, the constitution of that body being altered so as to give Pretoria equal representation. A

separation took place in 1910, the Johannesburg section being reincorporated as the South African School of Mines and Technology, whilst the Pretoria section retained the name of the Transvaal Univ. College. In 1917 was instituted a Faculty of Agriculture, financial provision for which (an endowment of £100,000) had been made by the last Parliament of the Transvaal in 1910. The following Faculties have since been established: 1918, Theology; 1919, Commerce and Public Administration; 1920, Veterinary Science; Music, 1923. The original College Buildings were erected and equipped at a cost of £50,000; those of the Faculty of Agric. at a cost of £100,000. A new Science block was completed at the end of 1924 at a cost of £40,000.

Courses are provided for all Degrees and Diplomas of the Univ. in Arts, Science, Agric, Vet. Sc, Law, Div., Music, and Commerce and Public Administration. Fee for full degree course, £17:5s. to £27:6s. p.a.

The Transvaal University College is the only Institution for Higher Education in South Africa which has a Faculty of Theology. A special feature of the Univ is the work done in the Extra-mural Faculties In a building in the centre of the town three miles from the main buildings, lectures are given, out of ordinary business hours, for the benefit of public servants, articled clerks, commercial men and teachers. About 300 students are enrolled, practically all for full degree courses for BA, Law BA, LLB, BCom, B.Econ., a Master's degree, Law Certificate, or Banker's Certificate The Faculty of Agriculture is one of two in South Africa It is specialised along different lines from the Faculty in Stellenbosch University, attention being paid to Animal and Field Husbandry and Citriculture (the only course of its kind in the The Faculty of Veterinary Science was grafted on to the existing world-famous Vetermary Research Laboratory at Onderstepoort five-year course in Tropical Veterinary Medicine is provided, leading to the degree of B.V Sc.

Hostels. 4 for men, including the Dutch and English Church Hostels, and 3 for women. Board and Residence, £60 p.a

LIBRARY, 48,000. LABORATORIES: Bot, Chem., Entom, Geogr., Geol, Phys., Physiol., Psychology, Zool., Agric., Bot., Agric Chem., Agronomy, Vet Anat. Astronomical Observatory.

University Extension. The faculties of Agric. and Vct. Sc. co-operate with the Union Dept of Agriculture in connexion with the extension train service organized by it. Public Lectures are being organized in Pretoria and surrounding districts

Publications. Calendar (November); bulletins containing result of research by members of staff

#### GENERAL INFORMATION

The Victoria College of Stellenbosch, established 1881, beginning with a single Department, that of Arts, was in 1916, partly owing to a bequest of floo, ooo by the late Ian Marais, granted the status of a University by Act No. 13 of 1916. The University was formally opened on April 2, 1918. By Act No. 45, 1926, which came into force on October 1, 1926, the Faculty of Agric. (whilst remaining for academic purposes a faculty of the Univ.) was amalgamated with the Elsenburg School of Agric, situated in the division of Stellenbosch, to form the "Stellenbosch-Elsenburg College of Agric. of the Univ. of Stellenbosch." This closer co-operation with the Dept. of Agriculture aims at the better co-ordination of resources " for the promotion of agricultural science and the development of agriculture within the Union" In the main the scientific activities are centred at the University and the practical experimental and extension work at the Elsenburg Experiment Station (2600 acres). Dr. C. K. Brain was appointed Acting Principal of the College of Agriculture for two years, and Mr. T W G Reincoke, M.Sc., Director of the Experiment Station

The College of Agriculture is also in charge of the Cereal Experiment Station "Langgewens" (1150 acres) in the division of Malmesbury

FACULTIES. Arts, Law, Education, Science, Theology, Agriculture, and Commerce.

Degree Courses. BA (3 yrs), BSc. (3 yrs.), B.Comm (3 yrs), B.Sc. Home Econ. (4 yrs), B.Sc Agric (4 yrs); LLB (4 yrs or combined with BA., 5 yrs), MA, MSc, MSc Agric., M.Comm (1 yr post-grad); B Educ (2 yrs post-grad.); DSc, D Phil, D Litt, D Comm. (2 yrs after Master's degree), DSc Agric (1 yr after the M.Sc Agric); LLD (2 yrs after LLB); BD (3 yrs. post-grad.); DEd (3 yrs. teaching experience after B.Educ. and 1 yr further study and research) Courses are also provided for the Secondary Teachers' Higher, Lower, and Primary Higher Certificates; also for certificates in Nature Study and Commerce.

FEES. Registration, £2:55 p a. (incl. sport and fees payable to Students' Representative Council); Library, 5s. p.a. Tuition per semester for master's or bachelor's degree, £10 (B.D., £5); Doctorate, £5 p a. Laboratory per semester, £5 (max.). Examns. B.A., BSc., B.Comm., B.Educ., £10; for master's degree, £5; Doctorate, £10, LL.B., £30; B.Sc.Agric, £20. Graduation, £2. Board and Residence, £44 p a.

LIBRARY. 40,000 vols.

SPECIAL EQUIPMENT, COLLECTIONS, ETC The Dept of Botany possesses a large collection of the peculiar xerophytic flora of South Africa The Dept. of Agricultural Chemistry has a building and equipment for manurial potexperiments. The Dept. of Bantu Studies is building up a collection of specimens of native art and industry.

Publications. The Calendar, The Stellenbosch Student (by Students' Repr Council); Annals of the University of Stellenbosch (by Senate).

Scholarships for Graduates. Generally tenable for 3 years, and open to holders of M.A., M Sc., M.Sc.Agric., B Educ., M.Comm., B.D., and LL.B. (with B.A.): Porter, Croll, Queen Victoria, Grey, Donald Currie, Union (each £150 pa), Hiddingh and Ebden (£200 pa), Maynard (60 pa.), H. B. Webb (£120 p.a.), Abe Bailey (£300 p.a).

Extension Work. Evening lectures by members of Staff once a week.

RESIDENCE. The John Murray House, affording residence for 350 men students, has been completed at a cost of £109,000. Altogether there are University hostels for 520 men and 190 women.

# THE YEAR 1927

The following overseas visitors gave lectures or series of lectures upon the invitation of the Univ. during the year: Dr. J P Lotsy (Editor of Genetica, Holland); Prof. Schroeter (Zurich); Dr. Keppel (Carnegie Corporation); Hon. Col Amery, Minister for Dominion Affairs, H. B Butler, Esq. (Vice-Director, International Labour Office, Geneva), Prof. Kaiser (Munich); Mr. Burkitt (Cambridge), Prof. Meinhof (Institute of African Languages, Hamburg).

RESIGNATION. Prof. Perold (Œnology-Viticulture), on apptmt. as Tech. Advis. Co-operative Winegrowers Society of S. Africa.

Honorary Degree. D Sc - J. H. J. K E. Brauns.

STUDENTS Full-time. total, 1198, including 163 graduates. Part-time, 68; occasional, 50

DEGREES. B A., 104; M A , 16; B Sc , 27; M.Sc , 10; D Sc , 1; B Sc. Agric , 22, M Sc Agric , 3, B Educ., 3, LL B , 2; B.Comm , 2, M.Comm., 1, B D , 4.

Associated Institutions. There are several hospitals as well as an Instn. for Med. Research in which students of Med carry out a part of their curriculum.

#### GENERAL INFORMATION

Telegraphic address—University, Johannesburg.

The Transvaal Technical Institute, constituted in 1903, was opened in 1904 and took over at Johannesburg the work of the S. African School of Mines, Kimberley, which had been founded in 1896. In 1906 its name was changed to "Transvaal University College," and in 1908 Arts and Science classes at Pretoria were placed under its control. This arrangement was terminated in 1910, when the Johannesburg part of the institution was incorporated under the name of the S. African School of Mines and Technology. Buildings, towards the cost of which the Council of Education, Witwatersrand, contributed £60,000 and Govt. £30,000, were opened in March 1909 In 1913 Commerce (Diploma) courses were established. In 1916 a Witwatersrand University Committee was formed in Johannesburg to promote the establishment of a fully equipped Univ. College financed by the State, as a step towards the formation of a University. In 1917 the School became one of the constituent colleges of the new federal Univ. of S. Africa In the same year classes in Arts, Pure Science, and Medicine were inaugurated. In Sept. 1920 the institution became the "University College, Johannesburg" In 1921 the College was reincorporated as a University with effect from March 1, 1922. The students in 1916 and each of the following years up to 1922 numbered 77, 173, 191, 301, 635, 812, 983. This development was made possible partly by support from the public, including contributions by the Chamber of Mines (£50,000), Standard Bank of S.A., Nat. Bank of S.A., Central Mining and Investment Corporation, and De Beers Cons. Mines, Ltd. (£10,000 each), Sir Otto Best (£8000), and many others, amounting in all, up to the end of 1922, to over £220,000. The Municipality provided a fine site (100 acres) at Milner Park, a mile from the centre of the town. Expenditure on buildings and lay-out up to June 1928 amounted to £450,000. LIBRARIES Central, and several departmental Museums. Several Departmental

FACULTIES: Arts, Sc, Med, Engin, Comm, Law.

Degrees BA, BSc or B.Mus, 3 (Hons., 4) yrs, MA or M.Sc, 1 yr., Hons. and Thesis, D Litt, D.Phil, LLD, or D Sc., Thesis; B Ed., 2 yrs. (post-grad); M Ed, Thesis; B Com or B Econ, 3 yrs; M Com., Thesis; B.Sc. (Eng), 4 yrs.; M Sc (Eng), Thesis, B Arch, 5 yrs; M Arch, Thesis; LLB, 3 yrs (post-grad); LL.M., Thesis; M.B, Ch.B., 6 yis, M D or M.S., Thesis and Examn. An alternative course for the B Sc in Mining and Metallurgy provides for employment in the mines of students in their 4th year.

DIPLOMAS. Classics, French, Afrikaans, German, Economics, Geography, Philosophy, Archit., Music, Bantu Studies, Public Health, Tropical Medicine and Hygiene, Psychological Medicine, Actuarial Maths — Courses for Teachers' Certifs, Law Certif, Civil Service Law examn., Land Surv. — Fees from 12 gs. p a (Civil Service Law) to £35 (MB)

Scholarships open to Graduates: Chamber of Mines, £250; Union, 2 of £150 each for 3 yrs.; Ainsworth (Mod. Hist.) every 2 yrs., £150 p.a. for 2 yrs.; H. B. Webb Research Gift, £200.

RESIDENCE. Hostels for 160 men and 35 women. Fees, £60 p.a.

Univ Extension. Public lectures under joint auspices of Univ. and W.E.A. Discussion circles; afternoon and evening courses for teachers and

others in regular employment, who may by attending them qualify for B.A. degree.

Publications. Calendar, Bantu Studies; Umpa (S.R.C.).

### THE YEAR 1927-28

Benefactions. Union Government, £71,860 for current expenditure, £36,750 for building, £950 for Bantu Research, £1637 for Bursaries and Scholarships; Johannesburg Municipality Grant, £6000 for general purposes and £5000 for bursaries; other Recf Municipalities, £550 for general purposes and £806 for bursaries; Witwatersrand Council of Education, £1000 for bursaries, £194 for general purposes, Witwatersrand Univ. Committee, derived from public subscriptions, £14,500; bequests and donations, £1390.

RESIGNATIONS. J. McGibbon, Prof. of Obstetrics; A. D. Furner, Sr. Lectr. in Arch.; J. M. Watt, Prof of Pharmacology.

DEATHS Prof. R A. Lehfeldt (Economics), J. D. Percy Roberts (Sr. Clin. Lecturer Dentistry), E. A. Willey.

HONORARY DEGREE. D Sc.-D. Draper.

STUDENTS (1928). Full-time: total, 1469, including 168 graduates.

DEGREES (1927). BA, 76, MA, 1; B.Sc, 17, MSc, 2; D.Sc, 1; M.B, Ch.B, 22; BSc (Eng), 28; B.Arch, 1, BCom, 12; LL.B., 6; BDS, 2

# COLLEGE OF AGRICULTURE, MAURITIUS

PRINCIPAL AND CHAIRMAN OF ADVISORY BOARD-The Hon. H. A. TEMPANY, D Sc Lond., F I C, F C S., Director of Agriculture.

REGISTRAR-M KOENIG, A.Inst P

#### LECTURERS

Agronomy—The Principal and 2 Physics—The Registrar. others

Edwards. D.IC. FCS, F.ES, and 2 others

Botany and Mycology-E F S Shepherd, BSA. McG

Chemistry-N Craig, MSc; R Lincoln, B.A Camb

Biology and Entomology—W H. Surveying and Agric Engineering -R Avice, ARTC

> Also Lecturers in Animal Husbandry, Book-keeping, Sugar Technology, and Veterinary Science

The College is administered as an integral part of the Department of Agriculture of the Colony. The cost of the building (opened Jan. 1925) and equipment was £14,000. Experimental fields and farms cover 60 acres. Laboratories provide accommodation for research in Chemistry, Entomology, Botany, Mycology, Physics, and Sugar Technology. Athletic grounds are attached to the College.

A three-years' course leads to the Diploma of the College. Short courses in the inter-crop period are provided for estate employees and special courses for The examns, of the City and Guilds of agricultural and sugar-house chemists London Institute in sugar technology are held at the College.

The College year begins in January.

Minimum age for admission, 17. Evidence of general education up to matriculation standard is required.

Tuition fee for British subjects not natives of Mauritius, £20 p a.

# THE YEAR 1928

Full-time, 20. Part-time: total, 4, including 2 graduates STUDENTS DIPLOMAS awarded (in Agric.), 4.

# THE HEBREW UNIVERSITY, JERUSALEM

PRESIDENT—CHAIM WEIZMANN, Sc.D. Freib., D.Sc. Manc.

CHANCELLOR—JUDAH L. MAGNES, Ph.D. Heid.

TREASURER—NORMAN BENTWICH, M.A. Camb.

REGISTRAR—S. GINZBERG, L ès L, Dipl. Phil. Sorbonne

LIBRARIAN—HUGO BERGMANN, Ph D Prague.

This University (in mandated territory) was opened on April 1, 1925, by Lord Balfour, as a group of Research Institutes. It is provisionally registered under the Law of Societies of Palestine. The language of instruction is Hebrew.

LIBRARY (National and University), 185,000 vols. Includes the Goldzieher collection of books and periodicals on Arabic and Oriental Literature and the recently acquired mathematical library of the late Felix Klein of Gottingen. Publishes quarterly review Kiryat Sefer

Institute of Jewish Studies (inaugurated Dec. 22, 1924). Chairman of Council—Chief Rabbi Dr. Hertz of London. Representative of the Council in Palestine—Dr. J. L. Magnes. Professors. J. N. Epstein, Ph.D. Berne (Talmudic Philology); J. Klausner, Ph.D. Heid. (Modern Hebrew Lit.); S. Klein, Ph.D. (Palestine Research), on leave Lecturers—S. Assaf, Rabbi (Gaonic Period); A. Gulak, dipl. Jur. (Jewish Law); A. Ruppin, Ph.D. (Jewish Sociology); S. Scholem, Ph.D. (Jewish Mysticism); Rabbi M. Segal, M.A. (Jewish Commentators on the Bible), D. Yellin (Hebrew Poetry of the Spanish Period). Preparatory Division—M. Schwabe, Ph.D. (Latin and Greek). Field Archæologist—L. Sukenik, Ph.D. Number of students in 1928, 65; auditors, 22. Publications Annals of the Hebrew Univ.; Jewish Studies.

School of Oriental Studies. Arabic section, inaugurated March 1926. Visiting Director, J. Horovitz, Ph.D. Berlin, of Frankfurt. Lecturers—H. Baneth, Ph.D. (Islamic Philosophy), L. Billig, M.A. (Arabic Lit.); L. Mayer, Ph.D. (Islamic Art and Archæology). Students, 2; auditors, 10 Preparatory Division: S. Gaitein, Ph.D., T. Rivlin, Ph.D. (Alabic Language and History); auditors, 37 (including students of other Institutes).

Chemical Institute (opened in 1924). Director—Prof. A. Fodor, Ph.D. (from Halle) Assts.—M. Weizmann, D ès Sc. (Grenoble); M. Bobtelsky, Ph.D. Berne; Miss R Riwlin, Ph.D. (Utrecht), A Reifenberg, Ph.D. (Giessen); M. Fienkel, Ph.D 5 Junior Research assts. Number of students, 25.

MICROBIOLOGICAL INSTITUTE. Section of Parasitology, established 1924, under S. Adler (M.B, Ch B Leeds, D.T.M. Liverpool). Assts: O Theodor, Ph.D.; J. Wittenberg, Dr.Vet.

DEPARTMENT OF HYGIENE, established 1926. Director—Prof. J. J. Kligler, Ph.D. Columb. Assts.: R. Reitler, M.D.; A. Geiger, M.D.; L. Ulizky, M.D.; H. Badenteimee, Ph.D. (Zoology).

INSTITUTE OF PALESTINE NATURAL HISTORY, established 1926, in connexion with the Agric. Experiment Station founded by the Zionist Executive in 1922.

Director—Prof. O. Warburg, Ph.D. (Berlin). Assts—J. Aharoni (Zoology); T. Oppenheim, Dipl Sc. (Botany); E. Ha-Reubeni, Ph.D. (Biblical Botany); Junior assts.

Institute of Mathematics, in course of organization. Visiting Director—Prof. E. Landau, Ph.D. (Goettingen). Asst.—B. Amirà, D. ès Sc.

Publication. Yearbook (in English and Hebrew).

### THE YEAR 1927-28

During the winter term Prof E. Landau, of the Univ. of Gottingen, delivered lectures in Maths., and Prof. T. Mann, of the Hebrew Union College, Cincinnati, lectured on Jewish History. During the summer term Prof. E. Speiser, of the Univ. of Pennsylvania, lectured on "Introduction to Comparative Philology." Lectures were also given by Prof. Evans, of London; M. Emile Vandervelde, of Brussels; Dr. Zollschan, of Karlsbad; Prof. L. Mayer, of Berlin, Prof. Frankel, of Breslau; and Prof. Fischberg, of New York.

### GENERAL INFORMATION

Founded in 1769 by Grand-Master Fra Emmanuel Pinto de Fonçeca of the Order of St. John under the authority of Pope Clement XIV., the University is lodged in a building erected by the Jesuit Fathers in 1591-93 for a College, whilst its Medical Faculty originated in a School of Anatomy founded in 1674 by Grand-Master Nicola Cottoner in the Great Hospital of the Order, which accommodated 745 patients. The authorities of the University as reconstituted by a Govt. Statute of 1921 are the Visitor, the Rector, the General Council (consisting of the Rector, six Professors, and three members elected by Convocation), six Faculty Councils, and Convocation.

LIBRARY, 5000 vols. A public library maintained in connexion with the Univ. contains over 100,000 vols. and is rich in MSS and rare editions of great historical interest. Museums Nat. Hist and Archæol. Observatory, full meteorol. equipment and seismograph. Botanical Garden. Hospitals, available for Clinics: general (300 beds) and several special; Leper Asylum (100); lunatic (800); aged poor (800).

FACULTIES Literature, Science, Engineering and Architecture, Theology, Law, Medicine.

MATRICULATION involves passing an examn in 5 subjects, including English, Italian, Maths, and, except for Engineering courses, Latin; for Med students proposing to register in England, 6 subjects, including also Hist

DEGREES, LTC. BA, BSc, BE and A, MD, LLD, DD, B.L. Can Diplomas of Notary Public, Legal Procurator, Pharmacist and Apothecary, Dental Surgeon, Midwife.

Scholarships for Graduates fizo, one each in Theol., Law, Engin., and Med (Travelling Scholps.). £50, one each in Theol, Law, Med One of fizo awarded every 6 years in the faculty of Med

# THE YEAR 1928

STUDENTS. Full-time total, 164.

# THE UNIVERSITIES OF INDIA

Universities were first established in British India as a result of the great parliamentary inquiry into the condition of India which preceded the confirmation of the Company's Charter in 1853. It was resolved to create a properly articulated system of education from the Primary School to the Univ The London Univ., at that time a purely examining body, which admitted to its tests only the students trained in affiliated institutions—the latest device of educational statesmanship was taken as a model. "It had been suggested, in London, by conditions which resembled those of Bengal . . . Its defects were not yet apparent, though it was to be profoundly modified by London itself four years later. It had the advantage of costing very little. enabled all the existing collegiate institutions, whether Government or missionary, to be worked into the same scheme, and promised to provide a quite impartial mode of testing the qualifications of students for Government service. Above all, it gave freedom to the non-Government Colleges—all, at that date, mission colleges—to carry on their work in their own way, and offered them help from public funds for the secular side of their work" (Report of the Calcutta Univ Com-In pursuance of this policy, Univs. were founded mission, 1917-19) in 1857 at Calcutta, Bombay, and Madras The framers of the policy, while contemplating that the ordinary subjects of study should be dealt with by the Colleges, did not intend that the Univs should have no teaching functions, but in point of fact they have until recently concerned themselves solely with examinations. In 1882 and 1887 the Univs of the Panjab and Allahabad were established on similar lines. A Commission was appointed in 1902 to examine the working of the system, and the Univs. Act of 1904 was designed to give effect to its recommendations as to reorganization of the government of the Univs. their assumption of teaching functions, and more effective supervision by them of the Colleges, as well as more exacting conditions of affiliation Univ Professorships, Readerships, and Lectureships have accordingly been constituted in the above-named Univs, but mainly for advanced (post-graduate) courses and, except in Calcutta, only on a very small scale. Benares (Hindu), Mysore, and Patna Univs. were established in 1916 and 1917. The Osmania Univ., Hyderabad, Deccan, was also established in 1917, though actual tuition began in Aug. 1919.

The foundation, structure, aims and efficiency in working of institutions for higher education in India have been subjected to exhaustive re-examination by the Calcutta Univ. Commission, 1917–19. In the Univ. of Calcutta itself but little progress has been made towards giving effect to the far-reaching and fundamental changes recommended by this body, but their recommendations have to a great extent determined the lines on which were established in 1920 and the two following years the unitary, teaching, and residential Univs. of Aligarh, Dacca, Delhi, Lucknow, Rangoon, and on which the Univ. of

Allahabad was reorganized in 1921. The Nagpur Univ. was established by legislation in 1923, and in the same year the Univ. of Madras was reorganized on lines somewhat similar to those of the Univ. of Allahabad. Recently the constitution of the Rangoon Univ. has been somewhat altered by an Act of the provincial legislature. In 1926 Acts of the United Provinces and Madras Legislature Councils provided for the establishment of affiliating Universities at Agra and at Bezwada (the Andhra University). These Univs. are now established, but the question of the permanent headquarters of Andhra Univ. is still unsettled Bombay Univ. was reorganized in 1928, but the new Act has not yet come into force The report of the Bombay Univ. Reform Committee (published 1925) recommends the establishment of a Univ. at Poona.

Constitution. (a) The Univs of Calcutta, Bombay, and the Panjab are still governed by the constitution framed under the Act of 1904. The Senate, comprising the (official) Chancellor, the Vice-Chancellor, and Fellows, constitute the Body Corporate of the Univ., the executive government being vested in a Syndicate of from 9 to 17 members, including the Vice-Chancellor and Director(s) of Public Instruction, and members (largely College teachers) elected by the Senate or the Faculties. The constitution and abolition of Faculties rests with the Senate. The Academic Council recently instituted by the Panjab Univ. has been invested with important powers subject to the general control of the Senate, the revision of the Constitution of the Senate and the Syndicate is, at present, engaging the attention of the governing authorities. In its application to Calcutta the Act of 1904 is modified by Act VII of 1921.

(b) The new Univs have a constitution modelled generally on that recommended for Calcutta by the Calcutta Univ. Commission:—(1) A large body called the Court, on which are represented the chief interests of the community either by election or by nomination, and including a number of ex-officio members, makes statutes and makes recommendations on the financial accounts and the annual report submitted by the Executive Council, (2) the Executive Council of some 15-20 members, elected partly by the Court, partly by the Academic Council, and including ex-officio members, is the executive authority in regard to finance and University appointments, and exercises all residual powers, (3) the Academic Council, which consists almost entirely of University teachers, is responsible for the regulation and maintenance of standards of education and examination within the Univ., and for the initiation of all changes in academic matters. executive officers of the new Univs are, as under the older constitution, the Chancellor, the Vice-Chancellor, and the Registrar, but the Governor-General is now introduced as the Visitor or Lord Rector, with powers of At Rangoon the three constituent bodies above mentioned are named (1) Council, (2) Executive Committee, and (3) Senate.

Admission to the Universities. Most of the Indian Univs. admit students who have passed the Final Examn of the High Schools, and 4 years are spent at a College affiliated to the Univ before the student is qualified to sit for the Bachelor's Degree Examn, namely, 2 years before

the Intermediate Examn. and 2 after. The Univs. of Allahabad, Aligarh, Dacca, and Lucknow regard the pre-Intermediate years not as part of, but as preliminary to, University study. The Univ. of Mysore, which until recently allowed a student to appear for the Bachelor's Degree Examn 3 years after passing the Entrance Examn, now requires a 4 years' course as in the case of the other Univs in India.

Applications for Affiliation are submitted by the Syndicate, if satisfied as to the managing agency, teaching staff, provision for residence of students, equipment, financial resources, suitability of fees, etc., to Government. If granted, the courses in respect of which the College is affiliated are specified. Affiliated Colleges must comply with requisitions by the Syndicate for information, submit themselves to inspection under the Syndicate's orders, and take such action as may be ordered consequent upon such inspections. In Calcutta and Panjab Univs. affiliation questions are dealt with by the Senate.

TERMS Univ. examns. are, with few exceptions, held between March and June. Admissions are made as a rule in June or July, though in many cases regular work does not commence till Sept. or Oct.

Degree Courses. In Arts and Science a 2 yrs.' course leading to an Intermediate examn. is followed by a further 2 yrs.' course for the Degree. English is a compulsory subject, except in the B Sc course of Allahabad, Bombay, Calcutta, and Patna All, Lucknow, Madras, and Panjab Univs give Honours degrees (All in Science, Lucknow, Madras, and Panjab in Arts and in Science) requiring an additional year of study. The Intermed Courses are under the control of the Univs. except at Dacca, Allahabad, Agra, and Lucknow, where they are controlled by Boards of Intermed Educn.

Commerce. The B.Com course covers ordinarily 2 yrs after passing the Intermediate examn in Arts.

Law. The LLB (or BL) course covers 2 yrs. (Calc.—ordinarily 3 yrs) after graduating in Arts or Science.

Medicine. The MB and BS course covers 5 yrs. (Bom.--4½ yrs., Calc and Rangoon-6 yrs), starting from the Intermediate examn in Arts or Science (Calc—in Science) LM and S. course (Rangoon),

5 yrs

Teaching The BT. (All and Mad—LT) courses cover 1 yr. after graduation in Arts or Science Calc gives a LT., obtainable by 2 yrs of study after passing the Interm examn in Arts or Sc Bombay requires either 3 yrs experience or 2 terms at a Training College after graduation, plus 1 yr.'s experience thereafter, Patna, 1 yr. of study 2 yrs after passing the Interm examn in Arts or Science. The Lucknow Diploma in Teaching, for women only, requires a 1 yr.'s course after graduation in Arts or Science, as does the Rangoon diploma.

Engineering. For the B.E., Bombay gives a 3 yrs.', Benares, Calcutta, Madras, Mysore, Patna, and Rangoon (post-intermediate) a

4 yrs', course.

HIGHER DEGREES. The M A. or M.Sc. can be taken by bachelors

of 2 yrs.' standing; the M.Sc. Mad. by B Sc. (Hons.) of 1 yr.'s standing; the Ph.D. Mad. by B.A. (Hons.) or M.A. of 3 yrs.' standing, the D.Litt. of All. and Ph.D. of Calc. by M.A. of 3 yrs.' standing; the D.Lit. or D Sc. of Panj. by M.A. or M Sc after 2 yrs. of further advanced study, the D Sc. of All. by M.Sc of 3 yrs' standing; the D Sc of Calc or Mad. by M Sc of 3 yrs' standing. A degree of M.Com of Bombay can be taken by B Com of 2 yrs.' standing The examination for the Bombay diploma in Ophthalmology may be taken by L M and S or M B, B S of 1 yr's standing

The LL.M of All and Bom, the M.L. of Mad., and the LL.M. of Panj. may be taken by LLB or B.L of 2 yrs.' standing, the M.L. of Calc or Patna at any time after taking the B.L., the LLM of Delhi by LL.B. of 3 yrs' standing The LLD (or D.L.) is open to LLM (or

ML) after 5 yrs (Calc I yr) of practice

The M D. (and in Calc. M O) can be taken by medical graduates after experience (Luck and Panj 4 yrs., Calc. and Mad 3 yrs., Bom 5 yrs.) in the practice of their profession or hospital practice (Luck. and Panj. 2 or 3 yrs., Mad and Calc. 1 or 2 yrs., Bom 1 or 2 yrs., in addition to professional practice) The M S qualifications are similar, but in Calcutta both hospit and professional practice are required.

STATUS OF THE NEW UNIVERSITIES. The Univs. of Aligarh, Benares, Dacca, Delhi, and Patna have been incorporated by Acts of the Indian Legislature, and of Andhra, Agra, Lucknow, and Rangoon by those of provincial legislatures. Their degrees and examns are recognized by the Govt of India to be equal in value to those of the older Univs for the purpose of admission to public services.

Mysore and Osmania were established by local legislation in Indian States, and are not within the jurisdiction of the Govt. of India. The degrees of Mysore have been recognized by the Univs. of Bombay, Calcutta, the Panjab, and Madras, and most of the new Universities, and by the Govt. of India. Osmania degrees have been recognized by the Govt. of India as equivalent to those of the Univs. established by law in India

Professor Karve's scheme for an Indian Univ. for women with headquarters at Poona has organized there, and, through affiliated institutions, elsewhere, instruction through the Indian vernacular languages adapted to the special needs of women—It is on entirely independent lines

Number of Students in March 1927 in the 309 Arts and Professional (including 93 Intermediate and 2nd Grade) Colleges was 82,866, including 2262 women

RESIDENCE. One of the recommendations of the Commission of 1902 was that much closer attention should be given to the conditions under which students live and work, and very large sums have since been spent in providing hostels and otherwise improving the conditions of student life. In 1926-27 some 30,580 students (including 887 women) of Arts and Professional Colleges were accommodated in approved hostels or boarding-houses.

Conferences. In April 1920 a Committee was formed for drafting an outline of the functions and constitution of an Assocn. of Indian Univs. The project was further advanced at the Congress of Universities of the British Empire at Oxford in July 1921, and at a Conference of Indian Universities held at Simla in May 1924. In accordance with a resolution passed by the Simla Conference, an Inter-University Board has been formed whose present headquarters are at Cawnpore, the Secretary of the Board being P Seshadri, MA, Principal and Prof. of English, Sanatoma Dharma College, Cawnpore The chairman for the year is Prof A C Woolner, CIE., Dean of Univ Instruction, Lahore The Inter-Univ Board meets annually at some Univ centre Another conference of Indian Univs, on the lines of the conference held in Simla in 1924, is to be held in Delhi in the autumn of 1929 The Board publishes a Handbook of Indian Univs

The Viceroy's Goid Medal, instituted in 1926 by Lord Irwin, is open for competition, annually, to undergraduates of any Univ. incorporated by law in British India It is awarded for the best essay on some practical problem of the day.

INDIAN STUDENTS AT THE HOME UNIVERSITIES The Education Department of the Office of the High Commissioner for India, 42 Grosvenor Gardens, London, S.W 1, furnishes information and advice on educational and kindred matters to Indian students who come to this country to complete or supplement their education The Hostel at 21 Cromwell Road, South Kensington, S.W 7, serves as a centre and meeting-place for Indian students and as a temporary residence for new arrivals There are Local Advisers at the University of Manchester (J K Wood, D Sc, College of Technology, Whitworth Street), and at Glasgow (R. M. Brown, Ph. D., B Sc., MIME, Engineering Department. The University) At Edinburgh J. E. Mackenzie, Ph D, D.Sc. (King's Buildings, the University) is the University's Adviser to Indian At Oxford Indian students may secure information and students advice from H S Williamson, MA, Indian Institute, Broad Street, Secretary to the Delegacy for Oriental Students, and at Cambridge, from W S Thatcher, MA, 22 Fitzwilliam Street, Secretary to the Inter-Collegiate Indian Students Committee

Indian students who propose to proceed abroad for further study are strongly advised to consult the University Bureau or Advisory Committee of their Province, from whom they can obtain full information about British and foreign universities. The names and addresses of the secretaries are as follows: Ajmere—R. Littlehailes, C.I.E., M.A., Superintendent of Education, Delhi and Ajmere-Merwara, and Secretary, Indian Students' Advisory Board, Rajputana, Delhi, Allahabad—P. N. Sapru, M.A., LL.B., Barr.-at-Law, Indian Students' Advisory Committee, The University, Allahabad, Bombay—D. J. Wadia, Univ. Information Bureau, University Building, Fort, Bombay; Calcutta—Prof. S. N. Das Gupta, M.A., Ph.D., Univ. Students' Information Bureau, The University, Calcutta; Dacca—M. Hasan, M.A. (Cal.), B.A. (Oxon), Univ. Students' Information Bureau, Dacca, Bengal; Delhi—S. N. Mukarji, M.A., Indian Students' Advisory Committee,

St. Stephen's College, Delhi; Gauhati—J Borooah, Barr.-at-Law, Indian Students' Advisory Committee, Gauhati, Assam; Lahore—A. Yusuf Ah, CBE., MA., LLM, Barr-at-Law, Punjab University Foreign Information Bureau, Lahore, Madras—S J. Theodore, MA, B.Litt., B.D, Univ Students' Information Bureau, College House, Esplanade, Madras, Mysore—N S Subba Rao, MA, Barr-at-Law, Univ Students' Information Bureau, University of Mysore; Nagpur—Umawar Misra, M.A., LLB, Univ. Information Bureau, Nagpur University, Nagpur; Patna—Sri Narayanan Sahay, BA, Barr-at-Law, Univ Students' Information Bureau, Patna, Bihar and Orissa

The High Commissioner for India is prepared at the request of parents and guardians in India to make arrangements for the education in Europe of a limited number of Indian students, for the supervision of their studies and personal welfare, and the administration of funds remitted to him for the purpose. The Secretary to the Oriental Delegacy at Oxford, the Secretary to the Inter-Collegiate Indian Students Committee at Cambridge, the University Adviser at Edinburgh, and the Local Adviser to Indian Students at Manchester and Glasgow, act on behalf of the High Commissioner in the case of students proposing to study at those centres. Inquiries may be addressed either direct to the addresses given above or through the Office of the High Commissioner for India, Education Department The Department publishes annually the Handbook for Indian Students—a Guide to the Facilities for University and Professional Studies and Training in the United Kingdom An annual report on the work of the Department is also published, copies of which can be obtained from the office of the High Commissioner or through the agents for the sale of Government of India publications

The Hyderabad Government has a Scholarship Committee to regulate the grant of scholarships and give necessary information to students proceeding out of India, and has a special paid guardian for Hyderabad students (E A Seaton, Tyrrell's Wood, Leatherhead, Surrey) to look after and report about their progress whilst in Europe.

# AGRA UNIVERSITY

VISITOR—THE GOVERNOR-GENERAL.

CHANCELLOR—THE GOVERNOR OF THE UNITED PROVINCES
VICE-CHANCELLOR—A W DAVIES, MA
REGISTRAR—PANDIT S S, SHARMA, MA

Act VIII. of 1926 of the United Provinces Legislature, which received the assent of the Governor-General on Oct. 20, 1926, provides for the establishment of a university "for the purpose of affiliating the colleges associated with the University of Allahabad . . . " so as to set it free to function as a unitary, teaching, and residential institution. It empowers the Agra University to affiliate colleges in the United Provinces, Rajputana, Central India, and Gwalior, except within the limits of the Universities of Allahabad and Lucknow, or within a radius of ten miles from the Benares Hindu University or from the Aligarh Muslim University. To supplement the work in affiliated colleges the University may institute teaching posts at selected centres.

Four categories of persons are to be eligible, subject to prescribed conditions, for degrees and other academic distinctions (a) candidates who pass the University's examinations after pursuing an approved course at an affiliated college, (b) teachers who pass the University's examinations; (c) research workers; (d) women who have carried on private study. Lectures and instruction may be provided by the University for, and diplomas may be granted to, persons other than students of an affiliated college.

The supreme governing body of the University is the Senate, the other principal authorities being the Executive Council, Academic Board, Board of Inspection, and Faculties of Arts, Science, Law, and Commerce. The Vice-Chancellor, an honorary officer elected by the Senate, is the principal executive and academic officer.

Students are not eligible for admission to a degree course unless they have passed the Intermediate Examination of the Board of High School and Intermediate Education of the United Provinces, or of an Indian University incorporated by law, or an equivalent examination.

The Act came into force on July 1, 1927, and all the constituent bodies of the Univ have been formed. The Univ. held its first examns. in 1928

The following 14 Colleges hitherto associated with the Univ. of Allahabad have now been affiliated to Agra.

# AFFILIATED COLLEGES

[M.A., etc., after name of College = teaching up to M.A., etc., standard.]

AGRA COLLEGE. M.A.; M.Sc.; LL.B.; B.Com. Principal and Prof. of English Lit — F. J. Fielden, M.A. Camb. and Lond.

AGRA, St. John's College. MA, in all subjects; B Com; M.Sc. in Maths., Physics, Chem., Botany, and Zoology; LL.B. Under the general control of the Church Missionaly Society. Admits non-Christians, but is especially for Christians. Principal and Prof. of English—A. W. Davies, M.A. Ox. Vice-Principal and Prof. of Philos. and Logic—T. D. Sully, B.A. Ox.

AJMER, Govt. College. B.A.; B.Sc. in Maths., Physics, and Chem. Principal—A. Miller, M.A. St. And.

BAREILLY COLLEGE. B.A. and B.Sc. Principal—W. Owens, M.B.E., M.A. Vice-Principal—A. C. Dutt, M.A. All., M.A. Luck., M.R.A.S. Lond.

CAWNPORE, Christ Church College. M.A., B.A. Principal—S. C. Chatterji, M.A.

CAWNPORE, Dayanand Anglo-Vedic College. B.A., B.Sc., LL.B., B.Com. Principal—L. Diwan Chand, M.A.

CAWNPORE, Sanalan Dharma College of Commerce. B.A., M.A., and B.Com. Principal—P. Seshadri, M.A.

GORAKHPUR, St. Andrew's College. B.A. Principal—A. C. Pelly, M.A. Camb

GWALIOR, Victoria College. M.A., B.A.; B.Sc. Entirely supported by the State. Principal—H. M. Bull, M.A. Camb. Vice-Principal—H. F. Manley, M.A. Camb.

INDORE, Christian College. M.A. in Philos. Principal—R. A. King, M.A. Manit., B.D. Edin., D.D. Tor.

INDORE, Holkar College. M.A., B.A.; M.Sc., B.Sc.; LL.B. Maintained by the State. Principal—P. Basu, M.A., Ph.D., B.L. Vice-Principal—C. A. Dobson, B.A. All.

Jaipur, Maharaja's College. M.A.; B.Sc. Maintained by the State. Principal—P. L. Mathur, M.A. Vice-Principal—Nalininath Roy, M.A. (Cal.), E.E. N.Y.

JODHPUR, Jaswant College. B.A. Principal—A. P. Cox, M.A., I.E.S. Vice-Principal—P. P. Shahani, M.A. Bom.

MEERUT COLLEGE. M.A.; B.Sc.; LL.B. Principal—Lt.-Col. T. F. O'Donnell, B.A. R.U.I.

### THE YEAR 1927-28

Resignations. S. P. Bhargava, Principal, S.D. Coll. of Commerce, Cawnpore; Rai Sahib N. K. Ray, Principal, Maharaja's College, Jaipur; E. C. E. Hemstead, Principal, Bareilly Coll.

STUDENTS. Full-time, 1914.

DEGREES. B.A., 348; M.A., 88; B.Sc., 119; M.Sc., 21; LL.B., 95; B.Com., 64.

#### GENERAL INFORMATION

The Mahomedan Anglo-Oriental College, founded in 1875, became, under the Aligarh Muslim University Act of 1920, a unitary residential University, with Univ. School and Intermediate College attached as separate institutions. The Univ. receives Rs. 1,25,000 annually from the Govt. of India, Rs. 64,000 from the Local Govt., Rs. 36,000 from the Nizam of Hyderabad, and contributions from other Indian States. Although the governing body is composed of Mahomedans, and special attention is paid to Muslim Theology, it is open to all, without distinction of sex, race, creed, or class. In the grounds, comprising several square miles, are halls and hostels sufficient for the accommodation of all the students and some of the staff. Library, 28,000 vols., besides a collection of MSS. on Oriental Lit. Laboratories: Physics, Chem., Botany and Zoology.

The Intermediate College prepares for the High School and Intermediate Examns., the latter being the admission examn. for the Univ. The Muslim

Univ. School is a feeder to the Intermediate College and a practising school for the Training College.

COURSES. For students who have passed the Intermediate examn. of an Indian Univ.: two-year courses for the B.A. or B Sc. Courses leading to M.A, M.Sc., and LL.B. degrees are also provided. FEES: for Tuition, Rs. 8 to Rs. 15 p.m.; Board and residence about Rs. 20 p.m.

Numerous Scholarships for Graduates, enabling them to proceed to higher degrees, are awarded. One of Rs. 75 per month for research in Arabic, open to M.A. Two fellowships, Rs. 75 p.m for 2 yrs., for research in Science and Arts respectively. There is a loan fund for helping poor students.

### THE YEAR 1927-28

New Buildings. One new Hostel.

STUDENTS. Full-time: total, 1128, including 474 graduates.

DEGREES. B.A., 216; M.A., 50; B.Sc., 34; M.Sc., 5; LL.B., 100; B.T., 48.

CROSTHWAITE GIRLS' COLLEGE, Allahabad. Lady Principal—Miss Sudhalata Duara, M.A., B.T. Teacher—Miss Sukhalata Duara, M.A., B.T.

### GENERAL INFORMATION

Founded in 1887, the Univ. concerned itself mainly with examinations, having no teaching staff (except that of its School of Law) until 1914. Thereafter it established Chairs and Readerships, etc., for research work in Economics and Modern History for graduate students. In Jan. 1922 was passed an Act (which came into operation in July 1922) for the reorganization of the Univ. as a unitary, teaching, and residential institution, with control, however, over the quality and character of the teaching in "Associated" colleges. In 1926 was passed the Agra University Act, providing for the transfer of the control of these colleges to the Agra Univ. The Univ. now functions as a purely unitary, teaching, and residential Univ.

Library, 67,466 vols. Museum in connexion with Economics Dept.

FACULTIES. Arts, Science, Law and Commerce.

DEGREES, ETC. B.A., M.A., D.Litt; B.Sc, M.Sc, D.Sc.; LL.B., LL.M., LL D., D.Litt. (Econ); B Com

The courses of study in the Univ. for the bachelor's degree cover 2 (B A. and B Sc Hons—3) years, following upon an examn of "Intermediate" standard, equivalent to the Higher School Examn. of the Univ of Cambridge. The intermediate examns of other Univs. incorporated by law in British India are recognized for the same purpose.

For admission to courses leading to higher degrees the B.A. and B Sc. degrees of any Univ. in British territory recognized by the law of the place in which it is situated, and also of the Mysore Univ, are accepted as equivalent to Allahabad B A and B.Sc.

Scholarships for Graduates. 2 Emp. Vict. Research Readerships, Rs. 100 pm. (3 yrs), and 2 Kanta Prasad Research Scholarships for Hindus, Rs. 100 p.m (2 yrs), for M Sc., Research Scholarships of Rs. 100 each (1 yr.) in History (2), Economics (2), Sanskrit and Hindi (2), Persian (1), Arabic, Persian and Urdu (2), Philos (1), English (1), Science (5), several of smaller amount. There is a special fund for enabling students and staff to proceed to Foreign Countries for higher studies.

Publications. Calendar, Rs. 5; Univ. Examns. Prospectus, Re. 0.8.0.; Univ. Minutes, Rs. 5; University Magazine, Rs. 2.8 p.a.; University Studies, Rs. 7.8; Indian Journal of Economics, Rs. 12 p.a.; Annual Report.

# THE YEAR 1927-28

#### GENERAL INFORMATION

The Act of the Madras Legislative Council constituting this "University in and for the Telugu districts of the Presidency of Madras" received the assent of the Governor-General on Jan 13, 1926, and came into force on April 26, 1926. The districts in question are. Ganjam, Vizagapatam, West Godavari, East Godavari, Kistna, Guntur, Nellore, Bellary, Anantapur, Cuddapah, Kurnool, and Chittoor. These districts constitute the "University area." within which colleges previously affiliated to the Madras University are now affiliated to the new University The Act establishes four categories of colleges. "University College," providing for honours or postgraduation courses qualifying for admission to the higher degrees: "First Grade College," providing courses qualifying for admission to examinations for the ordinary degree in Arts or Science; "Second Grade College," preparing for the Intermediate Examination, and "Special Grade College," providing courses in Oriental languages or in other special subjects. No "University" or "First Grade" College may be established or affiliated except in the towns of Vizagapatam, Rajahmundry, or Anantapur, or within ten miles thereof, provided that within 5 years the University may affiliate as First Grade any Second Grade College existing when the Act was passed.

Among the powers of the University specified in the Act are. to promote the development of the study of Telugu, Kanarese, Urdu, and Oriya, and their use as media of instruction and examination; to institute professorships and other teaching posts, to maintain colleges and hostels; to erect, equip, and maintain laboratories and libraries; to institute and provide funds for the maintenance of a publication bureau, an employment buleau, students' unions, and University Extension boards. Every student of the University must reside in a hostel or under such conditions as may be prescribed.

The supreme governing body is the Senate, by which the Vice-Chancellor, a whole-time salaried officer and principal executive, is elected (for 3 years). The other principal authorities of the University are: an executive body called the Syndicate, comprising 12 members, including the Vice-Chancellor and Director of Public Instruction, the Academic Council, the Faculties and Boards of Studies.

FACULTIES. Arts, Science, Oriental Learning, Teaching, Medicine.

Admission to Univ. Courses is by matriculation examn. and Secondary School leaving certificate examn., or any other examn. recognized as equivalent thereto.

Degrees. B.A., B.A. Hons., M.A., M.A. Hons.; B.Ed., M.Ed.; D Litt., D.Sc., K.P., M.B.B.S., L.M S., M O.L.; B.Sc., B.Sc. Hons.; M.Sc., M.Sc. Hons.

DIPLOMAS: Titles (4 years' course) and Certificates of Proficiency in Oriental Learning.

The Examinations of all Statutory Indian Univs, are recognized as equivalent to the corresponding examns of this Univ.

Publications. University Code (Administration, Statutes, Ordinances, Regulations, and Syllabuses); Annual Register (Affiliated Colleges, Endowments, Graduates); Annual Report; Minutes. A Publication Bureau is in the course of formation.

Colleges. There are 7 first-grade colleges, 5 second-grade, 1 preparing students for a Medical Degree (M.B.B.S.), and 1 preparing for teaching (B.Ed.) Degrees. In addition there are 7 Oriental colleges recognized by the Univ for the Oriental Title Examns and Certificates of Proficiency in Oriental learning.

### COLLEGES AFFILIATED IN DEGREE COURSES

Anantapur, Ceded Districts College. Principal—N. R Krishnamma, B.A. Ox, and 20 lecturers.

# BENARES HINDU UNIVERSITY

LORD RECTOR-THE GOVERNOR-GENERAL OF INDIA, ex officio.

VISITOR—THE GOVERNOR OF THE UNITED PROVINCES, ex officio.

CHANCELLOR-THE MAHARAJAH OF BARODA.

PRO-CHANCELLOR-THE MAHARAJAH OF BIKANER.

VICE-CHANCELLOR—Pandit MADAN MOHAN MALAVIYA, B.A., LL.B.

Pro-Vice-Chancellor and Secretary of the Court and the Council—Principal A. B. Dhruva, M A , LL B

TREASURER—Hon RAJA MOTI CHAND SAHEB, C I E.

REGISTRAR-Professor SYAMA CHARAN DE, M A.

On April 1, 1916, a teaching and residential Hindu University was incorporated "for the purposes, among others, of making provision for imparting education, literary, artistic, and scientific, as well as agricultural, technical, commercial, and professional, of furthering the prosecution of original research, and of giving instruction in Hindu theology and religion, and of promoting the study of literature, art, philosophy, history, medicine, and science, and of imparting physical and inoral training."

The University began to function on Oct 1, 1917, when it became responsible for the maintenance of the Central Hindu College, Benares. Colleges of Oriental Learning and Theology, and a Training College, were opened in July and Aug. 1918, a College of Engineering in 1919, a Department of Mining and Metallurgy and a Law College in 1923. The Univ's assets, including perpetual grants by the Govt. of India and by Ruling Chiefs of Rs. 1,00,000 and 75,000 respectively, are valued at Rs. 1,80,00,000.

Every member of the Court, the supreme governing body, must be a Hindu. It includes representatives of benefactors, graduates, the Senate, the Jain and Sikh communities, Hindu religion and Sanskrit learning, the learned professions. Of the Senate, the academic body, at least three-fourths must be Hindus; it includes (1) the Chancellor, Pro-Chancellor, Vice-Chancellor, Pro-Vice-Chancellor, Univ. Profs., and Principals or Heads of Colleges as ex-officio members; (2) 5 members nominated by the Visitor; (3) elected members, including representatives of the Court, of Hindu religion and Sanskrit learning, and graduates. The Council and Syndicate are the executive bodies of the Court and Senate respectively.

LABORATORIES: Chem., Physics, Zool., Bot, Geol, Mining, and Metallurgy. The Engineering College laboratories include shop equipped for manufacturing machines, smith and paint shops, iron and brass foundry, and motor-car repair shop; a power-house is also attached to the College.

ADMISSION. The Univ. is, subject to regns., open to persons of all classes, creeds, and castes, but provision is made for religious instruction (which is compulsory for Hindu students) and examination in the Hindu religion only. Women are eligible for admission to the Univ. and examins., degrees, etc.

FACULTIES. Oriental Learning, Theology, Arts, Science—Pure and Applied, Law, Ayurveda.

Degrees B.A., M.A., D.Litt., B Sc., B.Sc. in Appl. Sc. (Engin), B.Sc. (Mining), B.Sc. (Metallurgy), M Sc., D.Sc., Shastri, Shastracharya, Smritiratna, Smritisagara, Dharmashastri, Dharmacharya, LL.B., LL M., LL.D., L.T. The admission qualification for Degree course (4 yrs) in Mining or in Metallurgy is Interm Sc. examn of an Indian Univ. or Board of Interm. Education, with Physics, Chem., and Maths.

RESIDENCE. Students are required to live in a Univ. or College Hostel, or, subject to the approval of the Pro-Vice-Chancellor, with parents or guardians. There are 6 hostels accommodating 1500 students and 84 residences for members of the staff.

Scholarships. 76 for Arts and Science students of merit, 20 for Teachers' Training College. Numerous other College Scholps.

#### GENERAL INFORMATION

Founded in 1857, this Univ. has been mainly an examining body, but has provided facilities for research since 1893 (when the Premchand Rovchand Endowment was applied to this purpose), and post-graduate teaching since 1909. In 1917 a new scheme for post-graduation teaching came into operation under which all students who desire instruction in the M.A. or M.Sc courses in Calcutta must be registered in the Senate House as Univ students. A Commission under the Presidency of Sir Michael Sadler, K C.S.I, appointed by the Govt. of India in Sept. 1917 to inquire into the condition and prospects of the Univ. and consider the question of a constructive policy, presented a comprehensive report and a series of important recommendations in March 1919. Teaching in all the subjects for the B.Com. examn, including French, German, and other modern languages, Arabic, Pali, Persian, Tibetan, Chinese, and Japanese, is provided by the Univ.

Government grants from 1912 to 1927 amounted to Rs. 52,10,711, including Rs. 5,87,000 for endowment of chairs, and Rs. 14,19,282 for Hostels and a Students' Mess Scheme. During the same period private benefactions amounted to Rs. 60,86,000.

The Univ. buildings (expenditure on which from 1912 to 1927 amounted to Rs. 38,07,111) include a Senate House, completed in 1872 at a cost of Rs. 4,35,000, the Durbhanga Library with Law College, Hostel, and Univ. offices (Rs. 12,00,000), the Univ. Press, the Asutosh Building (Rs. 10,25,111) for post-graduation classes in Arts, post-graduation offices and lending library, and two palatial buildings for the teaching of post-graduation Science courses. Laboratories (in Univ. Coll of Science). Phys and Chem. (Pure and Applied), Applied Maths., Expl. Psych., Biol., Agric, Geol, etc.

FACULTIES Arts, Science, Law, Medicine, Engineering. The Affiliated Institutions (v. infra) include Colleges of Law (Calcutta—Ripon and Univ.—Gauhati), Medicine (Belgachia and Calcutta), Engineering (Sibpur), and Teaching (Calcutta—David Hare and Diocesan).

DEGREES, ETC. B.A, M.A., Ph.D; B.Sc, M.Sc, D.Sc.; B.Com; B.T.; B.L., M.L., D.L.; M.B., M.D., M.S., M.O, D.P.H.; B.E., D.Sc. (Engin.).

STUDENTS' WELFARF A committee of medical experts deals with all matters relating to the health of students, including physical education and organization of games and other forms of recreation. Military Training is provided for a Univ. Corps recruited from affiliated colleges. At the Hardinge Hostel for Law students the monthly charges amount to from Rs. 24 to Rs. 26.

RESEARCH STUDENTSHIPS, ETC. Premchand Roychand, Rs. 1400 p.a. for 3 yrs., awarded annually, I in Lit. and I in Science subject; Sreegopal Basumallik, Rs. 4000 in Vedanta (compared with Western) Philosophy, Durbhanga, Rs. 600 in Med.; Sir R B. Ghosh, Rs. 900, 8 annually to Science students to be attached to the Sir R. B G Profs.; Gurupra-anna Ghosh, I annually, tenable for 3 yrs. in Japan (Rs. 1000) or Europe or America (Rs. 2000) by Bengal Hindus; Palit., Rs. 1,00,000 endowment for research or investigation out of India; Sir R. B. Ghosh Travelling Fellowships (3), Rs 2,50,000 endowment for research or investigation out of India for 1 yr., Jubilee post-graduation scholarships in literary and scientific subjects, Rs 32 pm. for 2 yrs, one in each subject of the Honours B A. and B Sc examns, Sir P C Ray, annual prize for research in Chemistry, by a graduate student of the Univ. working in the College of Science, gold medal (value Rs. 100) and Rs 500 in cash; Sir B. K. Bose, annual scholarship of Rs 40 pm for a graduate student of the Univ College of Science; S. N. Ghosh Lectureship in Comp Religion, Rs 9000, Tagore Professorship in Law, Rs 9000, Kamala Lectureship in Indian Life and Thought, Rs. 1000 and gold medal Numerous other lectureships, scholarships, medals, and prizes

Publications Calendar, Rs 78; Univ Regulations, Rs 3, Proceedings of Councils of Post-graduate Teaching, 1918–1923, Rs 3 each year; Convocation Addresses, 1915–1923, Rs. 5, 1858–1923, Rs 10, Calcutta Review, monthly, annual subsn, Rs 7 inland, Rs 10 foreign; Journals of Depts of Letters and of Science, Rs. 9 per vol; Bulletin of Math. Society, etc.

Associated College. Teachers' (Govt) Training College, Dacca. The Principal and teachers are honorary teachers of the Univ. and the College students read for the L.T. and B.T. in accordance with regns. prescribed on that behalf.

### GENERAL INFORMATION

This Univ. was established in 1921 under an Act passed in 1920 which provides for the constitution of Faculties of Arts, Science, Law, Agriculture, and Medicine. It is constituted in its main lines in accordance with the recommendations of a Committee presided over by the late Sir Robert Nathan and of the Calcutta Univ. Commission of 1917–19, presided over by Sir Michael Sadler. The Report of this Commission states that "two main factors may be clearly distinguished in the origination of the Scheme first and foremost the desire of the Musalmans of Eastern Bengal to stimulate the educational progress of their community, and, secondly, the desire of the Govt. of India to create a new type of residential and teaching Univ. in India, as opposed to the present affiliating type. To these must be added a third factor of especial importance, the desire of the Govt. to relieve the congestion of the Univ. of Calcutta." † Although special attention is being devoted to Islamic Studies and to the needs of the Musalman community, the Univ.

<sup>†</sup> Chapter xxxIII. of the Report deals in great detail with the scheme for the Dacca Univ

remains open to all, without distinction of sex, race, creed, or class. It is a unitary and residential Univ., of which the constitution resembles in many respects that of the modern English universities. The Authorities of the Univ. include a Court, an Executive Council, an Academic Council, and Faculties; and the Teaching Staff has the main responsibility for all matters connected with teaching and examins. The students (other than those living under specially approved conditions) reside in the Halls and Hostels situated in the Univ. domain, and the Univ. teachers also reside in the houses erected for them thereon. The domain consists of about a square mile of fine park land, including over 100 acres of playing fields. It is adjacent to the Civil Station of Dacca and to a park called the Ramina, and lies from 1 to 1½ miles north-west from the centre of Dacca City—It is provided with electric light and power.

The chief existing buildings for teaching and administrative purposes include: A Court House with residential block; central buildings, containing about 200 rooms, which cover 117,000 feet of floor space used for Class-rooms and Library (at present utilized partly as a hostel for Muslim students); Chemical and Physical Laboratories, each including about 12,000 sq. feet of floor space, the Curzon Hall (which accommodates about 2000 persons); the Dacca Hall buildings, with residential accommodation for 160 students, the Jagannath Hall buildings, providing for 200 students.

LIBRARY, 50,000 vols. LABORATORIES: Physical, with metal and wood workshop, Chemical, with special arrangements for training in commercial analytic methods; and Psychological

FACULTIES. Arts, Science, Law.

ADMISSION. The standard required for admission to courses leading to degrees is that of the Intermediate examn of an Indian Univ.

Degrees, Fig. The duration of the courses of studies prescribed is as follows for BA or BSc. ordinary, 2 yrs, with Honours, 3 yrs.; MA. or MSc, 2 yrs, or in the case of a Dacca Honours BA. or BSc, 1 yr; BT. or L.T, 1 yr, MT, 3 yrs; BCom, 2 yrs; BL, 3 yrs. (Dacca Honours BA., 2 yrs); M.L., 3 yrs. The PhD, DSc, or D.L. may be taken by graduates of 3 yrs. 'standing, but graduates of other Univs. must first pursue researches in this Univ. for 2 yrs.; published research work required.

Scholarships open to graduates: 3 of Rs. 40 each p.m., 10 of Rs. 32, 1 of Rs. 30 (for backward classes only), 2 of Rs. 25 (Muhammadans only) Law Scholarship of Rs. 50 (open to Law graduates) Research studentships 2 of Rs. 100 p.m. and 4 of Rs. 75

FEES Tuition, per session, for BA, BSc, or BL course, Rs 96, for BSc with Honours in Physics and Chemistry, Rs 120, MA, Rs 120, MSc., Rs. 144, Registration, R1; Admission, Rs 5, Athletic, Rs. 5, Students' Union, Rs 3, Research students, Rs 10. Hostels. Seat-rent varies from Rs. 2 to Rs 4 p.m., including cost of light, water, inedical attendance, medicine and servants. Cost of food about Rs. 12 p.m.

TUTORIAL CLASSES have been organized for all the Depts of Study. All the teachers of the Univ. are engaged in the work under the control of the Heads of the Depts, and the Provosts

Publications. General Information Pamphlet (May); Annual Report (July).

#### GENERAL INFORMATION

The three constituent colleges, formerly affiliated to the Univ. of the Panjab, were united to form a teaching and residential Univ. (Govt. of India Act, No. VIII. of 1922), with effect from May 1, 1922. Subsequently four Intermediate Colleges, three for boys and one for girls, were recognized as Constituent Colleges of the Univ., namely 'The Anglo-Arabic, Ramjas Intermediate, Commercial, and Indraprastha (girls'). The authorities of the Univ. are a Court, an Executive Council, an Academic Council, and Faculties and Boards of Studies. The Univ. does not itself hold a Matiicn Examin. As a temporary measure, it admits students who have passed the inatricn examis. of other Indian Univs., but will after 1928 admit only those who have passed the Intermediate (Arts or Science) examin

FACULTIES and Deans · Arts, H L. Chablani; Science, Khub Ram; Law, A C. Bose

DEGREES. B A., B.Sc., M.A., LL B, LL M, LL.D. A two years' honours course is offered in most of the Arts subjects.

#### GENERAL INFORMATION

This Univ., founded in 1857, has hitherto been mainly an examining body, but has since 1912 maintained a small teaching staff and organized special lectures by persons eminent in Arts and Science in Europe and India, and in 1923 an Act was passed for reorganizing it as a Teaching and Residential Univ., while enabling it to continue to exercise control over the quality of the teaching given by its constituent and affiliated colleges. The Vice-Chancellor is a whole-time salaried officer. The authorities of the Univ. include a Senate, Syndicate, Academic Council, Faculties, Boards of Studies, and a Council of Affiliated Colleges.

From the Govt. of Madras the Univ receives an annual statutory grant of Rs. 85,500.

The following research institution is attached to the University: The Institute of Advanced Oriental Studies and Research Sections, viz, Sanskritic, Dravidian, and Islamic Sections, viz, Sanskritic, Dravidian, and Islamic Sections Sections Sections Sections Sections Sections Section Se

Laboratories for research in Zoology, Botany, and Bio-chemistry are about to be built.

FACULTIES. Arts, Science, Law, Medicine, Engineering, Teaching, Agriculture, Commerce, and Fine Arts

ADMISSION. The Matricn. examn. has been almost completely superseded by the School-Leaving Certif scheme.

Degrees, etc. B.A, B.Sc., B.A. (Honours), B.Sc. (Honours), MA, Ph.D, M.Sc, DSc.; B.Sc.Agr.; L.T.; BL., ML., LL.D; M.B. and B.S., L.M. and S, BSan. Sc, M.D, M.S.; DGO.; BE; MO.L. (Oriental Learning).

DIPLOMAS. Titles in Oriental Learning (4 yrs.' course); Economics (parttime course—2 yrs.). Certificates of Proficiency in Oriental Learning (2 yrs.'). RECOGNITION of examns. of other Univs. is not granted in general terms. The Syndicate deals with each application on its merits

FEES for Univ. examns. range from Rs. 10 to Rs. 150

RESIDENCE, ETC. Minimum cost of board and lodging for students living in European style, Rs. 50 p.m; for Indians, Rs. 30. A Students' Club, started under the auspices of the Madras Govt. in 1919, provides inexpensive meals and facilities for games and social intercourse irrespective of caste or creed.

Research Studentships, tenable 2 or 3 yrs , value Rs. 75 to Rs. 100 p.m. Fellowships, Rs. 150.

## GENERAL INFORMATION

This Univ. was founded in 1916 with two constituent Colleges, the Central Coll., Bangalore, and Maharaja's Coll., Mysore, which had for 25 yrs. been affiliated to the Univ. of Madras. To these have since been added the Women's and Professional Colleges. The executive government is vested in a Council of from 9 to 15 members, comprising the Vice-Chancellor, Director of Pub. Instrn. in Mysore, Principals of Constituent Colls, Deans of Faculties, of Arts and Science, and members appointed by the Chancellor, or, if Govt. so direct, elected by the Senate from among its members. The Scnate is charged with the organization of instruction, etc. It consists of from 40 to 70 members, including the Council, the Univ Profs., and persons nominated by the Chancellor or elected with his approval. The capital cost of all the Univ.'s buildings amounts to Rs. 12,04,055

LIBRARIES. Univ., 16,806 vols.; Colleges, 30,588; Sansk. and Oriental, 12,818 vols. and 10,205 MSS.

FACULTIES. Arts, Science, Medicine, Engineering and Technology. Terms: Jan.-April, July-Dec.

Advission to B A or B Sc. courses is normally by Intermediate examn. in English, a second language, and three other subjects—Candidates prepare for this by two years' study in Intermed. Colleges after completing the ordinary High School course. Admission to the B.E. course is by the Inter. Examn. in Science (leading to Eng.)—The B Com. course suspended for the present

Degree Courses. 2 yrs—B.A. or B Sc (Pass); 3 yrs—B.A. or B Sc (Hons); 4 yrs.—B E. (passed candidates will be eligible to take the degree after a year's practical course in a recognized firm); 5 yrs—M B, B S; graduate course for M.A.—2 yrs, for B.T 1 yr after the B A or B Sc Courses for M A and M.Sc in Mathematics, 2 yrs. after B.A or B.Sc. The D Litt., D.Sc, and LL D are Honolary.

RECOGNITION OF DEGREES and examps, of other Univs.: (1) The B.A. Degree of other Indian Univs, is deemed equivalent to the B.A. of this Univ. and admits to its M.A courses, provided the degree examps have been passed in cognate subjects. (2) The B.A. or B Sc. of other Indian Univs is accepted for admission to the B.T. course. (3) The Interm. Examp. of any Indian Univ. = the 1st Year Certif. Examp. of this Univ. and admits to the 2nd year B.A. or B.Sc. class under certain conditions (4) The B.A., B.Sc., M.A., M.Sc., and B.L. of the Dacca Univ. = the corresponding degrees of this Univ. = the degrees of the Lucknow Univ. = the corresponding degrees of this Univ. (6) The B.Sc. of the Aligarh Muslim Univ. = the B.A. of this Univ for admission to higher courses in the subjects studied for the B.Sc. (7) B.A. Delhi = B.A. Mys

RECOGNITION BY OTHER UNIVERSITIES Calcutta (1) B.A. and B.Sc. Mysore are admitted to Calcutta M.A. and M.Sc courses equally with B.A. and B.Sc Calc; (2) holders of Mysore first year Certif. (with Physics, Chem, and Maths, or Zool, Geol, and Bot.) are admitted to Prelim. Scientific M.B. of Calcutta equally with students who have passed Inter.Sc. Calc.

Bombay (1) Mysore B A. are admitted to Bombay LL.B. course equally with B A. Bom., (2) Mysore first year Certif. = corresponding examn of an Arts College affiliated to Bombay, (3) for admission to Bombay B.Com degree examn. graduates in Arts or in Commerce of Mysore are on same footing as graduates in Arts or in Commerce of Statutory Indian Univs., (4) the B Sc. examn of the Mysore Univ. is recognized as equivalent to the B Sc examination of the Bombay Univ. for the purpose of admission to the M Sc examn. of that University.

Madras: (1) recognition similar to Bombay (1); (2) Mysore B.A. (Science) and B Sc who have taken Physics, Chem., Biol., or Maths. for degree course are admitted to Madras medical courses.

Panjab: Mysore B.A. and B.Sc. are admitted to post-graduation study equally with B.A. and B.Sc. Panj.

Benares: (1) recognition similar to Calcutta (1); (2) First Year Cert. Examn. = Interin, Benares; (3) Mysore Entrance = Benares Admission; (4) Mysore First Year with Maths., Physics, and Chem. is accepted for admission to B Sc. Engin., Benares.

Mysore degree examns —those of Lucknow and Allahabad.

Dacca: Mysore degree - corresponding Dacca degree for admission to

courses of study for degrees. This does not apply necessarily to degrees with honours.

Aligarh: all Mysore examns, are recognized. See also Appendix XXIII. for recogn by the Home Univs.

The Univ. has been approved by the Council of Legal Education for purposes of admission to the Inns of Court of London.

INSPECTION OF SCHOOLS recognized by the Univ. is done by Profs. deputed by the Council.

Scholarships for graduates, 6 of Rs. 20 p.m and 6 of Rs 15, including several for students belonging to "backward communities."

FEES for courses for Bachelorship, Rs 60 p a. (B E, Rs 100); M.B., B S., Rs. 200.

RESIDENCE. Hostels at Colleges Cost of living ranges from Rs. 252 to 312 p a at Mysore; Rs 276 at Bangalore

An Appointments Bureau and a Students' Information Bureau are maintained.

Publication Calendar (Oct ), including examin papers

### THE YEAR 1927-28

Benefactions Messis S Raja Iyengar, Rs 2,000, Shankarappanavan Swappa, Rs. 4,000, V Subrahmanya Iyer, Rs 2,000, B M Srikantia, Rs 1,000, B. Ramgiesgar, Rs 1,002, B S Kiishnaswamy Iyaspter, Rs 5,000; Survanarayana Shelty, Rs 1,000

RETIREMENT. M Hiriyanna, Prof of Sanskrit

HONORARY DEGREE. D.Sc.—H.E. the Rt. Hon'ble Edward F L. Wood, Baron Irwin

STUDENTS. Full-time: total, 1735, including 179 graduates.

DEGREES MA, 21, BA, 154, BT, 23, BSc, 74, BE, 36

Principal—Major Farhat Ah, BA, MB, ChB Edin Professors—Dr S. V. Hardikar, MD Edin (Physiology) Dr Brij Mohan Lal, MB, BS (Anat)

Asst. Prof.

# GENERAL INFORMATION

The University was established by a Firman (Order) of HEH the Nizam in April 1917. Actual tuitional work began in Aug 1919, with the opening of the College. It differs from the other Univs. of India in that instruction throughout the college courses is imparted through the medium of Urdu, English being taught as a compulsory Second Language, while in other Univs the medium of instruction is English. The Bureau of Translation which came into existence in Sept. 1917 has provided in Urdu all books required for the Interin and B.A. examis. The executive government of the Univ. is in the hands of a Council consisting of 11 members. The organization of instruction rests with the Faculties and the Senate, which consists of from 40 to 60 members, including the Council, Univ. Profs., and representatives of graduates and Faculties. The Univ. is entirely financed by the State at an annual cost of £93,570.

LIBRARY. 23,116 vols, 833 MSS. The Staff have also access to the large Asafia Library.

BUREAU OF TRANSLATION. Curator, Md Enayatullah, BA; 17 Translators, Assts. and Advisers. Books published, 126; in preparation, 138.

FACULTIES. Arts (including Science), Law, Islamic Theology, and Medicine. Terms. July to Dec and Jan to April

The Univ holds a Matriculation examn, but the Maticn. examns of other Univs, the Senior Oxford and Cambridge Local examns and the State H.S.L.C. examn are accepted as equivalent. The B.A. courses extend over 4 yrs, with an Interm examn, at the end of 2 yrs. The Interm examn of other Indian Univs is accepted as equivalent to this. M.A. and LL B. courses cover each 2 yrs after graduation. The B.A. in Theology requires a 4 years' course in English, Philosophy, and Muslim Theology. The M.B., B.S. courses require 5 years.

FEES. Interm — Rs. 60 p a.; B A.—Rs. 80 p.a.; M.A.—Rs. 100 p.a.; LL.B.—Rs 80 p.a MB, BS—Rs 100 p.a.

Residence. 4 hostels attached to the College. Cost of living about Rs 180 p a.

PUBLICATIONS. Calendar, Annual Administration Reports.

### THE YEAR 1927-28

New Departments and Posts The Senate sanctioned a separate Faculty for Science as distinguished from Arts. An Asst. professorship in German, Economics, and Sociology was created

Deaths Maulyi Wahiduddin Salim, Prof of Uidu, and Maulyi Sibghatullah, Asst. Prof of Theology

EXTENSION LECTURES Prof Hadi Hassan of Muslim Univ, Aligaih, Prof P Sheshadri of the Benares Hindu Univ., and Dr John William Graham, were invited to give lectures.

Honorary Degrle LL D .- Sir Akbar Hydari.

Students Full-time, 776, including 104 graduates.

Degrees B.A (Arts and Sc), 62, B.A. (Theology), 3; M.A. (Arts), 3; M.A. (Theology), 1; LL B., 33.

THE HAILEY COLLEGE OF COMMERCE. Principal—J. W Thomas, B.Sc, B Com, Lond.

#### GENERAL INFORMATION

Established in 1882, the University confined its activities, until recently, mainly to examinations, the control of affiliated institutions, and the provision of instruction in its Oriental and Law Colleges—It has since 1919 undertaken the maintenance of Professors and Readers and co-ordination of higher teaching in other subjects. Honours Schools in Arabic, Sanskrit, Persian, Botany, Zoology, Maths, Chemistry, and Technical Chemistry, a Combined Honours School in English, History, Economics, and Philosophy, and post-graduation teaching in Economics have been instituted in Lahore; and senior teachers in the local colleges, partially relieved of routine work, have supplemented the teaching of Univ. Profs and Readers.

Three Papers (Honours) have been substituted in English, Mathematics, History, Economics, Philosophy, Sanskrit, Arabic, Persian, Physics, and Geology in place of Honours Schools in Arabic, Sanskrit, Peisian, Mathematics, and the Combined Honours School

LIBRARY, 62,710 vols. (arranged on Dewey Decimal system). Chemical LABORATORY. Astronomical Observatory.

FACULTIES. Oriental, Arts, Law, Medicine, Science, Agriculture, Commerce, Degrees. B.A., M.A., D.Lit.; B.Sc., M.Sc., D.Sc., B.Sc. (Agr.), M.Sc. (Agr.); LLB, LLD, Hons in Law, M.B., B.S., M.S., M.D., B.T.; (in Oriental Learning) B.O.L., M.O.L., D.O.L.; (in Commerce) B.Com.

In the Faculty of Oriental Learning a 2 yrs, course from Matrica. leads to an Interm. examn, and further courses of 2 vrs., 1 yr, and 2 yrs. to the BO.L., MO.L., and DOL. successively. Examns. are also held for Proficiency, High Proficiency, and Honours in Arabic, Sanskrit, and Persian. Honours admit to the Oriental titles: Maulvi Fazil (Arabic), Shastri (Sanskrit), and Munshi Fazil (Persian), and High Proficiency to Maulvi Alim, Visharada, and Munshi Alim. Similar examns. are held in Urdu, Hindi, Panjabi, and Pashto

The B.T. is open to any one who after graduating in any faculty other than

the Oriental has undergone a 1 yr course at an Affiliated Training Coll, or any trained S.A.V. graduate teacher not less than eighteen months after his passing the S.A.V. examn.

The B.Com. is open to anyone who has passed the Intermediate Examination of the Panjab University and has taken a 3 yrs 'course, passing the First Examination in Commerce at the end of the first year.

RECOGNITION OF OTHER INSTITUTIONS. An equivalent examn of any recognized Univ. may be accepted in licu of Interm. Arts or Science, B.A. or B.Sc., for the purposes of admission to a higher examn.

SCHOLARSHIPS FOR GRADUATES Several of from Rs. 20 to Rs 25 p.m. for 2 yrs. in Oriental Studies, Aits, and Science. Research studentships tenable for from 2 to 4 yrs. in Oriental Hist., Sanskrit, Pali or Prakrit, Arabic, Panjabi, Science, and Mathematics

RESIDENCE. Undergraduates in Lahoie Arts Colleges are ordinarily required to reside in College Hostels or in hostels recognized by the Univ.

Publication. Calendar (Sept.), Rs. 5/8/o.

#### GENERAL INFORMATION

This Univ, founded in Dec 1920, is governed by a widely representative Council consisting of not more than 70 members, which exercises its functions by means of an Executive Committee of 10 members. The Council has the power to reject any Act or resolution of the Senate (the academic body of the Univ.) in excess of its powers under the Univ. of Rangoon Act 1920, and to confirm or reject any resolution presented by it affecting the income or expenditure of the Univ. or of a Constituent College. The Senate consists of the Vice-Chancellor, the Director of Public Instruction, Burma, the Principals of Constituent Colleges, the Professors, 3 members of the Council, and not less than 10 lecturers in constituent colleges. Its executive duties are discharged by a Standing Committee. The Act of 1920 was amended in 1924.

An estate of about 450 acres of high and healthy ground, adjoining the Victoria Lakes on the outskirts of Rangoon, has been acquired for the Univ buildings.

Special Features. The B Sc Courses in Poiestry are the only courses of the kind in Asia. The courses in Burinese leading to the MA. Honours Examination are unique. The MSS of Pali Pitakas with commentaries, and the Talaing MSS in the Bernard Free Library, constitute probably the most comprehensive collection of these materials. The courses in old Mon (Talaing) and Pyu in the MA. Honours Burinese courses are unique, as also are various courses in Burinese Epigraphy. The course in Far Eastern History probably includes more of Chinese and further Indian studies than is provided by other Indian Universities. Special courses in Burinese History are offered.

LIBRARIES — University, in process of formation, University College, 22,385 vols.; Judson College, 11,000 vols.

Degrees — BA and MA, BSc and MSc; BSc Civ Engin, BSc. Forestry, BL, MB and BS (6 yrs' course from Intermediate examn); DIitt., DSc, LID LICENCE in Med and Surg (6 yrs' course after matriculation

DIPLOMAS, in Teaching and in Forestry.

Admission Ordinarily by Matriculation or a pass in the Anglo-Vernacular High School examn, or the European High School examn, held by Educational Dept in English, Burinese, Maths, and two optional subjects. Proficiency in English must be shown

FLES for Examinations BA, BSc, Rs 30; BA. (Hons.), BSc (Hons), Rs 40; MA, MSc, Rs 40, BL, Rs 40; MB and BS, Rs 50 Diploma of Licence, Rs 40, BSc Potestry, Rs 40, BSc Engineering, Rs 50

Scholarships for advanced study in the United Kingdom , 5 in Education ; 1 each in Mech. Eng., Samt. Eng., and Hist

Publications, Calendar, Annual Reports, Convocation Addresses

## THE YEAR 1927-28

New Post A Readership in Far Eastern History

LEGISLATION The Honours Courses for the degree of B A and B Sc were extended from two years to three.

Benefactions An "appeal" for the endowment of the University was launched by His Excellency Sir Harcourt Butler The amount received by March 31, 1928, was about 48 lakhs. The Burmah Oil Co. gave Rs. 1 lakh for

the endowment of a Burmah Oil Company College of Mining and Engineering. Raja Dr S. Ramanatha Reddiar, Rs. 2 lakhs for a Univ. Library. Dr. U Nyo, Rs 1,70,000 for a Students' Union and Rs 30,000 for a Univ. Boat Club. Mr. Chan Chor Khine, Rs 1 lakh for a Gymnasium The Nattukotai Chettyars' Association, Rs. 1 lakh for the endowment of a Chair in Economics.

New Buildings. The following new buildings were completed during the year for University College 17 houses, 5 men's hostels, with accommodation for Assistant Wardens; men's common during-hall; sanatorium and a servants' village; and for Judson College. 2 houses, 2 men's hostels; a common during-hall.

VISITS OF TEACHERS FROM OTHER UNIVERSITIES Prof. C. K. Webster, Univ. of Wales, four lectures on recent international developments, with particular attention to the work of the League of Nations. Prof E. P. Horrwitz, Hunter College, New York, twelve lectures on Indo-European Philology and Semantics.

HONORARY DEGRELS. LLD—Sir John Cargill, Bart, Director, Burmah Oil Company; U Nyo; Raja S R Reddiai; Sir Spencer Harcourt Butler, G C S.I, G.C I E, I C S

STUDENTS Full-time total, 1214; graduates, 187 Part-time 46. Vacation course for teachers, nil

DEGREES MA, 1; MSc, 2; BA (Hons), 16; BA (Pass), 67, BSc. (Hons), 19, BSc (Pass), 19, BL, 34, BSc in For, 5, BSc (Engineering), 21. Diploma in Teaching, 3

#### GENERAL INFORMATION

The object of the Institute, opened July 24, 1911, is to establish Chairs and Lectureships in Science and Arts, especially with a view to the promotion of original investigations and their utilization for the benefit of India, and to provide and to assist in the provision of suitable libraries, laboratories, and all other necessary appliances.

Associateships are awarded on the recommendation of the Senate for 5 terms (of which there are 3 in a yr—July-Sept, Nov.-Dec., Jan.-March) devoted entirely to research work, also for 3 terms plus a period of research elsewhere before or after the period spent at the Institute. Fellowships may be awarded to Associates who, having spent 5 yrs. in actual practice, produce satisfactory evidence of original and valuable research work, or other contribution to the advancement of scientific or industrial knowledge. Certificates are granted to students who satisfactorily complete approved courses of study 77 Associateships and 1 Fellowship have been granted.

Students reside in a Hostel. Messing charges are from Rs 28 to Rs 35 p m., rent, lighting, and service, Rs. 10 p in

Publications. Calendar (annual); Pamphlet describing history, 1911-23; Journal of the Institute, about 12 parts annually; Electrotechnics, pubd. by the Elec Engin Soc The Library contains 14,000 vols

### GENERAL INFORMATION

As a preliminary step to the formation of a University for Ceylon, the College was established in 1921 by the Ceylon Government. A College Council nominated by the Governor of the Colony advises the Government on all important questions connected with higher education.

LABORATORIES. Botany, Chemistry, Physics, Zoology.

TERMS. July-Sept.; Oct.-Dec.; Jan.-April.

Admission to the Ordinary courses is restricted to students who have passed the London Matriculation Examination or obtained exemption from it Others may be admitted to special courses on payment of admission fee, Rs. 10 minimum.

Degree Courses are provided for the BA., BSc, and B.Sc. (Econ.) of the University of London By special arrangement the University holds its Honours examinations in Ceylon in Engl, Classics, Oriental Langs., Hist, Philos., Maths, Chem, Botany, and Zool. A Pre-Registration course in Physics, Chem, and Biol, is provided for students of the Ceylon Medical College.

ORIENTAL LANGUAGES Courses are provided in Sanskiit, Pali, Sinhalese, and Tamil.

FEES FOR TUITION. Full course—Rs. 150 per annum plus Rs. 30 per annum extra for each science subject offered. Single subject Arts-Rs. 15 per term, Science—Rs 25 per term

Protestants, Roman Catholics, and non-Christians have RESIDENCE hostels under College supervision. Cost of board and lodging, approximately, Rs 40 p.m.

SCHOLARSHIPS FOR GRADUATES The Ceylon Govt offers 7 of £300 per annum each tenable for 2 or 3 years in a British Univ -one for Arts, one for Oriental Langs, one for Science, one for Maths, one for Agric and Forestry, and 2 for Engineering. Candidates must have been resident in the Island for five years

Publications Prospectus, Annual Report.

THE YEAR 1928-29 STUDENTS. Full-time Arts and Pure Science, 308. Part-time students, 7. Degrees obtained (Univ of London) in 1928 BA, 7. B Sc. 14.

The College, founded in 1870, is controlled by a Council composed of members nominated from the teaching staff of the College exclusively, together with the Principal Civil Medical Officer of the Colony and the Assistant P.C.M.O. and the Government Assessor. The control formerly exercised by the College Council over the Medical Profession in Ceylon, apart from Medical Education, was in 1925 transferred to the Ceylon Medical Council. The College is recognized by the General Medical Council.

#### GENERAL INFORMATION

The Coll is a Government institution, partly endowed by public subscription, managed by a Council of Govt. officials and private members, with the Principal Civil Medical Officer as President, advised by a Schate composed of the professors and lecture with the Principal as Chairman. Since its foundation 211 licentiates have passed out. It owes its name to a large donation from a King Edward VII. Memorial Fund, which enabled the Council in 1913 to endow a Chair of Physiology.

The Diploma in Medicine, Surgery, and Midwifery was recognized by the General Medical Council in 1916

Admission qualifications. (1) The Cambridge School certificate, with English (special Malayan paper), another language, and Maths. as compulsory subjects, and two of the following—Hist, Geog., Chem., Physics, Bot, Expl. Sc., Applied Maths.; or (2) certificates of equivalent standard, e.g. London Matrien, recognized by the General Medical Council as qualifying for registration as Med. students. Candidates must be of good physique.

TERMS. Trunty—June 1 to Aug. 31, Michaelmas—Oct. 1 to Dec. 20; Lent—Jan. 3 to March 31.

Composition Fee for complete 6-year course, covering tuition, hospital tickets, and examns (except fees for re-examn), \$750.

RESIDENCE, Erc. Hostel for 72 students There is a Students' Union. The Year 1927-28. Number of Students, 112.

#### GENERAL INFORMATION

The College of Medicine for Chinese, founded in 1887 for the training of Chinese students in Western Medicine, was incorporated under the name of the Hong-Kong College of Medicine in 1907 It had no building of its own, and its teaching was conducted by permission in various hospitals and other institutions. Between 1907 and 1910 an Endowment and Equipment Fund of \$1.280,000 was raised for a University to include Engineering and Arts as well The cost of the buildings and preparation of the site \$345,000 was borne by Sir H. N. Mody, the originator of the Fund. Other contributors were the Govt. of China, the Hong-Kong Govt, Swire & Sons, and other firms and Chinese residents of Hong-Kong, Canton, and other places Univ was incorporated in 1911 and formally opened in 1912, when it took over the work of the College of Medicine The buildings, including class-room accommodation for 500 students, three hostels, laboratories, etc., together with playing-fields, occupy an area of 25 acres. In 1919 were opened the Schools of Physiology, Tropical Medicine, and Pathology presented by three Chinese gentlemen. "The root idea of the Univ. is to provide a place for Higher Education where Chinese youths can remain under the influence of their own parents and guardians. subject to the strong control which Chinese opinion exerts upon young men, instead of being adrift in a foreign country where a liberty unknown to students in the East is allowed to undergraduates" (Calendar, 1910-20).

The Court is composed of life, ex-officio, and nominated members; the Council is composed of the Chancellor, the Vice-Chancellor, the Treasurer, certain Government officials, the Chinese members of the Legislative Council, Deans of Faculty, and two representatives of the commercial community, with power for the Governor to appoint two additional members. The Senate consists of the Vice-Chancellor, the Director of Education, and the Professors.

Museum of Pathology and Trop. Med. LABORATORIES: Anat., Bact., Biol., Chem., Histol., Path., Physics, Physiol., Trop. Med.; Applied Mechanics,

602 CHINA

Materials, Elec. Tech., Power House, Hydraulics, Steam, Elec. Machinery, Elec Traction, Engin. and Carpentering workshops. Hospis in the vicinity available for clinics, 400 beds; Govt. Bacteriological Inst. and Mortuary.

FACULTIES. Medicine, Engineering, Arts.

TERMS. Jan. 4-May 29; Sept 16-Dec 11.

MATRICULATION examn (framed for use also as a School Leaving examn) includes (a) English, (b) Maths, (c) Chinese Lang and Lit, (d) Latin or a Classical Oriental Lang other than Chinese, (e) Geog, (f) a Modern Lang other than English or Chinese, (g) Mandarin, (h) Hist, (i) Physics, (j) Chem., (k) Higher Maths., (l) Trigonometry, (m) Mechanics, (n) Drawing (a) and (b) are compulsory for all, and (c) for all Chinese candidates. It is necessary to pass in 5 subjects, and for the Med Faculty these must include (c), (d) or (f), and (e) or (h). Medical students are registered after passing an examn. in physics, chemistry, and biology subsequent to general matriculation

Degrees. B.A, B Sc. (Eng.), M A, M Sc. (Eng.), M B, B S, M D., M S. The standard aimed at is that of the Univ. of London To qualify for admission to the Bachelor's degree examns. residence for 8 (in Med—10) terms is necessary, the 5 years' medical course dates from registration as niedical student (see preceding paragraph), 3 yrs. are devoted to clinical work subsequent to passing an examn. in anatomy and physiology

The examn for the Master's degree may be taken at the end of 2 yrs after graduation as Bachelor — For the MA or MSc a thesis is required, for the MS, evidence of special post-graduate experience — The examn for the MD may be taken 5 yrs after graduation, or at the end of 2 yrs if evidence is produced of special post-graduate experience

Graduates of other Univs who wish to become candidates for a Master's degree must work under the direction of the Faculty concerned for at least I vr.

The Degree of B A. may be obtained in any one of 3 Depts. under 6 "groups" of studies. (a) Pure Arts and Science: Group 1, Letters, 2, Experimental Science; 3, Social Science. (b) Training of Teachers. Group 4 (a), Science and Maths.; 4 (b), General. (c) Commerce Group 5, Commercial Training.

FEES for tuition, \$300 p a; board and lodging, \$300, Univ. Union, \$15; books and charges for materials, etc., in Labs, about \$100. It is claimed that there is no European Univ. where a foreign student can live so cheaply.

RESIDENCE All students must reside in the quarters provided, or in hostels founded by religious bodies and conducted under regns approved by the Council

The Yfar 1927-28. Matric Examn  $\cdot$  30 schools presented candidates (405) for this Examn , some from places as distant as Batavia, Singapore, and Canton.

STUDENTS Full-time: total, 294.

DEGREES. M.D, 1; M.A., 1, B.A, 16; B.Sc. (Eng.), 10, M.B., B.S, 17.

# APPENDICES

# REGULAR COMMISSIONS IN H.M. FORCES FOR UNIVERSITY CANDIDATES

Regulations issued with Army Orders for June 1924 provide for Commissions being granted in the Cavalry, R.A., R.E., Royal Corps of Signals, Infantry, Royal Tank Corps, and R.A.S.C., and in the Indian Army Nominations of graduates who have certain prescribed qualifications are accepted by the Army Council from the following Universities. I. Oxford, Cambridge, London, Edinburgh, Manchester, McGill, Sydney, Toronto: II. The other universities of Great Britain, Northern Ireland, and the Dominions, except the National Univ. of Ireland Univs in Group I, have established courses of military study, and their candidates will be commissioned as senior to candidates whose qualifications are in other respects equal. The grant of graduate commissions in the Indian Aimy is limited to candidates from univs. in Great Britain and Northern Ireland. Commissions of accepted candidates will be antedated to their 20th birthday or to a later date up to 211 years of age, according to qualifications as defined in a prescribed scale

Among the necessary qualifications are to be within the age limits 21-24, and to be unmarried

The regulations giving full details of qualifications—general, academic, military, and physical—are obtainable from the War Office.

For the present the Army Council are prepared to accept 100 candidates a year from the Univs.

Permanent Commissions in the General Duties Branch of RA.F. Permanent commissions in the General Duties Branch of the RAF are granted to university candidates by the Air Council on the recommendation of their Universities. Officers of the General Duties Branch are taught to fly and undertake flying, technical, and administrative duties of the RAF They are given opportunities for widely differing types of study and of specialized employment.

Recommended candidates must be graduates of a University in Great Britain or Northern Ireland, must be unmarried and within the age limits 21-25. Recommended candidates are invited to attend before a selection board which sits at the Air Ministry, in Oxford and Cambridge. Selected candidates are granted commissions as pilot officers from the date on which they join a training unit and their commissions antedated so as to give them seniority as pilot officers from a date 12 months prior to the effective date of their gazettement to the R.A.F. Candidates who have graduated with first-class honours may be granted an additional antedate of 6 months. Promotion to the ranks of Flight Lieutenant and Squadron Leader is by seniority modified so as to give

accelerated promotion to officers who qualify for technical, staff, or other special employment. Promotion to higher ranks is by selection. Emoluments in the RAF have been fixed so as to allow officers even in the lowest ranks to live on their pay.

Intending applicants should write for information to the Secretary of the Air Ministry, Kingsway, London, W.C 2, applicants from Oxford or Cambridge should also get into touch with the University Air Squadrons The conditions under which commissions are granted to graduates of certain recognized Universities in the self-governing Dominions can be obtained from the Government of the appropriate Dominion

## П

# INSTITUTE OF CHARTERED ACCOUNTANTS IN ENGLAND AND WALES

Incorporated by Royal Charter in 1880. Address—Moorgate Place, London, E C.2.

The Preliminary examn for persons wishing to become Articled Clerks is held in London, Manchester, Birmingham, and Newcastle-upon-Tyne about the middle of May and November. It embraces: Dictation and short English Composition, Arith, Algebra and Geom., Geog, Hist, a foreign language (Latin, Greek, French, German, Italian, or Spanish), and one of the following—Advanced Maths, Physics, Chemistry, Geology, Stenography Exemption is allowed to persons who have passed certain other examns, such as Oxford Responsions, Cambridge Previous, and London Matriculation. The minimum age for being articled is 16

The Intermediate examn for Articled Clerks who have served half of their term of service embraces Book-keeping and Accounts (including Partnership and Executorship Accounts and the Accounts of Limited Companies), Auditing and General Commercial Knowledge.

The Final examin may not be taken until 2 yrs have elapsed since passing the Interm, except that graduates articled for 3 yrs, only may take it 1 yr, after passing the Interm. No person may present himself for the Final unless he has served under Articles in England or Wales to a member for 5 yrs (or, in the case of a graduate of a Univ of the U.K, for 3 yrs). It embraces Advanced Book-keeping and Accountancy, including Costing and Taxation, Auditing, Partnership and Executorship Law and Accounts, Principles of Law of Bankruptcy and of Law relating to Joint Stock Companies, the Rights of Liquidators, Trustees and Receivers, Principles of Mercantile Law and of Law of Arbitrations and Awards, and as an additional subject, either Banking, Currency and Foreign Exchanges, Actuarial Science, or Economics.

The Fee for admission to any of the examns is 2 gs, and for Certif.

of Exemption 1 g. Thirty days' notice is required, and late entries will only be accepted up to 15 days on payment of a late fee.

No person may be admitted as Associate (see 10 gs.) who has not passed the Final examn. The minimum age for admission is 21. Any person who, being an Associate, has for 5 yrs been continuously in practice as a Public Accountant may be admitted as Fellow (see 10 gs.). Distinctive initials FCA, A.CA.

# SOCIETY OF INCORPORATED ACCOUNTANTS AND AUDITORS

Incorporated 1885 Address—50 Gresham St., Bank, London, E.C 2. Branches. Glasgow, Dublin, Belfast, Montreal, Melbourne, Sydney, Cape Town, Johannesburg Members (numbering upwards of 4600) are designated "Incorporated Accountants"

Examinations are held ordinarily in May and Nov in London, Manchester, Leeds, Cardiff, Glasgow, Dublin and Belfast One month's notice is required. They are also held in Australia and S. Africa

The Preliminary (fee 1½ gs) embraces English (General Knowledge, including main outlines of Modern Engl History and General Geog., Essay, questions testing knowledge and command of Engl), either French or German or Latin, Maths Exempting examns. Matrical of approved Univs in the British Empire, and certain school certificate examinations

The Intermediate (fee 2 gs) embraces Book-keeping and Accounts, including Partnership and Executorship and Cost Accts, General Commercial Knowledge and Comml Law, Powers and Duties of Liquidators, Trustees, etc

The Final (fee 2½ gs) embraces, in addition to these, Advanced Accounting; Auditing, Merc, Jt. Stock Co, and Bankruptcy Law, Statistical Methods; Economics.

Service under Articles of Clerkship (after passing or obtaining exemption from the Prelim examn) is a condition precedent to sitting for the Interm and Final examns, subject to special regns in favour of Clerks to Public Accountants of long service (9 yrs. before admission to the Final). The period of service under Articles is ordinarily 5 yrs., for a graduate of a Univ. of the U.K. 3 yrs

Admission to Associateship (fee 10 gs) is open to a Public Acctt., Principal Clerk to a PA, and to Acctt in service of the Govt. or of a corporation or public body, under certain conditions, who has passed the prescribed examins. Admission to Fellowship (fee 15 gs.—for Associates, 10 gs) is open to a Public Acctt in the UK or Overseas Dominions after continuous practice as such for 7 yrs (in the case of an Associate, 3 yrs.), provided he has passed the prescribed examins. Distinctive initials: A.S.A.A., F.S.A.A.

Publications Yearbook, 3s.; Journal, monthly, 12s. 6d. pa.; Examn. Questions, 1s.

#### CHARTERED ACCOUNTANTS OF SCOTLAND

The Society of Accountants, Edinburgh
The Institute of Accountants and Actuaries, by Royal Charter
Glasgow
The Society of Accountants, Aberdeen

1854.

Qualifications necessary for admission (a) a Diploma course in the subjects of the Examination covering two academic years, including at least 6 session months' instruction in practical dairy work at an approved dairy training institution, also (b) at least 6 months on an approved dairy farm (not concurrent with period mentioned under (a)) The examn includes tests of practical skill in Dairying and of the candidate's knowledge

The examns are held in England and in Scotland. A candidate may not enter for the examns. in both countries.

Revised Regulations and Syllabus came into force for the N.D.D. Examn. in 1928.

Examn. papers of past years may be had at 6d. a set. A detailed syllabus of subjects of examn. is also obtainable.

#### NATIONAL DIPLOMA IN HORTICULTURE

The Examns. for this Diploma (N.D. Hort.) were established in 1913 by the ROYAL HORTICULTURAL SOCIETY (Vincent Square, London S.W.I) with the approval of the Board of Agriculture. They are usually held in May and June in London and elsewhere. The *Preliminary* examn is open to candidates who have received a sufficient general education, who are at least 21 years of age and have served at least 4 years in a public or private garden or nursery, or taken a 4 years course in an approved Horticultural Institution, or spent 4 years partly in the former and partly in the latter way. The *Final* examn. may be taken by candidates who have passed the preliminary examination and have been regularly employed in the practice of Horticulture for not less than 6 years.

# NATIONAL POULTRY DIPLOMA EXAMINATION BOARD

This Board, formed by the National Poultry Council, includes representatives of the Ministry of Agriculture, the Scottish Board of Agr., the Dept. of Agr. for Northern Ireland, Leeds Univ, S.E. Agr. College (Wye), Harper Adams Agr. College (Reading Univ.), and several other bodies. The Chairman is P Hedworth Foulkes, B Sc., late Principal of Harper Adams Agr College, Newport, Salop It holds examns annually and awards a National Diploma in Poultry Husbandry (N D.P.) and a Public Elementary and Secondary School Teachers' Certificate in Poultry Husbandry.

Qualifications for admission to the Diploma examns (fee 5 gs.):

1 Passing the Board's Prelim. examn (fee 2 gs.) in Elem Chem, Physics,
Biol, and Maths, or producing other satisfactory evidence, e.g. Matriculation certificate, of knowledge of the above-mentioned sciences, in
Training in Poultry Husbandry in a recognized Teaching Institutes for at least a year, in Experience on an approved Poultry Farm for at least a year. The subjects of the examn, are Poultry Husbandry in all branches and, in so far as they relate to this, Agr and Horticulture,
Physiology, Pathology, Chem and Physics, Building and Appliance
Construction, Bookkeeping. The next examn will be held in Sept.

Applications receivable by the Secy., National Poultry Council, 20-21 Essex St, London, WC2.

# V

# ROYAL INSTITUTE OF BRITISH ARCHITECTS

Founded 1834 Incorporated by Royal Charter in 1837. Address—9 Conduit St, Regent St, London, W.1.

The Recommendations of the R.I.B A in regard to prehiminary and professional education imply a course of professional training in schools occupying at least five years, during the last 2 yrs of which the student would be working part-time in an architect's office—the training being kept under the supervision of the Board of Architectural Education of the R I B.A or its delegates during the whole term

Registration as Probationer, RIBA. A candidate must submit a certificate of passing some recognized Public examn, or other evidence of general education covering required subjects, and, unless he has passed an Entrance examn in Freehand Drawing at one of the Schools of Architecture recognized for exemption from the R.I.B A. examinations, evidence in the shape of drawings that he has an elementary knowledge of this subject. A list of such Schools is given in the following paragraph and particulars regarding them are given in an explanatory Pamphlet on Examns, price is. Registration fee, 4 gs

The Intermediate examn (see 5 gs), open to Probationers of at least 10 vrs. of age, tests their progress while engaged as pupil, improver, or assistant in an office, and passing it qualifies for election as Student, R.I.B A. Exemption from this examn. (but not from the fee) may be granted to Probationers who have attended the necessary courses at one of the following schools. Architectural Assocn, London; Northern Polytechnic, London, Universities of Cambridge, Liverpool, London, Manchester, Sheffield, Birmingham School of Arch, Armstrong College (Newcastle), Leeds College of Art, The Technical College, Cardiff, Royal West of England Academy, Bristol, The Leicester College of Arts and Crafts, The Municipal School of Arts and Crafts, Southend-on-Sea, Robert Gordon's College, Aberdeen; Edinburgh College of Art, Glasgow Sch. of Arch, McGill Univ, Montreal; Univ. of Toronto, Bombay Sch of Art, Sydney Univ The RIBA. desires that Students within reach of these Univs and Schools should avail themselves of the opportunities thus afforded rather than submit themselves for the examn without such recognized training

The Final examn. (fee 6 gs.) for the Associateship, R.I.B.A., is open to Students of at least 21 yrs. of age. Before admission a candidate must submit for approval designs in answer to at least 4 problems set by the Board, and a thesis in Historical Arch., or in Science as applied to building, or in Design, including Decoration. Exemption from the Final examn, with the exception of that portion which deals with Professional Practice, is given to Students who have completed successfully a Diploma or Degree course covering at least 5 years at the Arch.

Assocn., London, Liverpool Univ., London Univ., Manchester Univ., Robert Gordon's Colleges, Aberdeen, Glasgow Sch of Arch., Edinburgh College of Art, McGill Univ., Montreal, Sydney Univ.

A Special examn (fee 10 gs) for the Associateship is held in July and Dec. It is open to Architects in practice and Assistants not less than 30 yrs of age and exempts from the Prelim and Interm examns, and from submitting testimonies of study

A Licentiate (L R.I.B A) is a fully qualified corporate member, and is entitled to the designation "Chartered Architect."

Examns (fee 3 gs) qualifying for candidature as District Surveyor in London or Building Surveyor under local authorities are held periodically

Allied Societies and branches thereof exist in 42 towns in the UK, in Montreal, Edmonton (Alta), Toronto (Ont), Regina (Sask), Vancouver (BC.), Winnipeg (Man), Moncton (NB), Adelaide, Melbourne, Brisbane, Sydney, Hobart, Perth, Wellington (N.Z), Cape Town, Bulawayo, Durban, Johannesburg, Nairobi, Singapore, Bombay, and Rangoon.

The Royal Institute of British Architects offers a number of Prizes and Studentships, particulars of which are published annually in the RIBA. Prizes and Studentships Pamphlet, to be obtained at the RIBA, price is a copy

Publications include the Kalendar, 3s 9d, containing, inter alia, a historical sketch, regns for international and other competitions, and information about the allied societies. Journal, in 20 numbers annually, is 6d each number Explanatory Pamphlet on Examns, is and postage. Past Examns Questions, price is 6d and postage

# VI

# AUCTIONEERS' AND ESTATE AGENTS' INSTITUTE OF THE UNITED KINGDOM

(Founded 1886)

Address-29 Lincoln's Inn Fields, London, W.C 2.

Examinations are held annually in March in London, Birmingham, Bristol, Cardiff, Manchester, Newcastle-upon-Tyne, and Belfast.

The Preliminary (fee 1 g) is for the grade of Student, the Intermediate (fee 2 gs) for the grade of Licentiate, and Final (fee 3 gs), or the Direct Final (fee 5 gs), for the grades of Associate (A.A I) and Fellow (FAI).

The subjects of the *Preliminary* are English Compn., Maths, Geog., Hist of England, General Knowledge, one foreign language (Elem. Latin, French, Spanish, Italian, or German), and either Shorthand or Elem. Book-keeping. Exempting examns.: Matricn. of a Univ. in the U.K., Prelim. of Law Soc., Surv. Instn., Inst. C.A., Soc. of Inc.

Acctts. and Audtrs., Special Army Ed. Certif., London Chamber of Com (Comml), and the school certificate examns conducted by certain Universities.

The Intermediate is open to Student Members and Articled Clerks and others who have gained practical experience. Minimum age, 19. The subjects are Book-keeping, Plans and Mensuration, Valuation Tables, Law of Landlord and Tenant, Dilapidations and Fixtures, and 2 out of 5 other subjects. Exempting examps. London B Sc. (Estate Management) Final, and, as regards some of the subjects, the Interm. B Sc. The holder of a degree of a recognized University is exempt from the Interm. Example and may enter for the Ordinary Final. This examination is open only to those who have passed or been exempted from the Institute's Preliminary Example unless the candidate is 25 years of age or over, when he is required to take the 2 additional subjects of English and Arithmetic at the Interm. Example

The Final is open to persons who have passed or been exempted from the Interm; the Direct Final, to persons not less than 25 yrs of age who fulfil certain conditions as to practical experience. The subjects of the Final are. Valuations, Law of Vendor and Purchaser, Elements of Law of Receiverships and Mortgage, Arbitrations and Compulsory Purchase, Sanitation, Law and Practice of Rating and Taxation, Report Writing, and two out of a list of 7 other subjects. The Direct Final in addition to the 9 subjects of the Ordinary Final Examn includes also the following from the Interm list. Bookkeeping, Plans and Mensuration, and Law of Landlord and Tenant.

Minimum age for admission to Student grade, 16, Licentiate grade, 19, Associate grade, 21, Fellow, 25 Candidates must also fulfil specified conditions as to practical experience

Publications. Regns and Syllabus with list of Text-books and particulars of Prizes and Scholarships (value up to £50), is. Last Examn Questions, 2s

THE COLLEGE OF ESTATE MANAGEMENT, 35 Lincoln's Inn Fields, London, W.C 2 Incorporated by Royal Charter. Instruction—daytime, evening, and by postal tuition—in preparation for the examns of the Univ. of London (B Sc degree), the Surveyors' Instn, the Auctioneers' Institute, and the Land Agents' Society. Principal, B. W. Adkin, F.S. I, F.A. I, F.E. S, M. R. A. S.E., Barr-at-Law Directors of studies in Urban and in Rural Science and 30 other Lectrs and Instrs

# THE LAND AGENTS' SOCIETY (INCORPORATED)

Address-12 Little College Street, London, SW.1.

Qualifications for (1) Fellowship: Having passed the Society's examins, and being suitable in other respects (position and experience). The Council have special dispensing powers to elect as Fellows, without examin, Land Agents of exceptional standing and experience. (2) Qualified Associateship. Having passed the Society's examins, and having had at least 2 yrs' practical experience other than as a pupil

paying a premium. (3) Associateship: Being a Pupil with a Land Agent who is, or is qualified to be, a Fellow or Qualified Associate.

Examinations annually in March and Entries up to Dec. 1. Scottish candidates are examined in Scotland and Fee for each Part, 4 gs Part I comprises Agric (Elementary), Surveying, Agr. Law (Elem.), Taxation and Charges on Land, Building Constn., etc., Forestry, Book-keeping Part II is of an advanced character to test practical knowledge. Candidates, 35 years of age and over, with seven years' responsible experience are permitted to sit for Part II. as a Direct Fellowship Examination Syllabus and previous Examin Papers may be obtained from Secretary.

Journal, published monthly, 2s 6d to non-members.

# VII

#### THE INSTITUTE OF BANKERS

Founded 1879 Address—5, Bishopsgate, E C 2. Local centres in Bath, Bedford, Birmingham, Blackpool, Bournemouth, Bradford, Brighton, Bristol, Cambridge, Cardiff, Chatham, Chester, Deiby, Eastbourne, Exeter, Gloucester, Hull, Ipswich, Leeds, Leicester, Liverpool, Middlesbrough, Newcastle-on-Tyne, Northampton, North Staffs, North Wales (two Centres), Norwich, Nottingham, Oxford, Peterborough, Plymouth, Reading, Sheffield, Southampton, Southend, and Swansea. Subscription ½ g to 2 gs p a

Qualifications for election to Associateship: (a) 10 yrs.' service in a Banking Establishment, or (b) passing approved examns, or (c) being a graduate of a University and on the staff of a Banking Establishment. Ordinary members are elected from the staff of any Banking Establishment on the Council's list. Associates by examination may add to their names or signatures, "Cert. A I B"

Examinations, open to members only, (1) For the Associate Certificate, held in April in London, the provinces, and abroad Latest entry date—February 15th \* Subjects: Practice and Law of Banking, Economics, Engl Compn, Comml Geog, Foreign Exchange and Accountancy, optional—French, Spanish, Italian, Portuguese, German. The examn. is divided into two parts extending over not less than 2 yrs. No Member may enter for the Associate Examination unless he has either passed a Qualifying Examination or obtained exemption on account of passing one of the recognized "First Examinations" or on account of his age and length of bank service. Examns. exempting from Part I. in Practice and Law,—examns for B Com of Bombay or Lucknow with Banking as special subject, in Econs.,—examn. by Prof Knoop at Univ. of Sheffield Certain certificates obtainable in London, Manchester, Leeds, Birmingham, Bradford, Cardiff, Liverpool, Scotland, and Ireland are also recognized. (ii) For Diploma in French, Spanish,

<sup>\*</sup> For members outside Europe: January 31.

Portuguese, Italian, and German, held annually in the spring Scholar-ships entitling holder to spend 2 months in a bank abroad are awarded in connexion with the Diploma examns. Classes in preparation for the Language examns. are held by the Institute, and in preparation for all subjects by the local centres.

Courses of Lectures in Banking and kindred subjects are given during the winter in London and some provincial towns. Library (lending), 6500 vols. Journal monthly, Oct. to June, is 6d. (15s. p.a., post free). Examn. Ouestions, 6d. each yearly set.

### VIII

# INSTITUTE OF CHEMISTRY OF GREAT BRITAIN AND IRELAND

Founded 1877. Incorporated by Royal Charter, 1885. Address—30 Russell Sq., London, W C 1. Library of 4500 vols. Laboratories, available for use for examination purposes by other institutions as well as for the I.C.'s own examns Appointments Registers of Fellows, Associates, Registered Students, and of Laboratory Assts.

Studentship. Minimum age, 16 Annual subs., 10s. A candidate for admission must have passed an approved examn of matricn. standard and must be undergoing a course of preparation and training for the practice of Chemistry in one of the teaching institutions recognized by the Council, or as a pupil of a Fellow of the Institute in a lab or works approved by the Council

The institutions recognized for the training of candidates for the Examns of the I C are those in connexion with the Univ. of London shown on pp 102 et seq —(U), (K), (Im), (Bk), (EL), (2), (5), (8), (10) (evening), (11), (12), Armstrong Coll, Newcastle, Constituent Colls, of Wales and of N U.I., all other Univs. in the U K., Univ Colls, Exeter, Leicester, Nottingham, and Southampton; Belfast, Birmingham and Blackburn Munic Tech Schools, Bradford City Tech. Coll, Huddersfield Tech Coll, Leeds Central Tech Sch, Loughborough Tech. Coll, Salford Royal Tech Inst, Wigan Mining and Tech Coll, Cardiff Tech. Coll, R Tech Coll. Glasgow, Heriot-Watt Coll, Paisley Tech Coll., C Sc I.; Overseas Univs.—McGill, Queen's (Ontario), Toronto, Adel, Melb, Syd., W Aust., N.Z., Cape Town, South Africa—Coll, Sc. Tral, Stellenbosch

The compulsory subjects of training are Chem., Physics, and Maths., the course in Chem. extending over 4 yrs. Evening class training is recognized if the candidate is engaged in the practice of Chem. during the day and attends a systematic course previously approved by the Council extending over 5 yrs., and is recommended by his teachers. Evidence of having passed the class or other examns is required.

The AIC. examn. in General Chemistry (inorganic, organic, and physical), fee 5 guineas, occupies 6 days, including 4 days of practical

Chemistry, and is open to students who have completed the prescribed training or have obtained a degree including the necessary subjects, and worked for a further year in a recognized Univ. or Coll. or for 2 yrs. with a Fellow in a lab. or works approved by the Council, or have been otherwise trained to the satisfaction of the Council and been engaged in the study and practice of Chem for 8 yrs. The AIC. may be granted (without examn) to graduates with 1st or 2nd Class Hons in Chem, or holders of diplomas recognized as equivalent, who have completed a 4 yrs,' course in the requisite subjects or a 3 yrs' course supplemented by approved experience in laboratories or works. The Institute recognizes the Final B Sc. with 1st or 2nd Class Hons in Chem. of all Univs. of the UK., of McGill, Toronto, Adelaide, Melb, Syd., the Final M A. of the Univ. of Cape Town with Chem as principal subject, and the Final BA of Toronto with 1st or 2nd Class Hons in the graduating Dept of Chem. and Mineralogy. Applications from candidates having diplomas of a specialized character will be decided on their merits. Entrance fee, 2 gs. Annual subsn, 11 g.

The FIC examn, fee 10 gs. (for Associates, 5 gs.), occupies at least 5 days in any one of the following branches. Inorganic, Physical, Organic, Agricultural, Foods and Drugs and Water, Bio-Chemistry, Industrial Chemistry, with special reference to particular industries. Open to Associates of 3 yrs' standing; in exceptional cases to other candidates who have been systematically trained and had considerable experience. The FIC may in exceptional circumstances be granted without examn to Associates of 3 yrs' standing who have carried out original research or devised processes or inventions or given other sufficient evidence of knowledge and ability Entrance fee, 5 gs. Annual subsn, 2 gs.

Arrangements have been made between the Board of Education and the Institute for the award of national certificates in Chemistry to students in technical schools and colleges in England and Wales (Rules 100, 1921, 2d). Under this scheme the Institute in conjunction with the Board approves schemes of training submitted by the technical schools or colleges, for the award of certificates for part-time grouped courses, including in addition to chemistry suitable courses in physics, mathematics, and cognate subjects. Courses for Part-time Course certifs, are designated Senior for the Ordinary and Advanced for the Higher certif. A similar scheme is in operation in Scotland, in conjunction with the Scottish Education Department, and a further scheme will shortly come into operation in conjunction with the Ministry of Education, Northern Ireland. Holders of Part-time Certificates can ascertain from the Registrar of the Institute how far their training may be recognized as qualifying for admission to the examn. for its Associateship.

Publications. Register of Members; Regns for Admission; Examn. Papers, is. a set; List of Official Chemical Appointments, 5th edition, Jan. 1924, 5s. net. (This includes a List of Societies and Institutions directly interested in the advancement of Chemical Science and Technology, with information as to their chief objects) Journal and Proceds., 6 parts annually, 2s. each; History of Inst., 21s., The Profession of

Chemistry, 2s. 6d.; Lectures (monographs on various industries—Branches of chemical practice, etc.) at various prices.

# CHEMICAL SOCIETY

Address—Burlington House, London, W.I. Professional qualification not required. Entrance by ballot, annual subs. £3. Monthly Journal and Abstracts. Annual Reports on the progress of Chemistry. Research Fund from which grants are made (to the amount of about £700 p a) for purchase of special materials for research.

## IX

# INSTITUTION OF CIVIL ENGINEERS

Established 1818. Incorporated by Royal Charter, 1828. Address—Great George St., Westminster, S.W.I. Telegrams—Institution, London.

Examinations, (i.) Preliminary and (ii) Associate Membership, are held annually in April and Oct. in London. Entries receivable up to Feb. 28 and Aug. 31 The April Prelim. and Oct. A M may also be held, the former in Manchester, Glasgow, and Newcastle-upon-Tyne, the latter in the King's Dominions overseas. (i) may also under certain conditions be held overseas.

For admission to (i) nomination by a corporate member is necessary, and conditions relating to practical training have to be fulfilled. It includes English, Maths, and one language and one science subject from the following Elem Chem, Elem. Mechanics, Elem Physics, Latin, Greek, French, German, Ital, Span, Port, Dutch, Hindustani, Russian

Admission to (11) is open to (a) Students of the Instn. (v infra) of at least 1 yr.'s standing between ages 21 and 26, and (b) persons of at least 25 yrs of age who have passed or are exempt from (1) and are in other respects (training, experience, etc.) qualified for election into the Institution. It includes papers in (A) Mechanics, Strength and Elasticity of Materials, Electricity and Magnetism, either Theory of Structures or Theory of Machines, (B) 2 out of 9 other subjects; and (C) Engin Drawings, Specifications, and Quantities.

For admission as Student age must be between 18 and 25, and candidate must be recommended by a corporate member under whom he is or has been in course of preparation and training in accordance with the Instn.'s prescriptions. A candidate for election as Associate Member must satisfy the Council as to his training and experience, and must, unless exempted, pass (i.) and (ii.). Exemption from (i) is granted to graduates of any Univ. of the Empire, and Whitworth Scholars and, subject to provisos, persons who have passed certain school and matriculation examns. in Great Britain and Ireland, Canada

(McGill Univ.), Australia, New Zealand, and South Africa. Exemption from sections (A) and (B) of (u) is granted for the following degrees if taken after 3 yrs.' study in the several Univs in accordance with their regns.: Oxford B.A. with Hons. in Engin. Sc Final Hons. Sch.; Camb. B A. Hons Mech Sc Trip, B Sc in Engin. of Edin., Glas., St And, Belf, S Africa, Cape Town, and Witwatersrand in "Civil" or "Mechanical and Electrical", B A I of Dublin, B E Nat Univ, Ireland; and, subject in some cases to certain qualifications, engineering degrees of all the other Univs of England and Wales, and of McGill, Adelaide, Melbourne, Queensland, Western Australia, Sydney, and New Zealand

Members and Associate members are entitled to the designation Chartered Civil Engineer.

Publications. Report on Methods of Educn. and Training of all Classes of Engrs., 1906, Wm. Clowes, 94 Jermyn St., S.W.I, post free, 11d., Report of Confce. on Educn. and Training, June 1911; Papers and Reports on Technical Subjects

## INSTITUTION OF ELECTRICAL ENGINEERS

Founded 1871. Incorporated by Royal Charter, 1921 Address—Savoy Place, Victoria Embankment, London, W.C 2. Telegrams—Voltampere, Phone, London

Examinations are held in London and other centres in Great Britain twice annually, namely, in May and November, of candidates for Associate Membership Applications should reach the Secy not later than Apr I and Oct I respectively Examins may also be held abroad at the discretion of the Council. Part I of the examin includes English essay or translation into English from French, German, Italian, or Spanish, Applied Mechanics, Electricity and Magnetism, and either Heat, Light, and Sound or Chem. Part II consists of papers on technical subjects only.

A candidate for the Associate Membership is required to possess an approved educational qualification, or to pass the examn or to present a thesis, paper, or other written work on Electrical Engineering or its applications. He must also be at least 25 years of age or have been a Student of the Institution for at least 3 yrs, must be engaged in one of the branches of El Eng, and satisfy the Council as to his experience, etc.

An Engineering Degree of any University in the British Empire approved for the purpose is recognized, subject to certain provisos, as an approved educational qualification Numerous diplomas in electrical engineering are likewise recognized

National Certificates and Diplomas are awarded by the Institution and the Board of Education jointly on lines similar to those for Mechanical Engineers; v. infra.

### INSTITUTION OF MECHANICAL ENGINEERS

Established 1847 Address — Storey's Gate, St. James's Park, London, S.W.I. Telegrams—Mech. Parl, London.

Examinations are held in London and at provincial centres in April and Oct., and at overseas centres in Oct.: (i.) Studentship (minimum age, 16), including papers in English, Elem. Maths, Elem Mechanics, and either Physics or Chem (ii) The Associate Membership Examination, including—Section A a Modern Lang, App Maths., Physics and Chem.; Section B: Theory of Machines and Machine Design, Properties and Strength of Materials, and an optional technical subject, also Section C. The Economics of Engineering.

A candidate for election as *Graduate* must, unless exempted (see below), have passed Sections A and B of examin (11), and have received or be receiving sufficient regular training as a mechanical engineer to fit him for employment as such Minimum age, 21

A candidate for election as Associate Member must be a practising Engineer at least 25 yrs. of age. The passing of the A M. or equivalent examn. is an indispensable qualification up to the age of 33, and he must, in addition, have been regularly trained as a ME and have had sufficient practical experience in the direction or design of Engineering work

Examinations exempting from (i) graduateship of any Univ. in the British Empire, certain examns of Matriculation Standard held in South Africa, Australia, New Zealand, and Hong-Kong.

Examns exempting from Section A and Section B of examn. (11): Engineering Degrees of any Univ in Gt Britain, Ireland, British Dominions, or India, except such as may be specifically excluded, Manc Certif in Technology, Mech. or El. Eng., Eng. Degree of a Foreign Univ. if recognized by the Council; Diploma in Eng. of Univ., King's, or City and Guilds (Engin.) Coll, London, Dipl. of City and Guilds of Lond. Inst. if taken by matriced student, Final Dipl. in Mech or El E of R.T.C., Glas., if approved Matricin examn. passed before beginning course, R.N. examn qualifying as Lieut. (E), R.N. College Prof. Certif. for Constructors; Inst. C.E., Assoc. M.; Whitworth Scholps. and Exhibns. A degree in Commerce of a British Univ exempts from Section C.

National Certificates and Diplomas are awarded by the Institution in conjunction with the Board of Education to students of approved Technical Schools and Colleges (v. Board of Education, Rules 106, 1921, 1d.) Certificates are awarded in respect of part-time and Diplomas in respect of full-time grouped courses. Part-time courses are classified as Senior or Advanced, the latter aiming at reaching, within the limits of the subjects covered by them, the standard of University work. Full-time courses are also classified as Senior (for Secondary School students aged 16) and Advanced (for Secondary School students aged 17 or 18 or students who have been for 2 yrs in regular employment with concurrent instruction at senior or advanced

part-time courses) The courses must extend over at least 2 yrs. and the senior part-time course should normally extend over 3 The Certifs. and Diplomas relating to Senior and Advanced courses respectively are known as *Ordinary* and *Higher* The *Ordinary* Certifs and Diplomas exempt candidates from certain subjects of the Studentship Examination, and the *Higher* Certifs. and Diplomas from certain subjects of the Associate membership examn Special conditions apply to holders of both the *Ordinary* and *Higher* awards

## ROYAL AERONAUTICAL SOCIETY

(with which is incorporated The Institution of Aeronautical Engineers)

Founded 1866 Address—7 Albemarle St., London, W 1

Membership may be either technical (Students, Associates, Associate Members, Associate Fellows, Members, and Fellows) or non-technical (Companions) Associate Fellowship (A.F R Ae S) is reserved for those who have certain attainments in the science or practice or teaching of aeronautics or its allied sciences and have passed the Associate Fellowship Examination or an exempting examination, Associate Membership (A M I Ae E) is reserved for those who have certain attainments in the practice of aeronautics or its allied subjects or have passed the Associate Membership Examination or an exempting examination, Membership (M I Ae E ) for those who have attained considerable eminence and are qualified as Associate Members, Fellowship (FRAeS) for those who have attained to considerable eminence, and are qualified as Associate Entrance for Associates and Companions, 1 g, for Associate Fellows and Associate Members, 2 gs , for Fellows and Members, 3 gs Library, including large recent acquisitions due to grant from Carnegie U K Trust, available to non-members through the medium of the Central Library for Students, 9 Galen Place, WCI Lectures, regularly in winter Publications Journal (monthly), Transactions (occasionally)

### INSTITUTION OF AUTOMOBILE ENGINEERS

Incorporated 1907 Address—Watergate House, York Buildings, Adelphi, W.C.2.

Qualifications for (1) Ordinary Membership (MIAE): minimum age, 25, having occupied during a sufficient period a responsible position in connexion with the practice, or otherwise proved thorough knowledge of theory and practice, of Automobile Engineering; (2) Associate Membership (AM,IAE). min age, 23; having been trained as Engineer and subsequently employed for at least 2 yrs. in practice and science of AE, and being actually so engaged, and having proved by examn, or otherwise thorough knowledge of the theory and practice of A.E. Persons suitably qualified may also join as graduates, students, associates, or affiliates. Annual subsn. I g. to 4 gs. according to class. Prizes up to £25 for Papers by Graduates.

### INSTITUTION OF CHEMICAL ENGINEERS

Incorporated Dec. 21, 1922. Address—Abbey House, Victoria Street, London, S.W.I.

Membership (M I Chem E) qualifications: minimum age, 32, and satisfactory evidence of good general and scientific education, training, and experience, or of eminence as a Chemical Engineer. Associate Membership (A M I Chem E) candidates not below the age of 25 who have had regular training and sufficient experience may qualify by passing a prescribed examn. Alternative qualifications are also provided for Subscriptions of "students," graduates, and corporate members range from  $\frac{1}{2}$  g. to 5 gs

#### INSTITUTION OF GAS ENGINEERS

Founded 1863 Incorporated 1902 Royal Charter received 1908. Address—28 Grosvenor Gardens, Westminster, SWI Secretary Walter T Dunn, MI Mech E, FCIS Telephone—Victoria 0912 Telegrams—Gasophaner, London

In 1923 a scheme for awarding grouped course Certificates, Ordinary and Higher, for success in part-time day or evening courses, on lines similar to those for National Certificates in electrical and mechanical engineering (v. supra), was adopted with the approval of the Govt. education authorities of Great Britain and Ireland. Provision has also been made for granting Diplomas in Gas Engineering and in Gas Supply for success in examinations of the Institution of Gas Engineers There are not at present any examns for admission to membership of the Institution

# THE INSTITUTE OF MARINE ENGINEERS, INCORPORATED

Established 1889 Address—85 The Minories, Tower Hill, London, E 1.

Membership or Associate-Membership open to Engineers holding First or Second Class Sea-going Certificates or those holding responsible or qualifying positions and engaged in the science or practice of Engineering or Shipbuilding, Associateship, to juniors so engaged and at least 21 years of age, Graduateship, to those receiving training in such science or practice who have completed one year of such training, Student Graduateship, to those who have attended Technical classes for a year, are training for such science or practice, and have passed the Institute's examn—The examn. (fee, 2s 6d.) is held in London and the provinces in April in the following subjects: Theoretical Mechanics, Heat and Heat Engines, Machine Constn. and Drawing, Applied

Mechanics, Maths., English, Elec. Engin. Entrance fee, 10s. to 30s. and annual subsn., 5s. to £1:11:6 according to grade of membership.

Library (over 3000 vols) and Reading Room. Lectures monthly (usually on 2nd Tuesday) during winter session. Gold Medal and other awards for Essay competitions

Lloyd's Register Scholarships: Three of £100 p.a tenable for 3 yrs. in a University or College (day classes), open for competition, by examn, to British subjects, aged 18-23, who are Graduates or Associates of the Inst., apprentices or jumor engineers, not necessarily connected with the Inst., who have served at least 2 yrs. in a commercial engineering workshop and until the time of application have been employed in engineering either ashore, afloat, or at College with a view to entering upon the business of Marine Engineering. The examn is held early in May each year in various centres to suit the residences of candidates in Great Britain.

### INSTITUTION OF NAVAL ARCHITECTS

Founded 1860 Incorporated by Royal Charter, 1910. Address—5 Adelphi Terrace, London, W C 2

Principal qualifications for Membership: minimum age, 30, having served apprenticeship in naval architecture or marine engineering and subsequently been engaged in such occupation and having held a post of primary responsibility for 7 yrs or more. Qualifications for Associate Membership are similar, but minimum age is 25 and post of primary responsibility need not have been held. Age-limit for Associates, 25, Students, 18-25. Entrance fee and annual subsn, 2 gs each, except for students, who pay subsn. 15s. p.a. and no entrance fee. Distinctive letters, M.I.N.A., etc.

Scholarships in naval architecture and marine engineering: number unspecified, varying in value from £75 to £150 p a , offered for competition, open to students and apprentices in firms engaged in ship-building industry and Royal dockyards , two for post-graduate research in naval architecture (value £250 p a and £150 p.a. respectively) are awarded on recommendation of Univ. authorities.

Annual meetings, when papers are read and discussed Summer meetings at shipbuilding centres at home or abroad

Library, over 4000 vols, comprising principal works on ship-building, ancient and modern. Transactions, issued annually, constitute a permanent record for over 60 yrs. of all important developments in shipbuilding and marine engineering:  $\pounds 3:3s$ . for current volume (issued free to members),  $\pounds 3:3s$ . to 10s. 6d. for earlier numbers. Total membership about 2900, including many foreign naval architects of eminence.

# NORTH-EAST COAST INSTITUTION OF ENGINEERS AND SHIPBUILDERS

Founded 1884. Incorporated in 1914 under Companies Acts. Address—Bolbec Hall, Newcastle-on-Tyne.

Qualifications for Membership, Associate Membership, etc, are somewhat similar to those prescribed by the Institution of Naval Architects (v. supra) Distinctive letters, M.N.E. C.Inst, etc. All members are, by virtue of their membership, also members of the Cleveland Scientific and Technical Institution, Middlesbrough

A Scholarship in shipbuilding, marine, mechanical, or electrical engineering of the value of £100 is awarded annually upon the results of an examn, held in Sept.

Library containing over 5000 books on engineering and shipbuilding subjects. Reading Room receiving regularly 130 British, foreign, and colonial periodicals. *Transactions* issued in 8 Parts since 1884. Price of Parts, 5s. each. Annual volume, 25s. Papers published also in excerpt form, usually 5s per copy, with discussion, correspondence, and author's reply.

# INSTITUTION OF ENGINEERS AND SHIPBUILDERS IN SCOTLAND

Founded 1857 Incorporated 1871 Address—Elmbank Crescent, Glasgow

Qualifications for Membership, Associateship, etc., are somewhat similar to those prescribed by the Institution of Naval Architects (v supra) Distinctive letters, MIES, etc. The Institution reciprocates with the North-East Coast Institution in regard to the use of premises and attendance at meetings. It exchanges Transactions with 61 scientific societies and receives in exchange 74 periodicals

# INSTITUTION OF MUNICIPAL AND COUNTY ENGINEERS

Founded 1873. Incorporated 1890 Address—92 Victoria Street, London, S.W.1. A Constituent Institution of the Joint Engineering Council.

Qualifications for Membership (M Inst M. and Cy E): minimum age, 25; either holding a permanent chief appointment as an Engineer or Surveyor under a Municipal Corporation or other such Public Authority, or holding a permanent appointment as Deputy Engineer or Surveyor or the like and having passed the examn. of the Instn. or obtained equivalent Degree or Diploma, and in the case of deputies, etc., testimony of professional ability and experience justifying

election. Qualifications for Associate: Membership (A.M.Inst.M. and Cy.E.); minimum age, 22, having undergone a recognized course of instruction as Civil Engineer and Surveyor and holding a position as Engineer Asst. or Resident Engineer or the like under a Public Authority; and having passed the examn. of the Instr. or satisfied the Council that he has equivalent engineering qualifications. A candidate for election as student (age-limits 18 to 24) must be undergoing or have undergone a regular course of training as an articled pupil to, or hold an approved appointment with, an Engineer or Surveyor to a Public Authority.

Entrance fee for Member and Assoc Member,  $1\frac{1}{2}$  g, £1:5s; subsn., 2 gs,  $1\frac{1}{2}$  g. Student's subsn., 1 g

Examinations are held in April and Oct. Applications receivable up to Nov. 1 and May 1. Three certificates are awarded: (a) Testamur for general proficiency in work of a local govt engineer and surveyor; (b) certificate in Town Planning, (c) certificate in County and Highway Engineering for specialized knowledge of road and bridge engineering and highway management and administration

Qualifications for admission to the examns: minimum age, 21; certificate of having passed the matrice examn of some University in the British Empire or an Examn of similar standard approved by the Council, fees—(a) 4 gs, (b) or (c)  $1\frac{1}{2}$  or 3 gs

Inquines about examns in India and S Africa may be addressed to M. Lea, Chief Engineer, Municipal Office, Karachi, India, and H. M. Ladell, Town and Water Engineer, Wynberg, Cape Colony, respectively.

Publications: Journal, fortnightly, 2 gs. pa, Town Planning Conference 1913, 10s. 6d; Handbook containing lists of Members, Regns., etc, 5s, and several others.

### INSTITUTION OF STRUCTURAL ENGINEERS

Founded 1908, and incorporated 1909 Address—10 Upper Belgrave Street, London, SW1 Telegrams—Coninst, Sloane, London. Branches (7): Lancashire and Cheshire, Western Counties, Yorkshire, Midland Counties, South-Western, Eastern, and Irish.

Admission to the class of Member is open only by examn., through the Graduate and Associate-Membership classes. Admission to Associateship is direct, but candidates must be Fellows either of the R.I.B.A. or Surveyors' Institution, or must be of equivalent professional standing. Distinctive initials of members, etc., M I Struct E., etc.

Publications: The Structural Engineer, monthly, is. 2d. post free; Yearbook, 5s. 4d. post free; numerous books and reports on technical subjects.

# X

#### THE BAR IN ENGLAND AND WALES

THE right to practise as a Barrister in the Law Courts of England and Wales is restricted to those who have been called to the Bar by one of the Inns of Court-Lincoln's Inn. Middle Temple, Inner Temple, and Gray's Inn. The consolidated Regulations of these Societies (obtainable from the Council of Legal Education, 15 Old Square, Lincoln's Inn, London, W C 2) provide, inter alia, as follows: Admission of Students. The conditions include: (1) having passed any examn, held by any Univ in the British Dominions or any of the States in India, approved by the Council of Legal Educn, which entitles to a degree or, provided that one of the subjects in which the Student has passed is Latin, one of certain other examinations approved by the Council of Legal Education; (11) satisfactory evidence of good character; (111.) declaration that the candidate will not "directly or indirectly apply for or take out any certificate to practise, directly or indirectly, as a Pleader or Conveyancer or Draftsman in Equity, without the special permission of the Masters of the Bench," and is not and does not "directly or indirectly act in the capacity of a Solicitor, Attorney-at-Law . . . Professional Accountant, Actuary, Land-Agent, Surveyor . . . " or " in any capacity similar to any of those . . . otherwise than as . ." The Schedule of approved Prelim examns includes those of the standing of Oxford Responsions, Cambridge Previous, and London Matriculation The Council may add others, and the Masters of the Bench of the Inn of Court concerned may, in special cases, relax or dispense with this requirement

Keeping Terms This is done by eating dinners 6 days in each of 12 terms (members of Univs. of the U.K. 3 days). There are 4 terms in each year.

Education and Examination Systematic instruction is provided under the supervision and direction of the Council of Legal Education in Roman, International, Constitutional, and English Law, Jurisprudence, Legal History, and Equity Reading in the chambers of a Barrister or Pleader for the purpose of studying the practice of Law is recommended, but not compulsory. Three examns for Call to the Bar are held each year Candidates must satisfy the examiners in each of the sections: (1) Roman Law, (2) Constitutional Law (English and Colonial) and Legal History, (3) Criminal Law, (4) Real Property and Conveyancing or Hindu and Mohammedan Law or Roman-Dutch Law. (5) Common Law, (6) Equity, (7) Law of Evidence and Civil Procedure, (8) General Paper on 5, 6, and 7. A student who has passed an examination in Roman Law, forming part of a qualifying examination for a Univ. degree, may be excused the examination in Section I. Sections I to 4 (constituting Part I.) may be taken separately (fee, \frac{1}{2} g each); 5 to 8 (the Final examination) must be taken together (fee, 2 gs.)

LAW 627

after having passed I to 4 and, ordinarily, after having kept at least 6 terms.

The successful students are classified and the names of those in Classes I. and II. of the Final Examination Pass List are arranged in order of merit. A Certificate of Honour is granted to those in Class I. at the Final examination. Prizes of £50 each may be awarded for the best students (not over 25 yrs. of age) in Sections (2) and (3), and a Studentship of 100 gs. p.a. tenable for 3 yrs. to the best student (not over 25 yrs. of age) at the Final examination. The Inn to which a student who has obtained a Studentship or Certificate of Honour belongs may, if desired, dispense with any Terms, not exceeding 2, that may remain to be kept by him.

Calls to the Bar. Minimum age, 21. In special circumstances the Masters of the Bench may dispense with the keeping of not more than 2 of the 12 terms ordinarily required to be kept by a student before he is called, and special concessions in regard to the keeping of terms or examinations, etc., are allowed to Scottish Advocates, Irish Barristers, members of the Bar of New South Wales, Ceylon, the Cape Province of South Africa, New Zealand, Vakils who have been on the Roll of Vakils of a High Court in India for not less than 3 years, certain Civil Servants exercising judicial functions abroad, and to persons who, prior to admission as students, have practised as Solicitors for 5 yrs subsequent to admission as a solicitor in England

Fees On admission application, I g., stamp duty, £25; lecture fee, 12 gs., admission fees, £20 or £21. On Call. stamp duty, £50; composition for annual dues, £12, call fees, £38 (Gray's), £40 (Lincoln's), £50 (Middle or Inner).

#### SOLICITORS IN ENGLAND AND WALES

Examinations are held by the LAW Society, Chancery Lane. London, W C.2. All persons, except some Colonial Solicitors, are subject to Final examination at conclusion of service under Articles before they can be admitted as Solicitors. Subjects of Foreign States cannot be admitted. English Barristers of 5 yrs.' standing are not required to enter into Articles, but may be admitted after passing the Final examn Before entering into Articles of Clerkship (under the Solrs. Act. 1877) with a view to admission as Solicitors it is necessary, except for persons exempted, to pass a Preliminary examn. (fee, £4) held in London and several provincial towns in Feb., July, and Oct., in English, Elem. Maths, Geog. of Europe, and Hist of England, Latin, and one or (if Algebra and Elem. Geom. are not taken) two of the following-Latin translation, Greek, French, German, Spanish, Italian. Exemption is allowed to graduates in Arts or Laws and persons who have passed matrica or other corresponding examns, of any Univ. of Great Britain or Ireland or examns. exempting therefrom, to Utter Barristers in England, and to persons who have passed Oxford Responsions or Cambridge Previous Examn. or any examn. exempting therefrom, or, subject to provisos, approved School Certificate or Higher Certificate examns., or certain other examns.

Service under Articles (stamp duty, £80) is normally for 5 yrs. may be reduced to 3 yrs, for graduates in Arts or Laws or Science of any Univ. of the U.K., English Barristers, of less than 5 yrs.' standing, or for members of the Faculty of Advocates. Writers to the Signet and Solrs, in the Supreme Courts of Scotland, or Procurators before any of the Sheriff Courts of Scotland.

An Intermediate examn. (fee, £6), which may be taken after completing 12 months' service, is held in March, June, and Nov. Exemption from the Legal portion (but not from the Trust Accounts and Bookkeeping portion) is given to those who (1) before or after entering into Articles have passed the examn for the B.C.L or LL B. at any of the Univs. of England (except Bristol) and Wales or at the Univ. of Dublin; or (11.) before entering into Articles have taken Honours in the Final Honour School of Jurispr at Oxford or in the Law Tripos at Cambridge Exemption from the whole of this examn in consideration of circumstances connected with the war is obtainable under certain conditions (v. sec 2 of Solrs Act, 1918).

The Final examn. (fee, 10 gs.) is held in March, June, and Nov. Prints of the Questions set at this and at the Interm. are obtainable from the Law Society.

THE SOLICITORS ACT, 1922. Section 2 provides that a person articled to a solicitor after Dec 31, 1922, shall not be admitted to the Final Examn, unless he satisfies the Law Society that he has, during a period of one year, complied with the requirements of the Society as to attendance at a Law School provided or approved by the Society. This does not apply to any person who (1) has taken a degree at any Univ. in the U.K., after passing a Final Examn, in law at such Univ.; or (2) applies to be admitted to the Law Society's Final Examn after satisfying the requirements of Sect 4 of the Solrs. Act, 1860. Any person may be wholly or partially exempted from attendance at a Law School if he can satisfy the Law Society that such attendance is for geographical or other reasons impracticable

Provided and Approved Schools. The Society's Law School in London, the Univs. of Birmingham (in conjunction with the Birmingham Board of Legal Studies), Bristol, Cambridge, Durham (Armstrong College), Leeds, Liverpool (in conjunction with the Liverpool Board of Legal Studies), London, Manchester, Oxford, Sheffield, Wales (Univ. Colleges, Aberystwyth, Bangor, Cardiff, Swansea), Univ College, Exeter, Univ. College, Southampton, East Midland Law School (Univ.

Colleges of Nottingham and Leicester).

# MEDICAL AND DENTAL QUALIFICATIONS AND STUDIES

## A. MEDICAL QUALIFICATIONS

Address of the Registrar, General Medical Council—44 Hallam St., Portland Place, London, W.1. Telegrams—Genmedicum, Eusroad, London. Telephone—Langham 2500. Addresses of Registrars of Branch Councils—12 Queen St., Edinburgh, 35 Dawson St., Dublin.

No person is recognized by law as a duly qualified Medical Practitioner in Great Britain or Ireland whose qualification is not registered in the books of the General Medical Council. Below are lists of the qualifications so registrable—obtainable (a) in Great Britain and Ireland, (b) in British Possessions overseas, (c) in foreign countries. The document presented in evidence of any of these must show that the possessor has passed a Qualifying examn. in Medicine, Surgery, and Midwifery. For registration in the Colonial or Foreign list it is essential that the qualification be first registered in the Province, State, etc., in which it was obtained.

Position of Doctors with Irish Qualifications. Persons who obtain recognized qualifications in the Irish Free State can register there, and should do so if they desire to practise in that State. They are also entitled to registration on the Medical Register if they desire to practise elsewhere than in the Free State

Coll or of a private special Med. Coll. designated by a Minister of Educn. of the Empire of Japan.

#### B. REGISTRATION OF MEDICAL STUDENTS

The Regulations (including the modifications which came into force on Jan. 1, 1923), obtainable from the Registrar, 44 Hallam St.,

London, W.I, post free is, prescribe Registration of Medical Students within 15 days of the commencement of their professional studies. For this purpose they should apply in the prescribed form, obtainable from any of the Registrars (v. supra), submitting evidence of having—(a) attained the age of 17, (b) passed a Preliminary examn. in General Education recognized by the Council; (c) passed also an examn. in Elementary Physics and Elementary Chemistry conducted or recognized by one of the Licensing Bodies, (d) commenced Medical study at an approved Univ. or Medical School

As regards (b) the Council recognizes no examn which is of standard lower than that of Univ. Matrice examns, in the faculties of Arts and Pure Science, and requires that the examn certificate shall bear evidence that the candidate has passed in English, Elem Maths., a language other than English, and an additional subject or subjects as required by the regulations of the particular examn, to be chosen from the subjoined list, viz. Hist., Geog, Physical Sc, Nat Sc, Latin, Greek, Hebrew, French, German, or other language accepted by the Univ. for the purpose. Applicants from one of the recognized Colonial Univs. must produce evidence that they have passed the complete Matrica examn for the faculty of Arts or of Science (Pure) of the Univ or College from which they come, or an examn accepted as equivalent thereto, and that the examn passed is accepted by one of the Univs of Great Britain or Ireland for similar purposes. Applicants from one of the recognized Indian Univs must produce evidence that they have passed the Matrica examn of the Univ. from which they come, or an examn recognized as equivalent thereto, and, in addition, the Preliminary Scientific or Intermediate examn. in Arts or Science of their own Univ. Applicants from Foreign Univs should submit their credentials to the Registrar.

As regards (c), this requirement is not dispensed with in cases where Physics and Chemistry of a Matrici standard formed part of the (b) examine, but an applicant from one of the recognized Colonial Univs. or Colleges is permitted to substitute for it a certificate that an examining Physics and Chem. (and, in addition, Biology, v. infra) equivalent in standard to the First Professional examining these subjects has been passed by the student—Similarly, in the case of an applicant from one of the recognized Indian Univs. the Preliminary Scientific or Intermediate examining Arts or Science of his own Univ. will suffice if these subjects are included in his Pass certificate.

As regards (d), institutions in which Medical Study may be commenced include all the Univs. and other Bodies throughout the Empire of which the qualifications (v. supra) have been recognized as entitling to registration in the U K.

A student who has diligently attended an approved course of instruction in *Elementary Biology* at a Secondary school or other teaching institution recognized by a Licensing Body may be admitted to the Professional examn. in this subject immediately after his registration as a student.

# C. DENTAL QUALIFICATIONS

Under the Dentists Act, 1921, no person who is unregistered can practise dentistry without rendering himself liable to prosecution.

The Dental Board of the Umted Kingdom was constituted by the Dentists Act, 1921, and is charged with the duty of dental registration. The address of the Registrar is 44 Hallam St., London, W.I. Telegrams—Dentiboard, Eusroad, London. Telephone—Langham 2501.

The following lists show the registrable qualifications obtainable (a) in Great Britain and Ireland, (b) in British Possessions overseas.

(a)

Royal College of Surgeons of England—L.D.S, R.C.S. Eng Royal College of Surgeons of Edinburgh—HDD, LDS, RCS

Royal Faculty of Physicians and Surgeons of Glasgow—H D D, L.D S, R F P S Glas

Royal College of Surgeons in Ireland-L D S, R C S Irel.

Univ of Birmingham-MDS, BDS, LDS U Birm

Univ of Bristol—MDS, BDS., LDS U Brist.

Univ. of London-BDS., MS. (Dent) U Lond

Victoria University of Manchester—MDS, BDS, LDS V.U. Manc.

Univ. of Sheffield-MDS, BDS, LDS U. Sheff.

Univ of St Andrews-LDS U St And

Univ of Dublin-M D Sc, B D Sc, L D Sc U Dubl

National Univ of Ireland—MDS, BDS NU Irel

Queen's Univ of Belfast-MDS, BDS, LD.S Q.U Belf.

(b)

Victoria, Australia-L D S Vict.

Univ. of New Zealand-BDS UN Zealand.

Univ. of Sydney-BDS U Sydney.

Univ. of Melbourne—B D Sc., D D.Sc. U. Melb.

#### D. REGISTRATION OF DENTAL STUDENTS

I. Registration is carried on at the Council Office in London in the same manner as that of Med students, and is subject to the same regns as regards age and Prelim. examns, but professional study may commence by pupilage with a Registered Dental Practitioner.

II. Candidates for a Diploma in Dental Surgery should produce certificates of having been engaged in professional studies for at least 4 years, including 3 years at least at a Dental school or schools recognized for professional study by one of the Licensing Bodies, and of having received for not less than 24 calendar months, or for 2000 hours, practical instruction in Dental Mechanics.

III. Two years' bona-fide apprenticeship with a Registered Dental Practitioner, after being registered as a Dental student, may be counted

as I of the 4 yrs of professional study.

IV. The necessary instruction in Dental Mechanics, or any part of it, may be taken by the Dental student either before or after his registration as a student. When he can show evidence of regular pupilage in Dental Mechanics to a Registered Practitioner, prior to passing the prescribed Preliminary and Scientific examns., he may be allowed to antedate for a period not exceeding 1 yr. prior to the passing of these examns.

V. It is recommended that instruction in Dental Mechanics be taken at a recognized Dental Hospital or School. If any part of such instruction be taken by the candidate as a pupil with a Registered Dental Practitioner, the time required to be devoted to it will be at least twice the time required for the corresponding instruction taken at a Dental School

Schools at which Dental Study may be commenced. Birmingham D Hospl; Bristol, Royal Infirmary, Genl Hospl.; Dublin, D. Hospl of Ireland; Dundee D Hospl; Edinburgh D Hospl; Glasgow D. Hospl., Leeds D. Hospl., Liverpool D. Hospl.; London, Guy's Hospl. D. School, London Hospl. D School, Univ. Coll. Hospl D. School, Royal D Hospl.; Manchester D Hospl., Newcastle-upon-Tyne D. Hospl, Sheffield Royal Hospl.; Roy. Coll of Surg in Ireland, D. Department of any Univ. of the UK.

#### E. RECIPROCAL RECOGNITION

The States, Presidencies, and Provinces in which the registrable medical qualifications specified under A (b), (c) are granted, all allow practitioners with qualifications registered in the U K to register without further examn. There are also other Colonies, eg Tasmania, which recognize British qualifications, but in which at present no qualifications are granted

[A Report (5th edition publ in Jan. 1921) as to the conditions under which Med. and Dent practitioners registered or legally qualified in their own country may practise abroad is obtainable from the Council Office, price 2s 6d. (post free U.K. 2s. 1od., elsewhere in the Empire 3s. 1d., outside 3s. 4d.). It contains, among other matters, the designations and addresses of the persons to whom application should be made for forms and further information]

#### F. POST-GRADUATION MEDICAL STUDIES

In London, in addition to the General Hospital Medical Schools which provide to a limited extent for qualified practitioners, there are the West London Post-graduate College at the West London Hospital, Hammersmith, with a staff of 37 regular lectrs, and demrs, the North-East London Post-Graduate College at the Prince of Wales' Hospital, Tottenham, and the London School of Clinical Medicine at the Seamen's Hospital, Greenwich, as well as certain special hospitals where excellent

arrangements are made for post-graduate work in particular subjects The Fellowship of Medicine (I Wimpole St., London, WI), formed in 1918, promotes and advertises the provision of facilities for post-graduation medical study in London. In co-operation with 50 London general and special hospitals, post-graduate courses in all the special departments of medical science are arranged, as well as short intensive courses at regular intervals during the year. Information is given on post-graduation study in Great Britain and elsewhere. Regarding facilities for special research, v. infra

Post-graduate courses are also provided elsewhere, notably at Manchester, Edinburgh, and Glasgow.

# ROYAL COLLEGE OF PHYSICIANS OF LONDON AND ROYAL COLLEGE OF SURGEONS OF ENGLAND

Address of the Secy., Examining Board in England, 8-11 Queen Sq., London, WC1. Applications for admission to the Board's examins should reach the Secy at least 14 days (in the case of the LD.S Professional examins., 21 days) beforehand Agency for the sale of Books of Questions set in past years (9d each)—Taylor & Francis, Red Lion Court, Fleet St., London, EC4

Examinations for the Diplomas of Licence of the R C P. of London and Member of the RCS of England (LRCP., MRCS) are held ordinarily in Jan, April, July, and Oct. Candidates must have passed a Prelim examn in general education recognized by the Board, and must have passed, before commencing the 5 years' curriculum of professional study, a Pre-Medical examn in Chemistry and Physics conducted or recognized by the Board Before admission to the Professional examns. (known as the First and Final) they are required to produce certificates of having pursued the prescribed courses of study and practice The First Professional examn. (fee, 10 gs) comprises: Section I. (a) Anatomy, including Histology and Embryology, (b) Physiology, including Bio-Chemistry, Section II., Pharmacology, Practical Pharmacy, and Materia Medica A candidate who has passed an examn. in the subjects of Section I or of either part of Section I. and of Section II. in the examn, for the degree in Medicine conducted at a Univ. recognized by the Board, will be exempted from further examn. in such subject or subjects. The subjects of the Final Professional Examn. are: Section I. (fee, 4 gs.), (a) Pathology, including Morbid Anatomy, Morbid Histology, Clinical Path., and Bacteriology; Section II.—Part I. (fee, 10 gs), Medicine, including Med. Anatomy, Forensic Med., and Public Health, Part II. (fee, 10 gs), Surgery, including Surg. Anatomy and the use of Surg. Appliances, Part III. (fee, 6 gs.), Midwifery and Gynæcology. A candidate who has passed an examn, for a degree in medicine in the subjects of Pathology and Bacteriology at a Univ. recognized by the Board is exempted from Section I.

Students of recognized Univs. in England, Scotland, and Ireland, who have passed examns. for a degree in Medicine at their Univs. in the

subjects of the First Professional Examn., may enter for the Final at the expiration of three years from the date of passing in Anatomy and

Physiology on production of the required certificates.

Members of certain recognized Indian, Colonial, and Foreign Univs., who have passed examns. for the Degree of Doctor or Bachelor of Medicine or Surgery in the subjects of the First Professional Examn., may present themselves for the Final under special conditions. A holder of the diploma of the National Board of Examiners of the U.S.A. can enter for the Final on producing the required certificates of 5 years' study from one of the Univs. recognized by the Conjoint Board. The Board also grants Diplomas in Public Health, in Psychological Medicine, in Ophthalmic Medicine and Surgery, in Tropical Medicine and Hygiene, and in Laryngology and Otology. Candidates must hold a Medical qualification registrable in the U.K., or be Graduates in Medicine of a recognized Indian, a Colonial, or a Foreign Univ.

The regulations affecting candidates who were registered as medical students before Jan 1, 1924, are given in the 1923 and previous editions of this Yearbook.

For admission to the Membership of the RCP (fee, 40 gs, less Licence fee, if any, already paid) the minimum age is 23, and a candidate must satisfy the Censors' Board as to his moral character and conduct and pass an examn of such nature and extent as may be determined by the Board. If he has not passed the examns required for the licence, he must have obtained at any University a degree of Doctor or Bachelor of Medicine which is registrable by the General Medical Council of the United Kingdom — A candidate who has attained the age of 30, and can produce testimonials sufficient to satisfy the Board, will be permitted to submit published work done by himself in any branch of Medical Science or in General Literature, and may be excused a part or whole of the Examination

Fellows are elected annually from the ranks of the Members of at least 4 yrs 'standing. (For particulars of the Membership of the R C.P. application must be made direct to the Secretary, Pall Mall East, London, S.W I)

Examns for the Fellowship of the RCS are held twice yearly—the 1st Prof. in June and Dec, and the 2nd Prof in May and Nov. Fees, first examn, 8 gs, 2nd, 12 gs, admission to Fellowship (minimum age, 25), 10 gs, for those who are MRCS Eng. and 30 gs for those who are not MRCS. The First examn (in Anat and Physiol) is open to MRCS Eng, and, on production of certain certificates involving work extending over 6 terms or 18 months, to (a) candidates who have passed the First examn, Pt I, for the LRCP. Lond and MRCS Eng, and (b) members of Univs recognized under the Regns of the Board. The Second examn. (in Surgery, including Surg, Anat., and Path) is open, provided they have passed the First, to (a) MRCS. Eng. who have been engaged not less than 6 yrs. in the study or study and practice of the profession, and (b) persons possessing the registrable Surg. and Med. degrees of the under-mentioned Univs, who have been engaged after obtaining such degrees in the study or study and practice of the pro-

fession for 4 yrs., including I yr. spent in attendance upon the Surg. Practice of a recognized Hospl. or Infirmary: the Univs. of the U.K., Dalhousie, Laval, McGill, Manitoba, Montreal, Queen's (Kingston), Toronto, Western (Ont), Adelaide, Melbourne, Sydney, N Z, Bombay, Calcutta, Lucknow, Madras, Panjab, Allahabad, Hong-Kong, Malta, Cape Town, South Africa, Witwatersrand, Italian Royal Univs and Imperial Univ of Japan.

All the above examns, are open to Women, who are also eligible, subject to the provisions of the Medical Act, 1876, and Bye-laws of the Colleges, for the Diplomas of LRC.P, MRCS., and FRCS. (For particulars concerning the Fellowship of the RCS apply to Secretary, Examining Board in England, 8/11 Queen Square, London, WC.1)

# ROYAL COLLEGE OF PHYSICIANS OF EDINBURGH, ROYAL COLLEGE OF SURGEONS OF EDINBURGH, AND ROYAL FACULTY OF PHYSICIANS AND SUR-GEONS OF GLASGOW

Joint examinations, open alike to men and women, are held in Edinburgh (usually in October, January, and July) and in Glasgow (usually in March-April) for the DIPLOMAS IN MEDICINE, SURGERY, AND MIDWIFERY of these three bodies Applications for admission should reach the Inspector—in Edinburgh, D. L. Eadie, 49 Lauriston Place; in Glasgow, W. Hurst, 242 St Vincent St—at least one week before.

Examns for the DIPLOMA IN PUBLIC HEALTH (fee, 12 gs., or for each Part, 6 gs.) are held early in Oct in Edinburgh and early in May in Glasgow.

The R C.P. Edin. may admit to examn for its single qualification—LICENCE—any candidate who has a Surg. qualification recognized for the purpose Fee, 15 gs. Examns held every month, except Sept and Oct. Admission to Membership (minimum age, 24) is by election. Candidates must hold a Licence of a British or Irish College of Physicians or Degree in Med of a Univ. approved by the Council, and pass the prescribed examn. unless exempted by the Council from the whole or part of it in consideration of work in any sphere of Med. adjudged to be of high distinction—Fee, 35 gs., or, if a L.R.C.P. Edin., 20 gs. A member of 3 yrs. standing may be elected Fellow. Fee, 38 gs., and stamp duty, 25 gs. The College has a Library of 100,000 vols. and Research Laboratory.

For admission to the Fellowship of the R.C.S Edin candidates must pass an examn. (fee, £45, or for L.R.C.S. Edin, £35) in: (a) Principles and Practice of Surgery, including Surg. Anat.; (b) Clinical S; (c) one of the following—including clinical or practical as well as written and oral tests—S. Path. and Operative S.; Ophth. S; Aural, Nasal, and Laryng. S.; Obst. S.; Gyn.; Adv. Anat; Dental S. Qualifications for admission to the examn (which is now open to women). minimum age, 25 yrs; 2 yrs' study and practice of the profession after obtaining one of the following, or other approved qualifications

in S.: those of R.C.S. Eng., R.C.S.I., R.F.P.S. Glas.; Surgical degrees of the Univs. of the U.K. and Canada, Adelaide, Melb., Syd., N.Z., Bom., Calc., Mad., Panj.; L.M.S.S.A. Lond., and L.A.H. Dub. registered under the Med. Act, 1886, and such foreign qualifications as may be approved by the President's Council.

Candidates are not allowed to appear more than three times at the examinations

At the final consideration of the candidate's petition for admission to the Fellowship election is determined by ballot.

Examns. for the LICENCE OF THE R.F.P.S. Glasgow can be arranged at any time of the year, except August. Fee, 15 gs Qualifications for admission. Licence of one of the Colleges of Physicians of the U.K. or Colonies, or of the Soc. of Apothecaries of London or Apothecaries' Hall, Dublin, conferred after passing the qualifying examns. of these bodies; Degree in Med. of a Univ. of the British Empire.

Examns. for the Fellowship of the R.F.P.S Glasgow are held in Jan, April, July, and Oct. 14 days' notice required. Admission to the Fellowship (fee, £50, or for L.R.F.P.S., £40) is either by examn and subsequent election by ballot or by election in virtue of high distinction in Med. Science or Practice of persons not less than 40 yrs of age who have been qualified for at least 10 yrs. Not more than 4 Practitioners are admitted by the latter method annually. Candidates must be proposed by 2 Fellows of the Faculty.

All examns of the R F.P.S are open to women as well as to men.

# ROYAL COLLEGE OF PHYSICIANS AND ROYAL COLLEGE OF SURGEONS IN IRELAND

Address of Committee of Management of the Conjoint Board—Royal College of Surgeons, Stephen's Green, Dublin. Registrar of the R C.P.—6 Kildare St., Dublin.

Professional examns. for the Licences in Medicine, Surgery, and Midwifery are held by the Conjoint Board in spring, summer, and autumn. Candidates must comply with the requirements of the Gen. Med. Council (v. supra) re Prelim. examn and Registration of students. The First Professional Examn (fee, 25 gs) comprises Anatomy, Physiology, and Histology. The Second (fee, 10 gs): Pathology, Materia Medica and Pharmacy, Therapeutics, Forensic Medicine and Public Health The Final (fee, 6 gs): Medicine, including fevers, Mental Diseases and Diseases of Children; Surgery, including Operative and Ophthalmic, Midwifery and Gynæcology, Vaccination, and Diseases of New-born Children.

Institutions recognized for instruction in subjects of the First examn. include numerous schools in the U.K., and also the Univ. of Cape Town and the Witwatersrand Univ., Johannesburg. Institutions recognized for certification of studies include: in Canada—the Univs. of Dalhousie, Laval, McGill, Toronto, Trinity Coll and Vict. Coll., Tor.; Bishops' Coll., Montreal; R.C.P.S., Kingston; Trinity Med. Sch.; in Australia

—Univs. of Melb and Syd., Adelaide Infirmary, Melb. Hospl., Alfred Hospl., Syd. Infirmary, Prince Alfred Hospl., Genl Hospls. of Hobart and Launceston; in N.Z.—Dunedin Hospl.; in Cape Town—S. African Coll.; in India—Med. Colls. of Bengal and Madras; the Ceylon Med Coll.

Candidates who have passed in any of the required subjects at examns, conducted by any Licensing Body recognized by the R.C.P

and R.C.S. may be exempted from further examn therein.

Examns. for the LICENCES OF THE R C P.I are held early in Feb., May, and Nov., and at specially appointed times. That for the Licence in Medicine (fee, 15 gs, or for Special examn, 20 gs) comprises Practice of M, Clinical M., Path, Med Jurispr, Midw., Hygiene, Therap. is open to a Registered Med. Practitioner of the U.K. or on the Colonial or Foreign List of the Gen Med. Council if the College be satisfied as to his character and his courses of study and examns. passed by him. The examn, for the Licence in Midwifery (fee, 8 gs, special, 12 gs) is open to Registered Med. Practitioners: (a) of the U.K. who have (1) obtained the Lic in Med of the College or have passed the examn therefor, or (11) satisfied the College as to character and as to course of study pursued and examns passed, (b) of 5 yrs.' standing who have so satisfied the College. Entrants under (b) are exempt from the examn. by printed questions. Applications for particulars should be forwarded to the Registrar, Royal College of Physicians of Ireland, 6 Kildare Street, Dublin.

Examns, for MEMBERSHIP OF THE R C P.I are held in Feb, June, and Nov, and at specially appointed times Applications for admission should reach the Registrar by 2nd weekin Dec, Apr, and Sept. Fee, 35 gs, or for L R.C P I, 20 gs; extra for Special examn, 10 gs The examn is open to Registered Med. Practitioners. (a) who have held for at least a year a Licence in Med of a College of Physicians of the UK, or a degree (B. or D) of any Univ. in the Empire recognized for registration purposes by the Gen. Med Council; or (b) who hold a foreign qualification, entitling to practise Med and Surg. in their own countries, obtained after a course of study deemed by the College to be satisfactory. The testimony of a fellow or member of the College or a FRCP. Lond. or Edin as to professional conduct and moral character is also required The Diploma of membership carries with it the Licence if this has not been already obtained. Exemption from part of the examn may be allowed by the Court of Examiners on a consideration of evidence that a candidate has "improved the Art or extended the Science of Medicine"

For admission to the Fellowship of the R.C P I. (fee, £35, stamp duty, £25) the candidate must have been a member of the College for

1 yr Minimum age, 27. It is open to women.

The R C.S I holds examns. (fee, 5 gs) for a LICENCE IN SURGERY at the same times as those of the Conjoint Board. They are open at the discretion of the Council to Registered Med. Practitioners who have passed through a course of study and examns. equivalent to those required by the Conjoint Board and an examn. in Arts recognized by the Gen. Med Council Fee for Licence, 25 gs, including 5 gs. examn. fee.

The R.C.S.I. also holds examns, for a DIPLOMA IN MIDWIFERY. Candidates must have a registrable qualification and produce certificates of attendance at Lectures, 6 months' Hospital practice and conduct of 30 labour cases. Fee, 15 gs.

The examn. for the Fellowship of the R.C.S I. is in 2 parts. Fee for each, 5 gs. For admission to the Final part a candidate must be a Licentiate or Graduate in Surg of a Univ or licensing body recognized by the Gen Med Council. Minimum age, 25. Fee on admission to Fellowship, 40 gs., or for Licentiate of the College, 25 gs.

## THE SOCIETY OF APOTHECARIES OF LONDON

Incorporated by Royal Charter, 1617. Address—Water Lane, Queen Victoria St., London, E.C 4.

Examinations for the Diploma of Licentiate in Medicine, Surgery, and Midwifery (L M S S A) are held in London, the Pre-Medical Examn. in Chem and Physics and the Primary examn (fee, 5 gs) in Materia Medica and Pharmacy, Anatomy, Physiology, and Histology in Jan, April, July, and Oct, the Final (fee, 15 gs), monthly, except in Sept. For admission to either, certificates are required, showing in detail the course of Medical study pursued by the candidate with particulars of instruction received, practice and operations performed, and offices held The course covers 5 yrs from the date of registration as a medical student. Exemption from the Primary subjects may be obtained by proving that equivalent examns, recognized by the Society have been passed.

# THE ROYAL COLLEGE OF VETERINARY SURGEONS

Address—10 Red Lion Sq, London, W.C. i. Affiliated Colleges—Royal V. College, Camden Town, London, N.W.I; The V. School of the University, Liverpool, Royal (Dick) V. College, Summerhall, Edinburgh; The V. College, Buccleuch St., Glasgow, The V. College of Ireland, Ballsbridge, Dublin

A candidate for the *Membership* must, after passing one out of a list (similar to that of the Gen Med. Council, v. supra) of recognized Preliminary Educational examns, attend courses in one of the Affiliated Colleges during 4 yrs as follows: 1st year (from which exemption is given under certain conditions to graduates in Arts, Science, or Medicine): Anat. of Domestic Animals; Chem and Elem. Physics; Biol, Elem. Zool., and Botany. 2nd year. Anat. of Dom. Animals; Physiol. and Histol; Stable Management, Shoeing, etc. 3rd year: Path., Bact., and Protozoology; Mat. Med., Tox, and Practical Pharmacy; V. Hygiene and Dietetics 4th year: Principles and Practice of V. Med. and V. Surg. and Obst.; Meat Inspection. An examn. (fee, £5) is held at the end of each year's course

Qualifications for Fellowship: 2 yrs.' practice after obtaining the membership, and a thesis on results of original research followed by

oral and, if deemed necessary, written and practical examns. Fee,

15 gs.

For admission to the examn. for the *Diploma in V. State Medicine* it is necessary after graduation as M.R. C.V.S. to take a special course at a V. School and undergo training under a County or Municipal V Inspector. Fee, £5:5s

Students of Vet Science who register as matriculated students of London or Edinburgh Univ may sit as Internal students for the Degrees of B Sc and D Sc in Vet Science. Matriculated students of the Liverpool School are eligible to take the examins for the Degrees of B.V.Sc and D.V.Sc. Holders of the Diploma of M.R.C.V.S are also eligible, after taking a special post-graduate course at the Univ of Liverpool, for the Diploma in Vet Hygiene (D V H), and after a post-graduate course at the University of Manchester for the Diploma in Veterinary State Medicine

#### THE ROYAL SANITARY INSTITUTE

Founded 1876. Incorporated 1888 Address — 90 Buckingham Palace Road, London, SW 1. Branches in S Africa, New Zealand, and New South Wales, and Examination Boards in all parts of the British Dominions.

The Institute is a composite body, representative of the various sciences allied to samitation and public health, and its members (nearly 5000) include Medical men. Engineers, Architects, Municipal Officers, etc.

Qualifications for (1) Membership: evidence of attainments of standard indicated by certain of the Inst's own certificates, a Degree of a University, or Diploma of a Medical Corporation recognized by the Council, San Science certif of Surveyors' Instin. Testamur of the Instin. of Munic and County Engineers, and membership of certain other professional bodies, (2) Associateship one of the Inst's certificates or other evidence of attainments of similar standard. Annual Subsin for Members, 1½ to 2 gs., Associates, 15s to 1 g. Fellows are elected from Members of at least one year's standing. Authorized signatures M. R. San I., A. R. San I.

Examinations held by the Institute (fee, 4 to 5 gs) (1) Inspectors of Meat and Foods; (2) Smoke Inspectors, (3) Samtary Science as applied to Buildings, etc., (4) Health Visitors, (5) Maternity and Child Welfare Workers, (6) School Hygiene, including Elem. Physiol.; (7) Tropical Hygiene for Inspectors. The Institute's Certificates (Cert. R.San I) are well known throughout the United Kingdom and the Overseas Dominions, and are recognized by Public Authorities as qualifications for appointments.

The examns are held in London and in numerous other towns in the U.K. and in Canada, Australasia, S. Africa, Hong-Kong, West Indies, Straits Settlements, and Mauritius. Examns. for San. Inspectors are held in Bombay and Rangoon in co-operation with the Local

Governments.

Courses of Lectures and Demonstrations are held in London in

spring and autumn. Fees, 5 to 6 gs

The Parkes Museum, founded 1876, became part of the Inst. in 1888. It serves as a public demonstrating school. The Inst. has a large Library, including many foreign works—Sessional meetings, about ten yearly, are held in London and other large towns.

Congresses and exhibitions have been held almost every year since

1877

Publications Journal, monthly, and numerous pamphlets.

# ROYAL INSTITUTE OF PUBLIC HEALTH

Founded 1886 Incorporated 1892 Address --- 37 Russell Square, London, W C 1

The Institute provides courses of Instruction qualifying for admission to the examinations for the Degrees and Diplomas in Public Health of all the Univs and Medical Corporations. Fees for Laboratory Instruction. 6 months, 34 gs., P.H. Admn., 15 gs., Fever Hosp. Admn., 4 gs., Special Lab. Fees., Chem. or Bact., monthly, 6 gs., 3 months, 15 gs... Courses of free lectures are also given in the Lecture Hall of the Inst. Special lectures open to Fellows, Members, and Students. Subscription, 1 g. p.a. Registration Fee, 1 g.

The Laboratories are recognized as a place of research in connexion with the Beit Memorial Fellowships Researches and Clinical Examns are undertaken for Public Bodies and Med Practitioners. Culture

media of all descriptions are supplied

Reference Library containing all important PH Works, Govt. Reports, etc

Publication Journal of State Medicine, monthly, 2s

#### INSTITUTE OF HYGIENE

Founded 1903 Address—28 Portland Place, London, W 1.

Examinations for Certificates and Diplomas (advanced) are held at various universities throughout the U.K on the second Saturday of Jan and of June each year Subjects: General Hygiene, School H, Mothercraft and Child Welfare Fee, I g to 2 gs Complete syllabus with list of Text Books, Is Specimen questions, Id

The Certificate and Diploma in General Hygiene qualify for nomina-

tion as Associate and Member (M I.H) respectively of the Inst.

Public Lectures are regularly given throughout the year in the Lecture Hall. The Inst has Laboratories for analytical and bacteriological investigation, and a Museum of Hygiene open to the public free throughout the year.

# XII

#### THE INSTITUTION OF MINING AND METALLURGY

Founded 1892 Incorporated by Royal Charter 1915 Objects: Advancement of the Science and Practice of Mining in respect of minerals other than coal and of Metallurgy in respect of metals other than iron; and to afford a means of facilitating the acquisition and preservation of that knowledge which pertains to the profession of a Mining Engineer and Metallurgist Address—Cleveland House, 225 City Road, London, E.C. Telegrams—"Minanmet, Barb, London."

Qualifications for Membership (M.Inst.M M.): minimum age, 30, having been for at least 5 yrs in full charge of important mining or metallurgical operations or in practice as a Consulting Mining Engineer or Metallurgist; if born after Dec 31, 1894, a regular course of at least 3 yrs' study in pure or applied science. Qualifications for Associateship (Assoc Inst M.M). minimum age, 25, having been engaged in mining or metallurgical pursuits for not less than (a) 2 yrs if a graduate of the RSM or other mining college or school of equivalent standing; (b) 3 yrs, or such longer period as Council may determine, if a graduate of some other college or school, (c) 6 yrs in other cases The minimum age for admission as student is 18. A candidate for either Membership or Associateship must be actually practising his profession at the time, and must satisfy the Council as to his fitness for admission. The Council may elect a candidate as Member in consideration of his position and attainments in Science or Technology. Entrance fee and annual subsn tor Member, 5 gs each; Assoc, 3 gs. Students pay subsn., 1 g. (over 25—11 g) p a and no entrance fee

General meetings for discussion of papers monthly, Oct-May. Large Library, reading- and writing-rooms. Publications Bulletin, monthly (£1:11:6 p a), and Transactions annually (£1:11:6 p vol.), may be purchased by non-members. Gold medals, etc, are awarded by the Instn for promoting its objects The Instn is closely associated with the Royal School of Mines. Secretary: Charles McDermid.

# EMPIRE COUNCIL OF MINING AND METALLURGICAL INSTITUTIONS

At an Empire Mining and Metallurgical Congress held at the British Empire Exhibition, 1924, it was resolved to form a Council to promote intercommunication and co-operation between the constituent institutions, to create and maintain a higher standard of technical efficiency and professional status, to convene future Congresses, etc. Secretary-General—Charles McDermid. Address—Cleveland House, 225 City Road, London, E.C.I.

#### INSTITUTION OF MINING ENGINEERS

Established 1889 Incorporated by Royal Charter 1915. Address—Cleveland House, 225 City Road, London, E.C.1. Telegrams—"Instimini, Phone, London."

The Institu.'s objects and purposes are "the advancement of coal and iron-ore mining and allied industries, and the promotion of the acquisition of the knowledge necessary for the control and direction of mining operations in relation to stratified deposits" It is a federation of the Manchester Geol. and Mining Soc.; the Midland Counties Institute Engineers; the Midland Institute of Mining Engineers; the Mining Inst of Scotland, the North of England Inst of Mining and Mech. E.; the North Staffs. Inst. of Min. E., and the South Staffs. and Warwickshire Inst. of Min. E. Membership of the Institution is obtained by nomination through the Council of one or other of the Federated Institutes

Conditions of admission to membership since Jan. 12, 1916, include (a) regular education and training as a Min E, and 5 yrs.' work in a responsible position in practical Mining, or (b) First-Class Certif of Competency under Coal Mines Act, and tenure of post as Manager, Asst. Manager, Under-Manager, or Chief Surveyor; or (c) position or attainments rendering his membership desirable in the opinion of the Council. There are Hon. Members, Members, Associate Members, Associates, and Students

Publications. Transactions (in which are included proceds of Federated Insts. as well as those of the Instn. itself), 75 vols. Price to non-members, 36s each for current volumes, back volumes at varying rates. Authorized signatures: M.I.Min.E.; Assoc M.I.Min.E., etc. Secretary. Charles McDermid

## THE IRON AND STEEL INSTITUTE

Founded 1869 Incorporated by Royal Charter 1899. Address—28 Victoria St, London, S.W 1.

Qualifications: (1) for Membership—minimum age, 21, being practically engaged in iron or steel works or being a person of scientific attainments in metallurgy or specially interested in the applications of iron and steel. Entrance fee, 2 gs, annual subsn, 3 gs (if resident abroad,  $2\frac{1}{2}$  gs). (2) For Associateship—maximum age, 24; being (a) Student of Metallurgy taking a course at a Univ., Univ. College, or Tech. School, or (b) pupil or apprentice in metallurgy or engineering, or (c) employed in some practical or scientific capacity in met. or engin. works. Annual subsn., 1 g. Initials denoting membership, M.I.S.I., A.I.S.I.

Meetings in May and Sept. for reading and discussion of papers. Library, reference and lending; printed catalogue. Information Bureau; service not restricted to members. Carnegue Research Fund—£20,000, interest on which is used for grants to assist metallurgists and students in conducting researches

Williams Prize Fund—£3000, interest on which is applied as a money award for the best practical paper, on manufacture or treatment of iron or steel, presented in any one year

Publications Journal in 2 vols. annually; Carnegie Scholarship Memoirs, I vol. annually.

#### THE INSTITUTE OF METALS

Founded 1908. Incorporated 1910. Address—36 Victoria St, London, SW 1

Local Sections in Birmingham, Glasgow, London, Newcastle-on-Tyne, Swansea, Sheffield

Qualifications for Ordinary Membership (M Inst Met). minimum age, 23, occupying a responsible position, being either engaged in the manufacture, working or use of non-ferrous metals and alloys, or a person of scientific, technical or literary attainments connected with or interested in the metal trades or with the application of non-ferrous metals and alloys. Limits of age for Student Members, 18-23 Entrance fee and annual subsin for Ordinary Members, 2 gs and 3 gs. Students, I g and I g Associate members of local sections pay a nominal subscription and do not receive the Journal. Fellows (F Inst Met) are limited in number to 12 They are chosen by Council for having rendered eminent service to the Associa

The Inst aims at "the advancement of the non-ferrous metals industry and the associated sciences," by the co-operation of manufacturers, users and scientific investigators. It concerns itself rather with the manufacture and working of metals and alloys and with their properties and modes of treatment and testing, than with the production of metals from their ores. The leading features of its work are the holding of sessions in the spring and autumn and an annual "May lecture" given by some acknowledged master of his subject, in addition a special "Practical lecture" is given annually in the autumn by an expert non-ferrous technician.

The Journal contains in addition to the proceedings of all the meetings abstracts and reviews of all the more important current publications, British and foreign, bearing upon non-ferrous metals. Price to non-members, £3:5s for the two annual vols (post free).

Library with all the current journals of interest to those concerned with metals

Research is encouraged, directed, and even undertaken by means of a series of special committees, the most important being the Corrosion Research Committee, which began its work in 1910, and after receiving substantial help from the Govt. Dept. of Scientific and Industrial Research was augmented by the addition of representatives of several Govt. Depts. and Professional Institus.

## INSTITUTION OF PETROLEUM TECHNOLOGISTS

Incorporated 1914. Address—Aldine House, Bedford St., Strand, London, W.C 2.

Conditions of admission .

A. To Membership (M.Inst P.T.) Candidates (a) must (1) be not less than 28 years of age, (2) have received a good general and scientific education, (3) have held for at least 5 years a responsible post in petroleum technology, or (b) must be in the opinion of the Council fit and proper persons to belong to the institution

B To Associate Membership (A M Inst.PT) Candidates must (1) nave received a good general and scientific education, (2) have had at

east 2 yrs.' practical experience as petroleum technologists

Annual subscriptions: Students I g., Associates 2 gs, Assoc.

nembers 2½ gs, Members 3 gs

Publications. Journal, bi-monthly, 7s. 6d. (free to members). Rules, etc., 4s. The Petroleum Industry, 2s. 6d. List of Members, is. 6d. Report of Standard Methods of Testing of Petroleum and its Products, 3s (New revised edition will be published shortly)

# XIII

# THE CHARTERED INSTITUTE OF PATENT AGENTS

Founded 1882 Incorporated by Royal Charter, 1891 Address—staple Inn Buildings, London, W.C.1.

Under the Patents and Designs Acts, 1907 and 1919, it is illegal o practise as a Patent Agent without being duly registered. The legister of Patent Agents is kept by the Institute in accordance with he Board of Trade's Rules of 1920

Examinations are conducted or recognized by the Inst for the two urposes of Registration of PA's and the admission to the Inst of ellows, Associates and Students

The Inst recognizes as Preliminary examns those of Matricn. tandard

The Inst. holds each year (i) Intermediate (fee, 2 gs.), and (11) Final kamns (fee, 3 gs.), qualifying for Registration Latest date for entry, larch 7 Subjects of (1). A. Patent Law and Practice, Designs, rade-marks, Foreign Law, the reading of Mechanical Drawings; Manufactures, Science, and the preparation of Mechanical Drawings ubjects of (11). A Preparation of Specifications for British Colonial and Foreign Patents, B. Interpretation of British Specifications, candidate for admission to (i) must have passed one of the approved relim examns, and (a) have served 3 yrs as a pupil or technical asst. In one or more registered P A's or (b) have so served for 2 yrs. and tended a 2 yrs.' course at an approved Tech. Coll. or had 2 yrs.'

approved practical experience, or (c) have so served for 1 yr. and taken a degree at a Univ. of the U.K or attended a 3 yrs 'course at an approved Tech. Coll. or had 3 yrs.' approved practical experience; or (d) have served in the Patent Office for 5 yrs. as a member of the Examining Staff (Patents), or (e) be entitled to practise as a Solicitor or (Scotland) Law Agent.

Candidates for admission to (ii) must have passed (i) and have served as above for a period of 2 yrs in excess of term prescribed under (a), (b), or (c) above, as case may be, or be entitled as in case (e)

Minimum age for membership of the Inst—25. Other qualifications: For Fellowship, (a) having ceased to be an Associate by reason of being in practice on own account as PA, (b) having passed Final examn.; (c) special dispensation in case of candidate specially approved by the Council. For Associateship (not applicable to person registered as a PA), (a) being qualified and able by reason of connexion with the Law, Science, or the Arts, to advance the objects of the Inst., (b) being pupil or asst of 3 yrs 'standing of a Fellow or a Student attached to the Inst and having passed Interm Examn For Foreign Membership; having been established in practice as PA, for a sufficient time not less than 3 yrs in a British Colony or Dependency or in a Foreign Country and neither having an office nor practising in the U.K.

Minimum age for "Studentship"—18 Other qualifications: being an articled pupil of a Registered PA and having passed an approved

Prelim examn

Fellows may use the initials CPA after their names

Entrance fee for Fellow, 3 gs., Assoc, 2 gs; Foreign Members, 2 gs, Student, 1 g Annual subs: for Fellow, 3 gs, for Foreign Members, 2 gs; other classes, 1 g

# XIV

# PHARMACEUTICAL SOCIETY OF GREAT BRITAIN

Address-17 Bloomsbury Sq., London, W.C.1.

Examinations (open to women as well as men) are held in London and Edinburgh in Jan, April, July, and Sept or Oct—the Preliminary Scientific examn (fee, 6 gs) followed by either the Chemist and Druggist Qualifying examn (fee, 12 gs), for registration under the Pharmacy Act, 1868, or the Pharmaceutical Chemist Qualifying examn (fee, 12 gs, April and July) for registration as Pharmaceutical Chemist (Ph.C.) under the Act of 1852. No person can enter for the Preliminary Scientific examn who is not a Registered Apprentice or Student, and this involves passing in four specified subjects at not more than 2 approved preliminary examns of Matriculation standard

The Society's School is recognized by the Univ. of London as a School of the Univ. in Pharmacy, and the Dean of the School is Univ. Prof. of Pharmaceutics.

# XV

#### INSTITUTE OF PHYSICS

Founded 1918 by co-operation in the first instance of the Physical, the Faraday, and the Optical Societies, and incorporated under the Companies' Acts in 1920. Other participating Societies are: The Royal Meteorological Society, the Royal Microscopical Society, and the British Institute of Radiology. Address—I Lowther Gardens, Exhibition Rd, London, SW 7

Corporate members consist of two classes: Associates (A.Inst.P.) and Fellows (F.Inst P). Qualifications for Associateship include the passing of an examn. held by the Institute or a recognized equivalent examn.; and, in addition, a year's approved research or manufacturing experience. The examn may be dispensed with in the cases of candidates with qualifications approved by the Board. A candidate for Fellowship has, in addition to his academic qualifications, to show a total record of 5 years' experience either in research or manufacture or in any position requiring a thorough knowledge of Physics Entrance fees, I g. and 2 gs. Annual subsns. I g. and 2 gs. All classes of membership are open to women on the same terms as to men.

An Appointments Register and a Panel of Consulting Physicists are maintained.

A series of Lectures on "Physics in Industry" was instituted in 1922. Part I, published by Henry Frowde and Hodder & Stoughton in their "Oxford Technical Publications"; II, III., IV, and V, Oxford Univ. Press. The Institute produces the monthly Journal of Scientific Instruments in co-operation with the National Physical Laboratory (price 2s 6d, subscription 30s. pa, payable to Cambridge Univ. Press)

#### SURVEYORS' INSTITUTION

Founded 1868 Incorporated by Royal Charters, 1881 and 1921 Address—12 Great George St., Westminster, S.W. 1

Professional examns (fees  $\,$  Interm or Final, 4 gs , Direct Fellowship, 5 gs. , applications receivable in Sept ) are held in March in London, Glasgow, and Dublin, and a Prelim examn (fee, 1½ g.) in Jan in the same places and Manchester

The *Preliminary* (min age, 16) comprises Elem. Maths, Hist, Compn, and one of Latin, French, German, Inorg Chem, Botany, Geol. Candidates are expected to reach the standard of the Oxford and Cambridge School Certificate examn

Candidates are exempt from undergoing the Prelim if they have passed an approved examn of matriculation standard, Inst CE Studentship, Prelim of Inst CA, Law Soc, Auctioneers' and Estate Agents' Inst or Sandhurst or Woolwich

For admission to the (1) Intermediate (min age, 19), a candidate must, unless at an approved place of instruction (see below), be actually engaged in an office where he has opportunities of obtaining practical experience in the profession. The subjects are grouped thus: I chiefly Land Agency, II chiefly Valuation, III chiefly Building or thiefly Quantities, IV chiefly Mining. A candidate may select any one of these subdivisions. For the (11) ordinary Final examination the candidate must have passed the Interm in the subdivision which he takes for the Final. The (111) Direct Fellowship examin. (min. age, 30) may be taken, without having passed (1) or (11.), by a candidate who has been in practice on his own account for 5 yrs. All candidates or (1), unless they have passed one of the exempting examins, must have passed the Prelim. Examin or, if over the age of 25, a special test of general education.

Candidates between the ages of 18 and 21 who have passed the Preiminary or Exempting examn are recommended to become Students. They must be pupils or assistants of a Surveyor or be taking a full-time ourse approved by the Council as bearing on the profession of Surveyor, it one of the Univs. of the U.K. or their Affiliated Colleges, or one of the following: Harper Adams Agr. Coll., Newport; University Coll, Southampton, College of Estate Management; Midland Agr. and Dairy College, Seale-Hayne Agr Coll, Newton Abbot; the School of Architecture, the Polytechnic, Regent Street, and, under certain conditions, the Northern Polytechnic, Holloway, N.

For election as *Professional Associate* (P.A.S I.) a candidate must have passed (1) and (11.), and be in practice as a Surveyor on his own account or employed as an Asst in a Surveyor's office. For the Fellowship (FSI) a candidate must have passed either (1) and (11) or (111), and had 5 yrs.' experience as, and still be, either a Principal or Responsible Manager in an established business or a Head of a Dept. in the office of a public body reporting direct to his Board or Council.

Scholarships tenable for 3 yrs at any Univ in Great Britain have been established by the Council to the value of £130 if held at Oxford or Cambridge, and £100 elsewhere

## TEACHERS REGISTRATION COUNCIL

Established by Act of Parliament and constituted by Orders in Council Address—47 Bedford Sq, W.C.1

The Conditions of Registration are: (a) a degree or other qualification approved by the Council, if obtained in respect of a technological subject the applicant must have spent 36 months, after attaining the age of 16, in the practice of the profession or industry in question, and of this period 12 mos must have been concurrent with or subsequent to the course for the degree (or other qualification), (b) successful completion of a course, extending over at least 1 academic year or its

equivalent, of training in the principles and methods of teaching, carried on under conditions approved by the Council and accompanied by practice under supervision, (c) experience as a teacher in educational institutes, accepted for the purpose by the Council for a period varying according to circumstances, but in no case less than I academic year.

Condition (b) is waived in the case of a teacher who has had not less than 3 academic yrs.' experience as Recognized Teacher in Univs. and institutes. of Univ. rank approved by the Council for this purpose. Until Dec. 31, 1930, condition (b) will be modified in other cases where the Council is satisfied that special circumstances have prevented the applicant from taking an approved course of training in teaching

Registration fee. A single and final payment of £2

# EDUCATION AND TRAINING OF TEACHERS IN ENGLAND AND WALES

Courses of training for the teaching profession, recognized and aided under the Regulations of the Board of Education, are provided in Training Colleges and in the Training Departments which form part of the work of all Univs. in England and of the constituent Colleges of the Univ of Wales and the Univ. Colleges of Exeter, Nottingham, and Southampton

The Board's Regulations on the subject have recently been revised on lines which the Board have decided to follow in all their Regulations. So far as possible they are confined to the statement of the conditions upon which the Training Colleges will be recognized and aided by grants, and the responsibility for determining the particular means by which these conditions can best be satisfied is left primarily to the College The new Regulations embody those recommendations of the Departmental Committee on the Training of Teachers which the Board consider can now be made conditions of recognition and The unification of the teaching profession and the removal of barriers between its different branches-objects which the Board had in view when they consolidated their several sets of Regulations for the Training of Teachers in 1918—have been carried a stage further by the abolition of the administrative distinctions between Elementary and Secondary Training Colleges. In pursuance of the Board's desire that their certificate for teachers should increasingly assume the character of an endorsement of qualifications independently tested by responsible academic authorities, detailed requirements about the various courses of training have been replaced by a simple provision to the effect that courses of training must be in accordance with a suitable curriculum, and that satisfactory arrangements must be made for the examination of the students at the end of their course. At the same time the authorities of Training Colleges have been invited to submit proposals to the Board showing the kinds of training which each College considers it can properly undertake; and representatives of Univs., Training Colleges, and other bodies are now considering the possibility of co-operation in the examination of students of a College or a group of Colleges for the purposes of their recognition as teachers by the Board. Pending the completion of these consultations, the Board are making no changes in their requirements about the length of courses which they will approve for the purposes of the final examination

A person who desires to enter a Training College as a recognized student or as a private student intending to follow a course qualifying him for recognition as a Certificated Teacher must (1) be over the age of eighteen, or seventeen if he is commencing a four-year course which includes work for a University Degree, on the first day of the Academic year for which he is admitted to the College, or, if that day is the 1st August and the College authorities think fit, within two months thereafter, (11) have passed before admission a First Examination for Secondary Schools or some approved examination of at least equivalent standard (e g the Matriculation Examination of any Univ in England or Wales), and (III) satisfy the College authorities as to his character, probable suitability for the teaching profession, and health and physical capacity for teaching A person who desires to enter as a recognized (i e. grant-earning) student must also (iv) be a British subject ordinarily resident in England or Wales, unless an exception to this rule is approved, and (v) sign a declaration of intention to complete the course of training and thereafter to adopt and follow the profession of teacher in an Approved school

The principal types of courses at present recognized are (1) 4-year, i.e. 3 yrs of study for a Univ degree, followed by a year of professional training; (11) 2-year, including a period of professional training concurrently with a period of academic study, this course may, under special conditions for individual students, be extended for a third year or renewed for a year after three years' teaching in approved schools, (111) 1-year, for graduates or Certificated Teachers who have not

previously been trained at Training Colleges

As regards (1), a student may be admitted to the 2nd, 3rd, or 4th year if he has completed 1 yr, 2 yrs., or the whole of the course for a degree before entering the Training Department. He will not as a rule be certificated as a Teacher unless he has passed a Final examination for a degree

As regards (11), suitable Univ examinations forming recognized stages in courses for degrees may, subject to certain conditions, be approved for individual students as alternative final examinations in

academic subjects

A course of training extending over not less than I yr. at a Secondary School and providing for a systematic study of the principles and practice of teaching may be approved for a person who has obtained a Univ. degree, and a grant may be paid by the Board to the Governing Body of the School

Teachers with at least 5 years' teaching experience are eligible for Studentships "Full-time Studentships" are grants not exceeding £100 for an academic year for full-time courses of advanced study or research either at Univs or other institutions, these are intended for teachers who are able to obtain a term or longer period of grace from school teaching for the purpose, but not for the whole or part of an

ordinary degree course, "Part-time Studentships," entitling the holders to a grant not exceeding  $\frac{3}{4}$  of the fees of the proposed course, for approved part-time courses in Univs or other institutions, are now awarded only to teachers who are completing courses approved

in previous years

The College of Preceptors, Bloomsbury Square, London, W.C. I, grants the following Diplomas to teachers: (1) A.C.P., (2) L.C.P., (3) F.C.P. The examns for A.C.P. are divided into Part I. non-professional subjects, and Part II the professional examn., including a practical test of ability to teach. The standard in each subject of Part I is that of the same subject in the London Univ Intermediate Arts examn. The L.C.P. examn is open to University graduates and holders of the A.C.P. Diploma. Candidates must submit evidence of 2 years' professional experience for A.C.P. and 3 years' experience for L.C.P. 'The F.C.I' Diploma is granted to candidates who, having already obtained the L.C.P. Diploma, submit a satisfactory thesis on some original research or experimental work in Education

The College of Handicraft (Hon Registrar, J Lloyd, A C.P., F.Coll H., 124 Belgrave Road, London, S W 1), a constituent part of the Institute of Handicraft Teachers, incorporated in 1924, grants certificates of competency as Teachers of Handicraft to members of the Institute who satisfy the Board of Examiners of the College The standard of examination is stated to be that of a University Diploma in Education, and the examinations are held in January of each year A necessary qualification is recognition by the Board of Education as qualified teacher Distinctive initials—M Coll H, etc. Academical dress may

be worn by Members and Fellows

The Interchange of teachers between different parts of the Empire and mutual recognition of certificates and service were among the subjects considered at the Imperial Education Conference held at London under the Chairmanship of the Permanent Secretary to the Board of Education in July 1923, and a report was prepared by a committee of the Conference on I Interchange, II. Recognition of (a) service given elsewhere than in the country of origin—for the purposes of superannuation, (b) previous service—for calculation of salary in case of teachers who migrate, III. Recognition of teachers' certificates throughout the Empire—The Teachers Superannuation Act of 1925 makes it possible for a teacher to leave service in a grant-aided school in England, and to serve for not more than 4 yrs. in the Dominions overseas without forfeiture of pension rights, provided 10 per cent of the salary last received in England is paid by the teacher for the period of overseas service

The League of the Empire (124 Belgrave Rd, London, S.W.1) promotes the interchange of teachers between the Mother Country and the Dominions on lines laid down by the Imperial Education Conference in 1923. The London Country Council authorized the exchange of 50 teachers annually, and a number of local authorities in Great Britain also co-operate Canadian, Australian, South African, and New Zealand Education Departments have reciprocated. A triennial Conference on Imperial Education is held by the League. The meeting in

1928 included a delegation of distinguished French educationalists. An article on the *Interchange of Teachers Scheme* was printed by the Board of Education in their Report for the year 1925–26. The League has appealed for funds for establishing as a Memorial to the teachers who fell in the Great War a "Home Centre" in London, where teachers from any part of the Empire may find housing accommodation and a meeting-place. Hon. Sec., Mrs. Ord. Marshall, C.B.E. Hon. Treasurer, Lord. Askwith, K.C.B.

The Overseas Education League, under the auspices of the Govts, of the Dominion of Canada, Newfoundland, New Zealand, and the Depts. of Education of Alberta, B.C., Manit., N.S., N.B., Ont., P.E.I., Que, Sask, New S. Wales, Vict., W. Aust, Natal, and Sierra Leone, undertakes the organization of official visits of Teachers to Great Britain and other parts of the Empire, and interchange of Teachers and School Inspectors within the Empire. Tours for Canadian University Undergraduates to Great Britain and Europe are also arranged by the League. In 1925, for the first time, a party of British Secondary teachers and others visited Canada from Coast to Coast under its auspices. Office of the Hon. Organizer in Canada (the Exec Secy, National Council of Education)—607 Boyd Bldg, Winnipeg

The Fellowship of the Maple Leaf for the supply of British teachers for Western Canada and Australia is interested primarily in Elementary Schools, but also places teachers in Private Schools, High Schools, and

Universities. Office—13 Victoria St., Westminster, S.W. i

# GENERAL

- 14 Central Welsh Board's School or Higher Certificate,
- 15. Scottish Educn. Dept. Leaving Certif,

[The School and Higher School Examinations and Certificates referred to in this Appendix are described on p 4]

## (a) BIRMINGHAM, LEEDS, LIVERPOOL, MANCHESTER, AND SHEFFIELD

The Matriculation Examn held at each of these Univs. in July and Sept. (fee, £2) is conducted by a Joint Board Address of the Secy. (J. M. Crofts), 315 Oxford Rd, Manchester. Candidates are required to satisfy the examiners at one and the same examn. in English Composition, in 5 subjects chosen as follows, and in the examn. as a whole: I. either English Literature or History, II either Maths or Latin, III. three other subjects, not already taken under I. and II, chosen from: I. Engl. Lit., 2. Hist., 3 Geog, 4. either Music or Art, 5 Greek, 6. Latin, 7. French, 8. German, 9 some other Approved Language, 10. Maths., 11. Mechanics, 12 Physics, 13 Chem, 14 Physics-with-Chemistry, 15. Natural Hist., 16. Botany, provided that candidates who take Maths under II. must include one of subjects 5-9, and those who take Latin under II. must include one of 10-16. A paper on "Experimental Science in its relation to Agricultural Life" may be taken along with 16 but not with 12, 13, or 14. The several Univs. impose special conditions for entrance to certain Faculties.

Exempting Examns. Those numbered 1 and 2, London Intermediate

examn., Intermediate examn. in Arts, Sc., or Med. of an approved Indian Univ., Final Examn of Law Society (in case of Barrister or Solicitor entering Faculty of Law), Special Army Education Certificate at Advanced Standard, also, subject to provisos, Nos 3, 7, 8 (b), 9, 10, 11, 12, 13, 14, 15, and at the Board's discretion other examns. of equal or higher standard. A degree conferred by an approved Univ. after examination also entitles to exemption. See also Appendix XXII

Trained Certificated Teachers may obtain exemption under certain conditions

A Special Examination for candidates of mature years (not under 23 on May 1 of year of application) has been instituted. Applications (with fee, £2, and birth certif) will be received up to May 1.

A Special Examination has been instituted for candidates not below 19 yrs of age, who have been engaged in industry for at least 3 yrs since leaving school, and have as students attended satisfactory day or evening courses for at least 3 yrs. English (or History) and a foreign language are compulsory subjects. Date, July. Fee, £2.

# Special Regulations for Entrance to Faculties

BIRMINGHAM Candidates entering the Aris faculty, except those taking a degree in Music, must have passed in Latin (or Greek) and a Modern language Candidates for the LLB must have passed in Latin and a modern language. Those taking B.Sc in Pure Science are recommended to take both French and German in Matrice examn; those taking B.Sc in Engineering, to take Mechanics and Additional Maths.

LEEDS For admission to courses for the BA. a Latin qualification is required Candidates taking Physics as a principal subject for the B.Sc must produce evidence of an adequate knowledge of Mechanics. Medical and Dental students are ordinarily required to have passed in Maths at the Matriculation Examn

LIVERPOOL Candidates for the BA are required to have passed in Latin or Greek at matriculation standard. Engineering students are recommended to pass in Mathematics (with the paper in Additional Maths) and one of: Mechanics, Physics, Chemistry, they may not include Music or Art Medical and Dental students must have passed in Physics and Chemistry and have attained 17 years of age.

MANCHESTER Candidates for the B.A. ordinary degree must pass the Intermediate Examn in Latin or Greek Those intending to enter upon any Honours course in Arts (save Archit., Economics, Philos, and Geog) must ordinarily have passed in Latin or, for Hons School of German or English, in Greek, unless prepared to devote 4 years to the course. For admission to a degree course in Science Maths and Mechanics are required. Candidates for the LL.B. must have passed in Latin at matriculation standard. For admission to a course for a degree in the Faculty of (a) Medicine, (b) Science, (c) Technology, respectively, are required: (a) Latin, Maths., and Mechanics, (b) Maths. and Mechanics, (c) Maths.

Sheffield. Candidates for the B.A. with Honours (other than in Maths., Economics, or Geography) or for the B.A. ordinary degree must pass the Intermediate Examn in Latin or Greek, and no language course for the Intermediate Examn. may be entered upon without proof of an adequate elementary knowledge of the language. Medical and Law students must have qualified in Maths. and Latin respectively Engineering students should present Maths and include Mechanics or Physics or Chemistry.

#### (b) BRISTOL

The University recognizes as qualifying for Matriculation. Graduation in a Univ. in the United Kingdom or some other approved Univ. 2. Higher school certificate 3 (1) School certificate with credit in five subjects taken at one and the same time, which must comprise (1) either English or History, (2) either Mathematics or Latin or Greek. (3) three other subjects not already taken under (1) and (2), which must be selected in accordance with regulations A credit in Religious Knowledge or in Music or in Art is accepted (ii) School certificate if the Senate is satisfied that such proficiency has been shown in a particular group of subjects as to qualify for curriculum for degree Education Department's Leaving Certificate 5 Special Army Education Certificate 6 Trained certificated teacher's qualifications, under certain conditions 7 Matriculation examn of any univ of the United Kingdom; Oxford Responsions, Cambridge Previous examn 8 Sufficient qualification for original research in case of candidate for research degree. 9 In exceptional circumstances sufficient education and attainments in case of candidate over 23 years of age

#### (c) CAMBRIDGE

The Previous Examination comprises: I (a) Latin, (b) Greek, (c) French, (d) German, (e) Italian, (f) Spanish, II (a) Maths. (elementary), (b) Maths. (less elementary), (c) Experimental Physics and/or Chemistry; III (a) English essay and précis writing, (b) Holy Scripture (a Gospel or the Acts of the Apostles), (c) English History

Candidates must pass in at least two of the languages in Part I., including (a) or (b), in II. (a) and either II. (b) or II. (c), and in III. (a) and either III. (b) or III (c). The parts may be taken separately.

Natives of Asia or Africa, not being of European descent, may offer English literature in lieu of one of the languages [other than (a)] in Part I., and Arabic, Chinese, Sanskrit, or Pali, in lieu of I. (a).

Exemption is obtainable by means of I School Certificates—(1) with credit in 5 subjects (or in 4, one at least from each of groups 1., 11, and 111) of which one must be Latin or Greek, or (11.) with less complete credit, giving only partial exemption, 2. Higher School, Scottish Leaving, or Northern Ireland Senior Certificates, subject to certain other conditions, 3. Matriculation Certificates (see below); 4. Certificates of graduation in any Univ. in Great Britain, provided that in one of the examns. leading up to the degree the candidate passed in Latin or Greek; 5. Foreign Certificates (see Appendix XXII.).

Matriculation Certificates. A student who has passed one of the undermentioned "approved examinations" is exempted from Part I. of the Previous Examin. if he passed in 2 languages other than English, one of which is Latin or Greek, provided that both were taken on one and the same occasion, from Part II. if he passed in either Mathematics or Physics or Chemistry, from Part III. if he passed in English.

The "approved examinations" are: Oxford Responsions and the Matriculation Examn of the other English Univs., the Univ. of Belfast, and the N.U I. (see also Appendix XXII.), the Preliminary Examn. in Arts or in Science of the Scottish Univs.; and examns. affording exemption from and examns subsequent to matriculation in any of the above-mentioned Univs.

Exemption may also be granted to adult students recommended by the Board of Extra-mural Studies, and in exceptional circumstances the Council of the Senate may grant exemption in other cases

#### (d) DURHAM

A Matriculation Examn is held for admission to the *Durham Colleges* only. The subjects are (a) Modern History or English, (b) Mathematics. (c) Chemistry, (d) Physics, (e) Logic, (f) Additional Mathematics, (g) Latin or Greek, (h) French or German, (j) Italian, (k) Spanish, (l) Geography, (m) Botany, (n) Religious Knowledge, including Greek Testament, (o) Ancient History Students in Arts or Theology must take 5 subjects, including (a), (g), and one of (b), (c), (d), (e), in Science—5 subjects, including (a) and (b), either (c) or (d), a foreign language, ancient or modern, and one selected from a list, in Music—any 4 of the above named or a foreign language and 2 other subjects

The following are recognized for exemption from this examn.: (1) graduation in any Univ in the United Kingdom or other Univ recognized by the Matriculation Board, (11) subject to certain conditions, Higher School certificate, School certificate with credit in not less than 5 subjects [other than Religious Knowledge and subjects in Group D], Matriculation examn of any Univ. in Great Britain or Trinity College, Dublin, Oxford Responsions, Cambridge Previous, (111) Scottish Leaving Certificate, higher or honours grade, (111) Army Special Certificate; (v) Irish Free State Leaving Certificate.

In exceptional circumstances when a candidate is over 23 years of age other sufficient evidence of previous education and attainments is accepted. The Board interviews such candidates (in July only), submitting them to such examn, as it may think necessary.

For matriculation in the College of Medicine the following are recognized. I (i) graduation in Arts in a Univ. of the British Empire; (ii) certain of the School and Higher School certificates, the Scottish Leaving Certificate, and Matriculation examins of Univs. in Great Britain and Ireland, provided the candidate passed in English, Elementary Maths, Greek or Latin (Oriental Students—Sanskrit), French or German, or other approved modern foreign language, and one other subject from a list of 15.

For admission to Armstrong College the following are recognized

subject to specified conditions as to required subjects (the candidate must have passed in either 5 at one examn. or 4 at one and 2 at a subsequent examn): certain of the School (with credit) or Higher School certificates, the Scottish Leaving Certificate, and Matriculation examns. of Univs. in England. The required subjects are English, Elementary Mathematics, one of Latin or Greek or French or German, and 2 other subjects (or 3 when the candidate passed in only 4 required subjects at one examn.) from a list of 19

Candidates of more than 23 years of age whose native language is English may be admitted on producing satisfactory evidence of educational attainments.

In special circumstances a special entrance examination may be taken by candidates who have been engaged in technical pursuits for 2 years approximately, and propose to study Engineering, Naval Architecture, Mining, Metallurgy, or Agriculture. The subjects of the Examn. (held in Sept) are: English, a modern foreign language, Elem. Maths, two other selected subjects.

In special circumstances not provided for above, candidates may apply for exemption from ordinary requirements.

#### (e) London

The University conducts 3 examns qualifying for matriculation: 1, the ordinary Matrice Examp., 2, the General School Examp., 3 the Examn under Statute 116 As regards 2, and 3,, see pp 107 and 668 To pass I a candidate must at one and the same examn, satisfy the examiners in English, Elementary Maths, and 3 of the following: (a) Latin, (b) Greek, (c) Botany, (d) Chemistry, (e) Heat, Light, and Sound, (f) Mechanics, (g) Electricity and Magnetism, (h) French, (j) German, (k) Italian, (l) Russian, (m) Spanish, (n) another approved language, (o) History—Roman, or Greck, or English, or European, or of the British Empire, (p) Geography, (q) Logic, (r) Drawing—geometrical and mechanical, (s) Maths —more advanced, (t) Zoology, (u) Geology, One of the 7 subjects (a) to (g) (v) Music—theory, (w) Economics must be included, and one of the subjects offered must be a language Candidates may present two special oriental other than English languages under certain conditions. At the Intermediate Examn. in Arts it is compulsory to offer (a) or (b), whether taken at the Matricn. examn. or not. Law students are advised to offer (a) and English History at their Matricn. Examn Candidates should obtain Regulations from External Registrar, University of London

Exemption may be obtained by (1) graduates of approved Univs. and persons who have passed all examns. required for a degree in those Univs., (2) subject to certain conditions, among them the passing with credit in five subjects at one and the same examn., persons who have passed the examns. numbered 7, 8 (b), 9, 10, 12, (3) subject to other conditions persons who have passed examns. 2, 6, 8 (a), 15. See also Appendix XXII.

#### (f) Oxford

Responsions comprises: I. (a) Latin, (b) Greek; II. (a) English, (b) French, (c) German, (d) Italian, (e) Spanish, III. (a) Maths., (b)

Natural Science. To pass, a candidate must have satisfied the examiners either in both subjects from Group I and in both subjects from Group III., or in at least one from each group and in 4 subjects in all; he must also have passed in 2 languages other than English, and either have passed in all 4 subjects at one examn (in which case special ment in one or more subjects may compensate for comparative weakness in any one) or in 3 at one examn and in a fourth at a subsequent examn.

Exemption may be obtained: A by persons accepted for admission as Service Students or Imperial Forest Service Students or Special Students or affiliated Colonial, Indian, or Foreign Senior or Junior Students, or as candidates for the Degree of B.C.L. under certain conditions, or as Advanced Students, or as candidates for the Degree of B.Litt or of B.Sc., or who hold a degree at another Univ, such degree and such Univ having been approved by the Hebdomadal Council, or as students of mature years recommended by the Delegates for Extramural Studies under certain conditions

B. subject, *inier alia*, to passing in 2 languages other than English, of which either Latin or Greek shall be one, persons who have passed a School or Higher School Certificate Examn or gained a class in the Final Senior Freshman Examn of Dublin or a Scottish Preliminary Examn Certificate, or passed any of the examns numbered 2, 3, 5, 6, 15, or the Northern Ireland Senior Certificate, or the Intermediate Arts or higher examn of Birmingham, Durham, Leeds, Liverpool, London, Manchester, Sheffield, or Bristol.

## (g) READING

Matriculation, minimum age 17, is open to (a) graduates of Univs in the United Kingdom or other approved Univs., (b) persons who have passed or obtained exemption from the matriculation examn of the Univ of London or of the Joint Board (v supra), or have satisfied the conditions for such exemption; (c) persons who, being at least 25 years of age, have passed a special examination held by the Univ. "for approved candidates of mature years" In exceptional circumstances the Senate may accept other evidence of previous education and attainments.

# (h) WALES

The Matriculation Examn, the passing of which is a condition of matriculation for students of the constituent Colleges who have not passed an equivalent examn., is held at each of these Colleges about the end of Jan. and the end of June each year. The subjects are (a) English, (b) Latin, (c) Greek, (d) Welsh, (e) French, German, other approved languages, (f) History, (g) Music, (h) Mathematics, (f) Mechanics, (k) Physics, (l) Chemistry, (m) Botany, (n) Biology, (o) Geography, (p) General Science. A candidate must pass at one and the same examn. in 5 subjects, including (a), one of (b), (c), (h), at least one language [and not more than two unless both (b) and (c) are offered] in addition to English, and either (h) or one of (j) to (p). No candidate may offer both (j) and (k) or both (m) and (n), or both (p) and one of (j) to (o).

Examinations recognized as equivalent subject for subject: (a) The Matricn. examns, of London, of the Northern English Univs. Joint Board, or of Dublin, or the Preliminary Examn, of the Scottish Joint Board, (b) School Certificate Examns. (except Durham's), the Leaving Certificate (Higher Grade) of the Scottish Education Dept, the Senior Certificate of the Ministry of Education for Northern Ireland, and the Leaving Certificate of the Intermediate Education Commissioners of the Irish Free State (with credit at one and the same examn in each of the subjects required by the Welsh matricn regulations) A pass in a "First Examn." in Music gained before 1925 will not count for exemption, nor will other passes before July 1, 1924, except in accordance with conditions for exemption then in force.

Candidates of 23 or more years of age may be exempted on the special recommendation of a constituent College.

#### (1) Scottish Universities

Qualifications for admission to degree courses in Scottish Universities.

I. Scottish Education Dept.'s Group Leaving Certificate showing passes (including at least two on the Higher Standard) in at least 4 of the following subjects: (i) English (including Literature and History); (ii) Mathematics, Dynamics, Physical Science, (iii) Latin, Greek, French, German, Italian, Spanish, Gaelic, (iv) Natural Science, Art, Music, Applied Science—Provided (a) the passes must include one from each of the groups ii and iii, (b) unless they include three on the higher standard the Certificate must show either (i) passes in Latin (or Greek) and in Maths, or (2) a pass on the Higher Standard in Latin (or Greek) or in Maths, and all the four passes must be in subjects taken from groups (i), (ii) and (iii).

II. Other certificates affording evidence of a satisfactory secondary education on lines above specified

III Examination under the Entrance Board in 4 subjects selected from the following, including at least one from each group: (i.) as under Clause I., (ii) Maths., Physical Science, (iii) as under Clause I., or other approved language. Proviso (b) applies, and candidates are ordinarily required to reach the higher standard in English. The only subjects in this examination in which lower standard passes can be obtained are Latin, Greek, and Maths

Examinations recognized in the case of applicants from outside Scotland: (a) Oxford Responsions; (b) Cambridge Previous; (c) any School or Local Examins conducted under the auspices of the Univ. of Oxford or Cambridge which are accepted as exempting from (a) or (b) respectively; (d) London matriculation examin. A candidate who has been educated chiefly in England, or Wales, or Ireland, and who has such qualifications as would admit him to a Faculty in a Univ. in one of those countries, will be exempted from the Preliminary examin. Special application for partial exemption may be applied for where the conditions for complete exemption have not been fulfilled. See also Appendix XXII.

## (1) BELFAST

The Matriculation Examn. comprises English, Mathematics, and 3 of the following: (a) Greek, (b) Latin, (c) French, (d) German, (e) Italian, (f) Spanish, (g) Modern History, (h) Physics or Mechanics, (j) Geography, (k) Chemistry, (l) Botany, (m) for Faculties of Arts, Commerce, Applied Science, and Technology—Celtic, (n) for Science, Medicine, or Applied Science or Technology—Mechanical Drawing; for Commerce—(o) Elementary Economics, and (p) Accounting; for Faculty of Arts (g) Music For Arts, Science, or Medicine one language other than English must be taken, for Commerce—French or German or Spanish; for Applied Science or Technology—one of the languages (a)-(f).; for Faculty of Law—Latin Candidates for Faculty of Arts may, under certain conditions, take Latin or Greek instead of Maths

For Engineering students there is a special Matrice Examin. comprising English, Maths, Further Maths, Greek or Latin or French or German or Italian or Spanish, Physics or Chemistry, Modern History or Geography

A candidate who has passed in at least 3 subjects, but failed to pass the examn as a whole, is allowed to complete his matrice at the next subsequent examn

For exemption the Univ recognizes i graduation in a British Univ.; 2. the Final Junior Freshman Examn of Dublin, provided the candidate has passed in the subjects required by Belfast and, in the case of medical students, the subjects required by the GMC. 3 for entry to any faculty the candidate would have been entitled to enter in the Univ. whose examn he has passed—the examns numbered 1, 2 (Parts I, and II), 3, 5, 6, 13, or the examn of the Scottish Univs' Entrance Board, 4 subject for subject—the examns. 8 (a), 8 (b) (with credit at one and the same examn in all subjects), 9, 10, 11, 15 (Higher or Honours), and certain others

Students of mature age (not less than 23) may be admitted without passing the ordinary Matrica. Exama. Applications are dealt with by a special committee of the Academic Council, who may submit such candidates to such tests of their fitness to profit by the courses of the Umv. as they may consider necessary in each case

## (k) DUBLIN

The Matriculation Examn in Arts, held five times a year, comprises English Composition, Mathematics, English History, Modern Geography, Latin, and one of: Greek, French, German, Italian, Spanish, Irish

The Matriculation Examn. in Science comprises English, Mathematics, French or German, and one other language.

Exemption, partial or complete, may be obtained by candidates who hold the leaving certificate of the Department of Education, or any other examn. regarded by the Senior Lecturer as equivalent thereto.

# (1) NATIONAL UNIVERSITY OF IRELAND

The Matriculation Examn., held twice a year, comprises six groups of subjects: (a) Irish, (b) Latin or Greek, (c) any modern language approved

by the Senate, (d) English, (e) Maths., (f) Latin, Greek, any modern language approved by the Senate, History, Geography, Applied Maths. or Physics, Chemistry, Botany (for women candidates only), Physiology, and Hygiene. Candidates must pass in 5 subjects, and none except

engineering students may present more.

Those born in Ireland, whose home residence has not been outside Ireland during the 3 preceding years, must pass in Group I. Others may present in lieu of Irish either a second language or a second Science subject, they will be expected to attend a course in Irish Literature and History before obtaining a degree in the Univ. Students entering for Degrees in (1) Arts, Philosophy, and Celtic studies, (2) Law, (3) Medicine or Dentistry, (4) Science and Commerce, (5) Engineering, must take: (1) subjects in groups (a), (b), (d), (e), (f), (2) Latin, and subjects in (a), (d), (e), (f), (3) Latin, (a), (d), (e), and a fifth subject, but if already registered by the G M C, students may take the subjects prescribed for any other faculty, (4) or (5) one from each of (a), (d), (e), and two others from (f).

Exemption. Passes in the Intermediate Senior Grade or the Leaving Certificate Examn in any of the subjects recognized for matriculation are accepted as equivalent to passes in these subjects at the Matricn. Examn. even though the former examn was not passed as a whole. Provided that the subjects required have been passed, the Univ. accepts the following in lieu of their own Matricn. Examn: the examns. numbered 1, 2 (Parts I. and II), 9, 10, 15 (Higher), and the Scottish

Preliminary Examn.

# STUDENTS FROM OTHER COUNTRIES IN THE UNIVERSITIES AND UNIVERSITY COLLEGES OF GREAT BRITAIN AND IRELAND (1927-28)\*

From Africa 1101, America 887, Asia 1826, Europe 699, The Pacific 362 Grand total 4875 The number of students from each of the countries which contributed largely to these totals and the names of the institutions which received them in large numbers are given below:

AFRICA Egypt —Total 384: at Birmingham 56, Cambridge 20, Leeds 15, Liverpool 27, London colleges 130 (Imperial College 23, School of Economics 17, Medical Schools 37), Manchester 22, Edinburgh 54 Mauritius—22 at London 13 Nigeria and West Africa.—45. South Africa and Rhodesia—638: at Cambridge 94, Liverpool 31,

\* Compiled from lists received from all Universities and University Colleges. A List of Names of Students from Abroad has been printed, and can be obtained from the Universities Bureau. Many students from other countries study without enrolling in any university or university college. Among them are law students and students in technical schools and research institutes. None of these are included herein.

London colleges 266 (University College 16, Medical schools 138, Schools of Music 46), Oxford 75, Edinburgh 99, Glasgow 27, Dublin 11.

AMERICA. Canada and Newfoundland—183: at Cambridge 13, London colleges 72 (Schools of Music 13), Oxford 47, Edinburgh 34. South America—72: at Cambridge 14, London colleges 22. United States—487: at Cambridge 59, London colleges 128 (University College 30, King's 3, School of Economics 40), Oxford 169, Edinburgh 102. West Indies—136: at London colleges 55 (Medical schools 31), Edinburgh 34.

ASIA. China—108. at London colleges 59 (School of Economics 21), Edinburgh 22 India, Burma, and Ceylon.—1275: at Bristol 19, Cambridge 98, Durham 26, Leeds 33, London colleges 803 (University College 154, King's 89, Imperial 110, School of Economics 84, Oriental Studies 68, Medical Schools 142, Polytechnics 77), Manchester 69, Oxford 66, Sheffield 34, Edinburgh 162, Glasgow 76, St. Andrews 20. Japan—85: London colleges 71 (School of Economics 23) Malaya—43: London colleges 21 Palestine—42: London colleges 19, Siam—52: London colleges 17

EUROPE. Austria—18 Denmark—19 France—61: I.ondon 26 Germany.—121: London 86 (University College 31, School of Economics 41). Greece—26 Holland—35: London 19 Hungary—27 Italy—26 Latvia—22 Norway—24 Poland—40: London 30 Roumania—30. Russia—56: London 37 (School of Economics 28). Spain—32. Sweden—18: London 13 Switzerland—60: London 41. Yugoslavia—15.

THE PACIFIC Australia —234: Cambridge 45, London colleges 105 (Medical schools 53, Schools of Music 21), Oxford 42, Edinburgh 17 New Zealand —125: Cambridge 31, London colleges 45, Oxford 26

ALL COUNTRIES—Birmingham 95, Bristol 47, Cambridge 476, Durham 49, Leeds, Liverpool 124, London colleges 2412 [University College 417, King's 134, Imperial 222, School of Economics 375, Oriental Studies 92, Bedford (women) 46 Medical schools 556, Schools of Music 135], Manchester 171, Oxford 509, Sheffield 57, Edinburgh 653, Glasgow 235. St. Andrews, Dublin 18.

## XXII

## ADMISSION AS UNDERGRADUATES OF THE UNI-VERSITIES OF GREAT BRITAIN AND IRELAND OF PERSONS EDUCATED ABROAD

The following notes relate to the admission of students from other countries proposing to take full courses for a First degree, excluding from consideration those who seek admission with advanced standing on the ground of having already pursued courses in other Univs.\* and those who seek only to study without aiming at a degree

A comparison of the regulations of the several Univs in question governing admission of such students discloses a general agreement in

principle, with divergencies in application

The regulations are drafted on the understanding that the application to a student educated in another country of the ordinary entrance tests might be inappropriate owing to these tests having been framed with reference to secondary education curricula different from those which obtain in his own country, or to the student having reached a stage in his education at which the passing of ordinary entrance tests would involve a wasteful repetition of preparatory studies They accordingly provide for the acceptance from such a student of other evidence of academic qualifications. ordinarily certifs which would entitle to admission to a Univ in the student's own country, together with such further evidence as may be necessary to ensure that no student shall be admitted to a course of study for a degree without a reasonable prospect of his being able to pursue it to graduation; in particular, if the student be one whose mother tongue is not English, evidence that he has a sufficient mastery of this language to enable him to follow courses of instruction conducted in English

The lines along which this policy has been applied in the several Univs may be briefly indicated as follows:

At Oxford and Cambridge "Responsions" and the "Previous" Examn. respectively take the place of the Matriculation Examn. of other Univs. An Adviser to Colonial and Foreign Students is attached to the Univ. Registry at Oxford, and there is an Adviser to Indian Students at Cambridge

Exemption may be obtained, not only from Responsions (and also the Examn. in Holy Scripture) or the Previous Examn, but also from the Entrance Examns of the other Home Univs., by passing the Oxford or Cambridge School Certificate Examns, which are held in various parts of the British Empire overseas.

Oxford Responsions. Exemption may be granted to any person who

\* A résumé of Regulations regarding such concessions is given on p. 16.

has obtained (I) a certificate of having passed either (a) the matriculation examn. of the Joint Board of the South African Universities, or (b) the Secondary School Certificate Examn. of the Education Dept. of the Transvaal or (Senior Certif) of the Cape Province, provided that it shows that he has obtained at least 60 pc. in each of two of the languages Latin, Greek, French, German, Italian, Spanish, of which Latin or Greek must be one; or

(2) a certificate or certificates of having passed one of the following, provided he has satisfied the examiners in two of the said languages, of which Latin or Greek must be one.

Univ of McGill Matricn, or First Year in B.A. course, Ontario Educin Department's Middle School Examn, Univ. of Toronto Senior Matricn, or First Year; Brit Columbia Sen. Matricn, Brit Columbia Jun Matricn (60 per cent in each of the two cases).

Univ. of Adelaide Public (Leaving), Univ. of Melbourne School-leaving (Class B), Univ. of Tasmania Public Leaving, Univ. of W. Australia School-leaving, New South Wales Educn Department's Leaving Certif, Univ. of Queensland Sen. Publ Examn,

New Zealand Matricn. or Entrance Scholarship;

Univ. of Malta Matriculation,

Univ. of Hong-Kong Senior Local;

Part I. of the Baccalauréat de l'Enseignement Secondaire in France; or

(3) A certificate or certificates qualifying him for admission to a univ. in the Republic of Austria, Belgium, the Czecho-Slovakian Republic, Denmark, Finland, France, the German Reich, Holland, Hungary, Italy, Norway,\* Poland, the Serb-Croat-Slovene State, Sweden, or Switzerland, provided it shows that he has satisfied the examiners in either Latin or Greek, also to any person who has obtained the degree of B A. or B Sc. at an approved Indian Univ, provided that his course at his Indian Univ. included the study of English and one of the languages, Latin, Greek, French, German, Sanskrit, Arabic, Persian, Pali, Classical Chinese.

Cambridge Previous Examn. Exemption may be granted from the several Parts of the Examn to a person who (1) has passed the Matricn. Examn. of British Columbia, McGill, Toronto, Adelaide, Melbourne, Queensland, Sydney, Tasmania, W. Australia, New Zealand, any of the Univs of S. Africa or an examn. affording exemption from, or subsequent to the matricn. examn in any of these Univs (see also Appendix XX.), or (11.) holds a certificate qualifying for admission without further examn. into the Univ. of any European state, or (111.) holds the Egyptian Govt. secondary education certif. and is not of European parentage, as follows:

(i.) From Part I. if he has passed in 2 languages other than English, one being Latin or Greek, provided that both have been taken on one and the same occasion:

From Part II. if in either Mathematics or Physics or Chemistry;

From Part III if in English.

(ii.) From Part I. if he has passed (either in the Examn. in question or in another Univ. Examn. in the same country, certified by the authorities of the Univ. as ranking higher) in 2 languages other than his mother-tongue, of which one is Latin or Greek.

From Part II. if in either Mathematics or Science,

From Part III if in a Modern Language other than that used for exemption from Part I.

(iii.) From Parts II and III. and also, provided that in one at least of the 2 examns, for the certif. he has passed in French, from Part I.

Exemption from the whole of the Examn. may be granted to a student from the U.S.A who has (1) passed the College Entrance Examination Board's Examn, (2) qualified for admission to one of the undermentioned Univs or Colleges in the U.S.A. and passed some examn or examns. conducted by one of them. Provided that the examns, passed cover English (3 units or an equivalent standard), Latin or Greek (4), a third language (3), and Maths. (3).

The following is a list of Univs. approved by the Univ. of Cambridge for the purposes of acceptance of their graduates as Affiliated Students, who are exempt from the Previous Examn (1) In Great Britain and Ireland—all; (2) in Canada—Alberta, Br. Col, Dalh, McGill, Manit, New Bruns, Queen's, Sask, Tor, Western Ontario, (3) in Australia—all, (4) New Zealand, (5) Hong-Kong, (6) in S. Africa—all, (7) in India—All, Bom, Calc, Dacca, Lucknow, Madras, Panj, Patna, Rangoon, \* (8) in U.S.A.—The 36 institutions of complex organization listed in Appendix XXIV, v. infra. Graduates of St. David's College, Lampeter, are likewise accepted

A candidate who has obtained a 1st class in the Intermediate Examn. in Arts or Science, or a 1st or 2nd class in the examn. for the B A. or B.Sc. in an approved Indian Univ., is exempted from the Previous Examn provided that in some examn. leading up to the B A or B.Sc in that Univ he has passed in Arabic, Persian, Persian-with-Arabic, Sanskrit, or Pali, in Maths. or Science, and in English. Univs approved for the purposes mentioned in the preceding paragraph are approved with reference to this paragraph also, together with the Univs of Agra, Andhra, Aligarh, Benares, and Nagpur

A candidate who has obtained a First Class in the Intermediate Examn. held by the Board of High School and Intermediate Education of the United Provinces of India is exempted if either in this examn. or the High School Examn which leads up to it he has passed in a classical language, in Maths., in English, and in History or Geography.

A student of non-European descent who has been awarded a scholarship by the Govt. of Palestine for study at Cambridge is exempted if he is a B.A. of the American Univ. of Beirut and if the examns. leading up to his degree include English, Maths., or Science, and one of the languages Greek, Latin, French, German, Arabic, Hebrew.

\* The following Universities are also approved for the purpose of exemption from the previous examn. by certificates. Agra, Alig., Andhra, Ben., and Nag.

London. Persons of nineteen years of age and upwards who are not qualified for exemption from matriculation, but who present (a) Certificates of Matriculation in Colonial Univs., or (b) Indian or Foreign Certificates from an Academical or other Educational Authority which in the opinion of the Principal Officer indicate that they have attained a standard prima facie involving an education equivalent in their own country to that required for matriculation in England, may apply for examination under Statute 116 instead of entering for the ordinary Matriculation Examination. No candidate is allowed to appear a third time for the Examination, nor a second time, without the express permission of the Board of Examiners

No foreign certificates, except in the case of graduates of approved Universities, are accepted as giving exemption from the Matriculation Examn, but the following are recognized provided the student passed at one and the same examn in English, Maths, and three other of certain specified subjects, of which one must be Latin or Greek (Cape of Good Hope—Latin) or a Science Adelaide Matriculation (Senior Public), Melbourne School Leaving, W Australia School Leaving, Transvaal Secondary School Certificate, Secondary School Senior Certificate of the Department of Public Education Cape of Good Hope London also arranges for the holding of its own ordinary Matriculation Examn in the Colonies and self-governing Dominions upon the application of the local Governments As regards graduates, see p. 107

The Examination under Statute 116 held in London, usually in March, May, Sept, and Dec, comprises four subjects, of which English and either Mathematics or Logic are compulsory. In every case the candidate is required to undergo a viva-vocc examn, as well as the written examn, and a sound elementary knowledge of English is necessary. The written portion of the examn lasts one day. The fee is £5:5s. No syllabus is published. Applications should be addressed to the External Registrar.

The Northern (English) Universities Joint Board Subject to Special Regulations for Entrance to particular Faculties, exemption from the Matriculation Examn is granted to a student who holds the Secondary Education Certif of the Egyptian Ministry of Education, or has passed the Interm Examn in Arts, Sc, or Med of an approved Indian Univ, and may, at the discretion of the Board, be granted to "applicants holding certifs of having passed examns, of a standard at least equal to "Oxford Responsions, Cambridge Previous, etc. The procedure at Liverpool is as follows: Applications, with references, from Foreign and Indian undergraduate students are receivable up to June 1, from Egyptian up to July 31. In respect of Indian and Egyptian undergraduate students the Students' Dept. of the High Commr. for India and the Egyptian Educational Mission are asked to certify as to the character, qualifications, and suitability of applicants. Leeds receives applications from persons resident outside the United Kingdom up to June 30.

Durham. Foreign students may matriculate provided they satisfy a special Committee that they have passed in their own country an

examn. of a standard deemed sufficient for matriculation, and that they have sufficient knowledge of English to profit by the proposed course of study. The Matricn Examns of the Univ. of Sydney and the Univs. of S. Africa are recognized as exempting from that of Durham.

Durham Colleges: Graduates of Univs in the U.K. or of other approved Univs. are admitted without further examn. A candidate educated elsewhere than in Great Britain may matriculate if he has passed examns. deemed by the Matricn. Board to be sufficient. Students in Codrington College, Barbados, and Fourah Bay College, Sierra Leone, may matriculate (and qualify for degrees) locally.

College of Medicine A candidate who holds a degree in Arts of a University of the British Empire is accepted as having fulfilled the matriculation requirements

Candidates from a British Colony who present evidence that they have passed an examination which would admit them to a course qualifying for graduation in Medicine in the Colony from which they come will be accepted for Matriculation, provided such examination satisfies the requirements of the General Medical Council for the registration of medical students

The regulations governing the admission of students from India and the Malay States may be obtained from the Dean of the College

Armstrong College: Foreign or Colonial students must have passed in their own country an examn of English matriculation standard in the required subjects, and must have a sufficient knowledge of English to profit by the proposed course of study. In the case of Indian students no examn lower than the Interm of an Indian Univ. will be considered for this purpose.

Bristol. A candidate educated elsewhere than in the U.K may submit to the Senate evidence of having passed examns elsewhere equal to the Matriculation Examn of any Univ of the UK, or to any of the other examns which qualify for matriculation at Bristol, if from an oriental country, he may submit evidence of previous education in his own country and of ability to follow instruction given in English. The Senate may thereupon, if satisfied with the evidence, declare him eligible for matriculation.

Reading Exemption is granted to candidates who have satisfied conditions for exemption from the London or the Northern (English) Univs Joint Board's Matriculation examn.

Wales Candidates who have qualified by examn for a degree of an approved Univ. or College, or passed the Matriculation Examn. of the South African Univs or of the Swiss Univs, or the secondary school certif examn. of the Transvaal or Cape Province Education Department in the subjects required by the Univ matrical regulations, or, if certified by a constituent College as possessing sufficient knowledge of English to profit by a degree scheme of study, the Intermediate Examn in Arts or Science of an approved Indian Univ., may matriculate without further examn.

Scottish Universities. Candidates from the British Dominions or Colonies may be exempted from the Preliminary Examn. if they have

passed examns. which would admit them to a course qualifying for graduation in Arts or Science in Univs. or Technical Colleges affiliated to a Univ in the Dominion or Colony from which they come, provided their knowledge of English is sufficient to enable them to follow the courses of instruction with profit. Those whose native language is other than English are required to pass an examn, oral and written, including set books. Students from India are subject to the further condition that they have obtained a first class in an Intermediate Examn. in Arts or Science in a recognized Indian Univ., and have at some stage of their course passed in Maths or Science and English.

Certificates which would entitle the holder to enter upon a regular course of study leading to a degree in Arts, Pure Science, or medicine in any of the Univs. or Colleges approved by the Assocn. of American Univs (see Appendix XXIV.) are recognized for exemption from the Pielim examn

As regards students from foreign European countries, the B ès L and B ès Sc. and similar "certifs of Maturity or Grades, entitling the holder to enter upon a regular course of study in the Univs of his own country," are accepted subject to the above-mentioned conditions as to knowledge of the English language Certain Egyptian, Argentine, and Chinese certifs. are also recognized Provision is not made specifically for the acceptance of other foreign certifs, but the Board has a general dispensatory power in regard to applicants of not less than 21 years of age who satisfy it as to their fitness

N B.—In each Univ the Senatus may for any particular class, attendance on which for a specified period is necessary in order to qualify for graduation, determine the conditions of admission to such qualifying attendance

A Certificate submitted as proof of title to admission to Univs. abroad should be accompanied by an authenticated declaration by a Government Official or Official of an Agency-General, Embassy, Legation, or Consulate of the country to which the applicant belongs, testifying that it has the alleged value If in a foreign language, certificates should be accompanied by certified English translations.

Belfast Matriculated students of Univs outside the British Isles may send written statements and certifs, which should, as a rule, cover all subjects required for matricin in the Faculty concerned. When a certif in any subject is not available, other evidence of proficiency may be furnished. The Matriculation Examn of the Joint Matricin. Board of the Univs. of S. Africa and the Intermediate Examns. of certain Indian Univs. (Alig., All., Ben., Bom., Calc., Dacca, Delhi, Luck., Madras, Nagpur, Patna, Panjab, Rang.) are accepted as equivalent, subject for subject, to the Belfast Matricin. Examn. Entrants who are graduates of a British Univ. are not required to pass the Matricin. Examn.

Dublin admits students who have passed the Matricn Examn of any Univ in S Africa including English, Mathematics, Latin, and one other approved language. The Senior Lecturer is empowered to exempt from the Matriculation Examn any student who has passed in the subjects

## SCHOLARSHIPS AND GRANTS FOR RESEARCH 671

required at matriculation at a public examn, which is, in his opinion, of equivalent standard. See, however, p. 663 regarding compulsory subjects in Arts course

National University of Ireland. The Senior Public Examns. of Sydney, Melbourne, and Adelaide, the Jaffa Gymnasium Maturité, and the Matrica Examns of Sydney, Melbourne, and New Zealand, and of the Matrica Board of S Africa, are recognized as qualifying for exemption from the Matrica Examn. The Matrica Examns of other Univs in the British Empire overseas (excluding India) are recognized only in combination with an Intermediate Examn. in Arts or Science.

## XXIII

## INTER-UNIVERSITY SCHOLARSHIPS AND GRANTS FOR ADVANCED STUDY AND RESEARCH

Under the heading "Scholarships, eic," will be found in the sections of the Yearbook relating to the several Universities information regarding the extent to which they provide for the promotion of advanced Study and Research by the offer of Scholarships, Fellowships, etc, to their own graduate members. In this Appendix are given particulars of some other aids

# FUNDS ADMINISTERED BY UNIVERSITIES AND COLLEGES

BIRMINGHAM: Bowen Scholarships in Chemistry (3), Metallurgy (1), and Engineering (2), £95 each Open to candidates who have spent 3 yrs in a Univ, preferably Birmingham.

John Avins Science Scholarship (1), £50 An entrance scholarship, open to candidates who have attended a public elementary school in Birmingham for not less than two years

Cambridge: Almeric Paget Studentship, £150, for Polit Sc, Economics, etc, open to graduates of any Univ, or those about to graduate Election after examn (English Essay and questions on Polit. Hist. and Econ) Applications receivable up to July. Student to come into residence at Corpus Christi Coll for the academic year succeeding election

Fry Scholarship. £300 for two years, open to a graduate of any Univ in Gt Brit nominated by his Vice-Chancellor

F W Mailand Memorial Fund. Grants may be made to any person engaged in any research in the History of Law or of Legal Language or Institutions, or for delivery of lectures, publication of works, etc, connected with these subjects

Whewell Scholarships in International Law, one of £100 and one of

£50, open to all persons whether already members of the Univ. or not who are under 25, tenable for 2 yrs. in the Univ. (at present tenable for 1 yr. only)

J L. Walker Studentship in Pathological research, £300 p.a. for 3 yrs. Candidate need not necessarily be a member of the Univ. Last offered in 1928

Balfour Studentship in Biological research, especially in Animal Morphology, £300 p a for 3 yrs, student need not be a member of the Univ, but must study in it for at least 3 terms

Hort Memorial Fund, £65 pa, for grants to persons engaged in Biblical, Hellenistic, or Patristic research, or undertaking connected therewith

Gordon Wigan Fund, £300 p a, for scientific educi. or research.

Worts Fund for investigations in foreign countries respecting religion, laws, etc., or geographical discovery or antiquarian research therein

Clare College Research Studentships, £100 p.a., not more than two at a time, graduate members of any Univ. may be elected, but preference to members of the College

Emmanuel College Research Studentship Value £150 pa, tenable for 2 yrs, with a possibility of renewal Open to a graduate or other qualified student from another Univ beginning Research at Cambridge, with a preference to one who has already done one year's research Applications should reach the Master not later than June 30, and should be supported by two certificates of character, a birth certificate, brief account of career, with names of professors or teachers under whom applicant studied, precise statement of proposed course of research, and any evidence of general ability and of special fitness for proposed research. A studentship of the same value is open to graduates of the College.

Rooms in the College and Commons are assigned to the Lionel de J. Harvard Memorial student nominated by the President of Harvard Univ.

Pembroke College Gabriel Stokes Studentship for research in Physics, about £425 p a for 3 yrs, renewable for a term not exceeding 5 yrs Open to graduates (preferably of Cambridge) of from 23 to 28 yrs of age. Next award, 1930 or later

Peterhouse Research Studentship (Abercrombie Smith) (suspended for the time being), £150 p a for 2 yrs Open to graduates of any British or Foreign Univ. intending to proceed to Ph D. degree

Trinity College Research Studentship and Dominion and Colonial Exhibitions. A Studentship of value (dependent on the student's pecuniary circumstances) not exceeding £300 p.a., tenable during preparation for the Ph.D. degree in the Univ of Cambridge. Open to men who have graduated or are otherwise qualified, provided that they have not commenced residence in the Univ. of Cambridge. Tenure is conditional on entry as Research student and upon diligence in the approved course. Applications with certificates of birth, graduation, and character, record of education, any evidence of aptitude for research, and full account of pecuniary circumstances, should reach the Senr. Tutor not later than July 1.

The Exhibitions for students residing in the Dominions and Colonies. annual value of £40, which may be increased by remission of College fees in cases of special need, are tenable for 2 yrs and possibly for 3. Candidates must apply through the principal authority of the Univ. to which they belong. The Univ. authorities, if they think fit to forward an application, the candidate being in their opinion of marked ability and one of whom it may be confidently expected that he will profit by a further period of Univ. study, will send with it certificates of birth and character, record of scholastic career, etc.

Girton College Research Fellowships — 1 Arts (Pfeiffer Fellowship) Tenable for 3 yrs (renewable up to 6 yrs) for research in Language and Lit, Moral and Polit Sc, or History Open to women who are graduates or have taken Honours in a final degree examn of any Univ, and members of the Girton College Roll (value £250 a vr) 2 First Girton,

£300 p a

LEEDS: Gas Eng., Textiles, Colour Chem., Arts and Sc LIVERPOOL: Garrett International, Johnston Colonial, Lloyd's Register v. p 100

LONDON: Dixon Fund for assisting Scientific Investigations available for grants—about £275. Applications receivable by the Principal between April 1 and May 15 Full information required as to nature and objects of research proposed, estimated amount required for it (detailed estimate to be given), any previous grant received for same object, what apparatus of permanent value will be needed Names of two referees to be given Instruments, specimens, etc., purchased out of grants to be returned to the Univ Published results of researches to refer to the Fund and 10 copies to be supplied to the Univ. Preference given to applicants who are graduates of the Univ. or who undertake to work in a Dept or School of the Univ. or other Instn. connected therewith

Charles Graham Medical Research Fund A Scholarship in Pathology, value not exceeding f400 p a for 2 yrs., is awarded from time to time "to enable a young man to continue his pathological researches, and at the same time to secure his services to the School of Advanced Medical Studies connected with Univ. College Hospl. as a Teacher under the direction of the Prof. of Pathology " Applicants should give names of 3 referees, including a Teacher of the Univ. or College in which he has conducted his studies in Pathology. The Scholar is required to undertake teaching as well as research work

Keddey Fletcher-Warr Studentships for Post-Graduation Research in Value £200 for 3 yrs, renewable Open to men and women of European descent who are graduates of some British Univ or have qualified for such graduation, but preference is given, other things being equal, to a graduate of London of small or no private means Awardable from time to time as notified in the Public Press.

Rogers Prize, £100, offered from time to time, for an Essay on a Medical or Surgical subject, named and appointed by the Univ. Open to all whose names appear on the Medical Register of the U.K.

Journalism Exhibitions. £100 p.a for 2 yrs. Five awarded in 1928.

Lindley Studentship. £120 for work at the Institute of Historical Research. Preference to graduates of Univ. of London or candidates for a higher degree of the Univ. Awarded every third year. Next award in 1931.

Meyer Studentships in History and Geography of India. Endowment, £3000, tenable at Univ. College by graduates of Univs. of the British Empire studying for approved higher degrees in the Univ. of London

Imperial College. Henry George Plimmer Fellowship in Pathology, £300 Candidates must be of British nationality.

London School of Economics. Research Studentship, open to graduates of any Univ., £200. Metcalfe studentship, £90, open to any woman graduate of any Univ of the United Kingdom Women's studentship, £150, open to women students for research in Economic History Next awards 1929

Westfield College (for women). Two research studentships open to graduates of any Univ. Value, £30 and £60 respectively, plus free board and lodging at the College (see p. 153). Applications, receivable in the Lent Term for studentship for the ensuing academic year, should be accompanied by a scheme of work, 8 copies of 3 testimonials and names of 2 references

College of Estate Management, 35 Lincoln's Inn Fields, W C 2. Travelling scholarship (annual) for studying agricultural methods in Europe, £300 or less. Open to British-born graduates of a British Univ under 30.

MANCHESTER: Chemistry, Economics, Engineering, etc., v p. 190.

MANCHESTER: MUNICIPAL COLLEGE OF TECHNOLOGY Research Scholarships (10) in Technology, £100 each, open to graduates of any Univ in the British Empire and other persons possessing special qualifications.

OXFORD Philip Walker Studentship for Research in Pathology. £200 p a. for from I to 5 yrs, not restricted to members of the Univ, open to women as well as men

Weldon Memorial Prize (endowment, £1000), awarded once in 3 years, for contribution in 6 preceding years to Biometric Science

Somerville College Mary Somerville Research Fellowship, £250 for 3 yrs, last award 1928 Lady Carlisle RF, £120 for 5 yrs Next award 1929

Lady Margaret Hall Susette Taylor Annual Fellowship for independent study abroad Value £150, open to a woman graduate of any Univ

WALES. Aberystwyth University College. Scholarship open to students of the Univ. of Paris.

ROYAL COLLEGE OF PHYSICIANS, London: Streatfeild Scholarship, £250 for 3 yrs. for research in Medicine or Surgery.

Scottish Univs., v. p. 269.

They are not intended for persons who desire to take ordinary three-year University Courses in Arts, Science, Medicine, or Technology, nor for those wishing to qualify as Teachers in Public Elementary Schools. The Scholar will ordinarily be required to devote his whole time to study in a Univ. or other approved institution. Entry forms obtainable from the Director of Educh, County Offices, Preston.

## SCHOLARSHIPS AWARDED BY THE ROYAL COMMISSION FOR THE EXHIBITION OF 1851

I Science Research Scholarships offered to Overseas Universities, to enable selected students who have already completed a full University course and given sufficient evidence of capacity for scientific investigations to devote themselves for 2 years to research work under conditions most likely to equip them for practical service in the scientific life of the Empire Value, £250 p a., with supplements in certain cases, tenable ordinarily for 2 yrs, renewable in exceptional cases for a third year, at any institution approved by the Commrs, but not, except in very special circumstances, in the Dominion in which the scholar has received his scientific education; open to British subjects of age (except in very special circumstances) under 26 yrs. At present not less than 8 (Canada 3, Australia 2, S Africa, NZ, and Irish Free State, I each) are offered annually, recommendations receivable (South Africa, Irish Free State, May 1) (Australia, N.Z., and Canada, June 1) from the following Univs . Alb , B C., Dal , McG , Manit , Queen's (Ont), Sask., Tor, and any of the Univs of Australia, N.Z., S. Africa, and the Irish Free State. A Scholar is not permitted to hold any position of emolument likely to conflict with the devotion of his whole time to the objects of the Scholarship, nor to accept any additional emoluments without the previous consent of the Commrs

II Senior Studentships, at present 5 in number, each of £400 p a with supplements in certain cases, for 2 yrs or, in special cases, for longer, open to British subjects of age not (except in very special circumstances) more than 30 yrs, on recommendation, receivable up to May I, by Profs and Heads of Depts through the executive authorities of such Institutions as may be invited by the Commrs to nominate, tenable at any Institu at home or abroad approved by the Commrs. The student is not permitted to undertake any work likely to conflict with the devotion of his whole time to the objects of the studentship, but a limited amount of time may, with the approval of the Commrs, be spent in delivering an advanced course of lectures. He is not debarred from holding another position of emolument, but in such cases the Commrs may modify the value of the studentship

III. Post-graduation Scholarship in Naval Architecture. £250 p.a. for 2 yrs. for research work (for which no emolument will be receivable) in problems connected with design and construction of ships and their machinery and in the development of the shipbuilding industry at

home and abroad. Open to British subjects under 30 who have passed with marked distinction through a course of study and practical training in N.A at, and been nominated by, the R.N. College, Greenwich, Univ. of Glas or Liv., or Armstrong College. The nominations are reported on by the Council of the Inst NA

IV. Industrial Bursaries of not more than £156 p.a. for 1, 2, or, exceptionally, 3 yrs. to cover the period between leaving College and obtaining sufficiently remunerative employment in Industry. Open to British subjects under 25 recommended from one of the Univs. of Gt. Britain, including the Imperial Coll of Sc and Tech, Heriot-Watt Coll, or Univ Coll, Nottingham A candidate must have been a bona fide student of Science for a term of 3 yrs, should give evidence of practical ability likely to lead to his advancement in industrial work, and show that he has obtained, or can within a reasonable period obtain, an industrial post to be approved by the Commrs, and is in need of pecuniary assistance to enable him to hold such a post. Twentyone bursaries awarded in 1927

V Rome Scholarship in Architecture, £250 p a for 2 or 3 yrs. Open to British subjects under 30 by competition conducted by the Faculty of Arch of the School at Rome. A Student or Associate of the R I B A who is placed next in order of merit to the winner will be recommended for the R I B A Jarvis Studentship of £250 p a for 2 years.

Rome Scholarships in Sculpture and in Decorative Painting, £250 pa, tenable for 2 or 3 yrs at the British School at Rome. Open to British subjects under 30 and 27 respectively by competition conducted by the Faculties concerned The Faculty of Engraving administers a Scholp of the same value

General. Women are eligible for all the Scholps except III and IV. Address of the Secy to the Commrs, I Lowther Gardens, Exhibition Rd, London, S.W.7. Entries for the Rome Scholps are receivable up to October 15 (Architecture), December 31 (Ptg, Sculp, and Engraving) by the Hon General Secy, British School at Rome (same address)

## BEIT MEMORIAL FELLOWSHIPS FOR MEDICAL RESEARCH

Founded in 1909 by Sir Otto Beit, Bart, K.C.M.G., F.R.S., in memory of his brother Alfred, "to promote the advancement by means of research of Medicine and the alhed sciences in their relation to Medicine". Open to graduates, men or women, of pure European descent, in any Faculty of a British Univ. Six Junior Fellowships, each of £400 p. a more or less and usually tenable for 3 yrs, are awarded in July. An extension to a fourth year at £500 is sometimes granted. Notice of each election is published 3 mos. in advance. Applications are considered by an Advisory Board. Senior Fellowships of £700 p. a. tenable for 3 yrs may also be awarded to persons who have already held. Junior Fellowships. A Fellowship for Research in Tropical Medicine, value £1000 p.a. for 5 years, was awarded in March 1927. Special grants have been made from time to time for, or in aid of,

particular objects of research. Address of Hon. Sec. to the Trust—Sir James K. Fowler, K.C.V.O., C.M.G., 35 Clarges St., Piccadilly, London, W.I.

## BEIT FELLOWSHIPS FOR SCIENTIFIC RESEARCH

Founded by Sir Otto Beit, Bart., K C.M G, F R S., in 1913 for advancement of Science by means of research. At present £250 p a. for 2 yrs. subject to report at end of first year Tenable at Imperial College of Sc and Tech , London, under supervision of a Prof. Fellows are required to devote their whole time to their research and to hold no appointment, paid or unpaid, without sanction of the Trustees. Open to men or women under 25, of European descent by both parents, who have taken a degree in any Univ. in the British Empire, or Diploma or Associateship of any College approved by the Trustees. Not open to holders of any other Scholarship or Fellowship Elections, advertised 3 mos in advance, are made annually in July. Applications should give full information as to qualifications, previous career, general character of proposed research, whether applicant has private means sufficient to carry on the research for 2 vrs without aid of Fellowship. names of not more than 3 referees, including one on the staff of the Univ or College or a College of the Univ at which the degree, etc., was obtained. Testimonials should not be sent. Capacity for research, personal record, and importance of proposed research will be taken into consideration Inquiries may be addressed to the Rector of the Imperial College

#### GILCHRIST EDUCATIONAL TRUST

Most of the Scholarships, etc., awarded by the Trust are for students of particular institutions. The following are not so restricted:

Scholarship in Chinese £50 tenable at the School of Onental Studies, London, or, in the case of a student of the School of 1 yr.'s standing, in an Oriental country. Open to candidates of European origin Awarded on results of an examn held in July in Grammar, 2 set books, and unseen translation. Applications (in a prescribed form) receivable by the Director of the School up to May 15

Studentship tenable at the British School at Rome, £75 for r yr. At least 5 months to be spent in Rome. Open to men and women under 25 for a definite course of study for which Rome offers advantages and calculated to assist them in their profession. Applications with statement of previous training and proposed course, copies of not more than 3 recent testimonials based on personal acquaintance with candidate and his work, and any references, should reach the Secy. of the School, 19 Bloomsbury Sq., London, W.C. I, by July 31st.

Studentship in Geography. £80 (in special cases, £100) for a definite course of advanced work extending in general over 9 mos., to be approved by the Trustees. No other work to be undertaken without

written consent of the Trustees during the tenure of the Studentship. Open to Teachers of either sex who have had experience in teaching Geog. Applications, stating age, career, training in Geog., experience in teaching Geog., proposed work, time to be devoted to it, name of Headmaster, etc., to whom reference can be made, to reach Prof Lyde, University College, Gower Street, London, W.C.1, by Feb 1. The student is required to sign a declaration of intention to continue to be a teacher of Geog. for 2 yrs. after expiry of the Studentship

Address of the Secy. to the Trustees: 1 Plowden Buildings, Temple,

London, E.C.4.

#### SIR RICHARD STAPLEY EDUCATIONAL TRUST

Constituted in 1919, to administer a fund to assist educational progress by subsidizing necessitous students, promoting educational experiment and research, etc. In 8 years it has assisted over 1000 students at universities. In 1924 the Trust published a report on the scholarship system with special reference to grants by Local Education Authorities entitled "The Poor Student and the Universities" Bursar, Percy Alden, M.A. Address—32 Gordon Sq., W.C.1

#### FUNDS ADMINISTERED BY THE ROYAL SOCIETY

Foulerion Research Fund (a) Research Professorships, with stipend £1400-£1500 pa Duties. To conduct, in a place approved by the President and Council of the R S., such original researches in medicine or the contributory sciences, on lines approved of by the President and Council, as shall be calculated to promote the discovery of the causes of disease and the relief of human suffering The Profs shall devote the whole of their time to research Tenable for 5 years in the first instance, the appointment being thereafter renewable for further periods of not more than 5 years at a time. (b) Research Studentship of £700 pa, restricted to British subjects Duties. To conduct researches in medicine or the contributory sciences, under the supervision and control of the Foulerton Committee, to whom the student will be required to report from time to time on the progress of his work. Tenable for 3 years and renewable from year to year, with a maximal total tenure of 6 years from the first award. Incumbents: (a) Prof A V Hill, (b) Dr R J Ludford

Yarrow Research Professorships for research (whole-time) in Math, Physical, Chem., or Engineering Sciences Value, £1000-£1400 p.a. Tenable at a University or other place to be approved by the President and Council of the Royal Society for a period of 5 years, the appointments being renewable for further successive periods of 5 years. Incumbents: Prof A Fowler, Prof G. I Taylor, and Prof O. W. Richardson

Machinnon and Moseley Research Studentships. Each of the value of £300 p.a. Tenable in the first instance for 2 years, but renewable in exceptional cases from year to year, total length of tenure not to exceed 5 years. Machinnon Studentship for "furthering Nat. and Physical Sc., including Geol. and Astron., and . . . original research

and investigation in Path." Moseley Studentship for "the furtherance of experimental research in Path., Physics, and Chem., or other branches of science, but not in Pure Maths., Astron., or any branch of science which aims merely at describing, cataloguing, or systematizing."

Sorby Research Fund for original Scientific research. The income, about £600, is devoted to maintaining a Fellowship tenable ordinarily in the Univ. of Sheffield for 5 yrs., renewable for further periods. No permanent duties outside the research work may be undertaken. Appointments are made by a Committee composed of 4 persons appointed by the Council of the R.S. and 3 appointed by the authorities of the Univ. of Sheffield.

For all the above appointments applications are invited by public advertisement.

Scientific Relief Fund (income about £700 p.a.) to aid scientific men or their families requiring assistance

Minor Funds. Tyndall Mining Research, income about £40 pa., for a studentship, Gunning, about £35 pa, Joule, about £70 pa, Lawrence, about £170 pa, for research in Diseases in man and animals

Government Grants for Scientific Investigations. The conditions are notified annually in time for applications to be received by March 31 Only British subjects are eligible. Appropriations in 1926 numbered 140, the amounts ranging between £10 and £370

Medals Copley, for Philosophical research (any country); Rumford (biennial), for useful discovery in Light or Heat, in any part of Europe, Royal (2), for advancement of Natural Knowledge, Davy, for Discovery in Chemistry in Europe or Anglo-America, Darwin (with grant of £100, biennial), for work in Darwinian field; Buchanan (with money grant, quinquennial), for service to Hygienic Science or Practice; Sylvester (with money grant, triennial), for Mathematical Research, Hughes (with money grant), for discovery in Physical Sciences, particularly Electricity and Magnetism The 4 last are open to foreigness as well as to British subjects

Address of the Society—Burlington House, Piccadilly, London, W 1.

#### BRITISH ACADEMY

Rose Mary Crawshay Prize for English Literature, £100 Open to women of all nationalities for historical or critical work, preference being given to work regarding Byron, Shelley, or Keats. Address—Prof. Sir I. Gollancz, King's College, Strand, London, W.C 2.

Cromer Greek Prize, £40. Open to British subjects under 26. Address—The Secretary of the British Academy, Burlington Gardens, London, W.I.

# BRITISH ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE

Research Committees of the Association conduct researches and prepare reports Committees of the Sections consider inter alia the

financing of proposed researches by such Research Commuttees. The Association administers for this purpose a fund, providing an income of about £350 annually, given by the late Sir James Caird of Dundee in 1912; any surplus from subscriptions in excess of administrative expenses are also devoted to research. The Association welcomes the attendance of University students at its annual meetings, and has a special class of "student membership" at reduced fees for duly qualified persons. Address—Burlington House, Piccadilly, London, Wil.

#### BRITISH SCHOOL AT ROME STUDENTSHIPS

In addition to the scholarships mentioned above on pp 678 and 679 a Studentship (Bernard Webb) worth not less than £250, tenable for one year, is offered for the encouragement of the historical and critical study of Architecture, open to students not over 32 years of age who have been members of the Archit Assocn, for 4 years. The Pelham Studentship in Archæology (£100), awarded by the Umiv. of Oxford, is open only to members of that Univ. A Studentship, £150, tenable for 2 years, is open to candidates under 30 years of age, for research in Roman or Italian history, antiquities or literature, and a Gilchrist Studentship, in alternate years, £75, tenable for 1 year, open to candidates under 25 years of age. Address of the Secy, 50 Bedford Sq, London, WC I

#### BRITISH SCHOOL AT ATHENS STUDENTSHIP

A studentship of value floo tenable for one year is placed at the disposal of the Univs of Oxford and Cambridge alternately. All students admitted to the School are expected to spend at least 3 months in Greece and to be engaged on some research work. They can, on payment of a small rent, reside in the School Hostel, and are admitted to use of the library. They also obtain special facilities for working in Museums and in travelling. Students of the British School at Rome are ipso facto admitted as students at Athens. Address of the Secy, 50 Bedford Sq., London, W.C. I.

### MARINE BIOLOGICAL ASSOCIATION

A number of research tables at the Plymouth Laboratory are provided free of cost on the nomination of Governors (among others the Univs of Oxford and Cambridge) and Founders of the Marine Biological Assocn of the United Kingdom. The Ray Lankester Fund provides for the payment of £100 to an Investigator to be appointed from time to time by the trustees on condition of his spending at least 5 months in carrying on researches at the Laboratory. For full particulars application should be made to the Director of the Laboratory, Citadel Hill, Plymouth

### ZOOLOGICAL SOCIETY'S RESEARCH FELLOWSHIPS

One (Milner) in Comparative Pathology, value £800 p.a., awarded in conjunction with the London School of Hygiene and Trop. Med.

Fellow in 1925, Dr. H. H. Scott of the London School. One of £350 (Aquarium Research) awarded in 1927 to Miss E M. Brown of the Univ of London, and one of £450 (Anatomical Research) awarded in 1927 to Mr S Zuckermann of the Univ. of Cape Town

#### RAMSAY MEMORIAL FELLOWSHIPS

The Trustees (Chairman, Sir Hugh Bell, Bt; Secy, C O G Douie, University College, Gower St., London, W.C) award from time to time 3 Fellowships, value £300 a yr. for 2 yrs, for Chemical research. They can be held in any Univ. or other place in the U K. possessed of the requisite facilities for research; also in exceptional circumstances in other parts of the British Empire, and, by special permission of the Trustees, elsewhere. One is limited to candidates nominated by the Univ. and the Royal Technical College, Glasgow. Fellowships are also provided in connexion with the undermentioned Dominion and Foreign countries. The value is normally £300 a year, but some of the fellowships are of greater value.

### ALBERT KAHN TRAVELLING FELLOWSHIPS

Founded by M. Albert Kahn of Paris "to enable men of proved intellectual attainments to enjoy during one yr or more sufficient leisure and freedom from all professional pursuits or preoccupations to enter into personal contact with men and countries they might otherwise never have known; to issue from the world of books and their narrow sphere of habitual interests into the broader world of various civilizations, and all such human interests, struggles, and endeavours as go to the making of general civilization "Value originally £660 (namely, £600 for travelling expenses and £60 for books and souvenirs), increased since 1920 to £1000 Open to British subjects. men or women, who have graduated, or qualified for graduation, at a Univ in the U K No age limit is imposed, but preference will probably be given, other things being equal, to persons between 25 and 35 Elections are made not later than May 31 each yr on nominations made by the Vice-Chancellors of the Univs in the UK, or the President of the Royal Society, or the President of the British Academy. Address of the Secy to the Trustees (F J Port, LL D), University of London, South Kensington, S W 7 Fellow for 1928-29. Prof R Peers, M A., University College, Nottingham

# EMPIRE COTTON GROWING CORPORATION'S POST-GRADUATION STUDENTSHIPS

In 1928 a maximum of twelve were offered to provide opportunity to men of British nationality, either for additional training in research methods in, or for advanced study of, plant physiology, genetics, mycology, entomology, tropical agriculture, etc. Value £250 each, in addition to tuition fees in the case of those holding their studentships at the Imperial College of Tropical Agriculture, Trinidad, with additional allowances for books and travelling expenses.

### CANCER AND OTHER DISEASES

The Imperial Cancer Research Fund, which is under the direction of the RCP London and the RCS England, was constituted in 1902 to promote investigations into all matters bearing on the causes, prevention, and treatment of cancer and malignant disease. It possesses Research Laboratories and a Staff consisting of the Director and 5 Scientific Assistants. It publishes a general report annually and Scientific Reports from time to time Endowment fund, £160,000 Address—8-11 Oueen Square, London, WCI.

The British Empire Cancer Campaign was founded in May 1923 to co-ordinate and support research on cancer throughout the Empire. The governing body includes representatives from the Imperial Cancer Research Fund and from each of the principal hospitals with cancer research departments. Chairman, Viscount Cave, GCMG. The Scientific and Advisory Committee of the Campaign is set up jointly with the Royal Society and the Medical Research Council of the Privy Council and the Campaign, and the Radiology Committee of the Medical Research Council, augmented by representatives of the British Empire Cancer Campaign, acts jointly for both bodies. Address—Sir Richard Garton, G.BE, Hon Secy., 19 Berkeley St, London, W.1

#### GROCERS' COMPANY'S SCHOLARSHIPS

Three, £300 each, for I yr, renewable for I or 2 yrs, for inquiry into Causation of Prevalent Disease or as to means of Prevention of Premature Death. Cost of apparatus, etc., will be defrayed up to £300 in any one year. No other scholarship to be held or remunerative employment undertaken without sanction. Open to British subjects under 35. Applications in piescribed form receivable before April I by the Clerk, Grocers' Hall, Princes Street, London, E.C 2

### ENGINEERING AND NAVAL ARCHITECTURE

The Institution of Naval Architects, 5 Adelphi Terrace, London, W.C 2, offered for 1928 scholarships tenable 4 years at Glasgow Univ, 3 years at Armstrong College, Liverpool Univ., R.N. College, and City and Guilds (Engineering) College, London — In Naval Architecture, one of the value of £100 p a and one of the value of £130 p a — Open to British apprentices or students — Two Post-graduation Scholarships in Naval Architecture, candidates to be nominated by above Univs, each for two years, one of £250 p a and the other (a part-time scholarship in N A or Marine Engineering) £150 p.a

Norton and Gregory Ld, 1 and 2 Castle Lane, Westminster, London, S.W.1, offer scholarships in Engineering, one of £100 p a and one of £50 p a, tenable for 3 years at any Univ in the U K or British Dominions Open to candidates domiciled in U.K aged 17-19. [In abeyance]

The British Electrical and Allied Manufacturers' Assocn,

36 Kingsway, London, W.C.2, has granted scholarships in Engineering of £100 plus college fees to apprentices or students of British birth. The scheme is under revision.

The Institution of Mining Engineers awarded a "Mavor and Coulson" travelling graduate scholarship of £300 for 1927–28, and a similar scholarship is offered for 1928–29

### JOHNSTON CHEMICAL SCHOLARSHIP AND PRIZE

Value £150 for 1 yr., awarded on the results of an examn in Chem with Crystallography or Mineralogy, and tenable at Armstrong College involving at least 24 hours per week throughout the session. Open to B Sc of any British Univ of not more than 3 yrs.' standing from graduation Evidence of previous training and ability to conduct an original Chem investigation is required.

#### SALTERS' INSTITUTE OF INDUSTRIAL CHEMISTRY

The Institute offers Fellowships to chemists of graduate standing to enable them to undergo a special further training for careers in chemical industry. The value of a Fellowship is normally from £250 to £300. The course to be followed by a Fellow will be designed to add to his scientific equipment. Further particulars may be had from the Director of the Institute, Salters' Hall, St. Swithin's Lane, London, E.C. 4.

### LONDON CHAMBER OF COMMERCE FOREIGN LANGUAGES SCHOLARSHIPS

From the Charles R E Bell Fund two scholarships, value £150 each, will be awarded in 1929 and annually until further notice for continuous residence and language study for not less than 6 months in a foreign European country. Open to approved male candidates between 16 and 23 whose parents are natural-born British subjects. Candidates must pass the Chamber's Senior examn in English and pass with distinction in one foreign language. Commercial Education Dept. of the L Ch C., Oxford Court, Cannon St., London, E C 4

### BRADFORD CHAMBER OF COMMERCE FOREIGN LANGUAGES SCHOLARSHIPS

Endowment, £40,000, established Dec 1924, for making grants for maintenance of British-born students (preferably Yorkshiremen) in foreign countries with the view of promoting commerce between England and such foreign countries. Grants are for 6 months' residence, and may be renewed up to 18 months. Holders will be expected to be affiliated to business firms of good standing in the countries they go to. Preference to persons intending to study Spanish or Russian. Application forms (price is.) obtainable from the Secretary to the Chamber.

#### KITCHENER SCHOLARSHIPS

For Study and Training. Maximum period, 6 yrs.; minimum age, 17. Open to sons of officers and men of H.M. Forces Value and length of tenure will in each case be such as to enable successful candidates to undertake a complete course of advanced education at any Univ. or other approved institution. Scholarships are offered annually in Jan., conditions being advertised about the middle of the month. The number awarded in 1928 was 101.

Application for full information should be made to the Secy, Lord Kitchener National Memorial Fund, 34 Norfolk St., Stiand, London, W.C.2.

# IMPERIAL ORDER DAUGHTERS OF THE EMPIRE SCHOLARSHIPS

Undergraduate, 36, held in Canadian Univs. by sons and daughters of deceased or totally disabled soldiers and sailors Graduate, 9, held at Oxford, London, and Liverpool in 1927-28 Address of the Order—Dominion Bank Chambers, 238 Bloor Street East, Toronto

## SCHOLARSHIPS OF THE FELLOWSHIP OF THE BRITISH EMPIRE EXHIBITION

The Fellowship is an unincorporated body formed originally to help the Exhibition At the close of the Exhibition, with the approval of its President, HRH the Prince of Wales, the Fellowship decided to remain in existence and work for Empire trade and the better distribution of the Empire's white population Owing chiefly to the fact that its administration was carried on by unpaid volunteer workers, it was able to save from its revenue for a Scholarship Fund a sum of nearly £10,000, which was largely increased by grants-in-aid from various sources. The Scholarship Trust of the Fellowship decided to devote a proportion of the Fund to granting sums to the Overseas Dominions to help to send research scholars to the Mother Country Four of these Scholarships have been already taken up by Canada, New Zealand, India, and Newfoundland. Grants were also made from the Scholarship Fund for various educational purposes. Thus a sum of £500 was devoted to the Imperial College of Tropical Agriculture, West Indies, and was used to equip its laboratories with microscopes.

#### CENTRAL BUREAU LOAN FUND

The CENTRAL EMPLOYMENT BUREAU FOR WOMEN AND STUDENTS' CAREERS ASSOCIATION (incorporated), 54 Russell Square, London, W.C.I, has established a loan fund to help educated women who are without the means of training for professional work. No interest is charged. For University Education, Research Work, or technical Training of any kind loans are available. Amount of Fund, £8000.

# FREE PASSAGES TO AUSTRALIA AND NEW ZEALAND AND BACK

The six chief passenger lines serving Australia and New Zealand place eight first-class return tickets, annually, at the disposal of the Universities Bureau for graduates of the Univs of Great Britain and Ireland who wish to visit these Dominions (a) for the purpose of holding temporary teaching-posts, or (b) for the purpose of prosecuting research work into problems connected with their development and resources. Application must be made to the Bureau by the authorities of the graduate's Univ.

#### CITY OF LONDON VACATION COURSE SCHOLARSHIP

£300 to enable a teacher, actively engaged in teaching work in any part of Great Britain or Ireland, to proceed to America for some months in order to conduct research work in the field of education of children between 6 and 14. Address the Secy., City of London Vacation Course, Montague House, Russell Sq , W C I Donor (1928), Irving T. Bush.

#### ENGLISH-SPEAKING UNION'S SCHOLARSHIPS

For British Women Teachers. Page Travelling Scholarship, £50 and complete hospitality in America during the summer vacation. Chautauqua Scholarships (2), for the summer school, July and August, in the State of New York, covering cost of lectures and complete hospitality for 6 weeks. Applications receivable up to March I by the E.S.U., Dartmouth House, 37 Charles St., Berkeley Sq., London, W.I

## SIR GEORGE WATSON CHAIR OF AMERICAN HISTORY, LITERATURE AND INSTITUTIONS

Founded by Sir W. G Watson, Bt., who presented £20,000 for the purpose on the occasion of the return of the Prince of Wales from his Each year's course will usually comprise about 6 lectures by an eminent authority, American or British. The courses will be given in the various British Univs. in rotation. A general Inaugural Lecture was given in London by the late Viscount Bryce, O M, in July 1921 This has been published in England by the Cambridge Univ Press, together with the lectures of 1922 by Dr. A. T. Hadley (ex-President of Yale); 1923, by Dr Nicholas Murray Butler (President of Columbia Univ), 1924, by Prof. A. F Pollard (University College, London), 1925, by Sir Robert Falconer (President of Toronto Univ.): 1926, by Dr Robert McElroy (Harold Vyvyan Harmsworth Professor of American History at Oxford Univ), 1927, by Dr Claude H Van Tyne (Prof of History, Michigan). The Lecturer for 1928 was Dr Reginald Coupland, Beit Professor of Colonial History at Oxford The Foundation is administered by the Sulgrave Manor University Board, I Central Buildings, Westminster, London, S.W.I.

## AMERICAN UNIVERSITY AND COLLEGE SCHOLAR-SHIPS FOR BRITISH STUDENTS

Commonwealth Fund Fellowships, established 1925. Twenty to be awarded annually. Value about £600 each per annum, tenable ordinarily for two years in one of the 26 institutions belonging to the Association of American Universities (see list in Appendix XXIV) Candidates (who must be unmarried and not over 30 years of age) are to be nominated by universities in Great Britain and Ireland, and the final selections will be made by a Committee of Award, of which HRH the Prince of Wales is Honorary Chairman, and Sir Walter R Buchanan-Riddell, Principal of Hertford College, Oxford, Chairman The office of the Committee is at 50 Russell Square, London, W.C. I. Among other conditions of tenure is a requirement that at least 3 months must be spent in travel in the U.S.A at the close of the first year of study.

Rose Sidgwich Memorial Fellowship Established by Americans in memory of a member of the British Educational Mission which visited the USA in 1918, in recognition of her service in the cause of Anglo-American friendship Administered by the American Association of University Women. Value \$2000 (providing tuition and residence during term for 1 yr, and about \$400 in cash towards travelling expenses and incidental fees), tenable at any approved College or Univ. in the USA. Open to British women (preferably from 25 to 35 years of age) of graduate standing. This Fellowship will next be awarded in 1930. Particulars may be obtained from the Secy. British Federation of Univ. Women, Crosby Hall, Cheyne Walk, London, S.W.3.

Choate Memorial Fellowship, \$2000, of the Harvard Club of New York City, 27 West 44th Street Awarded on nomination and recommendation of the Vice-Chancellor of Cambridge to a British subject coming from Camb to study in any department of Harvard Univ The Choate Fellow has a right to a room in College free of charge

Henry P. Davison Scholarships (6), \$1500 plus tuition fees (about £50) tenable at Harvard, Yale, and Princeton, for one year Open to Oxford and Cambridge undergraduates and BA, unmarried. Scholars are chosen on basis of character, scholarship, and fitness to represent the Univ No examn Secretaries: A L. Goodhart, Corpus Christi College, Cambridge, A C Jacobs, Onel College, Oxford.

Laura Spelman Rochefeller Memorial Fellowships for research in the social sciences, tenable in U.S.A., France, Germany, Italy, and certain other European countries—Intended primarily for graduates who have begun research and may be expected to produce important work in economics, sociology, political science, history, psychology, or anthropology, or, in certain cases, philosophy, geography, law, or education. Men and women are alike eligible. The regular stipend is \$1800 plus travelling expenses and university fees, but special financial arrangements can be made to meet special needs—Fellowships may be given for one, two, or three years—Applications are not invited from candidates. The procedure preferred is that the responsible academic or

other authority, who knows the candidate's work and wishes to nominate him, should write to the Memorial's representative for Great Britain and Ireland, J. R. M. Butler, Trinity College, Cambridge.

BRYN MAWR COLLEGE. Five graduate scholarships for women students living outside the United States and Canada. Value \$1000. (Fees for tuition and, during term only, board and residence during one academic year amount to \$720 approximately) Applications receivable up to April 1

SMITH COLLEGE, Northampton, Mass.—Six fellowships, \$600 and tuition, open to women graduates either of Smith College or of other Colleges of equal rank.

Union Theological Seminary, NY City. Fellowship in Theol., \$1200, for advanced graduate work. Open to theol. students of high grade of England and Wales of any ecclesiastical communion who have completed a regular theol course. Applications receivable by the Rev. the Principal, Mansfield College, Oxford, or Prof. G. S. Duncan, St. Mary's College, St. Andrews. Latest date, May 31.

PRINCETON Jane Eliza Procter Visiting Fellowships Three of \$2500 each annually, for 2 British scholars (to be nominated by the Univs of Oxford and Cambridge) and I French, tenable for one year, with possibility of renewal, in Princeton Graduate College, for independent advanced study and investigation in purely liberal arts and sciences, exclusive of professional, technical, or commercial subjects, open only to unmarried young men holding a degree in distinctively liberal studies and of reasonably good health, high character, and exceptional scholarly power—Applications for an ensuing academic year should be made directly to the Dean of the Graduate School, Princeton, New Jersey, USA, before March I

MICHIGAN The Riggs Foundation under the auspices of the English-Speaking Union. Fellowships for British graduates. \$1200 each, tenable in the Univ of Michigan, one year Preference to students of History and Economics. The Associate-Director, American University Union, 50 Russell Sq., London, W.C., is Secretary to the Selection Committee

Many American Universities having "Graduate Schools" offer Research Scholarships and Fellowships of from \$300 to \$2000 p.a which are ordinarily open to Foreign as well as to American students Nearly all the American Univs other than State Univs., and a few of the latter, offer each year fellowships of from \$200 to \$800 which are open to Foreign students Most American Univs. close their scholarship lists about March 1 The Institute of International Education (2 West 45th St., New York) publishes lists of fellowships, etc., offered to Americans for study abroad and vice versa. These may be seen at the American University Union, 50 Russell Sq., London, W.C.I.

A tentative plan for the establishment of fellowships for British subjects in American Univs which was formulated by President Frank Aydelotte of Swarthmore College, American Secretary of the Rhodes Scholarship Trust, in 1922, has, in the main, been realized in the Laura Spelman Rockefeller and Commonwealth Fund Fellowships.

#### FRENCH UNIVERSITY SCHOLARSHIPS

A scholarship of 8000 fr., open to Australians for undergraduate or graduate work. Office National des Universités et Écoles Françaises, 96 Bd. Raspail, Paris (6°)

"La Bienvenue Française," 19 Rue du Four, founded in 1921, offers every scholastic year hospitality to one student of science of each of the following nationalities: French, British, Belgian, Italian, Czecho-Slovakian, American, Spanish, at the "Fondation Thors," Castle of Prunay, Louveciennes, Seine-et-Oise

## INTERNATIONAL FELLOWSHIPS, ETC, OF FEDERATIONS OF UNIVERSITY WOMEN

The International Federation of University Women is raising funds for Travelling Fellowships for women graduates of all countries, to be available for a year's research work in some country other than that of the holder The first, for scientific research, was awaided in 1928 A research fellowship in Arts will be awarded in 1929 Value £250

The American Assocn of University Women offers \$1500 annually to enable a member of the International Federation of University Women to carry on a year's research in some country other than her own

The Canadian Federation has founded a Scholarship enabling a woman graduate of a Canadian Univ. to study at a Univ. of any other country represented in the International Federation.

The Spanish Federation offers a Fellowship of 4000 pesetas tenable for study in Madrid during the year 1928–29, and open to members of the International Federation

Information about all the above Fellowships may be obtained from the Secretary, International Federation of University Women, Crosby Hall, Cheyne Walk, London, S W  $_3$ 

# GOVERNMENT GRANTS FOR SCIENTIFIC AND INDUSTRIAL RESEARCH

The total expenditure estimated for 1928 of the Department of Scientific and Industrial Research was £739,506. This included headquarters administration, £31,533; Geological Survey and Museum of Practical Geology, £68,530; and various research programmes, £496,591

Grants to individual research workers (£30,000) are made on recommendations by individual professors. During 1927-28 the Department made 148 allowances to students for training in research in Univs. and Colleges, 28 grants to research workers to undertake independent research or act as scientific assistants to investigators of standing, 5 grants to scientific workers to enable them to employ laboratory or

clerical assistants or to purchase equipment. The system is intended to supplement and not in any way to supersede existing provision, national or local, for post-graduate research. Particulars of these grants will be found in the pamphlet, Notes on the Grants to Research Workers and Students, price 2d, from any bookseller.

In July 1928 the number of Industrial Research Associations recognized by the Department and in operation was 24 Particulars of them and of Research Stations under the Department are given in Appendix XXVI.

Developments in the organization of industrial research in the Overseas Dominions are described in an Appendix to the Annual Report of the Department for 1926-27

The Imperial Institute, with which the Imperial Mineral Resources Bureau was amalgamated in 1925, has technical laboratories and workshops, and is organized to supply technical information dealing with raw materials of all kinds and the mineral resources of the Empire It is under the statutory control of the Department of Overseas Trade Further particulars are given in Appendix XXVI

## MINISTRY OF AGRICULTURE AND FISHERIES AND DEVELOPMENT COMMISSION

Grants for Agricultural (and Veterinary) Research. For some few years past the Ministry has awarded annually Research Scholarships (£200 p a for 3 yrs) to assist promising students—usually honours graduates in Science of a British Univ —to qualify as research workers—In 1927, 6 were awarded to students of Cambridge, Liverpool, and Glasgow Universities—In 1921 the Ministry instituted Travelling Research Fellowships for members of staffs of aided research institutions. In 1927, 9 were awarded to members of the staffs at Aberystwyth, Bangor, Cambridge, Leeds, Oxford, and the Rothamsted Research Station

The Ministry has allocated (with a view to the concentration at one institution or at institutions working in combination of the scientific work in each of certain definite groups of subjects) grants-inaid for the maintenance of research departments of institutions as follows Agr Engineering—Oxford Univ, Agr Parasitology—London School of Hygiene and Tropical Medicine, Fruit-growing—Bristol Univ, East Malling Research Station (near Maidstone), Animal Nutrition—Cambridge Univ., Plant-breeding—Cambridge Univ., University College of Wales, Aberystwyth; Plant Physiology—Imperial College of Science, Economics of Agr.—Oxford Univ.; Dairying—Reading Univ., Plant Nutrition and Soil Problems and Plant Pathology—Rothamsted Experimental Station, Haipenden, Herts, Crop Improvement and Seed and Potato Testing—Nat. Inst of Agr. Botany, Cambridge, Animal Pathology—Royal Vet. College, Camden Town, London, N.W.I, Cambridge Univ., and the Ministry's Vet. Laboratory, Addlestone, Weybridge; Small Animal Breeding—Cambridge Univ.; Glasshouse Culture—Cheshunt Experimental Station.

In addition to the above, grants are made for research in Bee-culture to Rothamsted Exptl. Station, Silver-leaf disease research to Camb. Univ, Testing new varieties of fruit trees to Royal Hortic Soc.

A grant has also been made to enable the Agr Depts of the following institutions to supplement in cases calling for special scientific knowledge and training the advice usually given by members of the county Agr Staffs Armstrong Coll, Bristol, Cambridge, Leeds, Manchester, and Reading Univs, Aberystwyth, Bangor and Cardiff Univ Colleges, S Eastern (Wye), Harper-Adams (Newport), Midland (Sutton-Bonnington, Notts), and Seale-Hayne (Newton-Abbot) Agr Colleges Grant for 1926–27, £60,400

Special research grants amounting in the aggregate to £2785 for work in 1927-28 were made to Cambridge, Liverpool, Manchester, Reading, and Oxford Univs, East Malling Research Station, Harper

Adams, S Eastern Agr (Wye), and Bangor Colleges

In a leaflet (197) issued by the Ministry in Sept 1920 (revised November 1925) information is given regarding some of the abovementioned grants and generally regarding Agr. Education and Research in England and Wales V also Appendix XXVI.

FISHERY RESEARCH. Researches likely to lead to results bearing on the development and improvement of fisheries are eligible for advances from the Development Fund as follows: I Grants-in-aid of the general work of Independent Marine Institutions, to aid fundamental researches forming part of the Institution's continuous programme of work

2. Grants for Specific Researches (a) Directed to definite economic ends of use to the Fishing Industry, or (b) "Free" researches. The Development Commrs will also be prepared to consider applications for additional grants for temporary assistants and for apparatus, etc, to enable members of the staff of a Marine Institution to prosecute special lines of inquiry

The amount provided in the Ministry's estimates for 1927-28 for

grants under 2 (a) was £1275

Detailed information regarding the promotion of Agricultural education and research is contained in the annual reports of the DE-VELOPMENT COMMISSIONERS (6A Dean's Yard, Westminster, London, S W 1), obtainable from H M Stationery Office

Colonial Agricultural Scholarships About 20 scholarships, usually tenable for two years, of the value of £250 p a, will be offered annually between 1925 and 1933, (a) for Agricultural Research, (b) for General Agriculture Candidates for (a) scholarships should hold an Honours degree in Pure Science, and for (b) a degree in Natural Science or Agriculture Scholarship holders will spend part of their course at the Imperial College of Tropical Agriculture in Trinidad, or some similar Institution On completing their course they may be selected for appointment to the Colonial Agricultural Service. For further particulars application should be made to the Private Secretary (Appointments) to the Secretary of State for the Colonies, 2 Richmond Terrace, Whitehall, S W.I.

#### MEDICAL RESEARCH COUNCIL

The Medical Research Council (38 Old Queen St, Westminster, S.W 1), formerly the Medical Research Committee established in 1913 under the Nat. Health Insurance Act, are now under the direction of a Committee of the Privy Council. They apply money voted by Parliament or received from private sources for the furtherance of medical research. Grants are made to qualified investigators in respect of approved programmes of research work to be carried out in Univs . Medical Schools, Hospitals, or other institutions. Names of recipients and accounts of the schemes of research supported are given in the Council's Annual Reports published by H.M. Stationery Office. Grants may be either personal, i.e to provide remuneration in respect of wholetime or part-time work devoted to particular subjects approved by the Council, or for expenses necessarily incurred in the prosecution of the approved researches Rockefeller Medical Fellowships tenable in the U.S A are also provided for graduates in medicine or related branches of science for 1927-28 seven were awarded.

#### EMPIRE MARKETING BOARD

The Empire Marketing Board was set up in 1926 to advise the Secretary of State for Dominion Affairs in the administration of an annual Parliamentary Vote for the furtherance of the marketing of Empire produce (including home agricultural produce) in the United Kingdom The main activities of the Board are in the fields of scientific research, economic investigation, and publicity. Many grants for scientific research have been made to institutions both at home and overseas Address—2 Queen Anne's Gate Bldgs, Dartmouth St, S.W I

At Singapore is an Epidemiological Information Bureau established by the League of Nations with the support of the Rockefeller Foundation. It receives annual subsidies from several Governments Address—League of Nations, Health Section, Eastern Bureau, 134 Robinson Rd., Singapore.

## RESEARCH IN CANADA, AUSTRALIA, AND AFRICA

Canada The Government of Canada in 1916 constituted the Honorary Advisory Council for Scientific and Industrial Research, now known under the short title—" National Research Council," consisting of 15 scientists and business men, all of whom, excepting the President of the Council, serve on an honorary basis. This Council has engaged in three major activities. 1st, the co-ordination of research work and the organization of co-operative investigations, 2nd, the post-graduation training of research workers, 3rd, the prosecution of research work through assisted research grants. Expenditure in 1927–28, \$201,672.63, including \$41,855.00 for scholarships and \$108,163.28 for assisted researches.

During the 1928 session of Parliament, the vote for the current expenses of the Council was increased to \$300,000, and in addition an appropriation of \$750,000 was provided for the erection of the first unit of National Research Laboratories under the control and direction of the Council

AUSTRALIA. The National Research Council was founded in 1921 to represent Australia in the International Research Council, and also serves as a national academy of pure and applied science (all branches)

The Commonwealth Council for Scientific and Industrial Research was established by the Science and Industry Research Act, 1926, and has taken the place of the former Institute of Science and Industry, which was constituted in 1921, and had succeeded a temporary Advisory Council of Science and Industry which was created in 1916 Council consists of 3 nominees of the Commonwealth Government, the Chairman of each State Committee constituted by the Act, and other persons co-opted for their scientific knowledge Its main functions (a) to carry out scientific researches in connexion with the primary and secondary industries of Australia, (b) to train research workers. (c) to make grants in aid of pure scientific research, (d) to carry out the testing and standardization of scientific instruments and apparatus, and (e) to act as a means of haison between the Commonwealth and other countries in matters of scientific research. In the formation of the Council, the Government made a grant to it of a sum of £250,000 for research work and investigations for an unspecified period. A like sum was made available to the Council by the Government two years The Council has decided to concentrate efforts mainly on 5 major branches, viz (a) plant problems, (b) animal problems, (c) forest products, (d) fuel problems (especially liquid fuels), and (e) preservation of foodstuffs, especially cold storage Already Divisions of Economic Entomology, of Economic Botany, of Animal Nutrition, and of Forest Productions have been organized, and several investigators are occupied on investigations of various animal diseases organization is proceeding of work on cold storage and in fuels Council is working in close co-operation with the State Government Departments, the Universities, and other institutions It is also cooperating with the British Department for Scientific and Industrial Research

Under the Science and Industry Endowment Act, 1926, the Commonwealth Government has established a capital fund, the income from which is to be used to provide assistance (a) to persons engaged in scientific research, and (b) in the training of students in scientific research (Chief Executive Officer, Dr. A. C. D. Rivett, M. A., D. Sc., Secretary, Gerald Lightfoot, M. A., 314 Albert Street, East Melbourne)

The Australian Institute of Tropical Medicine, Townsville, North Queensland, is under the control of the Commonwealth Department of Health. The staff, consisting of a Director, 4 medical officers, and an entomologist with technical assistants, etc., perform educational and diagnostic as well as investigational functions.

The New Zealand Institute, established in 1867, controls 2 funds

which are available for grants to aid scientific workers: the Government Research Grant Fund and Hutton Memorial Fund controls 3 Memorial Funds from which prizes are awarded at intervals for distinguished scientific work It publishes annually its Transactions and Proceedings. The Cawthron Institute of Scientific Research at Nelson concerns itself specially with agriculture and fruit-growing. The State Forest Service conducts experiments in regard to the value of the Dominion's timbers.

The Research Grant Board of the Union of South SOUTH AFRICA Africa was instituted in 1918 The principal functions of the Board are to advise the Government generally regarding the encouragement of Research in the Union and to administer all Government Grants-in-Aid It is also the body through which the Union of South Africa is affiliated to the International Research Council, and its organization is further utilized for the award and administration of the Government Industries and Commerce Overseas Scholarships.

The Board is attached to the Department of Mines and Industries. and reports to the Minister for Mines and Industries and the Minister for Education.

Research Scholarships and Grants. The recipients of the scholarships are mostly University Graduates who are undertaking research for the first time under the supervision of their professors, while the grants are awarded to members of the staffs of the Universities and Museums, besides others, who have generally a considerable amount of research to their credit The grants are made to defray such necessary expenses as the purchase of apparatus, material, and literature, travelling expenses, and the cost of publication of the results of research. The scholarships differ further from the grants in including subsistence during the period of research

Oversea Scholarships for Study of Commerce and Industries. These scholarships are of the value of £250 per annum for periods of two or three years. Since its inception the Board has allotted twenty-nine scholarships, one hundred and sixty grants-in-aid of research, and six oversea industries scholarships

Carnegie Corporation of New York. The Board, on the invitation of the Carnegie Corporation, is assisting in the distribution and administration of funds contributed by the Corporation in support of research in South Africa. The programme is for a period of five years, and includes. in addition to grants for research purposes, travelling allowances for men and women based on the plan of the Guggenheim Fellowships of the United States of America. The Board, at the request of the Carnegie Corporation, is also collaborating with the Dutch Reformed Church in research in connection with the "Poor White" problem of the Union.

SUDAN. Opposite the School of Medicine, Khartoum, are established the Wellcome Tropical Research Laboratories, where research and a large number of routine examinations are carried out by Government Bacteriologists, Chemists, and Entomologists.

## RESEARCH IN INDIA

Under the new Constitution the development of industries is a Provincial transferred subject and the Government policy in regard to research work is to a large extent determined provincially The Indian Institute of Science, Bangalore, is concerned with the application of science to industry and agriculture (v section), the practical side of research work conducted there has been developed in recent years. There are Research Institutes at Pusa (Agricultural, dealing with problems of general or all-India importance in the various sections of Botany, Chemistry, Bacteriology, etc.), Dehra Dun (Forestry), and Cawnpore (General Applied Chemistry, Vegetable Oils, Leather, and Tinctorial Chemistry) The Royal Institute of Science, Bombay, is designed to conduct undergraduate teaching side by side with postgraduate research in the Departments of Chemistry, Physics, and Biology. The Central Cotton Committee's Technological Research Laboratory, Matumga, Bombay, opened in Dec 1924, is for research work on cotton problems, testing of cotton yarns, and chemical examination of cotton sent for trial In addition, the Committee places graves, in-aid at the disposal of Provincial Departments of Agriculturat the research work on cotton, and is contributing to the expenses of the new Institute of Plant Industries at Indore. At the Imperial Institute of Veterinary Research, Muktesar, research activities in cattle diseases have been developed on an unprecedented scale A School of Mines and Geology has been opened at Dhanbad, and a project is in hand for a Forest Research Institute in Burma In addition there is a Research Tannery at Calcutta, and an Imperial Research Laboratory in Bengal is contemplated The Indian Lac Association for Research is financed by a cess on the exports of lac, and employs the funds so received on research work connected with the cultivation of lac and the manufacture of The Research Station is situated in Ranchi The Sir I. C. Bose Research Institute, Calcutta, founded in 1917, is concerned especially with Plant Biology. Its position has been consolidated by an annual grant from the revenues of the Govt of India of Rs 103,000 Indian Association for the Cultivation of Science, Calcutta, also receives a grant of Rs 20,000 a year from the Government of India

Medical research is systematically arranged for by the Government of India, either directly or through local Governments, at central or provincial institutions. The chief of these are the Central Research Institute, Kasauli, the School of Tropical Medicine and Hygiene, Calcutta, the Haffkine Institute, Bombay, the King Institute of Preventive Medicine, Madras, King Edward VII Memorial Pasteur Institute, Shillong, and the Pasteur Institutes at Kasauli, Coonoor, and Rangoon. The Indian Research Fund Association, which receives its income from grants by the Government of India, assists in financing enquiries based on all these institutions, and employs not only Indian Medical Service Officers but also workers outside the Services in attempting to elucidate the various tropical disease problems which are most urgent. The avowed objects of the Association are the prosecution and assistance of medical research, the propagation of

knowledge and experimental measures generally in connexion with the causation, mode of spread, and prevention of diseases, primarily those of a communicable nature. All proposals for research under the Association are examined by the Scientific Advisory Board, which consists of experts chosen from the Research Institutes of the country as well as from the central medical administration. This Committee is thus able, not only to assess the value of proposals, but also to co-ordinate and prevent overlapping, and it is largely on its recommendations that the grants from the Association are made. Apart from grants-in-aid to teachers, bureaux, and publications, it has financed numerous researches, the selected results of which are published quarterly in the Indian Journal of Medical Research and its Memoirs.

# INTERNATIONAL FOUNDATIONS AND ORGANIZATIONS FOR RESEARCH

FONDATION UNIVERSITAIRE, 11 rue d'Egmont, Brussels, founded in 1920 with a capital of 55 million francs derived from the unexpended balance of the funds of the Commission for Relief in Belgium, aims (I) at helping impecunious young Belgians to take courses in Institutions for higher education and (2) at developing scientific production in Belgium It makes loans for the first purpose and grants and subsidies for the second In the year 1927-28 its loans for University study amounted to 1,084,750 francs, its subsidies to 983,420 francs. The subsidies included grants for study to be carried on, in European Univs, for training in Scientific Research, for research workers, and for scientific publications Grants for study in American Universities were made to 10 Belgian graduates, and grants for study in Belgian Universities to 3 Americans. The Foundation arranges exchange visits of Professors. A club-house was established at 11 rue d'Egmont in 1922 for Belgian Univ Professors It is open also to foreign professors invited by members of the club. It has lodging accommodation.

ELLEN RICHARDS RESEARCH PRIZE, \$1000, for a thesis written in English by a woman on a scientific subject. Latest date, Feb. 28. Particulars obtainable from Dr Lilian Welsh, Goucher College, Baltimore, Md., U.S A

Nobel Prizes, founded by Alfred Nobel, who died in 1896, awarded for contributions to the common good by workers in (a) Physics, (b) Chemistry, (c) Medicine or Physiology, (d) Literature, (e) the Preservation of Peace. The prizes, worth from Kr. 115,000 to Kr. 150,000 each, are awarded for (a) and (b) by the Swedish Academy of Science, for (c) by the Stockholm Faculty of Medicine, for (d) by the Swedish Academy of Literature, and for (e) by a committee elected by the Norwegian Storthing. Among the categories of persons qualified for candidature for prize (e) are University Professors of Political Science and Law, of History, and of Philosophy. Particulars can be obtained from Nobelstiftelsens Styrelse, Sturegatan 14, Stockholm, Sweden. Among prize-winners of past years the following have a special interest for English-speaking students: (a) 1904, Lord Rayleigh; 1906, J. J.

Thomson; 1907, A. A. Michelson; 1915, W. H. Bragg and W. L. Bragg; 1917, Ch. G. Barkla; 1923, R. A. Millikan; (b) 1904, Sir Wm. Ramsay; 1908, E. Rutherford; 1914, T. W. Richards; 1922, F. Soddy, F. W. Aston; (c) 1902, Sir Ronald Ross; 1912, Alexis Carrel; 1922, A. V. Hill; 1923, F. G. Banting and J. J. R. Maclecd; (d) 1907, Rudyard Kipling; 1913, Rabindranath Tagore; 1923, W. B. Yeats; 1926, G. B. Shaw; (e) 1903, Sir W. R. Cremer; 1906, Theodore Roosevelt; 1912, Elihu Root, 1919, W. Wilson, 1926, Sir Austen Chamberlain and General Ch. G. Dawes, 1927, A. H. Compton and C. T. R. Wilson

Fondation George Montefiore offers triennially a prize of the value of 22,000 francs "au meilleur travail original présenté sur l'avancement scientifique et sur les progrès dans les applications techniques de l'électricité dans tous les domaines, à l'exclusion des ouvrages de vulgarisation ou de simple compilation "Secrétairearchiviste de la Fondation George Montefiore à l'hôtel de l'Association, rue Saint-Gilles 31, Liége (Belgique)

VISSER INTERNATIONAL LAW PRIZE (triennial). Administered by Leyden Univ. (Legatum Visserianum). 5000 guilders. Next competition, May 1930, subject—Unlawful Acts of States, language—Dutch, English, French, or German

PRIX HOLLANDAIS, 10,000 fr , and Prix d'Ault du Mesnil, 1800 fr , for work in physical or prehistoric anthropology, trienmially, beginning 1930 Institut International d'Anthropologie, 15 rue de l'École de Médecine. Paris, vi

International Research Council, Palais des Académies, Brussels General Secretary—Sir Arthur Schuster, Royal Society, Burlington House, Will This body has been constituted with effect from Jan. 1, 1920, in pursuance of a resolution adopted in Nov. 1918 at a Conference in Paris at which the principal Allied Academies were represented. Under the auspices of the Council, International Unions have been formed for Astronomy, Geodesy and Geophysics, Pure and Applied Chemistry, Mathematics, Physics, Radio-Telegraphy, Biological Sciences, and Geography

UNION ACADÉMIQUE INTERNATIONALE (for co-operation in the advancement of studies by means of collective researches and publications in the fields of Archæology, History, Philology, and Moral, Political, and Social Science) The Union was constituted in 1919 on the initiative of the Académie des Inscriptions et Belles-Lettres Its address is Palais des Académies, Bruxelles. The British Academy is affiliated to it.

Modern Humanities Research Association, founded at Cambridge, June 1, 1918, for the encouragement of advanced study in Modern Languages and Literatures by co-operation. Has 62 correspondents and about 800 members. Press organ: Modern Language Review, quarterly, 78. Hon Secy: Prof. E. Allison Peers, The University, Liverpool. Hon Treasurer: L. C. Maxtin, The University, Liverpool. Sub-Secy for America. Prof. A. H. Nason, Box 84, University Heights, New York City, U.S.A.

## XXIV

### FEDERATIONS AND FOREIGN UNIVERSITIES

[From 1921 to 1925 inclusive the Yearbook contained in this appendix brief notes concerning the principal foreign universities. It has been decided, in view of the publication by the National Union of Scottish Students of a new Handbook on Foreign Study, to discontinue these notes for the present, with the exception of the accounts of universities in the United States, which are retained on account of the great increase that has recently taken place in the number of scholarships for British students tenable in that country]

The League of Nations Committee on Infellectual Cooperation has entrusted to the University Relations Section of the International Institute of Intellectual Co-operation (2 Rue de Montpensier, Paris I) the production of the Bulletin for University Relations formerly issued by it at Geneva Annual subs (6 Nos), ios, payable to the publishers, Les Presses Universitaires de France, 49 Boulevard Saint-Michel, Paris V—The University Relations Section organizes annually conferences of the directors of National University Offices and of the representatives of International Associations of Students.

The Confédération Internationale des Étudiants was formed at Strasbourg in 1919 by official representatives of the National Unions of Students of Belgium, Czecho-Slovakia, France, Luxembourg, Poland, Roumania, and Spain, and unofficial representatives of students of 10 other countries - Denmark, England, Greece, Holland, Italy, Norway, Sweden, Switzerland, U.S.A., and Yugoslavia-which had, at that time, no national unions The Council of the CIE met at Brussels in 1920 to organize the first Congress, which was held at Prague in 1921. At this Congress National Unions of England and Wales, Finland, Holland, Norway, Scotland, Switzerland, Sweden, and Yugoslavia were admitted as full members, and a representative of emigrant students from Ukraine as an unofficial member. The Council met again at The Hague and at Oxford in 1923, and the Second Congress took place at Warsaw in Sept. 1924, when the National Unions of Bulgaria, Esthonia, Hungary, Lithuania, and Turkey were admitted as full members, and the following as unofficial members: National unions of New Zealand and South Africa and "Oreso" (association of Russian emigrant students), and representatives of students of Georgia and of Hong-Kong; and it was decided to collaborate effectively with the national union of German students (Deutschestudentenschaft). In 1026, at the Council's meeting in Prague, the Algemeene Senaten Vergadening of the students' senates of Holland was admitted as a member, the association of White Ruthenian students as a free member, and the general association of Latin-American students in Pans as associated member. The confederation aims at promoting friendship between students and student bodies throughout the world and the study of international questions relative to higher education and the conditions of student life. The central office is at Brussels Administrateur—J Baugniet, Dr Jur Avocat, 82 Avenue Molière Director of Commissions—I. S Macadam, N U S, 3 Endsleigh Street, London, W C I

The International Pederation of University Women was founded in 1920 "to promote understanding and friendship between the university women of the nations of the world, and thereby to further their interests and develop between their countries sympathy and mutual helpfulness" It has branches in thirty countries The Federation assists travelling members by providing introductions, and by the establishment of club-houses in such centres as Paris, London, Brussels, Rome, New York, Washington, Philadelphia. It provides travelling fellowships for women graduates (v. Appendix XXIII.), and promotes the exchange of university and secondary school teachers be-Officers (1926-29). President, Docent tween different countries Ellen Gleditsch, Univ. of Oslo, Vice-Presidents, Prof. Wimfred Cullis, Univ. of London, Me. N. Schreiber-Favre of Geneva, Prof. I. Westerdyk, Univ of Utrecht, Treasurer, Mrs Thomas R White, Philadelphia, Secretary, Miss Theodora Bosanquet, Cheyne Walk, International Conferences are held triennially The next Conference will be held in Geneva in 1920 Crosby Hall was opened by the British Federation of Univ. Women as a London residence for women graduates of all countries, at Easter 1927 The residence is intended primarily for graduate students carrying on research or other advanced work in London Application for accommodation should be made to the Warden, Crosby Hall, London, SW 3

The World's Student Christian Federation is a federation of the national Student Christian Movements of over forty countries, which has a membership of some 300,000 Publications The Student World (quarterly), a Directory and Exchange List, and a List of Foyers and Student Hostels (annual) Offices 13 Rue Calvin, Geneva

The STUDENT CHRISTIAN MOVEMENT of Great Britain and Ireland is the British Branch of the Federation Publications: The Student Movement (monthly during term). Offices: Annandale, North End Road, Golders Green, London, NW.11

The Universities Library for Central Europe was established towards the end of 1920 in order to co-ordinate and consolidate the work of securing (by gifts, exchange, and purchase) British books, journals, etc., for students, teachers, and libraries in the Universities of Central Europe. In conjunction with the League of Nations it has undertaken to accept literature from other countries for distribution anywhere in the United Kingdom, and, similarly, to distribute all over Central Europe books and periodicals received from Universities and learned societies in Great Britain. In 1926 it added to its other functions that of a clearing-house for reception and distribution of scientific

books and periodicals from and between individuals and institutions in Great Britain and Ireland. Hon. Sec.—C Fuller, B.A., Assistant Librarian, London School of Economics.

Among foreign organizations useful to British students may be mentioned: Austria—(1) Kursorganisation der Wiener medizinischen Fakultat, Vienna ix. 1, Porzellang 22, from which programmes of medical courses for foreigners and others can be obtained, (2) Minerva Buro, Vienna viii, Schlosselgasse 22 (information about board and lodging), (3) Wiener Internat. Hochschul Kurse, Vienna ix., Boltzmanngasse 16.

Denmark—Anglo-Danish Students' Bureau, 50 Russell Sq , London, W C  $\scriptstyle\rm I$ 

Egypt—Educational Mission in England, 39 Victoria St., Westminster, London, S.W.1.

France—Office National des Universités et Écoles Françaises, London Branch, 1-7 Cromwell Gardens, London, S.W.7. The Office published in 1925 a comprehensive Handbook giving information about the French universities and the entire system of organisation of education in France Price 5s. The French Ministry of Public Instruction announced on Sept 17, 1926, the admission to equivalence with the "baccalauréat de l'enseignement secondaire français" of every certificate of matriculation issued by one of the Universities of the United Kingdom and every diploma accompanied by an attestation of the Universities Bureau of the British Empire certifying that the diploma entitles its holder to admission as a regular student to degree courses in one of those universities

Germany—Deutsches Institut für Auslander, Universität Berlin, C 2 Universitätsgebaude. Publishes, monthly, Mitteilungen.

Holland—Netherlands Committee for international academic relations, 33 Wasstraat, Leyden.

Italy—Istituto Interuniversitario Italiano, R. Palazzo Venezia, N. 118, Roma [There is a British Institute at Florence, Palazzo Antinori, Piazza Antinori 3, comprising a School in English for Italians, with 3 years' (elementary), 2 years' (higher), and 2 years' (finishing) courses, a reading-room and library, and the organizing of lectures, concerts, etc. Its Higher Diploma is of the standard of the Doctorate of an Italian Univ. Director—Dr H. Goad

Norway—Studie-Oplysningskontoret, Universitetet, Oslo Spain—Centro de Estudios Historicos, Almagro, 26, Madrid Switzerland—Office Central Universitaire Suisse, rue de l'Hôpital 30,

Switzerland—Office Central Universitaire Suisse, rue de l'Hôpital 30, Berne

DIRECTORIES OF THE UNIVERSITIES and other learned institutions of the world: *Minerva* (Walter de Gruyter & Co, Leipzig) and *Index Generalis* (by Prof. R de Montessus de Ballore, four editions, French, English, American, Spanish, annually, London Agents, Dent & Sons, Ld, 10 Bedford St, W.C 2).

### UNITED STATES OF AMERICA

In the 975 Universities, Colleges, and Professional Schools which submitted returns for 1925-26 to the United States Bureau of Education there were enrolled in that year 822,895 students, of whom rather more than one-third were women. Of these institutions 154 were under public and 821 under private control; 156 were independent professional schools Of the total number of students 55,632 were in prematriculation departments and 32,500 were in graduate schools. Law students numbered 40,359, medical 19,682, dental 11,777, theological 13,655, pharmacy 10,815, engineering 59,315 For full information about American Universities students in this country are advised to apply to the American University Union, British Division, 50 Russell Sq , on the continent of Europe to the Paris office of the Union. 173 Boulevard St Germain. In Rome there is an American Academy at Porta San Pancrazio 29 In Belgium the Fondation Universitaire, which administers numerous scholarships tenable in American institutions of higher learning, has its office at 74 rue de Namur, Bruxelles In Prague there is an American Institute America reference may be made to the American Council on Education, 26 Jackson Place, Washington, or to the Institute of International Education, 2 West 45th St., New York This Institute published, in 1927, a Guidebook for Foreign Students in the USA The Bureau of Education of the United States Department of the Interior published in 1921 a Bulletin (No. 39 of 1920) on "Facilities for Foreign Students in American Colleges and Universities" This is obtainable from the Government Printing Office, Washington, DC, at 15 cents a copy. A recent Australian view of American Univ life and organization is given in The American University by E R Holme of the Univ. of Sydney (Angus and Robertson, Ltd., Sydney, 1920, 7s 6d). A description of American Univs. from the point of view of a French scientist is given in Universities and Scientific Life in the U.S.A. by Prof. M. Caullery (Oxford Univ Press, 1922, 10s 6d.).

"International House," Riverside Drive, New York, opened Sept. 1924, is a residential club for over 500 foreign and American students. The requisite funds were provided by J. D. Rockefeller, Junior, who also founded the "International Education Board" (chartered Jan. 16, 1923). This Board has established the International Institute of

Teachers College (v. infra, Columbia Univ.)

The British Information Library, 44 Whitehall Street, New York, established Dec 1919, for the convenience of Americans desiring information on British current affairs, is a branch of the News Department of the Foreign Office, from which it is well supplied with official documents and other publications. It has become the recognized centre for information on British Empire affairs. It is in close touch with the Dominion Trade Commissioners in New York, and can give information on Dominion affairs. Wherever possible, official documents are lent, on request, to American libraries under the usual inter-library loan conditions. Early copies of documents dealing with matters of

general interest, such as foreign affairs, finance, education, social welfare, industrial relations, mineral and oil resources, etc., are received regularly direct from London. The Library also has an important file of documents on Indian affairs, and some of the leading Indian newspapers. It is entirely free to the public, and information is gladly given to all enquirers. The Library is the official agent in U.S.A. for publications of H.M. Stationery Office.

American Professors on leave of absence sometimes receive grants for expenses of foreign travel from the Institute of International Education, and report to the Institute on their observations while teaching in foreign Institutions. Columbia, Pennsylvania, Johns Hopkins, Cornell, Harvard, Mass. Inst. Tech, and Yale co-operate in arranging exchanges with France of Professors of Applied Science.

For information as to American University and College Scholarships for British students see Appendix XXIII.

A British-American Association of Phi Beta Kappa (founded 1776—a society of American University scholars of distinction) was formed in England in 1924 under the presidency of Lord Balfour. Address, American University Union, 50 Russell Sq., London, W.C.I.

EXPENSES Annual tuition fees range from a maximum of about £00 in the large Eastern universities to a minimum of about £15 in the State universities and small colleges of the Middle West. Living costs vary according to the size of the college or university, and the size of the town in which it is located. In general, living expenses in the South are a little less than in the Middle West, and in the Middle West a little less than in the West and East. The cost of an academic year of nine months may be reckoned at about £300 in the most expensive places, and £130 in the least expensive. Transportation costs about 2d. a mile.

AMERICAN DEGREES (non-professional). The following notes are based on a Report presented by a Committee of the American Council on Education to the French Ministry of Public Instruction American Colleges, both those which are independent institutions and the colleges of liberal arts within Universities, award the A.B (or BS.) degree to students who complete a 4 years' course Ordinarily the student at the time of admission to the college is about 18 years of age and has completed a 4 years' course in a secondary school. considerable portion of his work at college belongs, however, to what in European countries is called secondary education A peculiarity of the American system of grading, both in secondary and in higher institutions, is the weight attached to the length of time spent under instruction, a degree being attainable by gradual accumulation of a specified number of "credits" (certificates of definite periods of time spent successfully under instruction), which thus largely replace the examinations used in other countries for testing the student's capacity at various intervals The college graduate who aspires to the degree of M A. (or M S) proceeds to the Graduate School of a University (the professional schools of law, medicine, etc., with few exceptions, admit undergraduates), and there pursues his studies, either general or, if aiming at a subsequent doctorate, specialized, for one year. The Ph.D.

requirements are ordinarily "3 years of resident study, beyond the baccalaureate, the presentation of a thesis embodying the results of original research, and the passing of a comprehensive examination testing the candidate's knowledge of his chosen field of learning"

The Report points out that higher education in the USA is largely autonomous, there being no control by the Federal Government and little control by the political authorities of any State Such standardization as has been effected has come through the voluntary efforts of groups of institutions having similar ideals and purposes. Conspicuous among these is the Association of American Universities The Scottish Universities Entrance Board exempts from the preliminary examination of the Scottish universities holders of certificates which admit to a regular course of study leading to a degree in Arts, Pure Science, or Medicine in any of the universities or colleges in the United States of America included in the accepted list of colleges and universities approved by the Association of American Universities

The University of Cambridge grants exemption from the whole of the Previous examination to a student who has qualified for admission to one of the universities or colleges of the United States of America which has been approved by the Senate for the purposes of affiliation, and also to students who have passed the examinations of the American College Entrance Examination Board, provided examinations passed cover English, 3 units or an equivalent standard, Latin or Greek, 4 units or an equivalent standard, a third language, 3 units or an equivalent standard, and Mathematics, 3 units or an equivalent

standard

The University of Oxford grants senior standing to American students who hold the Bachelor of Arts degree from certain approved American universities, and junior standing to students who have pursued a course of study at such universities extending over two years, provided that the course has included the study of two languages other than English, Latin or Greek being one of these languages

Below is given a list of 178 institutions approved by the Associa-This list has been adopted by most of the tion of American Univs Univs. of the U.K. for the purpose of admission of graduates with a view to qualifying for the PhD degree (v. p. 18). They may be

I. 36 Univs. of complex organization, usually with graduate schools and certain professional and technological schools. These are the 28 members of the Assocn (including McGill and Toronto), and Boston, New York, and Western Reserve and the Univs of Cincinnati, Colorado,

Pittsburgh, Texas, and Washington.

II 21 Technological Institutions . Agric Coll of Utah, Logan, Utah; California Inst of Tech (M), Pasadena, Cal, Carnegic Inst. of Tech., Pittsburgh, Pa; Case School of Applied Science (M), Cleveland, Ohio; Clarkson Coll of Tech (M), Potsdam, N.Y; Iowa State Coll, Ames, Iowa, Lehigh Univ (M), South Bethlehem, Pa.; Massachusetts Agric. Coll., Amherst, Mass., Massachusetts Inst. of Tech., Cambridge, Mass.; Oregon Agric Coll, Corvallis, Ore; Pennsylvania State Coll., State College, Pa.; Polyt. Inst. of Brooklyn (M), Brooklyn, N.Y.; Purdue Univ., Lafayette, Ind.; Rensselaer Polyt. Inst. (M), Troy, N.Y.; Rose Polyt. Inst, Terre Haute, Ind; Simmons Coll. (W), Boston, Mass.; State Coll of Washington, Pullman, Wash; Stevens Inst. of Tech. (M), Hoboken, N J, United States Military Academy, Westpoint, N Y, Univ of Maryland, College Park, Md, Worcester Polyt. Inst. (M), Worcester, Mass

III. The remaining 121 Colleges: primarily organized with undergraduate curricula leading to the A.B. or B.S., in some cases with strong technological divisions, and occasionally a strong professional school.

INDIANA (founded 1820), Bloomington, Ind. (State Univ) President Wm Lowe Bryan, Ph D, LL D Faculties Arts, Medicine, Education, Law, Commerce and Finance, Music, Science, Dentistry

Library 176,000 vols Teaching Staff 270. Students 4503 Summer Session in all depts., 9 weeks

IOWA, SIATE UNIV. OF (founded 1855), Iowa City. President W A Jessup, Ph D Faculties Liberal Arts, Law, Medicine, Dentsitry, Pharmacy, Applied Sc, Education, Commerce, Nursing, Journalism, Music

Library 315,500 vols Teaching Staff 533. Students 5833. Summer Session in all depts, 11 weeks, 3640 students

JOHNS HOPKINS (founded 1876), Baltimore, Maryland President: Frank Johnson Goodnow, LL D. Faculties Arts, Medicine, Engin., Hygiene and Pub Health.

Libraries 283,242 vols. Teaching Staff 487. Students: 4329. Summer Session in all depts., 5 weeks, 918 students

Kansas, Univ of (1866), Lawrence, Kansas (State Univ). Chancellor. E. H. Lindley, Ph.D. Faculties: Arts, Engineering, Law, Fine Arts, Pharmacy, Medicine, Education, Liberal Arts and Sc., Business.

Library 185,000 vols, 1500 periodicals. Teaching Staff. 326. Students 4613. Summer Session in all depts., 10 weeks, 1607 students.

MICHIGAN, UNIV. OF (1837), Ann Arbor, Mich. (State Univ.). President C C. Little, Sc D. Faculties. Lit, Sc and Arts, Engin. and Archut, Medicine, Law, Pharmacy, Dental Surgery, Educn, Bus. Admn.

Libraries. 615,000 vols, 3618 periodicals. Teaching Staff. 659. Students: 10,134. Summer Session in all depts, 8 weeks, 3322 students.

MINNESOTA, UNIV OF (1868), Minneapolis, Minn (State Univ). President. L. D. Coffman, Ph D. Faculties. Sc., Lit, and Arts, Engin, Archit., Chem, Agric, Forestry, Home Econ., Law, Medicine, Dentistry, Mining, Pharmacy, Educn, Business Administration

Library. 475,000 vols. Teaching Staff: 679. Students 13,025. Summer Session in all depts, 11 weeks, 6566.

MISSOURI, UNIV. of (1839), Columbia, Mo. (State Univ). President: S. D. Brooks, LL.D. Faculties. Arts and Science, Educn, Business and Public Admn, Law, Engineering, Agric, Medicine, Journalism, Mines and Metallurgy, Fine Arts.

Library 231,366 vols, 25,000 pamphlets, 2942 periodicals Teaching Staff 339 Students 4618 Summer Session in all depts, 8 weeks, 1643 students

Nebraska, Univ of (1869), Lincoln, Neb (State Univ). Chancellor: S Avery, Ph D , LL D Faculties Agric , Medicine, Pharmacy, Engin , Arts and Sc , Business Admn , Dentistry, Law, Fine Arts, Nursing, Journalism, Agric

Library 204,673 vols Teaching Staff 434 Students 8039. Summer Session in all depts, 12 weeks

NORTH CAROLINA, UNIV. of (founded in 1789), Chapel Hill, N.C. President H W Chase, Ph.D., LL.D. Faculties Liberal Arts, Applied Science, Education, Commerce, Law, Med., Pharmacy, Engineering.

Libraries: 160,000 vols, 1700 current periodicals. Teaching Staff: 175 Students 2510 Summer School in all depts, 12 weeks, 1236 students

Northwestern (founded 1855), Evanston, Ill. *President*: Walter Dill Scott, Ph D, LL D *Faculties* Medicine, Law, Dentistry, Music, Commerce, Speech, Liberal Arts, Engineering, Journalism

Library 166,094 vols. Teaching Staff. 563 Students. 8710. Summer Session in all depts, 8 weeks, 1823 students

Ohio State Univ. (founded 1870), Columbus, Ohio *President*: G. W Rightmire *Faculties*. Agriculture, Liberal Arts, Commerce, Education, Engineering, Dentistry, Law, Med., Pharm, Vet. Med. Social Administration, Journalism

Library 300,000 vols Teaching Staff. 783. Students. 9963. Summer Quarter in all depts, 10 weeks, 2550 students.

PENNSYLVANIA, UNIVERSITY OF (founded 1740), Philadelphia, Pa. Provost J H Penniman, Ph D, LL D. Faculties: Arts, Science, Educin, Fine Arts, Medicine, Law, Dentistry, Vet. Med., Elec Engin.

615,325 vols, 2547 periodicals. Teachers: 1281. Students . 10,923 Summer School in nearly all depts , 6 weeks, 2510 students

PRINCETON (founded in 1747), Princeton, N.J. President: J. G. Hibben, Ph D, LL D, Litt D Faculties: Arts, Science, Engin.

Libraries 600,000 vols, 116,000 periodicals and pamphlets.

Teachers 290 Students 2466

STANFORD (founded 1891), California. President: Ray Lyman Wilbur. Faculties : Arts, Educn, Law, Medicine, Business, Engineering

Libraries 410,000 vols Teaching Staff 368 Students . 4201

Summer Quarter in all depts, 10 weeks, 1150 students

University of Virginia (founded in 1819), Charlottesville, Va. (State Univ) President E A Alderman, D.C.L., LLD Faculties. Arts, Law, Med, Engin, Educn

Libraries 151,333 vols Teaching Staff 139 Students 1991.

Summer Quarter in all depts, 10 weeks, 2170 students.

WASHINGTON UNIVERSITY (founded in 1853), St. Louis, Missouri. Chancellor H Spencer Hadley, LL D Faculties Liberal Arts, Engin and Archit, Business and Public Administration, Botany, Law, Med . Dent . Fine Arts

Library 261,301 vols, 99,468 pamphlets Teaching Staff 400.

Students 3352 No Summer School

WISCONSIN, UNIV. OF (1849), Madison, Wis (State Univ). President: Glenn Frank, Litt D Faculties Letters and Sc., Engineering, Agric, Law, Medicine

Library 735,000 vols, 376,000 pamphlets Teaching Staff. 854 Students 8703 Summer Session in all depts, 6 weeks, 5015 students

YALE (founded 1701), New Haven, Conn President: J. R Angell, Litt D, LL D Faculties Arts, Science, Med, Divinity, Law, Fine Arts, Music, Forestry

Libraries 1,700,000 vols, 11,556 periodicals Teaching Staff 539 Students 4866 Summer Session in Law, Forestry, and Engin Field

work, 10 weeks

# XXV

[This Appendix can be obtained in pamphlet form from the Universities Bureau, free of charge.]

PROFESSIONAL SCHOOLS, SPECIALIST STUDIES, AND POST-GRADUATION COURSES IN THE UNIVERSITIES AND UNIVERSITY COLLEGES OF GREAT BRITAIN AND IRELAND

#### PREFATORY NOTE

The Universities, collectively, make provision for the advancement of all branches of knowledge. Of their several fields of study the greater part is common ground, yet each of them has its special plots which it cultivates, in some cases with a view to the needs of the province which it serves, in others because it has been agreed, or arranged, that it shall undertake work for which there is but a limited demand.

The statements which follow indicate the respects in which the Universities, individually, specialize, i.e. undertake work which is not common to them all. "Specialist courses" are courses of study in special subjects for which provision is not generally made.

For further information application should be made to the Registrars, or Secretaries (London Colleges and Schools, Aberdeen, Edinburgh, St. Andrews, Belfast) of the several Universities and Colleges.

# DISTRIBUTION OF GROUPS OF SUBJECTS

#### SCHOOLS OF THEOLOGY

CAMBRIDGE, DURHAM, LONDON, [Hackney and New Coll, Hampstead (Congregational), King's Coll Theological Department (Church of England), Wesleyan Coll, Richmond, St John's Hall, Highbury (Church of England)], Manchester, Oxford, Wales, [Univ. Coll., Bangor, The Associated Theological Colls.]. Aberdeen; Edinburgh; Glasgow, St Andrews Trinity College, Univ of Dublin.

#### SCHOOLS OF LAW

BIRMINGHAM; CAMBRIDGE, DURHAM [Armstrong Coll]; LEEDS; LIVERPOOL; LONDON, [University Coll, King's Coll, and the School of Economics, jointly]; Manchester; Oxford, Shefffield; Wales, [Univ. Coll, Aberystwyth] Aberdeen, Edinburgh; Glasgow. Belfast; Trinity College, Univ. of Dublin, National of Ireland, [Univ. Colls of Dublin, Cork, and Galway].

Courses in Law meeting the requirements of the Solicitors Act, 1922, are provided by all Univs. and Colls. in England and Wales, with the exception of University of Reading

#### SCHOOLS OF MEDICINE

BIRMINGHAM; BRISTOL; CAMBRIDGE; DURHAM, [College of Medicine, Newcastle]; Leeds; Liverpool; London, [St. Bartholomew's Hospl, St. Thomas's Hospl., Westminster Hospl., Guy's Hospl, St. George's Hospl., London Hospl., Middlesex Hospl, Charing Cross Hospl, London (Royal Free Hospl) Sch. of Med for Women, University Coll. and University Coll Hospl., King's Coll. and King's Coll Hospl, St. Mary's Hospl, London School of Tropical Med., Lister Institute of Preventive Med, Bethlem Royal Hospl. (Mental), Maudsley Hospl. (Mental), Cancer Hosp, Royal Army Medical Coll., Royal Naval Coll. (Greenwich)], Manchester; Oxford, Sheffield, Wales, [Welsh National School of Med., Cardiff]. Aberdeen, Edinburgh; Glasgow, St. Andrews Belfast; Trinity College, Univ of Dublin; National of Ireland, [Univ Colls of Dublin, Cork, and Galway]

#### SCHOOLS OF DENTAL SCIENCE

BIRMINGHAM, BRISTOL, DURHAM, [College of Medicine, Newcastle, and Newcastle Dental Hospl.]; Leeds; Liverpool, London, [St. Bartholomew's Hospl, Westminster Hospl, Guy's Hospl, St. George's Hospl, London Hospl, Middlesex Hospl, Charing Cross Hospl, King's Coll and King's Coll Hospl, St. Mary's Hospl, London School of Dental Surgery, University Coll Medical School, Dental Department], Manchester; Sheffield Belfast, Trinity College, Univ. of Dublin, National of Ireland, [Univ. Colls of Dublin and Cork]

#### SCHOOLS OF VETERINARY SCIENCE

LIVERPOOL, LONDON, [Royal Veterinary Coll] EDINBURGH, [Royal (Dick) Veterinary Coll], GLASGOW, [Veterinary College].

#### SCHOOL OF PHARMACY

GLASGOW, [Royal Technical Coll], London, [School of Pharmacy], MANCHESTER, Univ. Coll, Exeter, Univ. Coll, Nottingham.

#### SCHOOLS OF MUSIC

BIRMINGHAM; CAMBRIDGE, DURHAM; LONDON, [Royal Academy, Royal College, Trinity College], Manchester, [Royal Manchester Coll. of Music], Oxford; Reading; Sheffield. Wales, [Univ Colls of Aberystwyth, Bangor, and Cardiff], Univ. Colls, Exeter, Nottingham, and Southampton. Edinburgh Trinity College, Univ. of Dublin; National of Ireland, [Univ. Colls. of Dublin and Cork].

#### SCHOOLS OF ART

DURHAM, [Armstrong Coll], London, [University Coll.—Slade School, Goldsmiths' Coll]; Reading. Aberdeen; Edinburgh.

Art of the Theatre. London, [East London Coll]

Civic Art and Design, and Town Planning. BIRMINGHAM; LIVER-POOL; LONDON, [University Coll.—Bartlett School]; SHEFFIELD.

Arts and Crafts. Reading; Wales, [Univ. Coll., Aberystwyth].

#### SCHOOLS OF ARCHITECTURE

CAMBRIDGE, DURHAM, [Armstrong Coll]; LIVERPOOL; LONDON, [Univ. Coll.—Bartlett School]; MANCHESTER, SHEFFIELD GLASGOW, [Roy. Tech. Coll.]. Belfast, [Municipal Coll of Technology]; NATIONAL OF IRELAND, [Univ. Colls. of Dublin and Cork].

Naval Architecture and Marine Engineering. Durham, [Armstrong College], Liverpool. Glasgow. Belfast.

# SCHOOL OF JOURNALISM

London, [University Coll, King's Coll, Bedford Coll., and School of Economics, jointly].

# SCHOOL OF LIBRARIANSHIP

London, [University Coll]

#### SCHOOLS OF COMMERCIAL SCIENCE

BIRMINGHAM, DURHAM, [Armstrong Coll], LEEDS, LIVERPOOL; LONDON, [School of Economics], MANCHESTER, READING; Univ. Coll, Nottingham, Univ Coll, Southampton Aberdeen, Edinburgh Belfast, Trinity Coll, Univ of Dublin, National of Ireland, [Univ Colls of Dublin, Cork, and Galway].

# SCHOOLS OF ENGINEERING (v. also Schools of Architecture)

All English Universities, Wales, [Univ Colls of Cardiff and Swansea], Univ Colls of Nottingham and Southampton. Aberdeen; Edinburgh, Glasgow, [Univ and Roy Tech Coll], St Andrews, [Univ Coll, Dundee] Belfast, [Municipal Coll of Technology]; Trinity College, Univ. of Dublin; National of Ireland, [Univ. Colls of Dublin, Cork, and Galway]

#### SCHOOLS OF METALLURGY

BIRMINGHAM, CAMBRIDGE, DURHAM, [Armstrong Coll]; LEEDS; LIVERPOOL, LONDON, [Imperial Coll], Manchester; Sheffield (including Non-ferrous Metals); Wales, [Univ. Colls. of Cardiff and Swansea]. Glasgow, [Royal Technical Coll.].

#### SCHOOLS OF MINING

BIRMINGHAM; DURHAM, [Armstrong Coll.]; LEEDS; LONDON, [Imperial Coll.], Manchester; Sheffield; Wales, [Univ. Coll., Cardiff], Univ. Coll., Nottingham. Edinburgh, [Heriot-Watt Coll.]; Glasgow, [Univ. and Royal Technical Coll.]

Mining and Technology of Petroleum. BIRMINGHAM; LONDON, [Imperial Coll].

Mining Geology. London, [Imperial Coll]. GLASGOW.

# SCHOOLS OF AGRICULTURE, FORESTRY, HORTICULTURE, AND ESTATE MANAGEMENT

BRISTOL, [Royal Agric. Coll, Cirencester, and National Fruit and Cider Institute, Long Ashton], Cambridge, Durham, [Armstrong Coll]; Leeds; London, [Rothamsted (Lawes Agricultural Trust), South-Eastern Agricultural Coll, Wye], Oxford; Reading; Wales, [Univ. Colls of Aberystwyth and Bangor]; Univ. Coll, Nottingham, [in conjunction with Midland Agric. Coll]. Aberden; Edinburgh; Glasgow, [West of Scotland Agricultural Coll]. Belfast; Trinity College, Univ. of Dublin, National University of Ireland, [Univ Coll, Dublin].

Tropical Agriculture CAMBRIDGE.

Forestry. Cambridge, Oxford; Wales, [Univ Coll, Bangor]. ABERDEEN, EDINBURGH NATIONAL OF IRELAND [Univ Coll, Dublin]

Horticulture. CAMBRIDGE, READING. NATIONAL OF IRELAND

Dairying Univ Coll, Nottingham, Reading. Glasgow, [W. of Scotland Agric Coll] National of Ireland [Univ Coll., Cork].

# SCHOOLS OF EDUCATION AND TRAINING COLLEGES

All Universities and University Colleges.

Training of Teachers for the Deaf. MANCHESTER.

# DISTRIBUTION OF SUBJECTS OF STUDY TO WHICH EXCEPTIONAL ATTENTION IS GIVEN IN CERTAIN OF THE UNIVERSITIES AND UNIVERSITY COLLEGES OF THE UNITED KINGDOM

(The omission of the name of a University or College from under any of the following subject-headings is not to be taken as an indication that the subject is not studied.)

Subjects generally provided for in Schools of Theology, Law, Medicine, etc., or ordinarily recognized as branches of the following departments of knowledge, are omitted from these lists, viz: Economics, English Language and Literature, History, ancient, mediæval, and modern; Logic; Mathematics; Philology, Philosophy, mental and moral, Phonetics; Anatomy, human and comparative; Botany; Biology, Chemistry, inorganic, organic, physical, physiological (biochemistry), technical, Embryology; Geography; Geology; Histology; Mineralogy, Morphology, Palæontology, Pathology, Physics; Physiology; Psychology, Zoology.

#### ARTS

- Anthropology, including Primitive Technology and Archæology:

  BIRMINGHAM, CAMBRIDGE; LONDON, [University Coll and School of Econ], Oxford. Edinburgh. National of Ireland, [Univ Coll, Dublin] (Vide also Ethnology)
- Archaelogy, Assyrian and Babylonian: Liverpool; London, [University Coll, King's Coll]; Oxford.
  - ,, Celtic . National of Ireland, [The Univ Colls ]
  - ,, Central American: LIVERPOOL
  - .. Classical: Cambridge, Liverpool, London, [University Coll], Oxford. Edinburgh, Glasgow.
  - ,, Cretan: Oxford
  - " Egyptian Liverpool, London, [University Coll], Man-CHESTER, OXFORD
  - " Mediæval: Birmingham.
  - " Numismatics · Cambridge; Liverpool, Oxford
  - ,, Roman Britain: DURHAM, GLASGOW
- Astronomy: Cambridge; Durham; Liverpool, London, [Univ. Coll.], Oxford. Edinburgh, Glasgow
- Astro-Physics: Cambridge, London, [Imperial Coll].

History, American: Oxford

- ., British Dominions · Cambridge , London, [King's College]; Manchester , Oxford , Wales, [Univ. Coll., Aberystwyth]. Edinburgh.
- ,, Byzantine: London, [King's Coll]; Oxford.
- " Central European . London, [King's Coll].
- ,, French, and Institutions. Cambridge, London; Manchester Edinburgh
- ,, Indian, and Economics: Cambridge, London, [School of Oriental Studies]; Oxford Edinburgh
- ,, International. London, [School of Economics].
- , Irish: Manchester. National of Ireland, [The Univ. Colls.].
- ,, Jewish: London, [Jews' College]
- of London: London, [University Coll].
- ., Military: Oxford; London, [University Coll.].
- " Naval: CAMBRIDGE
- ,, Russian: Liverpool; London, [King's Coll.].
- " Scottish · Edinburgh; Glasgow.
- , Welsh. WALES [The Univ. Colls].
- International Relations · London, [School of Economics].
- Palæography, Diplomatic and Papyrology, Bibliography: Birmingham; Cambridge; Durham; Liverpool, London, [University and King's Colls], Manchester; Oxford. Edinburgh.

Political Science: BIRMINGHAM; CAMBRIDGE, LONDON, [School of Economics], OXFORD; WALES, [Univ. Coll, Aberystwyth]. EDINBURGH: GLASGOW.

Public Administration and Finance. London, [School of Economics], MANCHESTER; OXFORD; LEEDS

Public Reading and Speaking: Durham. Aberdeen, Edinburgh.

Solar Physics . CAMBRIDGE

Languages and Literature (omitting those which are studied in the large majority of Universities and Colleges, viz, Hebrew including Aramaic and Syriac, Greek, Latin, French, German, Italian, Russian, and Spanish)

Amharic: London, [School of Oriental Studies].

Anglo-Saxon: Cambridge, London, [Univ. Coll], Oxford. Trinity College, Dublin.

Arabic: Bristol, Cambridge, Durham; London, [School of Oriental Studies]; Manchester, Oxford. Edinburgh; Glasgow Trinity College, Dublin

Armenian · London, [School of Oriental Studies]
Assamese: London, [School of Oriental Studies]

Bantu. CAMBRIDGE, LONDON, [School of Oriental Studies]

Bengal: CAMBRIDGE, LONDON, [School of Oriental Studies], OXFORD.

Burmese: CAMBRIDGE, LONDON, [School of Oriental Studies], OXFORD.

Celtic (v. also Irish, Welsh): London, [University Coll], Oxford Aberdeen, Edinburgh, Glasgow Belfast, Trinity College, Dublin, National of Ireland [The Univ. Colls]

Chinese: Cambridge, London, [School of Oriental Studies], Man-CHESTER, OXFORD

Danish, v. Scandinavian.

Dravidian Languages: London, [School of Oriental Studies].

Dutch: London, [Univ. Coll. and Bedford Coll, jointly].

Ethiopic: London, [School of Oriental Studies], Oxford.

Greek, Byzantine and Modern. Oxford, London, [King's Coll]

Gujerati: London, [School of Oriental Studies].

Hausa: CAMBRIDGE; LONDON, [School of Oriental Studies].

Hebrew (Modern) London, [School of Oriental Studies].

Hindi Oxford; London, [School of Oriental Studies].

Hindustani, v Urdu

Icelandic, v. Scandinavian.

Irish: Oxford. Trinity College, Dublin, National of Ireland, [The Univ Colls].

Japanese: London, [School of Oriental Studies].

Jewish: London, [Jews' College]

Kashmir: London, [School of Oriental Studies].

Malay: London, [School of Oriental Studies].

Marathi: CAMBRIDGE; LONDON, [School of Oriental Studies]; OXFORD.

Melanesian: London, [School of Oriental Studies].

Nepal: London, [School of Oriental Studies]

Norwegian, v. Scandinavian.

Pal: CAMBRIDGE; LONDON, [School of Oriental Studies]; OXFORD.

Papuan: London, [School of Oriental Studies].

Persian: Cambridge; London, [School of Oriental Studies]; Oxford Trinity College. Dublin.

Polynesian: London, [School of Oriental Studies].

Portuguese: London, [King's College]: Univ. Coll., Nottingham.

Rabbinic: London, [Jews' College].

Rhæto-Romance: CAMBRIDGE.

Rumanian. Cambridge, London, [King's College].

Sanshrit: Cambridge, London, [School of Oriental Studies]; Oxford. Edinburgii. Trinity College, Dublin.

Scandinavian Languages—Danish, Norwegian, Swedish, Icelandic, Old Norse Cambridge, London, [University Coll]; Oxford.

Stamese London, [School of Oriental Studies].

Sinhalese, Tamil, and Telugu: Cambridge; London, [School of Oriental Studies], Oxford

Slavonic Languages, other than Russian: Cambridge, London, [King's Coll], Univ. Coll, Nottingham.

Slavonic Philology, Comparative: London, [King's Coll].

Swahili: London, [School of Oriental Studies].

Swedish, v. Scandinavian.

Talmudic: Cambridge; London, [Jews' Coll].

Tibetan: London, [School of Oriental Studies].

Turkish: Cambridge; London, [School of Oriental Studies].

Twi: London, [School of Oriental Studies]

Urdu. Cambridge; London, [Sch of Oriental Studies]; Oxford.
Trinity College, Univ. of Dublin.

Welsh: LIVERPOOL; OXFORD; WALES, [the 4 Univ. Colls.].

Yoruba: London, [School of Oriental Studies].

Comparative Philology: Cambridge; London, [University Coll., King's Coll., School of Oriental Studies]; Oxford. Aberdeen; Edinburgh; Glasgow Trinity College, Dublin.

Imperial Latin: MANCHESTER.

Phonetics. London, [University Coll, School of Oriental Studies].

SCIENCE, APPLIED SCIENCE, COMMERCE, SOCIOLOGY

Aero-Dynamics: London, [Imperial Coll.].

Animal Pathology: Cambridge; London [R. Vet. Coll.].

Aviation and Aero-Engineering: Cambridge; London, [Imperial Coll., East London Coll.]; Oxford. Glasgow.

Colloidal Chemistry: BRISTOL: LEEDS; MANCHESTER.

Cytology: LIVERPOOL.

Economic Entomology: Liverpool, London, [Imperial Coll]; Man-CHESTER. EDINBURGH.

Ethnology and Social Anthropology: Cambridge, London, [University Coll, School of Econ.], Oxford.

Eugenics: London, [University Coll].

Genetics: Cambridge Liverpool: Oxford Edinburgh.

Geodesv: CAMBRIDGE.

Household Science: Bristol; London, [King's Coll of Household and Social Sci], Reading; Wales, [Univ. Coll, Cardiff].

Meleorology: CAMBRIDGE; LONDON, [Imperial Coll], OXFORD.

Military Science. BRISTOL, CAMBRIDGE; DURHAM, LONDON; OXFORD.

Oceanography and Fisheries: LIVERPOOL, WALES, [Univ. Coll., Aberystwyth]. ABERDEEN

Physiology of Animal Nutrition: CAMBRIDGE ABERDEEN, GLASGOW. Plant Pathology CAMBRIDGE, LONDON, [Imperial Coll].

Protozoology: I.ondon, [King's Coll., Lister Institute] Edinburgh; Glasgow.

Psychology, Comparative. ABERDEEN.

Experimental Cambridge, London, [University Coll, King's Coll, Bedford Coll], Manchester Edinburgh, Glasgow.

,, Industrial. London, [School of Economics]; Manchester Railway Economics: London, [School of Economics], Manchester.

Spectroscopy: London, [Impenal Coll, King's Coll] Oxford.

Statistics: Cambridge; London, [University Coll, School of Economics] Aberdeen; Edinburgh.

Sociology: London, [School of Economics]; LIVERPOOL

Social Study: Birmingham, Bristol, Leeds; Liverpool, London, [School of Economics, Bedford Coll, v. also Household Science], Oxford; Wales, [Univ. Coll., Cardiff]; Univ. Coll., Nottingham. Edinburgh; Glasgow; St. Andrews, [Univ. Coll., Dundee].

#### LAW

Law, International: CAMBRIDGE; LIVERPOOL; LONDON, [School of Economics]; Oxford, Sheffield. Aberdeen; Edinburgh, Glasgow.

"Commercial: BIRMINGHAM; LREDS; LIVERPOOL; LONDON, [School of Economics]. Edinburgh; Glasgow.

, Comparative: LONDON, [University Coll.]

" Indian: CAMBRIDGE; LONDON, [School of Oriental Studies]; OXFORD.

, Industrial: BIRMINGHAM; LONDON [School of Economics].

Law, Roman-Dutch: CAMBRIDGE; OXFORD; LONDON.

" Russian, and Economics: London, [King's Coll, School of Economics].

" Scots: The Scottish Universities.

#### MEDICINE

Cancer Research Leeds; London, [Middlesex Hospl, Cancer Hospl.];
Manchester; Sheffield. Aberdeen

Dietetics · London, [St. Thomas's Hospl Med Sch].

History of Medicine London, [University Coll.]. Edinburgh, Sheffield.

Medical Entomology: Cambridge. Edinburgh.

Medical Statistics: London, [University Coll., Nat. Inst. for Med. Research, London School of Hygiene and Trop Med].

Mental Diseases (Research): BIRMINGHAM.

Parasitology and Helminthology: Cambridge; Liverpool; London, [School of Hyg and Tropical Med] Aberdeen; Edinburgh.

Radiology and Electrology: Cambridge: Liverpool. Edinburgh; GLASGOW.

Tropical Medicine: Cambridge, Liverpool, London, [Royal Army Med. Coll, School of Hyg and Tropical Med.]. Edinburgh.

Tropical Surgery: London, [School of Hyg and Tropical Med.].

Tuberculosis: Wales, [Univ Coll, Cardiff]. Edinburgh; Glasgow.

#### TECHNOLOGY

Brewing: BIRMINGHAM.

Chemical Engineering, Technical Chemistry, or Industrial Chemistry:
LIVERPOOL, LONDON, [University Coll, Imperial Coll.];
MANCHESTER. EDINBURGH; GLASGOW (Roy. Tech. Coll.).

Colour Chemistry, Bleaching, Dyeing: Leeds; Manchester; Univ. Coll., Nottingham. Glasgow, [Royal Technical Coll.]
Belfast (Munic. Coll.).

# POST-GRADUATION AND SPECIALIST COURSES FOR THE SESSION 1928-29

#### UNIVERSITY OF BIRMINGHAM

- A. Schools and Departments. Brewing and the Bio-Chemistry of Fermentation; Commercial Science, Dental Science; Education, Engineering; Law; Medicine; Metallurgy; Mining; Music; Oil Engineering and Refining; Public Health Science, and for the Trade Unions Industrial Certificate
- B. Post-graduation Courses leading to the Ph.D. or other higher degrees:
- (1.) ARTS: English; French, German, Greek; Italian, Latin; Russian; Spanish; Geography; History, Music, Philosophy.

(11.) COMMERCE: An approved selected subject.
(111.) MEDICINE: An approved selected subject.

(iv.) Science: Bio-Chemistry of Fermentation; Botany; Chemistry, Engineering; Geology; Mathematics, Metallurgy; Mining; Oil Engineering and Refining; Physics, Zoology.

# C. Specialist Courses:

Anthropology (including primitive technology and archæology). A course of lectures, and practical instruction in the Museum of the Department, is given by the Professor of Anatomy and Anthropology throughout the Summer Term. Brewing: There is an Honours School in the Bio-Chemistry of Fermentation, which subject may also be offered as a subsidiary subject for the degree of B.Sc. Special subjects in the Honours School are: (i.) Chemistry and Physiology of Malting, Brewing,

Distilling and Vinegar Manufacture: (ii.) Fermentation and Bacteriology; (in.) Agricultural Chemistry; (iv.) Chemistry of Food and Drugs. Civic Design and Town Planning. A systematic course of lectures and class work is given, provided by the Bournville Village Trust. In the Winter Term instruction is given in Drawing-office and Field Work; in the Spring Term in problems in Site Planning, in which term special series of lectures are also delivered by authorities on various aspects of Town Planning. Criminology. A post-graduate course on "Crime and Punishment" is conducted during one term. Special demonstrations in connexion with the subject are given at local Prisons, Asylums, and Mental Deficiency Colonies. Hydro-electric Engineering. Facilities are provided for students who desire to specialize in this subject. The B.Sc. degree may be taken with Honours in Hydroelectric Engineering. Industrial Law. A systematic course of lectures and tutorials is given in problems of Modern Industry, National and Local Government, etc., to students nominated by Trade Unions, who read for the Industrial Certificate awarded by the University. Mental Diseases. A special Department is established in connexion with the Asylums Committee of the City of Birmingham for research in Mental Diseases Mine Rescue. A special lecturer in the subject of Mine Rescue Work delivers a course of lectures, demonstrations in the Laboratory, and in the Model Mine in the grounds of the University, are given during one term. The Watch Committee of the City of Birmingham requires the attendance on these courses of members of the City Fire Brigade. Mining Research. A department responsible for research in problems relating to Oil, Coal, and Metal Mining is established under the direction of Dr. J Scott Haldane, F.R.S, who has been appointed an Honorary Professor in the University. Music. An Honours School has been established in this subject, and a degree of M Mus instituted. Social Study. Systematic instruction with practical training for administrative officials, philanthropic workers, Welfare supervisors, trade union and other officials, the clergy, members of local governing bodies. The course leads to a University Diploma in Social Study.

#### UNIVERSITY OF BRISTOL

- A. Schools and Departments: Agriculture, Dental Science, Education, Engineering, Medicine, Public Health.
- P. The degree of Ph.D. is open to any graduate in the several faculties in accordance with the regulations

# C. Specialist Courses:

Agriculture and Horticulture. Agricultural and Horticultural Research Station at Long Ashton, Somerset, and Fruit and Vegetable Preservation Research Station at Chipping Campden, Gloucestershire. The Royal Agricultural College, Circuicester, is also associated with the University for tuition for the degree of B Sc. (Agr.). Colloidal Chemistry. Special attention has for many years been devoted to the subject of colloids in both undergraduate and graduate courses, and a school of research is engaged in carrying through an extensive investigation based especially on soaps and nitro-cellulose. Domestic Science.

A special curriculum for the degree of B.Sc. Human Morphology includes Physical Anthropology, and students have the opportunity of taking part in excavations in caves in the Mendip Hills which were occupied by prehistoric man Social Study. Systematic instruction with practical training for officials in national, municipal, or rural administration, members of Local Government bodies, the clergy and philanthropic workers. The course leads to a University Testamur and Higher Testamur in Social Study.

#### UNIVERSITY OF CAMBRIDGE

For information regarding courses leading to the Ph D and other higher degrees and specialist courses, the Lecture Lists published in the Reporter early in each term and the pamphlet on Facilities for Study and Research (The University Press) should be consulted

#### UNIVERSITY OF DURHAM

#### DURHAM DIVISION

- A Schools of Theology, Education (training of teachers and preparation for the M Ed degree).
- B Subjects in which the University is prepared to accept students for the Ph D. or other higher degree. No list published. Application for admission to courses of post-graduation study will be considered as and when received. The Pure Science Laboratories (opened in 1924) are well equipped for research
  - C. Subjects to which exceptional attention is given:

Arabic (Diploma granted to graduates and non-graduates) Palæography Roman Antiquities in Britain Astronomy (at the University Observatory)

#### COLLEGE OF MEDICINE

- A Schools of Medicine and Dentistry.
- B Facilities for advanced study and research are provided in almost all subjects of the medical course, but especially in *Bacteriology*, *Pathology* and *Physiology*. The Royal Victoria Infirmary and the Princess Mary Maternity Hospital afford ample material for clinical research. General and Special courses of post-graduation instruction in Medicine are conducted throughout the year.

#### ARMSTRONG COLLEGE

- A. Schools of Art, Architecture, Commercial Science, Engineering, Naval Architecture and Marine Engineering, Metallurgy, Mining, Agriculture, Education.
- B. Ph D. Applications for admission to courses of study and research for the Ph.D. degree will be considered as and when received

Special facilities for research are provided in Pure Science, Applied Mathematics, Naval Architecture, Zoology, Electrical Engineering, Agriculture and Economics.

C. Subjects to which exceptional attention is given:

Fine Art and Music for the Pass BA. Architecture. An Honours course covering five years (parts of the fourth and fifth to be spent in an architect's office). Ancient History. Special facilities for the study of Roman Britain. Mechanical and Marine Engineering. Naval Architecture. Special facilities for the study of high-speed engines and all problems connected with shipbuilding. Agriculture. The Department has under its control the Northumberland County Council Experimental Station. Marine Biology. The Dove Marine Laboratory, at Cullercoats, is part of the Zoological Department of the College; available for research work.

# UNIVERSITY OF LEEDS

A. Schools and Departments of Law, Medicine, Dental Science, Engineering, Metallurgy, Mining, Agriculture, Textiles, Colour Chemistry, Coal Gas and Fuel, Leather Manufacture, Education, Commercial Science.

 $B\$  Subjects in which the University is prepared to receive candidates for the Ph.D  $\$  or other higher degrees :

ARTS Greek, Latin, French, German, Russian, Spanish, English, History, Philosophy, Economics, Geography, Education, Law, Commerce

Science: Mathematics, Physics, Chemistry, Zoology, Botany, Geography, Geology, Physiology, Human and Comparative Anatomy, Bacteriology

APPLIED SCIENCE: Civil Engineering, Mechanical Engineering, Electrical Engineering, Mining Engineering, Gas Engineering, Fuel and Metallurgy, Chemistry of Leather Manufacture, Colour Chemistry and Dyeing, Agriculture, Textiles

MEDICINE. Approved subjects of Medicine, Surgery, and Dentistry.

# C. Specialist Courses:

Social Organization and Public Service Two years' course for Diploma, Economics, Industrial and Social History, Social Psychology, Local Government, Public Health and Hygiene, Administration, Social Ethics, Statistics, Labour Organization, etc. Commerce year's course for post-graduate Diploma Educational Administration. Two sessions' course for Diploma Animal Biology. Diploma for Teachers on one year's course Marine Biology Research Station at Robin Hood's Bay. Colour Chemistry and Dyeing Courses of lectures with practical work in the special laboratories of the Department extending over four years for Honours B Sc or (for immatriculated students) for Diploma, three years for Pass B Sc or Diploma; five years' part-time course for dyers' apprentices Coal Gas and Fuel Industries with Metallurgy. Courses of lectures with practical work in the special laboratories of the Department for Honours degree. Ordinary degree or Diploma. Two years' post-graduation course for Diploma in (i.) Gas Engineering, (ii) Fuel and Metallurgy. Mining. Degrees and Diplomas recognized for Colliery Manager's Certificate. Special facilities for research in newly equipped laboratories. Leather Industries. Courses of lectures with practical work in the special laboratories of the Department for the Honours degree, Ordinary degree, M.Sc., and Diploma. Procter International Research Labora-Textile Industries. Courses of lectures with practical work in the special laboratories of the Department for B Sc in Textiles or B Com. with Textiles as principal subject, one year post-graduation course for Diploma, three years' course for Diploma Agriculture. The Department conducts, on behalf of the County Councils of the three Ridings, the whole scheme of agricultural education in Yorkshire. The laboratories (Agricultural Chemistry, Botany, Bacteriology and Zoology) are open for research, or for special technical training special feature is that of Agricultural Economics. Public Health. Post-graduate Diploma course of at least twelve months, including clinical practice and administrative experience. Psychological Medicine. Post-graduate course of at least two years for Diploma, including experience in a Mental Hospital Nursing Course of instruction together with four years' hospital training for Diploma May be supplemented by a year's course of instruction for Sister Tutors Dentistry. Course for Degree and Diploma conducted in University and Infirmary. New building just opened for Dental School and Hospital

#### UNIVERSITY OF LIVERPOOL

A. Schools and Departments: Law, Medicine (including Tropical Medicine and Public Health), Dental Science, Veterinary Science, Civic Design and Town Planning, Architecture, Naval Architecture, Social Sciences and Administration (Geography, Economics, Commerce, Social Science), Engineering (including Marine Engineering), Metallurgy, Education.

B Subjects in which the University is prepared to receive students for the Ph D. degree. the following departments have been approved. The Ph.D committee is prepared to receive applications for recognition from any other department in which candidates may desire to work.

ARTS. Greek, Methods and Practice of Archwology (Archwology of Palestine), Philosophy, Mediwal History, English Literature, German Science. Chemistry (Inorganic, Organic, Physical and Industrial), Mathematics, Physics, Zoology, Botany, Geology, Oceanography. Medicine. Physiology, Bio-Chemistry, Entomology, Bacteriology. Engineering. Mechanical Engineering, Thermodynamics of Heat Engines, Strength of Materials, Electrical Engineering, Civil Engineering, Naval Architecture, Metallurgy

# C Specialist Subjects

FACULTY OF ARTS. Palæography and Diplomatics Course A: The outlines of Latin Palæography from the earliest times to about 1600. Course B: English Hands, especially Diplomatic, to about 1600. Course C. French Hands, Book and Diplomatic, to about 1500. Similar Courses will be provided, if required, for candidates in the Honours Schools of German, Italian and Spanish. Course D: The outlines of Diplomatics. Students have access to the Library of the School of

Local History and Records, which has a palæographical section containing a large collection of facsimiles of MSS of all periods. Classical Archæology. Course A: Outlines of the Antiquities of Greece. Course B: Greek Art and Antiquities of the Fifth Century B.c. Course C: Roman Art and Antiquities from 145 B.C. to A.D. 14. Course D: Ancient Art, with special reference to architecture and sculpture. Course E. Classical ornament and symbolism. Methods and Practice of Archæology. Course F: Methods in Archæological Research. Egyptology. Course G: History, Art and Archæology of Ancient Egypt. Ancient Egyptian Language. Associated with the Department of Archæology is an Institute of Archæology containing a library and museum of Comparative Archæology. The University awards a Certificate and Diploma in Archæology. Fees. Courses: Diploma, £10; Certificate, £30, Examinations. Diploma, £4; Certificate, £3. Celtic. Course A Modern Welsh Language and Literature, Elements of Welsh Phonology, Phonetics Course B. Early Modern Welsh Language and Literature, Outlines of Historical Grammar, Course C. Mediæval Welsh Language and Literature, Outlines of Historical Grammar Course D History of Welsh Literature Course E: Spoken Welsh. Course F Teachers' Course in Language and Literature, Modern Welsh Language and Literature, Elements of Welsh Phonology; Phonetics Special forms of literature, lyrical poetry from the sixteenth century, and narrative prose from the eighteenth century Course G. Modern Historical Sources in the Welsh Language Course H Mediæval Historical Sources in the Welsh Language Course I Modern Literary Welsh Language Course / Mediæval Welsh Language Special Studies in Welsh Language Course L Special Studies in Welsh Literature Music and Art of the Theatre. Short courses, open free to the public, are given each year by special lecturers. Social Science The School provides a course of study covering one or two years leading to a Certificate and Diploma in Social Studies The Diploma Course is designed for University graduates and others who can give evidence that their education has reached a similar standard. Fees. Course for the Diploma (2 yrs). £28; Examination, £3. Course for the Certificate (2 yrs.), £28; Examination, 13. Civic Design and Town Planning. The Department (established 1909) is part of the School of Architecture and is intimately associated with it. The University grants a Certificate and Diploma in Civic Design. The Course for the Diploma meets the requirements of qualified students who desire to pursue their studies in Town Planning to a stage demanding a trained artistic sense and a knowledge of the problems involved in civic composition. There are special Lecturers on Landscape Design, the Law of Housing, and Civic Engineering. Fees: Course for the Certificate, \$10; Examination, \$3. Course for the Diploma. 135; Examination, 16:5s. M.A. and Honours B.A. in Jurisprudence. FACULTY OF SCIENCE. Oceanography. The staff includes Honorary

FACULTY OF SCIENCE. Oceanography. The staff includes Honorary Lecturers in Sea Fisheries, in Economic Ichthyology and in Marine Biology. The Oceanographic Laboratory is open for research work to graduate students. The Port Erin Biological Station is also available for such work. Tidal Institute. Founded in 1919 for research into all

aspects of knowledge of the Tides. Graduates are admitted as research workers under the guidance of the Director.

FACULTY OF MEDICINE. Tropical Medicine. The School of Tropical Medicine (founded in 1898) trains medical men proceeding to the Tropics in the subject of tropical diseases; conducts researches and organizes prophylactic measures against tropical diseases. The University awards Diplomas in Tropical Medicine and in Tropical Hygiene. Candidates must hold a registrable qualification to practise Medicine, and candidates for the Diploma in Tropical Hygiene the DTM in addition. Fee for the DTM Course, £21, for Examination and Diploma, £6:5s. Fee for the DTH. Course, £10:10s.; for Examination and Diploma, £6:5s. Medical Radiology and Electrology. The University awards a Diploma in Medical Radiology and Electrology. Candidates must hold a registrable qualification to practise Medicine Fee for the Course, £24:5s. Examination and Diploma, 16: 5s. in one examination, or 17 6s. if paid in two parts. Orthopædic Surgery. The University awards a Degree of Master of Orthopædic Surgery. Fee for the Course, £41, Examination and Degree, f.10. Public Health. The City of Liverpool and its Port offer exceptional advantages for the study of Public Health, and every facility is afforded for training in sanitary science and State Medicine. The City Laboratories and University School of Hygiene are contained in one building which houses the City Analyst and City Bacteriologist, together with the University staff in Public Health. The University confers the degree of Master of Hygiene and a Diploma in Public Health Fees. Degree of Master of Hygiene, 2 yrs, £80; Examination and Degree Fees, £15:10s Diploma in Public Health, Course, £45, Examination and Diploma, £6:5s. Dentistry. In addition to the facilities afforded by the Medical School for certain subjects of the Dental curriculum, the University possesses a Dental School, recently built, the Dental Hospital adjoining is intimately associated with the Dental School. Veterinary. Students in the Veterinary School are prepared for (1) the Diploma of Membership (MRCV.S) and the Fellowship (F.R C.V.S) of the Royal College of Veterinary Surgeons (2) The Degrees of Bachelor of Veterinary Science (B.V.Sc.), Doctor of Veterinary Science (D.V.Sc.) and the Doctorate in Philosophy (Ph D.)

#### UNIVERSITY OF LONDON

A Schools of Theology (King's College Theological Department, Hackney and New Coll., Hampstead, Wesleyan Coll., Richmond, St. John's Hall, Highbury), Law (Umiversity Coll., King's Coll. and the School of Economics jointly); Medicine (12 Hospital Medical Schools, University and King's Colleges (vide supra), London School of Hygiene and Tropical Medicine, Lister Institute of Preventive Medicine, Royal Army Medical Coll, Royal Naval Coll, Greenwich, Bethlem Royal Hosp, Maudsley Hosp, Cancer Hosp); Dental Science (11 Hospital Dental Schools, vide supra); Veterinary Science (Royal Veterinary Coll); Music (Royal Academy, Royal Coll, Trinity College); Art (University Coll., Slade School, Goldsmiths' Coll.); Dramatic Art

(East London Coll.); Civic Art and Design, and Town Planning (Univ. Coll., Bartlett School); Ecclesiastical Art (King's Coll.); Architecture (Univ. Coll., Bartlett School); Journalism (Univ., King's and Bedford Colls, and Sch. of Econ. jointly), Librarianship (Univ. Coll.); Economics and Political Science (School of Economics); Social Science and Administration (School of Economics); Commercial Science (School of Economics), Engineering (Univ. Coll., King's Coll., Imperial Coll., East London Coll.), Metallurgy (Imperial Coll.), Mining (Imperial Coll.), Mining and Technology of Petroleum (Imperial Coll.); Mining Geology (Imperial Coll.); Agriculture and Estate Management (Lawes Agricultural Trust, Rothamsted; South-Eastern Agricultural College, Wye), Education (King's College, London Day Training College, Goldsmiths' College, Maria Grey Training College, St. Mary's College, Paddington); Pharmacy (School of Pharmacy).

B. Students studying for the Ph.D. Degree (Internal) have been

accepted in the following subjects:

Aerodynamics, Aeronautics (v. Maths below), Agricultural Chemistry, Agricultural Parasitology, Anthropology, Arabic, Archæology, Astronomy, Bacteriology, Bantu Languages, Bengali, Bio-Chemistry, Biology, Botany, Chemical Kinetics, Chemical Engineering, Chemical Technology, Chemistry, Chinese, Colloidal Physics, Commerce, Currency and Banking, Dietetics, Economics, Education, Egyptology, Electro-Chemistry, Embryology, Engineering, English, Entomology, Ethics, Ethnology, Foreign Affairs, French, Fuel Chemistry, Fuel Technology, Genetics and Cytology, Geochemistry, Geography, Geology, German, Helminthology, Hindi Literature, Hindu Philosophy, History, History of Science, Hydraulics, Islamic History, International Relations, Italian, Jain Literature, Latin, Literature (Comparative), Mathematics (including Maths. as applied to Aeronautical Science), Metallurgy, Metaphysics, Meteorology, Mining, Morphology, Music, Muslim Jurisprudence, Mycology, Persian, Petrology, Philology (Comparative), Philosophy, Phonetics. Physics, Physiology, Plant Physiology, Political Science, Protozoology, Psychology, Puranic Literature, Rabbinic, Religion (Comparative Ethics of), Religions (Philosophy of), Sanskrit, Slavonic Studies, Sociology, Soils, Soil Bio-Chemistry, Spanish, Spectroscopy, Statistics, Thermodynamics, Theology, Transport, Zoology

# C. University College—Specialist Courses:

[Fees for lectures or seminars are generally at the rate of from 3 to 4½ guineas for the session or 1½ guineas a term for one hour per week.] Physical and Cultural Anthropology. Archæology (a) Greek Art and Architecture. (b) Epigraphy, History of Art, Antiquities and Mythology. (c) History of Ancient Sculpture. (d) Surroundings of Greek and Roman Life. Assyriology. Astronomy. (a) Practical Astronomy. (b) Spectroscopy. (c) Modern Stellar Astronomy. (d) Advanced Astronomy for graduates. Cellic, Old Irish Literature. Chemical Engineering. Special Course (2 sessions) in Scientific Principles underlying Chemical Processes on technical scale. Danish. v. Scandinavian. Dutch History, Language and Literature. Egyptology. Training Course, 2 sessions, including Language, Art, Anthropology.

Evening School, Hieroglyphics and Egyptian Religion, Manners and Customs. Engineering. Post-graduation courses in all branches, including Railway Engineering, Waterways, Harbours and Docks, Reinforced Concrete, Photographic Surveying, High Frequency Electric Measurements, Electro-Communications and Electrical Design Statistics. History. Post-graduation seminars in (a) Sources of English History in the Fourteenth, Fifteenth and Sixteenth Centuries, with practical work illustrating methods of Historical Research (b) History of the Christian Church. (c) English Political History (d) Naval History. (e) History of London. (f) Colonial History. (g) Diplomatic History. (h) American History. (1) Modern French History. (1) Dutch History and Institutions. (k) The History of the Great War, 1914–18. History of Medicine. Law. (a) Comparative Customary Law. (b) Roman-Dutch Law, with seminar. (c) Constitutional Law (d) Muhammadan Public Law and Turkish Land Law (e) Hindu and Muhammadan Law Librarianship. (a) Bibliography. (b) Palæography and Archives. (c) Cataloguing, Indexing, and Classification. Military Studies Norwegian, v. Scandinavian. Comparative Philology. I History and Principles. 2. Comparative Syntax of Greek and Latin. Phonetics. 1. English Phonetics for Foreign Students 2 English Phonetics for English Students 3. Phonetics of French, German, Italian, Welsh, Danish, Swedish, Dutch, and other Languages Phonetics (advanced) and Research Work. 5. Spoken English for Foreign Students. Psychology (a) A new system of General Principles illustrated by explanatory mental tests, with seminar and laboratory course on testing individual abilities, etc (b) The Sense and Nervous (c) Recent Experimental Results. (d) Fundamental Problems and Controversies. (e) Mental Measurement, with Exercises. Physics of Experimentation. (g) Animal Psychology. (h) Comparative Psychology of Primitive Races (1) Psychology of the Learning Process (k) Child and Comparative Psychology (1) Psycho-analytic Study of Conduct and Character Scandinavian Studies, Danish, Norwegian and Swedish, Junior or Senior Class, 1 g. for session, Post-graduation work, Literature of nineteenth century, Old Norse Statistics, Applied, and Eugenics (Galton Laboratory for National Eugenics and Biometric Laboratory), Laboratory work (trained students only).

List of Departments other than those named above in which post-graduation courses are provided (v. special pamphlet obtainable from Secretary), Latin, Greek, Hebrew, English, Romance Philology and French, Germanic Philology and German, Italian, Political Economy, Geography, Philosophy, Principles, History and Method of Science, Tibetan, History of Art, Architecture (including Town Planning), Mathematics, Pure and Applied, Physics, Chemistry, Geology, Botany, Zoology and Comparative Anatomy, Embryology and Histology, Physiology and

Bio-Chemistry, Hygiene and Public Health.

# King's College—Specialist Courses:

[Fees for Occasional Classes and Seminars are usually at the rate of  $\pounds 1:11:6$  per term or  $\pounds 4:4s$ . for the session for one hour a week in day classes, and  $\pounds 1$  per term or  $\pounds 2:10s$ . for the session in evening classes.]

Composition fees for full-time Post-graduate Courses vary from £8:8s. to £22:1s. p.a

FACULLY OF ARTS. English Language and Literature and Bibliography. Evening School of English for post-graduation work, including special Four-year Course for Evening Students for the University Diploma. Mediæval and Modern History. Palæography and Diplomatic, Ecclesiastical History, Mediæval History, Russian History, Central European History, Imperial History, Historical Geography. School of Slavonic Studies. (a) Russian—full provision for all teaching to B A. Hons and higher degrees. (b) Slavonic Philology. (c) Polish Language and Literature (d) Czecho-Slovak Language and Literature. (e) Serbian Language and Literature. School of Spanish Studies. B A. Hons and higher degrees Phonetics Department of Portuguese. Modern Greek Language and Literature, including Byzantine History and the History of Modern Greece. Hebrew. Classes for the Midrash and Talmud. Psychology. Special Courses in Educational Psychology. Psychotherapy and the Psychology of Advertising, and for the University Diploma. Education Secondary Teachers' Training Department. Post-graduation work

College Certificates are awarded in Spanish, Portuguese, Italian, Russian, Hebrew, Czecho-Slovak, Serbo-Croat, and Polish

FACULTY OF THEOLOGY. Seminars in Biblical and Rabbinical Hebrew, in the Philosophy of Religion and in Ecclesiastical History. Provision for the advanced study of the New Testament.

FACULTY OF NATURAL SCIENCE Mathematics and Physics. Thermionics, Radiation, Quantum Theory, Spectroscopy, Generalized Dynamics, Radio-activity, Atmospheric Electricity and Wireless Telegraphy Chemistry Optical Activity of Cyclic Compounds, Photo-Chemistry, Stability and Electrical Properties of Colloids, Electro-Chemistry, Carbon Compounds of Sulphur. Zoology. Special Research in Experimental Embryology, General Exp Zoology, Protozoa. Botany Cytology, Genetics

FACULTY OF MEDICAL SCIENCE Physiology. Research in Experimental Physiology, especially in relation to the Circulation. Bio-Chemistry of the Carbohydrates, Physical Chemistry of Blood, Histology of the Nervous System in health and disease

FACULTY OF ENGINEERING. Research in Heat Engines, including Steam and Internal Combustion Engines, Refrigeration, Strength and Elasticity of Materials, Hydraulics, Alternating Current Machines, High-tension and Non-Thermionic Amplification

Special Lectures on subjects of interest to advanced students.

#### IMPERIAL COLLEGE OF SCIENCE AND TECHNOLOGY

[Including: The Royal College of Science; The Royal School of Mines; The City and Guilds (Engineering) College. Specialized Courses are as follows, but advanced work and research are carried out in all Departments of the Colleges. Students have ready access to the Science Library, which is situated in the Royal College of Science, and to the Science Museums adjacent thereto. The Diploma of the Imperial College is awarded for approved advanced study and

research extending over not less than one year, and the higher degrees of London are open to students who register as internal students of the University.

Aeronautical Engineering: Aerodynamics, Design lectures and class, Materials of Aircraft Construction, Construction and Strength of Aircraft, Engine Design, Airships, Meteorology, Air Navigation and Instruments, Dynamical Meteorology, Climatology Biology: Bacteriology, Pathology, and Physiology of Plants, Timber for Engineers and Architects, Fungi, Decay of Woods and its prevention. Fibres and Fibre-yielding Plants, Bio-Chemistry, Morphology, Problems of Heredity, General Entomology, Advanced Entomology, Economic Entomology. Chemical Technology Technology of Fuel, Refractory Materials and Silicate Technology, High Pressure Gas Chemistry, Manufacture of Glass, Ceramics and Cement, Chemical Engineering, Electro-Chemistry and General Chemical Technology Geology and Oil Technology. Mining Geology, Engineering Geology, Geology of Road Construction and Maintenance, Microscopy of Refractory and Allied Materials, Lubrication and Lubricants, Physical Geology Mathematics and Mechanics Thermodynamics, Kinetic Theory of Gases. Motion of Viscous Fluids, Theory of Relativity, Electromagnetic Theory. Technical Optics: Physical Optics, Optical Designing and Computing, Workshop and Testing Room Methods, Vision and Aids to Vision, Construction Theory and Use of Optical Measuring Instruments, Instrument Drawing, Advanced Designing and Computing, Mechanical Design of Instruments, Measurement and Recording of Light, Colour and its Measurement, Ultra-Violet Microscope. Physics Measurement of High Temperatures and Optical Pyrometry, Spectroscopy, Internal Combustion Engines Mechanical Engineering and Motive Power Railway Engineering and Mechanical Transport, The Locomotive and Mechanical Transport, Railway Signalling, Electric Traction and Railway Electrification, Bridge Design and Permanent Way, Railway Administration and Civil Engineering: Structural Engineering, Hydraulic Engineering, Geodesy, Public Works, Steel Bridges, Reinforced Concrete. Hydraulic Machinery Electrical Engineering: Electrical Machinery, Hydro-Electric Plant, Wireless Telegraphy and Telephony, Alternating Current Commutator Motors, The Organization of Electrical Manufactories, Design of Turbo-Generators, Transformer Practice and Insulation of Electrical Plant

Composition Fees are at the rate of £62:10s. per academic year for course work, and £22:10s. for research. They include membership subscriptions to the Unions and Clubs

# East London College—Advanced and Specialist Courses:

Aeronautics: A special course suitable for those who desire to be trained as Aeronautical Engineers, arranged to run concurrently with the B.Sc (Engineering) Course. It includes work with an experimental wind channel and special instruction in the construction and design of Aeroplanes. Among the post-graduation courses are English Language and Literature, French Language and Literature, Modern History, Ad-

vanced and Research work in *Mathematics*, *Chemistry*, *Physics*, *Botany*, and *Engineering*, for which there are special facilities. Classes are arranged on the history of the drama and the history of the stage. Fees—f22: 10s. for the session.

# BIRKBECK COLLEGE—Advanced and Specialist Courses:

Evening Post-graduation courses in Classics, English, French, German and Italian Language and Literature, History and Geography; facilities for advanced work and Research in Mathematics, Chemistry, Physics, Botany, Zoology and Geology Evening courses for Academic Diploma in Geography.

#### SCHOOL OF ECONOMICS AND POLITICAL SCIENCE

[The name of the subject is followed by the number of lecture hours, and the term or terms (Michaelmas, Lent, Summer) in which the lectures are given. The fee is generally at the rate of about  $\mathfrak{f}i:10s$ . for ten hours for day students,  $\mathfrak{f}i$  for ten hours for evening students.]

Accounting and Business Methods Accounts of Traders and Companies, Parts I and II (28 or 54, MLS), Business Organization, Parts I and II (16, M.S), Works and Factory Accounting and Costing (15, L), Secretarial Practice (30, ML), Banking and Currency Principles of Currency (20, M L), Theory of Banking (6, S); The Stock Exchange, Speculative Markets, and Dealing (6, S), The History of Currency and Banking, with special reference to England (15, LS), The Foreign Exchanges and International Banking (5, S); Banking and Finance in the Principal Foreign Countries (40, ML);—(The USA. South America, and the Far East (20), and Europe (20)); Banking in the British Dominions (9, L), Recent Monetary History and Monetary Controversies: an Introduction to the Monetary History of the Modern World (6, M.); Commerce and Industry: British Foreign Trade (8, S), Constitution, Production and Manufacture of Food Stuffs (15, ML), Industrial Organization (20, ML); The Financing of Industry (6, S), Raw Materials of Industry and Trade (20, M.L): International Trade and Traffic of the Great Ports of the World (25, MLS); General Trade and Transport Relations of the European Countries (10, L); The Organization of Commerce and Industry in Europe (50, MLS), The Organization of Commerce and Industry outside Europe (25, M L S.), The Trade of India (10, L); Trade of Africa and Australasia (15, LS); Trade of India and the Far East (15, LS); Trade of North and South America (15, L.S); Constitution, Production, and Manufacture of Materials (Textiles) (15, LS); The Constitution and Business Organization of Public Services (15, L.S.); Indian Production (10, M); Indian Finance (20, ML); Marketing Organization (9, S), Economics: Elements of Economics: (a) General Principles (26, M.L.), (b) Money, Banking and International Exchange (14, LS); (c) Trade and Industry (14, LS); Modern Industrial Problems (20, M L), Principles of Economics (50, M L S.); Comparative Economic Theory (18, LS); Theory of Public Finance (9, S); Economic Problems of War (12, M L.); Collective Agreements in Industry (6, L); Problems of Industrial Production (6, S.); Ethnology:

Ethnology (9, M.); Prehistoric and Early Man (8, M.); Living Races of Man and their Distribution (8, L.); Religious and Magical Beliefs and Practices of the Pagan Tribes of the Anglo-Egyptian Sudan (6, L.): Introduction to Social Anthropology (16, M.L.); Discussions on Social Anthropology (20, M.L.); Comparative Study of Language and Culture (S.): The Useful Arts of Primitive Peoples (7, M); Social Anthropology (25. M L): Primitive Religion and Magic (16, LS.); Political Institutions of Primitive Peoples (8, S); The Pueblo Indians in Arizona and New Mexico (16, LS); Geography. Commercial Geography (30. MLS1: General Regional Geography (32, LS); General Regional Geography (57, LS), General Regional and Economic Geography of the Southern Continents (56, MLS); Detailed Geography of North America (60, M L.S.); Detailed Geography of Europe (60, M L S); Historical Geography of the Mediterranean; Historical Geography of England (10, L); Historical Geography of France (9, S); Geography of London (10, M L S); Map Classes (80, M L), Economic Geography (25, M.LS); History: History of the Modern World (26, MLS), The Growth of English Industry (25, MLS), English Economic History (25, MLS); Economic Development of the Overseas Dominions (25, MLS); English Economic Development and Policy (25, MLS), The Economic Development of the Great Powers (25, M LS); The Political Position of the Great Powers (30, MLS), Economic History from 1485 (25, M L S): Constitutions of the Great Powers (20, M L), Social and Economic History of Tudor England (30, MLS), Mediaval Trade (6, L); Economic History of Western Europe in the Middle Ages (30, MLS), Mediæval Famine Records (45, MLS); English Constitutional History and Law since 1689 (20, ML), Original Sources and other Materials for Advanced Studies in Economic and Social History (8, L), International Relations History of the Development of International Intercourse (29, MLS); Political Aspects of the Society of States (10, M), International Relations (20, ML); International Institutions (15, ML), Inter-Imperial Relations of the British Empire (6, M); The International Labour Office (9, S), Pacific Methods of Settling International Disputes (20, ML), International Technical Government (5, L.); The Machinery of Diplomacy (9, S), History of International Arbitration (10, L); The Work of the Permanent Court of International Justice (6, S), Problems of Colonial Government (10, L); The Protection of Minorities (5, M); Economic Aspects of International Relations (10, ML), Cultural Contacts between the West and Primitive Peoples (17, ML), Cultural Contacts between the West and Other Civilizations (5, S); Government of the British Empire—outside the Dominions (9, L.); Constitutions of the British Empire—Self-Governing Dominions (7, S); Law: Industrial Law (25, MLS); Elements of Industrial Legislation (15, M.L); Comparative Industrial Law (5, S); Commercial and Industrial Law (29, M L S.); Common Law-Contracts (37, M L); Criminal Law and Procedure (30, ML); Law of Property (45, M.LS), History of English Law (44, MLS); History of English Law (with special reference to Economic Conditions) (6, S.), Conveyancing (29, M.L.S.); Mercantile Law-Special Subjects (29, M.LS); Constitutional Laws of the British

Empire (20, M.L.); Elements of English Law (44, M.L.S.); Elements of Commercial Law (52, M.L.S.); The Law of Banking (15, M.L.); Maritime Law (15, L.S): The Law of Marine Insurance (10, M.): The Law of Carriage by Railway (20, M L.); Constitutional Law and History (42, M.L.S); International Law (Peace) (26, M.L.S); International Law (War and Neutrality) (26, MLS), International Law Cases (9, S); Code Civil (36, M L.S), Conflict of Laws (30, M.L); Law of Local Government (10, L); Logic, Psychology, and Philosophy: Logic (58, M.LS), Scientific Method (14, LS), Industrial Psychology and Physiology (5, L); Industrial Psychology (30, M.LS); The Psychological Theory of Law (4, M), General Psychology (25, S); Politics and Public Administration The British Constitution (30, ML.); Principles of Administrative Law (8, L); Executive and Judiciary Problems (14, LS); Parliament and its Problems (20, M,L), Political and Social Theory (19, LS), Central Government (5, S), French Political Ideas, 1789-1848 (6, S), Political Ideas of the Ancient World (10, M), European Political Ideas, 1500-1689 (10, L), Political Ideas since 1689 (15, ML), Political Theories (25, MLS), The French Constitution (10, M), French Public Administration (15, L.S), The Government of French Colonies (8, M), German Political Ideas, 1789-1848 (5, S), Local Government Problems (18, LS), Comparative Government Problems (15, ML), The Constitution of the United States (6, L), The Constitution of Germany (6, S), American Political Ideas (to the Civil War) (6, S), Communistic Legislation in Russia (4, M), Marxism in Russia (3, S), Social Science and Administration. Introduction to Social Science (6, M); Introduction to Social Philosophy (19, MS), Problems of Social Administration (20, M.L); Problems of Modern Industry (20, MS), Social Developments from 1760 (30, M L.S), Physiology (30, M LS); Introduction to Psychology (9, S), Machinery of Government (10, M), Psychiatry (10, M); Sociology Comparative Social Institutions (20, ML), Social Philosophy and Psychology (20, ML); Social Psychology (20, M.L.), Comparative Ethics and Religion (20, ML), Introduction to the Study of Society (20, ML), Ethics (16, LS); Biological Factors in Social Evolution (8, S), Social Rights and Duties (12, S); The Family (18, S.), Statistics and Mathematics: Introduction to Statistics (10, M.), Mathematics Preparatory to Statistics (60, ML.S); Statistical Method (25, MLS), General Statistics (30, M.LS.), Advanced Statistics (29, M L S); Current Statistical Questions (5, L); Advanced Mathematics (26, M.L.S.); Business Statistics (50, M.L.S.), Transport: Organization of Transport (26, M.L.S.), Economics of Transport (26, MLS), Railway Statistics (10, L); Commercial Railway Economics (20, ML); Operating Railway Economics (20, M.L.); General Economics, with special reference to Transport (10, L); Comparative Economics of Inland Transport (20, M.T.); Law of Carriage by Railway (20, ML); Railway Accounts (10, L); Railway and Commercial Geography of the United Kingdom (20, M.L); Transport and Storage of Commodities of a Perishable Nature (7, L).

The School affords special facilities for research in Economics, Law and Political Science. The Library, which is one of the largest in London,

includes the British Library of Political Science, the Fry Library of International Law, and the Schuster Library of Comparative Legislation. There are separate reading-rooms for the different departments. Research students are advised and directed in their research by the senior members of the staff. A large number of seminars are held.

#### SCHOOL OF ORIENTAL STUDIES

Teaching is provided with opportunities for research in more than 45 languages; in the history, religions, and customs of Oriental and African peoples; Epigraphy, Comparative Philology; Phonetics Fees: For separate courses, 8 gs to 18 gs. Composition, £21 a session

# INSTITUTE OF HISTORICAL RESEARCH

The Institute is the University Laboratory of History devoted exclusively to post-graduation work. It is open to historians, archivists, teachers, and research students from approved universities.

Introductory Courses. On the Sources of English History in the Thirteenth and Fourteenth Centuries, Th 3 30-4 30. The Sources of English History in the Fifteenth and Sixteenth Centuries, with practical work illustrating methods of Historical Research, M 5 15-6 15 The Sources of English and Colonial History in the Eighteenth and Nineteenth Centuries, M 5 30-6.30 The Sources of the History of British India. W 5-6. Work on Archives, especially the Public Records, Five lectures and demonstrations, M 5 30-6 30 Reading of Dutch Historical Texts, W 4-5. Seminars Greek Palæography, Th 5-6 (or 7-8) Palæography, Th 6-7 The History of England in the Reigns of Edward I and Edward II, Th 5-6 Trade and Industry in the Later Middle Ages, M. 7 30-8 30 The History of London in the Fifteenth and Sixteenth Centuries, W 5 30-6.30 English Constitutional History in the Fifteenth and Sixteenth Centuries, Tu 515-615 Manorial Administration in the Fourteenth and Fifteenth Centuries, Th 5 30-6 30 Scotland in the Sixteenth Century, Th (Time to be arranged) Economic History in the Seventeenth Century (Time to be arranged). English History, 1603-1660, W. 4 30-5 30. Colonial History: (a) The African Trade, 1660-1837. (b) British North America and the West Indies, 1763-1837, Tu. 5 45-6 45 Diplomatic History in the Seventeenth and Eighteenth Centuries, W 5 45-6 45. English History, 1660-1760, W. 5-6 Modern French History (Time to be arranged) British India, 1773-1858, Tu 5-6. The History of the United States since 1783, W. 5-6 The Eastern Question in the 'Seventies, W. 5 30-6 30. For further information regarding other seminars contemplated apply to the Secretary of the Institute, Malet Street, W C I

#### BEDFORD COLLEGE FOR WOMEN

Facilities for post-graduation work in Science and in Arts include Pilcher Research Laboratory and Sargant Laboratory of Plant Physiology and a Botany garden, exceptionally well equipped English, French and Classical Libraries, specialist courses for Univ. Diploma in Journalism and Academic Diplomas in Geography and Applied Psychology, College and Ministry of Health's certificates in Social Studies. Organized

post-graduation courses in French, German, Spanish, Modern History, Latin, Mathematics, Botany, Chemistry, Physics. Composition fees for p.-g. and diploma courses Fees for separate courses of lectures held once a week—2½ gs. per term.

KING'S COLLEGE OF HOUSEHOLD AND SOCIAL SCIENCE

Post-graduation classes in Physiology, Hygiene, Bacteriology, Household Arts, Applied Chemistry, in preparation for Certificate

IEWS' COLLEGE

Rabbinic Literature, Jewish Theology, Jewish History and Literature.
SOUTH-EASTERN AGRICULTURAL COLLEGE, WYE

A. Schools of Agriculture (British and Colonial) and Horticulture (Commercial Fruit Growing and Market Gardening)

B. Facilities are provided for special research work in Agricultural Economics, Economic Entomology and Economic Mycology.

#### ROTHAMSTED EXPERIMENTAL STATION, HARPENDEN

Laboratories, agricultural library, and experimental farm of 300 acres. Devoted exclusively to research in problems connected with the study of soil and the growing plant in health and disease. The Station does no work on plant-breeding, animal nutrition, agricultural economics, Departments. Bacteriology, Botany, Chemistry, Fermentation, General Micro-Biology, Insecticides and Fungicides, Physics, Plant Pathology (Mycology and Entomology), Statistics Laboratories also for Algology and technique of Field Experiments Permanent scientific staff numbers about 40. Provision for post-graduate workers who have already had the necessary training in pure science Recognized for M.Sc., Ph D, & D Sc. London, and M Sc, Ph D. Cambridge. Special facilities for gaining experience in field work and for studying methods of agricultural investigation are afforded to graduates proceeding to take agricultural appointments in this country or overseas, and also to officers of Agricultural Departments of the Empire and others engaged in scientific agriculture overseas who, when on leave in this country, may wish to study special problems, to consult the literature, to prepare reports, etc. Facilities are available for investigations not directly connected with agriculture. No fees charged to voluntary workers for the supervision of their work, but a charge is made for apparatus, chemicals, etc., amounting to from £2: 10s. to £5 a month ordinarily

#### BATTERSEA POLYTECHNIC

Facilities for advanced study and research in Pure Science and in various branches of technology, e.g. Chemical and other branches of Engineering, Applied Bacteriology, Oils, Fats, Waxes, Mineral and Lubricating Oils, Papermaking, and Testing. Post-graduation evening courses in Chemical Engineering, etc., have been organized. Special courses in Domestic Science, Hygiene, and Public Health work.

#### NORTHAMPTON POLYTECHNIC INSTITUTE, FINSBURY

Facilities for post-graduation study and research in Ophthalmic Optics, Electro-Chemistry and in Engineering (Mechanical, Electrical, Radio, etc.) are provided.

NORTHERN POLYTECHNIC

Facilities for advanced study and research in *Chemistry*, including *Rubber Technology*; *Physics*, including *Piano* and other musical instruments; *Building Materials*, including *Ferro-Concrete*.

School of Pharmacy, Pharmaceutical Society of Great Britain.

SIR JOHN CASS TECHNICAL INSTITUTE

Facilities for advanced study and research in Physics, Mathematics, Chemistry, Colloids, and Metallurgy. Specialist courses in Alternating Currents and Electrical Oscillations, Bio-Chemistry of Fermentation, including Brewing and Micro-Biology, Petroleum Technology, Gas Manufacture, and Physical Metallurgy

MEDICAL SCHOOLS

Facilities for special research work are offered by the National Institute for Medical Research (Bio-Chemistry and Pharmacology, Exper. Pathology, Bacteriology and Protistology, Applied Optics, Applied Physiology, Medical Statistics), Lister Institute of Preventive Medicine (Bacteriology, Hygiene, Bio-Chemistry, Experimental Pathology, and Protozoology), Middlesex Hospital (Bio-Chemistry, Radiology and Electrology, Cancer Research), University College Hospital (Cardiography), Bethlem Royal Hospital (Neurology, Psychological Medicine), Maudsley Hospital, National Hospital for the Paralysed and Epileptic (Neurology), Royal London Ophthalmic Hospital (Ophthalmic Medicine and Surgery). Brompton Hospital for Consumption and Diseases of the Chest, London School of Hygiene and Tropical Medicine (Tropical Pathology, Medical Entomology, Helminthology, Protozoology, Noxious and Venomous Animals) For information regarding specialized courses arranged by the Fellowship of Medicine and Post-graduate Medical Association, application should be made to the Secretary, I Wimpole St., London, WI

#### THE UNIVERSITY OF MANCHESTER

A Schools and Departments Theology, Law, Medicine, Public Health, Dental Science, Veterinary Science, Pharmacy, Music, Architecture, Commercial Science (including Administration), Engineering (Civil, Mechanical, Electrical and Sanitary), Metallurgy, Mining, Education (including Training of Teachers of the Deaf). Technology (Engineering, Chemistry, and Textiles)

B Subjects in which the University is prepared to receive candidates for the Ph.D degree:

Candidates for the Degree of Ph D have been accepted to date in the following subjects: Archæology of Eastern Roman Provinces, Chemistry (Inorganic, Organic, Physical and Applied), Colloids, Comparative Literature, Economics, Elizabethan Drama, Engineering, Hellenistic Studies, History, Metallurgy, Neurology, New Testament Exegesis, Pharmaceutics, Philosophy, Physics, Physiology, Psychology, Semitic Studies, Sociology, and Zoology.

The General Board of Faculties is prepared to receive applications for recognition from any other department in which candidates may desire to work.

C. Specialist Courses:

Faculty of Arts. In addition to English, French, German, Greek (Hellenistic and Classical), and Latin, instruction is given in Arabic, Chinese, Hebrew, Italian, Provençal, Russian, Spanish, and Syriac. Moreover, special attention is given to the training of students in the methods of Historical Research, with instruction in Palæography and Special facilities are afforded for research in Historical Cartography by the Mills and Booker collections of maps There are bibliographical facilities for comparative study of literary theories of the time of the Renaissance.

The Rylands Library offers unique opportunities for advanced study in many branches of modern and ancient literature, for historical research, and for studies in divinity.

Faculties of Science and Technology. In addition to the subjects in which instruction is given in the Honours Schools of the Faculty of Science, special instruction and facilities for research are furnished in the scientific laboratories in the University buildings in Botany, Economic (including Cotton Mycology); Crystallography, Electro-Chemistry (Pure and Applied); Industrial Psychology, Water Supply and Irrigation; Hydraulics and Hydro-electric Engineering, and Internal Combustion Engineering; Zoology, Parasitology, and Economic Zoology (including Cotton Entomology) The recently established Graham Research Laboratory offers special facilities for the study of Colloids. In the Public Health Laboratories. York Place, courses are delivered and investigations may be undertaken in Bacteriology and Preventive Medicine, including Veterinary State Medicine and also School and Factory Hygiene Research in Mining may be pursued either in the Faculty of Science or in the Faculty of Technology.

In the Faculty of Technology (College of Technology) complete plant is installed for practical and research work in Brewing, Colouring Matters (in the Dye Stuffs Research Laboratory), Cotton Technology (Spinning and Weaving, including Textile Testing), Photographic Technology, Wireless Telegraphy and Telephony. In the Dye House of the College complete plant is installed for Bleaching, Dyeing, Finishing, and Printing, and also for Paper-making. Practical and research work in High Voltage Technology in the High Tension Laboratory.

Faculty of Medicine. Research may be pursued in any of the subjects forming part of the courses leading to the degrees of M.B. and Ch.B., but special facilities exist for the study of Cancer Research (in the Helen Swindells Laboratory and the Christie Cancer Pavilion, and in conjunction with the local Cancer Research Committee), Human Physiology and Bio-Chemistry, Neurology and Psychological Medicine, and in Factory and School Hygiene, and in Preventive Medicine in the Public Health Laboratory (see Faculty of Science Prospectus and above).

A Laboratory for Clinical Investigations and Research has been established in the Manchester Royal Infirmary under a director

appointed by the University.

A scheme arranged in conjunction with various local hospitals provides, in addition to the existing post-graduate courses (D.P.M., D.P.H., Dp Bact., D.V.S.M.), for intensive general courses in Medicine,

Surgery, Obstetrics and Gynæcology, for special part-time courses in (1) Diseases of the Eye; (2) Application of Radiology to Medicine in Diagnosis and Treatment; (3) Diseases of the Shin; (4) Clinical Pathology, and for other special courses.

Faculty of Commerce and Administration. The University has received valuable gifts and loans of collections of eighteenth and early mineteenth century records of firms engaged in the cotton industry and trade and in allied industries, and this material is available for students working in the department.

Faculty of Theology The John Rylands Library contains valuable material on which work can be pursued under the direction of the Professor of Comparative Religion, and in connexion with the subject of Christian Epigraphy there are special facilities, particularly in connexion with the recent investigations conducted in Asia Minor by the lecturer in that subject.

Faculty of Education. Research in Education leading to the degree of M.Ed. may be pursued under the supervision of the Director of this department.

#### POST-GRADUATE DIPLOMAS AND CERTIFICATES

The following post-graduate diplomas are obtainable:
Bacteriology, Geography, Psychological Medicine, Public Health,
Veterinary State Medicine, Social Study, Teacher's Diploma.
The following post-graduate certificates are obtainable.

Factory and School Hygiene, Teachers of the Deaf

#### UNIVERSITY OF OXFORD

For information regarding courses leading to Degrees open to graduates of other Universities the pamphlet on Facilities for Advanced Studies and Research published by the University Press should be consulted. The Degrees in question are those of B Litt, BSc, D Phil., B.C L., and B.D. The pamphlet may be obtained at the Clarendon Press Depository, 116 High Street, Oxford

#### UNIVERSITY OF READING

A. Schools and Departments: Agriculture, Dairying, Horliculture, Education, Commerce, Fine Art and Crafts, Music, Domestic Subjects.

B. The University is prepared to receive candidates for the Ph.D. degree in *Philosophy*, English, French, History, Physics, Chemistry, and Botany. Applications for preparation for the degree in other subjects in the Faculties of Letters and Science can be considered Postgraduation courses are also provided in Agriculture and Horticulture.

## C. Specialist Subjects:

Exceptional attention is given to Dairying Science and Practice. Students wishing to undertake advanced work in this subject should first obtain a degree in Science or a degree or a diploma or diplomas in Agriculture or Dairying. They could then undertake advanced work either in the University laboratories and the British Dairy Institute in

Reading or at the National Institute for Research in Dairying (forming part of the University) at Shinfield. The University courses usually begin in October. A post-graduation or post-diploma course would usually occupy at least a year.

#### UNIVERSITY OF SHEFFIELD

A Schools and Departments Law, Medicine, Dental Science, Music, Architecture, Engineering, Metallurgy, Mining, Fuel Technology, Glass Technology, Education.

B. Subjects in which the University is prepared to receive candidates for the Ph.D. degree:

Candidates for Ph D. degree are received in the Faculties of Arts, Pure Science, Law, Engineering (including Mining, Fuel Technology, Glass Technology), Metallurgy.

#### C. Specialist subjects:

Faculty of Medicine In addition to the usual laboratories devoted to research and to the instruction of students in the various branches of Medical and Dental Sciences, a well-equipped Field Laboratory is in existence wherein extensive researches into the pathological effects of small alterations in essentials of diet are being conducted, especially in relation to diseases arising from vitamine deficiency and to the development and the decay of teeth Engineering The University awards the degrees of B Eng, 3 yrs being spent for a pass degree and 4 yrs for honours, and the higher degrees of M Eng, Ph D, and D Eng. Students may take what is known as the "sandwich" course, which includes attendance at the University during the winter session, and practical training at an approved works during the six summer months This course extends over a minimum period of 4 yrs Mechanical and Civil Engineering The laboratories are equipped for courses of experimental work in Heat Engines, Hydraulics, Strength of Materials and Structures, they are provided with apparatus and machines for testing the mechanical properties of materials, there is a complete equipment for investigating the resistance of metals to fatigue and the effect of temperature on their properties. In connexion with the Civil Engineering course several weeks are spent in the field carrying out important surveys The Electrical Engineering Department comprises laboratories well equipped for experimental work in all branches of Electrical Engineering Extensive facilities are available for research work connected with the most recent developments of Electrical Engineering Science, with special reference to magnetism and the magnetic properties of materials Metallurgy The University is the most fully equipped educational institution in the country for the study of the Metallurgy of Iron and Steel. Attached to the department are large-scale laboratories in which steel can be melted in the crucible open-hearth and electric-arc furnaces, and heat-treatment can be carried out. The research laboratories are equipped micrographic and physical apparatus, including frequency induction furnaces The Department of Refractories

includes laboratories for research. Mining. Courses in Mining Engineering, including the practice of Mining, Mine Surveying, Mining Chemistry, Geology, and Electrical Engineering The "sandwich" courses for Degree and Diploma in Mining course are recognized by the Mines Department, Board of Trade, as exempting from 2 of the 5 years' practical experience required for Colliery Manager's certificate In the first year students spend 3 terms at the Univ and in the other years 6 months at a colliery under Univ regulations. Facilities provided for research. Fuel Technology. Courses embodying the practical evaluation of Solid, Liquid, and Gaseous Fuels, Coal Carbonization and By-product recovery, and Electro-Technology. Practical experience in working a modern gas producer in conjunction with steel-melting furnaces, and in Pyrometry. Technology of Glass. Courses of instruction in general technology of glass, physical properties of glass, glassworks machinery and furnace construction, and practical work includes analytical methods, pyrometry, physical testing and melting of glass on a considerable scale. The Department has been equipped as a special research institute.

#### UNIVERSITY OF WALES

#### University College of Wales, Aberystwyth

A Schools and Departments Law, Music, Agriculture (including Plant Breeding), Education, Arts and Crafts

B. Post-graduation courses leading to the Ph D or other higher degrees:

ARTS: Classics, English, French, German, Celtic; History; Politics, Economics and Agricultural Economics, Philosophy; Geography; Education; Mathematics

Science Mathematics, Physics, Chemistry; Agricultural Chemistry, Botany, Agriculture, Zoology, Geology, Geography, Anthropology.

C. Specialist Subjects:

Anthropology—Comparative Religion, early social organization, folk-lore, prehistoric archæology, mapping of human distributions, physical anthropology. Botany—Maritime life-histories and ecology. Classics—Rhythms of ancient prose, word-order. Education—Problems of bi-lingualism. History of British Dominions and of Latin America. Plant Breeding—Special study of breeds of grasses. Politics and Economics—Mediæval economics, modern international problems. Zoology—Marine faunistic work, plumbism, entomology.

## UNIVERSITY COLLEGE OF NORTH WALES, BANGOR

- A. Schools of Theology, Education, Agriculture, Forestry, Applied Electricity.
- B. Subjects in which the College is prepared to receive candidates for the Ph.D.;

Welsh History, Welsh Language and Literature, Comparative Philology (especially Celtic and Teutonic), Hebrew, Mathematics, Physics, Chemistry, Botany, Zoology, Agricultural Chemistry, Botany and Zoology, and other subjects, provided the special investigation proposed is suitable.

#### C. Specialist Courses:

Welsh History. Mediæval History: The Reformation in Wales: Religious and Social Conditions in the eighteenth and nineteenth centuries: Economic History. Welsh Literature. Ancient Welsh Poetry: Dafydd ap Gwilym: Welsh prosody: modern Welsh Literature: Comparative Celtic Philology German. Germanic Philology: German Dialects: Middle High German Poetry. Semitics. Semitic Philology Hebrew (Old Testament problems). Arabic (Classical: Modern dialects of Syria and Egypt Arabic grammar as set forth by Arab grammarians). Courses in Babylonian, Assyrian, Syriac, and Biblical Aramaic

# UNIVERSITY COLLEGE OF SOUTH WALES AND MONMOUTHSHIRE, CARDIFF

A. Schools of Education, Music, Engineering, Metallurgy, Mining, Medicine (including Public Health Science and Tuberculosis).

 $B\,$  Subjects in which the College is prepared to receive candidates for the Ph.D. degree  $\dot{}$ 

ARTS: Greek, Latin, English, Welsh, French, German, Hebrew, Mathematics, Economics and Political Science, Philosophy, Education.

Science: Botany, Chemistry, Geology, Mathematics, Physics, Physic-logy, Zoology.

TECHNOLOGY: Engineering, Metallurgy, Mining.

## C. Specialist Subjects.

ARTS: Byzantine Hymnody, Greek Drama, Modern English Drama; History of Latin Language and Literature, Roman History, with study of Roman Britain, with field work, Welsh Literature; The Mabinogion; Rise of Modern Welsh Literature, Comparative Literature of Wales and France in the Middle Ages, Arthurian Legend, Anglo-Norman; Arabic (including Syriac); Money and Banking.

Science. Chemistry. Experimental work on the Phase Rule and on the mechanism of reactions. Geology The South Wales coalfield and the lower Palæozoic rocks of Wales and of "Siluria." Mathematics. Mathematical Physics. Physiology. Experimental Neurology and Bio-Chemistry. Zoology. The Crustacea.

MEDICINE: Special opportunities for research work in biochemistry, experimental physiology, and the physiology of the nervous system. Unusual facilities, organized by the Professor of Tuberculosis, are given for instruction for the Diploma in Tuberculous Diseases (T.D.D., Wales), which is awarded to qualified medical men who, in addition to complying with certain specified conditions, have

pursued and successfully completed a course of study extending over 6 months.

#### UNIVERSITY COLLEGE OF SWANSEA

- A. Schools of Metallurgy, Engineering, Education.
- $B. \ Subjects in which the College is prepared to receive candidates for the <math display="inline">Ph\ D\ degree$  :

ARTS: Welsh Language and Literature, Welsh History, Philosophy.

 $\begin{tabular}{ll} Science & Mathematics, Physics, Chemistry, Botany, Geology, Metallurgy, Engineering. \end{tabular}$ 

Other subjects, provided that the special subject proposed is suitable

C. Specialist Subject:

Metallurgy (Ferrous and Non-ferrous).

# UNIVERSITY COLLEGE OF THE SOUTH-WEST OF ENGLAND, EXETER

- A Schools of Music, Education.
- B Subjects in which the College is prepared to receive candidates for the  $Ph\ D$  degree .

The departments in Arts and Pure Science receive candidates in a certain limited range of subjects.

C Specialist Subjects:

Cornish Language and Antiquities, intended for students who have made some progress in Celtic studies. Part of the Course will be given in Cornwall. Students may enter for it at the beginning of any of the three terms. Fee £7 per term

#### UNIVERSITY COLLEGE OF NOTTINGHAM

- A. Schools and Departments · Music, Commercial Science, Engineering, Mining, Agriculture and Dairying, Textiles, Pharmacy, Education, Adult Education
- B Subjects in which the College is prepared to receive candidates for the Ph D degree of London.

Philosophy, English, French, History, Physics, Chemistry, Botany, Geography, Geology, Mathematics, Engineering, Economics, Education.

C. Specialist Subjects:

Slavonic Languages, Fuel, Coal and Gas Technology, Textiles, Adult Education, Bacteriology. One-year course for graduates desirous of qualifying as Tutors of University Tutorial Classes leading to Diploma in Education. Fee 12 guineas.

#### UNIVERSITY COLLEGE OF SOUTHAMPTON

- A. Schools of Music, Commercial Science, Engineering, Education.
- B. Subjects in which the College is prepared to receive candidates for the Ph.D. degree

Various departments of Arts and Science, Education and Engineering.

#### UNIVERSITY OF ABERDEEN

- A. Schools of Theology, Law, Medicine, Arts, Commerce, Agriculture, Forestry, Education, Engineering
- B. Subjects in which the University is prepared to receive candidates for the Ph D degree. Applications for admission to courses of study and research for the Ph.D. Degree will be considered when received. There are special Post-graduation Courses in Theology and Medicine.
  - C. Specialist Subjects:

Celtic, Comparative Philology, Oceanography and Fisheries, Comparative Psychology, Cancer Research, Parasitology and Helminthology, Meteorology.

Special facilities for Post-graduation and Research work in Animal Nutrition and cognate subjects are afforded by the Rowett Research Institute and Experimental Farm.

#### UNIVERSITY OF EDINBURGH

- A. Schools and Departments. Theology, Law, Medicine, Tropical Medicine, Pure Science, Technical Chemistry, Veterinary Science, Music, Art, Commercial Science, Engineering, Mining, Agriculture, Forestry, Education.
- B. Post-graduation Courses are provided in the following amongst other subjects:

Latin; Greek, Classical Archæology and Hellenic Art, Greek and Roman History, English Literature and Rhetoric, French Literature: German Historical Grammar and Literature, Italian, Literary Relations of England and Italy during the seventeenth, eighteenth and nineteenth centuries; Spanish, Mediæval Text and Linguistic problems (the National Library of Scotland has a specially interesting collection of old and rare Spanish books), Semitic Languages; Theology, by the University Professors and the staff of New College and of Coates Hall; Logic, Metaphysics, History of Philosophy and Ethics, Psychology; Education, Economics, Pure and Applied Mathematics, Natural Philosophy; Chemistry (Note-In this Department a new building with complete equipment for teaching and research work has recently been erected at a cost of over \$200,000); Zoology, Botany, Geology; History; Constitutional History, Scottish History, Engineering; Law; Medicine; Forensic Medicine, History of Medicine; Pharmacology; Gynæcology; Pathology and Bacteriology, Psychiatry; Radiology; Surgery: Therapeutics: Tuberculosis.

For information regarding the subjects in which the University is prepared to receive candidates for the Ph.D. degree, inquiries should be addressed to the Secretary to the University, or to the Dean of the

Faculty concerned.

For information regarding Post-graduation Courses in Medicine application should be made to the Secretary, P-G. C. in M., New Buildings, Edinburgh.

#### C. Specialist Subjects:

Celtic. A. Ordinary Course-Open only to students who have passed a preliminary test. B. Course for graduates-Modern and Middle Gaelic texts, Middle Irish Grammar, Gaelic Literature, Philology, etc. C. Honours Courses, including Manx, Old Irish, History of Celtic Britain and Ireland and of the Celtic Church, Comparative Philology Sanskrit and Comparative Philology, with Indian Religion and Philosophy. Arabic, Junior, Senior and Honours Courses. Scottish History and Palæography. A Ordinary Course B. Honours Course, designed to aid students in dealing with original authorities C. Palæography, directed mainly to the practical study of Scottish records. Constitution of the British Empire A course of Lectures Prehistoric Archaelogy Graduation Course—The development of Culture, as revealed in the handiwork of early "men" Fine Art Graduation Course-The History and Theory of the Fine Arts from the earliest manifestations of Art in primitive civilization, through Egypt and Babylonia, and the Classical, Early Christian, and Mediæval epochs, to the more modern developments of Painting and the other arts in our own days. Geography. A. Ordinary Course covering cartography, climatology, oceanography and political and economic geography, especially of the Mediterranean region and Central and Western Europe. B. Honours Course-Economic Geography, History of Geography, Historical Geography, Economic Ethnography. The Diploma in Geography is obtainable by graduates of other universities. Actuarial Science. There is a Diploma in Actuarial Mathematics, the teaching for which is provided by the Faculty of Actuaries and the University jointly Mathematics. The Mathematical Institute (a large separate building) contains a Mathematical Laboratory for advanced practical computations Astronomy. Lectures at the University, practical exercises at the Royal Observatory, Blackford Hill. Agriculture. The course includes the History of British Agriculture, Indian and Colonial Agriculture, etc. Forestry. course includes Indian Forest Trees; practical work at Dreghorn and in various British and French woods. Veterinary Science. The course includes the Origin and History of the more important Domestic Animals: Genetics in relation to Animal Breeding.

#### UNIVERSITY OF GLASGOW

A. Schools of Theology, Law, Medicine, Pharmacy (Royal Technical Coll), Architecture (R. Tech. Coll), Naval Architecture and Marine Engineering, Engineering, Metallurgy (R. Tech. Coll.), Mining, Mining Geology, Agriculture, including Dairying (West of Scotland Agricultural Coll), Education.

B. Subjects in which the University is prepared to receive candidates for the Ph.D. degree:

In relation to the above, candidates should submit their applications o the Clerk of Senate, giving details of the subject or subjects which it s proposed to study The University is able to arrange for Postraduation work in the following: English, History (Modern and Iediæval), Scottish History and Literature, Constitutional Law and Iistory, Logic, Moral Philosophy, Political Economy (including Political Philosophy, Social Economics and Economic History), Education, Latin, reek, French, German, Italian, Celtic, Russian, Hebrew, Arabic, Mathenatics, Natural Philosophy and Applied Physics, Chemistry, Astronomy. Potany, Zoology, Geology, Geography; Civil, Electrical, Mining, Chemical Ingineering; Theory and Practice of Heat Engines, Naval Architecture 11th Marine Engineering; Anatomy, Physiology, Physiological Chemistry, Interia Medica, Pathology, Bacteriology, Public Health, Forensic Iedicine, Medical Pædiatrics, Practice of Medicine, Surgery, Midwifery, Ibstetrics and Gynæcology, Divinity, Biblical Criticism, Ecclesiastical listory. Scots Law, Conveyancing, Mercantile Law, Civil Law, Public nternational Law, International Private Law, Jurisprudence, Account-

Note —Subdivisions of the above subjects are not detailed here, nformation as to these can be had from the Clerk of Senate.

The Glasgow Post-graduate Medical Association offers exceptional pportunities for advanced study Among others, courses may be had i the following. Clinical Medicine (e.g. Diseases of the Nervous System, diseases of the Heart), Infectious Fevers and Tuberculosis, Clinical urgery, Diseases of the Eye, Obstetrics, Venereal Diseases, Diseases of the ar, Nose, and Throat, Children's Diseases, Gynæcology, X-rays, Shin diseases. (Application for information should be made to Dr. James arslaw, Secretary, Glasgow Post-graduate Medical Association, 9 Voodside Terrace, Glasgow, C 3

For information regarding the *Diploma in Public Health*, application hould be made to the University Registrar

C Specialist Subjects: The Senate, with the approval of the niversity Court, has recently instituted for Graduates and other Ivanced students (chiefly from Universities overseas), Post-graduate iplomas and Certificates for Special Study in Arts. The subjects at resent recognized for special study are: Islamic History, Greek History and Archwology, Roman History and Antiquities, Comparative Philology, ellenistic Greek, Psychology.

#### ROYAL TECHNICAL COLLEGE, GLASGOW

Provision is made for post-graduation studies of candidates for h.D. and other higher degrees, and the Associateship of the College is varded to qualified students who have taken an approved course of lyanced study and research. Special apparatus is available for search in the following subjects:

Technical Chemistry. Operations in industrial Chemistry. The xperimental plant includes filter and hydraulic presses, vacuum pan, puble-effect evaporator, etc. Fuels, Oils, Dyes and Dyeing. The phool of Sugar Manufacture forms part of this department and includes

plant for experiments on a large scale. Metallurgy: Physical properties of metals and their alloys, and of slags and refractories. Apparatus for determination of thermal, electrical and magnetic properties; dilatation determinations; thermionic emissivity of metals. Strength of Materials: Strength and fatigue of materials at high temperatures and in different Mechanical Engineering: Losses in steam nozzles and atmospheres in turbine blades; temperature distribution and fuel efficiency in internal combustion engines, heat transmission from fluid to fluid, across metal surfaces, frictional resistances, etc. Advanced lecture courses are also given in special branches of technical dynamics such as critical speeds of turbine shafts, torsional oscillations of crank and propeller shafts, stresses in turbine discs, etc. Electrical Engineering: Railway electrification, all types of electrical machinery, interference with communication circuits by power circuits, domestic electrical Advanced courses deal with turbo-alternators, electric Hydraulic Engineering: Experimental study of losses in traction, etc water flow and of the action of water in turbine and reciprocating pumps. Technical Mycology Analysis of sewage, milk, water, etc

Composition fee, twenty-five guineas per annum

#### UNIVERSITY OF ST. ANDREWS

- A Schools of Theology, Medicine, Engineering
- B. Provision is made for advanced study and research in the following departments

Latin, Greek, Hebrew, English, French, German, Philosophy, Psychology on its philosophical side, and more particularly in its relation to Theory of Knowledge, Moral Philosophy, Moslem Philosophy and Religion, Education, History, Scottish History, Ecclesiastical History, Mathematics, Natural Philosophy, Chemistry, especially carbohydrates and sugars, Constitution of Natural Products, Essential Oils, Optical Activity, Zoology, including work at the Gatty Marine Laboratory in St. Andrews Bay, Botany, Geology, Anatomy (Anthropology and Embryology), Physiology, especially the Ductless Glands and Metabolism, Ophthalmology, Bacteriology, Gynæcology, Medicine, Biblical Criticism, Engineering, Divinity

#### UNIVERSITY OF BELFAST

A Schools and Departments: Law, Medicine, Denial Science, Commercial Science, Civil Engineering, Applied Science (Municipal College of Technology), Education, Agriculture.

B Subjects in which the University is prepared to accept students for the Ph D. or other higher degree. Application for admission to courses of Post-graduation study will be considered as and when received.

## C. Specialist Subjects:

In conjunction with the Ministry of Agriculture, the department of

Agricultural Chemistry is responsible for research work in Animal Nutrition and Soils and Plant Nutrition; the department of Agricultural Botany has charge of "Seed Testing" and Plant Pathology Research in Northern Ireland Extensive laboratories have been erected. There is an experimental farm of 500 acres in connexion with the Faculty. Ample facilities also exist for Post-graduation work on Plant Genetics and Animal Hygiene at the Plant-breeding and Animal Pathology laboratories of the Ministry of Agriculture. Naval Architecture. Ship Design and Construction, Stability and Oscillation of ships, Resistance and Propulsion of ships, Marine Engineering. Chemical Technology. Bleaching, Dyeing, Finishing, and Printing of Textile fibres and fabrics. Textile Technology. Flax culture, preparation and spinning, designing and colouring of woven fabrics, Textile costing, testing and analysis; weaving mechanism; Mill and Factory equipment and administration. The Departments of Bio-Chemistry and Bacteriology afford facilities for Post-graduation research on these subjects.

#### UNIVERSITY OF DUBLIN, TRINITY COLLEGE

A Schools of Divinity, Law Physic, Dental Science, Engineering, Agriculture, Music, Education, Commerce

For information regarding courses leading to the degrees of B A. and B Sc , to the degree of Master in Engineering, Surgery and Midwifery , to the degree of Doctor in Divinity, Law, Medicine, Science, Literature and Music , and to the degrees of M Sc and Ph D , which are open to external students, application should be made to the Registrar, Trinity College, Dublin.

A pamphlet setting forth the facilities for advanced study and research can be obtained on application to the Registrar.

#### NATIONAL UNIVERSITY OF IRELAND

Schools of Law (University Colleges of Dublin, Cork, and Galway), Medicine (Dublin, Cork, and Galway), Dental Science (Dublin and Cork), Music (Dublin and Cork), Architecture (Dublin and Cork), Commercial Science (Dublin, Cork, and Galway), Engineering (Dublin, Cork, and Galway), Agriculture, Forestry, and Horticulture (Dublin), Education (Dublin, Cork, and Galway), Dairy Science (Cork). Specialist courses in all Univ. Colls in Celtic Archwology, Celtic and Irish Languages and Literatures, Irish History, in Univ. Coll, Dublin, in Anthropology, and in Univ. Coll, Cork, in Applied Chemistry and Agricultural Economics.

## XXVI

# A LIST OF CENTRES OF RESEARCH OUTSIDE THE UNIVERSITIES AND UNIVERSITY COLLEGES

RESEARCH STATIONS UNDER THE DEPARTMENT OF SCIENTIFIC AND INDUSTRIAL RESEARCH

- National Physical Laboratory, Teddington, Middlesex The Laboratory comprises the following Departments. Physics, Electricity, Metrology, Engineering, Aerodynamics, Metallurgy and Metallurgical Chemistry, William Froude National Tank.
- 2. H M. Fuel Research Station, Blackwall Lane, Greenwich, S E 10.
- 3. Geological Survey of Great Britain and Museum of Practical Geology, 28 Jermyn Street, S.W.I.
- 4. Forest Products Research Laboratory, Princes Risborough, Bucks
- 5. Building Research Station, Bucknall's Lane, Garston, near Watford.
- 6. Radio Research Station, Slough, Bucks
- 7. Chemical Research Laboratory, Teddington, Middlesex.
- 8. Low Temperature Research Station, Downing St., Cambridge
- 9. British Museum Laboratory, 39 Russell Sq , W C.

## Other Centres of Research

- 10. British Museum (Natural History), Cromwell Rd, London, S.W.7.
- 11. Imperial Institute, South Kensington, London, SW 7.
- Imperial Bureau of Entomology, Natural History Museum, Cromwell Road, London, S W.7
- 13. Imperial Bureau of Mycology, 17 Kew Green, Kew, Surrey.
- 14 Royal Botanic Gardens, Kew, Surrey
- 15. National Institute of Agricultural Botany, Cambridge.
- 16. Rothamsted Experimental Station, Harpenden, Herts
- Empire Cotton-Growing Corporation, Millbank House, 2 Wood Street, Millbank, London, S.W.I.
- 18. Harper Adams Agricultural College, Newport, Salop.
- Midland Agricultural and Dairy College, Sutton Bonington, Loughborough.
- 20. Seale-Hayne Agricultural College, Newton Abbot, Devon.
- The West of Scotland Agricultural College, 6 Blythswood Square, Glasgow.
- East of Scotland Agricultural College, 13 George Square, Edinburgh.
- 23 North of Scotland College of Agriculture, 41½ Union Street, Aberdeen.
- 24. Scottish Society for Research in Plant-Breeding, Corstorphine.

- Animal Diseases Research Association (Scotland), 83 Buccleuch Street, Glasgow.
- Research Institute in Animal Pathology, Royal Veterinary College, Camden Town, London, N W.1.
- 27. Veterinary Laboratory of the Ministry of Agriculture and Fisheries, Weybridge
- 28. Horticultural Research Station, Walthamstow.
- 29 Horticultural College for Women, Swanley, Kent.
- Horticultural Research Station, East Malling, Kent. (Chiefly fruit and hops)
- 31. Experimental and Research (Glasshouse) Station, Cheshunt.
- John Innes Horticultural Institution, Mostyn Rd., Merton, London, S.W 19.
- 33 Scottish Marine Biological Association, Millport, Scotland.
- Marine Biological Association of the United Kingdom, The Laboratory, Citadel Hill, Plymouth.
- 35. Davy-Faraday Research Laboratories of the Royal Institution of Great Britain, 20 and 21 Albemarle St, London, W.1. Director—Sir Wm. Henry Bragg, K B E, M.A, D Sc., F.R.S.
- 36 Industrial Institute, 102 Belgrave Road, London, S.W.1.
- National Institute of Industrial Psychology, 329 High Holborn, London, W.C.1.

[Persons wishing to avail themselves of the resources of any of the above centres are advised to call in the first instance for suggestions and advice on the Ministry of Agriculture and Fisheries in London, or the Board of Agriculture in Scotland, if the subjects in which they are interested fall within the purview of these Departments, and in regard to centres I to 9 on the Department of Scientific and Industrial Research.]

RESEARCH ASSOCIATIONS ESTABLISHED UNDER THE SCHEME OF THE DEPARTMENT OF SCIENTIFIC AND INDUSTRIAL RESEARCH

British Photographic Research Association, 30 Russell Square, London, W.C.I.

British Scientific Instrument Research Association, 26 Russell Square, London, WCI.

British Research Association for the Woollen and Worsted Industries, "Torridon," Headingley, Leeds

Research Association of British Motor and Allied Manufacturers, 15 Bolton Road, Chiswick, London, W.4.

British Boot, Shoe and Alhed Trades Research Association, 19 Bedford Square, London, WC1.

British Cotton Industry Research Association, Shirley Institute, Didsbury, Manchester.

British Iron Manufacturers' Research Association, Atlantic Chambers, Brazennose Street, Manchester.

Linen Industry Research Association, Lambeg, Belfast.

Research Association of British Rubber and Tyre Manufacturers, 105/107 Lansdowne Road, Croydon, Surrey.

British Association of Research for Cocoa, Chocolate, Sugar, Confectionery and Jam Trades, 22 Buckingham Gate, London, S.W.I.

British Food Manufacturers' Research Association, 22 Buckingham Gate, London, S.W.I.

British Non-Ferrous Metals Research Association, Athenæum Chambers, 71 Temple Row, Bilmingham.

British Refractories Research Association, 22 Northumberland Avenue, London, W C 2.

Scottish Shale Oil Scientific and Industrial Research Association, 53 Bothwell Street, Glasgow

British Launderers' Research Association, 17 Lancaster Gate, London, W 2

British Leather Manufacturers' Research Association, 26 St Thomas' Street, London, S E 1.

British Cutlery Research Association, PO Box 49, Sheffield.

British Electrical and Allied Industries Research Association, 36/38 Kingsway, W C 2

British Motor Cycle and Cycle Car Research Association, "The Towers," Warwick Road, Coventry

British Silk Research Association, 19 Russell Square, London, W C 1. British Cast Iron Research Association, 24 St Paul's Square, Birmingham

Research Association of British Flour Millers, 40 Trinity Square, London, E.C.3

British Colliery Owners' Research Association, c/o The Mining Association of Great Britain, General Buildings, Aldwych, W C 2

Research Association of British Paint, Colour, and Varnish Manufacturers, 8 St Martin's Place, Trafalgar Square, W C 2

[The following notes are based on replies received to an inquiry as to what opportunities are available at these centres for research by visitors from outlying parts of the Empire.]

- r-9 Research workers from overseas are not accommodated in the research stations of the Department of Scientific and Industrial Research unless sent by Dominion and Colonial Governments by arrangement with the Department Visitors from the Dominions or Colonies making enquiries on subjects falling within the scope of the various stations will, however, be supplied with such information as is available for communication.
- 3. The Geological Survey and Museum assists students and others doing research as follows: (a) Palæontology, Petrology, and Mineralogy; the collections of British fossils, rocks, and minerals are always available under the guidance of the officer in charge. If sufficient reason is shown specimens may be lent out. Microscopes and all necessary apparatus are provided in the Survey's laboratories. (b) Mapping and field work. In the library large scale maps of all parts of Britain which have been geologically surveyed are open for reference, and often the officers who

made the maps are at hand to explain points of difficulty. (c) The library is especially rich in foreign surveys and in British geological literature. The public are admitted freely.

- 10. BRITISH MUSEUM (NATURAL HISTORY). Departments: Zoology, Entomology, Geology (Palæontology), Mineralogy, Botany. In addition to the specimens exhibited in the public Galleries, much larger series are contained in the study-collections, which can be consulted or used for purposes of research by duly qualified workers. The function of the Museum is primarily to preserve representatives of the animals and plants (including fossils) of the entire world and of such inorganic natural productions as minerals, rocks, and meteorites. The systematic determination, description, and classification of this material constitute the principal research-work of the scientific staff (49 members) and other helpers. This forms the basis of further scientific research carried on either inside or outside the Museum, such as the study of variation, methods of organic evolution, geographical distribution of animals and plants, correlation of strata, chemical and physical properties of rocks and minerals, study of crystals All these branches of science may in turn be applied to the solution of practical problems.
- 11. IMPERIAL INSTITUTE The principal object of the Institute is to promote the utilization of the raw materials of the Empire, and the investigations carried out in its laboratories are primarily directed to this end. The work includes the examination of all kinds of plant products and minerals, special laboratories have also been installed for the testing of timbers, rubber, cement and ceramic materials. The results of the principal investigations are published in the quarterly bulletin of the Institute and in papers contributed to scientific and technical societies. Valuable information relating to the composition, properties, etc., of raw materials of all kinds has been accumulated in the course of the work, and the Institute will be glad to assist overseas research workers dealing with such materials by supplying any available information regarding particular products in which they are interested. Arrangements have been made in special cases for workers from overseas to carry out investigations in the laboratories of the Institute.

The Imperial Mineral Resources Bureau was amalgamated with the Institute in 1925.

- 12. IMPERIAL BUREAU OF ENIOMOLOGY. An information and identification bureau to assist economic entomologists throughout the Empire. The publications include the Review of Applied Entomology, Series "A" (Agricultural) and Series "B" (Medical and Veterinary); the Bulletin of Entomological Research, and the Zoological Record, part "Insecta." A large lending library is available.
- 13. IMPERIAL BUREAU OF MYCOLOGY. Mycologists from overseas are admitted to its laboratories to the extent to which space is available. A large lending library of pamphlets is maintained. Review of Applied Mycology, published by the Bureau monthly, contains detailed abstracts in English of all work published in any part of the world.

- 14. ROYAL BOTANIC GARDENS, KEW, afford to botanists, especially from the Colonies, facilities for carrying out scientific investigations in the Library, Herbanium, Economic Museums, and the Jodrell Laboratory. The principal botanical work carried out is concerned with the preparation of Colonial Floras and the naming of plant collections from abroad. Information is also supplied on botanical matters to all parts of the Empire. Research work is carried out on matters relating to Economic, Systematic, and Phytogeographical Botany and also in Mycology. Botanists should apply to the Director for permission to work in the Herbanium or in the Laboratory.
- 15. THE NATIONAL INSTITUTE OF AGRICULTURAL BOTANY, Huntingdon Road, Cambridge, was established in 1919 to improve the yield and quality of farm crops. The two main branches of the work are (a) Crop Improvement, covering field trials of farm crops at six regular sub-stations in England and Wales, and occasionally at other centres, the distribution of seed of improved varieties, and at the Potato Testing Station, Ormskirk, the official trials of potatoes for immunity from wart disease; (b) Official Seed Testing Station for England and Wales at Cambridge, which makes laboratory tests of the purity and germination of seed samples, and undertakes research work on seed problems In approved cases facilities would be given for post-graduation research. Reports of work done are issued in the Institute's Journal. Periodical meetings of Fellows of the Inst. are held for discussion, etc and examn in the theory and practice of seed testing was held in the summer of 1927; fee for course (four to five weeks), £5 5s, for examn., £1: is
- 16. The Rothamsted Experimental Station, Harpenden, Herts, founded in 1843, is controlled by the Lawes Agricultural Trust (Endowment Fund, £100,000), with which the Incorporated Society for Extending the Rothamsted Experiments (founded 1904) co-operates. Annual grants are received from the Ministry of Agriculture, which also gives Capital Funds for an approved purpose The Station includes extensive laboratories, glasshouses for the study of Plant Nutrition and Soil Problems and Plant Pathology, an area of 300 acres of land for the purpose of Farm and Experimental Fields, and a Library of 15,000 volumes

Provision is made for Post-graduate Research work, and for studies by agriculturists and others on leave from Agricultural Departments in the Empire.

- 17. EMPIRE COTTON-GROWING CORPORATION subsidizes research by studentships, grants to institutions for research, etc., and in 1926 established a Cotton Research Station in Trinidad, where the chief subjects of study will be the genetics and physiology of the cotton plant.
- 18. Harper Adams Agricultural College provides facilities for research workers in Agriculture, or in Chemistry, Mycology, Entomology or Economics in their application to Agriculture. The National Institute of Poultry Husbandry is located at the College, and provides

extensive facilities for poultry research Reports are published in the form of separate bulletins as well as in journals, such as the Journal of Agricultural Science, Bio-chemical Journal, and Annals of Applied Biology.

- 19 MIDLAND AGRICULTURAL AND DAIRY COLLEGE. Visitors admitted for research work in the Chemistry Laboratories, or in Dairying or Costings, at 60s per week, including board and lodging. Reports on experiments and small matters of research are issued from time to time.
- 20 SEALE-HAYNE AGRICULTURAL COLLEGF Of the college farm (339 acres with a subsoil of sandstone and shale) 20 acres are devoted to field experiments. There are 100 small botanical plots The research work is chiefly in connexion with insect and fungous pests. Experts from overseas proposing to visit the College would be welcomed, and arrangements could probably be made for them to work there temporarily Results of experiments are published in pamphlets
- 21. The West of Scotland Agricultural College, Glasgow. Applications by experts employed by the Government or Industrial Corporations in the British Empire overseas for permission to visit the College or for copies of bulletins will receive attention
- 23 NORTH OF SCOTLAND COLLEGE OF AGRICULTURE Experiments on farm crops on the College Farm at Craibstone, near Aberdeen, research work in Soils and Drainage and in Entomology, results of experiments and research published in bulletins
- 24 Animal Diseases Research Association (Scotland) A new Institute has been built at Moredun, Gilmerton, Edinburgh, and a suite of rooms have been taken over at the Royal (Dick) Veterinary College. At present the diseases of sheep and grass disease of horses occupy the staff. The range of work will be extended in the near future to other diseases of animals of Scotland. It is possible that facilities may be available in the future in certain cases for temporary workers.
- 29 HORTICULTURAL COLLEGE FOR WOMEN, SWANLEY, conducts investigations into insect pests and fungus diseases of cultivated garden plants. Students on leave from other countries will be welcomed.
- 30. East Malling Research Station, Kent (The Kent Incorporated Society for Promoting Experiments in Horticulture.) Research work is being carried out in Pomology, Hop Culture, Plant Pathology, Physiology, and Entomology From time to time facilities are offered to graduate students for gaining experience in research in these problems, both in the field and laboratories
- 31. EXPERIMENTAL AND RESEARCH STATION (GLASSHOUSE STATION), CHESHUNT. Research workers have been admitted to the laboratories for short periods when space was available. Reports are widely circulated.

- 32. JOHN INNES HORTICULTURAL INSTITUTION, Merton Park, London, S.W.19, promotes researches in various subjects connected with Horticulture, especially Plant-breeding, Cytology, and Mycology. Certified persons desirous of conducting work coming within the scope of the Institution are given facilities freely.
- 33. Scottish Marine Biological Association, Millport, N.B., admits students and research workers: table space rental ios. 6d. per week, including loan of microscope and use of ordinary reagents, library and reference collections, boats and collecting appliances when available.
- 34. MARINE BIOLOGICAL ASSOCIATION (Plymouth Laboratory) is always glad to receive visitors from abroad at the laboratories and to help them. Working tables can be rented (30s. a week) or obtained by nomination. Special facilities for fishery investigations. Results of researches are published in the Association's and other Journals.
- 36. THE INDUSTRIAL INSTITUTE, 102 Belgrave Road, SWI. Founded 1925 for the promotion of scientific research into those questions of industrial economics and industrial ethics which touch the relations and interests of the groups into which the development of the industrial system has divided the nation. It is constituted on a non-party basis, and it is expressly laid down that "it will not be concerned to maintain private ownership nor to develop public ownership," its object being "to study things as they are, and by the light of knowledge so gained to form conclusions which may be put into practice and tend towards improvement of the conditions of industrial life" A Committee has been appointed to take charge of each of four lines of work, and a sub-committee has undertaken the preparation of a "map" of the whole range of knowledge bearing on the general question of "Balance," so that the actual knowledge at present available should appear in its proper relations The "map," it was agreed, should also show the researches at present in progress in different parts of the world which bear on the question. Thus the gaps in the knowledge needed for the practical survey of the whole problem would be clearly presented.
- 37. National Institute of Industrial Psychology, 329 High Holborn, London, W C i Director—C S Myers, C.B E, M.D, Sc D., F.R S The Institute studies the human factors which enter into industry and commerce and applies the results in practice. On behalf of firms it conducts investigations into vocational selection, movement study and the influence of rest pauses, lighting, humidity, ventilation, seating, methods of payment, advertisement, etc., on output. In its own laboratories it offers vocational guidance to individuals, based on mental and physical tests. It provides lectures and practical work suitable for the requirements of the new Academic Diploma in Psychology in the Univ of London. It also offers facilities for research in those subjects. Journal, quarterly, Special Reports. Training Courses for School Teachers in the plinciples and methods of intelligence testing are organized.

THE BRITISH SCIENTIFIC INSTRUMENT RESEARCH ASSOCIATION CONducts research into problems pertinent to the manufacture and use of scientific instruments, including optical, surveying, nautical, and electrical instruments, and electro-medical and X-ray apparatus, and also into optical glass. It has headquarters' laboratories at 26 Russell Square, London, W.C.I. and researches are prosecuted in universities, technical colleges, works laboratories and works. Students are not admitted to work in the Association's laboratories. The research reports are, in general, confidential to members of the Association and to certain Government services, but some are published from time to time, either in scientific journals or separately for general circulation. The annual reports of the Association are distributed to certain public libraries, etc. at home and abroad, but otherwise are available only to members Among the institutions receiving them are: the Research Council Library, Parliament Buildings, Ottawa, Canada; Institute of Science and Industry, 314 Albert St, East Melbourne, Australia; Advisory Board of Industry and Science of the Union of S Africa, New Law Courts, Johannesburg.

The British Research Association for the Woollen and Worsted Industries awards Research Fellowships and Advanced Scholarships tenable at Universities and Colleges, but up to the present has not admitted students to work in its private laboratories. The results of research carried out at the headquarters of the Association are in some cases published in the Journal of the Textile Institute or in the Journal of the Society of Dyers and Colourists. Other reports are retained in the first instance for private circulation to members of the Association, but may subsequently be released for general circulation

BRITISH COTTON INDUSTRY RESEARCH ASSOCIATION does not admit students to work in its laboratories, but most of its work is released for publication, and appears first as *Shirley Institute Memoirs* and then in the *Journal* of the Textile Institute, 16 St. Mary's Parsonage, Manchester.

LINEN INDUSTRY RESEARCH ASSOCIATION, Lambeg, Ireland. Investigators, who must be British subjects, are admitted to work in the Association's Research Institute in furtherance of its objects and in preparation for higher University degrees. The work includes the investigation of problems arising in all branches of the industry, from the propagation of the seed to the merchanting of the finished goods. It affords scope for much original research in economic botany, agriculture, bio-chemistry, and physics, particularly the properties of colloids. The results of researches are frequently published in scientific journals. In order to develop flax-growing within the Empire, special arrangements exist to provide post-graduation instruction in the economic botany and technical utilization of the flax plant for suitable nominees from outlying parts of the Empire.

The Research Association of British Rubber Manufacturers has a technical library and information Bureau at their Laboratories at 105/7 Lansdowne Road, Croydon, to deal with inquiries from its members, Government Departments, and scientific workers in the Dominions. Carries out research, chiefly of a confidential nature, through its own staff. A Summary of Current Literature, containing abstracts of technical and scientific publications relating to all branches of the rubber industry, is issued to members and subscribers each month.

The British Non-ferrous Metals Research Association aims to cover the whole field of the non-ferrous metals and their alloys Membership of the Association is open to individuals and companies in any part of His Majesty's Dominions who have industrial interests in non-ferrous metals whether as smelters, manufacturers, or users. The researches of the Association are carried out in approved academic and other institutions, or in works, and the results are in the first instance reserved to members, although much is being published. So far as possible, the Association will be pleased to inform scientific workers from the Overseas Empire of the work it has undertaken or already published.

British Electrical and Allied Industries Research Association. Has no laboratory of its own. Arranges programmes of research and carries them out with the help of makers' laboratories and Universities and Technical Colleges (sometimes under contract with members of staffs or students), in power stations, etc. Aims at securing coordination of research work and realization of maximum benefits from it. Reports published generally in the *Journal* of the Institution of Electrical Engineers

British Silk Research Association. Research results of general interest are usually published by the Journal of the Textile Institute. Provision is not normally made for circulation of unpublished reports nor for admission of research students to the laboratory, but special applications addressed to the Secretary may be considered.

British Cast Iron Research Association of manufacturers of pig iron, grey iron, and malleable castings of all kinds, for research in the constitution, methods of production, and after-treatment of these and auxiliary materials, such as refractories, sands, fuels, slags, fluxes, etc. Their Central laboratory is in Birmingham and an auxiliary laboratory in Falkirk, but most of the research work is at University and other research laboratories at Sheffield, Birmingham, Manchester, etc., and at the National Physical Laboratory. Investigators interested in any phase of research work on cast iron may use the Association's Information Bureau, and the Director is prepared to co-operate in planning investigations. Quarterly bulletin of abstracts and information on current metallurgical literature. General account of the work of the Association printed in the Proceedings of the Empire Mining and Metallurgical Congress, 1924.

Q. Adams, S. B.

I On the cervical nerves to the Ph.D. platysma in Marsupials. 2. On certain head muscles of the Marsupials 3. On certain head muscles in Cetacea compared and contrasted with those in embryo Beluga.

#### CAMBRIDGE

THE PAMPHLET "ABSTRACTS OF DISSERTATIONS" APPROVED FOR THE PHD, M.Sc, AND M LITT DEGREES IN THE UNIVERSITY OF CAMBRIDGE for the Academical Year 1926-27 may be obtained from the Secretary of the Board of Research Studies, the Registry, Cambridge. The titles of theses for the M.D. degree are to be found in the Cambridge University Reporter.
